Some large slabs of fine marble taken from quarries at Bancroft and shown in the mineral display at the Toronto Exhibition in 1909 and 1910, drew attention to these deposits, and the material has been used for dados and halls, etc., in some public buildings recently erected in Toronto. A variety of colorings is obtained, one being a blending of mauve and gray in which the shades harmonize beautifully, and another a striking mixture of red and black. The stone itself is a species of dolomite. From Marble Bluff, in the County of Lanark, are obtained handsome serpentines of various shades of green, which bid fair to come into demand. The companies interested are The Ontario Marble Quarries, Limited, Bancroft, and the Central Ontario Granite and Marble Company, Trenton, for the beds in Bancroft, and the North Lanark Marble and Granite Quarries, Limited, St. Catherines, in those of Lanark county. The marble deposits of Ontario, as yet largely undeveloped, will undoubtedly in the future largely replace the quarries of Italy and Tennessee as a source of this decorative material, since it is apparent that in beauty and variety of markings, as well as in size of blocks, they can easily meet foreign competition. Specimens showing a wide range of shades have also been brought from the unsurveyed territory near Lake Nipigon, which when polished are very pleasing to the eye.

Considerable granite was taken out last year by Messrs. David J. Gordon and Son from their quarries near Gananoque.

Manufacture of Portland Cement.

The manufacture of Portland cement in Ontario began in 1891, and each successive year has seen a larger production than the one before. In 1910, 2,471,837 barrels were made, having a value of $3,144,343, the average price per barrel at the works being $1,273, a slight increase over that of 1909, when it was $1,257. In the latter year the production amounted to 2,303,263 barrels, worth $2,897,348.

The Canada Cement Company, by which title the "merger" is known which in 1909 united under one management the largest producers in Ontario as well as several in other parts of Canada, produced much the larger share of the cement made in 1910. This company operated plants at the following places: Port Colborne, Marlbank, Belleville (Lehigh), Owen Sound and Lakefield, the last-named to a small extent only. Outside of the "merger," the National Cement Company of Durham was the largest producer; others were Kirkfield Portland Cement Company, Kirkfield; Imperial Cement Company, Owen Sound; Ontario Portland Cement Company, Blue Lake; Hanover Portland Cement Company, Hanover; Superior Portland Cement Company, Orangeville; Maple Leaf Portland Cement Company, Atwood; and Sun Portland Cement Company, Owen Sound. The Ben Allen Portland Cement Company was idle and the Crown Portland Cement Company made no return. In the various factories 1,233 men were employed who received in wages $713,550.

The tendency in the manufacture of Portland cement is strongly towards the use of solid rock for supplying the carbonate of lime, rather than shell marl. At the outset of the industry, the latter was exclusively employed, but it was found more economical to raise and grind the rock than to dredge the marl and handle the large proportion of water accompanying it. The rock has the additional advantage of occurring in almost inexhaustible supply, as contrasted with the limited deposits of marl. It does not appear that there is any marked difference in the quality of the resulting cement.

The uses to which Portland cement is being put, are almost endless. It is taking the place for certain purposes, not only of brick and stone, but of iron and wood. One of the latest employments of this article, for which it answers admirably, is in making the electric light poles with which the hydro-electric commission is studding the streets of Toronto.

Other Clay Products.

Of drain tile the quantity returned as having been made in 1910 was 21,028,000, valued at $318,456, a considerable reduction from the output of 1909, which was 27,418,000, worth $363,550.

Sewer pipe to the value of $357,087 was made last year, an increase of $45,257, as compared with 1909. Three factories were in operation, namely, Dominion Sewer Pipe Company, Swansea, Ontario Sewer Pipe Company, Mimico, and Hamilton and Toronto Sewer Pipe Company, Hamilton.

From the potteries of the province, goods valued at $51,489 were turned out in 1910. This compares with $43,214 worth made in 1909. The growth of the pottery industry in Ontario is slow. In 1891, the first year of the Bureau's existence, the production amounted to $45,000. Doubtless the explanation is to be found in the scarcity or absence of clay suitable for the finer kinds of ware, the articles now made being for the most part coarse goods such as flower pots, jardinieres, etc. Two or three establishments manufacture higher grade goods, such as the so-called "stoneware," also majolica ware, but the clay for these is imported. Perhaps when population flows over the height of land the kaolinic clays found in the valleys of some of the north-flowing streams may be put in requisition to supply the wants of the inhabitants of newer Ontario.

NEW BANK PROPOSED.

The Bank of Alberta is proposed, with headquarters at Calgary, and branches at Edmonton, Lethbridge and Medicine Hat.

WHEN IS A PASSENGER?

"I went to get off the car, and as I stepped off there was an automobile coming up the other street. I saw the automobile there, and I stepped back on the car again, and reached to catch the handle; and the car must have been in motion, because it threw me around the other way; and I grabbed on to the mud guard of the fender of the automobile, and the car pulled out from under me." In the above words, Mr. John Wallace, commercial traveller, of Toronto, describes an accident of which he was the victim on King street at the St. Lawrence Market, on August 16, 1910. It occurred between nine and ten o'clock at night when he had just stepped from a Belt Line car, and was due to the habit automobiles have of crowding passengers who are mounting or descending from street cars.

Chief Justice Meredith gave Mr. Wallace judgment for $1,300, for 26 weeks total disability against the Employers' Liability Assurance Company in which he had an accident policy. The policy guaranteed him $25 a week while totally disabled, or double this if his injuries were sustained "while riding as a passenger in or upon a public conveyance." The company strongly contended that Mr. Wallace was no longer a passenger within the meaning of the policy as he had left the car in which he had been travelling and that his journey by the railway had come to an end.

"I do not think," said Chief Justice Meredith on this point, "that it can be said that the plaintiff had safely alighted from the car when he was injured. He was in the act of alighting, but when he was confronted by the danger which he apprehended from the passing motor vehicle he desisted from the act of alighting and endeavored to get back on the car, and it was while doing so that he was injured.

"It would be, I think, altogether too narrow a view to take of the definition of passenger which the policy contains, to limit the right to the double indemnity to cases in which the assured is actually in or upon the vehicle by which he is being or is to be or was conveyed.

"Although the plaintiff had reached his destination and intended to terminate his journey at the point where he attempted to alight, he had the right when he was confronted with the danger which he apprehended from the motor vehicle, or indeed, if he was so minded for any reason, to get upon the car again and to be carried to a place where he might alight with safety. It may have been the railway company would have been entitled to another fare."

NEW BRUNSWICK.

Business Generally in Good Condition — Intercolonial Railway Have Good Season—St. Stephen Has Board of Trade.

(Staff Correspondence).

St. John, N.B., November 22nd.

Wholesale trade has been somewhat affected this fall by the dullness in the lumber business. The logs cut this winter will be much smaller than usual, and there is less demand for lumbermen's supplies. With this exception trade is active and the prospects good. The farmers have found a ready market for potatoes at unusually high prices, and the produce market generally is in good condition. Manufacturing industries have had a good year.

The winter port season opens this week, with the arrival of several steamships at St. John from Liverpool, Glasgow, and other ports. A larger freight business than that of last winter is expected. Passenger traffic will also be large, and there are heavy bookings for the December steamers. A considerable movement of Italians back to Europe is also expected. The immigrant travel to Canada promises to be larger than it was last winter and spring.

Intercolonial Railway Will Have Good Season.

While the Canadian Pacific Railway handles the great bulk of the winter port trade, the Intercolonial Railway will have a good share this season. Already it has contracted to handle through its elevator a million and a quarter bushels of wheat, and more is expected. Considerable general cargo will also be handled by the government railway. The winter promises to be a very busy one along the St. John wharves.

St. John is making some important industrial gains. Messrs. T. S. Sims & Company, Limited, who employ 230 persons in their brush and broom factory, have purchased a five-acre site at the outskirts of the city, where they will begin next spring the erection of a new factory twice as large as their present plant. It will be a four-story structure, so planned that further additions can easily be made at any time. The company expect to have it in operation next fall, doubling their present output. The factory which they now occupy will then be taken over by the White Candy Company, which will then also be able greatly to increase its output. The last named company is a St. John branch of Ganong Brothers, Limited, of St. Stephen, and has been seeking larger quarters in order to manufacture on a larger scale.

St. John has endorsed the agreement with the New Brunswick Hydro-Electric Company, under which this company may transmit power from Lepreaux and distribute it in the city. Maximum rates are named in the agreement. If the provincial legislature ratifies it the city will get both light and power cheaper than at present. The Inglewood Pulp and Paper Company, which has water powers at Musquash, nearer to the city than Lepreaux, is also desirous of eventually supplying power, or selling its property to the city for the purposes of a municipal light and power plant.

British Capital for Lumber Business.

Important industrial news comes from Chatham. Messrs. Riordon & Read, well known in the paper and lumber trades, have inspected the plant of the Miramichi Pulp and Paper Company, and the lumber mills and property of Messrs. J. B. Snowball Company. The inspection was made in the interests of Sir John Milbanke, and it is reported that this English capitalist contemplates the purchase of the two properties and the addition of a paper mill. The pulp mill has been idle this year, and if the proposed deal goes through it will give a decided impetus to Chatham.

The Canada Iron Corporation has shipped about 35,000 tons of iron ore from the mines in Gloucester County this season, chiefly to Philadelphia. The development of the property is steadily going on, and a very large output is planned for next year.

The Maritime Hat and Cap Company, which is the first industry attracted to Moncton by the natural gas installed this year, has taken the fine building formerly used as a lock factory and has begun operations. Moncton's new street car line will be in operation over part of the route before winter has fairly opened.

The American Consul of St. John was so impressed by the recent New Brunswick apple show, the great number of varieties and the quality of the fruit, that he is sending a full report to the department at Washington. A fruit dealer from Manchester, England, said that the exhibit was the finest he had ever seen, and predicted for New Brunswick a great future as an orchard province. Portions of the exhibit were sent to British cities, and portions to Toronto, Ottawa and McDonald College.—W. E. A.

T. C. BOVILLE,

Deputy Minister of Finance

OCTOBER BANK STATEMENT

Figures Indicate Business Expansion — Circulation Increase a Record — First Return of Banque Internationale du Canada

	October, 1910.	September, 1911.	October, 1911.	Year's Inc. or dec.	Month's Inc. or deo.
Deposits on demand	$280,838,612	$313,584,893	$331,853,562	+18.2	+5.8
Deposits after notice	549,016,725	577,591,045	586,451,045	+ 6.8	+1.5
Current loans in Canada	679,820,039	749,007,607	768,492,008	+13.0	+2.6
Current loans elsewhere	41,269,126	35,587,127	36,962,543	—10.4	+3.5
Call loans in Canada	64,561,641	67,717,991	69,088,467	+ 7.0	+2.0
Call loans elsewhere	103,279,774	93,517,076	88,722,640	—14.0	—5.4
Circulation	95,992,866	97,197,176	105,855,021	+10.2	+8.9

In the October bank statement increases occurred in all but the call loans elsewhere, which show a decrease of nearly $5,000,000, or 5.4 per cent. during the month. The decrease for the year is 14.0 per cent. A noticeable feature of the statement is that the circulation for the first time has exceeded nearly one hundred million dollars. The month's increase was 8.9 per cent., and ror the year 10.2 per cent. Out of a total of twenty-nine chartered banks sixteen took advantage of the emergency circulation last month, which indicates a further expansion of trade throughout the Dominion. Current loans in Canada increased $19,484,401, or 2.6 per cent., and foreign current loans gained 3.5 per cent. Demand and after notice deposits continue to grow at a rapid pace, the former increased 5.8 per cent., and the latter 1.5 per cent.

The following table shows the course of domestic loans during the past thirteen months:—

Loans	Current in Canada.	Call in Canada.
1910—October	$679,820,039	$64,561,641
November	677,617,478	62,866,513
December	677,064,829	63,983,912
1911—January	682,506,695	60,200,781
February	689,234,781	59,132,692
March	710,604,072	58,369,712
April	712,032,758	57,832,690
May	708,093,677	57,709,853
June	717,869,386	61,507,268
July	723,765,358	65,339,288
August	734,683,962	65,106,110
September	749,007,607	67,717,991
October	768,492,008	69,088,467

During the year domestic current loans show an approximate increase of $89,000,000, or 13.0 per cent., and domestic call loans exhibit a gain of 7.0 per cent. for the same period. The lowest point reached by the domestic call loans was in May, when the amount totalled $57,709,853.

The October figures are the highest in the loan accounts for the past year.

The following comparative table compiled by The Monetary Times shows the growth in the loan accounts for the past five years:—

In October, 1909, demand deposits amounted to $280,838,612, and last month they totalled $331,953,562, an increase of $51,114,950, or 18.2 per cent. Twice during the past year have demand deposits exhibited losses.

After notice deposits appreciated during the year $37,434,320, or 6.8 per cent. The account is usually called the savings bank account, and only once during the year has it declined.

How the deposit accounts have grown during the past year is shown in the following table,—

October.	On Demand.	After Notice.	Total.
1907	$170,498,311	$416,787,636	$587,285,947
1908	190,114,091	414,789,347	604,903,438
1909	250,968,487	480,837,606	731,806,093
1910	280,838,612	549,016,725	829,855,337
1911	331,953,562	586,451,045	918,404,607

Since 1907 demand deposits have increased $161,455,251, while savings deposits have appreciated $169,663,409. The total deposits five years ago were $587,285,947, and today amount to $918,404,607, a gain of $331,118,660.

An interesting feature of the October bank statement is the first statement of the Banque Internationale du Canada.

It will be seen that the bank's call and current loans totalled $714,994, while the paid-up capital is $1,026,940, out of the authorized $10,000,000. The October figures follow:—

Liabilities.

Capital authorized	$10,000,000
Capital paid up	1,026,940
Reserve	
Circulation	$168,360
Deposits on demand	311,424
Deposits on interest	127,525
Balance due to agencies	45
Total liabilities	$607,355

	Oct., 1907.	Oct., 1908.	Oct., 1909.	Oct., 1910.	Oct., 1911.
Current loans in Canada	$579,860,498	$519,263,607	$579,837,956	$679,820,039	$768,492,008
Current elsewhere	25,355,255	27,480,811	37,311,103	41,269,126	36,962,543
Call in Canada	46,843,488	42,102,565	56,996,065	64,561,641	69,088,467
Call elsewhere	47,946,737	70,239,118	129,964,353	103,279,774	88,722,640

In October, 1907, domestic current loans amounted to $579,860,498, and last month to $768,492,008, an increase of $188,631,510. For the same period foreign current loans gained $11,507,288. In 1908 these accounts exhibited losses, but since that time marked increases have taken place.

Domestic call loans during the past five years have changed from $46,843,488 to $69,088,467, a gain of over $22,000,000. Foreign call loans now total $88,722,640, an increase since 1907 of $40,775,903. Compared with the figures in 1909 this account has depreciated $41,241,713.

The course of the deposit accounts is illustrated by the following table:—

	On demand	After notice
1910—October	$280,838,612	$549,016,725
November	289,759,025	551,113,835
December	280,910,695	544,220,710

September	313,584,893	577,591,045
October	331,953,562	586,451,045

Assets.

Specie	$1,065
Dominion notes	337,715
Deposit with Government	5,000
Notes on other banks	157,395
Deposits from other banks	362,190
Balance due from United Kingdom	3,570
Balance due from elsewhere	75,631
Call loans	281,000
Current loans	433,994
Total assets	$1,657,562

The October bank statement shows that the Dominion continues to enjoy prosperity.

◆

Mr. F. M. Pratt, of the Toronto General Trusts Corporation, Toronto, has been appointed manager with headquarters at Vancouver, B.C., of the Dominion Land Corporation, Limited.

The Premier Life Insurance Company will apply to the Dominion Parliament for an act of incorporation. Messrs. Pringle and Guthrie, Ottawa, are solicitors for the applicant.

MOST FAVORED NATION TREATIES.

Canada's Treaty Obligations — Attitude of British Government.

Canada's position under the most-favored-nation treaties concluded between Great Britain and foreign countries has been a matter of discussion between British and Canadian ministers for a long period of years. According to the statement of both British and Canadian ministers, Canada is bound under these treaties to give to the following countries the benefit of any reduction of duties to any country:—

Argentine Republic, Austria-Hungary, Bolivia, Columbia, Denmark, Japan, Norway, Russia, Spain, Sweden, Switzerland, Venezuela. France is also entitled to most-favored-nation treatment on all the articles included in the Franco-Canadian Convention. But the list of commercial treaties between Great Britain and foreign powers containing most-favored-nation clauses which apply to the different parts of the Empire is a considerably large one. The treaties with all tho twelve countries named above, except Austria-Hungary, Japan and Spain, were negotiated before the passing of the British North America Act of 1867. Canada then had no opportunity of adherence to or dissent from Imperial treaties.

Canada's Treaty Obligations.

In the case of the subsequent Imperial treaty with Austria-Hungary (1876), Canada and the other Dominions were given power to adhere, and did adhere; while in the case of the modus vivendi with Spain, they were given power to dissent, but did not dissent. In the case of the new Anglo-Japanese treaty Canada did not avail herself of the power to adhere, but by an exchange of notes (July 1911), Article 5 (i.e. the most-favored-nation clause) of the treaty of 1895 was continued in respect of the Dominion of Canada for a period of two years from July 17, 1911. There are no treaties binding Canada to give most-favored-nation terms to Italy, Holland and Belgium, but in consideration of the favorable terms extended to Canadian goods in those markets, Canada has by Orders-in-Council (1910) granted to these countries the lower duties of the Franco-Canadian convention on a selected list of items.

In the case of Italy and Belgium, as in the case of Germany, these concessions are to be followed, as soon as may be mutually convenient, by general and more comprehensive arrangements. It will be noticed that of the two countries which have been approached by the British government with a view to the omission of the most-favored-nation clause in its application to the British Dominions, Canada alone is party to the most-favored-nation arrangement with Austria. The most-favored-nation arrangement with Italy affects not Canada but Australia and New Zealand.

Canadian Objections and Britain's Reply.

As far back as 1891, the Senate and the House of Commons of Canada adopted a memorial to Her Majesty setting out the objections to the system of most-favored-nation treaties, and proposing the adoption of the principle of reciprocal concessions as between the various parts of the British Empire and between the Empire and foreign nations. The reply of the British government in April, 1892, was to the effect that to comply with the Canadian suggestion "it would be necessary to revise very extensively the existing commercial treaties of the British Empire, and a great break-up of existing commercial relations of which Canada now enjoys the benefits is involved."

At the 1911 conference Sir Wilfrid Laurier, as prime minister of Canada, moved and the conference adopted the following resolution: "That His Majesty's government be requested to open negotiations with the several foreign governments having treaties which apply to the Overseas Dominions with a view to securing liberty for any of those Dominions which may so desire to withdraw from the operation of the treaty without impairing the treaty in respect to the rest of the Empire."

Attitude of British Government.

In the course of the discussion Sir Edward Grey explained the attitude of His Majesty's Government. He noted the approaches that had been made in 1910 to the governments of Italy and Austria, and the failure of those governments to comply with the suggestion. He proceeded to say: "Certain words, I think, are put into the resolution which contemplate that it might be very inconvenient to denounce existing treaties which have considerable benefit perhaps for several parts of the Empire before we have secured a new arrangement, and that to denounce existing treaties and to leave the whole of the British Empire in the air, so to speak, or suspended so far as commercial relations are concerned, might result in considerable inconvenience to the Empire generally, owing to a step which had been taken on behalf of one particular portion of the Empire. So I think the limiting words in the resolution—'without impairing the treaty in respect to the rest of the Empire'—are important.

"But I think we might meet the case very well by agreeing to open negotiations with those countries with whom treaties exist which are now felt to be embarrassing, asking them whether they would be prepared to modify the treaties which now exist, so as to bring them into accord with the principles on which all our treaties for the last 15 years, at least, have been made, and bring them up to date, so to say. If they will agree to do that the course is quite simple; we would then proceed with the modification of the treaty, which would leave the old treaty in existence, but in a form which was brought up to date.

Italy Could Not Alter Agreement.

"But supposing they adhere to the line, for instance, taken by the government of Italy, that they cannot alter the existing treaty, and it would require the negotiation of a new treaty, then I think the best course of procedure would be to enter upon the negotiations for a new treaty with the foreign country in question, but without denouncing the existing treaty. We might then proceed with those negotiations for a new treaty in which we would make one of the Articles to the effect that when that new treaty came into force it would abrogate the old treaty; but supposing the negotiations were protracted and we found more difficulty than expected in arriving at a satisfactory conclusion of a new treaty, the old treaty, with such benefits as it contained, would still remain in force, and there would not be the risk of our having denounced an old treaty, the old treaty coming to an end and our having found insuperable difficulties in the way of negotiating any new treaty, and having that unsatisfactory state of uncertainty existing as to what the commercial relations were going to be with the foreign country, which is always very much resented by trade.

"So what I would propose is that we should accept the resolution with the intention of opening negotiations as soon as possible with the particular countries whose treaties are now out of date, and that we should make them the proposal in the first instance which I have suggested—that they should alter the existing treaties to bring them up to date, and, if that is found impracticable, that we should then ask them to open up negotiations for a new treaty; but the old treaty to remain in existence until the new treaty had been concluded. I ought to say, I think, negotiations for a new treaty would take considerable time, in some cases at any rate, because in the case of these old treaties there are some provisions which are convenient to us and to which we appeal from time to time to these foreign countries, but which are no longer so convenient to them as they were at the time they were framed; and therefore, it is quite possible that when we ask them to negotiate new treaties because we wish to bring up this point which we consider essential to us arising out of modern conditions, they may find certain other points which are convenient to them which they also may wish to bring up. But that is no reason why we should not begin the negotiations. I only mention it now to prevent disappointment."

Were Treaties Almost Interlaced With Each Other.

In answer to questions of members of the conference, Sir Edward Grey said:—"If we cannot bring it to a conclusion in a year or two it looks as if the negotiations would never result in anything, and we should have to consider the situation afresh; but I do not think we need contemplate that until we have found negotiation impossible. It would follow from the resolution that we should begin negotiations, and if we find those impracticable the next Imperial conference would have to consider the situation as we find it then. We will make the best use of the time we can for negotiation in the intervening years before the next conference."

Mr. Fisher, Prime Minister of Australia, asked whether it was not the case that the Austria-Hungarian treaties (1868 and 1876) and the Italian treaty (1883) "are almost interlaced with each other, which makes it somewhat difficult to denounce the one without the other," to which Sir Edward Grey replied that he was not sure about that, "but in any case those are two of the countries with which we should proceed with negotiations simultaneously," and Sir Edward Grey closed the discussion with the following reflection:—"To show how inevitable it is that this question must have come up, Sir Wilfrid mentioned twelve countries—he did not go all through them by name—with which there were treaties which he felt to be restrictive to Canada. Amongst those twelve countries that are included in the list I have Denmark and Sweden. One of the treaties with Sweden, I believe, was made by Oliver Cromwell, and the treaties with Denmark were made in the time of Charles II. I only give that as an illustration of how inevitable it is that the question should arise."

There is no question, says the British Tariff Commission, that it would be opposed to diplomatic usage and international law to abrogate one part of a treaty, leaving the remainder in force. Any partial abrogation can only be effected by consent. In a Foreign Office memorandum dated May 14, 1888, and published in a White Paper, Sir Edward Hertslet says:—"In reply to the inquiry whether one of the contracting parties to a treaty can abrogate one of its Articles without prejudicing the remainder of the treaty, it may be stated that it would not only be contrary to diplomatic usage but opposed to international law, for one of the contracting parties to a treaty to abrogate one or more of its Articles without the consent of the other contracting party, as all treaties stand as a whole, unless a stipulation be made to the contrary in the treaty itself. In the event, therefore, of the denunciation of the treaties mentioned in this return, the trade of this country with the Powers parties to those treaties would henceforward depend not on treaty stipulations, but solely upon such legislative enactments as those countries might think fit to impose."

In recent years Germany and Italy have refused to exempt the Dominions from the operation of their treaties—precedents of which other Powers will take full cognizance when asked to adopt a similar course.

Sir Wilfrid Laurier's Three Propositions.

As regards the future trade relations between the Dominion and foreign countries, Sir Wilfrid Laurier, in moving his resolution regarding foreign treaties at the Imperial Conference of 1911, said:—"In insisting upon this resolution which was accepted the other day, as I understood, by all the Dominions here present, for my part, I am very emphatic in saying that it should be coupled, and I have no hesitation in making it as broad as possible, with three propositions. First of all, I think we are all agreed in this: that the policy of the self-governing Dominions represented here should be, in their first efforts, to develop their trade as far as they can go with the mother country, and give every facility possible to make it closer year by year as years go on. The second proposition is that though that should be our first effort, it does not follow that we should confine our efforts to the British market alone, but our second effort should be to develop our trade with other nations with which we can trade. The third proposition is that in all arrangements which may be made with other nations by the self-governing Dominions, all advantages and all benefits that are given to those other nations should be given also, not only to the mother country, but to all the other Dominions which comprise the British Empire. In other words, if, for instance, we make a tariff arrangement with the United States, every privilege which we give to the United States we should be prepared to give to the mother country and to the other Dominions."

PERSONAL.

Mr. Michael Burke, vice-president of the City and District Savings Bank, Montreal, is dead.

The Bank of Montreal has been appointed the financial agent for the city of Quebec in London, Eng.

Mr. B. Austin, Montreal, manager of the Eastern Townships Bank, has resigned, after 42 years' service with the bank. He retires on a pension.

Mr. A. J. Nesbit has resigned as manager of the Investment Trust Company, Montreal, to go into business for himself. Mr. N. B. Stack, secretary-treasurer, has been appointed manager.

Mr. E. J. Chamberlin, vice-president of the Grand Trunk Pacific, expects that their line into Prince Albert will be finished next summer and trains in operation. When work closed this season about six miles of the grade remained to be finished.

Mr. F. S. Johnson, accountant at the head office of the National Finance Company, of Vancouver, B.C., has been transferred to the Toronto branch. This move has been found necessary owing to the increase in the company's operations in Ontario.

Mr. R. J. Whyte, for many years associated with the Frost & Wood Company, Limited, of Smith's Falls, Ont., has opened an office in the Eastern Townships Bank Building, Montreal, where he will conduct a general financial business, specializing in bonds and general investment securities.

WESTERN CANADA.

Business is Good—Canadian Pacific Railway May Extend Yards—In the Wheat Markets.

Monetary Times Office,
Winnipeg, November 21.

Business news from all parts of the three prairie provinces continues to be encouraging, almost every department reporting increasing activity. Notwithstanding the backward harvest and the threshing difficulties encountered, there is a steady flow of business, for, although the wheat crop has been damaged to some extent, the crop is a large one and prices are comparatively high. Already the approach of the holiday season is having a visible effect on trade in general, and the outlook is for a steady business throughout the winter. Collections are somewhat slow, but merchants look to collecting a substantial percentage of outstanding accounts, and money is beginning to come in fairly satisfactorily under the circumstances.

Extension of Winnipeg Yards.

That the Canadian Pacific yards are now too small for the requirements of the road is further evidence of the rapid progress and development of the West. A deputation of the Winnipeg board of trade waited upon Vice-President Bury, of the Canadian Pacific Railway, regarding the present congested state of the yards. The vice-president pointed out that the country was making rapid and unexpected progress, and although the yards were being extended all the time it was difficult to keep up with the growing demands of the West. Another difficulty experienced this season was that the harvest was several weeks late, but notwithstanding this fact the Canadian Pacific has this fall handled more wheat than it handled last fall, with a month less to do it in. Mr. Bury announced that steps were being taken to relieve the congestion, and the question of laying out more extensive yards is under the consideration of the management.

In the Wheat Markets.

Markets have been steadier and stronger all week, and there has been an all-round advance in values, our local market making a gain of around two cents over the previous week's close. For the present, the important feature is the Argentine weather, as prices in the near future will depend more on Argentine news than all else. Advices from that country give the impression that the outlook for the big harvest is not so good as it has been, but reports are so conflicting that the wheat trade is kept in an unsettled state. It is conceded that it will take an important injury to bring the Argentine harvest down to a normal size. Meantime, nothing more than a trading market is expected for the immediate future.

Local Market Busy.

Our local market did a brisk business all week. The cash demand for spot wheat was good for practically all grades, urged on by the possibility of a premature close of navigation. Owing to wintry weather, receipts for the week showed a decline over the previous seven days, but were still considerably in excess of last year's figures. At the same time offerings were none too liberal in view of the comparatively large arrivals. Export prices are still two to three cents out of line, and business was slow, but there was an improved inquiry from the continent. The Canadian visible has now reached approximately to last year's total, while stocks in terminals exceeded ten million bushels, with total shipments exceeding four millions, which is a million over the same week a year ago.

WIDESPREAD EFFECT OF A FIRE.

"I got copies of the London, Ontario, papers reporting the fire of November 3rd," writes Mr. Henry Lye, of Vancouver, to The Monetary Times. "I calculate from the head lines that about 500 people were directly interested; that with their families at least 1.000 people will be affected; that the dealers, and their families, from whom they have purchased daily supplies will bring up the number to 1.250; that decreased purchases, deferred payments, etc., will affect retail and wholesale merchants in London, Canada; United States, and Europe; that about 5,000 shareholders in insurance companies will suffer, that Canada's wealth will be decreased $250,000; all by a fire, the cause of which is a continual condition in all our cities. And moreover, there is no doubt of the good faith of all concerned, or the sufficient water supply, or the efficiency of the fire brigade.

FIFTY-FIVE NEW COMPANIES.

Several Large Concerns—British Columbia Will Cancel Charters of Companies not Conforming to Law.

Fifty-five companies were incorporated last week with a total capitalization of $14,780,000. The number of companies in each province is as follows: 24, Ontario; 14, British Columbia; 9, Manitoba; and 8, Quebec.

The P.A.Y.E. Tram Car Company, with head office in Montreal, and capital of $3,750,000, was the largest to be granted a charter. The provisional directors are Messrs. E. G. T. Penny, G. V. Cousins, and P. F. Brown.

A charter of incorporation has been granted to the British North American Dry Dock and Shipbuilding Company, Limited, with a capital of $1,000,000, and head office at Quebec. The signatories in the charter are Messrs. Philippe Bazin, J. F. Burstall, V. Chateauvert, William Dobell, Nap. Druin, J. M. Letellier, William Price, J. T. Ross, and William Shaw, all of Quebec.

It is understood that this company will immediately make application for the subsidies for the construction at Quebec of the largest dry dock in the world and upon formal acceptance of the scheme by the government the work will begin at once. The dimensions of the proposed dock will be: Length, 1,150 feet; width of entrance, 110 feet. There will be forty feet of water on the sill.

Other large incorporations were:—Martin Porcupine Mines, Toronto, $2,000,000; Scottish Ontario Gold Mining Company, Toronto, $1,500,000; International Life Boat Company, Toronto, $1,000,000; Similkameen Fruit Land Company, Winnipeg, $1,000,000; British North America Securities Corporation, New Westminster, B.C., $1,000,000.

A syndicate composed of prominent business men of the Ottawa district have bought out the interests of the Calumet Company's mines on Calumet Island, Pontiac County, for $1,000,000. A company has been formed of which Mrs. Ella Barils-Reeder is the president, to develop the property. A concentrator is in course of erection, and the new company intends to spend $60,000 on improvements. The property consists of a galena, plumbugammite and silver mine.

The Robeson Preserve Products, Limited, of Michigan, is licensed to do business in Ontario.

Permission is given to the Robinson Brothers Cork Company, Limited, to increase its capital from $200,000 to $500,000.

The Achilles Mines, Limited, is empowered to subdivide 200,000 shares of the par value of $5 each into shares of the par value of $1 each so that the company's capital stock shall consist of $1,000,000.

In a recent issue of the British Columbia Provincial Gazette there is a list of about five hundred companies incorporated, registered or licensed for the purpose of transacting business in British Columbia which, if they do not fully conform to the requirements of the companies' law within sixty days will be struck from the register and thus deprived of their trading powers and privileges in this province.

In all, when the purging of the register, now systematically progressing, is completed, it is expected that upwards of one-third of the incorporated companies of British Columbia, three thousand or more out of a total of seven thousand and odd, will be extinguished. Incorporation accomplished as a preliminary incident in business enterprises which failed to justify hopes and expectations and which enterprises have gone but little further, accounts for the appearance on the roll of many moribund institutions which no one cares to preserve. In many other cases the companies threatened with extinction are active and operating, but have thus far neglected to file the reports required under the statute.

The following is a list of charters granted during the past week. The head office of each company is situated in the town or city mentioned at the beginning of each paragraph. The persons named are provisional directors:—

Garthby, Que.—Garthby Copper Mining Company, $10,000; T. Lapointe, O. Garant.

Milverton, Ont.—Pfeffer Milling Company, $100,000; J. Pfeffer, L. Pfeffer, L. E. Pfeffer.

Orillia, Ont.—J. H. Ross Boat and Canoe Company, $40,000; J. H. Ross, M. A. Ross, G. Millar.

Notre Dame de la Victoire, Que.—J. B. Blouin, $100,000; C. Blouin, J. H. Hamilton, D. L. Roberge, Levis.

Owen Sound, Ont.—Owen Sound Specialty Company, $40,000; H. E. Rowland, W. H. Merritt, W. Taylor.

Mimico, Ont.—Mimico Bowling and Athletic Club, $40,000; H. McGee, T. L. Rice, T. N. McGill, Toronto.

Portage la Prairie, Man.—Portage la Prairie Brick and Tile Company, $25,000; P. Whimster, G. Gwilt, E. A. McPherson.

New Westminster, B.C.—British North America Securities Corporation, $1,000,000. Pacific Chocolate Company, $100,000.

St. Thomas, Ont.—R. H. & J. Dowler, $100,000; R. H. Dowler, London, Ont.; J. Dowler, M. J. Callaghan, St. Thomas.

Quebec, Que.—British North American Dry Dock and Shipbuilding Company, $1,000,000; W. Price, J. F. Burstall, V. Chateauvert.

Clinton, Ont.—Attachable Player Action Company of Canada, $40,000; D. S. Cluff, Clinton; G. L. Stanwood, Winnipeg; W. Proudfood, Goderich.

Ottawa, Ont.—Danford Farms, $20,000; C. P. Ludington, Hull; R. V. Sinclair, J. I. MacCraken, Ottawa. Credit Clearing House, $100,000; N. A. Belcourt, J. A. Ritchie, N. Rattey. Architectural Metal Company, $75,000; W. H. Dwyar, R. W. Dunning, N. W. Dunning.

Montreal.—A. & P. Steven, $50,000; D. H. Charles, A. H. Charles, J. Johnson. P.A.Y.E. Tramcar Company, $3,750,000; G. V. Cousins, E. G. T. Penny, P. F. Brown. A. Sommer & Company, $100,000; M. Goldstein, Westmount; P. Beullac, A. Lalonde, Montreal. La Compagnie Miniere du Canada, $20,000; L. Gravel, O. Bernier, J. A. Tanguay. Stuart Company, $100,000; S. H. R. Bush, L. A. David, M. Dugas.

Vancouver, B.C.—Cook Company Construction Company, $100,000. Port Haney Poultry Ranch, $50,000. Americana Company, $10,000. Yellowhead Pass Light and Power Company, $10,000. Scientific American Compiling Department, $10,000. Dissette Motor Company, $25,000. Union Mortgage Company, $200,000. Pacific Fruit Lands, $90,000. Dominion Shale Brick and Sewer Pipe Company, $100,000. Britannia Investors, $100,000. Utility Can Manufacturing Company, $25,000. Lurie Automobiles, $100,000.

Winnipeg, Man.—Similkameen Fruit Land Company, $1,000,000; W. T. Alexander, D. J. Taylor, R. Langtry. Western Dominion Investment Company, $500,000; C. S. Tupper, G. C. McTavish, J. Allen. Commercial Wheat Growers Company of Canada, $100,000; J. W. Haviland, T. C. Kelly, Chicago; F. W. Louthood, Winnipeg. Robert Ackland Company, $20,000; R. D. Ackland, A. A. Hackett, A. L. Peillard. Moyer Shoe, $40,000; W. A. Moyer, E. M. Payne, A. Arbuckle. Beaver Investment Company, $20,000; E. P. Wallace, M. J. Foley, F. J. Grace. Amherst Investment Company, $50,000; G. A. Whelpley, E. B. Plewes, W. H. Plewes. City and Country Press, $60,000; H. J. Palmason, M. S. Donovan, G. A. MacLean.

Toronto.—El Paso Milling Company, $500,000; J. S. Lovell, C. D. Magee, W. Bain. Neelys, $100,000; T. A. Neely, H. Reid, H. A. Reid, Meaford. Canadian Summer Resorts, $40,000; J. R. Jackson, E. W. Drake, F. A. Lawson. Martin Porcupine Mines, $2,000,000; R. McKay, G. Grant, M. Macdonald. Lake Commerce, $100,000; E. H. Ambrose, S. C. Mewburn, J. R. Marshall. Suburban Amusement Company, $20,000; R. S. Tickner, G. L. Sutherland, T. Gain. Scottish Ontario Gold Mining Company, $1,500,000; J. S. Emery, D. D. McLeod, J. Aitchison. Century Land Company, $40,000; J. E. Day, J. M. Ferguson, E. V. O'Sullivan. Keystone Lands, $40,000; S. A. Keers, E. W. Mabee, J. C. Gray. International Life Boat Company, $1,000,000; C. A. Langmaid, W. J. Taylor, W. H. Smith. Gipe-Hazard Store Service Company, $80,000; J. H. L. Morgan, G. C. Campbell, F. C. Jarvis. Canadian Holdings, $20,000; R. McKay, G. Grant, B. Williams. Beeton Watch Company, $40,000; J. M. Langstaff, W. H. Male, W. McNally. J. E. Peel, $10,000; J. E. Peel, H. H. Knapton, F. Holliday. Dominion Waste Manufacturing Company, $50,000; F. S. Buck, J. G. Taylor, J. A. Scythes.

◆

The Taylor Milling and Elevator Company may erect in Nelson the largest wheat elevator in British Columbia.

The American Express Company will open an office in Vancouver on December 1st to look after its business with Australia and the Orient.

The Home Bank of Canada has opened a branch in Delaware, Ont. Mr. A. Watson from the Bloor and Bathurst branch, Toronto, is manager.

Mr. L. G. MacHaffie, manager of the branch of the Bank of British North America at Fort George, with his wife, have left on a four months' trip to Europe.

WORLD'S BOOT AND SHOE TRADE.

American Shoes Making Headway — Figures as to Canadian Output and Trade.

The American shoe manufacturer is extending his sales in all parts of the world. In the fiscal year 1880 the United States exported less than 400,000 pairs of boots and shoes; in 1890, 600,000 pairs; in 1900, over 3 million pairs; in 1905, over 5 million pairs; in 1910, over 7 million pairs, and in the calendar year which ends with next month the number will exceed 8 million pairs, to say nothing of the 1 million pairs going to Porto Rico and Hawaii. These figures relate to boots and shoes of leather; while if to this we add those of india rubber, we get an additional 3 million, bringing the total number of American made boots and shoes passing out of continental United States in 1911 up to an average of a million pairs per month, against about half a million per annum 20 years ago.

Made in Foreign Countries.

This increase, it should be remembered, has come in the face of a large manufacture in foreign countries of boots and shoes called "American" manufactured by foreign workmen and of foreign material but upon American patterns and following American methods of manufacture. It is a well-known fact that large quantities of shoes sold in various parts of the world under the title of "American," are, in fact, made in European countries upon patterns and forms and methods of manufacture developed in the great manufacturing establishments of the United States. It is thus probable that the number of boots and shoes of American type and thus American in the sense of form and method of manufacture sold in foreign countries is very much greater than that indicated by the mere figures of exportation. In actual exports of boots and shoes manufactured in the United States, the total for the year which ends with next month will, as above indicated, aggregate more than 12 million pairs, including in this figure those of india rubber and those sent to the United States non-contiguous territory.

Where do they go? Everywhere, apparently, that man wears boots and shoes: Japan, Korea, Siam, the Dutch Indies, Egypt, Portuguese Africa, Liberia, the Belgian Congo, Asiatic Russia, Aden, German Oceania, British Guiana, Ecuador, Salvador, Costa Rica, Roumania, Turkey in Asia, China, British South Africa, Paraguay, the Straits Settlements, Spanish Africa, Bulgaria, Honduras, the Dutch West Indies, Haiti, Santo Domingo, Servia, and the Azores and Madeira Islands, to say nothing of the larger importers of our boots and shoes—Cuba, Mexico, England, Canada, Germany and France.

To Eighty-five Countries.

All these and many other interesting facts about the exportation of boots and shoes and numerous other articles of American manufacture are to be found in that interesting volume of the Bureau of Statistics, Department of Commerce and Labor, entitled "Commerce and Navigation of the United States," which may be had on application to that Bureau. It shows boots and shoes exported from the United States to no less than 85 countries and colonies of the world and that the value of boots and shoes exported, which had never reached as much as a million dollars per annum prior to 1896, now exceeds 12 million dollars per annum and will in the current year amount to about 15 million dollars in value, including those sent to the non-contiguous territory of the United States; and if to this we add the value of india rubber boots and shoes exported, we should have a total of about 17 million dollars for boots and shoes of all kinds passing out of continental United States in the year which ends with next month.

United Kingdom Chief Rival.

The United Kingdom is the chief rival of the United States in supplying boots and shoes to the world. Her exports of boots and shoes are still greater both in total number of pairs and total value than those of the United States, but the growth in her case is far less rapid than that of the United States. The number of pairs exported from the United States in 1895 was 965,196, and in 1910, 7,810,903; the number of pairs exported from the United Kingdom in 1895 was 8,095,440, and in 1910, 13,039,656; the percentage of gain in the case of the United Kingdom being 61%, and in the case of the United States, nearly 710%. The value of leather boots and shoes exported from the United States, however, is nearly more identical with that of like exports from the United Kingdom, having been in the calendar year 1910 $13,216,237, against $14,744,969 for the United Kingdom, the average price per pair of those exported from the United States having been $1.69, against $1.13 for those exported from the United Kingdom.

Production in Canada.

The value of boots and shoes manufactured in Canada during 1900 was $18,481,216, and during 1905, $20,264,686. The number of employees in boot and shoe manufacturing establishments for the same years was 13,743 and 12,940 respectively, while their salaries amounted to $4,645,007 and $4,644,171 respectively.

The value of the products of 24 of the principal boot and shoe establishments in Canada in 1905 was $7,553,637, being an average of $314,735 per factory. The total capital employed in 1900 was $11,005,869, and in 1905, $11,819,165.

The following are the exports to and imports from Canada of boots and shoes for the year ended March 31, 1910:—

	Exports.	Imports.
Boots and shoes (leather)	$ 59,295	$1,495,321
Boots and shoes (rubber)	132,619	114,470

◆

INSURANCE MEN HONORED.

The annual meeting of the Canadian Life Insurance Officers' Association was held in Toronto on Friday, 17th instant. Representatives of the Canadian, British and American companies were in attendance.

The secretary-treasurer's statement for the year was presented, and election of officers for the year 1911-1912 resulted as follows:—President, Mr. L. Goldman, managing director North American Life Assurance Company; first vice-president, Mr. George Wegenast, managing director Mutual Life Insurance Company, Waterloo; second vice-president, Mr. T. B. Macaulay, managing director Sun Life Assurance Company, Montreal.

In the evening a dinner was held at the Toronto Club, in honor of Mr. J. K. Macdonald, who had been president of the association for a period of four years, and Mr. T. Bradshaw, F.I.A., F.A.S., who had retired from the position of secretary-treasurer of the association, which he had held for a period of ten years, to join the banking firm of Messrs. A. E. Ames & Company, Toronto. The chair was occupied by Mr. J. G. Richter, of the London Life, London, retiring president, who in a few well-chosen words referred to the valuable services rendered to the association by Mr. Macdonald during his term of office as president; especially when the insurance bill was before the Banking and Commerce Committee at Ottawa, and on other occasions where his presence had been of valuable assistance to the assurance interests at large. Mr. Sanderson read an address to Mr. Macdonald, expressing the association's keen appreciation of the services he had rendered to the Life Assurance interests. This address was bound in handsome form and presented to that gentleman.

Mr. L. Goldman, the newly-elected president, occupied the vice-chair, and it devolved upon him to propose the health of Mr. Bradshaw. Mr. Goldman, having known that gentleman from his boyhood days, over thirty years ago, was able to refer in detail to his career, which proved to be of much interest to those present, as few knew what Mr. Bradshaw, by hard work, persistence and application, had managed to accomplish in his earlier years, and this was told in an interesting and happy manner, and was appreciated very much by those present. On behalf of the association, Mr. F. Sanderson then read the address to Mr. Bradshaw, which was in book form, and in addition handed to him a de luxe edition of the new Encyclopaedia Britannica, together with a handsome solid English silver rose bowl, on an ebony stand, which was suitably inscribed for the occasion.

Mr. J. K. Macdonald acknowledged the kind references to him in his usual happy and modest manner, and was apparently much impressed with the manner in which he was received.

Mr. T. Bradshaw replied in a feeling manner, expressing regret at severing connection with the business in which he had been engaged for over thirty years, but expressed his hearty appreciation of all the kindness that was extended to him, not the least of which, he stated, was that he had been elected an honorary member of the association, so that, while now devoting his time and energy to another calling, he would still be kept in touch with those he had learned to know and like so well.

There was a very large attendance at the dinner of representatives from every company in Canada, and nearly all of those in United States and Great Britain transacting business here, had a representative present on this occasion.

STRIKE DID NOT AFFECT

Trade as Seriously as Expected—British Returns for Nine Months—Canada's Share.

The total value of the merchandise imported into and exported from the United Kingdom during the nine months ending September 30, 1911, as shown in the monthly "Accounts relating to the Trade and Navigation of the United Kingdom," were as follows:—

Imports	£489,499,000
Exports:	
United Kingdom produce	331,178,000
Foreign and colonial produce	77,534,000
	£408,712,000

On comparison with the totals for the first nine months of 1910, these figures show an increase of £2,252,000, or 0.5 per cent., in imports, an increase of £12,601,000, or 4.0 per cent., in exports of United Kingdom produce, and a decrease of £908,000, or 1.2 per cent., in exports of foreign and colonial produce.

Effect of Railway Strike.

How far the totals for the nine months have been affected by the industrial disturbances of the summer cannot be definitely determined. It would appear from the figures for separate months that the ground lost in August was largely recovered in September, and that, on the whole, the labor troubles had less effect on the foreign trade than might have been expected.

The most important features in the comparison of imports during January-September this year and last are the large increase in the quantity of raw cotton imported this year, and the fall in the average value of rubber. Further, the latter circumstance more than accounts for the reduction shown in the value of re-exports.

Comparison of Figures.

The following comparison of the totals for the nine months ending September 30, 1901, with those for the corresponding months of 1911 may be found interesting:—

	1901	1911
Imports into United Kingdom	£384,461,000	£489,499,000
Exports from the United Kingdom:		
United Kingdom produce	£209,143,000	£331,178,000
Foreign and colonial produce	50,544,000	77,534,000

The total values of the merchandise imported into the United Kingdom from Canada, and exported from the United Kingdom to Canada, during the nine months ending September 30 in each of the years 1910 and 1911, were as follows:—

	1901	1911
Imports into the United Kingdom from Canada	£18,309,000	£16,831,000
Exports from the United Kingdom to Canada:		
Of United Kingdom produce	14,584,000	14,508,000
Of foreign and colonial produce	2,256,000	2,251,000

Smaller Imports of Wheat.

The decline in imports was chiefly due, as will be seen below, to diminished imports of wheat. The value of exports remained about the same as in 1910. Among the principal imports and exports were the following in the nine months ending September 30th:—

Imports From Canada.

	1910	1911
Wheat	£5,118,000	£3,767,000
Wheat meal and flour	1,122,000	1,246,000
Bacon and hams	1,114,000	1,575,000
Cheese	2,897,000	2,976,000
Canned salmon and lobsters	906,000	776,000
Wood, sawn or split, planed or dressed	2,434,000	2,213,000

Exports to Canada (United Kingdom Produce).

Iron and steel and manufactures thereof (so far as distinguished in the monthly accounts)	£1,465,000	£1,161,000
Cotton piece goods	1,268,000	1,085,000
Woollen and worsted tissues (including carpets and carpet rugs)	2,352,000	2,062,000

RAILWAY RATES FOR MILLERS.

Mr. Hedley Shaw Says Discrimination Exists—Shareholders of the Maple Leaf Milling Company Visit Their New Plant.

The Maple Leaf Milling Company took the shareholders to see the opening of its big mill at Port Colborne, Ont., last week. There also went brokers, financiers and business men on the special Grand Trunk train which conveyed the party. After the luncheon, brief speeches were made by Honorable D. C. Cameron, Winnipeg, president of the company; Mr. Cawthra Mulock, vice-president; Mr. Hedley Shaw, managing director; Mr. W. M. German, M.P., and others.

Mr. Mulock stated that the several fundamentals necessary for the success of any important business were: First, management; second, proper situation of plants and modern equipment of the same; third, market for its products; fourth, money and credit.

Are Selling Far and Near.

"In these," he continued, "the Maple Leaf Milling Company is fortunate, having all such requisites. Your company is not only trading in all Canada, but it is selling its products as far distant as South Africa. Your directors and management recognize the possibilities of the Canadian milling industry and are aggressively furthering your interests. We are meeting with most satisfactory results, and confidently look forward to a very bright future for the Maple Leaf Milling Company."

Mr. Hedley Shaw vigorously attacked the railroads which he alleged discriminated in their rates against Canadian millers. The Grand Trunk, he pointed out, would carry grain from Port Colborne to Montreal for 4 cents a bushel, or about 6½ cents per hundredweight, but they would charge 11 cents per hundredweight for flour for export.

"When raw material, such as wheat, is given the advantage over the finished product, flour," said Mr. Shaw, "it is evident that the transportation companies, whether willingly or not, are working in the interests of the foreign millers."

He maintained that the railways should not carry raw material out of the country at a lower rate than the finished product, but that the rates should be such as to encourage the utilization of Canadian raw material for Canada's benefit.

Raw and Finished Material.

"But the objection I have urged does not apply to Port Colborne alone," continued Mr. Shaw. "We have another mill at Kenora on the Canadian Pacific Railway. For a time we had no cause of complaint. The rates from Fort William to the seaboard for grain and flour were about equal. Finally, the railway company wanted a cargo at St. John and reduced the rate on grain. I offered a shipment of 100,000 sacks of flour at the same rate, but this was refused. I offered to pay 2 cents more for the flour than was paid for the grain, but this also was refused.

"Now, how can mills do an export business when they have to pay 5 to 10 cents more per hundredweight for the finished product than is paid for the raw material? It is a great mistake, in any event, for a country to export its raw material. If there is anything that a government should do it is to prevent raw material leaving the country. Especially is that so in the case of grain. Should this process be long continued, farmers will not have so much grain to ship, for it is self-evident that something must be put back upon the farms. The railways are not doing what they ought to do for the millers and especially the Canadian millers. I am glad that the chairman of the Railway Commission is present to hear the excuses offered by the railways for this discrimination." Judge Mabee sat near Mr. Shaw during his speech.

Mill on Government Dock.

The mill is erected on the government dock, erected by the Dominion Government, and in its immediate vicinity the larger upper lake freighters, some of them measuring over 500 feet in length, may tie up without the aid of a tug. At present the mill has a capacity of 4,000 barrels a day, which ultimately will be extended to 9,000 barrels, the largest on the continent.

The company are to be congratulated on the excellent innovation of taking the shareholders to see the enterprise financed by them.

FIRE INSURANCE IN CANADA.

Premiums and Losses Last Year—Comparisons With Risks—Some Interesting Statistics.

As briefly noted in last week's Monetary Times, during 1910, the business of fire insurance in Canada was carried on by 60 companies; of these 25 were Canadian, 19 British and 16 American. This list of companies differs from that of the previous year by the addition of two Canadian companies, the Factories and the Hudson Bay; one British company, the Royal Exchange; one American company, the Continental Fire, and one Lloyds association, Underwriters at American Lloyds, to whom a license was, on November 3, 1910, issued under the provisions of section 12 of the Insurance Act, 1910.

Near the close of the year licenses were issued to two British companies; Provincial Insurance Company, Limited, and the Employers' Liability Assurance Corporation, Limited. This latter company received a license for fire business in addition to guarantee, accident and sickness, for which it was already licensed. Since the close of the year, a company whose headquarters is in Paris, France, has received a license for fire business, namely: L'Union, Compagnie d'assurance contre l'incendie.

Fire Premiums and Losses.

Cash received for premiums during the year in Canada amounted to $18,725,531, being greater than that received in 1909 by $1,676,067, and the amount paid for losses was $10,292,393, which is greater than that paid in 1909 by $1,645,567. The ratio of losses paid to premiums received last year is shown in the following table:—

Companies.	Paid for losses.	Received for premiums.	Rate of losses paid per cent. of premiums received, 1910.	The same for 1909.
Canadian . . .	$2,544,650	$ 4,334,612	58.71	56.41
British	5,488,726	10,243,235	53.58	49.89
American . . .	2,259,017	4,147,684	54.46	46.96
Total . . .	$10,292,393	$18,725,531	54.96	50.72

The corresponding results for certain years, are given below:—

	Premiums received.	Losses paid.	Rate of losses paid per cent. of premiums received.
1869	$1,785,539	$1,027,720	57.56
1879	3,227,488	2,145,198	66.47
1889	5,588,016	2,876,211	51.47
1899	7,910,492	5,182,038	65.51
1909	17,049,464	8,646,826	50.72
1910	18,725,531	10,292,393	54.96

Ratio of Losses to Premiums.

Taking the totals for the forty-two years, from 1869 to 1910, according to the nationalities of the companies, the following are the results:—

Companies.	Premiums received.	Losses paid.	Rate of losses paid per cent. of premiums received.
Canadian ..	$ 66,765,031	$ 43,330,492	64.90
British	189,256,621	121,318,297	64.10
American ..	43,444,345	25,909,572	59.64
Total ..	$299,465,997	$190,558,361	63.63

The loss rate for 1910, 54.96, is 8.67 below the average for the forty-two years over which the records of the Department of Insurance extend.

Obtaining an approximation to the losses incurred during the year, by excluding payments for losses outstanding at the beginning of the year, and including the amounts estimated for those of the year still unsettled, the ratio of the losses incurred to premiums received comes out 58.40 per cent., which is 7.94 per cent. greater than the 50.46 of the previous year, and is 2.41 per cent. less than the average for the last fifteen years, 60.81. The following are the rates of incurred losses from 1903:—

Companies.	1910.	1909.	1908.	1907.	1906.	1905.	1904.	1903.
Canadian ...	60.41	55.87	72.11	53.28	52.68	48.71	97.50	53.17
British	57.01	49.74	58.07	55.22	46.65	43.07	110.34	50.97
American ..	59.72	46.72	55.74	51.36	40.45	38.01	110.55	47.93
Total	58.40	50.46	60.77	54.02	46.73	43.30	107.76	50.94

Gross Amount of Policies.

The gross amount of policies, new and renewed, taken during the year by fire companies was $1,817,055,685, which is greater by $237,079,818 than the amount taken in 1909. The premiums charged thereon amounted in 1910 to $24,684,296.40, being $2,390,663.15 greater than the amount charged the previous year. The rate of premiums, 1.358, is somewhat lower than that of 1909, 1.431. The loss rate, 54.96, is 4.24 per cent. greater than the loss rate of the previous year, 50.72, and 8.67 per cent. less than the average loss rate, 63.63, for the past forty-two years.

The rate per cent. of premiums charged upon risks taken is shown in the following table:—

Companies.	Gross amount of Risks taken during the year.	Premiums charged thereon.	Rate of Premiums charged per cent of Risks taken, 1910.	The same for 1909	The same for 1908
Canadian ..	$528,093,567	$7,285,309.12	1.38	1.44	1.51
British	936,097,608	12,422,358.59	1.33	1.38	1.48
American ..	352,864,510	4,976,628.69	1.41	1.45	1.54
Totals ..	$1,817,055,685	$24,684,296.40	1.36	1.41	1.50

The increase in the amounts taken in 1910 as compared with 1909 among Canadian companies is $72,660,871. Among British companies there is an increase of $103,688,371, and among American companies there is an increase of $60,730,576.

In 1909 the increases in amounts written among Canadian, British and American companies reporting to the Department of Insurance were $31,668,036, $43,263,036, and $38,750,774 respectively.

Premiums and Losses Compared with Risks.

The average rate of premiums charged on each $1,000 of risks taken in 1910 is $13.582, as against $14.110 which was the corresponding rate in 1909. The individual rates for the different companies will be found in the annexed table, and will be seen to vary a good deal, as might naturally be expected, considering the varieties of the business done by the companies.

The approximate losses incurred during the year, compared with the amount of risk current, taking for this the mean of the amounts in force at the beginning and end of the year, have been at the average rate of $5.61 per $1,000 current risk. The corresponding rates for 1882-3-4-5-6-7-8-9-90-1-2-3-4-5-6-7-8-9-1900-1-2-3-4-5-6-7-8-9, are $5.68, $5.56, $5.37, $4.54, $5.48, $5.70, $4.70, $4.19, $4.84, $5.33, $5.61, $6.17, $5.50, $5.75, $5.15, $5.38, $6.20, $4.99, $8.38, $6.68, $4.06, $5.22, $12.05, $4.88, $4.97, $5.69, $6.41 and $4.83 respectively.

The losses are, as usual, distributed very unevenly among the different companies.

◆

NAVAL TENDERS REJECTED.

In the Dominion Parliament on Tuesday the Hon. J. D. Hazen made the important announcement that of the nine tenders received for the construction of the four cruisers and destroyers contemplated by the late government for the Canadian navy of which, though received five months before the election, they had not seen fit to make an award. The lowest, that of Camell, Laird & Company, was $11,280,000. That of Swan Hunter was $12,174,000, while another was $13,055,804. This did not include armor plate armament or special supplies and under the terms of the contract the ships could not be completed till six years hence, when they would be obsolete.

◆

Immigrants to the number of 265,833 arrived in Canada during the first seven months of the current fiscal year—April 1 to November 1. Of this number 172,260 arrived at ocean ports and 93,573 from the United States. These figures show an increase of seventeen per cent. as compared with the figures for the corresponding months of the last fiscal year which were 142,529 at ocean ports and 85,246 from the United States, making a total for the seven months—April 14 to November 14, 1910—of 227,775 persons. During October there were 23,902 arrivals, 13,646 of them having been at ocean ports, and 10,256 from the United States, as against 23,393 for October last year, 13,502 of whom were at ocean ports and 9,801 from the United States.

ONTARIO CROP REPORT.

Potatoe Yield Will be Light—Cattle Rather Thin but Healthy.

The following statement regarding crop conditions, based on the reports of 2,000 correspondents, sent in during the first week of November, has been issued by the Ontario Department of Agriculture:—

The quality of fall wheat ranges from fair to good, with occasional reports of the sample being light in weight. The average yield per acre is considerably below that of recent years.

Comparatively little spring wheat is now grown in the province. This year's product may be characterized as a fairly good crop in every way.

In the western half of the province, where most of the fall wheat is raised, a slightly increased area has been put in, except in the Georgian Bay district where a smaller acreage than usual is reported. The bulk of the new seeding found a good bed, and the young wheat was looking well when correspondents reported. Sowing ranged all the way from the 24th of August to the first week of October, the bulk of the crop being got in during the first half of September; although some was sowed later purposely in order to avoid the Hessian fly, which is reported to be operating in some of the new fields.

Correspondents report barley as being practically free from discoloration, but the bulk of the grain is not as plump as usual. The yield will be close to the average. The straw, while clean, was short in stand.

Oats were relatively the poorest of the cereals, as to both yield and quality. The drouth and extreme heat at the period of filling is said to have affected a considerable portion of the crop, and consequently there are many complaints of the grain being light in weight. The straw was short, but of fair quality.

Only a small acreage is given to rye, but there was an average yield of good quality.

Peas, Buckwheat, Beans and Corn.

Peas have experienced two very bad seasons in succession. While there were some complaints of the weevil, the chief source of injury this season is well described by a correspondent as "the dry, hot weather which caught most of the peas in bloom."

Early sown buckwheat was a good crop in every way, but late fields were caught by frost to some extent, and gave comparatively poor returns. In some sections, also, there was difficulty in harvesting the crop on account of rain.

Beans were a very uneven crop, having been affected by the extremes of drouth during growth and wet weather at harvesting, while a few fields received a touch of frost. However, several correspondents report favorably as to quality.

The returns concerning corn are more variable in tone than usual, but the crop will be about an average one. Much of the corn was planted late on account of the drouth, and some of it was nipped by frost, but not to a serious extent. The most favorable reports regarding corn come from western Ontario, both as to better earing and more freedom from frost.

The growing of mixed grains does not appear to be gaining in favor, although some correspondents heartily advocate the practice. Barley and oats, of varieties selected to ripen about the same time, are by far the favorite mixture Oats and peas come next, while barley and oats are third, and fully a dozen other mixtures have scattering choice.

Potatoe Yield Will be Light.

Correspondents do not write very fully regarding tobacco. That which was planted early is said to have done well, despite the drouth, but some of the latter crop was injured by fall rains, and a portion of it was caught by early frosts.

The yield of potatoes will be light, as they were affected by drouth both at the time of planting and during growth. Some of the late fields were overtaken by frost before the crop had matured. The tubers are, as a rule, smaller in size than usual, but they are said to be of excellent quality, being practically free from rot, which has seriously affected the crop for the last three years.

All classes of roots suffered from drouth. Turnips range from poor to fair in yield, and are rather smaller in size, but otherwise are of good quality. Mangels are of good yield and quality, and although not up to the usual size are regarded as the best root crop of the season. Carrots are not now largely grown as a field crop, but have done well considering the dry summer. Sugar beets also did fairly well, but they do not appear to be increasing in favor. Most of these crops, excepting some turnips, were housed, as the open fall had been favorable for root pulling.

Owing to the poor wintering of the crop of clover seed and the unusual heat and drouth of the summer, there was a rather thin stand of the second growth of clover this year, and a small yield of seed. The heads, however, were well filled, and most of the seed that has been hulled is said to be of excellent quality.

The benefits of spraying and the general care of orchards are pointed out by a large number of correspondents, and repeated warnings are made as to the folly of neglecting warfare against the San Jose Scale, the oyster shell bark-louse, the codling moth, and other insects injurious to fruit. There is a small surplus of apples, but mainly of the fall varieties, and there was a fair yield of plums, peaches, and pears, while grapes, as usual, did generously. Several correspondents report that most apples and other orchard fruits had a cleaner and more presentable appearance this season than usual. A considerable quantity of fruit was blown off the trees in September.

Cattle Rather Thin but Healthy.

Fall pastures of live stock were short after the long drouth earlier in the season, but most of the live stock were still on the grass as correspondents reported, and by their general condition looked as if they were able to get the usual picking off the fields. Horses are in demand at good prices. Cattle are rather thin, but healthy; in fact, no returns make mention of any serious disease existing among any class of farm animals. Beefing cattle are much scarcer than usual, and some correspondents assert that the tendency just now is more toward milk producing. Sheep are reported to be in excellent condition, but are not plentiful. Shipments of swine have been more or less steady all the season through, and there was a large supply on hand at the beginning of November; but some correspondents insist that the high price of feed and the comparatively low price of pork will cause a number of brood sows to be marketed. Silos are increasing in number all over the province.

With cheese commanding factory rates which at one time in the season went well over 14c. a pound, good prices for all dairy products were assured. But as a marked shrinkage in the milk supply was the main cause of these high prices, some correspondents claim that dairy profits will be but little, if any, ahead of other years. Cheese factories and creameries have to contend more than formerly with the increasing demand for milk and cream for the growing towns and cities of the province. The Holstein cow is now fairly in the lead as the favorite for the dairy, although the Shorthorn, the Ayrshire, and the Jersey have their champions.

More attention than ever before is being given to poultry raising on the farm, and an improvement in their general quality is reported. Prices for both fowl and eggs have been good; but while some correspondents claim a snug gain on poultry transactions others figure out a clear loss when the high price of feed is taken into consideration. There was an unusual scarcity of green feed this summer on account of the drouth. While more hens, geese, and ducks are reported, and all these classes of fowl are, as a rule, in excellent condition, several correspondents refer to turkeys as being very hard to raise, and predict a scarcity.

◆

RAILROAD AND COMPANY EARNINGS.

The following are the railroad earnings for week ended November 14th:—

	1910	1911	Increase or decrease
C. P. R.	$2,108,000	$2,486,000	+ $378,000
G. T. R.	899,760	959,980	+ 60,220
C. N. R.	363,100	403,000	+ 39,900

Twenty million dollars' worth of perfumeries, cosmetics and other articles of this character were imported into, and exported from the United States in the last dozen years, and more than 2½ million dollars worth of it in the single year, 1911 This illustrates the great variety of articles now forming the international commerce of the United States.

HAS YOUR COMPANY CHANGED ITS DIVIDEND?

If your company has changed its dividend rate this year, please notify The Monetary Times in order that the change may be included in our annual list.

ACTIVE INVESTMENT MARKET.

Montreal Tramways Bonds Sold—New Issues — Dominion Steel Corporation's Financing Scheme.

The domestic investment market is strong with a tendency towards even greater activity. Many new issues are likely between now and the Christmas season.

The $10,445,000 first and refunding mortgage five per cent. gold bonds of the Montreal Tramways Company, were offered this week by Messrs. N. W. Harris and Company, of Boston and New York. The price was 100 and accrued interest and the issue was placed shortly after the offering was advertised. The capitalization of the company is as follows:—

Common Stock		$2,000,000
Debenture Stock		16,000,000
First & Refunding Mortgage 5 per cent. bonds		10,445,000
Underlying bonds outstanding due in 1922	$4,420,000	
Less $1,147,000 cash deposited with Royal Trust Company, trustee to retire underlying bonds	1,147,000	
Reserved to retire remaining underlying bonds		3,273,000
Net amount First and Refunding Mortgage and underlying bonds		$13,718,000

Big Bond Issue.

To enable the company properly to finance the assured future growth of the property, it has authorized an issue of $75,000,000 first and refunding mortgage gold bonds, bearing interest at not more than 5 per cent. With the exception of the bonds reserved to retire underlying liens, as mentioned above, additional bonds can only be issued for not exceeding 75 per cent. of the cash cost of extensions and additions to the company's property, and then only when the net earnings of the company for the preceding twelve months shall be equal to at least twice the annual interest charge on all first and refunding mortgage and underlying bonds outstanding, including those now issued.

There were sales of Montreal Tramways new bonds on Tuesday at 100½, later 100 was bid, 100¾ asked, with a strong market undertone.

Ontario Government Loan.

The Province of Ontario is inviting subscriptions from the public for a loan of $1,000,000 on thirty-year bonds, in denominations of $1,000 each, with interest at the rate of 4 per cent. The issue price during this month will be 102 for each $100, and after November 30th, the issue price will be 102 and interest accrued from November 1st. All bonds and inscribed stock issued under the authority of the said act are free from all provincial taxes, charges, succession duty and impositions whatsoever.

Spanish River Pulp and Paper Stock.

The Spanish River Pulp and Paper Company are offering a block of about $900,000 7 per cent. preferred stock.

The Spanish River Pulp and Paper Company, Limited, has been authorized to distribute pro rata amongst its shareholders 7,855 shares of preference and 7,855 shares of the common stock of the Spanish River Pulp and Paper Mills, Limited, now held by the company, and to reduce the capital stock of the Spanish River Pulp and Paper Company, Limited, (including unissued shares), to $78,550 in 7,855 shares of $10 each. One share of the new stock fully paid up will be issued for each share of $100 now held by the shareholders on the surrender of the original shares.

Messrs. C. A. McCool, of Ottawa, and O. B. Sheppard, of Toronto, have resigned as directors of the Spanish River Pulp and Paper Company. Their places on the board have been taken by Messrs. A. H. B. MacKenzie, manager of C. Meredith & Company, Montreal, and Mr. R. L. Innis, secretary-treasurer of the Dominion Canners, Limited, Hamilton. The selection of Messrs. Mackenzie and Innis indicates a change in the ownership of the stock.

Steel Corporation's Financing.

Mr. Plummer makes the following statement in regard to the Dominion Steel Corporation's financing:—

"The chief subject considered by the board of the Steel Corporation to-day was the recommendation of the president that the Steel Company should not continue to provide for the expenditure on its new plant by the sale of the bonds, which were authorized in 1909, of which about $6,000,000 is still held in the treasury, but that capital should be obtained by the issue of preferred stock of the corporation. The Coal Company has also entered on important extension, which will increase its 14 producing collieries to 20, and require greater facilities for transportation, etc. The capital required by that company can also be best obtained through the Corporation.

Advantages of the Method.

"The advantage of this mode of financing is that it avoids the increase of fixed charges and leaves the Steel Company with a large reserve of unissued bonds of established market value. Nothing definite was done with regard to making the issue, but the board decided that, under proper conditions, this would be the wisest method of obtaining capital for the building up of the various plants. Its ultimate effect would be to interest people in London, and probably in Paris also, in the stocks of the corporation, and it would put the latter in a position to take care of the future capital requirements of the subsidiary company on good terms.

"Provision will be made for the exchange in due course of the preferred stock of the Coal and Steel Companies for Corporation preferred, on an equitable basis; with an established market for the new security in Europe, such an exchange would benefit the present holders.

"The company has been asked to give certain rights as to common stock in connection with the sale of the new preferred, whenever that point may be reached, and it is not unlikely that this may lead to considerable investments in the common stock abroad. In any case, it is the interests of the common stockholders which the board have most in mind. The whole object of the policy of extension, which is being vigorously pursued, is to increase output, decrease cost and enlarge profits. The benefit of this, after payment of interest on the new capital, necessarily accrues to the common stockholders.

Question of Judgment.

"Whether it is better to get the capital needed to enlarge the works by continuing to sell bonds, or to initiate a financial policy which will serve for future growth, as well as for present needs, and make those who supply the capital partners instead of creditors, is purely a question of judgment; the object is to get capital for the new works on the most favorable terms.

"The new policy is most strongly supported by those who have the largest interest in the common stock, and was adopted by the board without a dissenting voice."

◆

THE FIRE INSURANCE BUSINESS FROM AN AGENT'S VIEWPOINT.

According to Mr. C. B. Fitch, of Fort Wayne, Ind., at the recent meeting of the Fire Underwriters Association of the North-West, held at Chicago, the function of the special agent should be "agency development" rather than inspection and adjustment work. His company wants premiums of the classification that promises a good underwriting experience and to obtain the best results it is necessary to exercise care in selecting the local agent. The fire insurance business is so complicated, so technical and so varied in its application that no one should be commissioned as agent who is not qualified when measured by a high standard of capability. There is no calling that is of such a character as to demand a higher grade of talent than does the agency work in the fire insurance business. There is no business of lesser importance the representatives of which are selected with a greater degree of indifference.

This is not intended to cast any reflection upon the large number of successful agents now engaged in this work but to remind of the army of "hangers on," "parasites," "rebaters" and "all-around trouble makers" whom you have attempted to dignify by the appellation insurance agent.

What the agent should want is unlimited capacity to take care of his business, capacity in companies of character and strength. The agents have no right to limit or control the number of agents that shall engage in this business. Any man who is qualified has a right to engage in any legitimate business or profession. Mr. Fitch never was in sympathy with limited or restricted apprenticeships nor could he sympathize with any movement intended to boycott other interests because of some fancied grievance so long as such interests were acting within their legal rights.

That the business upon the books belongs to the agent should no longer be disputed as the courts have so decided. If the agent is not satisfied with a company he has a right to resign his commission and keep the business. If the company is not satisfied with the agent or the business he gives it, the company can retire from the agency but must leave the existing business with the agent.

The agent who has the confidence of the public and has the ability to secure the business is entitled to the necessary company carrying capacity to take care of his lines, for he has earned and deserves the commission.

"Capital Investments in Canada"

By FRED. W. FIELD

A New Volume just Published by

THE MONETARY TIMES

Price - - $2.50

THREE hundred and seventy-two million pounds sterling have been invested by Great Britain in Canada. American capital has helped the Dominion's industrial development to the extent of nearly $417,143,221, while foreign capital in excess of $139,589,650 has also been invested in the Dominion. Complete details of these borrowings appear in the above volume, which is now ready. In view of the general interest in the subject of investment in Canada and of the Dominion's trade relations, this new book, "Capital Investments in Canada," will prove of great value. It is the first contribution on the subject to the business man's library shelves and has received excellent press notices.

The Book Discusses The

Protection of Capital.
Savings of a Young Country.
Municipal bonusing of industries.
Montreal stock quotations in France
Payment of Canada's interest charges.
Canadian Banks at home and abroad.
Effect of Immigration on National Finances.
Merits of registered stock *versus* bearer securities.
Investments in Canadian farm, town and city property.
Attention paid to the intrinsic value of Provincial Government securities.
Likes and dislikes of the British, American and foreign investor in Canada.
Capital Liability of Railroads.
Possible dangers to Canadian credit.
Shipbuilding and dry-dock investments.
Dutch interest in Canadian mortgages.
Possibility of a German - Canadian bank.
Relations of purchasers of plant and borrowers.
Practice of selling municipal bonds privately.
Scotch capital in Canada's Loan and mortgage companies.
Trade Balances in Canada, Great Britain and the United States.
And a Thousand other Topics of Great Value to all interested in Canadian Investments and Development.

The following are the chapters of the volume—

1. British investments in Canada.
2. American investments in Canada.
3. Foreign investments in Canada.
4. French investments in Canada.
5. German investments in Canada.
6. Other Countries' investments in Canada.
7. Canadian Government borrowings in London.
8. Municipal borrowings in London.
9. The financing of Canadian railroads.
10. Industrial investments in Canada.
11. Investments in Canadian land and lumber.
12. Investments in Canadian mines.
13. Canadian banks, British and foreign capital.
14. Registered stock or bearer securities?
15. Canada's credit abroad.
16. Canadian securities & the British Trustee List.
17. New capital from immigration.
18. The relation of trade to borrowed money.

APPENDICES

1. Canada's share of British capital.
2. Is Canada over-borrowing?
3. Canada and International finance.
4. Editorial comment respecting British, American and foreign capital investments in Canada.
5. List of Canadian flotations in London, January 1905 to August 1911.

THREE INDEXES

The volume is very completely indexed, one index being devoted to personal names, another to companies and institutions, and a third to subjects.

Nearly three hundred companies, Canadian, British and foreign, are referred to, while numerous authorities on the subject of investment are quoted.

Sir Edmund Walker has contributed a prefatory note.

R. A. LYON, Toronto, Ont.
Messrs. Lyon & Plummer.

G. P. GRANT, Toronto, Ont.
President, Dominion Bond Company, Limited.
Director, Dominion Canners, Limited.

T. A. WATSON, Toronto, Ont.
Vice President, Canada Bolt & Nut Co., Limited.
Director, Canada Machinery Corporation, Limited.

ALLAN McPHERSON, Longford Mills, Ont.
Lumberman.

A. H. B. MACKENZIE, Montreal.
Manager C. Meredith & Company, Limited.

R. L. INNES, Hamilton.
Secretary-Treasurer, Dominion Canners, Limited.

W. H. TOTTIE, London, England.

LIMITS.

The limits cover an area along the Spanish, Vermillion and Onaping Rivers, and their tributaries for five miles back on either side, estimated at 6,000 square miles, and are easily workable, and the whole territory is well watered with good floatable streams and lakes.

The Canadian Pacific Railway runs through the property from East to West and the Canadian Northern Railway is being constructed running North through the East side and then West along the Northerly limit.

PLANT.

The Company's Mills and Plant are at Espanola, Ont., on the line of the Canadian Pacific Railway.

The Pulp Mill has a capacity of 140 tons (dry) pulp per day. A Paper Mill now under construction, will be in operation by April, 1912; it will have a capacity of 100 tons news paper per day, and provision is being made that the capacity can be doubled at a minimum extra cost.

The Company owns its Water Power and Electric Power Plant from which 10,500 H.P. is now being used; in addition the Company owns employees' dwellings, houses, general store, water supply and sewer system, etc.

ASSETS.

The depreciated appraised value (Canadian Appraisal Co.) of the fixed assets, including pulp mill as at Dec. 31st, 1910	$2,489,684
Actual cost of new Paper Mill in course of construction, and which will be completed in March, 1912	900,000
Surplus of liquid assets over liabilities as at Dec. 31st, 1910	222,500
	$3,612,184
Estimated value of standing timber as per report by Mr. John Brophy	10,000,000
	$13,612,184

FUTURE EARNINGS.

The General Manager of the Company estimates that on the completion of the Paper Mill, the net earnings of the Company will amount to at least $400,000 per year, before deducting Bond interest. This does not include any profits on railroad ties, or Jack-pine lumber, which in his estimate, should yield considerable revenue.

PREFERRED STOCK.

An examination of the statement of the Company's Assets will show that, as a going concern, without taking into account the value of standing timber (estimated by Mr. Brophy, at $10,000,000), there is an equity of $107.50 for every share of Preferred Stock issued.

This is without taking into account the surplus earnings for 1911.

ACCRUED DIVIDEND.

Nearly five months of the half-yearly dividend of 3½%, payable January 15th, 1912, to holders of the stock, Dec. 31st, 1911, has accrued, which means that the Stock now offered at $100, carries with it accrued dividends of $3.00 per share, making the net cost $97.00 per share.

REPORTS ON THE PROPERTY.

Before taking an interest in this Company we employed Mr. Hardy S. Ferguson, Consulting Engineer of New York, a well-known expert, to make for us a special report on the property as it exists at present, and we received a satisfactory one, the original of which may be seen at our office.

EARNINGS

The operations of the Company have been very successful and the earnings have steadily increased, as shown by the following figures: those for 1909 and 1910 have been certified by Messrs. Price, Waterhouse & Co.

	1909	1910	1911
Net earnings from pulp, after interest charges, depreciation, etc.......	$169,555.30	$207,899.93	*$250,000.00 (estimated)

* The estimated figures for 1911 are based on results up to Oct. 31, 1911.

For the period up to the end of October, 1911, the net price received by the Company for its Pulp has been 60 cents per ton in excess of the net price received for the year 1910, while the cost of production has decreased over $1.00 per ton.

Prospectus giving full information, and Subscription Blanks, may be had from C. Meredith & Company, Limited, Montreal, and the following Brokers, who are authorized to accept applications.

BURNETT & CO., 12 St. Sacrament St., Montreal
W. P. O'BRIEN, 57 St. Francois Xavier St., Montreal
JOHN STARK & CO., 26 Toronto St., Toronto
LYON & PLUMMER, 21 Melinda St., Toronto

Subscription Lists close November 28 at 3 p.m.—or earlier.

Cheques covering 10% of the amount subscribed for must be sent in with application for allotment. Allotments will be made *pro rata* in the event of over-subscription.

Belleville, Ont.—Nov. 17th.—Business section on east side Front street badly damaged. Loss about $5,000. Origin unknown. Nov. 22nd.—Residence of Mr. S. Tanner Ivanhoe destroyed. Loss about $700. Origin unknown.

ADDITIONAL INFORMATION CONCERNING FIRES ALREADY REPORTED.

Fairlight, Sask.—Methodist Church loss was $2,700.

Caron, Sask.—Dr. Gray sustained loss of $4,000. Insured with London & Lancashire.

Beamsville, Ont.—The loss sustained by Mr. R. O. Konkle was $10,000 on stock and $2,000 on buildings. No insurance.

Wilberforce, Ont.—Mr. Alex. Riley sustained loss of $1,200 on stock and $1,500 on building. Insured with Anglo-American for $2,000.

Brockville, Ont.—The companies interested in the recent fire at Messrs. Wollhausen Hat Corporation, are as follows: Hartford, Norwich Union, Sun, North British & Mercantile, Rochester German, Canadian Manufacturers Mutual, Home, Phoenix of London, Crown, Anglo-American, Atlas, Dominion, Montreal Canada, Fidelity Phoenix, Guardian, German American, Yorkshire, Northern and Equity.

Victoria, B.C.—The details of insurance available show that Messrs. Hibben and Company held $30,000 insurance on building; $4,650 on machinery and plant located in the basement, and $33,250 on stock. The companies involved are as follows:—Building: Phoenix of London, $24,000; Norwich Union, $6,000. Stock: Atlas, $1,000; Aetna, $1,000; National, $1,000; Midland, $1,000; Connecticut of Hartford, $1,000; Phoenix of London, $2,000; Hartford, $1,500; Niagara, $2,000; Firemens' Fund, $2,000; Queen's, $2,000; Insurance Company of North America, $1,000; Royal, $3,000; Springfield, $3,000; British America, $1,000; New York Underwriters', $1,000; London Assurance, $1,500; Commercial Union, $1,000. Northern, $2,500; Fidelity, $1,250; Canadian Fire, $3,500. Machinery: Aetna, $1,000; Columbia, $1,000; London Assurance, $1,000; Northern Assurance, $1,000; Fidelity, $500; Canadian Fire, $150. The insurance of $4,750 on the stock of Messrs. M. and H. A. Fox was held by the following companies: London and Liverpool and Globe, $1,000; North British Mercantile, $1,500; Phoenix of London, $1,500; Firemens' Fund (fixtures), $750.

MORE CANADIAN FLOTATIONS IN LONDON.

Canadian Northern Issue Was Subscribed—Notes on Timber Loans.

Two more Canadian flotations were made in London this week, the Canadian Western Natural Gas, Light, Heat & Power Company, of which Hon. Clifford Sifton is chief director, offering £811,643 5 per cent. first mortgage debentures at 90.

The capitalization of the company is made up as follows:—Authorized share capital, $8,000,000; authorized debenture stock, $4,500,000. No bonds have been issued by the company. A portion of the debenture stock has been disposed of to the underwriters in England who are putting it on the market, and the company has nothing to do with this flotation.

The Bank of Montreal issued on Wednesday £241,470 4½ per cent. consolidated debentures of the muicipality of Point Grey, British Columbia, at 99½.

Canadian Northern Issue.

The issue last week in London of £1,400,000 4 per cent. stock of the Canadian Northern Railway at 99 was just covered, it is reported, the underwriters being released.

"There is an uneasy feeling in some prominent financial quarters of London," says a London dispatch to the Wall Street Journal, "that things are not all they might be in Canada. It is suggested that there has been over-speculation and considerable over-financing, and that investors might easily receive a somewhat rude shock sooner or later. We should not note the point were it not that the views are expressed by very responsible people."

There is no cause for apprehension. The Western crops are smaller than anticipated, and are grading low. The result will be less money than expected in circulation next year. Otherwise, the Canadian situation is strong and deserving of full confidence.

Will Not Swallow Everything.

With many British Columbia timber propositions being put on the British market, advice is offered from time to time by those familiar with conditions in the Old Country. The idea prevalent in many circles is that almost everything will be swallowed in the Old Country, and this is given color by the successful flotations there recently. Not that any insinuation is made against the methods or announcements of those who have issued stock or debentures in London, but statements made by men of authority indicate that the strictest truth is not followed at times. Mr. C. H. Hoare, of Hoare's Bank, London, England, was in Vancouver this week, his particular business being to investigate a timber proposition, and he expressed the opinion that the investment of British capital in British Columbia will be greatly restricted if certain promoters who visit London persist in making exaggerated representations. When recent local lumber and timber flotations were made in London they were critized by certain London publications, not in general terms but specifically.

Not long ago, a financial man who had returned from the Old Country told The Monetary Times that these timber flotations should not be made on the basis of timber per acre but on the stumpage. This was a reasonable suggestion in view of the great difference in estimates of timber on a certain acreage by different cruisers. The figures of various men, each supposed to be experts, are so widely apart, that one would wonder if the reports had reference to the same locality. There is an instance of this in almost every timber case before the courts. Last week, for instance, the cruiser for Vancouver city reported timber on certain claims in the Seymour Creek watershed, on which the city had an option, contained about 160,000,000 feet. The report of the vendors placed it at 350,000,000 feet.

On a Stumpage Basis.

In support of the suggestion that timber should be offered on a stumpage basis, are the arguments of the timber owners themselves before the Royal Commission on Taxation, now holding its closing sessions at Vancouver. They told the Commission that the timber on different acreages varied so greatly that a tax per acre was not altogether fair, and proposed a tax on the stumpage instead. If it is reasonable in this case, it should be fair in the other. To take advantage of the London market, no overstepping should be done in the desire to grab.

The London Stock Exchange has listed Algoma Central & Hudson's Bay Railway £350,000 fives, and Cascade Water & Power & Light $285,000 4½ per cents.

The Canada Pacific Iron and Steel Syndicate is the title of a company formed in London, with a capital of $250,000. It is a mining and metal-working concern.

BOND TENDERS INVITED.

Monetary Times' Weekly Register of Information for Bond Dealers and Municipal Officials.

Vancouver, B.C.—The ratepayers may vote on by-laws aggregating $2,000,000.

St. Catharines, Ont.—The ratepayers will vote on a by-law for $38,000 to purchase the artificial gas works.

Swan River, Man.—Until December 4th for $3,000 5 per cent. 15-year local improvement debentures. B. E. Rothwell, secretary-treasurer.

Lakeville S.D., No. 1586, Man.—On December 1st the ratepayers will vote on a by-law to raise $2,000. J. Andrew, secretary-treasurer, Hamiota.

Newmarket, Ont.—The ratepayers have sanctioned a loan of $25,000 to the Harding Automobile Company, of London, for the erection of a factory.

British Columbia Mortgages

In placing any surplus funds your first thought should be—security. The careful investor is wary of mining and oil shares, because no security is usually given.

No safer form of investment exists to-day than first mortgages. Ours are placed on improved city properties in Vancouver and farms in Saskatchewan and Alberta. Our valuations are made by experts and are very conservative.

No loan is placed for more than 50% of appraised value. All loans are approved by board of directors. The company insists on the payment of a portion of principal at end of third year, interest payable half-yearly. Titles are searched and certified by our solicitors.

We guarantee to net you SIX PER CENT., making all collections and attending to minor details without charge. Let us tell you more about our Guaranteed First Mortgages.

DEBENTURES FOR SALE

DEBENTURES FOR SALE.

$6,000.00 School Debentures for sale, bearing interest at 4½ per cent., divided into 20 years. The debentures are guaranteed by the township of Normanby, Co. Grey, and is the only liability against said township. Apply to

R. H. FORTUNE,
Ayton, Ont. Secretary, School Board.

VILLAGE OF MARYFIELD, SASK.

Tenders are invited for $1,525.00 debentures, 15 years, 6½ per cent., town improvements.

J. B. STALLWOOD,
Sec.-Treas.

ONTARIO.

Provincial Loan of $1,000,000.

THE GOVERNMENT OF THE PROVINCE OF ONTARIO, under the authority of Chapter 4, of the Statutes of Ontario, 1911, invites subscriptions from the public for a loan of $1,000,000 on bonds of the Province of Ontario, or "Ontario Government Stock."

The bonds will be dated 1st November, 1911, and payable on the 1st November, 1941, in denominations of $1,000 each, with coupons attached for interest at the rate of four per cent. per annum, payable half-yearly on the 1st May and 1st November in each year, at the office of the Provincial Treasurer, Toronto, or at the offices of the Bank of Montreal, in Montreal, Canada, and in New York, N.Y., at the holder's option. Bonds will be made payable to bearer, but on request will be registered in the office of the Provincial Treasurer and endorsed as payable only to the order of certain persons or corporations, and on request of holders will be exchanged for "Ontario Government Stock" at any time.

The issue price during the month of November, 1911, will be 102 for each $100, and after the 30th day of November, 1911, the issue price will be 102 and interest accrued from the 1st November, 1911.

ALL BONDS AND INSCRIBED STOCK ISSUED UNDER THE AUTHORITY OF THE SAID ACT ARE FREE FROM ALL PROVINCIAL TAXES, CHARGES, SUCCESSION DUTY AND IMPOSITIONS WHATSOEVER.

Purchasers of Stock or Bonds will be required to send certified cheque with the application, payable to the order of the "Provincial Treasurer of Ontario."

This loan is raised upon the credit of the Consolidated Revenue Fund of Ontario, and is chargeable thereupon.

A. J. MATHESON,
Provincial Treasurer.

Treasury Department, Parliament Buildings, Toronto, 1st November, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

NOTES OF BIDDING.

Five Toronto bond firms bid for the Bracebridge, Ont., $16,190 5 per cent. 20-year local improvement and power extension debentures, which were awarded to the National Finance Company, Toronto branch.

Acting on the advice of Mr. Justice Riddell and without retiring to consider, the jury in the Toronto Assize Court on Tuesday found Mr. W. J. Lindsay not guilty of conspiring with Mr. W. R. Travers to illegally obtain the charter of the defunct Farmers Bank from the Dominion Treasury Board.

Debentures for Sale

Sealed tenders for the purchase of the following Debentures will be received by the undersigned up till 12 o'clock noon on Saturday, the 9th day of December, 1911.

By-Law No.	Purpose.	Amount.	Term of years	Rate of Interest.
1292	Towards Opening of Road through Mount Pleasant Cemetery.	$25,000 00	20	4½%
1293	Extension of two Parallel Streets	20,000 00	20	4½%

Coupons attached for interest, payable half-yearly and a portion of the principal yearly (making altogether twenty equal annual instalments), at the Imperial Bank, Davisville Branch.

All tenders must allow accrued interest at 4½% per annum, to the date of delivery of debentures and receipt of purchase money.

Debentures to date from 1st December, 1911.

The lowest or any tender not necessarily accepted.

HY. E. STEVENSON,
Treasurer.

Town of North Toronto,
Nov. 23rd, 1911.

THE FARMERS' BANK CASE.

"The shareholders of the Farmers Bank will carry the matter to the Privy Council before they will pay their double liability. They have already raised five per cent. of the money to do it." This was the statement made by Mr. I. E. Weldon, of Windsor, counsel for the Farmers Bank Relief Association, which, together with the Farmers Bank Defence League, went yesterday before the Minister of Finance to ask for relief for shareholders and depositors in the defunct Farmers Bank. The first-named association represents the depositors and the second the shareholders.

DIVIDEND NOTICES

THE BANK OF TORONTO

DIVIDEND No. 121

Notice is hereby given that a dividend of two and three-quarters per cent. for the current quarter, being at the rate of eleven per cent per annum upon the Paid-up Capital Stock of the Bank, has this day been declared, and that the same will be payable at the Bank and its Branches, on and after the 1st day of December next, to Shareholders of record at the close of the business on the 15th day of November next.

The Transfer Books will be closed from the Sixteenth to the Twenty-fifth days of November next, both days inclusive.

By order of the Board,

THOS. F. HOW, General Manager.

The Bank of Toronto, Toronto,
October 25th, 1911.

THE CANADIAN BANK OF COMMERCE

DIVIDEND No. 99

Notice is hereby given that a dividend of two and one-half per cent. upon the Capital Stock of this Institution has been declared for the three months ending the 30th November next, and that the same will be payable at the Bank and its Branches on and after Friday, 1st December next.

The Transfer Books will be closed from the 16th to 30th November, both days inclusive.

The Annual General Meeting of the shareholders for the election of Directors and for other business, will be held at the Banking house in Toronto on Tuesday, the 9th day of January next. The chair will be taken at twelve o'clock noon.

By order of the Board,

ALEXANDER LAIRD, General Manager.

Toronto, 21st October, 1911.

THE BANK OF NEW BRUNSWICK

Notice is hereby given that a Dividend of Three and One Quarter per cent. (3¼ per cent.) being at the rate of thirteen per cent. (13 per cent.) per annum on the capital stock of this bank, has this day been declared for the quarter ending 31st December, 1911, and that the same will be payable at the Head Office of the Bank in this city and its branches on the 2nd day of January next to the shareholders of record of the 18th December.

Notice is hereby given that the annual general meeting of the shareholders of this Bank will be held at the banking house on Monday, the 15th day of January next, for the election of Directors and the consideration of any other business that may legally come before the meeting.

The chair will be taken at noon.

By order of the Board,

R. B. KESSEN,
St. John, N.B., 17 November, 1911. General Manager.

Canadian Pacific Railway Company

DIVIDEND NOTICE

At a meeting of the Board of Directors, held to-day, a dividend of two and one-half per cent. on the Common Stock, for the quarter ended 30th September last, being at the rate of seven per cent. per annum from revenue and three per cent. per annum from interest on the proceeds of land sales and from other extraneous assets, was declared payable on 2nd January next to shareholders of record, at 3.00 p.m. on 1st December next.

By order of the Board,

W. R. BAKER,
Montreal, November 13th, 1911. Secretary.

Union Bank of Canada

DIVIDEND No. 99

Notice is hereby given that a Dividend at the rate of Eight Per Cent. per annum has been declared on the Paid-up Capital Stock of this Institution for the current quarter, and that the same will be payable at the Bank and its Branches on and after Friday, December 1st next.

The Transfer Books will be closed from the 16th to the 30th November—both days inclusive.

By order of the Board,

G. H. BALFOUR,
Quebec, Oct. 24th, 1911. General Manager.

GENERAL ANNUAL MEETING

The Annual General Meeting for the election of Directors and other general business, will be held at the Banking House in the City of Quebec, on Monday, the 18th December next. The chair will be taken at three o'clock in the afternoon. At said Meeting a Resolution will be submitted, requesting the Shareholders to confirm the action of the Directors in applying for an Act to amend the Charter of the Bank to change the Head Office from the City of Quebec to the City of Winnipeg, to provide for the election of an Honorary President and two Vice-Presidents, and to provide that Directors may be chosen from Shareholders resident outside of Canada, the provisions of the said Act to be carried into effect at such time as the Directors shall deem proper.

By order of the Board,

G. H. BALFOUR,
Quebec, November 10th, 1911. General Manager.

BANK OF MONTREAL HAD GOOD YEAR.

The financial statement of the Bank of Montreal for the year ending October 31st is the best in the history of the bank. The profits amounted to $2,276,518, compared with $1,797,992 in 1910 and $1,826,167 in 1909.

The reserve fund is now $15,000,000, and in 1910 it was $12,000,000. It is now greater than the paid-up capital. The bank premises are valued at $9,088,000, land at $4,735,000 and buildings at $4,353,000, but the conservative figure of $4,000,000 is put down in the assets. The amount brought forward from profit and loss of 1910 was $961,789, premiums received on new stock were $365,677.50, adjustment of bank premises account, $3,400,000, leaving $7,003,985 available for distribution. Dividends took $1,440,000, carried to reserve $3,000,000, amount expended on premises during the year $708,800, leaving a balance of $1,855,185.36 to be carried forward to the credit of the profit and loss account. Another feature is that of call and short loans, which have declined from $61,918,750 in 1910 to $42,602,772 in the year under review.

The statement is a creditable one, and the management is to be congratulated on the good results attained during the past year.

◆

The Amsterdam correspondent of The Times telegraphs that the proposed new steamship line between Europe and Canada is not financed by the Canadian Pacific Railway, but by Dutch and French bankers, who purchased two ships from the Canadian Pacific Railway.

Messrs. C. A. McCool of Ottawa and O. B. Sheppard of Toronto, have resigned as directors of the Spanish River Pulp and Paper Company. Their places on the board have been taken by Messrs. A. H. B. Mackenzie, manager of C. Meredith & Company, Montreal, and Mr. R. L. Innis, secretary-treasurer of Dominion Canners, Hamilton.

DOMINION CROP REPORT.

The total area in potatoes, roots, fodder crops, hay and clover this year in Canada was 9,007,492 acres, with a total produce value of $219,055,000. This is $1,600,000 more than last year, and there is a decrease of $3,120,000 in hay and clover. The largest increase is shown in potatoes, which is nearly $6,000,000 more than last year, although the product is less by 8,000,000 bushels, the average selling price being sixty cents per bushel, as compared with forty-five cents a year ago. The value of this year's product of hay and clover and fodder corn is $159,065,000, which is less than last year's value by $2,608,000. Potatoes, turnips and other roots and sugar beets have a value of $59,990,000, being more than last year's value by $4,213,000. The quality of all the crops this year is 90 per cent. and over, excepting sugar beets, which is 88 per cent., and last year all crops excepting potatoes, turnips and other roots were over 90 per cent. The values of all root and fodder crops this year by provinces were: $5,754,000 in Prince Edward Island, $12,228,000 in Nova Scotia, $12,596,000 in New Brunswick, $73,315,000 in Quebec, $99,468,000 in Ontario, $5,583,000 in Manitoba, $3,790,000 in Saskatchewan, and $6,321,000 in Alberta.

The area sown to fall wheat this season is 1,097,900 acres, being 797,200 acres in Ontario, and 300,700 in Alberta. This is 2.93 per cent. less than a year ago.

The per cent. of fall ploughing completed ranges from 73.57 in Ontario to 90.40 in Prince Edward Island for the eastern provinces, and from 18.73 in Alberta to 34.12 in Manitoba for the western provinces, which is less than the average of last year at the same date. For summer fallowing the average in all the provinces is well over 90 per cent. for each of the three years, 1909-11.

◆

The capital stock of the Robinson Brothers Cork Company, Limited, has been increased from $200,000 to $500,000.

LLOYDS WILL NOT REDUCE INSURANCE RATES.

Mr. Garfit, secretary of the Institute of London Underwriters, has given the following authoritative reply of the London Underwriters to the Montreal Harbor Commissioners' demand for a revision of the St. Lawrence insurance rates, as made by Mr. G. W. Stephens, the president:—

"The reason for the comparatively higher rates of marine insurance on vessels to Montreal and other Canadian Atlantic ports is simply that the risks are greater. The underwriters appreciate the big improvements which have been made in recent years in the St. Lawrence channel, but the natural configuration of the Atlantic approach cannot be altered.

"Wrecks on the Canadian coast before the St. Lawrence is entered have been many in comparison with southern routes and the difficulties of navigation are recognized by all who know the conditions existing there.

"The question has been taken up by the London underwriters before with Mr. Stephens and others, but the fact remains that risks, exemplified by the wrecks, necessitate higher rates.

"It is not true to state, as some Canadian authorities do, that the present rates remain as in 1900, prior to channel improvements. They have been lowered, and only this year the schedule shows a decrease from 1910. If the Canadian insurance brokers desire to form a miniature Lloyds of their own, by all means let them do so. They will then realize the reason for the existing rates. They had better form a bankruptcy association at the same time."

HONOR FOR CANADIAN BANKER.

Mr. F. Williams Taylor, the well known manager in London of the Bank of Montreal, was presented in that city on Monday with the silver medal of the Royal Society of Arts, for his paper on "Canada and Canadian Banking," the lucidity of which has earned this great honor and tangible mark of the society's commendation. The awards of the Society of Arts are known and highly valued the world over. Mr. Taylor will have the congratulations of his many friends on both sides of the Atlantic.

* * *

This week 6,000 shares common and 8,000 shares preferred stock of Tooke Brothers, Limited, stock were called on the Montreal Stock Exchange.

The Winnipeg Land and Mortgage Corporation, Limited, of Winnipeg, intend increasing their capital stock from $100,000 to $200,000, by the issue of 1,000 additional shares of $100 each.

The 200,000 shares of the Achilles Mines, Limited, having a par value of $5 each, have been subdivided into shares of $1 each, so that the capital stock of the company consists of 1,000,000 shares of $1 each.

The Royal Exchange Assurance, of London, England, has been licensed to transact in Canada the business of accident, sickness and automobile insurance, in addition to its present business of fire insurance. The Royal Exchange Corporation was incorporated in 1720. Its total funds exceed $35,000,000.

The Company, having disposed of its Capital Stock some years ago, has therefore, none for sale, but the stock may be purchased through the Toronto, Winnipeg and Vancouver Stock Exchanges, at prices ranging from $122 to $125 per share.

The last seven half-yearly dividends have been at the rate of **9 per cent. per annum,** so that, at the current prices, the **investment** will **net 7 per cent.**

The Company will be pleased to furnish prospective purchasers with its Financial Statement or other information bearing on the Company, and, if so desired, the Company will purchase the Stock for the investor through the Stock Exchange, or privately, at the current prices.

Since its inception the Company has enjoyed uninterrupted prosperity, and has taken a very active part in the development of the West. With the rapid growth of Western Canada, the demand for money is so great that the present profitable rates of interest will be maintained for years to come; and with such a desirable field for loaning operations, combined with a progressive management, the price of the Company's Stock should continue to advance, and with the prevailing high dividends, the Stock of this Company will undoubtedly be in great demand by those who desire a safe and profitable investment.

EVOLUTION OF CURRENCIES.

Chats about the collection of the beginning of currencies in the New Museum was the subject of an interesting address by Mr. C. T. Currelley, provincial archæologist, before the Canadian Club, Toronto, recently.

Mr. Currelley, in tracing the evolution of gold coinage, showed how the original basis of exchange, the cow, had been supplanted by a system in which the value of the animal was estimated by the amount of gold dust which could be held in the palm of a man's hand. This in turn had given way to a slightly improved method in which the weight was fixed at from 130 to 135 grains of corn. In this manner, a standard of weight had been introduced and later when the gold dust was moulded into a coin and stamped with the superscription of the reigning king, quality had also been ensured.

Then came debasing methods, when other metals were introduced into the coin. "An interesting thing in connection with this," said the speaker, "is the fact that I have never come across a Phœnician coin which had not been cut by some one to see what was inside; while on the other hand, I have never seen an Attic coin which had any mark on it to show any doubt on the part of those who had taken it in exchange.

In the Far East, the speaker said the earliest government system had been the exchange in swords. An early and stable government had set a standard of a sword eight inches in length. The weapon had a ring on the end of it by which its owner could hang it up. Later the sword had diminished in length, until nothing but the ring was left, and from this it was a very easy transition to the modern Chinese coin.

In closing, Mr. Currelley stated that the system which was conquering all others was the gold system of coinage.

Chancellor Lloyd George's insurance bill, considerably amended and modified in detail, passed through the committee stage in the House of Commons on Tuesday.

In the British House of Commons, Secretary Asland, M.P., said the Swedish government had expressed its readiness to allow the self-governing dominions to withdraw from the Anglo-Swedish treaties if they desired. No other governments had yet replied.

The Vancouver Board of Trade has endorsed a petition to the Dominion government to assist increase the subsidy for the Canadian-Mexican service, operating on the west coast. The Union Steamship Company, control of which was recently acquired by Messrs. Welsford & Company, of Liverpool, have absorbed the Canadian-Mexican line. This service was inaugurated four years ago and the trade between Mexico and Canada is now $4,000,000 yearly.

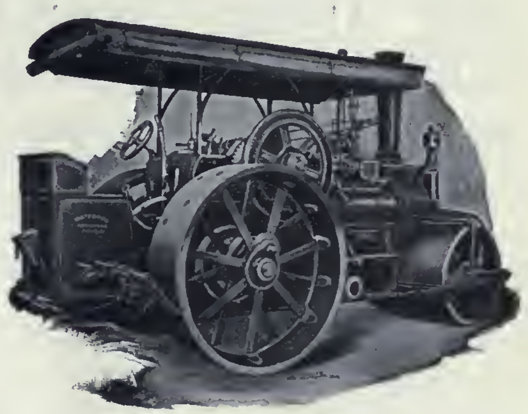
The Waterous
Double Cylinder
Steam Roller



Why we have sold more than thirty of these machines since January 1st.

The Waterous Roller is a road builder in every sense of the word. It can be used in every operation from driving the rock crusher, hauling road material, picking and plowing the old road, to the light, fast, finishing roll.

The twin-cylinder engine, with cranks set on the quarter, runs like a watch. No dead centres, no hanging up in a soft spot, no bucking on the reverse.

It is backed by a steady-steaming boiler, locomotive type, that produces more than enough steam for every working test. Throw off the governor and set it at a hill, and watch it take a 30% grade like an automobile.

Two speeds are supplied, which means fast and slow work under full steam pressure.

Outfit includes:—Rear draw bar, front clevis, driving pulley for rock crusher, full set of road picks, cylinder oil pump, and engine and boiler fittings second to none.

Ask the man on the machine.

SUPPLY IS NOT UNLIMITED.

An interview with an engineer, given recently in a western paper, to the effect that there is abundant timber on the line of the Hudson Bay Railway is an illustration of the misapprehension in regard to this matter that exists in the public mind. Because there are large areas of land in the north on which there is timber of some kind, the conclusion is reached that it is all of present value and that the country has an unlimited supply. As a matter of fact a careful inspection of the timber along the line of the Hudson Bay Railway, made in the years 1910 and 1911, by the Forestry Branch of the Department of the Interior, shows that there is not enough mature timber along the line of that railway to build the road. There are no prairie districts of any extent along the route, there are trees everywhere, but owing to repeated fires the forest is, except on the merest fraction of the area, too small for commercial purposes and unless it can be protected from fire until it reaches maturity, will never be of any use to the country. Explorations in other parts of the northern forested districts, tell the same tale. Everywhere fire has worked havoc, and the forest is a mere wreck of what it might have been if fires could be prevented. And unless adequate measures are taken now to protect the young and immature forests which form the major part of the stand, the outlook for the future is none too good.

If the northern forests are to continue to be a permanent source of wealth to the country, it is absolutely necessary that the fire ranging system should be extended and that proper methods of management of the forest should be applied, and public education as to the value of the forest is even more necessary.

Sweden, which has large extents of northern forest, practically uninhabited, similar to those in northern Canada, has about eliminated the fire danger in such districts mainly by educating her people to the value of the forests.

INTERESTING COMPENSATION CASES.

Two judgments of interest, involving interpretations of the Quebec Workmen's Compensation act were rendered by Mr. Justice Tellier in the Superior Court at Montreal this week, the Grand Trunk Railway Company being defendant in both suits. In the first, the court, whilst allowing damages on account of temporary disability, refused a grant on the score of permanent wage decreasing incapacity, on the grounds that the victim of the accident, whilst permanently disabled, had resumed work at the same salary as that which he was earning prior to the accident. In the second, damages for temporary disability were allowed, and the petitioner was further accorded an annual pension, in spite of the fact that the company was willing and ready to take him back to work at the same wages he had been earning prior to the accident. In the latter case, the court held that a workman, who was the victim of an accident which induced permanent disability of such a nature as to decrease his earning power, was ipso facto vested with rights to a pension under the Act, and that no subsequent action on the part of the employer in offering him the same salary or even a greater salary than he was earning at the time of the mishap, could infringe upon those rights. The fact that a man's earning power was decreased left but one avenue open to the court, in a case where redress was sought under the provisions of the Compensation Act.

◆

The Year Book for 1910 of the Board of Trade of Toronto has been issued. It is a quarto book of nearly 175 pages, bound in attractive dark gray, and profusely illustrated with full-page photo-engravings. It takes sixty closely printed pages to contain the names, addresses and occupations of all the members of the board, and twenty pages are devoted to the various comprehensive reports of different sections. The balance of the volume contains Mr. W. J. Gage's annual address as retiring president, a description of the city of Toronto, Sir George Ross' address on reciprocity, given before a meeting of the board last autumn, Mr. J. L. Englehart's address on the north country, given in the spring, and a record of the trip made by the members into that region in June.

FROM COAST TO COAST.

The Stewart Sheaf Loader Company, of Winnipeg, Man., may erect a factory in Guelph, Ont.

Messrs. Starin Brothers—George F., H. A., and L.D.—have established in Vancouver a large trunk factory.

The American Blower Company of Detroit, Mich., manufacturers of ventilating fans, may erect a factory in Windsor, Ont.

While cleaning an automobile at Montreal, Mr. George Boyle accidentally set fire to the gasoline tank and himself. He was seriously burned.

A new marine insurance corporation on the same lines as Lloyds may be formed. The new concern will pay attention to Canadian business.

Mr. Herman Affeldt, a farmer living near Centreville, Ont., who was charged with arson, has been discharged because there was not sufficient evidence to convict.

It is stated that the Cockshutt Plow Company have secured a controlling interest in the Brantford Carriage Works and the Adams Waggon Company, both of Brantford, Ont.

At the end of the last fiscal year the total number of government annuities sold under the act of 1909 was 1,709. The total value of the annuities is $865,425, and the amount paid so far on purchase, $343,112.

The Edward Partington Pulp and Paper Company, at St. John, have struck a good supply of water by boring artesian wells, and it is expected they will next year begin the erection of the large paper mill, for which they have secured a site near their pulp mill.

A reduction plant at Goose Bay, Observatory Inlet, Portland Canal district, B.C., may be erected by the Granby Consolidated Mining and Smelting Company. The plant will have an initial capacity of 2,000 tons daily and will represent an investment of $1,000,000.

A board of trade has been organized at St. Stephen with Mr. A. D. Ganong as president, and Mr. J. W. Richardson secretary. A strong executive was chosen and the board anticipates an active career.

The Quebec government may appoint a commission with similar powers to the Ontario Hydro Electric Commission. Honorable S. N. Parent, late of Transcontinental Railway Commission, may be the chairman of the new department.

With the exception of some work in the yards at three divisional points the Grand Trunk Pacific Railway in New Brunswick is completed, and the trains could be run from Moncton to the Quebec border over an excellent roadbed. The finishing touches will be given to the line next summer.

"As a budding nation our loyalty is intense and practical, and our position as one of the leaders of the Empire compels us to maintain our tariff wall," was a statement made by Mr. J. G. Henderson, industrial commissioner of Hamilton, Ont., at the convention of American Hardware Manufacturers' Association held recently in Atlantic City, N.J.

An attractive booklet on Canadian public utility and industrial bonds and debentures has been issued by Messrs. McCuaig Brothers, Limited, of Montreal. The booklet contains much information compiled from the company's trustees and as furnished by the corporations. The history, bond issue, capacity of plant, and earnings of forty companies are given together with much valuable information. The booklet should be in the hands of all interested investors.

The serious attention of the public has again been called to the depopulation question in France by the publication of official statistics. These cover the first six months in 1911, and show an excess of deaths over births of 18,279. The figures are all the more discouraging from the fact that in the same period in 1910 the births exceeded the deaths by 21,189. The figures for 1911, from January to June inclusive, are as follows: Population, 39,252,245; marriages, 153,931; divorces, 6,374; births, 385,999; deaths, 404,278.

Portland, Maine

FRED. E. RICHARDS, PRESIDENT. HENRI E. MORIN, SUPERVISOR.

For Agencies in the Western Division, Province of Quebec and Eastern Ontario, apply to WALTER I. JOSEPH, Manager, 151 St. James Street, Montreal.

For Agencies in Western Ontario, apply to E. J. ATKINSON Manager, 107 Manning Chambers, 72 Queen St. West, Toronto.

Northern Life Assurance Company of Canada

LONDON, ONTARIO

1910

The past year showed progress in every Department.
We wrote more business than we ever did.
Our Assets amount to nearly a million and a half.
Our Reserves for the Security of Policyholders are nearing the million mark.
Our Death rate was small, showing careful selection, and was paid for twice over by our Interest income.

W. M. GOVENLOCK, Secretary. JOHN MILNE, Managing Director.

The Investment Problem

"In what way can I assure myself of a steady income? How shall I invest my savings so that I may have the comforting knowledge that my investment is safe and that my income will be regular and assured?"

This is the question that many ask.

Write us to-day and our Investment Inquiries Department will give you the benefit of years of experience in the investigating and buying of securities for investors. The services of this department are freely and cheerfully offered to you. Don't hesitate to write, no matter whether you wish to invest $10, $100, $1,000, $10,000 or a larger amount.

Write to us.

INVESTMENT AND LOAN COMPANIES

Conservative Investments

An Object Lesson from France

It is generally accepted as a fact that there are proportionately more investors in France than in any other country. The reason usually given for this condition is the extreme conservatism of the French. With these thrifty people the rule seems to be "Safety first; interest afterwards."

The best interests of the individual and the Nation would be promoted if our people, instead of venturing their savings in speculative propositions where it is so often lost, were to cultivate this attribute of the thrifty Frenchman, and invest in securities which will be permanently safe.

Among the most convenient of such absolutely safe investments are the Bonds of this Corporation. They are a Legal Investment for Trust Funds, and may be had in sums of One Hundred Dollars and upwards.

Send for specimen Bond, copy of Annual Report, etc.

TORONTO'S EXTRAVAGANT IMAGINATION.

The ratepayers of Toronto will be asked on January 1st to vote on by-laws aggregating $10,000,000, a heavy New Year's gift to the civic expense account. With the tube scheme deleted, the amount would be halved, leaving the Hydro-Electric and the Bloor Street viaduct proposals, both of which should meet with success. It is an extravagant imagination which allows tube railways to enter the transportation situation of a city of less than 400,000 population. It is well to know, also, that the suggested expenditure of $5,000,000 on three miles of subway lines is but the thin end of the wedge and the beginning of a scheme planned for a system estimated to cost $23,000,000, and to be completed by 1921, the year the city will have an opportunity to acquire the street railway company. This may be excellent ambition, but it is not good business. It may not create competition even, for when the proposed tube scheme is complete, the city will be able to acquire the street railway, making it a municipal monopoly. If the city has an elaborate tube railway in 1921, the street railway may also compete with it. If the city gets both systems, the debt created would be entirely out of proportion to Toronto's financial strength.

The proposed tube system is an extravagant and unwise attempt to solve a complex transportation problem, an endeavor that will make the position more complicated in 1921, a year when a natural solution will arrive. Tubes for Toronto is akin to an automobile for the domestic. The ratepayer who does not allow his civic pride to carry him beyond his business sense will vote against the tube scheme.

CANADIAN BANK FOR AUSTRALIA.

While Mr. D. H. Ross, the valued Canadian trade commissioner at Melbourne, naturally hesitates to advocate the establishment of a Canadian bank in Australia or New Zealand, he again reminds us in a recent report that neither Canada nor the United States has a branch bank in those countries. At present nearly all bills of exchange are negotiated either in New York or London, which causes much inconvenience through the bills of lading covering Canadian shipments to Australia being so much delayed in transit that the steamers are discharged before the necessary documents have arrived. Shipments cannot be passed through the customs without invoices, and the production of bills of lading are also necessary in order to obtain delivery from the steamers. Storage charges on the wharfs accumulate and add to the cost of the goods in the warehouse, besides causing friction and annoyance between importers and agents for Canadian manufacturers and exporters.

The exports from the United States to Australia in 1910 were valued at £7,659,150, and from Canada £802,045, aggregating £8,461,195, and the assumption is that a Canadian bank, with branches in New York and Australia, would secure the greater portion of these profitable exchanges. The last two cargo steamers from Montreal arrived at Melbourne before the shipping documents came to hand, and it is imperative, in the interests of Canadian trade, that exporters should endeavor to remedy such a serious disability. Some large importers have recently made strong representations to a leading Australian bank to establish branches in Canada and New York to overcome these difficulties.

In view of these circumstances, a Canadian bank may feel justified in entering that field.

GIVING GOOD NAMES.

The public man who values his good name in Canada should take greater care of it. A good name is an excellent asset. A good name abused is a bad debt. In the promotion of a new company, referred to in these columns recently, the names of eighty of the best-known men in Canada were secured as founders of the company. One prominent gentleman, included in the list of founders, writes The Monetary Times: "I do not know anything about this company at all, nor have I heard of it. I am taking means to have my name stopped being used." As a matter of fact, he signed a founder's certificate two years ago, although he has written "a dozen times" since, cancelling his signature.

We sent to many of the gentlemen named as founders of the company—which has been in the course of organization for at least two years—a letter drawing attention to the fact that their names were being utilized. One reply says: "I signed the subscription list because I saw that a good number of prominent citizens of Montreal had also signed it." Another says: "I took a founder's share because of the names of the men who appeared to be interested in this enterprise." A prominent Western man writes: "The promoter showed me the names of some prominent gentlemen in Montreal and elsewhere that had agreed to take shares in his concern." The mayor of a leading city says: "After having seen by the names on a list submitted that the organization met with the approval of most of our best citizens, I subscribed."

These examples are sufficient to show that on the strength of names were many others obtained. Few of these founders know anything of the company save that Sir Somebody or the Honorable Someone was the signature ahead on the list. This is a bad feature of Canadian company promotion. If we desire to maintain our good credit at home and abroad, founders and directors must not give their names to an enterprise unless satisfied personally that the promotion is worthy and that the undertaking has at least the elementary prospects of success. To give the use of a good name because it is stated that some other prominent man has already done so, is dangerous in many ways.

THE MONTREAL HARBOR COMMISSION.

It will be an unwise policy that dictates the removal of the present Montreal Harbor Commission to make room for office-seekers of the new régime at Ottawa. Messrs. George W. Stephens, C. C. Ballantyne and L. O. Geoffrion have pursued a course of development on the St. Lawrence waterway and at the port of Montreal which has excited admiration and raised the envy of rival ports in other countries. Montreal is, and will always be, the first and the national port of Canada. It is rapidly gaining place as one of the most important ports of the North American continent. The members of the present Harbor Commission have been untiring in their efforts to achieve results worthy of Montreal, endeavors which have met with unqualified success. Surely political scalp-hunting can be spared in such a case!

◆

The Farmers Bank double liability pill is a bitter one, but we fear that the government cannot prevent it being swallowed.

* * * *

The provincial premiers will confer at Ottawa in the spring, and some of them hope that the spring will develop into a subsidy flood.

SMALL CHANGE.

New canals have appeared on Mars according to an announcement from Lowell observatory. The busy Martians may yet beat the Panama and Georgian Bay canal builders.

* * * *

So long as 16,000 people will watch a Rugby match while the mercury is at low ebb, as in Toronto last week, we may rejoice that the worship of Diana exceeds that of Mammon.

* * * *

The prospectus of the International Insurance Company, of Edmonton, is notable for what it does not tell about the managing director's previous company and the $62,000 operating deficit thereof.

* * * *

The latest advertising campaign inaugurated by the Toronto Street Railway is publication of the reasons for delays and defects in the service. What a lot of business would be done if we all followed that example!

* * * *

Half of Champ Clark's time is occupied in talking annexation of Canada and the other half explaining that he did not mean it. The Wall Street Journal asks us to oblige by annexing Champ Clark, but we have enough fireworks at Ottawa now.

* * * *

Another delay in the revision of the Bank Act is suggested. The charters expired on July 1st, 1911, and were renewed for one year. The proposal to extend the charters for another year probably will not meet with the approval of the business and banking world.

The Annual Number of The Monetary Times will be published on January 6, 1912

More than 170 pages, illustrated

ARSENIC, IRON PYRITES, MICA, SALT.

Pursuit of Potash—Salt Wells at Goderich Examined.

From the silver-cobalt ores of the Cobalt mines, Ont., treated in their plants, the Copper Cliff, Deloro and Coniages refining companies recovered and marketed 1,524 tons of arsenic in the form of refined arsenious acid or white arsenic. The total quantity of arsenic in the Cobalt ores raised during the year was 4,897 tons, so that 3,373 tons are to be accounted for as contained in the ores and concentrates exported and treated elsewhere. Beyond doubt a considerable proportion of this arsenic is lost, and the full arsenical contents of the ores raised at Cobalt consequently fail of utilization.

The value placed by the smelting companies in their returns to the Bureau of Mines upon the 1,524 tons of white arsenic, was $70,709, an average of 2.31 cents per pound. The consumption of arsenic has not kept pace with the increase in supply, and since the opening of the Cobalt mines the price has fallen from six, or even seven cents per pound, to less than three. Under these conditions, there is no incentive for the opening up of new sources of this article. There are many deposits of mispickel, some of them auriferous, in Ontario, but unless the gold contents can be extracted at a profit without reference to the arsenic, there is little likelihood of their being developed while present conditions prevail.

The uses of arsenic are many—in medicine, as an insecticide, in the manufacture of pigments, and also in imparting a peculiar brilliancy to plate and other glass.

Iron Pyrites Deposits of Ontario.

The pyrite deposits of Ontario yielded in 1910 33,812 tons of ore, worth at the mines $98,353, an average of $2.90 per ton. The output in 1909 was 28,946 tons, valued at $78,170. The largest producer was the Helen iron mine, where the pyrite occurs under unusual conditions. Bodies of finely granular ore are met with enclosed in iron ore, and much care is required in handling them, since when cut into, the pyritic sand runs out almost as freely as water.

The Nicholls Chemical Company, whose mines and acid works are at Sulphide, Hastings county, raised a good deal of ore, and has recently much enlarged its acid-making plant. The Northland mine at Rib Lake, Temagami Forest Reserve, was leased by Mr. C. B. Stranahan and worked by him from 23rd May to 1st September, 1910, during which time considerable ore was raised and shipped. The Canadian Sulphur Ore Company at Queensboro, and the Ontario Sulphur Mines, Limited, at Tweed, were both engaged in opening up deposits of pyrite and made shipments of ore.

The large bodies of pyrite at Lake Minnetakie, near Superior Junction, which have been under development for several years by the Northern Pyrites Company, sent away none of their output last year, but will probably enter the market on a considerable scale in 1911. The geology of the neighborhood has been worked out by Dr. E. S. Moore.

Production for Five Years.

The following table shows in brief form the development of iron pyrites mining in Ontario from 1906 to 1910:

Schedule.	1906.	1907.	1908.	1909.	1910.
Pyrites shipped....tons	11,090	15,755	20,970	28,946	33,812
Value of do....... $	40,583	51,842	69,980	78,170	98,353
Workmen employed.No.	128	137	132	132	227
Wages paid........ $	57,580	75,365	95,740	104,687	117,191

So far, it will be observed, the yearly wage-bill has exceeded the value of the output. This condition is due to the fact that some of the deposits, including the largest, have been continuously under development, and have not yet begun to ship in quantity. There are numerous bodies of pyrite in the province, some of them extensive, upon which no mining has been done. Want of railway communication is, in part at least, the cause. The chief use of iron pyrites is in the production of sulphuric, nitric and "mixed" acids, for which purpose it has of late years replaced native sulphur where transportation charges gave it an advantage in the market. By "dead-roasting" the pyrite the cinder remaining after the sulphur is expelled can be used as iron ore.

Output of Mica and Salt.

The output of the amber mica mines of Ontario in 1910 was somewhat greater than in the previous year, being 513 tons of cobbed material, worth $85,294, as against 350 tons, worth $73,124 in 1909. Producers were Loughboro Mining Company, Sydenham; Messrs. Kent Bros. and J. M. Stoness, Kingston; Messrs. Scriven and Whyte, Sydenham; Kingston Feldspar and Mining Company, Kingston; Dominion Improvement and Development Company, Perth; Mr. J. W. Trousdale, Sydenham; Mr. W. L. McLaren, Perth; Mr. Rinaldo McConnell, Ottawa. The mica came wholly from the deposits of Lanark and Frontenac counties, which furnish a standard article and have been operated for many years. There is mica in other parts of the province, notably the districts of Muskoka, Parry Sound and Nipissing, but little has yet been produced in a commercial way. The demand and consequently the prices for mica were better in 1910 than in the previous year.

The salt production of Ontario varies comparatively little from year to year. In 1910 the output was 84,071 tons, valued at $414,978, while in 1909 it was 77,490 tons, worth $389,573. The number of men employed in the industry was 202, and the amount paid as wages, $114,056.

The Canadian Salt Company, Limited, whose plants are at Windsor and Sandwich, is the chief producer of salt; others are Western Canada Flour Mills Company, Limited, Goderich; Dominion Salt Company, Limited, Sarnia (this company took over the works of the Empire Salt Company and the Cleveland-Sarnia Saw Mills Company during the year); The Elarton Salt Works Company, Elarton; The Gray, Young and Sparling Company of Ontario, Limited, Wingham; The Western Salt Company, Limited, Mooretown; Ontario People's Salt and Soda Company, Limited, Kincardine; Parkhill Salt Company, Parkhill; Exeter Salt Works Company, Limited, Exeter; John Ransford, Stapleton.

Pursuit of Potash.

Many inquiries have been received at the Bureau of Mines regarding deposits of potash supposed to have been found in connection with salt wells at or near Goderich. These inquiries were prompted by a despatch which received wide publicity in the press, purporting to come from Berlin, Germany, and asserting that such deposits had been located and a company formed to work them. Inquiry was made on the spot by Mr. C. W. Knight, assistant Provincial Geologist, but it could not be found that there was any foundation whatever for the report, which may possibly have had its origin in the controversy that has for some time been on foot regarding the supply of potash from the German deposits to consumers in the United States.

There is no doubt that the discovery of potash salts in quantity would be a boon to the agricultural interests of Ontario, and indeed of the Dominion at large. Wood ashes, which in the early days of settlement when the forest was being cleared away and burned were plentiful and were largely made use of for the extraction of potash salts, are now no longer to be had in quantity, and our agriculturists are dependent for potash upon foreign sources of supply, which means Germany. There the potash deposits at Stassfurt are found in association with common salt, and no doubt the persons responsible for the report assumed that existence of salt at Goderich was a sufficient basis for diagnosing potash there as well. There is no evidence that such is the case. Indeed, there is evidence to the contrary.

Salt Wells at Goderich Examined.

That eminent chemist and man of science, the late Dr. T. Sterry Hunt, made an examination of the salt wells at Goderich, and especially of the diamond drill cores taken from the deep borings made by Mr. Attrill at that place many years ago. Dr. Hunt's report is published in the report of the Geological Survey of Canada for 1876-7, and states that the cores were carefully tested for salts of magnesia and potash. In no case were any appreciable quantities found. Samples of salt of the pure white variety and also of the dark-coloured, low-grade material, were taken by Mr. Knight and were analyzed by Mr. N. L. Turner, provincial assayer, who reported a trace of potash only in each sample. So far the result of inquiries has been negative. In the case of a brine from across the lake in Michigan, four analyses gave fairly concordant results, showing nearly 38 grammes of potassium chloride per litre, while the sodium chloride gave 197 grammes.

TRUST AND LOAN COMPANY OF CANADA.

The net profits of the Trust and Loan Company of Canada for the six months ended September 30th, amounted to £49,641-6-11, and after carrying to the reserve fund the moiety of profits over dividend at the rate of 6 per cent. per annum, as required by the Trust and Loan Company of Canada Act and royal charter, viz., £16,570-13-5, the amount at credit of revenue, including £2,001-11-6, brought forward from March last, was £35,072-4-11.

Out of this amount the directors have placed £7,725 to the special reserve account (bringing the amount of this fund to £75,000), and provided £1,741-10-3 for the income tax, leaving a balance of £25,605-14-9, available for distribution.

The directors have decided to distribute out of this balance of £25,605-14-9 an interim dividend at the rate of 6 per cent. per annum, and a bonus of 1 per cent., for the six months, making together a rate of 8 per cent. per annum, both free of income tax, on the paid-up capital of the company, exclusive of the current issue of 10,000 shares, leaving a balance of £3,605-14-9 to be carried to the credit of the current half-year's accounts.

During the period embraced by these accounts the reserve fund has been charged with £5,702-12-0 for depreciation in the value of investments held in England, and £687-1-10 has also been charged against it for loss on securities realized in Canada. This fund now amounts to £291,896-18-11, compared with £282,812-10-9 on the 31st March last, being an increase of £9,084-8-2 as shown in the annexed statement on the reserve fund accounts.

NEW INCORPORATIONS.

Ninety Companies Have Been Granted Charters—Many are Industrial Concerns.

Ninety companies were incorporated last week with a total capitalization of $18,101,000. Seven have capital of a million dollars and over as follows:—Gold Crest Mines, Toronto, $2,000,000; Superior Coal Company, Lethbridge, Alta., $1,500,000; Metropolitan Loan and Investment Company, Edmonton, Alta., $2,000,000. The following were incorporated with capital of $1,000,000:—Canada West India Company, St. John, N.B.; Eastern Canada Power Company; Montreal, and Conduits Company, Toronto.

The Cedar Rapid Manufacturing & Power Company has asked permission to increase its capital stock from $250,000 to $10,000,000. The par value of the stock is $100 a share.

The companies chartered by provinces were:—42 Alberta; 19 Ontario; 17 Quebec; 10 Saskatchewan, and one each Manitoba and New Brunswick.

The following is a list of the charters granted during the past week. The head office of each company is situated in the town or city mentioned at the beginning of each paragraph. The persons named are provisional directors:—

Loreburn, Sask.—J. R. Hepburn, $35,000.

Gleichen, Alta.—Alberta Transfer,, $20,000.

Banff, Alta.—Gateway Orchards Company, $25,000.

Red Deer, Alta.—Federal Investors' Corporation, $75,000.

Keeler, Sask.—Keeler Twentieth Century Social Club, $6,000.

Hanley, Sask.—Western Farmers' Supply Company, $50,000;

Strathcona, Alta.—Crescent Heights Land Company, $25,000.

.. **Edensville, Alta.**—Meeting Creek Trading Company, $10,000.

Magrath, Alta.—Hodges & Weston Land Company, $75,000.

Moose Jaw, Sask.—Saskatchewan Stock & Grain Exchange, $250,000.

North Battleford, Sask.—North Battleford Manufacturing Company, $50,000.

Renfrew, Ont.—Stewarts, $100,000; G. B. Ferguson, J. M. Austin, R. C. Wilson.

Kingston, Ont.—Robertson's, $100,000; C. A. Macpherson, A. Orr, W. H. Graham.

Shelburne, Ont.—H. White & Company, $60,000; H. White, E. Berwick, R. A. Riky.

Paris, Ont.—Nokomis Oil & Gas Company, $90,000; R. Thompson, R. E. Haire, J. L. Thompson.

Regina Sask.—Standard Land Company, $200,000. Parkdale Development Company, $50,000.

Black Lake, Que.—Standard Cement Company, $400,000; J. Ouellet, A. E. Hudon, T. Chretien.

Quebec, Que.—Macpherson Company, $1,000; W. M. Macpherson, G. B. Ramsey, L. A. Reinhardt.

Huntsville, Ont.—Bigwin Island Land Company, $100,000; C. O. Shaw, J. W. McKee, W. J. Moore.

Grimsby, Ont.—Grimsby Soap Works, $50,000; J. W. Van Dyke, F. A. Van Dyke, M. L. Van Dyke.

Pincher Creek, Alta.—Castleview Ranching Company, $10,000. Pincher Creek Rink Company, $10,000.

Sorel, Que.—Metallurgic Enterprises Company, $10,000; V. A. Bourgeois, R. LaRochelle, C. Thibault.

Peterborough, Ont.—Standard Blend Tea Company, $40,000; J. H. Spence, M. C. Cameron, J. S. Emery.

Saskatoon, Sask.—G. H. Clare & Company, $50,000. Store Fixtures, $50,000. Mutual Investments, $75,000.

Hull, Que.—Gatineau Graphite Mining Company, $40,000; D. E. Brill, D. Olmstead, J. A. Fummerton, Ottawa.

Ottawa, Ont.—Major Hill Taxicab & Transfer Company, $100,000; A. Haydon, J. P. Ebbs, Miss L. Barber.

Windsor, Ont.—Canadian Two in One Auto Company, $200,000; S. S. Cole, F. A. Smith, F. E. Bowen, Detroit.

St. Coeur de Marie, Que.—La Compagnie d'Aqueduc de Saint-Coeur de Marie, $20,000; J. Fleury, M. Savard, E. Lemay.

Victoriaville, Que.—La Compagnie Thibault, $20,000; O. Thibault, Montreal; C. Thibault, P. E. Thibault, Victoriaville.

Winnipeg, Man.—Canadian Israelite Printing & Publishing Company, $5,000; J. E. Reynolds, M. Scott, T. Anderson.

St. John, N.B.—Canada West India Company, $1,000,000; B. F. Smith, E. S. Kirkpatrick, East Florenceville; G. Neal, Debec.

Lethbridge Alta.—Alexander Milling Company, $10,000. Superior Coal Company, $1,500,000. Adams Coal Mine Company, $25,000.

St. Thomas, Ont.—Elgin Oil & Gas Company, $200,000; G. W. Smiley, B. S. Harder, St. Thomas; J. L. E. McCoy, Chatham Township.

Medicine Hat, Alta.—A. P. Burns Contracting Company, $30,000. Wetmon Realty & Investment Company, $10,000. International Supply Company, $200,000.

Hamilton, Ont.—Street Realty Company, $50,000; G. H. Levy, M. J. O'Reilly, A. H. Gibson. Christophers, $40,000; P. Christopher, L. Christopher, G. Christopher.

Edmonton, Alta.—Great West Nursery Company, $10,000. Athabasca & Northern Townsites Company, $25,000. Imperial Powder Company, $10,000. Metropolitan Loan & Investment Company, $2,000,000. Mount Robson Trading Company, $10,000. Magnetic Wheat-Food Company, $150,000. Edmonton Rubber Stamp Company, $11,000. Alberta Realty Company, $25,000. Monarch Securities & Investment Company, $50,000. Central Securities, $10,000. C. Planitz Company, $25,000. Peace River Collieries. $200,000.

Toronto. Ont.—Corrugated Paper Company, $40,000; E. W. J. Owens, W. A. Proudfoot, H. J. D. Cooke. Conduits Company, $1,000,000; I. S. Fairty, H. T. Hunter, W. McNally. London & Canadian Securities, $500,000; C. W. Crofoot, M. R. Wadds, H. J. Coon. Gold Crest Mines Company, $2,000,000; Misses M. E. Lee and F. H. Harrison; R. K. Barker. Farmer Brothers, $40,000; G. W. Hambly, C. A. Michell, E. Stewart. Joseph Harrison, $40,000; G. H. Sedgewick, A. G. Ross, L. Davis. Patterson Land Company, $500,000; W. Patterson, E. A. Patterson, N. R. Sinclair.

Montreal, Que.—Poirier Freres, $25,000; R. Poirier, A. Poirier, E. Delorme. Queen Dress & Waist Company, $50,000; A. Sommer, B. Sommer, T. Conroy. Eastern Canada Power Company, $1,000,000; F. G. Bush, H. W. Jackson, G. R. Drennan. Carillon Construction and Development Company, $50,000; H. Miles, L. Gosselin, J. Donaghy. Metropolitan Engineering and Contracting Company, $50,000; E. G. T. Penny, A. H. Elder, P. F. Brown. Canadian Ice Company, $500,000; P. King, W. B. Converse, C. A. Smart, J. W. Pyke. National Lime & Marble Company, $275,000; W. T. Curran, A. E. Harvey, H. A. Calkins. Northern Land Company, $150,000; W. L. Bond, J. B. Johnson, J. McBride. French Automobiles, $50,000; A. J. de Bray, E. Virolle, E. Major. Scriptograph Company, $250,000; J. E. Warner, F. J. ◆

NOTES OF BIDDING.

Seven offers were received for the Davidson, Sask., $16,000 5½ per cent. 20-year skating rink and electric light debentures, which were awarded to Messrs. C. H. Burgess and Company, Toronto.

For the $19,000 5 per cent. 30-year debentures of Melville, Sask., eight bids were received, one from Montreal, five from Toronto, and two from Regina. The award was made to Messrs. Hanson Brothers, Montreal.

Six Toronto and one Regina bond firm bid for the $63,600 5 per cent. 30 and 35-year waterworks, sewer, walks and hospital debentures of Red Deer, Alta. The offer of Messrs. Wood, Gundy and Company, of Toronto, was accepted.

LLOYDS OF LONDON.

Public Are Dissatisfied—Want Greater Publicity Regarding Their Methods.

In explaining some of the peculiarities of John Bull to a group of Canadian visitors at Birmingham five years ago, Joseph Chamberlain said: "We are not only one of the most democratic countries on the face of the earth, but we are also a very conservative country. Our democracy is conservative. When a doctrine has been entertained, rightly or wrongly, for two generations, it becomes a superstition, and then it is sacred." It was the evidently extremely rigid application of the doctrine of free trade to every time and country that Mr. Chamberlain had in mind.

But a similar conservative attitude of the British mind is observable in other realms than politics. The very respectable and eminently British institution known as Lloyds has done marine insurance for between two and three centuries, and has made and earned a name for honor in its dealings and absolute security for its clients. During all these ages nobody doubted Lloyds, whose policies covered vessels and cargoes at the ends of the earth.

The method employed by this body was an association of individual underwriters in groups, who would grant a certain aggregate of insurance under a policy. Ten, or twenty, or thirty persons "in the room," as it is called, would assure a lump sum under this policy by contributing so many hundred pounds each to the policy for a certain period, some individual broker or agent seeing to the details for the group.

Scope of Operations Extended.

Within later years Lloyds began to extend the scope of its operations to include fire and accident and other forms of insurance. The British Assurance Companies Act of 1909 contains a provision that it shall not apply to a member of Lloyds, provided he complies with the requirement of the eighth schedule, that every underwriter shall deposit and keep deposited a sum of £2,000 until all liability under any policy issued has been discharged. And further, "he shall furnish every year to the Board of Trade a statement showing the extent and character of the fire and accident insurance business effected by him."

A private bill which some months ago passed the House of Lords and came before the House of Commons extends the objects of and confers further powers on Lloyds. For it provides that in lieu of complying with the requirements above mentioned, the underwriter may put his premiums in a trust fund and furnish security to the satisfaction of Lloyds' committee, in the shape of either a deposit or guarantee, or both, which shall be available solely to meet claims. But there is no provision for making public the accounts or the assets of such underwriting groups as other insurance companies have to do year by year.

Public Are Dissatisfied.

It is here that public dissatisfaction has been shown. A man who wants fire or accident insurance done by Lloyds is not satisfied to have merely a certificate from Lloyds' auditor that A, B, C and D have a deposit with that body which is deemed adequate; he wants to read the accounts and the list of assets and satisfy himself, as he may do in the case of a chartered company, that his risk is safe. Between May and September of the present year several individuals, members of groups at Lloyds, went into bankruptcy, having in one case no assets, in another only a few pounds, for the satisfaction of claims against them by creditors for insurance.

It can scarcely be wondered that individuals, and more recently influential journals in London, have been calling for publicity for Lloyds' transactions. So unsatisfactory is the alternative plan, permitted by the Act, of submitting to an audit or supplying a guarantee (to Lloyds), instead of giving statements of their business which the public can see and understand, that The Policyholder of October 18th exclaims against the fact that: "Five hundred and one underwriters avoid publicity by what may be described as the back door method of lodging an auditor's certificate with the Board of Trade, instead of filing their accounts."

◆

WHAT DAUPHIN HAS AND WANTS.

Dauphin is an enterprising town in Manitoba. These are the facilities Dauphin has according to the secretary of the board of trade:—Unsurpassed location; rich surrounding country; fine climate; abundant rainfall; excellent railway facilities; good schools; churches of all leading denominations; good stores with large stocks; a fine water system; good fire protection; adequate banking facilities; a splendid market near at hand; cheap building material; a prosperous present; a promising future.

Here is what Dauphin wants:—Many more people; much more capital; several new industries; a pickle factory; a packing house; a tannery; a wood pulp mill; more farmers in the district; more cattle raising; more breeding of horses; more dairy farms; more raising of roots; wider publicity; due consideration; proper appreciation;

CANADIAN CAR AND FOUNDRY COMPANY'S REPORT.

Profits Were Satisfactory, but Not Up to Estimates Made at the Time of Amalgamation.

While the earnings of the Canadian Car and Foundry Company were satisfactory for the year ended September 30, 1911, it should be noted that the company's latest statement furnishes another example of the over-optimistic estimates of earnings made by the majority of merger promoters. The following figures illustrate this point:

Estimated earnings, 1910	$1,500,000
To September 30th.	
Actual earnings, 11 months, 1910	832,530
Actual earnings, 12 months, 1911	1,007,137

Estimated Earnings.

When the company offered $2,350,000 first mortgage 6 per cent. gold bonds in 1910, the president stated with regard to earnings:

"The books of the Rhodes-Curry Company, Limited, for the last five fiscal years, and of the Dominion Car and Foundry Company, Limited, for the last two fiscal years, have been examined by Messrs. Price, Waterhouse and Company., and of the Canada Car Company, Limited, for the last two fiscal years by Messrs. P. S. Ross and Sons. Based upon their audits, the net earnings of the properties now owned by this company, after making adequate provision for depreciation, have been for the last two fiscal years:

Rhodes-Curry Company, Limited, year ending Dec. 31	(1907)	$230,425.18	(1908)	$302,121.27
Canada Car Company, Limited, year ending Sept. 30	(1908)	446,366.05	(1909)	278,079.60
Dominion Car and Foundry Company, Limited, year ending July 31	(1908)	414,246.29	(1909)	382,335.16
		$1,091,037.52		$962,536.03

"The average net earnings per year for the above two fiscal years have been over $1,000,000, or nearly five times the annual interest on these $3,500,000 six per cent. bonds. This period has been a very dull one for car builders, and business was obtained under keen competition with plants running at only half capacity.

"The savings in buying, selling, freight, administration and manufacture with these three concerns combined should add at least 40 per cent. to the net earnings without charging any more for the output. I estimate that as a result of this consolidation and the present improvement in trade, the net earnings this year will be at least $1,500,000, which is more than seven times the interest on these bonds."

The inference, from the latest figures, is that the savings and economies from combination were not as great as anticipated.

Latest Year's Figures.

The company's pamphlet report for the year ended September 30, 1911, shows profits of $1,007,137, compared with $832,530 for the eleven months ended September 30, 1910; preferred dividends, $385,000, against $320,833; common dividend, $77,500, none previous year; surplus, $544,637, against $511,696; profit and loss surplus, $1,056,334.

The general balance sheet as of September 30, 1911, shows assets as follows: Cost of properties, $10,147,297; investments at cost, $1,460,437; inventories at or below cost, $2,505,608; bonds, stocks, etc., $53,110; accounts receivable, $2,102,293; car trust notes, $248,189; bills receivable, $40,300; deposits on Government contracts, $70,114; cash, $198,080; deferred charges to operations, $199,918; total, $17,025,352.

Liabilities—Preferred stock, $6,100,000; common stock, $3,875,000; bonds, $3,500,000; purchase money notes, $400,000; bank advances, $858,832; accounts and bills payable, $730,412; interest accrued, etc., $90,466; preferred dividend, $105,000; reserve funds, $309,307; profit and loss surplus, $1,056,334; total, $17,025,352.

◆

The Merchants Bank of Canada has opened a branch at Wallaceburg, Ont., under the management of Mr. L. P. Thompson.

Mr. H. W. Crossin, of the National Surety Company, will assume a position with Employers' Liability Corporation, Toronto, at an early date.

Mr. W. E. Jardine, manager of the Bank of New Brunswick, Fredericton, N.B., has resigned to accept a position with the Bank of Vancouver, at Vancouver, B.C.

Mr. C. W. Spencer, of Montreal, is dead. He entered the service of the Canadian Pacific Railway shortly after its organization, and remained with it until about five years ago.

HIGHER PRICES FOR RAW MATERIALS

Have Proved Factors in Increased Cost of Living—Manufactured Goods and Food Products.

A significant fact in connection with the volume of talk and discussion that has originated from that hackneyed topic, the cost of living, is that in Canada the chief complaint is made against the high prices of food products, and not so much against manufactured articles. This circumstance is made more plain when one begins to seek data regarding the comparative cost to the consumer in the United States and Canada of household furniture, crockery, stoves, and other articles of domestic use. While every Government report gives plenty of information about grains and fodder, animals and meats, dairy produce, fish and other goods, there is a remarkable paucity of material showing the cost of certain staple manufactured products.

Those reports, which happen to be more elaborate in their record of the output and consumption of manufacture, give but few examples in each class of goods. For instance, the report on wholesale prices for 1910, published by the United States Government, gives figures relating to furniture under the following heads only;—bedroom suites, bedroom chairs, kitchen chairs and kitchen tables. The natural deduction from all this is simply that there has been little or no demand for such information, due largely to the fact that no one seems to be greatly dissatisfied with the prices of the common ordinary household article made in the factory. The increasing cost of eating to live, appears to be the backbone of the great economic problem, which is agitating the consumer of the American Continent.

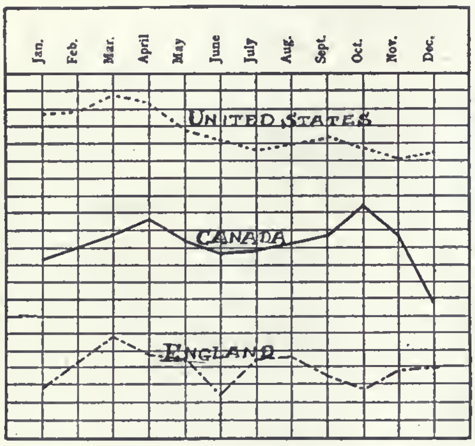

Diagram Showing Course of Canadian, English and United States Commodity Prices.

In 1908, Hon. J. S. Sherman, of New York, in the House of Representatives, placed on record a document regarding the advance in prices of various commodities as shown by the consular reports from the different countries of the world. No more striking proof than Mr. Sherman's report is required to show how universal has been the advance in prices, and consequently, how impossible it is to shoulder the responsibility for the cost of living upon the tariff.

Increase is Universal.

In Germany, for instance, there was a general increase in the prices of all commodities. In England, a free trade country, cutlery, carpets, blankets, and other household articles showed an increase in the selling price. The consul at Athens, Greece, reported that while that ancient city was once a very cheap place in which to live, in recent years the prices of articles of food and other necessities has advanced until they were as high, if not higher, than in America. In Prussia, the prices of provisions increased greatly. Even in India, the prices of food grains advanced rapidly and unprecedently.

It is sometimes contended that the housewife in Canada, because of our tariff, cannot obtain furniture and other domestic necessities as cheaply as can be purchased in the United States. Those official facts and figures, available, show that in this direction there is little, if any, cause for complaint. Canada has been more fortunate than some countries, for the tendency in the past decade has been one of decline in the prices of bedsteads, crockery, glassware, table cutlery and silver-plated ware.

It is interesting to analyse this situation more closely. Mr. R. H. Coats, in his special report on wholesale prices in Canada, obtained quotations for six representative lines of furniture, namely; kitchen tables and chairs, dining-room tables and sideboards, bedroom suites and iron bedsteads. In all lines of wooden furniture, a steady and pronounced rise occurred in prices during the past twenty years.

In iron and brass bedsteads, on the other hand, there was a pronounced decline in the past ten years. The line quoted was a continuous pillar bed of shipping weight, about seventy-five pounds. It showed a decline from $6.51 in 1890 to $3.50 in 1909. The explanation offered by a leading manufacturer is that the manufacture of this article in Canada has reduced the cost both of brass and iron bedsteads.

Manufactured in Canada.

The general tendency in crockery and glassware, table cutlery and silver-plated ware was downward, especially during the first half of the ten-year period. These goods are manufactured chiefly outside of Canada, especially in Great Britain, and the reduction in price is attributed largely to trade competition. The rapid decline in silver-plated ware in 1907 followed the opening of a large establishment for the manufacture of this class of goods in Canada. Improvements in the manufacturing process have bettered the appearance of the goods.

There was an advance of from 12 to 15 per cent. in pails and tubs compared with 1890, and of approximately 30 per cent. compared with the low years, 1896-1897. The most extraordinary advance, however, is shown under the heading of brooms, which, in the closing days of 1909, had considerably more than doubled, as compared with the prices ruling in 1890. This, however, was largely accounted for by the scarcity of broom corn last year following a failure of the yield in the United States, the cost of broom corn to the manufacturer having advanced from $8-$10 to $20-$24 per ton. Apart from this advance, the price of brooms was fairly stationary during the decade from 1900 to 1910.

The average index price for furniture in 1890 was 97.4, and in 1909 had increased to 127.6, a gain of 30.2. The average price of bedroom sets in the United States in the same period changed from an index number of 113 to 145; bedroom chairs from 113 to 145.3; kitchen chairs from 109.8 to 143.8, and kitchen tables from 103.9 to 138.6. This latter item showed in the United States a decided increase last year from 124.7 in January to 145.5 in December. Taking house furnishing goods as a whole in the United States, there was a decrease of only 0.1 per cent. in price, six of the fourteen articles noted by the department having decreased and five increased. In Canada last year, on the other hand, no change whatever occurred in the prices as represented in household furniture. No change occurred in the figures for cutlery and very little change in the prices for crockery and glassware. Wooden pails and tubs kept down to a low level reached in 1909.

Tariff and Foreign Plant.

It will be noticed that furniture accounted for the most strongly marked increase in cost. It is possible to give only the wholesale quotations from the official government report, but these are the more stable figures. The chief reasons for the higher cost of furniture are increase in wages and in the prices of hardwoods. It is sometimes contended that the manufacturer who is helped and whose country's upbuilding is being assisted by a properly regulated tariff, takes advantage of these circumstances by retaining old types of machinery and plant. The inference is that such a manufacturer competing with an up-to-date foreign plant uses the tariff to counterbalance the inferior results of his own plant. In Canada, this is not so. Notwithstanding the fact that there has been a marked improvement in the machinery for manufacturing furniture in this country during the past twenty years, which has enabled a finer finish to be placed on goods and more elaborate designs to be turned out with the same or less expenditure, the two factors noted—wages and hardwoods—have counterbalanced the effect of the superior machinery.

Mr. H. R. McMillan, of the Forestry Branch of the Department of the Interior, says that whatever can be done to encourage the production of hardwood in suitable localities in Canada should be done at once. Despite these adverse factors, the Government figures show that the average monthly price last year in Canada for kitchen chairs, common spindle, as an example, were $3.36 per dozen compared to an average monthly price in the United States of $5.50. Taking a longer period, the average price for the same article between 1890 and 1899, in the Dominion was $2.50 per dozen and in the United States $3.82.

Raw Material is a Knotty Point.

The question of raw materials to manufacturers has been a prominent one in many countries, but Canada probably has felt this phase of the question less than a good many nations. Commenting on this, the London Times said, two years ago: "The steady advance in the cost of raw materials, which is becoming a very serious matter, is due to number of causes, chief among which may be mentioned the comparative smallness of the production, the great increase in the consumption, the high cost of labor in the producing districts, and the effect upon production and wholesale distribution of artificial restrictions." This fact has affected the cost to the consumer of a large number of articles. Too often the conclusion is hastily reached that the apparently high price of a manufactured article is due to the desire of the manufacturer to create or maintain large profits. Aside from the question of wages, freight rates, the increased cost of factory sites, and many other important considerations, the factor of raw materials is vital and has a tendency to fluctuate more widely the manufactured articles.

On summing up the averages of wholesale prices noted by the Dominion Department of Labor, it is seen that in 1890, raw materials were 13.6 points above the average for the base period, 1890-99, while manufactured articles were only 9.6 points above that average. In the recession which followed until 1897 raw materials fell 23.2 while manufactured articles advanced only 26.4 points. Between 1909 and 1910, there was a gain of 4.8 points in raw materials and 2.3 points in manufactured articles. The statistics for 1910 show prices of raw materials at 42.6 per cent. above those of the base decade, and the prices of manufactured articles 17.1 per cent. above those of the base decade.

In arriving at these conclusions, sawn lumber has been regarded as raw material. In as much as the advance in lumber has been rapid during the past twelve years, some change in the final result would be caused by transferring lumber to the list of manufactured articles. The following shows the ratio of the movement as between raw materials and manufactured articles, reckoning lumber in the latter:—

	No. of articles.	1890.	1897.	1907.	1909.	1910.
Raw materials	60	119.8	97.6	153.5	152.0	156.4
Manufactured articles	157	107.7	93.0	122.8	117.2	119.7

Detailed comparisons either of wholesale or retail figures or household necessities are impossible from official figures. While the whole question of comparative prices as between Canada and the United States is a delicate one, it would be an excellent innovation if the department which published price statistics in Canada, United States and Great Britain would confer in order to collect information that would be of use in making proper comparisons. A glance at the statistics available shows that the Dominion is making great industrial strides under present economic conditions, at the same time creating common prosperity.

Wages are Increasing.

Wages, generally, are considerably higher than a few years ago and the tendency is still upward. Prosperity exacts higher wages which, in turn, increase the cost of manufacturers and living generally. Discussing this point, the memorial of the civil service association presented to the Royal Commissioners appointed to inquire into civil service matters in 1907, said: "Extraordinary as the present conditions are, there is no sign on the industrial or economic horizon that portends a change. The great prosperity in which the whole country is rejoicing shows not the slightest indication of abatement. As a matter of fact, what signs there are point uniformly to continued industrial and trade expansion, the only embarrassment that threatens being the lack of facilities—those of transportation in particular—to reap the splendid harvest to the full. Prices, therefore, may be expected not only to remain high, but to show still further advances."

The latest statistics show that the deposits, chiefly savings in our banks, post-office savings banks, Government savings banks, loan and trust companies, amount to $97.75 per capita. This means, broadly speaking, that the wage earner has settled his every day expenditures, purchased his home, household furniture and other necessities and is still able to have a respectable margin for the bank. Add to this situation the fact that the denizen of North America is of an extravagant temperament, and we know that the per capita deposits might be increased substantially by more economical habits.

The following table shows the amount on deposit in the savings banks of Great Britain and other countries:—

Country.	Year.	Total deposits.	Average to each depositor.
United Kingdom	1907	$1,048.268,360	$84
Belgium	1905	155,739,160	68
France	1905-7	074,372,850	79
Italy	1906	616,183.030	92
Netherlands	1905	02,551,665	58
Canada	1911	698,936,033	98.75

While it is somewhat difficult to give comparisons of the cost of household manufactured articles in the two countries through the medium of official statistics, those who have lived on both sides of the international boundary line, know that it is cheaper to furnish completely the rooms of the Canadian house than is the case in the United States.

The accompanying diagram taken from Mr. Coat's report on Canadian wholesale prices, shows the course of commodity prices, including house furnishings in Canada, the United States and England during 1910. It will be noticed that while the United States' prices declined from an index number, in January, of almost 133 to about 130½ in December, and that English prices increased from 117 to 118, Canadian prices in the same twelve months dropped from about 124½ to 121¾. A strongly marked decline was observable in the last three months of the year.

MR. H. B. AMES, M.P.

As a director of Ames-Holden-McCready, Limited, and a man who has taken active interest in municipal affairs, Mr. Ames is well known in Montreal and elsewhere. He has been appointed chairman of the parliamentary banking and commerce committee, one of the most important of the legislative committees.

◆

CANADA COULD INCREASE HER TRADE WITH JAPAN.

"Canada has not realized by half the opportunity she has of building up a great and peaceable field of trade with Japan," is the opinion of Mr. Chonosuka Yada, Japanese consul at Vancouver, who recently visited Toronto.

In spit of the fact that the reciprocity trade agreement between the two countries has increased nearly sixty per cent. within the last ten years, the consul said, Canada is still allowing the United States to send over to Japan by far the larger part of the wheat Japan has to import every year. Japan's population of fifty millions is rapidly becoming a wheat-eating instead of rice-eating population. Her wheat lands are strictly limited, Japan being a mountainous country, and already importing wheat from the United States, India and other countries to the annual amount of three or four million dollars. We get most of our wheat at present from the United States, and I am surprised that Canada is not taking a bigger share of this business.

"As the oldest daughter of Great Britain, we look to Canada," said Mr. Yada, "as a country not only to which we may send goods, but from which we may become large purchasers of manufactured and neutral products.

"Not only does Japan import a large part of the wheat she requires, but she also needs great quantities of paper, of which she is now getting from Norway, Germany and other countries, one million dollars' worth annually. There are over two thousand papers published in Japan, which consume thousands of tons of paper every day. The paper mills of Japan cannot supply half the quantity required.

"There is a large trade to be done, too, by Canadian manufacturers of machinery, hardware, cycles and cycle parts and other manufactured products."

"POPULAR FALLACIES RESPECTING FIRE INSURANCE."

Fire Waste of Australia and New Zealand—Estimate of Annual Premiums Paid.

Above is the title of a paper read in August last at Melbourne, at Sydney, and at Brisbane, before different insurance institutes of Australia. We give extracts from this valuable document. The author, Mr. Arthur E. Wall, says:

The first fallacy, widely prevalent, is that insurance stands apart from the general body of commerce, and that it is, in some mysterious way, antagonistic to the welfare of the public. Quite intelligent commercial men occasionally express themselves as though insurance companies were robbers and parasites, and there is a whole school of political thought in Australia which seeks the eradication of fire insurance companies. We do not find that these people have the same antagonism to life insurance companies, although a little reflection would show that the beneficent activities in regard to human life have their counterpart in the material protection afforded by the fire insurance companies.

We claim that fire insurance is an indispensable form of service to the body politic, a form of service which, through its cash guarantees, purveys safety and confidence to commerce, manufacturing, transportation, banking and property generally.

Estimate of Annual Premiums Paid.

I have endeavored to estimate the annual premiums paid to fire insurance companies throughout the world. Basing my figures upon the "Post Magazine Almanac," the premiums paid in 1909 to fire insurance companies are approximately as follows:—

Companies	Premiums
British	£28,195,000
German	18,390,000
French	6,239,000
Austrian	6,029,000
Balkan	767,000
Belgian	1,072,000
Dutch	681,000
Italian	946,000
Russian	7,586,000
Scandinavian	2,181,000
Spanish	909,000
Swiss	1,543,000
United States*	36,039,000
Canadian	1,000,000
Australasian	1,799,000
Miscellaneous	30,000,000
	£143,376,000

* Seventy-one companies reporting to the New York State, exclusive of British companies.

That is to say $716,000,000 or thereabout.

Another Fundamental Fallacy.

Another fundamental fallacy, continues the author, is that a loss by fire is a matter of small moment if it be covered by insurance. It is easy to understand this particular form of error. The man who, surveying the destruction of his store, can reflect that in a few days he will receive a handsome cheque, is apt to come to the conclusion that the loss does not matter much. The stock was becoming antiquated, competition was keen, and he will be able to make a fresh start on up-to-date lines. The creditors who receive settlements of overdue accounts, and receive orders for the replenishment of the destroyed goods, are apt to take a complacent view of a loss by fire, and all this without the slightest suggestion of "mala fides."

Fire Waste of Australia and New Zealand.

After stating the fire waste of Australia and New Zealand at £1,290,000 ($6,400,000 yearly) Mr. Wall says: Surely this waste of wealth is a serious matter for a comparatively small community.

All this, I repeat, is sheer waste and loss, a burden upon industry, a lessening of capital, and consequently of employment. It is money expended not in productive enterprise, but in death and destruction.

If this simple fact were grasped by the public mind, it would alter the whole attitude of the public, and of legislative activity. Earnest attention would be directed to preventive measures, to up-to-date building laws, to effective water supplies, and fire brigades. Public opinion would not only tolerate, but demand, the most stringent and searching investigation into the circumstances of every loss. Any company paying a dubious loss would be regarded as an enemy to the public weal.

Rates would then be reduced, and we should find a higher moral tone prevailing in the matter of fire insurance.

ELECTRIC RAILWAY PROMOTERS IN TROUBLE.

Certain enthusiastic municipalities who took preferred stock of the People's Railway, were somewhat surprised at the attitude of The Monetary Times in criticizing this enterprise. The People's Railway has been in course of promotion for several years. It was to have been built in Ontario, serving such cities and towns as Guelph, Berlin, New Hamburg, Woodstock, Arthur and Stratford. Many municipalities took stock, but little effort was made to proceed actively with construction work. The company then proposed to obtain a Dominion charter and to increase its capital.

The whole affair looked like a stock promotion enterprise, and The Monetary Times said so. On Monday at the instance of the Owen Sound police, Mr. N. R. Bugg, one of the promoters, was arrested at Berlin, Ont. The alleged irregularity is in connection with the transfer of certain notes given by shareholders of the company to Mr. Bugg, who turned them over to the company, instead of their being placed in the bank. They were transferred to Mr. J. Zuber, of Berlin, who has issued writs for the payment of the notes. Mr. J. A. Scellen who is looking after Mr. Bugg's interests, is confident his client will be cleared of any charge of wrongdoing.

Whether or not Mr. Bugg proves his innocence, the fact remains that the People's Railway has been so long in organizing, that it has forfeited all right to public confidence.

Another railway farce has been nipped at Lindsay, Ont. Mr. H. M. Graham, said to be a member of the firm of Graham and Mann, electrical railway engineers, proposed to run an electric line through the midland counties, via Port Hope, Peterborough, Lindsay and Orillia. Those interested in the Toronto Eastern Railway stated that Graham had nothing to do with that line. Suspicion being aroused, Graham is now in charge of the police, having admitted that his railway scheme was a fabrication.

◆

SAFEGUARDING A DWELLING HOUSE.

A Springfield, Mass., fire insurance man has a well protected dwelling from a fire insurance standpoint. The following is a summary of the fire protection facilities in his dwelling:

1. Automatic sprinklers in cellar protecting all parts of the basement.
2. Automatic fire alarm in basement and kitchen, with thermostats connected to alarm gong on second floor.
3. Standpipe with 120 pounds pressure (Little River water), extending to top of house through rear hallway. (a) Fifty feet linen fire hose attached on first floor. (b) Fifty feet linen fire hose attached on second floor. (c) Fifty feet linen fire hose attached on third floor.
4. One three-gallon size chemical fire extinguisher on second floor.
5. Three filled water pails "for fire use" on a shelf in cellar way.
6. Fire axe and lantern hung in convenient place.
7. Brick and mortar fire stops at each floor in all main partitions.
8. Full-sized wire screens over all fireplaces which are used.
9. All matches kept in covered metal box marked "matches."
10. Only metal barrels used for ashes.
11. One large metal barrel with cover marked "For waste paper only."
12. Cellar kept clean all the time.

It is stated that given the above equipment, or a major part of it (put in at moderate expense), in every dwelling and mercantile building, and the fire waste would be lessened immediately at least 50 per cent.

◆

A YOUTHFUL FINANCIER.

"We have among the two or three hundred Herald employees," writes Mr. T. Kelly Dickinson, financial editor of that paper, "an exponent of Montreal Higher Finance, who gives promise of out- Hoolying Hooley, and making some of our local capitalists look like the smallest denomination in silver currency. His name—well that will be a household word in days to come, so I omit it. His occupation is that of Printer's Devil. Even the linotype could not drive the devil to his remote residence. This young Devil bought a chicken. Goodness knows where he got it, but he bought it for 65 cents. He raffled it among the other imps in the establishment at ten cents per ticket. This netted him $3.50. The winning ticket was drawn by the office boy, whereupon the aforesaid Devil gave the office boy 50 cents for the chicken, took it home and sold it to his father for 75 cents. If that boy is left alone he will become a great merger promoter."

THE LATE THOMAS FYSHE.

Was a Man of Great Personality—Rose to Position of General Manager—Had a Notable Career.

A considerable figure in the banking world of Canada passed away with the death in Montreal on Sunday last of Mr. Thomas Fyshe. Since his paralytic seizure of 1908, he had been practically confined to the house, and a second seizure resulted in his death in a few days.

Born near Edinburgh in 1845, the deceased gentleman entered the Bank of Scotland and thereafter the Birmingham Joint Stock Bank. In 1867 he came to Canada and took service with the Bank of British North America in Montreal, going thence to Toronto and later to New York. For a time Mr. Fyshe was a broker and private banker in the last-named city, but gave up that business for the St. John agency of the Bank of Nova Scotia. In 1875 he was placed in charge of that institution, which he reorganized, and mainly by his efforts it became one of the strong banks of Canada.

His work in founding the mutual guarantee and savings fund and the pension fund of that bank is remembered admiringly and gratefully by many beneficiaries.

Removes to Montreal.

After continuing as chief officer of that bank for twenty-two years, Mr. Fyshe was called to a still wider field, being appointed joint general manager with Mr. George Hague, of the Merchants Bank of Canada, becoming a few years later general manager. This post he retained until 1906.

Mr. Fyshe was a man of unusual type. He was thorough, steadfast, serious, in whatever he undertook; had never known what it was to belittle his work, far less to neglect it, but on the contrary, "magnified his office," and not sparing himself, expected every one under his rule to do his full duty, rather more than less. He was well grounded in banking, both principle and practice, but was never tied to old use and wont if new times and new circumstances pointed out a better way. And he had, in some of the unwonted tasks thrown upon him in his busy business life of forty years, to find out a way of his own.

Rigid in pursuit of what he conceived to be the right, he would promptly quarrel with any man, or set of men, who would elude the truth or try to evade a just obligation. A noteworthy instance of this was given in the twelve-year-long litigation he carried on as assignee against shareholders of the Bank of Liverpool, during which he exacted payment from every creditor, peer or peasant, who could be compelled to pay.

Was a Man of Austere Disposition.

His knowledge of political economy was uncommon; for his acute and ready mind had absorbed not alone Adam Smith and Ricardo, but Reid and John Stuart Mill. And however he might be accused of wresting the doctrine of some of these to suit his own argument, he was accustomed to use pure logic rather than casuistry, to pierce the question.

His valuable work for the corporation of Halifax and for the Nova Scotia House on taxation subjects, caused him to be highly regarded in that city. While his assistance in framing the Canadian Banking Act of 1890 was marked, and especially later, his lacerating paragraphs upon the flagrancies brought to light in the civil service by the commission upon which he worked, will hardly soon be forgotten by those who were the subjects of them. Upon such occasions his epithets were Carlylean.

Mr. Fyshe's intensity of manner and vehemence of language in either attacking evils or defending principles, caused him to be regarded by some as a man of austere, not to say violent, disposition. But these saw only one side of the man. Beneath a somewhat explosive manner he concealed a warm and sympathetic heart, and though often solemn, he possessed a strong vein of humor. His confidence once obtained, he would go great lengths to serve a friend. Nay, towards a person unjustly accused, his tenderness overflowed to defend just as surely as his impetuous resentment pursued the doer of a conscious wrong.

◆

Mr. A. B. Hood, who recently resigned the managership of the branch of the Eastern Townships Bank at Grand Forks, has gone into partnership in the real estate business in Vancouver with Mr. R. K. Steven.

Mr. Robert Mabry, a Spokane capitalist, has bought the Yankee Girl, Bimetallic and Lost Cabin group of mines in the Ymir district of British Columbia, for $140,000. He declares there are $400,000 worth of silver and gold ores in sight. He will develop the property all winter.

CANADIAN LIGHT, HEAT AND POWER COMPANY.

The Canadian Light and Power Company has secured the control of the Saraguay Electric Company, which takes with it some important and extensive franchises and municipal contracts in the surrounding districts.

The Saraguay Company was organized is 1906, the capital being authorized to the extent of $3,000,000 and the amount already expended on the plant amounts to close on to three-quarters of a million dollars. The bond issue amounts to $300,000, worth $125,000 of common stock and $175,000 of preferred. The board of the company is composed of French-Canadians with two exceptions and energy on the part of the officials has resulted in franchises being obtained from St. Laurent, Notre Dame de Grace, Cote des Neiges, Cartierville, Bordeaux, Ahuntsic, Sault au Recollet, Longue Pointe, Tetreauville, Pointe aux Trembles and the city of Montreal. With the exception of the city of Montreal, Notre Dame de Grace, Cote des Neiges and Longue Pointe, franchises mentioned are exclusive.

The company is composed of Messrs. Gaspard Deserres, president; G. M. Bosworth, Ttancred Bienvenue, H. Laporte, William Wainwright, T. Bastien, Hon. Hector Champagne, of St. Eustache; E. Champagne, managing director; Hon. J. A. Ouimet, Alphonse Racine, Ed. Hurtubise, secretary, and Charles Brandies, chief engineer. The officials of the Canadian Light and Power Company are: Messrs. Howard Wilson, president; E. A. Robert, vice-president and managing director; George G. Foster, K.C.; J. W. McConnell, Senator J. M. Wilson, J. M. McIntyre, N. Curry, R. M. Smith, Fred. J. Shaw and W. C. Finley.

The same company acquired control of the Central Heat, Light and Power Company last spring, bringing with the purchase no less than 1,200 customers in the town district, while they also sell power to the Dominion Light, Heat and Power Company.

SCHOOL DISTRICTS EMPOWERED TO BORROW MONEY.

The following school districts have been authorized to borrow money. The particulars are given in order, name and number of school district, amount required and name of secretary-treasurer:—

Alberta.

Jefferson, No. 2456, $1,200. J. Franks, Kimball.
Elba, No. 2537, $2,000. R. J. McBean, Crossfield.
Seaforth, No. 2441, $1,500. F. Vincett, Grainland.
Lancaster, No. 2512, $1,800. F. W. Harden, Bow Island.
Good Cheer, No. 2531, $1,800. J. P. Peairs, Winnifred.
Clover Valley, No. 2558, $800. M. O'Brien, Hay Creek.
Golden Sheaf, No. 2367, $1,600. E. J. Stevens, Whitla.
Glenwood, No. 2030, $1,000. E. Leavitt, Glenwoodville.
Myrtle Creek, No. 2342, $1,800. T. Martin, Myrtle Creek.
Three Hill Ridge, No. 2461, $600. J. H. Thomas, Trochu.
St. Joachim R.C., No. 7, $40,000. E. Tessier, Box 896, Edmonton.
Fultonvale, No. 2477, $800. J. Sanford, Box 323, Strathcona.

Saskatchewan.

Bride, No. 2591, $300. A. E. Cave, Macklin.
Tennyson, No. 362, $1,400. H. F. Boyd, Harwell.
Council, No. 235, $1,400. N. McDonald, Council
Melville, No. 2187, $2,000. R. E. Culp, Melville.
Busch, No. 311, $1,100. Z. J. Decker, Carrignan.
Herrman, No. 401, $1,000. J. J. Dais, Happyland.
Kirkton, No. 303, $1,000. J. R. Graham, Kinistino.
Walter, No. 1828, $600. C. F. Broadhead, Waseca.
Brampton, No. 369, $1,400. J. L. Newton, Lawson.
Swan Plain, No. 291, $800. F. L. Dickinson, Arabella.
Grand Central, No. 10, $1,900. G. Thomson, Delisle.
Hollymount, No. 352, $1,000. J. J. Dais, Happyland.
Runnydale, No. 133, $1,200. A. W. Johnson, Runnydale.
Buckland, No. 220, $1,200. W. E. Belcher, Prince Albert.
Kerrobert, No. 2795, $30,000. J. N. Hanbidge, Kerrobert.
Prince Albert, No. 3, $47,000. C. O. Davidson, Prince Albert.

Baron Gustave Samuel James De Rothschild is dead. He was born in Paris on February 17, 1829. He was a partner in the banking firm of Messrs. Rothschild Brothers, and also acted as consul-general for Austria-Hungary in Paris. He was a commander of the Legion of Honor.

BRITISH COLUMBIA.

Plenty of Capital for the Province—Tenders Called for Permanent Improvements.

(Staff Correspondence).

Vancouver, November 25th.

The connection between British Columbia and the London money market is steadily becoming stronger. In recent months much money has come out for investment here, and several large enterprises are on the tapis which will need more capital. Mr. E. H. Heaps left this week for London and has one or two propositions in hand. Mr. Heaps recently spent several months in London, when he successfully placed the bonds of Messrs. E. H. Heaps and Company, and being connected with other businesses than lumber manufacturing, has gone back to the money market of the world.

Another British Columbia manufacturer who has been on a business trip to the Old Country is Mr. J. C. Shields, president of the Monarch Lumber Company, and of a company having a mill at Port Hammond, on the lower Fraser. He has in view the securing of British capital to assist him in his enterprises.

It takes considerable money to operate a lumber manufacturing plant. Besides the large investment, wages require a large amount of ready cash. It has been estimated that the amount paid for labor in the production of lumber is 85 per cent. of the selling price, so that while a company may have big assets, it might be hampered in its operations by a lack of ready money. This would apply in the present instance, when after a good spring the demand in the latter part of the year from the Northwest has fallen off to such a degree that the trade is very quiet. One redeeming feature in regard to the lumber industry is that the Department of Customs has acknowledged the rightfulness of the complaint of the coast lumbermen in that lumber was being admitted free from the United States, when it should have paid duty. Collectors at boundary entry ports have been notified to be more particular in examining importations.

Plenty of Capital for British Columbia.

Not only is capital coming from Great Britain, but from the United States as well. It would be extremely difficult to keep note of all the odd money that comes in, even though it comes in large amounts. For instance, this week the Monetary Times learned that a man from Seattle came up with $120,000 to place in first mortgages. He had little trouble and departed satisfied. He remarked that Vancouver is looming large in the eye of the American, who expects to see his coast cities surpassed by Canada's great western terminal.

Another indication of satisfactory conditions is the remark of an official of the B. C. Life Assurance Company, that the amount of business done was beyond expectations, with an outlook of the best.

That every effort is being made to materialize the big scheme for wharves and drydocks on the west side of Lulu Island, at the mouth of the Fraser River, is shown by the presence at Ottawa of Mr. C. F. Pretty. He is asking the Federal Government to guarantee the interest on $20,000,000 at two and a-half per cent. per annum. He has already asked the Provincial Government to do the same, which would make a total of five per cent. per annum. If these requests were granted the project would be assured.

Tenders Called for Permanent Improvements.

Tenders are being called for the construction of permanent improvements at the mouth of the south channel of the Fraser River. The plan of Engineer LeBaron has been adopted, to construct a long pier and thus cause the river to clear itself out. If one pier is not sufficient to keep the mouth from being filled up, a second will be constructed. If this works out it will give New Westminster and Port Mann a deep channel down the Fraser River to the sea, a necessity in view of recent developments along the Fraser above Lulu Island. The number of industries, crowded out from Burrard Inlet, where waterfrontage is high in price, are increasing along the lower Fraser, and both channels of the Fraser River will need to be made navigable to accommodate them.

The dredging of the north channel was assured by the late Government, and it is expected that this promise will be carried out by the present administration. It is along the north channel that the greater number of plants are being erected. This channel is bridged in several places, while the south is not. The absence of bridges gives easy entrance to the sea-going craft that will tie up to the wharves at Port Mann and the Canadian Western Lumber Company.

◆

The Factories Insurance Company has been registered in Saskatchewan.

The Guardian Accident and Guarantee Company has been licensed to transact accident and sickness insurance in Canada. Mr. H. M. Lambert, Montreal, has been appointed chief agent.

PULP FAMINE IN SWEDEN.

High Prices Will Prevail — Norwegian Makers Will Not Reap Benefit.

While Sweden has asked the United States for tariff concessions on pulpwood such as have been granted to Canada, it appears certain there will be a serious famine in mechanical pulp during the next six months in Norway and Sweden. There has been little rain in South Norway, reports Mr. C. E. Sontum, the Canadian commercial agent at Christiania, and only a few mechanical pulp mills in the Trondhjem and Namdalen districts have full water power; most of the other mills are running with one-half or even considerably less of their normal production. The prospects of a material improvement in water conditions during the remaining weeks of the autumn are growing less each day. That there can be a sufficient rainfall before frost sets in to secure an ordinary level of water for the winter months, must be considered to be beyond all hope.

The conditions are practically the same in Sweden, viz., that the North Swedish mills have recently experienced an improvement in their water supply, just as the North of Norway mills, while in Middle and South Sweden there is a great scarcity. There is hardly at present more than some 3,000 to 5,000 tons of mechanical pulp unsold in Norway for delivery to the end of this year—apart from what speculators may have. But, on the other hand, the quantity which the mills had previously sold for delivery in October and December and which they will be prevented by force majeur from delivering, will exceed many times the quantity which may be unsold.

Serious Pulp Famine.

It now appears quite certain that there will be a most serious famine of mechanical pulp during the coming six months. The excessively high prices to which pulp must under these circumstances advance will be a serious matter for the consumers, while, unfortunately, the Norwegian makers will hardly reap any benefit therefrom since they will have practically nothing to sell.

Cellulose continues firm. Some of the cellulose mills, which get their logs from the Glommen district, have recently made log contracts at fully top prices of last season.

Higher Freight on Wood Cargoes Expected.

The increased cost of transportation, higher wages, dearer coal, additional taxes, and last, but not least, the heavy losses due to delays caused by the incessant strikes, will necessitate a higher level of freight, altogether apart from the influence of the relatively reduced supply of tonnage. As regards wood freight in particular, it has been pointed out that wood cargoes are particularly liable to delay by strikes, and there has not been nor can there be any such cheapening of loading and discharging expenses or increase of dispatch for this class of cargo, as has taken place, for instance, with regard to coal, because manual labor can not to any appreciable extent be superseded by mechanical appliances in the loading or discharging of wood goods which has been so largely done for many other classes of merchandise.

Many shipowners have come to the conclusion that they must, in order to be on the safe side, calculate with a demurrage for each ship, due to strikes and lockouts, of not less than one month per annum—a very serious state of things indeed.

◆

CANADA'S WATER POWERS.

The first inventory ever taken of the water-powers of Canada has been completed by the Commission of Conservation and the results embodied in a large and profusely illustrated report just issued. The investigation made by the commission, which has extended over a period of two years, shows that there are 1,016,521 horse-power developed from water-power in Canada.

The power situation in Ontario is treated very fully, special attention being given to the power possibilities at Niagara and the conditions affecting development there. Each of the power companies operating there, whether on the Canadian or American side, is described in detail.

A significant reference is made to the granting of franchises to develop power at Niagara Falls. The report states that the low water flow of the Niagara River would yield at the falls about 2,250,000 horse power of which Canada's share (one-half) would be 1,125,000 horse-power.

"Franchises have already been granted," it continues, "and plants partially completed, for the development on the Canadian side of the river, of about 450,000 horse-power. In other words, instead of millions of horse-power being available as has been sometimes stated, it appears that about one-half, and by all odds the better half of Canada's usable share of Niagara Falls power has already been placed under private control."

WOOD CONSUMPTION IN CANADA.

Average Price of Lumber—Value of Lath Manufactured —Some Valuable Statistics.

The number of sawmills in Canada has increased by 32.6 per cent., 2,762 firms operating nearly 3,000 mills, and the lumber output by 28.5 per cent., or 1,086,707,000 board feet. The average cut per mill reported in 1908 was 1,774,000 board feet.

The consumption of lumber per capita in Canada was 653 board feet, which is 170 feet more than the per capita lumber production of the United States for 1909. Ontario still holds the first position among the provinces in lumber production; it still produces over one-third of the quantity of lumber cut in Canada. The 1910 cut shows an increase of 7.5 per cent. over that of 1909.

British Columbia is again second in lumber production, and its 1910 cut was only 45,000,000 feet less than that of Ontario. Quebec again comes third and the other provinces, in order of importance, are New Brunswick, Nova Scotia, Saskatchewan, Alberta, Manitoba and Prince Edward Island. There is a very large increase in the number of small mills which have reported from Quebec this year, and to this, no doubt, is due the fact that this province has the smallest annual cut per mill of any of the provinces, i.e., 71,400 feet. In British Columbia, at the other extreme, the average annual cut per mill is 7,297,000 feet —over 100 times that of Quebec.

Average Price of Lumber.

The average price of lumber in Canada in 1910 was sixty cents per thousand less than in 1909, being higher only in Nova Scotia and Prince Edward Island. The average value in Ontario is nearly $3 per thousand greater than in any other province, owing largely, no doubt, to the large cut of white pine, which constitutes over 50 per cent. of the province's cut. Spruce decreased in price $1 per thousand and Douglas fir $1.14 per thousand. Almost all other woods have increased in price. Birch shows the largest decrease, namely, $1.49 per thousand.

Spruce is the most important lumber wood in Canada, over one-quarter of the total cut being of this species. The cut of white pine in 1910 was four per cent. less than that of 1909, the decrease amounting to 42,163,000 feet. Several western species show remarkable increases. The increase in the cut of hemlock amounts to 51,000,000 feet and the increase in the case of Douglas fir to 47,000,000 feet. The cut of cedar has increased by 217,430,000 feet, or 114.8 per cent. Almost six times the quantity of yellow pine was cut in British Columbia in 1910 as in 1909; this increase makes it the sixth wood in quantity of cut for the year. The increase of 100,000,000 feet (140 per cent.) in the larch cut in British Columbia, brings that species to eighth place.

Softwoods comprise 94.3 per cent. of Canada's lumber cut, the cut of hardwoods being only 5.7 per cent. of the total. The total value of hardwood lumber produced in Canada in 1910 was $4,958,450 ($952,930 more than in 1909), and the value of the hardwoods imported into Canada was more than fifty per cent. greater than this.

The lumber production of the Dominion is also taken up by species used, twenty-six in number. The first six of these are spruce, white pine, Douglas fir, hemlock, cedar and yellow pine. New species reported this year are cherry, chestnut, tulip, sycamore and alder. Among the twenty-six species Ontario leads in the cut of seventeen, British Columbia in five, and Quebec in four.

Square Timber and Shingles.

During 1910 3,480 tons less of square timber were exported than in 1909; the average price, however, increased by $2.03 per ton. The total value of the timber was $6,236 less than in 1909. White pine comprises 57 per cent. of the total export of square timber, birch and elm having, respectively, second and third place. The foregoing three species make up 95 per cent. of the exports. Over 97 per cent. of the square timber exported goes to the United States.

The total number of shingles made in Canada during 1910 was 1,976,640,000, their total value being $3,557,211. This is really larger than the quantity manufactured last year, though, owing to an error, the total for last year was somewhat larger than it should have been.

British Columbia cuts, approximately, half of the total amount. Quebec takes second place, producing over one-quarter of the total. These two provinces, as also Nova Scotia and Saskatchewan, increased their cut this year, while New Brunswick, Ontario, Alberta and Manitoba cut considerably less than in 1909.

The average price of shingles was $1.80 per thousand, six cents less than in 1909 and twenty-seven cents less than in 1908. Cedar is by far the most important shingle wood, 93.5 per cent. of Canada's shingles being made of this wood. Spruce, white pine, hemlock, balsam fir, Douglas fir, jack pine, tamarack and red pine are also used. The last-named two species are reported this year for the first time as shingle woods.

Cedar shingles cost on the average $1.79. Balsam fir shingles are the cheapest, at $1.48, and tamarack most expensive, at $2.49.

Eight hundred and fifty-one million, nine hundred and fifty-three lath were manufactured in Canada in 1910, the value being $1,943,544. The increase in the number of lath manufactured was 29,829,000 (3 per cent.), but the value decreased $35,490. Of the total number, Ontario cut two-fifths, increasing its cut over that of 1909 by almost 57,000,000—nearly 20 per cent. New Brunswick cut one-quarter of the total, the increase in that province being 62,597,000. Quebec and British Columbia also considerably increased their production.

The average price for the whole Dominion in 1910 was $2.28. The average price in British Columbia was $1.66 and in Prince Edward Island $2.67.

Spruce and white pine lath comprise almost 70 per cent. of the total. About one million and a half more cedar lath were cut this year, but Douglas fir, hemlock, balsam fir and jack pine showed the greatest increases, ranging from 14,000,000 to 29,000,000 pieces each. The prices range from $1.25 for yellow pine, to $3.18 for poplar.

The 4,901,649,000 feet of lumber were worth $77,503,187; the 37,962 tons of square timber exported were valued at $985,255; 1,976,640,000 shingles were worth $3,557,211, and the 851,953,000 lath $1,943,544. The total value of the products treated in Bulletin No. 25 was thus $83,989,197.

IMPERIAL CANADIAN TRUST COMPANY.

With capital of $1,000,000, and a strong directorate comprising successful western financial and business men, the Imperial Canadian Trust Company with head office in Winnipeg, Man., has been chartered under the Manitoba laws. The company has been incorporated at an opportune time and the directors are interested in other large financial institutions.

It is the intention of the directors to offer at once for public subscription in Canada $1,000,000 of ordinary stock, and later, having regard to the business requirements of the company, will make an issue in Great Britain of $400,000 of ordinary stock and $1,600,000 5 per cent. cumulative preferred stock upon the sanction by the shareholders of a by-law to that effect. The funds so obtained through the sale of the preferred stock will be invested in Western Canada, to yield a good margin of profit, and, as the ordinary stock will participate in these profits in addition to the profits accruing from the general business of the company it should prove to be a satisfactory investment.

The first allotment of ordinary stock is being issued at $115 per share being at a premium of 15 per cent. Already $300,000 of stock has been subscribed by the directors and their friends. Each director has subscribed for at least 100 shares of the capital stock upon which all calls have been paid.

The company promise to take every precaution in the investment of its funds. Only first-class securities will be considered, such as first mortgages on improved real estate, stocks, bonds, and debentures of companies of unquestioned stability, also Dominion and provincial securities, as well as municipal, county and school securities of well established districts.

The company should become one of the strong financial institutions of the west and as its interests will be international as well as local, it should materially assist in attracting foreign capital to Canada.

With a view to facilitating its operations in Great Britain, the company will open an office in London, England, with a London board of directors.

EMPIRE TRADE COMMISSION.

Dissatisfaction is felt in Colonial quarters in London, says a Canadian Associated Press dispatch, at the delay in appointing the royal commission on inter-imperial trade recommended by the imperial conference on Sir Wilfrid Laurier's suggestions. Questions in the Commons failed to draw out Premier Asquith, but it is understood delay is mainly due to the difficulty in finding an appropriate chairman. The position was offered Lord Minto, who declined, claiming he wanted a rest. The decision of the Canadian Government to appoint a permanent local tariff commission will not interfere with the original purpose of the imperial conference.

It is understood that Sir Wilfrid Laurier had nominated Mr. Larkin, of Toronto, as Canada's representative, but in view of the change of government it is believed that Mr. Larkin may express a desire to withdraw, in which case will Premier Borden name a man. It is stated that the Hon. Clifford Sifton may be offered the position.

The powers of the commission are wide and general, and according to the president of the imperial conference will include as well as trade in every part of the empire, shipping arrangements and transport.

WESTERN CANADA.

Manitoba Boundary Extension—Crop Movement and Collections—In the Wheat Markets.

Monetary Times Office,
Winnipeg, November 28th.

An event of considerable interest and importance to the province of Manitoba last week was the announcement of the extension of its boundaries made bv Premier Roblin. The value of the newly added territory is not fully known, but it is certain that the vast stretch of land that lies between the former northern boundary of the province and Hudson Bay contains timber and minerals in large quantities.

There are big tracts of land that can be cropped, some of the best land in Manitoba being in the part that was, up to this week, the province's northern limit. There should also be fisheries of value, and the sum total of things which may be turned to account in a country where cities are growing as fast as they are in Manitoba, can hardly fail to be great in the newly acquired territory. The added area measures up to 106,304,000 acres, and gives Manitoba a total area of 229,926 square miles.

The Business Situation.

In almost every line of business the Christmas rush is already on, and the trend of trade conditions appears to be decidedly satisfactory. The coming of cold winter weather three weeks ago, has greatly stimulated the demand for seasonable goods from country points, and the repeat order business is much heavier than usual.

The wholesale trade from all reports appears to be undergoing a change in Western Canada from what it was a few years ago, as orders are not being placed in advance to such an extent as they used to be. The idea of merchants seems to be to delay, and then send in hurry-up orders, with instructions to rush shipment. At this time of year it is almost impossible to do this from the manufacturer and wholesaler's point of view; transportation facilities are not sure on account of the grain rush and the shortage of cars, and until after the close of navigation, merchants are likely to have some trouble and delay in getting deliveries.

The Crop Movement and Collections.

During the past week the complaint of car shortage was slightly relieved, as the movement of wheat was considerably increased, there being on an average of a couple of hundred cars a day more inspected than at the corresponding time last year. Lack of cars and slow movement of grain have in many cases badly hampered and interfered with business during the week.

Collections are reported slow, and are likely to be so until more of the threshing is done and the grain moves more freely.

The Wheat Market.

Markets during the week have been governed largely by the progress of the Argentine crop, the harvesting of which was at first reported to have been begun under favorable weather conditions. Later there were sensational reports of damage by rain and black rust in certain districts, which gave the values a firmer tone on a declining market, but there is so much doubt as to what will be the outcome of the Argentine harvest that the wheat trade is extremely sensitive, and values are moving but slightly either up or down.

Our local market opened with wheat steady, and a good cash demand for all grades of spot stuff. Later in the week, options and cash markets were both dull, while there was a falling off in export demand, the lower grades of cash wheat dropping five cents.

The market steadied towards the week's close, and more activity was shown for spot parcels for cash, in which a fair volume of business was transacted. For export there was a very fair demand for low grade wheat for all shipment late in the season for continental ports. Receipts are fairly liberal, the number of cars passing inspection being considerably in excess of those a year ago.

Messrs. C. Meredith & Company, Limited, has purchased $1,200,000 of the Matthews-Laing Packing bonds, which are issued against only 60 per cent. of the fixed assets of the combined companies. It is understood that most of these bonds have already been placed with financial institutions, but a small lot has been held over for a public issue. This will be made shortly. There will be no issue of preferred or common stock.

RECENT FIRES.

Monetary Times' Weekly Register of Fire Losses and Insurance.

St. Jerome, Que.—Nov. 24th.—Grey Nun's Convent destroyed. Loss about $20,000. Insurance $11,000. Origin unknown.

St. Thomas, Ont.—Nov. 28th.—St. Thomas Pork Packing Company damaged. Loss about $12,000. Origin unknown.

Quebec, P.Q.—Nov. 29th.—St. Louis Hotel badly damaged. Loss about $30,000. Origin, supposed defective wiring.

Wyoming, Ont.—Nov. 29th.—Barn of Mr. Wilfred Chalmers destroyed. Loss about $1,000. Origin, overturned lantern.

Wilcox, Sask.—Nov. 25th.—Imperial oil warehouse destroyed. Loss about $2,000. Origin, spontaneous combustion.

Mattawa, Ont.—Nov. 27th.—Ottawa House, occupied by Mr. S. Desjardins, destroyed. Loss about $12,000. Origin unknown.

Hamilton, Ont.—Nov. 28th.—Home of Mr. Geo. Ralston, 152 Jackson Street East, damaged. Loss about $600. Origin, lamp upset.

New Westminster, B.C.—Nov. 28th.—House occupied by Mr. Thomas Moore destroyed. Four lives lost. Loss and origin unknown.

Owen Sound, Ont.—Nov. 27th.—Home of Mr. A. Minard, Third Avenue East, destroyed. Loss about $1,800. Origin, coal oil explosion.

Toronto, Ont.—Nov. 27th.—Nos. 3 and 5 Hyland Avenue, owned by Mr. H. C. Schoffield, badly damaged. Loss about $4,000. Origin unknown.

Winnipeg, Man.—Nov. 24th.—Factory of Mr. J. Beaman, 127 Higgins Avenue, badly damaged. Loss about $550. Origin, overheated stovepipes.

Welland, Ont.—Nov. 29th.—Residence of Mr. W. S. Eastman, Randolph Street, badly damaged. Loss about $1,000. Origin, overheated gas stove.

Keeler, Sask.—Nov. 23rd.—Farm residence of Mr. J. P. Keeler destroyed; also valuable papers and $500 in cash. Loss unknown. Origin, overturned lamp.

Disraeli, Que.—Nov. 27th.—Roy business block destroyed, including Mr. P. Rousseau's hotel and the stores occupied by Messrs. John Elkas, C. Lapointe, Joseph St. Hilaire, J. O. Roy, C. Cote and D. Binelle. Three dwellings were also burned, being those of Messrs. P. Poulin C. Gosselin, and Eugene Gregoire. Loss estimated at $75,000. Origin unknown.

ADDITIONAL INFORMATION CONCERNING FIRES ALREADY REPORTED.

St. Stephen, N.B.—Mr. F. E. Rose's loss was $14,000, on stock and $7,000 on buildings. Insurance $12,000.

Ottawa, Ont.—Messrs. Park & McVeity's loss on stock was $75,000 and on buildings $10,000. Insured for $50,000.

West Lorne, Ont.—The Elgin Hotel sustained loss of $3,000 on stock and $6,000 on building. Insured with the York Fire Insurance Company for $3,000.

Golden, B.C.—The loss sustained by Mr. J. A. Buckram was $10,250 on stock and $780 on fixtures, insured in the following companies: Norwich Union, $500; Fidelity Phœnix, $500; Atlas, $1,800; Liverpool, London and Globe, $1,000; Canadian Fire, $600. Saved about $2,300 stock and $262 fixtures. Insurance allowed on stock, viz., $4,400; on fixtures, $332. Loss about $3,500.

COBALT ORE SHIPMENTS.

The following are the shipments of Cobalt ore, in pounds, for the week ended November 24th: Nipissing, 206,200; La Rose, 170,032; Colonial, 44,500; Kerr Lake, 40,500; Coniagas, 62,482; McKinley-Darragh, 59,732; Casey Cobalt, 60,000; Miller Lake, 42,000; Drummond, 60,000; total, 725,446 pounds, or 362.7 tons. The shipments since January 1st are now 46,061,396 pounds, or 23,030 tons.

In 1904 the camp produced 158 tons, valued at $316,217; in 1905, 2,144 tons, valued at $1,437,196; in 1906, 5,129 tons, valued at $3,900,000; in 1907 14,040 tons; in 1908, 25,700 tons; in 1909, 29,751 tons; in 1910, 34,041 tons.

MORE CANADIAN ISSUES OVERSEAS.

One Municipal and Two Industrial Flotations Abroad—News and Notes.

As noted previously, there was an over-subscription in the case of the Grand Trunk Railway Company's issue in London of £1,250,000 4 per cent. guaranteed stock under the powers of the Grand Trunk Railway Act, 1909, sanctioned by the proprietors at the general meeting on the 21st April, 1909. The issue price was £92 per £100, and the stock is entitled to the full dividend of £2 for the half-year ending 31st December, 1911, and after payment of the final instalment on the 1st February, 1912, the issue will rank pari passu with the existing 4 per cent. guaranteed stock, which ranks for dividend out of the profits of each year in priority to all the preference stocks of the company, and the net earnings of the company for the year 1910, after providing for the fixed interest charges and the dividend on the existing 4 per cent. guaranteed stock, showed a surplus of £333,000, which amount will be exceeded during the current year. On the 1st January, 1912, Midland 5 per cent. first mortgage bonds, amounting to £856,800 (the balance of an original issue of £1,571,600) will mature and be paid off, thereby reducing the preference charges of the company by £42,800 per annum.

More Canadian Issues in London.

Further Canadian issues are being made in London, namely, £150,000 six per cent. first mortgage bonds of the Dryden Timber Power Company of Ontario, at 95, and $400,000 seven per cent. cumulative preference shares of the Winnipeg Paint and Glass Company at par.

The Winnipeg Paint and Glass Company, Limited, has capital of $1,000,000, of which in March $500,000 was paid. The stock is preferred as to dividends and assets, and bears a guaranteed dividend of 7 per cent., participating in the profits of the company up to 10 per cent. In making an offering of stock in Canada last March, it was stated: "With a view to taking advantage of the large amount of business offered to us, we have decided to make an issue of stock to the public. Half of the issue ($250,000) is being taken by English purchasers, but as we wish to have the majority of our stock held in the West, the balance has been withheld for local subscription."

Lethbridge in the Market.

Messrs. Coates, Son and Company, issued in London this week the prospectus of the City of Lethbridge £90,740 4½ debentures at 103.

The London Stock Exchange has listed Canada Cement £226,000 6s; Dominion Sawmills £130,000 6s, and Mond Nickel £250,000 5s.

Application has been made to the stock exchange to list £1,250,000 G. T. R. 4s, £18,900 Canadian Car and Foundry 6s, and $3,000,000 Lake Superior Corporation 5s.

Dominion Will Guarantee Bonds.

Premier Flemming of New Brunswick says that the department of public works for the province have prepared two sets of plans for proposed bridge across the river at the Reversing Falls. One set of plans shows the cost of a bridge constructed to convey street car traffic as well as the ordinary highway traffic, while the other shows the cost of a bridge for highway traffic only. As regards the construction of the bridges, the Federal Government has undertaken to guarantee the interest on the bonds covering the cost of their construction to the amount of $1,000,000 for a period of years. The estimate for the construction of the bridges is between $1,200,000 and $1,300,000, and the construction company will provide for any additional cost over the amount guaranteed by the Federal Government. At the expiration of the period of years for which the Federal Government guarantees the interest on the bridge bonds, a portion of the 40 per cent. of gross earnings payable to the Government and determined by the relation of the cost of the bridges to the cost of the railway as a whole will be applied to the payment of the interest on the bridge bonds, and to the provision of a sinking fund to reimburse the Federal Government.

Montreal's Financial Affairs.

That Montreal's borrowing power be decreased from 15 to 12 per cent., and that one per cent. be set apart as a sinking fund to defray the city's debt, is an interesting suggestion made by Ald. Lavallee of Montreal. This would reduce the interest from $300,000 to $240,000. For instance, if the city's increase in assessment this year is $50,000,000, the city under the present rate could borrow $7,000,000. Under the new rate they would borrow $6,000,000. The matter was referred to the council.

The largest item in the budget of the city of Montreal for the year 1912 will be the interest on the civic debt, amounting to $2,500,000, on a sum of $58,000,000 which the city owes. The total expenses of the city for the year 1912 are estimated at $8,100,000, and in addition to this there are $700,000 arrears of work from 1911, which will not be finished until May, 1912.

Proposed Changes in Vancouver's Charter.

The outstanding feature of the contemplated changes in the charter of Vancouver, B.C., is the necessary implementing of the recent decision of the Vancouver authorities to limit the city's borrowing powers during a term of years in order that a sufficient fund may be made available to provide for the purchase and municipalization of the local interests of the British Columbia Electric Railway Company, at the expiration of the existing franchise from the city under which that corporation operates. By the present proposals, the borrowing powers of the city are to be limited next year to $500,000 less than the aggregate borrowing capacity of the corporation, as defined in Section 105 of the Vancouver Incorporation Act; in 1913, to $1,000,000 less than that aggregate; in 1914, $1,500,000; 1915, $2,000,000; 1916, $2,500,000; 1917, $3,000,000; 1918, $3,500,000; and 1919, $4,000,000, "provided, however, that, in case the city shall not on or before the 11th day of August, 1918, have given notice to the British Columbia Electric Railway Company, Limited, pursuant to clause 34 of the agreement of October 14, 1901, between the city and the company, of the city's intention to assume the ownership of the railway lines and property of the company, and to exercise the rights and powers contained in clause 34; then and in such case the council shall, from and after 11th August, 1918, have the right to exercise all the borrowing powers and powers of contracting debts contained in section 105."

Finances of Outremont.

The estimates of income and expenditure of Outremont, Que., for 1911-12 are: Revenue—rate of 7 mills on property valuation of $7,600,000, $53,550; permits, licenses, interest, etc., $3,685. Total, $57,235. Expenditure—interest and sinking fund charges on untaxable property, $16,500; general government of town, $10,900; highways, $16,300; police and fire, $2,500; other charges, $7,645. Total, $53,845.

TIGHT COOPERAGE MANUFACTURED LAST YEAR.

Tight cooperage barrels are used in the shipping of wines, whiskey, beer, ale, oils and other liquids, and the stock used is required to be clear and of a species which will not impart its resinous or other taint to the contents. For these reasons, oak, preferably white, is the principal wood used by the trade, and as this species cannot be obtained in Canada, the large shippers import it either as staves or in the log, from the United States. In the latter country, however, gum and basswood are rapidly taking the place of oak in sawed tight cooperage, so that in a short time a change may be looked for in the woods used in Canada. Statistics compiled by the Dominion Forestry Branch at Ottawa show that the tight cooperage industry in Canada during 1910 amounted in value to three hundred and forty-five thousand dollars. Nearly four-fifths of the total value was composed of staves, while heading to the value of $72,000 made up the balance. The stave production was as follows:—7,137,000 sawed staves worth $195.788; 923,000 ale and beer worth $44,814; and 319,000 bucked and split worth $72,240. Oak formed three-quarters of the sawed staves, all the ale and beer staves, and all the bucked and split. Gum, a species of wood not hitherto reported, which should prove itself very satisfactory on account of its durability and freedom from flavor, stands third in the sawed stave table. In one year, with a production of 437,000 staves it surpassed all the native species except spruce. To fill the demand for tight cooperage in Canada, imports as reported by the Department of Trade and Commerce were as follows for 1910:—7,220,000 oak staves, valued at $200,672; stave bolts to the value of $81,888 and 93,811 empty barrels worth $112,126.

PROGRESSIVE BROKERAGE FIRM.

On December 1st, Messrs. F. B. McCurdy, & Company, the well-known bond and investment brokers, will open an office at 105 Prince William St., St. John, N.B., under the management of Mr. A. E. Vessey, who has been for the past two years manager of their Charlottetown, P.E.I., office. Previous to that Mr. Vessey was with the Bank of Nova Scotia, serving as manager at Sussex and also at St. Stephen, N.B., besides other branches of that well-known institution.

This progressive firm now has offices at Sherbrooke, Montreal, Halifax, Charlottetown, Sydney and St. John's, Newfoundland. All of these offices, with the exception of St. John's, Newfoundland, are connected by private wire with the leading exchanges.

Their business is showing a splendid increase and additional departments have been added to look after their large clientele. Special attention is given to inquiries from investors who are desirous of fullest information before making a purchase.

Mr. J. B. Jackson, Canadian Trade Commissioner at Leeds, Eng., has resigned.

BRITISH, CANADIAN AND AMERICAN

Fire Insurance Companies in Canada—Comparison of Their Aggregate Results Last Year.

The total cash receipts from premiums of British fire insurance companies in Canada in 1910 were $10,243,235, being an increase of $522,238, as compared with the previous year; the payments for losses were $5,488,726, being $639,139 greater than for 1909; while the general expenses amounted to $3,095,224, being $119,423 greater than in 1909, thus showing balance of $1,659,285 favorable to the companies. In the previous year there was a favorable balance of $1,899,516.

Paid for losses	$5,488,726
Paid for general expenses	3,095,224
Total	$8,583,950
Received for premiums	10,243,235
Balance in favor of the companies	$1,659,285

The total balance in favor of the British companies was $1,659,285. For every $100 of premiums received there was spent on the average $53.58 in payment of losses, and $30.22 for general expenses. In 1909 the loss rate was $49.93, and the general expenses $30.47, for every $100 of premiums received. For the fire business the rate of premium was $13.265 per $1,000 of risks taken, as against $13.837 in 1909. Hence these companies have done a larger volume of business than in 1909, at a lower rate of premium, a slightly lower rate of expense, and at a higher rate of fire losses.

Result for Thirty-six Years.

Collecting the result for the thirty-six years from 1875 to 1910, as regards the receipts for premiums and the expenditure of the British companies, we find:

Paid for losses (1875-1910)	$115,670,754
Paid for general expenses	50,324,145
Total payments	$165,994,899
Received for premiums	181,180,790
Excess of receipts over expenditure	$15,185,891

An adverse balance was in existence from the year 1877 till the end of the year 1886, due to the exceptional circumstances of the conflagration at St. John in the first mentioned year—when the losses paid by British companies amounted to almost five millions of dollars; that such adverse balance was reversed at the end of the year 1887, when a favorable balance of $341,938 was shown, and this favorable balance increased thereafter from year to year, with the exception of 1893, up to the close of 1899, when it amounted to $5,029,980. In 1900 the loss by the British companies on account of the Ottawa and Hull conflagration amounted to over two and a half million of dollars. To this is due the large deficit of that year, $1,365,476, wiping out the savings of the preceding four years, and reducing the favorable balance at the end of 1900 to $3,664,504, which sum had been still further reduced to $3,512,636 at the end of 1901. The favorable experience for the years 1902 and 1903 increased this balance to $7,123,044 at the end of 1903, but it was again reduced by the unfavorable experience of 1904 to $3,969,472. During the past six years the favorable balance has been largely increased, and now amounts to $15,185,891.

Figures of American Companies.

The receipts for premiums of American fire insurance companies in Canada during 1910 were $4,147,684; the payments for losses, $2,259,016; and the general expenses, $1,169,962. Hence for every $100 of premiums received there were spent on the average $54.46 in payment of losses, and $28.21 in general expenses.

The total balance in favor of the American companies was $718,706. The results of the total business of these companies, from 1875 to 1910 inclusive, are as follows:

Paid for losses (1875-1910)	$25,366,266
Paid for general expenses	11,662,442
Total payments	$37,028,708
Received for premiums	42,710,416
Excess of receipts over payments	$5,681,708

Business of Canadian Fire Companies.

In considering the Canadian companies, their whole fire insurance business, in Canada and elsewhere, as well as their marine business and business in other branches must be taken into account, inasmuch as a separation of expenses between these branches has not been made.

The following table gives the distribution of fire business between Canada and elsewhere in 1910, for the fifteen companies transacting business outside of Canada, and shows that the home business was, on the whole, less favorable to the companies than the foreign business:

1910.	In Canada.	In other Countries.
Amount of risks taken	$387,581,067	$652,906,953
Premiums received	3,037,675	3,141,709
Losses paid	1,754,359	1,714,812
Rate of loss paid per cent. of premiums received	57.75	54.58

In Canada and Foreign Countries.

The subjoined table gives the rate per cent. of losses paid, as compared with premiums received, upon business done in Canada and other countries by Canadian companies, during the years 1878 to 1910 inclusive, which shows that, taken over the whole period, the Canadian business has been more favorable to the companies than the business transacted in other countries:

1878-1910.	In Canada.	In other Countries.
Premiums received	$40,792,294	$78,775,351
Losses paid	24,941,527	52,450,107
Rate per cent. of losses paid as compared with premiums received	61.14	66.58

As to Assets.

The assets of the twenty-five Canadian companies doing fire business amounted at the end of the year to $12,757,455, covering a total amount of insurance of all kinds of $1,075,610,390, being at the rate of $11.86 for every $1,000 of insurance in force; they have also subscribed capital not called or not paid up, amounting to $3,979,617, making a total security of $15.56 for every $1,000 insured. The liabilities of the same companies amounted to $6,267,936, made up as follows:

Unsettled losses	$ 748,189
Unearned premiums	4,965,810
Sundry	553,937
	$6,267,936

The unearned premiums are here taken to be 80 per cent. of the pro rata proportions of the gross premiums for the time unexpired in the cases of fire and inland marine insurance, and 80 per cent. of the whole premiums in the case of a current ocean risk. The surplus of assets over liabilities available for the protection of policyholders, independent of the subscribed capital not called up, amounts to $6,489,518.92. The capital stock of these companies paid up or in course of payment, amounts to $7,167,467.

Surplus for Policyholders.

The following table gives the condition at the end of 1910 of the Canadian stock companies in reference to the surplus on account of policyholders:

1910.	
Subscribed capital	$11,108,620
Paid-up capital	7,129,003
Excess of assets over liabilities, excluding cap. stock	6,452,666
Subscribed capital not called or not paid up	3,979,617

The report of the Department of Insurance, Ottawa, is being issued in two parts this year.

◆

BANK OF CALGARY.

At Calgary last week, the following met to discuss the formation of the Bank of Calgary with headquarters in that city:—Messrs. P. Burns, John Lineham, T. J. S. Skinner. R. J. Hutchings and C. J. McAlister, Dr. Lindsay and Col. Walker. Mr. Burns was appointed chairman of the meeting and Mr. C. A. Ennis secretary, pro tem.

The number present at the meeting apparently did not inspire activity and it was decided to adjourn for a week and to get a few statistics in the meantime. The promoters propose to issue the stock at a premium of $20 per share, par value $100. The capital will be $5,000,000. Application will be made for a Dominion charter.

A statement is made in a Calgary paper that the earnings of the eastern banks be sent to the shareholders in the east instead of being used to develop the resources of the west. This is an obvious misstatement. In addition, the banks put their whole strength into the west every fall to finance the crop movement.

The original proposal was to name the institution the Bank of Alberta.

◆

STEAMSHIP MERGER.

An official circular has been issued to the shareholders of the Niagara Navigation Company, announcing the issue of 1,002 shares of new stock to provide for the purchase of Hamilton Steamboat Company, and the Turbine Steamship Company. The new stock will give some rights to present holders, the shares being allotted in the proportion of one of new to seven of old.

It is thought that this is but the beginning of a general amalgamation of lake steamship interests.

NEWS ITEMS.

The Bank of Nova Scotia have applied for a winding-up order for the Woodstock Textile Company, Woodstock, Ont.

The Richelieu and Ontario Navigation Company, is negotiating for the purchase of the Collingwood Shipbuilding Company.

The capital stock of the Battle Creek Toasted Corn Flake Company, Limited, has been increased from $100,000 to $250,000.

The Brandon Gas and Power Company, Limited, will apply to the Manitoba Legislature for power to increase their capital stock from $225,000 to $525,000.

The Trust and Loan Company of Canada will apply to the Dominion Parliament for an act increasing the company's capital stock from £3,000,000 to £5,000,000.

The Board of Trade, Minnedosa, Man., have asked the Union Bank of Canada and the Bank of Hamilton to consider the advisability of erecting bank buildings there.

The public subscription of the issue of the Spanish River Pulp and Paper Company, preferred stock last week was successful, report Messrs. C. Meredith and Company.

Large clay deposits, which have been located some miles south of Moose Jaw, Sask., are about to be developed, the promoters having obtained samples of articles made from this clay, which include fire brick, glazed tile, common and pressed brick, and certain lines of pottery.

The Royal Bank of Canada has opened branches at Santo Domingo City, and San Pedro de Macoris. The Royal Bank has already fifteen branches in Cuba alone. It also has three branches in Porto Rico, two in Trinidad, and one each at Nassau, Barbados and Jamaica.

The Canada Landed & National Investment Company is issuing $402,000 of new stock to be offered at par to shareholders of record January 15th, with the first call 50 per cent. The company has an authorized capital of $4,000,000, of which $2,008,000 is subscribed and $1,004,000 paid-up. The reserve fund is $740,000.

The Queen Charlotte Fishing Company, of Vancouver, is establishing an industry at Tassoo Harbor, on the west coast of Moresby Island. Oriental labor will be excluded, white fisherman to be brought from the Great Lakes. The company has a sawmill and will build an oil refinery, a salting plant and a small fertilizer plant.

The following companies operating under Dominion charters have increased their capital stock:—The Cedar Rapid Manufacturing and Power Company, from $250,000 to $10,000,000; the Macfarlane Shoe Company, from $150,000 to $300,000; the British America Elevator Company and the Goodyear Tire and Rubber Company of Canada.

Premier Borden's request for a reorganization of the International Waterways Commission, has been sanctioned by the Imperial authorities. The new commissioners are:—Messrs. C. A. McGrath, ex-M.P. for Medicine Hat; T. Chase Casgrain, K.C., of Montreal, and H. A. Powell, ex-M.P. for St. John, N.B. Mr. Magrath may be chairman. The first meeting of the joint commission will be held shortly.

The Railway Commission on Tuesday, will consider the matter of requiring all railway companies under the jurisdiction of the board to provide at all stations a car order book, in which a record must be kept showing particulars of all cars ordered and allotted, also the advisability of requiring all orders for cars to be made in person by shippers or their agents, by mail or by telegraph, giving particulars of cars required to the agent in charge of the station from which shipment is made.

Satisfactory settlements have been reached, signed and sealed in the actions brought by the liquidator of the Ontario Bank against the directors of that institution to make them assume the deficit. The terms of the settlement are secret, according to the order of Mr. Justice Teetzel, of Toronto, who signed the settlement papers. They are understood to be satisfactory to the shareholders. The amount paid up by the shareholders under the double liability requirements is between 20 and 30 per cent. of the full amount due.

A plan for a canal connecting Lake Champlain with the St. Lawrence river, has been before the public works department at Ottawa, for some months and at present is being reported on by the chief engineer. The district engineer at Montreal, has submitted a technical description of the works, which will cost about eight and a half-millions. The canal would be constructed from near St. Johns, Que., on the Richelieu river, to Longueuil on the St. Lawrence. It will destroy, so it is claimed, certain water powers of the Montreal Light, Heat and Power Company, which is raising objections. Eventually the matter may be a subject of reference to the international waterways commission.

FIRST REPORT OF PRYCE JONES (CANADA), LIMITED.

The first accounts of Pryce Jones (Canada), Limited, are for the five and a half months' period to July, 1911. The original company is of Welsh origin, and the Canadian branch at Calgary is operated under a Dominion charter and the name Pryce Jones (Canada), Limited. It has an issued share capital of £80,000, of which £10,000, being the whole of the ordinary share capital, was allotted to the originating firm as (part) purchase consideration for the goodwill of its Canadian business connections and interests; £70,000 6 per cent. cumulative and participating preference (£1) shares were offered for public subscription, and were readily subscribed. The new company thus obtained an initial working capital of £55,000.

The Calgary site was acquired for £10,000, and the building, as originally planned, was estimated to cost £12,500, which, after paying expenses and cash purchase consideration, would still leave £29,000 for working capital. It was anticipated that the company would be in a position to commence trading by the end of the year.

But it was soon realized that the original plans were entirely inadequate. Another site was obtained for the stores, the original site being subsequently sold at a profit. On the new site a building was erected at a cost of £26,000, and it was opened for business in February last. Further premises have had to be rented, but adjoining land having been acquired, in May last an issue of £100,000 6 per cent. debenture stock was issued to provide capital for building extensions and for the general purposes of the business. The issue was made at par and was not underwritten; it was fully subscribed and has been paid up in full. A year elapsed between the issue of the preference and debenture prospectuses

During the 5½-months to the end of July, a trading profit of £2,153 is shown. Five thousand pounds was spent on advertising, on price lists, and on the organization of a mail order department, and this has been charged to the six months' account although "but little benefit could be expected from this expenditure until after the date of the accounts, trade having been almost entirely of a local character." Various other expenses incident to a new business have also been incurred and charged to the six months' working account.

In these circumstances, the directors bring the £9,525, profit on land sold, to the credit of profit and loss account, and after writing off one-third (£4,560) of the preliminary expenses, they pay a full year's dividend on the preference shares, which leaves a balance of £1,070 to be carried forward to the current year.

The last instalment of the debenture stock was not receivable until August 1st, but payments in advance of calls left only £16,175 outstanding on July 31st. At that date, the company owed £7,422, balance of cost of land purchased, but also it had £7,835 receivable in respect of land sold, which was secured to it on mortgage yielding 8 per cent. Assuming this to be in the nature of a temporary investment, on balance the company had £16,588 receivable as additional working capital.

On trading accounts its liabilities, including bills payable, amounted to £36,149, whilst stocks stood at £60,268, and cash (and bills receivable, £172) gave a liquid reserve of £44,995. Debtor accounts were small.

The outlay on land and buildings up to the end of July had amounted to £55,684, with a further £7,422 payable in respect of additional land purchased; and it would seem that further payments must accrue in respect of building extensions. At the date of the accounts the company had liabilities totalling £43,571, and cash resources to the amount of £69,000, with stocks to the value of £60,270. The debenture stock has a market value of about par, but the preference shares, which are 6 per cent. cumulative, with a participation right in surplus profits up to a maximum dividend of 10 per cent., are at 10 per cent. premium—5¼—5¾ for the £5 share.

The Imperial Bank of Canada has opened a branch at Timmins, Ont.

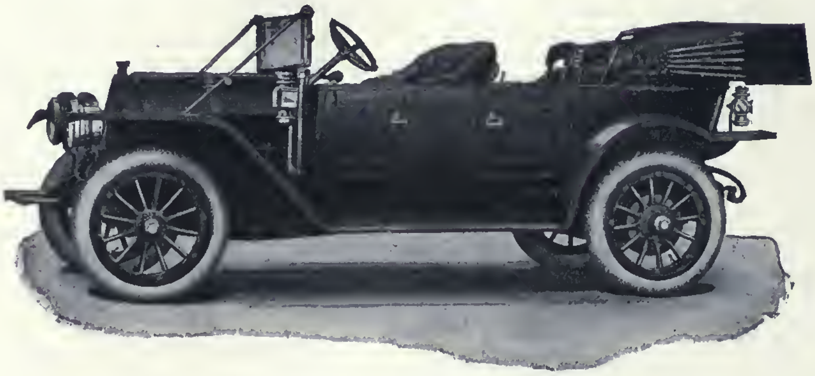
The Canadian Bank of Commerce will open a branch at Port Colborne, Ont.

The number of directors of the Rimouski Fire Insurance Company has been reduced from nine to seven.

The Prudential Life Insurance Company, of Winnipeg, is making good progress, the subscribed capital being $900,000 and the insurance in force over $6,000,000.

Russell Motor Cars

"Made up to a standard
—not down to a price"



"QUALITY—quality—always quality. You men talk quality as if your life depended on it," said a man recently.

What else but quality has made the Russell car?

What else has killed criticism?

What else has met competition?

What else has doubled the business of the Russell Motor Car Company and made it an example of success in the business world?

Quality is the thing that makes machines as it makes men—makes them fit for the work they are cut out to do—gives them staying power—gives them dependability—gives them *value.*

Quality in the Russell motor car means many interesting things. It means good designing to begin with, not simply for looks, but for resistance to strain—it means machining to one ten-thousandth part of an inch and the nicest adjusting. It means an Inspection Room in which every part of a Russell car has to pass people who are *paid to discover defects*. It *is* expensive—this method—but look at the results.

Visit our nearest branch or agency and receive a demonstration. You will be given an intelligent idea of the car without obligation. Models from $2,350 to $5,000, equipped.

An Attractive Catalog will be Sent Upon Request

EXCEPTIONAL POSITION OF COMPANY.

The Caledonian Realties, Limited, owns about 160 arpents, or approximately 6,000,000 square feet, in Longue Pointe Ward of the city of Montreal. At the present time this section of the metropolis is witnessing perhaps the greatest industrial development of any section of the entire Dominion of Canada.

The property is especially attractive from an investment standpoint, because of the different classes of purchasers that will be interested in different portions of it. It extends right from the River St. Lawrence. The portion of land possessing river front advantages is over a quarter million feet. This land is immediately on the regular channel of the St. Lawrence River. Back of this is a section admirably suited for the location of all kinds of manufacturing industries, as it will be crossed by lines of the Canadian Northern, Canadian Pacific and Grand Trunk Railways; while further back, to be crossed by the extension of Sherbrooke, Vinet, Ontario Streets, etc., is a section on a gentle slope, especially adapted for home sites, perhaps more particularly for the homes of the workingmen that will be employed in the various factories already located in the neighborhood. At the present time the property is served by both the Montreal Terminal and Montreal Street Railway tram lines at a regular city fare of 5 cents.

The entire property is surrounded by immense industrial enterprises—the plants of the National Bridge Works and Canada Cement Company being located immediately to the east, while immediately to the west are the huge plants of the Montreal Locomotive Company, the Structural Steel Company of Canada, the Canadian Steel Foundries, and a little farther West are the plants of Warden, King & Son, United Shoe Machinery Company, and the harbor developments now taking place with Vickers, Maxim's Dry Dock and Ship Repair Plant, etc.

SECURITY BACK OF THE BONDS.

The 6 per cent. Bonds now offered are secured by Trust Deed to the Eastern Trust Company, which provides for the release of factory sites and building lots from the mortgage only on the payment of a certain price per foot, according to location on plans filed with the Trust Company.

The Trust Company is further obligated to provide not less than 70 per cent. of the proceeds of all sales of land for the redemption of the Bonds. These are to be purchased in the open market, and this will naturally provide a market for the Bonds at increasing prices. In this way the entire issue will be gradually redeemed, and there will be left for the Common Stock, obtained as bonus, an equity which certainly can be counted upon to be equal to the par value of the Common Stock.

MANAGEMENT.

The management of the property has been placed with Findlay & Howard, Limited, and this Company is known as among the most successful managers in Canada of large real estate subdivisions, including such well-known companies as the Park Realty Company of Montreal, Kenmore Realty Company, Applemount Realty Company, Limited, and Realty Syndicate, Limited, Lindores Realty Company, Limited, Birnam Realty Company, Limited.

Findlay & Howard, Limited, in a report on the property, state that they have no hesitation in saying that over $800,000 NET will be taken out of the property.

GROWTH OF MONTREAL

The following will give you a comprehensive idea of the growing importance and substantial development of Montreal and you will note that the population of the City has increased 74 per cent. in the past 10 years.

	1901	1910	
Population	267.730	466,197	(1911)
Assessed Valuation	$188,733,993	$428,534,115	
Building Permits	$2,368.372	$15,715,859	
Bank Clearings	$889,479,000	$2,088,549,000	
Customs duties collected	$9,423,252	$17,724,184	
Value of Merchandise Exported	$56,947,045	$71,642,648	
Value of Merchandise Imported	$65,632,086	$114,473.184	
Total tonnage of the Port	1,453,048	2,234,722	

We very strongly recommend the Bonds for investment from a point of view of the security behind them, while the Common Stock will enable the holder to share to a very considerable extent in the rapid enhancement in real estate values of the industrial section of the commercial centre of Canada.

Special Descriptive Circular, giving full particulars about the Company and its properties, as also regular application forms, mailed free on request. Orders may be telegraphed or 'phoned at our expense.

NOVEMBER BOND SALES.

Victoria Makes Big Issue—Six Provinces on the Market.

The municipal bond sales for October as compiled by The Monetary Times amounted to $2,915,765 compared with $1,730,175 for October and $2,292,781 for the corresponding period last year.

Six provinces were on the market and the majority of the sales were small.

The following are the particulars by provinces:—

Alberta	$308,825
British Columbia	2,009,887
Manitoba	71,650
Ontario	300,978
Quebec	25,000
Saskatchewan	199,425
	$2,915,765

The Dominion Securities Corporation, Toronto, purchased $2,009,887 city of Victoria, B.C., 4 per cent. bonds, various maturities. Victoria has an assessed valuation (on land only) of $45,000,000. Its gross debenture debt, including bonds and stock, is $7,385,000, of which a large portion is invested in revenue producing utilities.

The following are the monthly totals as compared with 1909 and 1910:—

	1909.	1910.	1911.
January	$2,540,862	$ 881,838	$ 420,337
February	4,074,125	1,272,977	1,037,287
March	1,615,368	1,169,730	6,271,925
April	4,033,988	6,805,078	3,910,288
May	5,185,530	5,964,896	3,946,047
June	2,243,569	2,187,588	3,983,670
July	1,989,442	1,536,424	1,594,566
August	3,011,242	1,312,953	1,493,507
September	1,503,108	2,841,486	1,748,778
October	1,510,132	2,211,461	1,730,175
November	2,725,166	2,292,781	2,915,765
December	1,100,428	566,113	....

LAND BOND OFFERING.

A block of $100,000 6 per cent. twenty-year first mortgage gold bonds of the Caledonian Realties, Limited, are offered by the Eastern Securities, Limited. The company owns 6,000,000 square feet in Longue Pointe Ward, Montreal. The bonds now offered are secured by trust deed to the Eastern Trust Company, which provides for the release of factory sites and building lots from the mortgage only on the payment of a certain price per foot, according to location. The Trust Company is further obligated to provide not less than 70 per cent. of the proceeds of all sales of land for the redemption of the bonds. The increase in the value of property in eastern Montreal, as elsewhere, has been considerable, as instanced by the advance in Dominion Park shares recently from 55 to 106, the result of recognition of the good situation of the property and the rumoured sale of their land. The Caledonian lands are contiguous to that property, and will naturally participate in the advantages of such conditions.

RELATIVELY HIGH RETURN

The real estate mortgage is the oldest form of security known to man. And not only that—it was the safest for centuries. With the possible exception of government bonds, it is still the most conservative.

During the past year loan company funds increased over $15 000,000 on the prairies alone. There is an immense field in British Columbia.

Our loans are placed on improved revenue-producing property in Vancouver and New Westminster. Valuations are made by experienced men and are very conservative, being finally passed on by our board of directors.

No loan is made for more than 50% of appraised value. All titles are searched and certified to by our solicitors. We attend to the many small details which are so often a cause of annoyance to the purchaser.

If you have any funds available, we will guarantee a net return of SIX PER CENT. Our entire assets is your security. We collect both principal and interest and remit yearly or half yearly as desired Advise us how much you would like to invest just now. We will submit a list suitaeble to your requirements.

The Imperial Canadian Trust Company

Was Incorporated Under the Laws of Manitoba by Special Act of the Legislature Assented to March 24th, 1911, with a Capitalization of

One Million Dollars ($1,000,000)

Divided Into Ten Thousand Shares of $100.00 Each, With Power to Increase the Capital to Three Million Dollars ($3,000,000), for the Purpose of Carrying on a Trust and Agency Business in all its Branches, as Clearly Set Forth in the Company's Special Act of Incorporation, and as Hereinafter Dealt With in This Prospectus.

The Head Office of the Company is in the City of Winnipeg, and, in addition to this, brauch offices and agencies will be opened up throughout the Dominion. As a very active business will be carried on in Western Canada, special attention will be given towards effecting a thorough organization in the Western Provinces. The Company proposes to open an office in London, England, and to appoint a London board of directors with a view to facilitating its operations and establishing valuable financial connections in Great Britain. Accordingly, the Company will be able to get into close touch with British investors and be in a position to readily furnish its Old Country clients with direct information concerning the Company and, generally speaking, the establishing of a London office and the appointing of a London board comprising representative busi-

pany, but will be a source of practical benefit and convenience to the Company's clients throughout Great Britain.

It is the intention of the directors to at once offer for public subscription in Canada One Million Dollars ($1,000,000) of Ordinary Stock, and, a little later on, having regard to the business requirements of the Coompany, the directors will make an issue in Great Britain of four hundred thousand dollars of Ordinary Stock and one million six hundred thousand dollars of 5 per cent. Cumulative Preferred Stock upon the sanction by the shareholders of a by-law to that effect.

The funds so obtained through the sale of the Preferred Stock will be invested in Western Canada, to yield a handsome margin of profit, and, as the ordinary Stock will participate in these profits in addition to the profits accruing from the general business of the Company, it should prove to be a most satisfactory and profitable investment.

The Cumulative Preferred Stoock will undoubtedly appeal strongly to the British public who desire to secure an investment which affords a definite rate of interest combined with absolute security.

The first allotment of Ordinary Stock is being issued at $115.00 per share, being at a premium of 15 per cent.

Already $300,000 of Stock has been subscribed

by the directors and their friends, and, from the present very active demand and inquiries for the stock, indications clearly point to a prompt subscription of the entire allotment.

The terms of subscription are:—

On application, $25,00 per share, which shall include the premium of $15.00 per share, and the balance owing on the shares, payable in ten consecutive half-yearly instalments of $9.00 per share; the first of such half-yearly instalments to become due and payable six months from date of allotment of shares.

Shares may be paid for in full on application or, as a matter of convenience to the subscriber, they may be purchased in accordance with the terms of payment as set forth in the next preceding paragraph. The investor of moderate means as well as the capitalist will, therefore, be enabled to secure with but little financial effort, a handsome number of shares. If so desired, the subscriber may pay any or all of the instalments prior to due dates and thereby derive the full benefit of his investment.

subsequent payments according to the number of shares subscribed:—

No. of Shares	Amount of First Call	Half Yearly Payments	No. of Shares	Amount of First Call	Half Yearly Payments
1	$ 25.00	$ 9.00	30	750.00	270.00
5	125.00	45.00	40	1000.00	360.00
10	250.00	90.00	50	1250.00	450.00
15	375.00	135.00	100	2500.00	900.00
20	500.00	180.00	200	5000.00	1800.00
25	625.00	225.00	300	7500.00	2700.00

Table showing total purchase price of the following number of shares at the price of $115.00 per share.

No. of Shares	Total Purchase Price	No. of Shares	Total Purchase Price
1	$ 115.00	30	3450.00
5	575.00	40	4600.00
10	1150.00	50	5750.00
15	1725.00	100	11500.00
20	2300.00	200	23000.00
25	2875.00	300	34500.00

It is worthy of special mention that **no commissions have been paid** for securing stock subscriptions; in fact, the only expense incurred in the promotion and organization of the Company has been in connection with securing the Company's charter and a few necessary expenses, including printing, postage, stationery, etc.

No bonus stock whatever has been nor shall be issued to anyone. Even the directors who individually have large financial holdings in the Company and take a prominent and active interest in its welfare have, without exception, paid the same price for their shares as is being offered to the general public, or, in other words, not one dollar of Ordinary Stock has been nor shall be issued for any purpose whatever at a price less than $115.00 per share.

The income of The Imperial Canadian Trust Company will be derived from:—

(a) The investment of its Capital Stock, Debentures, Deposits, etc.

(b) The fees and commissions in connection with the administration of estates, the investment of trust moneys, the collecting of accounts, rents, dividends, interest, mortgages, etc., acting as assignee, trustee, guardian, official administrator, etc., as well as agent for the owners of real estate; agent for the transaction of business, the management of and winding up of estates, acting as custodian of sinking funds, and also from rents derived from the safety deposit vaults, etc.

The following figures, which are the latest obtainable, relative to a number of our Canadian Trust Companies, will prove of much interest, showing their subscribed and paid-up capital, reserve, as well as dividends paid, the net earnings on paid-up capital, the present per cent. value of their shares, and the total volume of business under the control or administration of these different companies:—

Name of Company	Subscribed Capital	Paid-up Capital	Reserve	Dividend p.c.	Per ct. value per share	Per ct. net earnings on paid-up cap.	Total assets held in capital and trust accounts	Years in business
Royal Trust Co., Montreal	$1,000,000	$1,000,000	$1,000,00	14½	*	25.32	$43,526,795	12
Toronto General Trusts Co., Toronto	1,000,000	1,000,000	600,000	8	-180	17.80	41,601,297	29
National Trust Co., Toronto	1,500,000	1,500,000	1,200,000	10	200	18.17	24,057,110	13
Union Trust Co., Toronto	1,000,000	1,000,000	650,000	10	180	19.44	13,415,147	10
Standard Trusts Co., Winnipeg	500,000	500,000	140,000	8	160	20.40	5,123,150	8
Northern Trusts Co., Winnipeg	1,500,000	1,268,982	133,180	7	130	12.30	6,191,724	6

*These shares are not listed, being very closely held, but, from a dividend point of view, they are worth $300 per share.

The above figures are most significant, and clearly show that the volume of business controlled by each company is many times the amount of the paid-up capital, which has a most important bearing on the earning power of the Company, and therefore enables it to pay very satisfactory dividends, as well as build up a large reserve, as is evidenced by the foregoing figures.

As the profits are governed by the volume and character of the business transacted, it will be readily seen that, as the business grows year by year, the profits materially increase and, with a fixed amount of Capital Stock, the Company is able to pay higher dividends and carry larger amounts to the Reserve, resulting in a steady increase in the value of the stock.

In promoting The Imperial Canadian Trust Company, the directors were confident that, with the rapid accumulation of wealth and tremendous business expansion throughout the country, influenced by a succession of bountiful crops and great influx of settlers into the Dominion, the time was most opportune for organizing a large and progressive trust company.

The moral and hearty financial support already accorded the Company by leading business and professional men is indeed encouraging, and augurs well for the future success of the Company.

In offering for subscription such a large amount of Capital Stock, which will be widely distributed not only in Canada, but abroad, the directors anticipate that, through the active co-operation of the shareholders, a very extensive and valuable business connection will be established. This connection in itself will naturally result in a large amount of very desirable business, and, when combined with the powerful interests already associated with the Company, it will be at once apparent that The Imperial Canadian Trust Company is not only commencing business under most favorable auspices, but it will always have at its command a great volume of business at a minimum cost to the Company.

Accordingly, the Company should experience a very rapid

organization and the volume of business under its immediate control, this Company should be enabled to pay handsome dividends, and at an earlier date than could otherwise be reasonably expected.

The directorate of this Company is comprised of men of wide experience, well and favorably known in the financial and commercial world. Each director has subscribed for at least one hundred shares of the Capital Stock, upon which all calls have been paid, and, in addition to this, every director takes an active interest in the welfare of the Company with a view to building up a strong and successful institution. Under these circumstances, it will be at once apparent that the affairs of the Company will be conducted on safe and conservative lines.

Every possible precaution will be taken in the investment of the Company's funds. Only high-class securities will be considered, such as first mortgages on improved real estate, stocks, bonds, and debentures of companies of unquestioned stability, also Dominion and Provincial securities, as well as Municipal, County and School securities of well established districts.

Absolute security, combined with a reasonable rate of interest, is a most essential feature to be considered when making any financial investment, and, in this connection The Imperial Canadian Trust Company should excel.

The funds of the Company will be very largely invested in the security of first mortgages on improved productive real estate in Western Canada, where land values are steadily increasing and where the rates of interest obtainable are at least **two per cent. higher** than in the older settled portions of the Dominion. With its mortgage loans, the Company is doubly secured, inasmuch as, while the Company's fixed policy is never to mortgage property for more than 50 per cent. of its conservative value, yet, with every mortgage, the interest as well as a definite amount of principal, is repayable yearly. Further precaution is exercised, as all mortgaged properties are covered by ample insurance, in thoroughly reliable companies.

In respect to the funds which will be invested in stocks and debentures, it might be well to mention that these securities are, generally speaking, readily negotiable and constitute

personal trustees to administer trust estates and perform such other duties as might be assigned them, is now very largely superseded by appointing, for such purposes, a trust company, which has, through its directors of long business experience as well as trained and trustworthy officials, a thorough organization, fully equipped with all the facilities so necessary for the prompt and efficient execution of the varied and complex obligations incident to the business.

Owing to the rapid accumulation of wealth and the great increase in population in the Dominion, the demand for the services of a trust company has grown to such an extent among the great masses of the people, that the trust companies are now regarded as almost indispensable in modern business. They now constitute a very important factor in our country as a safe, convenient and reliable means for looking after estates and sundry other business, which would be practically impossible for the private individual, no matter how capable and willing, to manage, for, perhaps, a long term of years, in the same thorough and comprehensive manner.

The general satisfaction to clients which has resulted from their employment of trust companies to perform such duties as were formerly assigned to private individuals and the enviable record and financial standing of our Canadian trust companies, have been instrumental in securing the entire confidence of the general public. As an evidence of the increasing popularity of these companies and the esteem in which they are held by investors as well as clients, we have but to refer to their very rapid and substantial growth during recent years, until they now rank among the strongest of our financial institutions and exercise a great influence in the financial and commercial world.

In the promotion of this large Canadian company, the directors have the utmost confidence that The Imperial Canadian Trust Company will, with characteristic Western energy and enterprise, soon come to be recognized as one of our strongest and most progressive financial institutions, and, as this Company, through its valuable connections abroad, will be instrumental in bringing a considerable amount of capital into the Dominion for the purposes of investment, and will undoubtedly be a valuable acquisition to our Canadian monetary institutions, the directors naturally anticipate that these facts will be fully appreciated by the Canadian people and that the Company will, accordingly, receive the moral and hearty financial support of all citizens who take a pride in building up our financial institutions and who are interested in the welfare and general development of our country.

As this is the first issue of the Company's stock and, therefore, the lowest price at which it will ever be available through public subscription, the directors strongly recommend the investment to the public, for their immediate and careful consideration. Subscribers are requested to kindly fill out the attached application form, stating name in full, number of shares desired, occupation and address, and mail the application along with the first call of Twenty-five Dollars ($25.00), per

investors who are desirous of securing an absolutely safe and profitable investment.

As it is confidently expected that the entire allotment will be promptly subscribed, the directors strongly recommend the investing public to make application for the stock with as little delay as possible.

During the last ten years the Dominion of Canada has enjoyed unprecedented prosperity and has made more rapid progress in wealth, population and business expansion than at any other time in its history, until to-day, the Dominion is attracting world-wide attention not only as a desirable country for settlers but as a safe and profitable field for investors.

With the rapid growth of Western Canada, the scope of the financial institutions has become greatly enlarged and, as a result, we find that most of our large Canadian companies have been obliged to materially increase their capital, owing to the demand for money incident to expansion of business, also that many new companies have been organized with a view to improving the financial situation and assisting as far as possible in the general development of the country.

Western Canada, which was only a few years ago comparatively unknown to the outside world, and had not then demonstrated that these Western Provinces were capable of supporting millions of people, has now come to be recognized as a great agricultural country, admirably adapted for settlers of moderate means, and as a very desirable and profitable field for the investment of capital.

With the head office of the Company located in Winnipeg, and the majority of the directors being Western men, thoroughly conversant with Western conditions, it is only natural to expect that, while this Company will operate in the various Provinces of the Dominion, yet the great volume of its business will be obtained in the four Western Provinces.

With the enormous influx of settlers into Canada, which is increasing year by year, the Western Provinces will continue to advance with even greater strides in the matter of railway extension, agricultural production, industrial and commercial enterprises than have hitherto been experienced in this country. With such a promising future in store for this portion of the Dominion, the energetic development in all lines of business will create a very active demand for money, so that financial institutions may look forward, with a great degree of confidence to many years of active and profitable business.

It is worthy of note that The Imperial Canadian Trust Company is not only being organized at a most favorable and opportune time, but it will have at its command very extensive and valuable connections owing to the fact that the directors of this Company are directors of and are financially interested in a number of other strong financial institutions, through which will be derived a large amount of very desirable business. It will, therefore, be evident that the cost of organization of this Company, including the placing of the Capital Stock, will be much lower than that of companies organized under less favorable conditions, and, in view of the low cost of personnel of the board will be most reassuring in this respect. Situated at the Gateway of the West, this Company, with its representative board of directors, is destined to become one of our largest Canadian financial institutions, and, with its interests, international as well as local, it will materially assist in attracting foreign capital into the Dominion and thereby add to the general wealth, prosperity and development of our country.

The business of a trust company has now come to be recognized as an absolute necessity in the business life of to-day, and what was formerly the common practice to appoint

[illegible] blanks and any [illegible] will be readily received, and on approval of the same by the Board of Directors, a Certificate of Stock for the number of shares subscribed for and allotted will be issued and mailed the shareholder forthwith. Do not fail to make application for the stock at once, as the Directors fully anticipate that, with such a very desirable investment the entire issue will be promptly subscribed.

Cheques, Drafts, Money Orders, or other remittances on account of stock subscriptions, should be made payable to The Imperial Canadian Trust Company.

THE IMPERIAL CANADIAN TRUST COMPANY

(Incorporated by Special Act of the Legislature of Manitoba)

HEAD OFFICE—WINNIPEG, MANITOBA, CANADA

APPLICATION FOR ORDINARY SHARES

To the Directors of The Imperial Canadian Trust Company:

I, ...

do hereby apply for ....

Ordinary Shares of the par value of One Hundred Dollars ($100.00) each, in the Capital Stock of the Imperial Canadian Trust Company, at the price of One Hundred and Fifteen Dollars ($115.00) per share, being at a premium of Fifteen Per Cent. (15%), and I do hereby request you to allot or transfer to me the said number of Shares and I hereby covenant and agree with the said, The Imperial Canadian Trust Company, to accept the Shares now applied for, or any lesser number that may be allotted or transferred to me, and to pay to said Company for such Shares, as follows: Twenty-five Dollars ($25.00) per Share on application, which shall include the said premium of Fifteen Dollars ($15.00) per Share, and the balance owing on the Shares, in ten consecutive half-yearly instalments of Nine Dollars ($9.00) per Share; the first of such half-yearly instalments to become due and payable six months from the date of allotment of said Shares.

I do hereby nominate, constitute and appoint the Manager and Secretary and Treasurer of The Imperial Canadian Trust Company, and each of them and the successor in office of any of them, my true and lawful Attorney, for me and in my name, place and stead, and on my behalf to sign and subscribe my name to the Subscribers' Agreement in the Stock Books of the said Company, for the aforesaid Shares in the within-named Company, and in accordance with the terms set forth in the Stock application, and to accept such Shares as may be allotted or transferred to me, and to register me therein as the holder of the said Shares.

It is my understanding that:

(a) Applications for Stock will be filed in the order received, and on approval of same by the Board of Directors, a Stock Certificate will be issued and mailed the Shareholder forthwith.

(b) The holder of these Shares will be paid the dividends that may be declared on the same from time to time by the Board of Directors. Dividends shall be declared and apportioned in proportion to the amount paid into the Company on the par value of the Shares.

(c) Instalments on Shares may be paid prior to due dates, and when all of such instalments have been paid, a fully paid Certificate will be issued to the holder of these Shares.

(d) These Certificates are transferable only on the Books of the Company by the owner in person, or by Attorney, on surrender of the Certificate of Stock, properly endorsed. Transfers shall not be valid unless approved by the Board of Directors.

DEBENTURES FOR SALE

ONTARIO.

Provincial Loan of $1,000,000.

THE GOVERNMENT OF THE PROVINCE OF ONTARIO, under the authority of Chapter 4, of the Statutes of Ontario, 1911, invites subscriptions from the public for a loan of $1,000,000 on bonds of the Province of Ontario, or "Ontario Government Stock."

The bonds will be dated 1st November, 1911, and payable on the 1st November, 1941, in denominations of $1,000 each, with coupons attached for interest at the rate of four per cent. per annum, payable half-yearly on the 1st May and 1st November in each year, at the office of the Provincial Treasurer, Toronto, or at the offices of the Bank of Montreal, in Montreal, Canada, and in New York, N.Y., at the holder's option. Bonds will be made payable to bearer, but on request will be registered in the office of the Provincial Treasurer and endorsed as payable only to the order of certain persons or corporations, and on request of holders will be exchanged for "Ontario Government Stock" at any time.

The issue price during the month of November, 1911, will be 102 for each $100, and after the 30th day of November, 1911, the issue price will be 102 and interest accrued from the 1st November, 1911.

ALL BONDS AND INSCRIBED STOCK ISSUED UNDER THE AUTHORITY OF THE SAID ACT ARE FREE FROM ALL PROVINCIAL TAXES, CHARGES, SUCCESSION DUTY AND IMPOSITIONS WHATSOEVER.

Purchasers of Stock or Bonds will be required to send certified cheque with the application, payable to the order of the "Provincial Treasurer of Ontario."

This loan is raised upon the credit of the Consolidated Revenue Fund of Ontario, and is chargeable thereupon.

A. J. MATHESON,
Provincial Treasurer.

Treasury Department, Parliament Buildings, Toronto,
1st November, 1911.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

DEBENTURES FOR SALE.

Sealed Tenders will be received up to December 9th, 1911, for the purchase of $6,000 School Debentures bearing interest at 4½ per cent. for 20 years. Divided into 20 annual payments of $461.25 (repayable). These Debentures are guaranteed by the Township of Normanby, County of Grey, and is the only liability. Township assessment $20,586.90.

NOVEMBER FIRE LOSSES.

Show Big Increase—Several Large Fires—Carelessness is Serious Factor in Death Loss.

The Monetary Times' estimate of Canada's fire losses during November amounted to $1,506,500, compared with $580,750 for October and $1,943,708 for the corresponding period last year.

The following is an estimate of the October losses:—

Fires exceeding $10,000	$1,222,000
Small fires	88,000
Fifteen per cent. for unreported fires.....	196,500
Total	$1,506,500

The following are the monthly totals compared with 1909 and 1910:

	1909.	1910.	1911.
January	$1,500,000	$1,275,246	$2,250,550
February	1,263,005	750,625	941,045
March	851,690	1,076,253	852,380
April	720,650	1,717,237	1,317,900
May	3,358,276	2,735,536	2,564,500
June	1,300,275	1,500,000	1,151,150
July	1,075,600	6,386,674	5,384,300
August	2,582,915	1,667,270	920,000
September	1,615,405	894,125	1,123,550
October	2,208,718	2,195,781	1,506,500
November	935,191	1,943,708	....
December	1,433,813	1,444,860	....
Total	$18,905,538	$23,593,315	$18,592,625

Many Large Fires.

There were twenty-seven fires at which the loss was $10,000 and over.

The fires at which damages of $10,000 and over occurred were as follows:—

Progresston, Ont.	Woolen mill	$ 10,000
Regina, Sask.	Warehouse	160,000
South Clinton, Ont......	Planing mills	10,000
Melville, Ont.	Evaporator, etc.	15,000
Pembroke, Ont.	Factory	35,000
Lachine, Que.	Gasoline launches, etc...	15,000
St. John, N.B.	Residence, etc.	12,000
Bethany, Ont.	Business block	20,000
Toronto, Ont.	Factory	10,000
London, Ont.	Business section	455,000
Port Haney, Man.	Store	25,000
Victoria, B.C.	Building	100,000
North Bay	Store	10,000
Ottawa, Ont.	Club house	35,000
Gretna, Man.	Business section	15,000
Halifax, N.S.	Stable, etc.	10,000
Winnipeg, Man.	Garage	11,000
Golden, B.C.	Business section	27,000
Belleville, Ont.	Business section	23,000
Harvey Junction, Que...	Mill	15,000
Ottawa, Ont.	Garage	10,000
St. Stephens, N.B.	Business section	50,000
Mattawa, Ont.	Hotel	12,000
Disraeli, Que.	Business block	75,000
St. Jerome, Que.	Convent	20,000
St. Thomas, Ont.	Packing plant	12,000
Quebec, P.Q.	Hotel	30,000
Total		$1,222,000

Structures Destroyed and Causes of Fire.

The following structures were destroyed or damaged: 24 stores, 21 residences, 12 barns and stables, 11 factories, 9 business sections, 4 hotels, 3 garages, 2 stations, 2 boathouses, and one each of the following: schoolhouse, church, printing office, slaughter house, evaporator, carriage shop, boiler-house, boathouse, golf club house, steamship, electric station, convent, packing plant, hotel.

The presumed causes of fire were: Five upset lamps, 3 incendiarism, 2 gasoline explosions, 2 careless smokers, 2 overheated stoves, 2 defective wiring, and one each of the following: Grinder ignited grass, sparks between chimney and wall, waste paper near radiator, crossed electric wires, spontaneous combustion, overturned lantern, overheated pipes, overheated gas stove. The origin of a large number of the fires which occurred during the month were reported as unknown.

The animals destroyed by fire were: 56 horses, 51 cows, and a large number of hogs and poultry. There were also destroyed 25 tons hay, 200 bushels of oats, 22 gasoline launches, 25 automobiles and 5 taxicabs.

The number of deaths from fire last month were 20 as compared with 17 for October and 19 for the corresponding period last year. Unfortunately, the number does not show any signs of diminishing.

DIVIDEND NOTICES

The Canadian Bank of Commerce

ANNUAL MEETING

The Annual General Meeting of the Shareholders of The Canadian Bank of Commerce for the election of directors and for other business will be held at its Banking House in Toronto on Tuesday, the 9th day of January next. The chair will be taken at twelve o'clock noon.

ALEXANDER LAIRD,
General Manager.

Toronto, 27th November, 1911.

The Royal Bank of Canada

DIVIDEND NO. 97

Notice is hereby given that a dividend of Three per cent. (being at the rate of twelve per cent. per annum) upon the paid up capital stock of this Bank has been declared for the current quarter, and will be payable at the Bank and its branches on and after Tuesday, the 2nd day of January next, to shareholders of record of 15th December.

By order of the Board.

E. L. PEASE,
General Manager.

Montreal, P.Q., November 14, 1911.

Continued on page 2337.

Mr. Charles Bright before the London Chamber of Commerce recently advocated the establishment of an independent strictly all British trans-Atlantic cable and land line connecting with the Imperial Pacific cable.

The response to the double liability call of the shareholders of the Ontario Bank, has been so successful that a return of between 20 and 30 per cent. of the amount is assured.

Ninety-five summons were sworn out by Mr. Wm. Greer, of the provincial police against Messrs. Chas. E. Ring, E. M. Carroll and Louis Gurofsky, of Toronto, charging with affecting contracts of insurance in companies not licensed to transact business in Ontario.

BANK FORGERIES AND BURGLARIES.

Mr. William J. Burns, head of the detective agency bearing his name, in his annual report to the American Bankers' Association, for which the agency acts, says that there has been no marked increase in the number of burglaries upon banks that are members of the association during the year ended August 31st, 1911.

He also says that the operations of forgers have not increased measurably, that the work of the agency has kept these men well within bounds, and that a majority of them have been caught and punished.

"The use of the automobile for getting away purposes is a factor that adds greatly to the difficulty of pursuit," says Mr. Burns, in speaking of burglaries. "The cutting of telephone and telegraph wires is now almost a conventional preliminary to the attack. Banks with well filled vaults in small towns where the street lights are shut down before midnight and the solitary watchman goes off post at 9 o'clock, where the railroad section house is always close at hand, with its convenient assortment of crowbars, sledgehammers and other tools, where the town blacksmith leaves his doors open nights in honest trustfulness—such banks should not wonder that they are quickly selected as easy objects by the keen-eyed advance agents of the yeggmen.

"As fashions change, so do the professional forgers," says Burns, regarding forgeries. "The printing press, the engraver's tools, and the rubber stamp have lately been employed effectively by these sharpers in carrying out their swindling operations; and perhaps never before have they been better equipped for a systematic campaign against the banks."

LATE JOHN F. DRYDEN.

Mr. John Fairfield Dryden, former United States senator, president of the Prudential Insurance Company and the "Father of Industrial Insurance," died last week at Newark, N.J. Mr. Dryden was born on a farm near Farmington, Me., on August 7, 1839, and was therefore 72 years of age at the time of his death. He was of New England ancestry. After a preliminary course in the schools of Massachusetts, where he moved when he was 7 years of age and in preparatory schools, he entered Yale University in 1861, when he was 22 years of age. Illness compelled him to leave college before his graduation and he never completed his full course.

But with the instinct of successful business methods Mr. Dryden soon commenced to forge to the front.

The subject of life insurance early engaged the attention of Mr. Dryden and for ten years or more he devoted his time to every branch of it, studying its principles, mastering the theory of finance, the construction of tables, averages, futurities and scientific monetary economy. About 1865 he obtained a report on the subject of industrial insurance submitted to the Massachusetts Legislature by Professor Elizur Wright, the State insurance commissioner, concerning the methods of the Prudential Industrial Company (Limited), of London, England.

Mr. Dryden procured all the reports of the company, analyzed them and this gave him the idea of formulating an industrial insurance system for the United States, so in 1873 he visited Newark, N.J., and interested such men as Messrs. Noah F. Blanchard, William H. Murphy, father of former Governor Franklin Murphy; Horace Alling, Leslie D. Ward and others.

After obtaining a charter from the New Jersey Legislature the beginning was made in the organization of "The Widows' and Orphans' Friendly Society," the name of which in 1875, was changed to "The Prudential Friendly Society." The original intent was to establish a workingmen's benefit institution, comprehending in its scope all of the most important contingencies affecting wage-earners' lives, that is, financial aid in the event of sickness, accident or death, and an annuity in old age. Subsequent experience proved that the time had not come for the practical realization of so ambitious an undertaking and when, in 1878, the name of The Prudential Friendly Society was changed to "The Prudential Insurance Company of America," the institution limited itself to the granting of insurance of sums payable at death.

From the beginning the undertaking had been strictly limited to wage-earners' insurance or industrial insurance on the weekly payment plan, with the premiums collected from the houses of the insured. For reasons inherent in the life and condition of those who earn weekly salaries or wages no other system of voluntary wage-earners' insurance had been successful, and it is doubtful whether a better plan could have been devised.

The success which has followed Mr. Dryden's efforts challenges admiration. On December 31, 1910, the Prudential had 8,957,170 industrial policies in force, while the aggregate for all the American Industrial Insurance Companies combined was 23,034,463 industrial policies insuring $3,177,047,874 of family protection.

4% allowed on deposits of $1 and upwards

5% allowed on debentures of $100 or over, issued for terms of from 3 to ten years

CAPITAL STOCK 7% INVESTMENT

The Company, having disposed of its Capital Stock some years ago, has, therefore, none for sale, but the stock may be purchased through the Toronto, Winnipeg and Vancouver Stock Exchanges, at prices ranging from $122 to $125 per share.

The last seven half-yearly dividends have been at the rate of **9 per cent. per annum,** so that, at the current prices, the **investment** will **net 7 per cent.**

The Company will be pleased to furnish prospective purchasers with its Financial Statement or other information bearing on the Company, and, if so desired, the Company will purchase the Stock for the investor through the Stock Exchange, or privately, at the current prices.

Since its inception the Company has enjoyed uninterrupted prosperity, and has taken a very active part in the development of the West. With the rapid growth of Western Canada, the demand for money is so great that the present profitable rates of interest will be maintained for years to come; and with such a desirable field for loaning operations, combined with a progressive management, the price of the Company's Stock should continue to advance, and with the prevailing high dividends, the Stock of this Company will undoubtedly be in great demand by those who desire a safe and profitable investment.

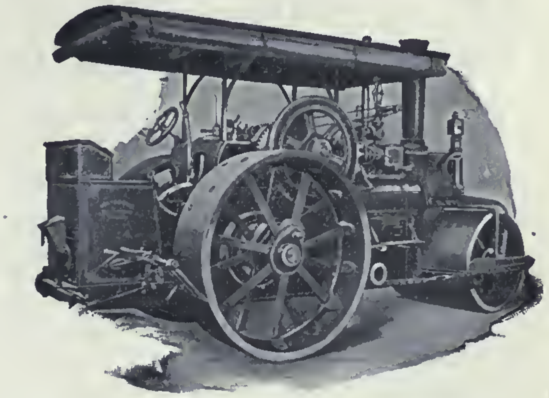
The Waterous
Double Cylinder
Steam Roller



Why we have sold more than thirty of these machines since January 1st.

The Waterous Roller is a road builder in every sense of the word. It can be used in every operation from driving the rock crusher, hauling road material, picking and plowing the old road, to the light, fast, finishing roll.

The twin-cylinder engine, with cranks set on the quarter, runs like a watch. No dead centres, no hanging up in a soft spot, no bucking on the reverse.

It is backed by a steady-steaming boiler, locomotive type, that produces more than enough steam for every working test. Throw off the governor and set it at a hill, and watch it take a 30% grade like an automobile.

Two speeds are supplied, which means fast and slow work under full steam pressure.

Outfit includes:—Rear draw bar, front clevis, driving pulley for rock crusher, full set of road picks, cylinder oil pump, and engine and boiler fittings second to none.

Ask the man on the machine.

LEGAL NOTICE

PUBLIC Notice is hereby given that under the First Part of Chapter 79 of the Revised Statutes of Canada, 1906, known as "The Companies Act," letters patent have been issued under the Seal of the Secretary of State of Canada, bearing date the 27th day of October, 1911, incorporating James Steller Lovell, accountant, William Bain, bookkeeper, Robert Gowans, Robert Musgrave Coates and William George Flood, solicitors' clerks, all of the City of Toronto, in the Province of Ontario, for the following purposes, viz:—(a) To carry on the business of general contractors and engineers; to construct, erect, execute, equip, improve, make, repair, raise or develop public works or conveniences of all kinds, including railways, tramways, roads, tunnels, harbors, docks, slips, shipping places, piers, jetties, wharves, quays, canals, reservoirs and embankments, and including the erection, repair or improvement of sewage, drainage, sanitary, water, gas, electric light, telephonic, telegraphic and power supply, plants, works, houses and stations; and to construct offices, warehouses and other buildings, public and private, and all other works or conveniences of public utility; (b) to manufacture, buy, sell and deal in iron and iron ore and steel and other ores and metals; to chase, lease or otherwise acquire any mines, mining rights and lands, and any interest therein, and to explore, work and develop the same; and to quarry, smelt, refine, dress, amalgamate and prepare for market ores, minerals and metals of all kinds; (c) To construct tunnels under contract with any railroad, corporation or corporations possessing the right to construct such tunnels, and to maintain and operate the tracks, sidings and switches therein, and to construct any works in connection with any such tunnels or with the railroads authorized to be constructed, maintained or operated through such tunnel or tunnels; (d) To acquire by purchase or otherwise and hold lands, timber limits or licenses, water lots, waterfalls, water privileges and concessions and powers and rights, and interests therein, and to build upon, develop, irrigate, cultivate, settle and otherwise improve and utilize the same, and to lease, sell and otherwise deal with, or dispose of the same; (e) To sink wells and shafts, and to make, build, construct, erect, lay down and maintain reservoirs, water works, cisterns, dams, culverts, main and other pipes and appliances, and to execute and do all other works and things necessary or convenient for obtaining, storing, selling, delivering, measuring and distributing water for the purposes of irrigation, and for the creation, maintenance and development of hydraulic, electrical or other mechanical power, or for any other purposes of the company; (f) To purchase, lease or acquire water powers and water privileges, and to develop therefrom any power, electrical or other energy, and to use the same in connection with the business of the company, and to transmit the same, and sell, lease or dispose of water powers and water privileges or power, and to enter into working arrangements with any other companies, persons, firms or corporations for the use thereof, and to establish, operate and maintain any lighting, heating or power plants, and to sell and dispose of light, heat and power, provided always that the rights and privileges hereby conferred upon the company to generate, sell and dispose of electric energy for light, heat and power when exercised outside of the property of the company shall be subject to all provincial and municipal laws and regulations in that behalf; (g) To manufacture and deal in logs, lumber, timber, wood, metal, and all articles into the manufacture of which wood or metal enters, and all kinds of natural products and by-products thereof, and goods, wares and merchandise; (h) To build, buy, sell, equip, operate and own steamships, steamboats, sailing vessels, barges and lighters, not as a common carrier, but as an incident to its business; to buy and sell, hold and operate wharves, water rights, powers, bulkheads and appurtenant property in such places as the business of the company may seem to require, or as may be necessary or convenient in connection therewith; (i) To manufacture or produce, purchase, take upon lease, or in exchange, or otherwise acquire, whether for any of the hereinfore mentioned purposes or not, machinery and plant of all kinds, and any other articles, products or things used in connection with any of the company's business, and to buy, sell, supply and deal in the same; (j) To apply for, purchase or otherwise acquire or obtain any contracts, decrees or concessions for or in relation to the construction, execution, carrying out, equipment, improvement, management, administration or control of public works and conveniences or otherwise incident to any of the objects herein specified, and to undertake, execute, carry out, dispose of, or otherwise turn to account, or sell or dispose of the same; (k) To sell, exchange or lease any real or personal property of the company, or any rights, easements, privileges or interest in, to, over, under or concerning the same; (l) To purchase or otherwise acquire any patents or patent rights, licenses, concessions and the like, conveying any exclusive or non-exclusive or limited right to use any invention which may seem capable of being used for any of the purposes of the company, or the acquisition of which may seem calculated directly or indirectly to benefit the company, and to use, exercise, develop or grant licenses in respect of, or otherwise turn to account the property and rights so acquired; (m) To purchase and otherwise acquire and undertake and assume all or any part of the assets, business, property, privileges, contracts, rights, obligations and liabilities of any person, firm or company carrying on any business which this company is authorized to carry on, or any business similar thereto, or possessed of property suitable for the purposes of this company's business, and to issue in payment or part payment for any property, rights, or privileges secured by the company, or for any guarantees of the company's bonds, or for services rendered, shares of the capital stock of the company, whether subscribed for or not, as fully paid and non-assessable, or bonds, debentures or other securities of the company; (n) From time to time to apply for, purchase or acquire by assignment, transfer or otherwise, and to exercise, carry out and enjoy any statute, ordinance, order, license, power, authority, franchise, concession, right or privilege which any government or authority supreme, municipal or

SIX PER CENT. BONDS

CANADIAN REAL ESTATE BOND CORPORATION SIX PER CENT BONDS

REAL ESTATE SECURITY

The Canadian Real Estate Bond Corporation offers for sale its ten-year six per cent. bonds. The bonds are offered and issued at par in denominations of $100, $500, and $1,000

They are a first lien upon all real estate and all other assets of the corporation.

The bonds, as well as all other assets of the corporation, are secured by the absolute ownership in fee of approved real estate in the city of Winnipeg and other Western Canadian cities, or by first mortgage upon such real estate.

The bonds mature in ten years. They have interest coupons attached payable semi-annually.

Send for prospectus and other information.

A WELL-KNOWN CONTRACTOR

writes to The Great-West Life:—

"I have Policies in three other Companies, and in making a comparison of all of these with the one I have just gotten in your Company I feel that the Great-West Life offers the best all-round proposition."

The amount of the Policy referred to was $27,500. Those who know the Great-West Policies best esteem them most.

The Investment Problem

"In what way can I assure myself of a steady income? How shall I invest my savings so that I may have the comforting knowledge that my investment is safe and that my income will be regular and assured?"

This is the question that many ask.

Write us to-day and our Investment Inquiries Department will give you the benefit of years of experience in the investigating and buying of securities for investors. The services of this department are freely and cheerfully offered to you. Don't hesitate to write, no matter whether you wish to invest $10, $100, $1,000, $10,000 or a larger amount.

Write to us.

NEED FOR A FINANCIAL HOUSECLEANING.

There are signs that in certain directions Canadian enthusiasm has overruled commonsense and regard for the strict maintenance of Canadian credit. The incidents concerned have been comparatively few, but sufficient in number to cause self-examination, self-admonition, and to create a resolve to mend ways which are not proving attractive or profitable at home or abroad.

The chief unsatisfactory feature in this situation is the inability of various industrial amalgamations to pay dividends on their heavy capitalization, or to show earnings approaching the optimistic estimates made in the prospectus which was offered to the investor at the time of consolidation. One prominent merger has defaulted on its bond interest. Another is likely to do so. A third has failed to declare the dividend on preferred stock. A fourth has earned, during its second year, half a million dollars less than the estimated earnings. These are serious matters, and will have two effects: first, an undermining of confidence in Canadian securities; and second, suspicion on the part of investors in connection with securities issued by mergers. Too often, consolidation of industrial enterprises has meant over-capitalization, counteracting difficulties of individual companies absorbed, making easy money for promoters, and almost invariably over-estimation of economies to be achieved from amalgamation. Although it has been said by President Taft that it is possible to conduct business under modern conditions without the crutch of combination, there are those who think otherwise. We shall, therefore, have more mergers and further issues of their securities to the public. The promoters may figure the following as certain factors in the situation:—

1.—More information than hitherto afforded as to the past history and actual earnings of companies absorbed, must be given in the prospectus.

2.—The investor must know what was paid for the properties acquired by the consolidated company, and whether the consideration was cash, stock, bonds, or all three.

3.—Greater discretion and conservatism must be used in estimating the economies likely to accrue from amalgamation.

4.—Capitalization must be based upon the cost of acquiring properties, real assets, a reasonable amount for future development, and legitimate profits to promoters.

5.—Capitalization should be such as to enable the predicted dividends to be paid even in times of moderate trade depression.

The second undesirable feature, and one which has a tendency to grow stronger, is unbridled speculation in land. Fortunately our banks act as a check in this direction. The past few months have witnessed the birth of innumerable land companies. These have been floated in every part of Canada, and a large number have found their way to England. Prospectuses have been issued forecasting enormous profits to shareholders, profits which may not easily be paid at any time and cannot be disbursed in bad times. Such times come every few years in every country. It looks as though the excitement of land speculation has gained such an impetus that many are no longer content to gamble with their own money. Through the medium of land companies, they are seeking the small investor's capital in order to swell the amount available for speculation.

There is no desire to belittle the legitimate increase in land values. There is a conservative appreciation of such values every year, in keeping with general progress and development. The rapidity of growth in existing cities and in towns and the building of new communities necessarily enhances real estate values. But the fact remains that some of these values have been forced beyond their proper point, and that wild speculation is being fostered and encouraged by various promoters. Mr. R. M. Horne Payne, at the meeting of the British Columbia Electric Railway in London last week, stated that that market is now inundated with wild Canadian proposals, especially in land and town properties. The same applies to Canada. It only requires the investor to exercise the greatest caution in order to freeze the stream of gushing offers.

The third unwelcome feature is the promotion of innumerable industrial and other companies in Canada which are undeserving of support. Several of these have been criticized in the columns of The Monetary Times during the past few weeks. The most common method is for a professional company promoter with an attractive scheme and with only the interests of his own bank account at heart, together with a glib stock salesman, to initiate a stock selling campaign. Extraordinary dividend promises are made, and unless the investor is accustomed to examine a prospectus, to delete the wanderings of a good imagination, and to get down to actual facts and prospects, he is likely to be led into helping to finance an enterprise which will never make good. With so many excellent sources of unbiased advice on investments, the day is passing when such promoters and stock salesmen should be allowed to fleece the investor.

The fourth factor, and perhaps the most important of all, is the thoughtless freedom with which well-known and respected public men in Canada allow their names to be used as founders or directors of companies, about the promoters of which they know little and about the prospects and probable conduct of which they know nothing.

It is not enough for a gentleman who values his good name to give his services as a director simply because he sees that another eminent public man has already done so. In many cases it has been proved that the first few prominent names have been used without permission or obtained by false pretences. If the investor is to consider good names on a directorate as an asset of a new company, he must know that the directors are familiar with the company's origin, promoters, business, management, conduct and prospects, and are willing to endorse the enterprise personally as sound and worthy of confidence. Otherwise, the investor will shortly refuse to consider as an investment attraction a list of well-known men as directors.

These matters all need attention, and are part of a necessary house-cleaning at home. In view of the wonderful development and prosperity of the Dominion, it is only natural that a few flaws should exist. In the interests of the British and foreign investor, and in the best interests of Canada, we must remedy the undesirable features noted. Mr. R. B. Angus, president of the Bank of Montreal, at its annual meeting on Monday, recalled that the money markets of Great Britain and the continent of Europe have taken freely of Canadian bonds and stocks. There was a brief interval of dullness, but that condition seems to have passed, and well-vouched-for securities are again in good demand. "There is ample room," said Mr. Angus, "for the employment of foreign capital in this rapidly developing country, and it becomes the more imperative that no issue having any taint or doubtful value should be submitted to the foreign investor."

ENLARGE THE WELLAND CANAL.

A perusal of the excellent reasons advanced by the influential deputation to the Dominion Government on Tuesday for a new or enlarged Welland Canal, creates astonishment that such an important project was not begun and completed years ago. Although this waterway is in Ontario, it plays an important part in the development of Western Canada, of Montreal and other Canadian ports, as well as of Ontario. Its proposed enlargement will effect two master strokes: the cheapening of Western grain rates and the counteracting of aggressive United States competition in the shipment of Western grain from the head of Lake Superior, competition to be made more strenuous by the improvement of the Erie Canal in New York State at an estimated cost of $100,000,000.

By deepening the Welland Canal so that the big lake vessels, which are now barred from that waterway, may use the canal, a saving in freight of two cents per bushel will be made in the transportation of the Western crop, an economy of several millions of dollars, based on the current year's yield. American competition in this matter has already become a serious question for Canada. Last year, even at the present high rates, one-third of the wheat and grain exports from Fort William and Port Arthur found an outlet at Buffalo. The new Erie Canal will necessarily capture almost the entire trade, unless the Welland waterway is enlarged. The advantages of the proposal were summarized as follows in the memorial presented to the government this week:—

> 1. The project has already been strongly endorsed by boards of trade and municipalities representing nearly all the important centres of Ontario.
>
> 2. An enlarged Welland Canal will reduce rates on grain shipments from the West, and will be a great leveller of freight rates generally.
>
> 3. It will settle the transportation question finally in Canada's favor.
>
> 4. It will reduce the through rate from Fort William to Montreal, and will enormously enhance the value of the Western crop.
>
> 5. The approaching completion of the Erie Canal enlargement makes a larger Welland Canal immediately imperative.
>
> 6. The time of transit between Lakes Erie and Ontario would be reduced from 18 to 6 hours.
>
> 7. No sane shipper would send grain through the enlarged Welland Canal, thence from Oswego to New York, as has been absurdly suggested.
>
> 8. Eastern and Western Canadian trade channels would be preserved and enlarged instead of American northern and southern routes.
>
> 9. Trade would be fostered through Canadian ports.
>
> 10. It would increase transportation facilities and relieve the freight congestion with which the railroads are unable to cope.

11. Lake Ontario ports would be opened to the full advantages of the trade of the other lakes.

12. The project will not involve heavy expenditure with doubtful advantages.

13. It will be a necessary link in a deep waterway to the sea, and one of permanent advantage in that respect if the Dominion Government ever handles the St. Lawrence River improvement as a national enterprise, and as a means of preventing exploitation of the river for power purposes by private parties.

14. It will afford at once the quickest, cheapest, and most practicable solution of the transportation problem.

It is interesting to know that considerable support for the enlargement of the Welland Canal has been received in Western Canada. We believe the Dominion Government will not hesitate to place a substantial amount in the estimates for this work. If begun now, it will be completed about the same time as the new Erie Canal. Otherwise,——.

"NO" TO TORONTO TUBES.

Despite certain inconveniences which the Toronto public suffer as the result of a cramped street railway service, that public will not recognize the expenditure and results of $5,000,000 on tube railways as relief. The subway project is costly without giving advantages correspondingly as large. It will serve only a small section of the community. It is the thin end of an expenditure of $23,000,000 for an elaborate tube system, which will be completed at a time when expropriation of the street railway company's franchise is possible. Conditions in Toronto are not favorable to the successful and remunerative operation of tube railways. The idea of tubes for Toronto appeals to civic pride, ambition and imagination, but not to the purse.

These two questions, among others, will be submitted to the Toronto ratepayers on New Year's Day. The Monetary Times has placed after each question the answer which is believed will be that of every thoughtful ratepayer who desires improved transportation facilities without the inauguration of fanciful schemes.

Question—Are you in favor of legislation being asked to permit the city to expropriate the Toronto Railway at a price to be fixed by arbitration, and submitted to the qualified ratepayers for approval? Answer—Yes.

Question—Will you authorize the City Council to expend the sum of $5,386,870 for an underground railway running from the corner of Bay and Front Streets northerly to the corner of St. Clair Avenue and Yonge Street? Answer—No.

GOOD ADVICE.

Some excellent advice, addressed to the citizens of Hamilton, but applicable equally to any city or town in like circumstances, appeared recently in the Hamilton Times.

Do not, says that journal in effect to its councillors and townsfolk, begrudge money enough to provide an ample supply of filtered water for Hamilton. Be sure to provide adequately for the future demands imposed by the growth of that city. Provide for bigger, better schools, libraries, police stations, fire stations. Lay the foundations properly; avoid the blunders of limited village notions, the wasting of money and the spoiling of an important job.

With a prescience that is none too common among the prominent dailies of the country, the Times' writer gives a valuable paragraph to revised building by-laws and the vast importance of care in construction to reduce the fire waste. This deserves to be quoted:—

"We spend much money in waterworks and fire protection, and we pay a big tribute annually for fire insurance. The quality of the building will count in that bill. Take the uptown district. The owner of a business building goes to great trouble and expense to get a modern fireproof roof. Perhaps his near neighbors do not pay as much heed to such matters, and roof with shingles. The careful, permanent builder cannot exert any influence to prevent his use of shingles, and the result is that the man who at considerable cost, and to the city's advantage, made his own roof of fire-resisting materials, finds that after all his care and outlay he is deprived of the profit of that investment by his neighbor's failure to live up to the standard. That neighbor's near-by shingle roof is made the excuse of the insurance underwriters for penalizing by a higher rate the owner of the building with a thoroughly good roof."

CONDITIONS IN CANADA.

The first review of general conditions in Canada during the year which is closing was given at the Bank of Montreal's annual meeting this week by its president, Mr. R. B. Angus. He reminded us that the country has enjoyed a period of great prosperity in almost every department of trade and commerce, and has undoubtedly added to its permanent and productive wealth. Although this has been more marked in British Columbia and the prairie provinces, Ontario, Quebec and the maritime provinces have not failed to participate.

Some interesting crop figures from a capable and well-informed source were given by Mr. Angus. The estimate of the Western wheat crop is given by that authority as about 180,000,000 bushels. While the quality this year, as a whole, is not all that could be desired, the average prices being paid for the lower grades are even better than the prices obtainable in many previous years for the higher grades, and consequently the net cash returns will be the largest ever obtained from our North-West.

When considering the effect of the wheat crop in relation to its influence on the prosperity of our Dominion, the value of the other cereals produced in our North-West must not be overlooked. If we accept the present estimates of the various important grains, which are as follows:—

	Bushels.
Wheat	180,000,000
Oats	200,000,000
Barley	35,000,000
Flax	7,000,000

the cash value to the farmer, at the average prices prevailing to-day, would be approximately over $235,000,000, no inconsiderable sum, considering that this is exclusive of the farmers' receipts from various other sources, such as live stock, hay, root crops and dairy products.

While we are inclined to think that the wheat crop will be several million bushels less than 180,000,000, there is no doubt that the higher prices for the low grades will compensate for losses in the production of high grades.

Mr. Angus drew attention to the important factors creating active industrial conditions. British and foreign capital has been invested freely in the Dominion, the stream of immigration continues, and railroad construction is proceeding apace. Ready-made farms, he says, cannot be supplied fast enough to meet the wants of would-be settlers. We would prefer that Mr. Angus should not place emphasis upon the statement that railway enterprise is being followed by large land-holders and capitalists of Great Britain, who, from patriotic motives in some instances, are making such investments. We are inclined to believe that the primary reasons are that such investments are good business, and are made in one of the most attractive investment fields in the world. Incidentally, patriotism may figure.

Dealing particularly with the industrial position, Mr. Angus stated that manufacturers have been fully occupied, and that new industries of every description are being created in every part of the Dominion. The iron and hardware trade and groceries are decidedly good. A large and profitable business in boots and shoes has been transacted notwithstanding the high price of leather. The dry goods trade was somewhat unsatisfactory, stocks being heavy and demand light in the spring, this being largely a legacy of the previous year. Improvement is being made with much better prospects. Woolen and worsted manufacturers suffered from the competition of foreign imports, English goods intended for the over-stocked American market being sold here. The full address of Mr. Angus, printed on another page, deserves careful perusal, giving as it does a concise review of things as they are. The resignation of Sir Edward Clouston as general manager is also referred to elsewhere.

SMALL CHANGE.

Dynamite is not an asset of capital or labor. Cooperation is.

* * * *

The Postmaster-General has forwarded his report to the Governor-General, whose title occupies thirteen lines. The letter transmitting the document is written in three lines. Such are the penalties of honors.

* * * *

The present freight congestion is serious. The result of a recent inquiry shows that car shortage exists at 143 points in Manitoba and Saskatchewan, and that at 57 of these points business is almost at a standstill owing to the non-movement of grain. A prominent shipper tells The Monetary Times that, despite appeals to the chief executives of one of the railroads to assist in getting a shipment to Vancouver to catch a boat for the Orient, his cars with others were held in the congestion, the vessel sailing to the Far East without his consignment. That incident will mean the loss of a good customer. The suggestion that the railroad companies should keep a public car order book is a good one.

* * * *

Of great importance to the mining industry in Kootenay is the discovery of the new metal, Canadium, hitherto unknown to science. It was first noticed by Mr. A. G. French last spring in the platinum-bearing ores of the Kootenay district. After he had ascertained the qualities of the metal he announced its discovery, naming it in honor of the Dominion. It belongs to the platinum group, having qualities that make it valuable commercially. As it is present in Kootenay in large quantities, the discovery will mean much to the mining industry there. Canadium was found first during experiments at the Granite and Poorman mine, then at Shannon Creek, and afterwards on the south side of the west arm of Kootenay Lake, as well as in the dyke rocks in the Nelson district. The pure metal occurs in semi-crystalline grains and in short rods about half a millimetre long, one-tenth of a millimetre thick. When burnished it is brighter than silver or any of the white metals.

OF THE WESTERN CROPS.

As pointed out in The Monetary Times recently, the Western wheat crop was disappointing from several viewpoints. On the other hand, we must not overlook the fact that the crop of 1911 was the largest ever grown in Western Canada. Last year Manitoba, Saskatchewan and Alberta raised 120,000,000 bushels; in 1908, 107,000,000; in 1905, 82,000,000; in 1901, 63,000,000. The estimate of the Dominion Government statisticians of the current year's crop is 180,000,000. While later events may reduce this by several million bushels, the fact remains that the present year will have produced the largest wheat crop in the history of Canada.

Much has been said as to the low grading of the wheat but figures almost to date show that shipments are ahead of last year, and that Wheat, Nos. 1, 2, and 3, is making a fairly good showing. The following figures give the number of cars of wheat inspected at Winnipeg from July 1st, 1911, to November 21st, 1911. About 1,000 bushels represent a carload.

This year.		**Last year,**	
Nos. 1, 2 and 3,	4 and under,	Nos. 1, 2 and 3,	4 and under,
29,369	22,288	37,629	8,276
Total,		**Total,**	
51,657		45,905	

The total number of cars shipped in the period July 1st, to November 21st, this year, was 51,000 against 46,000 last year. This year, 29,000 cars graded Nos. 1, 2, and 3, against 37,000 cars last year. In view of the weather conditions prevailing during growing and harvest time, this is a creditable record.

Another favorable feature is the high price being received for the crop, especially for the lower grades. Altogether, while our early anticipations were not realized, the Canadian West may feel that it has done its best in wheat production, despite adverse climatical conditions.

WESTERN CANADA.

Business is Active—Railroad Extensions—In the Wheat Markets.

Monetary Times Office,
Winnipeg, December 5th.

The holiday season is opening in a satisfactory manner and has been marked by fine, but timely, weather. Business is good in Winnipeg, and generally throughout the West, although at some points the farmers are being hampered in getting their crop marketed on account of a shortage of cars.

The weather has been favorable during the past week for threshing, and from reports received, operations are advanced in many sections where farmers had been caught with a large proportion of their crop out in the stook. Manitoba has been favored to a great extent by having better weather for threshing, and by having a smaller proportion of it still to be done.

Wheat receipt figures show that even though the winter has started in unusually early, and the weather somewhat unsatisfactory, it has not prevented the forwarding of the crop in greater quantity than last year. The totals to November 30th, are 44,515,000 bushels of wheat, and 9,268,000 of other grains, as against 37,556,000 bushels of wheat and 9,559,000 bushels of other grains to the same date last year.

Railroads Are Busy Extending.

The Grand Trunk Pacific road has built ninety-eight new stations during the year to date, and has twenty-seven more under construction, that will be finished before December 31st. The Canadian Northern has been busy extending its lines all over the system. Steel is laid to a point 61 miles west of Sudbury-Port Arthur division of the Canadian Northern Railway, and a daily passenger service is being run to this point, with freight service three times a week; 3,500 men will be engaged on this section throughout the winter. Steel laying on the last section of the Athabasca Landing line of the Canadian Northern Railway commenced on November 11th at Stoney Creek, 58 miles north of Edmonton. An exceptionally large number of men and teams are being contracted on this stretch and if steel laying is carried forward without any hindrances it should reach the Landing by December 15th.

The car shortage that is being experienced by farmers and grain shippers in many parts of the West, has been a serious thing for the districts that are suffering. It affects business in every branch, making it impossible for farmers and merchants to meet obligations.

Threshing has been unusually late this year, and the exceptional necessity of moving large quantities of coal, on account of the shortage caused by the strike in the western mines, has to a considerable extent deranged the normal movement of traffic. No doubt the conditions thus created are, as the railway officials assert, quite unprecedented.

The railway companies should have prepared themselves to grapple more effectively with the difficulties thus developing. They should not have allowed unusual conditions to have such a disabling effect upon them. Foresight and increased energy on their part might have prevented, to some extent, the bad tie-up in freight traffic that they now have on their hands.

The equipment of the railways is undoubtedly better and more extensive than in any previous season, but the amount of work to be attended to is also much heavier than in any past season.

A New Financial Firm.

The Hall Company, Limited, is the name of a new firm of bankers and brokers who have opened large offices in Winnipeg in the Great West Life Building. Mr. E. E. Hall is the president of the new company, Mr. L. F. Button, vice-president, and Mr. G. A. Mantle, secretary. The Hall Company, Limited, has a paid-up capital of $200,000, and a surplus of $200,000, and will carry on a general financial business. They have extensive land holdings in the Outlook, Elbow, and Hanley districts in Saskatchewan, and have branch offices at the first two-named places. They own and operate a private railroad car which is used for colonizing purposes. Mr. Hall has been in Canada for a number of years, and previous to coming here was president of the First National Bank, of Hartley, Iowa. The company will open a stock and bond department shortly.

The Wheat Market.

Attention centres around the outcome of the Argentine crop, and it had been considered for some time that if the crop there arrived at harvest time without any serious cutting down of the crop prospect, that prices were bound to decline heavily, first in Europe, and then in America.

Harvest has begun in the north of Argentine, and during the last two weeks reports have come that all is not right with the earliest part of the crop. Rain and threatening weather and rust damage is unfavorable to a normal yield, but so far there is no decided report of any large loss in yield. Nevertheless, the expectation of this year's Argentine crop is that although considerably larger than last year's, it will not produce for export more than 25,000,000 bushels more than is being exported in 1911, and that the excess over exports of this year will be counteracted by the shortage in Australia, and that the two countries together will not export to Europe in 1912 more wheat than they will do in 1911.

The Winnipeg market continues to show a good healthy trade. Weather over the West has been fine and moderate during the last week, and movement of wheat comparatively large. Demand for all grades of spot wheat is keen, and the movement eastward from Fort William is immense.

The capital stock of the Baie St. Paul Lumber Company, Limited, has been increased from $175,000 to $350,000.

SHAWINIGAN WATER AND POWER COMPANY.

Will Make Debenture Issue—Canadian Northern Railway Purchase Hotel—Montreal Harbor Improvements.

Monetary Times Office,
Montreal, December 6th.

The Shawinigan Water & Power Company is to issue $500,000 more of 4½ per cent. debenture stock. This will bring the total issue up to $5,000,000, which is also the amount of the authorized common stock of the company. The shareholders will meet on December 27th, to ratify the issue and to decide at what price it shall be offered.

The Shawinigan is now said to be the biggest hydraulic power company in Canada. It is understood to have an actual hydraulic power development of 180,000 horse-power. This does not mean that the various penstocks, generators and necessary machinery have been installed, or that the 180,000 horse-power is available. To begin with, 50,000 of the total amount is available to local firms as water power, and not as electrical power. The company has been delivering 55,000 horse-power from its original power house. This included 23,000 horse-power contracted for by the Montreal Light, Heat & Power Company. Some months ago this company contracted for 40,000 additional horse-power. The company decided to carry out the development necessary by adding 75,000 horse-power to the available water power, and to construct a power house for the installation of the necessary machinery.

Shawinigan is situated about midway between Montreal and Quebec, and about twenty-five miles from Three Rivers. The original contract with the Montreal Light, Heat & Power Company for 23,000 horse-power was placed at about $14 or $15 per horse-power, thus demonstrating the claim that the company has one of the cheapest and most efficient power developments in Canada.

The earnings of the present year will unfortunately not be affected by the development which has recently been completed, but those for 1912 will show a large increase.

Canadian Northern Railway Purchase Hotel.

Another real estate transaction, having considerable significance in connection with the plans of the Canadian Northern Railway, took place in Montreal during the past week. This was the sale of the Turkish Bath Hotel to the Canadian Northern Railway, for $350,000. The hotel in question occupies an admirable site, for any of the purposes for which the railway may require it.

The Turkish Bath Hotel property has been serving the purposes of a hotel since 1869. No further reliable news has been heard regarding the probable means to be adopted by the Canadian Northern for obtaining access to the site.

Montreal Harbor Improvements.

Some two million dollars are to be spent in the improvement of the Montreal harbor next season. Work will be started with a view to providing sufficient new piers to furnish space for the docking of fourteen ocean-going vessels. The piers will be of the high level type, and of concrete. The sheds to be constructed will also be of the permanent and fireproof character.

The piers which are now to be added will be mainly in the east end of the city.

Between the second section and the upper portion of the harbor is a very swift portion of the river known as St. Mary's current. The current here runs so strongly that at times it is considerable inconvenience and of danger to vessels. It is proposed to lessen the force of this current by increasing the width of the channel to 1,200 feet, the present width being 600 feet. While the actual expenditure on harbor improvements during the coming season may be covered by the two million dollars, the plan of improvements begun will involve the expenditure of a much larger sum.

At a recent meeting of the shareholders of the Canadian Venezuelan Ore Company, Limited, the following directors were elected:—Mr. F. P. Jones, president; Sir William Van Horne, vice-president; Sir Max Aitken, Mr. G. M. Bosworth, Mr. H. S. Holt, Mr. A. K. McLean, M.P., Mr. G. Fred. Pearson, Mr. John D. Patterson, Mr. W. D. Ross. Mr. F. P. Jones was formerly general manager of the Dominion Iron & Steel Company, and at present occupies a similar position in the Canada Cement Company. He states that nearly all the machinery is now on the ground and that the company expects to begin shipping ore early next year. The ore is of first quality and will find a ready market in the United States, Canada, Great Britain, and Germany. The company has had a diamond drill at work on the property for a year past, and a large deposit of high grade Bessemer ore, which can be economically mined, has been located.

MONTREAL TRAMWAYS DEAL.

Shareholders May Disregard Cash Offer—Basis of the Transaction.

Monetary Times Office,
Montreal, December 6th.

The exchange of the Montreal Street Railway shares for the debentures, cash and common stock of the Montreal Tramways Company, is in progress. Upwards of $9,000,000 has been received from Boston, being sent up in shipments of gold to the Merchants' Bank the acting banker in the matter. For some time Montreal has been anxiously regarding the terms of the exchange, and the completion of the deal.

Whenever the financial stringency has been referred to, it seemed to be natural to remark that as soon as the Street Railway deal was completed, money would be considerably easier. It so happens that this is not the case, money being at the moment firmer than for many months past. The probabilities are, that it would have been very much firmer than it is, had it not been for the distribution of considerable quantities of money among shareholders this week.

May Disregard Cash Offer.

During the week, it is estimated that more than 75 per cent., or 75,000 shares, of Street Railway stock have been turned in for exchange. Of these, by far the greater portion elected to accept the original offer of the Tramways Company, to give $87.75 in cash, $160 in 5 per cent. debenture stock and $20 in common stock for each share of Street Railway. Some 15 per cent. of the total shares may disregard the cash offer and accept $250 in debentures and the $20 in common stock instead. There may be considerable delay in turning in the remaining 25,000 shares of Street Railway stock for exchange.

It will be interesting to see how, on the above basis, the exchange will be made. It may be remembered that Messrs. N. W. Harris & Company advertised $10,445,000 bonds for sale, a natural assumption from which being that the Tramways Company may have issued a round lot of $10,500,000. It was stated that the bonds were sold to Messrs. Harris & Company at approximately 95 per cent. of par, so that the total amount received for these bonds would be about $9,975,000.

The Basis of the Transaction.

On the above basis the situation would work out as follows for the Tramway Company:—

	Debentures, 5%.	Common stock.	Cash.
15,000 shares exchanged for	$3,750,000	$300 000	$.........
85,000 shares exchanged for	13,600,000	1,700,000	7,458,750
Tramway Company issue in exchange for $100,000 Street Railway shares...	$17,350,000	$2,000,000	$7,458,750

Received from sale of bonds as above....	$9,975,000
Paid to Street Railway shareholders	7,458,750
Balance going to treasury	$2,516,250

The interest account of the Montreal Street Railway last year amounted to $185,097, which was an increase of $9,666 as compared with the previous year. Although the railway has now a total general surplus of $2,735,000, the interest account would seem to indicate that a considerable amount of financing was requisite.

Assuming that this is the case, the company should be in a considerably easier position because of the balance remaining in the treasury as shown above. Either that or it will have this much extra funds to apply to other equally advantageous purposes.

◆

As liquidators of the York County Loan, the National Trust Company, Toronto, have sent out 102,000 checks to persons now residing all over the world, some having been directed to China, Japan, Australia, France and Sweden, whither shareholders have returned from their temporary homes in Canada. The amount of the dividend was $741,000, and the immense mass of postal matter required over $1,500 in postage. There are still several thousand shareholders who have never turned in their books, and who, consequently, received nothing. There is some $150,000 reserved for them in case their books turn up.

NEW BRUNSWICK.

(Staff Correspondence.)

Saint John, New Brunswick, 5th December.

Wholesale trade in New Brunswick during November was better than in October. The demand for lumberman's supplies is smaller this year than for some years past, but in other directions conditions are normal. The great demand in Quebec and Ontario for New Brunswick potatoes at higher than ordinary prices, has continued, and has yielded large profits to the farmers. The volume of Christmas trade promises to be large.

The winter steamship season at St. John has opened well, with steamers of the Canadian Pacific Railway, the Allan and Donaldson lines in port, and those of other lines on the way. There will be sailings to South Africa and Australia this season as usual, in addition to the lines to British and Continental ports. Leading officials of the Canadian Pacific Railway and Allan lines say that they expect a larger business, both in freight and passengers, than that of last winter, when the value of the exports alone was close to $25,000,000. The Intercolonial Railway will handle more grain and general freight this season than last.

Premier Flemming has made an important statement concerning the Valley Railway, from St. John to Grand Falls, to be operated as part of the Intercolonial and connecting with the Grand Trunk Pacific. He says the contract for its construction will be signed very soon, as complete arrangements have been made between the Provincial and Federal Governments. It is intimated that freight from the West, coming over the Grand Trunk Pacific, will reach St. John over the Valley Railway. Its construction next year will mean large expenditure in wages and for materials.

Premier Flemming, Messrs. John Gibson of Benton, Charles Rogers of Woodstock, and others, have bought for $30,000 the mill and timber property of Gibson Brothers, of Northampton, York county. They will improve the waterpower and operate the mill.

The city council of St. John has agreed to grant a fifty years' franchise to the New Brunswick Hydro-Electric Company, to deliver light and power from Lepreaux. The company agree to maximum rates lower than those now in effect in the city. Legislation must be secured before the agreement goes into effect.

There will be 10,000,000 feet of logs hauled over a short section to the mills this winter for Messrs. Donald Fraser & Sons.

The Canadian Northern Railway has asked the New Brunswick Government to aid in placing on the land one thousand immigrants, which it proposes to bring to the province next year.

The fine new power plant of the town of Campbellton has been successfully set in operation.—W. E. A.

ECHOES OF THE SOVEREIGN BANK FAILURE.

An order has been made by Master in Chambers Cartwright, Toronto, for the consolidation of eight actions regarding claims in connection with the liquidation of the Sovereign Bank. One action is to be proceeded with, and the results of the others will be determined by it. The suits were brought by Archibald Campbell, W. K. McNaught, Albert E. Dyment, and Donald McMillan, against the Sovereign Bank and the International Assets, Limited, and by the International Assets, Limited, against the four directors, who are plaintiffs in the other actions. The point at issue is explained by the Master in Chambers in his judgment:—

"The directors, either personally, or on behalf of the bank, were interested in some dealings with the stock of the Penman Company. As a result of these 100 shares of the preferred and 856 of the common were transferred to the directors and afterwards by them assigned to the bank. They now claim that these shares were their personal property, and that it was on this assumption that they subscribed for the International Assets stock. On the other hand, it is contended that these shares were always the property of the bank and represented the profit arising from its assistance in dealings with the Penman Company stock."

◆

The Canadian Appraisal Company, Limited, of Montreal, have issued a booklet containing the names of their clients throughout the Dominion. The valuations which they make include physical assets of every kind, stock-in-trade, raw materials and goods in process of manufacture being alone excepted. Their certificate, in conjunction with the certificate of profits and liquid assets prepared by leading firms of chartered accountants, furnishes a complete verification of a company's assets.

REVIEW OF THE MONTH

SPECULATIVE AND INVESTMENT OFFERINGS.

The following speculative and investment offerings were among those made in Canada during October:—

Saskatoon Gas and Oil Company, Limited.—Shares at 50 cents.

Edmonton Portland Cement Company, Limited.—Offering of shares at $110.

Point Grey Municipality, B.C.—£241,470 4½ per cent. consolidated debenture stock at 99½.

Montreal Tramways Company, Montreal.—$10,445,000 first and refunding mortgage 5 per cent. gold bonds.

Walch Lands, Limited, Winnipeg.—Offering of shares at par. Capital, $100,000, divided into 1,000 shares of $100 each.

Bonnie-Brae Coal & Quarries, Limited, Calgary.—100,000 shares at 25 cents per share, par value. Capital, $250,000.

Slocan Star Mines, Limited.—100,000 shares of treasury stock at 50 cents per share. Capital, $2,500,000; par value of shares, $1.

Caledonian Realties, Limited.—$100,000 6 per cent. 20-year first mortgage gold bonds at par. This is part of $400,000 issue.

Western Canada Flour Mills Company, Limited.—$750,000 6 per cent. first and refunding mortgage 20-year sinking fund gold bonds.

Western Canada Fire Insurance Company, Calgary.—Offering of shares at par value, $100. Capital, $1,000,000; subscribed, $325,000.

Vancouver Free Homes, Limited, Vancouver.—2,000 ordinary shares of $100 each, and 500 7 per cent. preference shares of $100 each.

Canada West Securities Corporation Limited, Calgary.—Offering of a limited amount of stock. Capital, $250,000 in 2,500 shares of $100 each.

Transportation Building Company, Limited, Montreal.—7 per cent. preference stock at $100 per share, with bonus of 40 per cent. common stock.

Spanish River Pulp and Paper Mills, Limited.—7 per cent. cumulative participating preferred stock at par, with 20 per cent. bonus of common stock.

Land Traction Company, Limited, and Alberta Electric Railway, Calgary.—0,994 "A" share of 25 each at par of the Land Traction Company; 900 30-year bonds of the Alberta Electric Railway at $500 each.

◆

CANADIAN FLOTATIONS IN LONDON (NOVEMBER).

The following flotations of interest to Canadians were made in London during November:—

City of Lethbridge.—£90,740 4½ per cent. debentures at 103.

City of Moose Jaw.—£89,200 sterling 4½ per cent. debentures at par.

The North Coast Land Company, Limited.—£150,000 5 per cent. debentures at 98.

The Dominion Western Land Corporation, Limited.—£100,000 shares of £1 each at par.

Liverpool Western Canada Land Company, Limited.—£50,000 ordinary share of £1 at par.

Dryden Timber Power Company, of Ontario.—£150,000 6 per cent. 1st mortgage bonds at 95.

City of North Vancouver, B.C.—£130,500 4½ per cent. local improvement debentures at 99½.

Winnipeg Paint and Glass Company.—£82,305 7 per cent. cumulative preferred shares at par.

The Grand Trunk Railway Company, of Canada.—£1,250,000 4 per cent. guaranteed stock at 92.

Mexican Light and Power Company, Limited.—£1,000,000 5 per cent. second mortgage 50-year bonds at 87.

The Mexican Light and Power Company, Limited.—£1,000,000 5 per cent. second mortgage 50-year bonds, at 87.

Canadian Western Natural Gas, Light, Heat and Power Company.—£811,643 5 per cent. first mortgage debentures at 90.

The Canadian Northern Pacific Railway Company.—£1,438,356 first mortgage 4 per cent. guaranteed debenture stock at 99.

The following flotation was omitted from the October list:—

Alberta Land Company, Limited.—£200,000 5 per cent. debenture stock at 95.

BANK BRANCHES OPENED AND CLOSED DURING NOVEMBER.

Twenty-three branches of Canadian chartered banks were opened during November and 7 closed. During October, 28 were opened and 4 closed; during September, 19 were opened and two closed; during August, 16 were opened and 5 closed; during July, 18 were opened and 3 closed; during June, 25 were opened and 3 closed; during May, 29 were opened and 3 closed; during April, 17 were opened and 3 closed; during March, 18 were opened and 3 closed; during February, 17 were opened and 10 closed; during January, 37 were opened and 3 closed. Houston's Bank Directory gives the following particulars for November:—

Branches Opened.

Alix, Alta.	Quebec Bank.
Avonlea, Sask.	Bank of Ottawa.
Blackfalds, Alta.	Royal Bank of Canada.

◆

DIVIDEND CHANGES.

The Smart Bag Company declared a dividend of 1¾ per cent. on the preferred stock, payable December 1st, to shareholders of record November 27th.

The British Columbia Packers' Association increased their dividend in November from 2 to 3 per cent. for the half year.

The Huron & Erie Loan and Savings Company have declared a quarterly dividend of 2½ per cent. with a bonus of 1 per cent., payable January 2nd.

The dividend of the Richelieu and Ontario Navigation Company has been changed from six to eight per cent. per annum.

The Acadia Fire Insurance Company declared a dividend of 25 per cent. in November.

The Northern Crown Bank increased their dividend from 5 to 6 per cent.

The Temiskaming Mining Company have passed their quarterly dividend of 3 per cent.

NEW STOCK LISTINGS.

The Montreal Stock Exchange listed the following securities of Messrs. Tooke Brothers, Limited:—6,000 shares common stock; 8,000 shares preferred stock..

The Canadian Cottons, Limited, 5 per cent. first and refunding mortgage bonds were listed on the Montreal Exchange.

The following securities of the Smart Bag Company, Limited, were listed on the Montreal Stock Exchange:—4,500 shares common; 6,000 shares preferred stock.

RAILROAD AND COMPANY EARNINGS.

The following are the railroad earnings or the week ended November 30th:—

	1910.	1911.	Increase or decrease
C. P. Ry.	$2,768,000	$3,194,000	+ $426,000
G. T. Ry.	1,132,674	1,233,062	+ 100,388
C. N. Ry.	465,200	568,500	+ 103,300
T. & N. O.	36,570	57,874	+ 21,303

The following are the railroad earnings for November:—

	1910.	1911.	Increase or decrease.
C. P. Ry.	$9,249,000	$10,399,000	+ $1,150,000
G. T. Ry.	3,845,640	4,101,244	+ 255,604
C. N. Ry.	1,565,400	2,001,500	+ 436,100
T. & N. O.	110,349	174,174	+ 63,825

The Canadian Pacific traffic returns for October are:—Gross earnings, $11,207,992; working expenses, $6,526,887; net profits, $4,681,105. In October, 1910, net profits were $4,505,161, and for four months ending October 31, 1911, figures are as follows:—Gross earnings, $41,340,800; working expenses, $24,963,649; net profits, $16,377,151. For the four months ending October 31, 1910, there was a net profit of $15,593,052. The increase in net profits over the same period last year is, therefore, for October, $175,944, and for the four months ended October 31, there was an increase of $784,099.

Statement of earnings and operating expenses of Canadian Northern Railway for October and the first four months of the fiscal year:—

	1911.	Increase.
Gross earnings	$2,028,900	$401,100
Expenses	1,348,500	301,200
Net earnings	680,400	99,900
Mileage in operation	3,731	427

From July 1, 1911, to October 31, 1911:—

		Agg. Inc.
Gross earnings	$6,501,800	$1,276,000
Expenses	4,725,700	1,072,800
Net earnings	1,776,100	203,200
Mileage in operation	*3,717	418

---

*Average.

Comparative statement of earnings and expenses of Montreal Street Railway Company for month of October (interest on bonds of M.P. & I. Railway and M.T. Railway companies owned by this company not included):—

	1910.	1911.	Increase. Amount.	Increase. P.C.
Passenger earnings	$372,487.35	$426,116.76	$53,629.41	14.40
Miscellaneous earnings	14,200.31	16,275.99	2,075.68	14.62

Taxes	4,000.00	5,000.00	1,000.00	25.00
Total charges	$ 31,998.01	$35,696.72	$3,698.71	11.56
Surplus	$148,939.59	$174,494.13	$25,554.54	17.16
Expenses P.C. of earnings	53.21	52.49	....	*72

---

*Decrease.

The following are the farm land sales of the Canada North West Land Company, Limited, for November:—

For Nov., 1911	4,167.02	acres for	$63,271.00
Against " 1910	7,442.82	"	84,610.90
December	2,275.80	December	21,339.90
From Jan. 1 to Nov. 30, 1911	41,608.26	acres for	$581,254.12
Against " 1910	58,277.77	"	713,151.37
December	16,669.51	December	131,897.25

Outputs from all departments of the Nova Scotia Steel and Coal Company for November were:—Coal mined, November, 77,587; October, 75,531; pig iron made, November, 7,170; October, 7,258; steel ingots, November, 7,433; October, 5,453; billets cogged, November, 7,694; October, 6,456; bars and plate rolled, November, 5,702; October, 4,817.

◆

THE QUEBEC BANK.

The ninety-fourth annual statement of the Quebec Bank shows that excellent progress has been made during the past year. The profits amounted to $276,391, which with $50,580 carried forward from last year showed $326,972, available for distribution, as follows:—Dividends, $175,000; pension fund, $5,000; branch premises, $24,689; transferred to contingent account, $100,000; leaving a balance of $22,283 carried forward to the credit of profit and loss account.

The total assets amounted to $20,498,584, while the liabilities to the public were $16,680,069, and to stockholders, $3,818,514.

Domestic call loans show $2,977,140, and foreign call loans, $1,100,000, while current loans and discounts amounted to $10,489,883. Deposits not bearing interest totalled $3,620,427, and deposits bearing interest, $10,178,503.

The statement is satisfactory and reflects credit on the management of the bank.

◆

FROM COAST TO COAST.

The London Stock Exchange has listed £1,250,000 Grand Trunk Railway 4's, City of Toronto £243,000 4's, and £20,340 Canada Car & Foundry 6's.

The Canadian Bank of Commerce will erect a building at the corner of Granville Street and Sixth Avenue, Vancouver, to cost $30,000.

The Heaps Engineering Company, Limited, has been incorporated. It is empowered to build any kind of a vehicle, including locomotives, rolling stock, etc. Mr. Heaps left recently for England.

Mr. James Scott, of Winnipeg, and Mr. J. S. Evans, secretary of the Winnipeg Real Estate Exchange, were at the Coast last week, discussing the establishment of real estate exchanges in Vancouver and Victoria. The ultimate object is to have exchanges in all the principal western cities.

The Empire Loan Company, of Winnipeg, are meeting with success, and are having a liberal response from their debenture issue, offered in the Old Country by their agents over there. The fall investment period opens in the old land about the middle of November, and Mr. C. M. Simpson, manager of the Empire Loan Company, expects a large amount of money to come in from this source before the end of the year.

The Royal Bank of Canada has bought the north-east corner lot at the intersection of Granville and Robson Streets, Vancouver, paying $250,000 therefor. This makes a new record for Granville Street property, the price per front foot being $5,000.

Canadian and other concession holders in Mexico read with some uneasiness the warning in the Financial Times this week that the Mexican administration considers itself under an obligation to scrutinize closely the later acts of ex-President Diaz's Government, and extensive enquiries are now on foot with a view of readjustments where found necessary. Intending purchasers of Mexican concessions are advised to await the result of these Government enquiries.

NEW INCORPORATIONS.

Seventy-Eight Companies Were Chartered—Seven are Large Concerns.

During the past week seventy-eight companies, with a total capitalization of $20,699,500, were incorporated. British Columbia chartered 34 of the companies, Ontario 26, Manitoba 10, Quebec 6, New Brunswick 2.

The Crescent Mining Company, Winnipeg, and the Oyster Harbor Collieries, Vancouver, were the largest companies to be granted charters, each heing capitalized at $3,000,000.

Other large incorporations were:—Land Corporation of Ontario, Toronto, $2,500,000; Teck Swastika Gold Mines, Toronto, $2,500,000; Nasmith's, Toronto, $1,000,000; Universal Motor Company of Canada, Fort William, $1,000,000, and Alice Arm Mohawk Mines, Prince Rupert, B.C., $1,000,000.

The following is a list of charters granted during the past week. The head office of each company is situate in the town, city or province mentioned at the beginning of each paragraph. The persons named are provisional directors.

Kamloops, B.C.—Seymour Apartments, $75,000.

Kelowna, B.C.—Hewetson & Mantle, $75,000.

Port Moody, B.C.—Port Moody Building & Trading Company, $10,000.

Galt, Ont.—Galt Opera House Company, $40,000; F. S. Scott, E. J. Getty, W. H. Chamberlain.

St. Thomas, Ont.—Regal Flour Mills, $500,000; E. A. Smith, W. L. Wickett, A. M. Hutchison.

London, Ont.—Harding Motor Car Company, $100,000; F. T. Harding, F. C. Harding, J. M. Gunn.

Hamilton, Ont.—Graham Land Company, $10,000; W. W. Currier, H. D. Petrie, E. O. Knischewsky.

Sault Ste. Marie, Ont.—Soo Hardware, $40,000; C. J. McLaughlin, W. J. McCallum, Miss I. B. Lynn.

Grimsby, Ont.—Grimsby Recreation Company, $40,000; J. A. Livingston, W. F. Randall, J. M. Lawrie.

Hull, Que.—Gatineau Spar Milling Company, $150,000; P. M. Cote, A. Leblanc, J. M. Cote, all of Ottawa.

Prince Rupert, B.C.—Alice Arm Mohawk Mines, $1,000,000. Tsimpsean Investment Syndicate, $200,000.

Kingston, Ont.—Kingston Mica & Phosphate Company, $500,000; A. Chadwick, L. J. Linton, P. C. Lawson.

Shoal Lake, Man.—Shoal Lake Masonic Temple Company, $10,000; A. Leishman, D. C. Fleming, J. R. Stalker.

Parry Sound, Ont.—Parry Sound Wood Turning Company, $20,000; W. J. Brown, W. J. Smith, J. Waddell, Sr.

St. Stephen, N.B.—Dominion Fertilizer Company, $25,000; N. M. Mills, L. F. Mills, St. Stephen; M. Eckhert, Buffalo.

Fort William, Ont.—Universal Motor Company of Canada, $1,000,000; P. A. Balcom, Denver; C. Clark, Grand Junction, Col.

Collingwood, Ont.—People's Co-Operative Association of Collingwood, $10,000; E. H. Hinkley, C. A. Miller, D. P. McCormick.

Forest Glen, N.B.—Colpitts Mining & Supply Company, $20,000; S .L. Colpitts, Forest Glen; H. A. Wheaton, Havanna; W. T. Colpitts, Forest Glen.

Ottawa, Ont.—delaRonde, $100,000; S. E. delaRonde, Sr., S. E. delaRonde, Jr., E. H. Capp. Ottawa Hockey Association, $50,000; M. Rosenthal, P. J. Baskerville,. N. C. Sparks.

Brantford, Ont.—Brantford Oven & Rack Company, $50,000; E. L. Goold, E. L. Cockshutt, E. Sweet. Brantford Cold Storage Company, $40,000; A. Snider, C. Snider, E. Cutmore.

Victoria, B.C.—Ward Investment Company, $25,000. Alberni Fruit-lands, $100,000. Fraser Lake Water & Power Company, $25,000. Beckett, Major & Company, $10,000. British Investments, $200,000. Victoria Opera House Company, $250,000. Fort George Investment Company, $12,500. Crescent Shipping Company, $50,000. Real Estate Exchange, $5,000.

Montreal, Que.—Uno-Rail System, $100,000; J. Moller, D. J. Stewart, B. J. Forrest. Alliance Bond Company, $25,000; E. M. McDougall, J. J. Creelman, A. P. Graves. Gibb & Company, $50,000; C. A. Duclos, Westmount; W. L. Bond, J. E. Coulin, Montreal. Security Trust, $100,000; J. M. Z. D'Aoust, L. J. A. Pare, J. E. Valentine. Anglo-Canadian Agencies, $10,000; G. A. Grant, R. H. Simonds, G. H. Park.

Winnipeg, Man.—Argyle Land Company, $100,000; H. A. Burbidge, D. L. Basredo, R. C. McPherson, A. H. Andrews. Crescent Mining Company, $3,000,000; D. D. Young, J. L. Nelson, H. Howat. Winnipeg Electric Water Heating Company, $50,000; J. D. Sinclair, G. A. Glines, V. G. Williams, M.D. Lombard Investment Company, $100,000; F. W. Louthood, J. B. Crepau, R. B. S. Jenkins. Tailor Fit Company, $100,000; J. McNeil, R. J. McLean, T. B. Garland. Port Arthur Land & Development Company, $20,000; R. F. Whyte, E. L. MacLean, J. A. Legrand. Theo. A. Burrows Lumber Company, $500,000; F. W. Louthood, F. Carlisle, W. J. Chalk. Loyal Order of Moose; W. G. Stark, O. J. McIntosh, G. A. Berry. Bishop Construction Company, $10,000; J. Bishop, H. Bristow, A. E. Holmes.

Vancouver, B.C.—Dominion Midway, $200,000. Canada Post Publishing Company, $15,000. Hazelton & Skeena Valley Land Company, $100,000. Salmon River Mining & Smelting Company, $250,000. Oyster Harbor Collieries, $3,000,000. Whatshan Lake Land Company, $60,000. National Homebuilders, $100,000. Gardiner Fisheries, $50,000. Heaps Engineering Company, $500,000. Vancouver Equipment Company, $10,000. South Vancouver Lumber Company, $50,000. Electrical Construction Company, $75,000. British North American Construction Company, $100,000. Central Plateau, $75,000. Palmer, Burmester & Von Graevenitz, $100,000. Ogden Gold Mining Company of Lightning Creek, $150,000. English Woolen Mills, $2,000. Hillman Lumber Company, $10,000. Guaranty Trust Company, $250,000. London & Dominion Financial Corporation, $250,000.

Toronto, Ont.—Land Corporation of Ontario, $2,500,000; S. C. Smoke, W. C. Chisholm, J. G. Smith. Macdonald Contracting Company, $40,000; W. R. Macdonald, F. M. Macdonald, G. H. Kilmer. Anglo-Canadian Realty Company, $40,000; Misses M. Leckie, L. Riley, E. Glen. W. H. Kilby, $40,000; P. B. Wood, E. T. Coatsworth, A. H. McCrimmon. Wilkie Townsite Realty Company, $100,000; W. H. Irving, H. H. Davis, J. R. Rumball. Butwell Brick Company, $75,000; H. Butwell, C. Butwell, R. Butwell. Metropolitan Securities Corporation, $50,000; W. C. Macneill, H. F. Petman, J. L. Graham. Purchase Realty Company, $50,000; P. Patterson, N. D. Foulds, J. J. Carroll. Ruthenian National Society; J. Jaworski, H. Sukota, J. Durdella. Teck Swastika Gold Mines, $2,500,000; J. E. Day, J. M. Ferguson, E. V. O'Sullivan. James Edwards & Company, $50,000; J. Edwards, Jr.; G. Jones, S. F. McMorran. Nasmiths, $1,000,000; R. D. Moorhead, R. L. Johnston, J. E. Anderson.

PRINCIPLES OF INSURANCE.

There are few books written on life insurance which are suitable for the class room or as an aid to the student. Practically all the literature is confined to special aspects of the subject. Therefore "Principles of insurance," by Mr. W. F. Gephart, Ph.D., assistant professor of economics, Ohio State University, will be welcomed. The volume is primarily intended for the student and the general reader who desires definite information about insurance.

The author has given a concise discussion of the leading principles and practices underlying life insurance and the closely related personal health and accident insurance together with a discussion of the plans of insurance for the wage-earning classes. A second volume discussing Property Insurance and the Miscellaneous Lines may be issued as a companion book at a later date. "The Principles of Insurance" will make an excellent text book for those who desire to thoroughly understand this complex and interesting subject.

"Principles of Insurance," by W. F. Gephart, Ph.D., price $1.60, published by The MacMillan Company of Canada, Limited, Toronto.

The Eadie-Douglas, Limited, have increased their capital stock from $100,000 to $150,000.

A petition has been filed with the Minister of Justice at Ottawa by Messrs. John T. Moss, K.C., of Toronto, and Hector MacInnes, K.C., of Halifax, solicitor for the Alberta and Great Waterways Railway and the Royal Bank, in which disallowance is asked of the Act of the Alberta Legislature cancelling the agreement for the construction of the railway. Disallowance is asked on the ground that the Act involves confiscation and is also a violation of the Bank Act, inasmuch as it directs the Royal Bank, a Federally chartered institution, to hand over the bond money. About $7,000,000 is involved.

PULPWOOD PRODUCTION OF CANADA.

Quebec Province Leads in Consumption—Mechanical Process Greatly Used.

There were fifty-one pulp mills in Canada in 1910, and these used 598,487 cords of wood. In addition to this, 943,141 cords of pulpwood were exported in an unmanufactured state. For the first time, imports of pulpwood were reported; these were valued at $49,322.

Over 95 per cent. of the Canadian mills cut the pulpwood used by them from their own limits. The total value of the pulpwood used was $3,585,154, the average value being thus $6 per cord. From this pulpwood 474,604 tons of pulp were produced.

The total quantity of pulpwood used was 23,642 cords (3.8 per cent.) less in 1910 than in 1909, but owing to a higher average price, the value of the pulpwood was $121,074 greater than in 1909. There was in 1910 also a striking increase in the amount of pulp produced per cord of wood, the average amount being about 145 pounds greater per cord of wood than in 1909.

Quebec Leads in Pulpwood.

Quebec easily leads the other provinces in the consumption of pulpwood. It has practically half the mills in Canada (25 out of 51), and these consumed 57 per cent. of the total amount of pulpwood used in Canada. Ontario, with 15 mills, consumed over one-third of the total amount. Nova Scotia ranks third for 1910 in the consumption of pulpwood with 29,606 tons to its credit, and New Brunswick used 15,134 cords of wood, little more than one-sixth as much as in 1909.

In the Province of Quebec the average price of pulpwood per cord fell to the extent of 35 cents per cord, but in all the other provinces, except British Columbia, the price increased, that increase amounting in the case of Ontario to $1.30 per cord; the 1910 price for pulpwood in Ontario was $7.02 per cord. The cheapest pulpwood in the Dominion was purchased in Nova Scotia at $3 per cord.

Spruce is still far in the lead as a pulping wood; it furnishes over three quarters of the total pulpwood consumption, or 78.6 per cent. Balsam fir is steadily increasing in importance as a pulpwood. In 1910 twenty per cent. of the total consumption was of this species. The quantities of poplar and hemlock were each about six-tenths of one per cent. of the total. Hemlock was reported as a pulping wood for the first time in 1909, and in 1910 was used to a greater extent than poplar. Jack pine has not been reported as a pulpwood for the last two years.

The cost of pulpwood varies very greatly, some big mill-owners having all their own limits and the cost to them being merely the carrying cost of their limit with transportation charges added. Other manufacturers have to buy in the open market, and add transportation charges to this price. Spruce was the most expensive species at $6.05 per cord, an increase of sixty-four cents over the 1909 price. Balsam fir fell fifty-five cents, the average price being $5.71 per cord. The price of hemlock was practically the same, and poplar increased eleven cents during the year.

The Quebec consumption was made up as follows:—Spruce, 70 per cent.; balsam fir, 28 per cent.; and the rest hemlock and poplar. Nova Scotia also cut these four species, but Ontario used only spruce, poplar and balsam fir, and New Brunswick and British Columbia used spruce only.

Mechanical Process Greatly Used.

Almost four-fifths of the pulpwood manufactured in Canada in 1910 was manufactured by the mechanical process, one-fifth by the sulphite process, and only 2 per cent. by the soda process. Quebec leads in manufacturing mechanical pulp, but Ontario produces the greatest quantity of sulphite pulp. Quebec makes over three quarters of the pulp made by the soda process.

Spruce is used in all three processes, and leads in all. Balsam fir is used only in the mechanical and sulphite processes in nearly equal quantities. Eighty-four per cent. of the hemlock was manufactured by the soda process and poplar by the sulphite and soda processes. Nova Scotia used only the mechanical process and a small quantity only of sulphite and soda pulp was produced in New Brunswick.

Amount of Pulp Produced.

The average amount of pulp produced per cord of wood by the mechanical process during the year was 1,908 pounds, while the sulphite process gave 997 pounds of pulp per cord, and the soda process 987 pounds of pulp per cord. Seventy per cent. of the wood used in the sulphite mills was spruce and 29 per cent. of balsam fir. Spruce, poplar and hemlock were used in the soda process.

The Ontario pulp mills have the highest average consumption, viz.: nearly 14,037 cords per mill. The average consumption per mill in Quebec was 13,710 cords, in Nova Scotia 4,934 cords and in New Brunswick 3,783 cords. For the whole Dominion the average consumption per mill was 11,735 cords.

The export of pulpwood from Canada is steadily growing greater—an unfortunate fact, as the wood would yield greatly increased returns if manufactured in Canada. While pulpwood production was less in Canada during 1910 than in 1909, exports of wood-pulp increased by 48,233 tons, an increase of some 6 per cent. Eighty-eight per cent. of the export was mechanical pulp, while only 78 per cent. of the pulp manufactured in Canada was mechanical. The export of chemical pulp also shows an increase.

Average Value per Ton.

The average value per ton of the pulp exported in 1910 was $14.67 for mechanical pulp, and $36.35 for the chemical pulp. This is an increase of seventy cents over the 1909 price for mechanical pulp, but the price of chemical pulp has decreased $2.64. The average price for all wood-pulp exported was $17.31, or fourteen cents less per ton than the 1909 price.

Of the wood-pulp exported during 1910, three-quarters went to the United States, this country taking 74.3 per cent. of the mechanical pulp and over 99 per cent. of the chemical pulp exported. Exports to other countries decreased.

All the pulpwood exported in an unmanufactured state went to the United States.

Pulpwood in Canada.

About 4,000 cords more wood were cut for pulp in Canada in 1909 than in 1910. The total quantity of pulpwood cut in Canada was 1,541,628 cords, and of this over three-fifths was exported. The amount paid for this wood exported was $6,210,042. If this wood had been manufactured into pulp in Canada the amount received for it, at the average prices paid in 1910 by the United States importers of wood-pulp, would have been $13,528,481—over twice as much as was received for the pulpwood.

The pulpwood exported from Quebec, it is calculated, was sufficient to supply material for a year to fifty-six pulp mills of the average size of those operating in the province. Ontario's export would have kept running five mills of the average size of those operating in that province, while, had the 90,000 cords shipped from New Brunswick been manufactured in that province, twenty-four mills of the average size could have been kept running, and five times the number of mills operating there would have been busy.

CHRISTMAS FIRE PRECAUTIONS.

With the approach of Christmas when stores are decorated, the following precautions against fire, issued by Mr. Aleide Chausse, building inspector, Montreal, should be kept in mind:—

All available exits, whether regularly used as such or not, should be kept in readiness for the use of every person in a store. They should be plainly marked and illuminated with red lights. A clear space of at least ten feet should be maintained between all exits and the nearest counter, or show case, located in an aisle. The practice of having show cases on the sidewalk just outside of any of the entrances, should be abandoned during the holidays.

Special exhibits and similar displays that insolve the use of inflammable materials, or artificial light or heat, should not be allowed until the arrangement has been approved by the underwriters or the fire marshal.

Strict orders be given to allow no accumulations of waste material to remain in a building all night.

Any extension of lighting and heating systems, made necessary by the holiday season, should be made only in accordance with underwriters' requirements, or those of the fire marshal.

Smoking should be strictly prohibited, and large signs to that effect be placed in conspicuous places.

Nothing can be done to check a fire before the arrival of the firemen unless there be near at hand, and in adequate quantity, suitable apparatus for putting out incipient fires. The value of private apparatus always depends on its condition when needed. If there is none, a good supply of portable appliances of reliable makes should be provided at once.

It would be better to provide extra fire appliances where needed near special exhibits and window displays, than to remove apparatus from any other part of the store, even temporarily.

ENLARGEMENT OF WELLAND CANAL.

Deputation to Ottawa This Week Give Strong Reasons for Immediate Action.

An influential deputation urged upon the Dominion Government this week the vital necessity of enlarging the Welland Canal. It was pointed out in the convincing memorial presented, that the proposed deepening of that waterway or the building of a new Welland Canal would not only cheapen the cost of transportation from the western grain fields, thereby enhancing the value of the crop to its growers, but would also reduce freight charges to Western Canada from the East during the season of navigation. The season on the Welland waterway is longer than on any existing Canadian canal.

A grain rate can be made from Fort William to Montreal against which the Buffalo-New York rate cannot compete. The comparison is made from Buffalo or Port Colborne to New York or Montreal, as the grain will reach either Buffalo or Port Colborne at the foot of Lake Erie for the same rate.

Canada Can Beat the American Rate.

From Buffalo to New York, there is, say, a rail rate of 4 cents. For one-half cent added to the Fort William to Port Colborne rate the grain can be carried from Port Colborne to Kingston, or Prescott via the enlarged Welland Canal. One-half cent is a fair proportion to allow on the basis of average rates to Port Colborne, and also considering the proportion of time required to pass through a modern Welland Canal and down Lake Ontario, to unload and to return through the canal. Adding to this ½ cent a rate of 1½ cents for barge down the St. Lawrence to Montreal, we have a rate of 2 cents to compare with the rate of 4 cents by way of Buffalo. A river or barge rate of not more than 1½ cents is a fair one to estimate as the barge rate of an existing company, without competition, is now 1⅞ cents on wheat. No mention is made of terminal charges at either New York or Montreal, as the Dominion Government controls the Montreal Harbor Commission and the Government can at least regulate the charges at Montreal so that they will not be greater than those at New York.

If the existing heavy tonnage and the larger boats being built every year (both Canadian and American) are carried to the foot of deep water navigation at the eastern end of Lake Ontario, and the long haul of the big cargo to that point is permitted with a cheapened, or even the present river rate, to Montreal, the rate question will be settled in Canada's favor.

Will Reduce Through Rate Fort William to Montreal.

At present, the through rate, from Fort William to Montreal, varies from 5 to 6 cents at the opening to 5, 6 or 7 cents at the close of navigation, touching as low as 3½ cents at midsummer. The minimum summer rate does not pay boats of present tonnage. This minimum and unremunerative rate will become, however, with a larger Welland Canal, the maximum and profitable rate, as it is the sum of a maximum Fort William to Port Colborne rate of 1½ cents and ½ cent plus 1½ cents from there to Montreal. By setting the respective spring and autumn rates against each other, a saving of two or three cents is shown.

If the Welland Canal and the facilities at Montreal are kept up to requirements, the Canadian route will provide great advantages to the grain fields of the West, and therefore to the whole country—advantages in themselves enough to warrant the immediate undertaking of the work.

The deeper Welland Canal will open Lake Ontario, now sealed to the heavy tonnage of the Upper Lakes, such as coal, ore, etc. This will be an important factor in lowering prices on coal carried from Lake Erie ports to Lake Ontario, or on freight of any kind carried westward.

Immediate Action is Imperative.

The time to enlarge the Welland Canal is now, as within less than four years the Erie Canal improvements will be completed at an estimated cost of $100,000,000. While to-day, barges carrying only 240 tons can use the Erie Canal, its enlargement will allow barges carrying 2,600 tons (locks 45 feet wide and over 300 feet long) to utilize that waterway. Although five competing railroad lines are operating from Buffalo to the seaboard at New York, the Government of New York State has deemed it a wise and profitable policy to expend an enormous sum with a view to cheapening transportation to the East.

The completion of the Erie Canal improvements will, it is estimated by the New York State Government, reduce the freight rates on that route by one-third to one-half, thus resulting in the diversion of even a greater proportion of the Canadian western crop to Buffalo. Last year, even at the present high rates, one-third of the wheat and grain exports from Fort William and Port Arthur found an outlet at Buffalo. Unless the Welland Canal is enlarged as proposed, the new Erie Canal, with the advantages noted above, will necessarily capture practically the entire trade.

If the work is started immediately, the enlargement of the Welland Canal can be completed at about the same time as the Erie Canal enlargement is finished. Otherwise, the Erie Canal route will divert still further business from the Canadian West to Buffalo and New York, and once such an impetus is given in that direction it will be difficult, if not almost impossible, to regain the trade.

Will Enhance the Value of the Western Crop.

The deeper Welland waterway will enhance the value of the western crop, by savings in freight rates, on the present basis of production from between $3,000,000 to $4,000,000 annually, which would more than pay the interest charges on the cost of enlarging the canal. If the ratio of development during the next ten years should be as great as in the past decade, that amount may be increased to at least from $10,000,000 to $20,000,000 annually. It is fair to allow such an increase in view of the facts that two new transcontinental roads will shortly be in operation and that only 6 per cent. of the arable lands in Western Canada are under cultivation.

The suggested deepening of the Welland Canal will shorten the time of transit between Lake Erie and Lake Ontario. The present average for loaded boats in traversing the Welland Canal is from 16 to 18 hours. This time would be cut to 6 hours.

Shipments From Oswego an Absurd Theory.

It has been suggested that western grain going through the Welland Canal to Lake Ontario might still be diverted to the ocean port of New York from Oswego. That is absurd, as grain then at the eastern end of Lake Ontario would be within very short distance of Montreal port, compared with nearly three times the distance to New York, via Oswego, besides which no sane shipper would take such a route to New York, but would ship from Fort William and Port Arthur to that port via Buffalo. The fact that the grain which now goes to Buffalo would come into Lake Ontario, would give an opportunity to handle most of it via Montreal, otherwise it would all go to Buffalo, as considerable is going at present.

One of the chief arguments used during the recent discussion of the proposed reciprocity agreement was the absolute necessity of preserving and creating new trade channels east and west instead of north and south. The existing inadequate facilities of the Welland Canal are directing trade north and south, while a deeper Welland Canal would maintain and enlarge commerce east and west for all time.

Foster Trade Through Canadian Ports.

The enlarged Welland Canal would foster trade through Canadian ports. During eleven years, 1900 to 1910, merchandise to the value of $359,000,000 was received from Canada by the United States for transhipment to foreign countries.

A large sum has been expended in equipping the port of Montreal and a considerable additional sum will be expended. The Welland Canal should be acting not only as an important, but also as the chief feeder to the port of Montreal, Quebec and other Canadian ports, and will do so when enlarged. Under existing conditions, much of the trade which should be going from the head of Lake Superior to Montreal and other Canadian ports, is now going to Buffalo.

The inability of the railroad companies to handle freight without congestion, as at present exists in Winnipeg, Montreal and other important centres, would to a considerable measure be obviated by increasing the water transportation facilities, and these an enlarged Welland Canal would afford the country.

The project has been endorsed by ninety-nine boards of trade and municipalities.

◆

INDUSTRIAL ACCIDENTS IN OCTOBER.

Industrial accidents occurring to 344 individual workpeople in Canada during October, were reported to the Department of Labor. Of these, 101 were fatal and 243 resulted in serious injuries. In addition seven fatal accidents were reported as having taken place prior to the beginning of the month, information not having been received by the Department before October.

In the preceding month there were fifty-eight fatal and 122 non-fatal accidents reported, a total of 180, and in October, 1910, there were 115 fatal and 295 non-fatal accidents, a total of 390. The number of fatal accidents reported in October, 1911, was, therefore, forty-three more than in the preceding month, and fourteen less than in October, 1910. The number of non-fatal accidents reported in October was 121 more than in the preceding month, and thirty-two less than in October, 1910. Altogether there were 164 industrial accidents reported in October, 1911, more than in the preceding month, and forty-six less than in the same month of the preceding year.

Of 275 returns received during the month giving the ages of the victims of industrial accidents, forty referred to persons under twenty-one years of age, 100 to persons between twenty-one and forty-five, and thirty-three to persons over forty-five; 102 persons were over twenty-one years of age, but their exact ages were not specified.

PETROLEUM PRODUCTION OF ONTARIO.

General Decrease Noticeable—Number of Wells Have Been Abandoned.

The yield of petroleum in Ontario again fell off markedly last year; indeed, the decrease in production which has been going on for a number of years has reduced the annual output to less than one-third that of 20 years ago. From the Department of Trade and Commerce, Ottawa, it is learned that the quantity of crude petroleum produced in Ontario of which returns were made for purposes of the bounty amounting to 1½ cents per gallon paid by the Dominion Government, was 11,004,357 Imperial gallons. Mr. W. J. Harvey, Supervisor of Crude Petroleum Bounties, Petrolea, furnishes a statement of the output by districts, as follows:—

	Bbls.	Gals.
Lambton	205,456	1
Tilbury	63,057	21
Bothwell	36,998	19
Dutton	7,751	21
Onondaga (Brant Co.)	1,005	3
Leamington	141	12
Total	314,410	7

Decrease Not Confined to One Field.

The decline has not been confined to any one field, but is general, though more noticeable in the newer Tilbury and Leamington districts than in the older Lambton field. The following comparative statement of production by districts shows how the diminution in yield has been going on during the last five years:

Field	1908	1909	1910
Lambton	265,368	243,123	205,456
Tilbury and Romney	201,283	124,003	63,058
Bothwell	39,228	38,092	36,999
Leamington	9,334	5,929	141
Dutton	13,743	9,513	7,752
Thamesville	......	......	......
Comber	......	......	......
Onondaga (Brant Co.)	......	......	1,005
Total	528,959	420,660	314,410

In the Lambton field the production declined between 1906 and 1910 45.5 per cent.; in Tilbury-Romney the decline from the maximum output in 1907 was 84.6 per cent.; in Bothwell the drop from 1906 was 17.7 per cent.; in Leamington production has practically ceased, and in Dutton the decline was at the rate of 60 per cent. The only offset to this rapid decrease, which if continued will bring total exhaustion within sight, is the strike made last year in the Township of Onondaga, near Brantford, where oil was found in the white Medina sandstone, the yield from two wells in 1909 being 1,005 barrels. The oil is of a superior quality, and brought a price of $1.29 per barrel at the close of the year. The average price for Petrolea crude during the year was $1.23 per barrel, and for Tilbury, $1.06. On this basis, the value of the total crude production was $368,153.

Output of Domestic Crude Inadequate.

The output of domestic crude being quite inadequate to meet the requirements of refiners, the deficiency is being made up by imports from the oil fields of the United States. The quantity of Canadian crude oil distilled in the refineries of the Province last year was 13,758,170 gallons, and of imported crude 17,227,262 gallons. In the following table are given details of the operations carried on by the oil-refining works, of which there are two, the Imperial Oil Company, Sarnia, and the Canadian Oil Companies, Limited, Petrolea:—

Schedule.		1908	1909.	1910.
Crude produced	...Imp. gal.	18,479,547	14,723,105	11,004,357
Crude distilled	...Imp. gal.	34,675,120	35,530,918	36,171,033
Value crude produced	$	703,773	559,478	368,153
Value distilled products	$	2,347,680	2,501,384	2,511,368
Illuminating oil	Imp. gal.	17,604,920	17,902,254	18,983,357
Lubricating oil	"	3,384,940	3,856,778	4,469,038
Benzine and naphtha	"	3,667,997	3,930,691	4,297,615
Gas, fuel oils & tar	"	4,461,186	4,687,588	5,876,498
Paraffin wax, candles,	lbs.	5,400,003	7,092,278	5,179,391
Workmen employed ..	No.	430	436	428
Wages paid	$	247,829	261,014	280,485

Number of Wells Abandoned.

Mr. John Scott, Inspector of oil and gas wells, reports that during the year 1910 there were abandoned in the Petrolea field 194 oil wells, in the Tilbury field 148, in Raleigh 8, and in Romney 5, a total of 355 wells. In addition to the foregoing there are in the Petrolea district 649 oil wells from which the pumps have been removed (the wells not being abandoned), but which are being baled with fairly good results in many cases. No doubt some of these will be abandoned later. The repairing of defective oil wells and the proper plugging of abandoned ones have much improved the conditions in the fields of Lambton county. Many of the wells that remain are doing better and are more satisfactory in operation. No apparent benefit has been noted to the remaining wells in the Tilbury fields. There have been no important extensions to any of the various oil fields. The total production of crude oil has decreased, chiefly owing to the failure of the new fields at Tilbury and Romney, which appear to be about pumped out, and have to date proved very disappointing.

Mr. Scott's experience leads him to the conclusion that by taking good care of the wells, and regularly adding a few new ones, the production in the older fields may be maintained.

ST. ANTHONY MINE.

The St. Anthony Mine, Sturgeon Lake, Ont., operated by the Northern Gold Reef, Limited, is making excellent progress as a gold producer. The property is being handled by a syndicate of prominent mining men. Mr. Arthur A. Cole, the well-known and conservative mining engineer of the Temiskaming and Northern Ontario Railway, examined and reported on their property. The conclusions arrived at by Mr. Cole were as follows: "Taking into consideration the ore at present blocked out above the 100 foot level, the probability of the extension of the ore chutes both north and south on further development, the probability of a large tonnage of good ore being opened up below the 100 foot level as indicated by the development work already done below that level, and the assays of the ore in the floor of the 100 foot level drifts, and the possibility of locating pay ore in the east and west veins, I consider the St. Anthony Mine a splendid property, having excellent chances for returning large profits on careful development, and certainly fully warranting the expenditure necessary for the installation of a larger and up-to-date development plant, and the carrying out of a thorough exploration scheme as laid out by your present manager, Mr. J. C. Houston."

There will be no public offering of stock.

NEWS ITEMS.

The Royal Bank of Canada has opened a branch at Ciego de Avila, Cuba.

The capital stock of the Baie St. Paul Lumber Company, Limited, has been increased from $175,000 to $350,000.

That the recent fire in the Star Spring and Bed Company's premises at Montreal was of incendiary origin was evidenced by the discovery of two large cans of oil, a big bundle of straw, sulphur and wood shavings, between the laths and stairs.

Montreal will ask the legislature for amendments to the new charter, including a provision imposing a fine of $100 for turning in a false alarm of fire, and in default six months in jail. The second offence to cost $200 or a year in jail, and two years in the penitentiary for the third offence.

The Northern Ontario Light and Power Company, Limited, has been formed to take over the properties of the Cobalt Power Company, Limited, and its subsidiary companies, and the Cobalt Hydraulic Power Company, Limited. The company furnishes power and light in the towns of Cobalt, North Cobalt, Haileybury, New Liskeard, Cochrane, and Porcupine.

Mr. Ovila Lambert, proprietor of the old Peloquin Hotel at Back River, Que., was acquitted on a charge of inciting to arson. The principal witness was Mr. Henri Carufel, whose testimony was unreliable as after denying all the charges of arson before the fire commissioners, thus perjuring himself seven times, Carufel had come forward three months later and volunteered the statement that he was paid by Lambert to set the place afire. Judge Choquet, holding that there was no reliable testimony against Lambert, found him not guilty and acquitted him forthwith. Judge Choquet commented on the system followed by the police, whereby it was possible for the principal witness after pleading guilty to an incendiary act, practically to remain at liberty.

Mr. H. G. Dunham, secretary-treasurer of the United Shoe Machinery Company of Canada and secretary of the United Shoe Company, the American concern, was the only witness heard at the recent session of the judicial commission appointed by the government held at Montreal, his testimony bearing on the relations existing between the American and the Canadian concerns, as well as the nature of the contracts entered into by the company with merchants making use of its machines. Mr. Dunham explained that the Canadian concern was a subsidiary branch of the American company, there being five directors of the Canadian company, all of these forming part of the 21 members of the board of directors governing the business of the American company.

SIR EDWARD CLOUSTON, BART.,

Resigns as General Manager of the Bank of Montreal —His Successor is Mr. H. V. Meredith.

For half a century, the men who had the supreme direction of the Bank of Montreal's affairs have had an arduous task. The growth of the bank, the broadening of its functions and its influence, implied a steady demand for wide intelligence in its general manager. During all this period, to go no further back, the holders of this post have been men of large grasp. David Davidson, E. H. King, Richard B. Angus, C. F. Smithers, fulfilled their important duty with credit to themselves and advantage to the bank. And now, we are told, the last of a long line of chief officers, Sir Edward Clouston, desires to be relieved from his duties, after occupying the post for twenty years.

SIR EDWARD CLOUSTON, BART.,

Who has resigned as General Manager of the Bank of Montreal.

Business Life in Bank's Service.

All Sir Edward's business life, it may be said, has been spent in the service of the Bank of Montreal. He joined it in 1865, when he was 16, and passed through all grades of the service, having experience in many Canadian offices as well as in New York and London, England, until in 1887 he was made assistant to the then chief officer, Mr. W. J. Buchanan, and in 1891 general manager of the bank.

Shortly after his assumption of this office, The Monetary Times took occasion to say of him: "His success in his present responsible post is, of course, a thing yet to be demonstrated. . . . Still, the prediction is not unwarranted that Mr. Clouston will be found worthy, both as regards soundness of principle and executive capacity, of the trust reposed in him."

Has Helped Canadian Banking.

After so long a test, it is, we believe, the judgment of the foremost bankers of Canada that he has been so worthy—that he has done credit to himself and his bank and added to the renown of the Canadian banking system. Sir Edward now becomes vice-president of the Bank of Montreal.

When Mr. Clouston was made general manager, the paid-up capital of the Bank of Montreal was $12,000,000; its rest $6,000,000; its current loans $28,903,000, and its assets $55,551,000. These respective figures have grown to the following amounts to-day: Paid capital, $16,000,000; rest, $15,000,000; current loans, $118,676,000; total assets, $230,165,000. The number of branches was in 1891 about 50, to-day it is 150 or more.

Sir Edward's Successor.

Curiosity will naturally centre round Sir Edward's successor. In all great banks care is taken to have someone available in case the chief is removed, and our leading bank has not been unmindful of such an emergency. The man to succeed Sir Edward is Mr. H. V. Meredith, who has been for some time Assistant General Manager. Of Mr. Meredith it may also be said that he has spent practically all his professional life in the service of the Bank of Montreal. And he has mounted all the rungs of the ladder. His ability is acknowledged and his experience has been wide. He knows the Canadian banking field and possesses the quality of resolution as well as keen perception. In referring to his successor at the bank's annual meeting on Monday, Sir Edward said:—

"I have kept in mind that while corporations may go on forever, the men who manage them come and go, and with that in view I have always tried to arrange that the exit of any one man should not in any way interfere with the business of the bank. In passing over the reins of office to my successor. I feel I am doing a good thing for the bank, and its shareholders.

"Mr. Meredith has spent all his active business life in the service of the bank, is familiar with its policy, is trained in its traditions, and has been uniformly successful in his previous appointments. I have no doubt he will be equally successful in the high office to which he is called, and I am quite satisfied your property will be handled conservatively."

◆

BANK OF MONTREAL'S REPORT.

The profits of the Bank of Montreal for the year ended October 31st, 1911, after making the usual deductions, were $2,276,518. Premiums on new stock totalled $365,367 and balance of profit and loss account from the previous year $961,789. Adding to this the amount of the adjustment of the bank premises account of $3,400,000, there was available the sum of $7,003,985. Dividends at the rate of 10 per cent. accounted for $1,440,000. A sum of $708,800 was expended on new premises during the year and the substantial sum of $3,000,000 was credited to the rest account which now totals $15,000,000. There was, therefore, a balance of profit and loss carried forward, amounting to $1,855,185.

The directors have been frequently criticized for having charged the full amount of the cost of bank premises against the profits of the year. For years, the Bank of Montreal premises account has been represented by the nominal sum of $600,000. In response to suggestions, a conservative valuation has been made of the bank's various premises which results in the following figures: Land, $4,735,000; buildings, $4,353,000; total, $9,088,000. Less than half that amount, $4,000,000, has been taken to represent more adequately the bank premises item in the balance sheet. To adjust the account, the sum of $3,400,000 has been applied and the balance carried forward.

The business of the bank last year was profitable, although the employment of spare funds in call and short loans was less productive than usual. The prevailing rates were extremely low in New York and London. There was a shrinkage in temporary deposits, which is explained by the fact that last year the bank had large special deposits which were shortly after distributed.

MR. H. V. MEREDITH,

Who Succeeds Sir Edward Clouston as General Manager of the Bank of Montreal.

◆

Sir Henry Pellatt has taken a three months' option on the claim of the Dominion Silver Company at North Cobalt.

The Shawinigan Water and Power Company will issue $500,000 4½ per cent. debenture stock. There is now $4,500,000 of this stock outstanding. The shareholders will meet on December 27th to ratify the issue and decide upon the price.

PROPOSED TARIFF COMMISSION MAY INVESTIGATE

Sir Sandford Fleming's Charges Against the Canada Cement Company, Says Premier Borden.

Sir Sandford Fleming has issued in pamphlet form correspondence and documents respecting a government inquiry regarding the formation of the Canada Cement Company. In his introduction to the booklet, Sir Sandford says:—

"The undersigned, while in the position of honorary president of the Canada Cement Company, unearthed a transaction, now generally regarded as traversing public morality. His first efforts were to move the directors of the cement company, to endeavor to have the matter set right, but his repeated efforts were then of no avail. This is fully explained in his letter of resignation appended.

"Actuated solely by a sense of public duty, he at length felt constrained to bring the matter to the attention of the Government, and with that object in view, he addressed the Prime Minister, the Honorable Robert Laird Borden, by letter dated October 25th, 1911.

Rights of Shareholders.

"To-day, (November 15), Mr. Borden has done him the honor to reply, and thus the writer is afforded the satisfaction of learning that it is the intention of the Government to take action almost immediately. The Prime Minister points out that the letter of October 25th raises two distinct questions. The first of these touches the right of shareholders, and to this question, 'ample remedy would be afforded in the courts'; respecting the other consideration, which concerns the interests of the people, the Prime Minister intimates that the Government intends to afford relief by the establishment of a new department—a Permanent Tariff Commission, with ample powers, and that this tribunal will be in a position to make all necessary enquiry into the whole subject referred to in the correspondence.

"The Prime Minister adds that the question of providing some check upon over-capitalization is now under the consideration of the Government.

"The two letters above referred to follow, and other documents on the same subject are furnished in the appendix. These, taken together, supply evidence of capital having been misappropriated on an enormous scale. There are those amongst us who have been associated for half a century with large expenditures in connection with the great railways and public works of Canada, but who have never until now been brought to the knowledge of any transaction so meretricious and questionable as that alluded to in the following pages.

Company Will be Strengthened.

"With the intervention of the Government obtained, we may rest assured that those associated with the wrong-doing will be frustrated in their aims, that the public interests will especially be promoted, and that the Canada Cement Company will be strengthened and placed permanently on a sound business footing."

In his letter to Sir Sandford Fleming, Mr. R. L. Borden says in part:—"We are of opinion that this tribunal (the Tariff Commission), will be in a position to make any necessary inquiry in the present instance. I may add that the necessity of providing some check upon over-capitalization is now under consideration of the Government."

REORGANIZATION OF WOOLEN COMPANY.

The Monetary Times learns that the report, published in some of the daily papers, that Stanfield's Limited, had absorbed the Hewson Woolen Mills, Limited, is incorrect. A new company, to be known as Hewson's, Limited, will be organized for the purpose of purchasing the Hewson Company, adding a considerable sum of money for further working capital. The additions will be made to buildings and plant as soon as the new organization is arranged. While Mr. Hewson will continue as managing director, it is understood that the Stanfield management will co-operate with him and will, in fact, dominate the directorate. The Hewson plant makes cloth as well as underwear and sweater coats.

The issued capital of Hewson's Limited, will be as follows:—

7 per cent. Non-cumulative Preferred Stock...	$250,000
Common Stock	500,000
6 per cent. Thirty-year Bonds (of which $350,000 are to be issued.)	500,000

This reorganization will take place this month or early in January.

CANADIAN POST OFFICE.

Annual Report Shows Large Surplus and Increases in Various Departments.

A considerable expansion both in the service and transactions of the post offices in Canada is shown in the annual report of the Postmaster-General for the year ended March 31st.

The total revenue of the department was $12,212,952.37, of which $10,697,830.15 was from the sale of postage stamps. The total expenditure on salaries, conveyance of mail by land, railways, and steamboats was $11,020,222.69, leaving a surplus of $1,192,729.68.

The issue of postage stamps for the year shows a marked increase, the aggregate output being 648,764,669 pieces, of a total value of $11,011,042.90, as compared with 584,264,774 pieces valued at $9,942,435.90 the preceding year, an increase of eleven per cent. in pieces and ten and three-quarters per cent. in value.

The estimated increase in the number of letters and post cards sent during the year is 52,357,000, or an increase of ten per cent. over the year ending March 31st, 1910. The total number of letters sent was 504,233,000; of post cards, 49,313,000; of registered letters, 11,584,000; of free letters, 16,382,000; of second class (transient newspapers), 10,648,000; of third class (books, circulars, samples, etc.), 85,165,000; of fourth class (packets of merchandise, etc.), 7,612,000; of closed parcels for the United Kingdom and elsewhere, 180,151.

Money Remitted by Money Orders.

The total amount of money remitted by money orders and postal notes was $77,280,364.65, as compared with $66,871,576.86 for the previous year.

Britishers sent home money orders to the amount of $8,095,292, which was slightly counterbalanced by money orders payable in Canada from Great Britain to the value of $1,372,853.

Austrian settlers in Canada sent home money orders valued at $2,840,000, which is $1,000,000 more than in 1910. Italians beat this record by forwarding to Italy $2,972,640, while Japanese settlers sent home $988,570. Money orders sent to the United States amounted to $8,442,263, while money orders payable in Canada from the United States totalled $6,647,385.

During the year stamps were sold by 2,890 vendors in addition to the postmasters, an increase of 296 in the year. There was an increase of 437 in the number of post offices in operation, the total number on March 31st, 1911, being 13,324.

Savings Bank Shows Decrease.

The balance to the credit of depositors in the post-office savings banks decreased by $255,778.23 during the year, from $43,586,857 at March 31st, 1910, to $43,330,579.19 at March 31st, 1911. The number of deposits was 203,196, as compared with 190,510 in 1910.

Mileage on stage routes decreased 246,444 from 17,915,876 on March 31st, 1910, to 17,672,432 on March 31st, 1911.

The transactions of the dead letter branch included the reception of 28,449 letters which were registered or contained articles of value. A total of 2,550,808 pieces (letters, etc.) were returned by Canadian post offices and 342,588 from British, United States and British colonies and foreign countries.

Toronto leads the offices of the Dominion in the gross amount of business done, the total revenue for the head and sub-offices being $1,963,065. Montreal comes next with a total of $1,152,177; Winnipeg, $836,931; Vancouver, $348,780; Ottawa, $214,570; Hamilton, $213,979; Quebec, $160,968; Calgary, $158,543; London, $155,029; St. John, $119,607; Halifax, $119,561.

COBALT ORE SHIPMENTS.

The following are the shipments of Cobalt ore, in pounds, for the week ended December 1st:—Cobalt Lake, 210,600; Nipissing, 192,947; Kerr Lake, 121,490; Hudson Bay, 67,600; Buffalo, 60,300; McKinley, 65,320; Trethewey, 59,760; La Rose, 63,592; Temiskaming, 86,579; O'Brien, 64,030; Coniagas, 54,746; Drummond, 60,000; Powerful M., 2,010; Casey Cobalt, 80,000; total, 1,188,974 pounds or 594 tons.

The total shipments since January 1st are now 47,250,370 pounds, or 23,625 tons.

In 1904 the camp produced 158 tons, valued at $316,217; in 1905, 2,144 tons, valued at $1,437,196; in 1906, 5,129 tons, valued at $3,900,000; in 1907, 14,040 tons; in 1908, 25,700 tons; in 1909, 29,751 tons; in 1910, 34,041 tons.

CANADIAN CAR AND FOUNDRY COMPANY.

Further Details of Second Annual Report of a Recent Industrial Amalgamation.

The gross sales of the Canadian Car & Foundry Company for the year ended September 30th, 1911, were over $12,500,000, being a considerable increase over the gross sales of the previous year; however, the serious trade depression in the United States, particularly in car equipment lines, necessitated a reduction in our percentage of profit on sales, as manufacturers in the United States, in many cases sought business at bare manufacturing cost, or less, in order to maintain their organizations. Unfortunately a large proportion of the materials entering into car construction have to be imported into Canada and the freight and duties payable on such materials largely offset the protection afforded by the duties on finished products.

The balance sheet shows a surplus of $622,137.58, from which a common stock dividend of four per cent. has since been declared; after payment of this dividend a surplus of $467,137.58 will remain out of the year's earnings, being some $23,000 greater than the corresponding surplus of the previous year.

Stand as Before.

Notwithstanding the greater volume of business transacted the inventories and accounts receivable remain at substantially the same figures as were shown in the previous report.

At the close of the fiscal year the unfilled orders on the company's books amounted to over $5,000,000.00; at this date the unfilled orders amount to approximately $10,000,000.00; and while, on account of the depression in the United States previously alluded to, much of this business has been taken at rock bottom prices, it should practically ensure continuous operations at capacity for the ensuing year and a large saving in running expenses. The directors have confidence that the financial result for the third fiscal year will be satisfactory to the shareholders.

During the year the usual dividend of 7 per cent. on the preference shares was paid in four quarterly instalments.

Improvements and Betterments.

The increasing general prosperity of Canada, coupled with the demands of the railways for your company's products, early made manifest the fact that our manufacturing facilities must be increased. This was particularly the case in respect to passenger car equipment, and also by the increasing demand for freight cars of steel or steel underframed construction.

The directors authorized extensions to the passenger car departments at Amherst and Turcot, (Montreal); a new steel freight car department added to the Turcot works, an addition to the steel car plant at the Dominion works, and an extension to the Malleable Iron Foundry at Amherst. These improvements are now all under way and we are building steel underframed cars at our Turcot works. The total cost, upon completion, will be approximately $350,000. The directors believe that this expenditure will be fully justified by results and will enable them more fully to meet the railway requirements at all times.

Full provision has been made for depreciation of all plants, and replacement and renewals have been changed to operating expenses.

Common Stock Dividends.

A number of shareholders addressed the company during the year with the suggestion that quarterly dividends be paid on the common shares. The directors have given this matter careful thought, and regret that they cannot approve the suggestion. While they do not anticipate any serious reduction in the volume of the car building business in Canada, nor of the company's fair proportion of such business, the fact remains that if a period of general business depression should occur one of the first economies to be practised by railways would be the curtailment of new equipment expenditures, and this fact is borne out by the present experience of United States manufacturers. The directors therefore think that for some time, at least, the company's financial position should be strengthened by the building of strong reserve funds, and that with the prior obligations to the holders of bonds and preferred stock, no dividends should be declared on the common shares until the net result of each fiscal year's operations is made known and compared with a forecast of future business.

Rhodes, Curry Company, Limited.

The general contracting operations of the subsidiary Rhodes, Curry Company, carried on in the Maritime Provinces have shown a profit for the year and are included in the general balance sheet. Several large contracts are now under way and the outlook for the ensuing year is encouraging. The company owns valuable timber limits in those provinces.

Shortly after the organization of the Canadian Car & Foundry Company, it became apparent that facilities would have to be arranged for the production of steel castings which are entering more and more largely into our products. About the first of this year it was found possible to secure the properties of the Montreal Steel Works, Limited, and the Ontario Iron & Steel Company, Limited, of Welland, Ontario, the former being the largest producers of steel castings in Canada, the latter having both a steel foundry and a rolling mill. The Montreal Steel Works had also commenced the erection of a modern steel casting plant in Montreal in addition to their existing facilities. After careful consideration the directors deemed it wise to secure these properties and the above company was formed for that purpose.

Six per cent. first mortgage and collateral trust bonds to the amount of $3,650,000 were accordingly issued, the principal and interest being guaranteed by the Canadian Car & Foundry Company; of this issue the amount of $750,000 was set aside and is held by the Montreal Trust Company, in escrow, to redeem a previous issue of bonds of the same amount of Montreal Steel Works, Limited.

Own the Whole Stock.

The whole of the issued capital stock of Canadian Steel Foundries, Limited, is owned by the Canadian Car & Foundry Company, being $1,400,000 of preference and $3,000,000 of common shares. The preference was paid for in part by cash and in part by an additional issue of preference stock to Canadian Steel Foundries, Limited.

It was found advisable to make extensive improvements at the Welland plant, and the new plant at Montreal will not be fully completed and ready for operation until the spring of 1912.

The company made sufficient earnings to pay its bond interest and other obligations and its directors believe that future results will be profitable. No value has been placed on the Canadian Car & Foundry Company's books for the common stock of the Canadian Steel Foundries, Limited.

◆

BANK BURGLARIES AND FORGERIES.

Messrs. Albert Winstanley and Bernard F. Holland were sentenced to three years each on a number of charges of forgery in the Winnipeg police court recently. Three of the checks passed were for $65.30, another being for $64.30.

A man masquerading as Mr. A. Baggs has been endeavoring to victimize several merchants in Fredericton, N.B., by passing bogus cheques on them.

Because he remembered Mr. George Gunning, a Toronto milk dealer, Mr. James Smith was successful in cashing two cheques on the Bank of British North America for $25, and $10, respectively, bearing the endorsation of Mr. Gunning. He was arrested on a charge of forgery.

Mr. A. E. Hill, alias Bert Mill, a Calgary, Alta., electrician, has been arrested on a charge of forgery. He is wanted by the Bankers' Protective Association for forging a number of cheques on members in the city of Ogden, Utah. He is also wanted at Spokane and St. Paul on similar charges.

A woman has been passing worthless cheques on several banks in London, Ont., recently. She has victimized two banks to the extent of several hundred dollars, and was successful some time ago in obtaining about $700 on bogus cheques. The banks are reticent and will not give any information.

At the command of a man armed with a revolver, Teller D. A. McLeod of the McAndrew branch of the Royal Bank of Canada, Vancouver B.C., handed over $1,000 cash, and the robber made his escape. Only a clerk or two were in the bank when the stranger entered.

Miss Gladys Gage, eighteen years old, of Hamilton, Ont., was arrested recently charged with forgery. It is alleged that she forged the name of a blacksmith named Erskine to a cheque for $57 on the east end branch of the Bank of British North America. She had cashed a genuine cheque made by Mr. Erskine on the same bank and had no difficulty in cashing the second.

◆

ANSWER TO CORRESPONDENT.

An Old Subscriber, Paris.—We do not know the property and would advise you to write a responsible person in Moose Jaw.

BRITISH COLUMBIA ELECTRIC RAILWAY.

Report for the Past Year is Satisfactory—Question of Purchase of Company's Lines in Vancouver.

For the twelve months to June 30th, 1911, the gross receipts of the British Columbia Electric Railway Company, Limited, show an increase of $1,323,028, or 43 per cent., and the net earnings, including income from investments and subsidiaries, and after charging renewals, show an increase of $369,521, or 34 per cent., over the preceding year. From June 30th, the close of the financial year under review, up to September 30th last, there has been a still further increase in gross earnings of $401,783, or 45 per cent., and in net earnings of $63,282, or 17 per cent.

During the whole of the twelve months under review, an exceedingly large sum of capital has been involved in various works and extensions under construction, and has consequently remained unremunerative. The company will derive a considerable increase in its earnings from these works and extensions as they are completed.

Charges Against Revenue Account.

The following charges have been made against the revenue account of the year, viz.:—Provision for renewals maintenance (from which £32,021 19s. 8d. has been deducted for adjustments and expenditure on renewals during the year), £76,136 0s. 3d.; amount written off old steam plant, £10,000 0s. 0d.; amount added to capital amortization fund, £2,182 15s. 4d. The net profit for the year, after making the above deductions, amounts to £281,126 1s. 3d.; add balance brought forward from last year, £5,606 16s. 1d.; total, £286,732 17s. 4d.; deduct interest on debentures and debenture stock to June 30th, 1911, £82,670 11s. 2d.; dividends already paid—on 5 per cent. cumulative perpetual preference stock for the year ended 30th June, 1911, £35,000; on preferred ordinary stock for the year ended 30th June, 1911, £42,000; on deferred ordinary stock for 6 months to December 31st, 1910, £32,000; total, £191,670 11s. 2d.; leaving available for further distribution and reserves, £95,062 6s. 2d.

From the sum of £95,062 6s. 2d., the directors have decided to recommend the payment of a dividend on the deferred ordinary stock at the rate of 8 per cent. per annum for the six months to June 30th, 1911, making 8 per cent. for the year, £32,000; to transfer to reserve fund, £56,472 3s. 6d.; a total of £88,472 3s. 6d. This leaves to be carried forward to next account, £6,590 2s. 8d.

Deductions From Reserve Account.

There has been deducted from the reserve fund the sum of £20,862 11s., representing the difference between the net amount realized by, and the par value of £600,000 4¼ per cent. debenture stock, issues in March last, and there has been added to the reserve fund £53,993 19s. 1d., representing the premium on £600,000 new capital, less expenses, issued in November, 1910. After the transfer now recommended by the directors as above, the reserve fund will amount to £337,000.

The directors consented, in order to meet the wishes of the citizens of Vancouver, to enter into an agreement whereby the municipality would have obtained the right to purchase the company's railway lines within the extended limits of the new city in 1934, but in the negotiations that followed, some of the representatives of the city endeavored to introduce restrictions of a general nature, to which the directors could not see their way to agree, and, in consequence, no arrangement has been concluded.

A VALUABLE BOOK FOR THE CREDIT MAN.

A book which should prove of much assistance to the credit man is "The Canadian Credit Men's Diary," compiled by Mr. Henry Platt Grundy. It is a digest of the laws affecting credit men with important decisions. Some of the subjects dealt with are:—Assignment acts, bulk sales act, sale of goods, exemptions, chattel mortgages and bills of sale, partnerships, joint stock companies, foreign or extra provincial corporations, King's bench act, prosecution of fraudulent debtors, mechanics' lien act, lien notes and conditional sale of goods, limitations of actions and other useful information. The volume covers a wide field and has been prepared in as concise a manner as the various subjects will allow. It should be of invaluable service to the business man who extends credit to his clients.

"The Canadian Credit Men's Diary," price $4; published by The Canadian Credit Men's Association, Limited, Winnipeg, Man.

PRINCE EDWARD ISLAND'S NEW GOVERNMENT.

The following are the members of the new Conservative government of Prince Edward Island:—Premier and Attorney-General, Hon. J. A. Mathieson; Commissioner of Public Works, Hon. Jas. A. McNeil; Commissioner of Agriculture, Hon. Murdock McKinnon; members of the Executive without portfolio, Hon. John McLean, Hon. Murdock Kennedy, Hon. A. E. Arsenault, Hon. Chas. Dalton, Hon. W. S. Stewart, and Hon. John A. MacDonald.

WHO INVENTED THIS GIGANTIC COMBINE?

Last week a dispatch from Binghampton, N.Y., announced that Mr. B. B. McFadden, of the Commercial Envelope Company, of that city, had been elected president of a "gigantic commercial combine, planned to unite all the concerns in the United States and Canada and to control the envelope output of the world." There must be in Binghampton some one with an enlarged and elastic imagination. In response to inquiries made by The Monetary Times, the envelope making companies in Canada had not heard of any such proposal, and Mr. McFadden himself tells us that there is no truth whatever in the statement. His concern, the Commercial Envelope and Box Company, will erect in Kingston, Ontario, if a by-law is carried granting exemption from taxes, except school taxes, and water at cost, a similar plant to the one at Binghampton. The plant will employ from 90 to 100 hands; will be constructed of reinforced concrete and steel. The plant is estimated to cost $20,000, machinery $20,000, making a total expenditure on plant, machinery and real estate of $40,000. The plant will occupy from 3 to 4 acres of ground with a Grand Trunk Railway siding into the property.

A DESERVING CHRISTMAS APPEAL.

Editor, Monetary Times,

Sir,—Thanks for your kindness in allowing me the privilege of appealing at this Christmas time on behalf of the Hospital for Sick Children, Toronto.

I make this direct appeal to the people of Ontario, for the fathers and mothers of Ontario, outside the City of Toronto, have precisely the same claim for their sick children as regards the privileges of the Hospital, as parents who reside in this city.

In brief, the sick children from any place in Ontario whose parents cannot afford to pay, is, on certificate from a municipal officer of any city, town, village or township, treated free.

This is a privilege not granted by any Hospital in the Dominion, or on this Continent.

Let me, in a few words, state that in the last 20 years, since 1891, there have been 4,731 patients from 450 places outside of this city treated free, as the parents were unable to pay for treatment. Last year 384 patients from 234 places outside Toronto were so treated.

The Hospital is not a city but a Provincial institution. The Corporation of Toronto grants $18,000, not only for city children, but towards the maintenance of every patient in the Hospital, and the citizens of Toronto donate an average of $10,000 to the maintenance fund of the Hospital.

It would take more space than you can spare to tell of the good work done for the sick and deformed children of this Province.

Why, in the Orthopedic department in 20 years, nearly 700 children, boys and girls, have been treated for club feet, and about 600 were corrected. Two-thirds of these came from places outside of Toronto, from parents who could not afford to pay.

Surely we have a fair claim for help from the people of this Province.

Every day is Christmas to the child whose little life is saved or whose crippled limb is straightened with the might of money—your money—and the mercy of the Hospital.

Will you, the reader of this letter think of what your dollar will do? It helps to restore health and strength, and gives sound limbs and straight feet to crippled boys and girls.

You give wealth to the Hospital, and the Hospital gives health to the children.

Yes, your money can put golden hinges on the door of the Hospital's mercy.

Will you, kind reader, help us and send a spare dollar to Douglas Davidson, the secretary-treasurer of the Hospital, or

J. ROSS ROBERTSON.
Chairman of the Trustees, Toronto.

DECEMBER BOND LIST

Our December Bond List containing full particulars of a wide range of High-Grade Municipal Debentures is now ready for distribution.

A copy will be gladly mailed on request.

Wood, Gundy & Company

LONDON, England TORONTO, Canada

COST ACCOUNTING.

Its Relation to the Tariff—Companies Should Supply Correct Information.

Mr. David S. Kerr, C.A., recently addressed the Accountants Students Society under the auspices of the Association of Accountants in Montreal, the subject being "Cost Accounting." The chair was occupied by Mr. Robert Miller, C.A., and there was present a good representation of the profession.

Mr. Kerr dealt with the case of manufacturers supplying correct information to the government for guidance in tariff matters. In this connection he said:

Must Have Correct Information.

"Unless the government be supplied with correct information regarding the actual cost of production of the various commodities which are included in the Canadian customs tariff, how is it possible for the government to be properly guided in order to arrive at the percentages which should be levied on imports? In other words, if the manufacturers do not supply correct figures as to the cost of production and if they fail to include in such costs any items which legitimately should be included, the government cannot then be blamed if the tariff percentages imposed in later years prove to be too little, on account of the fact that the information as to the cost of production submitted by the manufacturers did not cover the whole cost of manufacturing.

Companies Should Supply Correct Information.

"Nor in such cases can the government assume any responsibility, so far as the manufacturers themselves are concerned, but, on the contrary, the whole responsibility is thrown back on the shoulders of the manufacturers for not supplying the necessary correct information to the government in correct form. I do not refer to the bounty question. Too often it happens that manufacturers appeal to the government for certain tariff regulations and before getting them they have told the government that certain percentages, imposed on imports, will be entirely satisfactory to protect their trade in this country. But in the course of a year or two these same manufacturers return to the government with long faces and long prayers pleading for a revision of the tariff, the reason for this often being that the information supplied by the manufacturer on the first occasion was found to be incorrect and did not include all of the items that should have entered into his costs. And you can see that it is inadvisable to have the tariff changed frequently, because it unsettles the business conditions of the Dominion.

Cost Accounts Must Be Reliable.

"Let us suppose that a manufacturer advises the government that it costs him $2.20 per unit to produce his articles and he wishes the government to protect him reasonably under the tariff. The government finds that a similar article can be delivered at the same place at a cost of $2. The government would then feel that it would be just to impose a tariff of 10 per cent. on such commodities, so as to bring up the price of the imported article to the level of the home-made article.

"Suppose that this manufacturer in submitting his statements that the cost was $2.20 per unit, had forgotten to include certain features of the cost which should have been there, being either direct or indirect expenses in connection with the manufacturing, and his actual cost was, really, $2.25. You can thus see that, while the manufacturer did not know at the time, yet he would at a later date waken up to find that he was losing 5c. on every article sold, as compared with the price received by the importer.

Importance of Reliable Cost Accounts.

"The importance of having reliable and correct cost accounts cannot be over-estimated, and particularly so in a country where the tariff is the only means, in these days, of competition and close contact with a large manufacturing country such as the United States, to insure the very existence of most manufacturers, as is clearly demonstrated by the long and diversified list of commodities embodied in the customs tariff."

Mr. Lloyd George's national insurance bill has passed its third reading in the House of Commons, London.

Mr. F. P. Jones has been elected a director of the Montreal Trust Company to succeed the late Mr. Charles F. Smith.

WORKMEN'S COMPENSATION ACTS.

Comparison of the Various Acts—Discussion of President of Toronto Insurance Institute's Address.

In discussing the speech of Mr. Alfred Wright, president of the Insurance Institute of Toronto, Mr. Edward Willans, general manager of the Imperial Guarantee & Accident Insurance Company, said in part: "I have no criticisms to offer on the address, but rather to say, that it is the first time I have seen the legislation of the several provinces on the subject of Workmen's Compensation for Injuries or Employers' Liability placed in so compact a form for reference, and for this the president deserves the thanks of those engaged in accident insurance, and others interested in the subject.

Various Workmen's Compensation Acts.

"The present legislation on Workmen's Compensation for injuries to workmen in all the provinces is quoted in the president's address. There is no legislation in the Province of Prince Edward Island. In that province claims for damages are brought under the Common Law only.

"The acts of seven of the eight provinces have become law within the past three years, at the longest, and, consequently, present what may be termed advance legislation.

"Ontario is still working under the old Workmen's Compensation Act of 1880, which is not really a Workmen's Compensation Act as now understood, so that Ontario is behind the other provinces. A commission appointed by the Ontario Government is now sitting with a view to framing a new Act to meet present-day requirements, and it is to be hoped Ontario will secure an Act superior to any now in force.

"It should also be noted that the new Workmen's Compensation Acts now in force do not supersede or take the place of Employers' Liability Acts, where such are in use, nor do they take away the rights of employees, except under certain conditions, to take action for damages under the Common Law if they so elect.

The Problem of Liability Insurance.

"While all the Acts, with the exception of that of Ontario, are based on the principle that a workman is entitled to compensation for disablement resulting from injuries incident to his occupation, without respect to the negligence of his employer or the servants of the employer, still, there is a marked difference in the Acts of the several provinces both in the schedule of indemnities granted by each and also in their application to dependants; in the exemption of certain occupations in one province while certain others are exempted in another; in the fact that some exempt the first week of disablement; others the first two weeks, while in one province indemnity begins from date of disablement. There are no two Acts alike, and from the differences shown in the several Acts each province requires to be treated according to the liability its Act entails, in the fixing of premium rates for insurance coverings. Herein lies the problem of accident underwriters engaged in liability insurance.

Eight Compensation Acts in Force.

"At the opening session of the commission appointed by the Ontario Government, Sir William Meredith wisely asked those present in making their recommendations to give consideration to the necessity of guarding employers of labor in the Province of Ontario from being placed at a disadvantage as compared with employers in other provinces. Here certainly is a plea for uniform legislation.

"At the present time it is not within the power of the Dominion Government to bring in such an Act, but it could be done either by joint uniform legislation on the part of the several provinces, or the provinces subrogating their rights in favor of a Dominion Act. The legislators may tell us this is impossible; that it cannot be done. There would be untold advantage both to the workman and the employer if it were carried into effect.

"Within a short time we shall have eight Workmen's Compensation Acts in force in Canada, each knocking at the door of our courts for interpretation, whereas one Act could perform the necessary service. It would soon secure final interpretation, so that the saving alone in the matter of expense to the several provinces in judicial administration, as well as the saving to employers in law courts, would, in my opinion, repay for any sacrifice which might be required to obtain a Dominion Act.

Many Accidents Are Preventable.

"The accident companies paid out last year in liability and personal accident claims the sum of $1,325,750,000 by way of indemnity, and while this is serious enough in itself, yet, it only indicates a fraction of the loss sustained throughout the country. Further, these payments to the companies' policyholders may be only a portion of the policyholders' actual and consequential loss. There is still the large body of the uninsured to be accounted for, and the total loss of earning power to the large number of permanently disabled, as well as those maimed to such an extent that their earning power is diminished. It is not difficult to see that the State is vitally interested in the prevention of this loss.

"It is stated that nearly fifty per cent. of all accidents are preventable. This being so, there is ample scope for a commission on the Conservation of Life and Limb. It is believed by some that the Compensation Acts now brought into use will lead employers of labor to adopt better safeguards for the prevention of accidents, but this will not by any means meet the situation, and while much has been done of late years in the adoption of safety appliances much more can be accomplished."

◆

DEBENTURES AWARDED.

Fergus, Ont.—$25,000 5 per cent. 15 instalments, sold privately.

Perdue, Sask.—$1,200 6 per cent. 15 years, to Messrs. Nay & James, Regina.

Grassy Lake, Alta.—$2,000 7 per cent. 10 years, to Messrs. Nay & James, Regina.

Kitscoty, Alta.—$1,000 6 per cent. 10 years, to Messrs. Nay & James, Regina.

Dundurn, Sask.—$2,500 6 per cent. 15 years, to Messrs. Nay & James, Regina.

Amulet, Sask.—$2,000 6½ per cent., 15 years, to Messrs. Nay & James, Regina.

Rivers, Man.—$6,000 6 per cent. 20 years, to Messrs. Nay & James, Regina.

Melville, Sask.—$19,000 5 per cent. 30 years, to Messrs Hanson Bros., Montreal.

West Edmonton, Alta.—$1,500 7 per cent. 10 years, to Messrs. Nay & James, Regina.

Cupar, Sask.—$10,000 6 per cent. 12 and 15 years, to Messrs. Nay & James, Regina.

Springside, Sask.—$2,500 8 per cent. 15 years, to Messrs. Nay & James, Regina.

Stafford, Alta.—$15,000 5½ per cent. 20 years, to Messrs. Nay & James, Regina.

Radville S.D., 254, Sask.—$14,000 6 per cent. 20 years to Messrs. Nay & James, Regina.

Kerr Robert, Sask., S.D.—$30,000 6 per cent. 20 years, to Messrs. Nay & James, Regina.

St. Joachim, Alta., R.C. S.D.—$40,000 5 per cent. 40 years, to Messrs. Nay & James, Regina.

Simcoe, Ont.—$30,000 5 per cent. 20 instalments, to Messrs. Brent, Noxon & Company, Toronto.

Cawley S.D., Alta.—$4,000 5½ per cent. 20 instalments, to Messrs. G. A. Stimson & Company, Toronto.

Hyssop S.D., Alta.—$4,000 5½ per cent. 20 instalments, to Messrs. G. A. Stimson & Company, Toronto.

Small Saskatchewan and Alberta Schools.—$9,500 6¼ per cent. 10 years, to Messrs. Nay & James, Regina.

Claresholm, Alta.—$8,500 5 per cent. 20 instalments, to Messrs. Dominion Securities Corporation, Toronto.

St. Louis R.C. S.S.D., Medicine Hat, Alta.—$15,000 5 per cent. 30 years, to Messrs. Nay & James, Regina.

Carleton County, Ont.—$40,000 5 per cent. 20 instalments, to Messrs. G. A. Stimson & Company, Toronto.

Suniah Township, Ont.—$22,600 5 per cent. 20 instalments to Messrs. Æmilius Jarvis & Company, Toronto.

Swan River, Man.—$3,000 5 per cent. 15 annual instalments, to Messrs. National Finance Company, Toronto.

Small Saskatchewan and Alberta Schools.—$15,750 6 and 7 per cent. 10 years, to Messrs. Nay & James, Regina.

Weston, Ont.—$20,000 5 per cent. 20 instalments school debentures, to Messrs. Brent, Noxon & Company, Toronto.

Rural Municipality of Progress, Sask.—$20,000 5 per cent. 20 instalments, to Messrs. Wood, Gundy & Company, Toronto.

Windsor, Ont.—$115,781.80 as follows:—$50,000 4½ per cent. 20 annual instalments, and balance 5 per cent. to annual instalments, to Messrs. Wood, Gundy & Company, Toronto.

MODERN WOODMEN OF AMERICA.

Notes of One of the Largest Fraternal Associations Carrying Life Insurance on the Assessment Plan.

A correspondent in British Columbia asks for some information about the above-named society, as to its stability, size, etc. It is the largest fraternal association in the world carrying life insurance on the assessment plan, and one of the weakest so far as making provision for the future heavy mortality is concerned. All assessment societies have been giving attention, during the past ten years, to the accumulation of a mortuary surplus. The object is to give some assurance to their members, and to the public, that they may not be wiped out, some year, by a temporary excess of deaths, or slowly forced into insolvency by the inevitable increase of the average age of the members.

Payment of Death Claims.

The difference in the cost of paying the death claims which is caused by increasing age is very well shown in the following statement, made in the latest Government returns by four well-known societies. These associations have been in business long enough to have some experience upon a large number of elderly members:—

Society	Age 20.	Age 30.	Age 40.	Age 54
I. O. Foresters	$9.60	$13.68	$20.16	$46.80
Royal Arcanum	7.56	8.64	12.12	22.68
Cath. Ben. Legion	14.04	18.72	26.00	46.02
Knights of Pythias	....	17.50	23.00	42.50

The society which looks best in the above statement—the Royal Arcanum—is the one which has had the greatest prosperity in the in-rush of new business, until in 1904 its membership was 305,083 and its death claims $7,868,396. It has now only 245,458, or a loss of 59,625 members, though it put on 90,102 new ones during the six years. Therefore not only a number equal to the 90,102 have disappeared, but 59,625 additional.

Danger of Collapse.

Now, with so many less total members, instead of the death losses decreasing in proportion, they have actually increased in the past seven years from $7,505,893 in 1903 to $8,084,467 in 1910. From being $10.50 per $1,000 they grew steadily during the seven years, as the best members dropped out, to $14.50 in 1910. The danger of collapse looks very imminent, notwithstanding that it has assets of $7,401,360, or per member $26.30.

The Modern Woodmen of America have only $6.35 per member in their treasury, though the gross assets are $8,652,937. But large as that sum looks, it is only enough to pay the mortality claims for about eleven months. It has 1,129,805 members, and it paid in 1910 for death losses $10,857,085, upon 6,537 persons.

The following table gives some valuable information worth preserving, respecting the eight largest and most widely known associations transacting temporary life insurance upon the assessment plan:—

FIGURES OF THE EIGHT LARGEST FRATERNALS DOING LIFE INSURANCE—1910.

Name.	Order of Ben Hur.	Catholic Foresters	Ind. Order Foresters.	Maccabees of World.	Ladies of Maccabees.	Modern Woodmen.	Royal Arcanum.	Woodmen of World.
Head Office	Crawford, Ind.	Chicago.	Toronto.	Detroit.	Port Huron.	Rock Island.	Boston.	Omaha.
Began Business	1894	1883	1881	1883	1892	1883	1877	1891
Assessments received	$1,028,280	$1,484,938	$3,683,477	$3,903,697	$1,308,441	$12,180,096	$8,084,467	$5,954,405
Death claims paid	1,092,023	1,261,514	2,192,315	1,442,425	806,010	10,857,085	8,121,831	4,892,555
Income saved, 1910	90,706	322,124	1,858,532	876,455	651,909	1,712,870	215,273	2,176,505

Death rate per $1,000	$8.60	$8.28	$8.93	$9.31	$12.65	$5.78	$14.58	$10.56
Assets per member	$12.58	$16.51	$66.79	$35.51	$35.66	$6.35	$26.30	$21.03

◆

ADVERSE PROTECTION.

"Canada is flourishing under the system of protection and for the time being every good Canadian should be a protectionist," says Le Moniteur du Commerce. "The economic conditions of the country require this system for the development of its natural resources and the fostering of its industries. This policy has been the Canadian policy for nearly the last thirty-two years. On September 21st, the electorate gave clear proof of its desire that this policy should continue indefinitely and even increasingly not only in the strict domain of commerce and industry, but in all lines of domestic production.

"The devotees of this policy christened it 'The National Policy' at its birth in 1879. Now this 'National Policy' has a wider meaning than that of the mere burdening of foreign products by customs duties. This 'Policy' in its true meaning imposes on every citizen the duty to give the preference to every product intellectual or material, to every concept of Canadian origin. This 'National Policy' independently of all material preferences, involves the development and application, on every favorable occasion, of the principle of 'Canada for the Canadians.'

"It is by the consistent application of such a principle that the present generation in the United States, has become so American, so national, and so Americanizing. To an American, nothing is good and nothing is attractive unless it is American.

"Why should it not be more or less so in Canada, where heart and soul should be exclusively Canadian, where every conception in industry and art, in architecture, sculpture and painting should bear the Canadian brand. Why then do certain men, very prominent in politics and finance, and apparently fervent devotees of the doctrine of protection, being in fact elected as such to the Parliament of Canada, practise adverse protection by encouraging in their own works and in works of institutions in which they exercise great influence, American architects and American construction materials in preference to Canadian architects and Canadian construction materials?

"Why then do they go to the United States, when they can obtain as good and as attractive in Canada? An instance of this unpatriotic infatuation has just come to our notice here in Montreal. The French-Canadian President of a large financial institution, newly established, has given to a Yankee architect the contract for the construction of its vaults. The architect being American, the specifications called for materials of American make, with all its consequences. The chosen architect remained American to the marrow of his bones, and it is no reproach to him. In the case in point, the financial institution in question called for tenders for its vaults and accessories. The estimates of American contractors were lower than those of Canadians.

"The Canadian contractors were asked to reduce their estimates to meet American competition, and though their margin of profit was small, they consented to a reduction to the level of the American estimates. Alas! The American contractor was preferred. In this instance, this Canadian institution for once, practised adverse protection. The Canadian tenderers for this particular work, were two of the strongest and best equipped houses in our country, houses which are qualified to lend prestige to Canadian industry, and whose products can claim renown for satisfaction throughout the whole world.

"What are we to think of the head of a large financial institution operating in Canada with Canadian capital, who seeks on the other side of the line an opportunity to spend a large amount of Canadian money which could be profitably spent in Canada. This example of adverse protection coming from high up, is all the more ill-omened. This should be a reaction against such tendencies which not only offend Canadian sentiment, but also seriously hurt Canadian business men who have to witness them and who will in time find all the less reason to be favorably disposed to institutions who do not consistently maintain the principle of Canada for the Canadians."

RECENT FIRES.

Monetary Times' Weekly Register of Fire Losses and Insurance.

Woodstock, Ont.—December 6th.—Gas works badly damaged. Loss and origin unknown.

Fergus, Ont.—December 6th.—Bloomfield mills destroyed. Loss about $30,000. Origin unknown.

Outremont, Que.—December 2nd.—House on West End Avenue, destroyed. Loss and origin unknown.

Quyon, Que.—December 2nd.—Dowd Milling Company, destroyed. Loss, about $25,000. Origin unknown.

Burlington, Ont.—December 1st.—Evaporator owned by Mr. M. C. Smith, destroyed. Loss and origin unknown.

Edmonton, Alta.—December 1st.—Premises of Courier De L'Ouest, destroyed. Loss about $20,000. Origin unknown.

Guelph, Ont.—December 1st.—Barn of Mr. Wm. Day, West Luther, destroyed, also 6 horses, cattle, etc. Loss and origin unknown.

Prince Rupert, B.C.—December 1st.—Government building and records destroyed. Loss about $10,000. Origin, defective steam heating.

North Bay, Ont.—December 4th.—Store of Messrs. Thomas & Company, destroyed. Loss unknown. Origin, overheated stove.

Sparta, Ont.—December 4th.—Cheese factory owned by Mr. J. T. Donnelly, destroyed. Loss about $4,000. Origin unknown.

Owen Sound, Ont.—December 1st.—Dry kiln, Keenen Woodenware Company, destroyed. Loss about $15,000. Origin, careless tramps.

Niagara Falls, Ont.—December 2nd.—Barn, rear of Hotel, Rosli, Bridge Street, destroyed, also 2 horses. Loss about $2,500. Origin unknown.

Vancouver, B.C.—December 1st.—Farm owned by Mr. J. P. McConnell, Yale Road, badly damaged, also 6 horses and 14 cows. Loss and origin unknown.

Montreal, Que.—December 1st.—Barns, etc., of Mr. W. H. Bradley, Fairview Dairy, Cote St. Luke, destroyed, also 19 cows, 5 horses, season's crop, etc. Loss about $5,000. Origin, careless tramps. Barn, etc., of Mr. A. McDowle, Cote St. Luke Road, destroyed, also 13 cows, 6 horses, pigs, chickens, etc. Loss and origin unknown.

Toronto, Ont.—December 4th.—Warehouse of Smith Manufacturing Company, 201 Front Street East, destroyed. Loss about $2,500. Origin, spontaneous combustion. December 6th.—Premises of Messrs. Roden Brothers, King Street West, badly damaged. Loss about $17,000. Origin unknown. December 6th.—Planing mill and lumber yard of Mr. Wm. A. Dunn, 96 Davenport Road, and adjoining buildings badly damaged. Total loss about $60,000. Origin unknown. The principal losses were planing mill and lumber yard of Mr. William A. Dunn, 96 Davenport Road, destroyed. Loss estimated at $40,000, partly covered by insurance. Roughcast cottage at 94 Davenport Road, occupied by Mr. Robert Hollowell, and owned by Mr. William Dunn, destroyed. Loss about $2,000; no insurance. Aged Women's Home, 53 Belmont Street, damaged in the two upper stories of the south wing to the extent of about $15,000. Buildings covered by $50,000 insurance. Dry goods store of Mr. Sam Fine, 90 Davenport Road, damage to shed at rear by fire and water, $500. Residence of Mr. Walter Miller, 92 Davenport Road, damage, $1,000; $500 insurance. Apartment house at 86 McAlpine Street, owned by Dr. J. M. Johnston and occupied by Mr. H. Townsend and E. W. Williams, slight damage through removing furniture. Shed and stable in rear of residence of Mr. R. Lee, 108 Davenport Road, damage, $500; no insurance.

The branch of the Bank of British North America at Levis, Que., has been closed.

BOND TENDERS INVITED.

London, Ont.—In January the ratepayers will vote on by-laws aggregating about $200,000.

Carleton Place, Ont.—On January 1st a by-law will be voted on to raise $200,000 for waterworks system.

Sault Ste. Marie, Ont.—On January 1st by-laws aggregating $202,000 will be submitted to the ratepayers.

Harriston, Ont.—The county have been asked to guarantee the waterworks bonds to the extent of $35,000.

Ponoka, Alta.—On December 11th the burgesses will vote on a by-law to raise $4,000 for drainage purposes.

Dunnville, Ont.—On December 18th the ratepayers will pass a by-law to raise $24,000 for waterworks system.

Niagara Falls, Ont.—On January 1st the ratepayers will vote on a by-law to raise $2,500 for new fire apparatus, etc.

Port Credit, Ont.—On January 1st the ratepayers will vote on a by-law to raise $7,500 for Hydro-Electric purposes.

Wallaceburg, Ont.—On January 1st the ratepayers will vote on a by-law to loan $20,000 to the Wallaceburg Glass Company.

Killarney, Man.—On December 19th the ratepayers will vote on a by-law to purchase the Collison Electric Light plant at $14,000.

Welland, Ont.—The ratepayers will vote on a by-law to fix the assessment for a canning factory which will locate in the town.

Sheffield Township, Ont.—Until December 15th for $3,500 5 per cent. 20-year school debentures. J. Aylsworth, township clerk, Tamworth.

St. Mary's, Ont.—On January 1st the ratepayers will vote on a by-law to bonus the North Midland Electric Railway Company $5,000.

Hamilton, Ont.—The Separate School Board will issue debentures for $50,000 for two new schools. Rev. J. Leyes, secretary-treasurer.

Dauphin, Man.—On December 15th the ratepayers will vote on the following by-laws:—$7,000 for school purposes, $3,000 for improving town hall.

Grandview, Man.—On December 19th the ratepayers will vote on the following by-laws:—$45,000 for fire fighting apparatus, $7,500 for electric light purposes.

St. Boniface S.D., No. 1188, Man.—On December 19th the ratepayers will vote on a by-law to issue $220,000 debentures. J. B. Cote, city clerk, St. Boniface.

Kingston, Ont.—On January 15th the ratepayers will vote on a by-law to fix the assessment of the Canadian Locomotive Company at $100,000 for the next 10 years.

Tilbury, Ont.—The ratepayers will vote on a by-law to grant a loan of $3,000 to Messrs. Hallett Brothers, to be repaid in six annual instalments, with 5 per cent. interest.

Archie Rural Municipality, Man.—The ratepayers will vote on December 19th on a by-law to raise $1,500 for a municipal building. H. Chipperfield, McAuley, secretary-treasurer.

Melita, Man.—On December 19th the ratepayers will vote on two by-laws to issue $4,000 20-year 6 per cent. fire appliances debentures, and $8,000 20-year 6 per cent. sidewalks debentures, respectively. J. Robertson, clerk.

◆

PERSONAL.

Mr. W. G. Fisher, Canadian Trades Commissioner at Berlin, Germany, has resigned. He was appointed in 1908.

Mr. F. P. Jones, general manager of the Canada Cement Company, has been elected president of the Canadian-Venezuelan Ore Company, Limited. Other Canadian directors are Messrs. N. Curry, H. S. Holt and Sir Max Aitken.

Mr. W. P. Sloane, Winnipeg manager of the Northern Crown Bank, is retiring from the bank's service. During the two years in which Mr. Sloane has been with the Northern Crown Bank his character and ability have won him highly favorable notice, and his retirement will be widely regretted.

THE QUEBEC BANK

REPORT OF PROCEEDINGS OF THE NINETY-FOURTH ANNUAL MEETING OF THE SHAREHOLDERS.

Proceedings of the ninety-fourth annual meeting of the shareholders of the The Quebec Bank, held in the Banking House, Quebec, on Monday, the 4th December, 1911.

Present: John T. Ross, Esq.; Vesey Boswell, Esq.; Thomas McDougall, Esq.; W. A. Marsh, Esq.; Gaspard Lemoine, Esq.; R. MacD. Paterson, Esq.; Hon. F. E. Gilman, Esq.; D. H. Geggie, Esq.; A. E. Scott, Esq.; John Shaw, Esq.; J. G. Scott, Esq., and others.

On motion the chair was taken by John T. Ross, Esq., and Mr. R. C. Patton was requested to act as secretary of the meeting.

The chairman read the report of the directors, and B. B. Stevenson, Esq., general manager, read the statement of the affairs of the bank as on the 31st October, 1911.

Directors' Report.

The directors submit herewith to the shareholders the ninety-fourth report, covering the year ended 31st October, 1911, together with the balance sheet of the bank as on that date.

Profit And Loss Account.

Balance at credit of profit and loss account brought forward		$50,580.95
Profits for the year ending the 31st October, 1911, after deducting charges of management, rebate on discounts and interest on deposits		276,391.89
		$326,972.84
Dividends Nos. 187-188-189-190 at 7 per cent. per annum	$175,000.00	
Reserved for Pension Fund	5,000.00	
Expenditure on Premises at Branches	24,689.13	
Transferred to Contingent Account	100,000.00	
		$304,689.13
Balance at Credit of Profit and Loss Account carried forward		$22,283.71

During the year branches of the bank have been opened at Stanfold, in the Province of Quebec; at Hamilton, in the Province of Ontario; at Bulyea, Govan, Herschel, Saskatoon and Strassburg, in the Province of Saskatchewan; at Alix, in the Province of Alberta, and at Vancouver, in the Province of British Columbia.

The head office and all the branches of the bank have been duly inspected during the year.

The results shown by the statements submitted to you could only have been obtained by loyal and capable work on the part of the staff, and we desire to express our appreciation of their efforts.

All of which is respectfully submitted.

JOHN T. ROSS,
President.

GENERAL STATEMENT

31st October, 1911.

LIABILITIES.

To the Public:—		
Notes of the Bank in Circulation		$ 2,469,684.00
Deposits not bearing Interest	$ 3,620,427.00	
Deposits bearing Interest	10,178,503.01	
Balances due to other Banks in Canada	111,821.32

Overdue Debts (Loss provided for)	53,455.46	
Real Estate (other than Bank Premises)	76,925.74	
Mortgages	1,360.00	
Bank Premises and Furniture	789,357.68	
Other Assets	425,803.47	
		11,836,786.02
		$20,498,584.41

B. B. STEVENSON,
General Manager.

Messrs. John Shaw and A. E. Scott were appointed Scrutineers of the ballot, and after the ballot had been cast and declared closed, the Scrutineers reported that the following gentlemen were elected Directors for the ensuing year, namely: John T. Ross, Esq.; Gaspard Lemoine, Esq.; W. A. Marsh, Esq.: Vesey Boswell, Esq.; Thomas McDougall, Esq.; G. G. Stuart, K.C.; J. E. Aldred, Esq.; R. MacD. Paterson, Esq.

At a Meeting of the Directors held immediately after the Annual Meeting, John T. Ross, Esq., was re-elected President; and Vesey Boswell, Esq., Vice-President.

NEWS AND NOTES.

Mr. H. W. Crosslin, for many years first assistant to the secretary of the Western branch of the Canadian Fire Underwriters' Association, has been appointed resident inspector of the fire branch of the Employers' Liability Assurance Corporation, Limited, of London, with special charge of their Toronto branch office in the Temple Building, Bay Street, Toronto.

A Prince Albert man complains that eastern Canadian loan companies have neglected his city. "While Prince Albert has never caused any loan institution to lose money," he says, "it was not recognized as an important centre until this year, and it is only within the last few months that some of the larger companies have sent their valuators over the city to report. Now that general attention has been directed here, it is found that not only is this a safe city in which to place capital, but that owing to certain local conditions, Prince Albert ranks very high as regards the security and ability to pay promptly in connection with any money advanced by the east."

Mr. Bonar Law may fairly be regarded as the first native of New Brunswick to reach a conspicuous position in Imperial politics, says the Westminster Gazette, London, and the Maritime Province takes pardonable pride in his elevation. But it has long been noted, not only in Canada, but also in the States, for the large number of able men, notably lawyers and bankers, that it has produced. A well-known native of New Brunswick in the city is Mr. F. Williams Taylor, the manager of the Bank of Montreal, in Threadneedle-street. Not a little of this success may be ascribed probably to the fact that since the earliest days the New Brunswickers have always been a particularly well-educated people. Their forefathers, the Loyalists, who retired from the United States to this province at the conclusion of the War of Independence, included many of the most cultivated people in the American Continent. So much was this the case that it is said that immediately after 1783 there were more graduates of Harvard in New Brunswick and in Canada generally than there were in the United States.

THE BANK OF MONTREAL

Proceedings at the 94th Annual Meeting of Shareholders

The 94th annual general meeting of the Shareholders of the Bank of Montreal was held yesterday at noon in the Board Room, at the Bank's headquarters.

Amongst those present were:—Mr. R. B. Angus, Sir Edward Clouston, Bart., Sir William Macdonald, Sir Thomas G. Shaughnessy, Messrs. D. Morrice, H. V. Meredith, E. B. Greenshields, Hon. Robert Mackay, James Ross, W. Molson Macpherson, C. J. Fleet, K.C., Dr. H. B. Yates, G. F. C. Smith, Rev. G. H. Parker (Lennoxville), C. H. Cahan, K.C., William H. Evans, Hugh Paton, George Hooper, Henry Joseph, M. S. Foley, W. R. Miller, John Hamilton, George Durnford, C. S. Garland, W. Blackader, William Stanway, Mr. Archibald, C. Meredith, Mr. Alexander, Bartlett McLennan, James Crathern, P. F. McCaffrey, John Beatty, H. Meredith Smith, H. Dobell, J. B. Learmont, John Patterson, H. B. Scott, C. W. Buchanan, and James Skeoch.

On motion of Mr. W. M. Macpherson, the President, Mr. R. B. Angus, was requested to take the chair.

It was then moved by Mr. C. J. Fleet, K.C., seconded by Dr. H. B. Yates, that Messrs. G. F. C. Smith and Bartlett H. McLennan be appointed to act as Scrutineers, and that Mr. James Aird be the Secretary of the meeting. This was carried unanimously.

THE ANNUAL REPORT

Sir Edward Clouston, Bart., the General Manager of the Bank, was then called upon to read the annual report of the Directors to the Shareholders at their 94th annual general meeting held 4th December, 1911:—

The Directors have pleasure in presenting the report showing the result of the Bank's business for the year ended 31st October, 1911.

Balance of Profit and Loss Account, 31st October, 1910		$ 961,789.11
Profits for the year ended 31st October, 1911, after deducting charges of management, and making full provision for all bad and doubtful debts		2,276,518.75
Premiums on New Stock		365,677.50
Adjustment Bank Premises Account		3,400,000.00
		$7,003,985.36
Dividend 2½% paid 1st March, 1911	$360,000.00	
Dividend 2½% paid 1st June, 1911	360,000.00	
Dividend 2½% paid 1st Sept., 1911	360,000.00	
Dividend 2½% paid 1st Dec., 1911	360,000.00	
	$1,440,000.00	
Amount credited to Rest Account	3,000,000.00	
Amount expended on new Premises during year	708,800.00	$5,148,800.00
Balance of Profit and Loss carried forward		$1,855,185.36

Since the last annual meeting branches have been opened at Grand Falls, Nfld.; West Summerland, B.C.; Suffield, Alta.; Athalmer, B.C.; Kamloops, B.C., and Port Haney, B.C.

At a special meeting of the Shareholders, held on 5th September, 1911, an issue of $1,600,000 new Capital Stock was authorized, making the total Paid-up Capital of the Bank $16,000,000, and at this date $1,013,000 of the new stock has been subscribed for.

It has been decided to increase the Bank Premises Account to an amount which, while still thoroughly conservative, more closely approximates the value of our land and buildings as assets than did the former practice.

All the offices of the Bank, including the Head Office, have been inspected during the year.

Bank of Montreal, 4th December, 1911. (Signed) R. B. ANGUS, President.

THE GENERAL STATEMENT

The General Statement at 31st October, 1911, was read as follows:—

LIABILITIES

Capital Stock		$ 14,887,570.00
Rest	$15,000,000.00	
Balance of Profits carried forward	1,855,185.36	
	$16,855,185.36	
Unclaimed Dividends	1,508.01	
Quarterly Dividend, payable 1st December, 1911	360,000.00	17,216,693.37
		$32,104,263.37
Notes of the Bank in circulation	$15,914,654.00	
Deposits not bearing interest	46,187,554.74	
Deposits bearing interest	135,538,261.10	
Balances due to other Banks in Canada	175,687.44	197,816,157.28
		$229,920,420.65

ASSETS

Gold and silver coin current		$ 9,627,050.47	
Government demand notes		9,717,605.75	
Deposit with Dominion Government required by Act of Parliament for security of general bank note circulation		700,000.00	
Due by agencies of this Bank and other Banks in Great Britain	$14,566,291.85

			$229,920,420.65

Bank of Montreal, Montreal, 31st October, 1911. E. S. CLOUSTON, General Manager.

THE PRESIDENT'S ADDRESS.

The President, Mr. R. B. Angus, then moved the adoption of the report, seconded by the Vice-President, Sir Edward Clouston, Bart. The President said:—

I beg to move the adoption of the report; and in doing so I have to call attention of the Shareholders to two important changes in the Annual Statement.

The one that was authorized by you at the special meeting of 5th September and subsequently approved by the Treasury Board, provided for an increase of the Capital Stock by $1,600,000—mainly with a view of extending to that amount the right to increase the issue of notes in circulation. This appeared to be urgently demanded, as the circulation of this Bank had reached the legal limit, the amount of the paid-up capital; and as other Banks were much in the same position, it was feared that a great scarcity of currency would soon be experienced.

Another considerable change in the Statement at this time will be seen in the treatment of Bank Premises Account, ~~which for~~ The years ~~had~~ been represented by the comparatively insignificant sum of $600,000, notwithstanding the large expenditure recently incurred for Bank Buildings and for providing suitable accommodation for the increasing business throughout the country. ~~Your~~ The Directors ha~~ve~~d been frequently criticized for having charged the full amount of the cost under this head against the profits of the year, and it ~~has been~~ was suggested that ~~we~~ they should alter ~~our~~ this system to conform to that of other Banks in the published statements. ~~We have~~ therefore had a conservative valuation made of the property, which results in ~~the figures now submitted, namely,~~ a total of $9,088,000; land, $4,735,000, and buildings, $4,353,000, ~~and have taken~~ this took back less than half that amount, or $4,000,000—more adequately to represent ~~this~~ that item in the balance sheet. To adjust bank premises consequently the sum of $3,400,000 ~~has been~~ was applied and the balance carried forward.

The calls on New Stock extend over a period of nine months, and the payments being completed, the capital will stand at $16,000,000, and the rest at a like amount.

On 15th September last we sustained a loss of $271,721.00 by burglary at New Westminster, one of our important branches, where a considerable amount of money had been provided for the payment of wages. A small portion so far has been recovered in addition to the insurance, and the balance has been written off.

The business of the Bank has been fairly prosperous during the year, although the employment of spare funds, in call and short loans, has been less productive than usual, the prevailing rates having been extremely low in New York and London during the whole period. The ordinary deposits show a gratifying increase, while those of a temporary character have to some extent fallen off, as we have been unwilling to encourage them at a higher rate of interest.

The money markets of Great Britain and the Continent of Europe have taken freely of Canadian bonds and stocks, municipal, railway and industrial. There was a brief interval of dullness, but that condition seems to have passed, and well-vouched-for securities are again in good demand. There is ample room for the employment of foreign capital in this rapidly developing country, and it becomes the more imperative that no issue having any taint or doubtful value should be submitted to the foreign investor.

During the year under review Canada has enjoyed a period of great prosperity in almost every department of trade and commerce, and has undoubtedly added largely to her permanent and productive wealth; although this has been more marked in the prairie Provinces and British Columbia, Ontario, Quebec and the Maritime Provinces have not failed to participate.

The mining industry of British Columbia has taken on a new life, although the prolonged coal strike has seriously interfered with the operation of the mines and lessened their product. The mines in Ontario have been wonderfully productive. The iron and coal of Nova Scotia have had a large output and promise to be more profitable when their organization is more complete.

Manufacturers have been fully occupied and new industries of every description are springing up in all parts of the Dominion.

In immigration from Europe and the United States Canada has attracted 348,633 souls to her population, an increase over the previous year of 56,369. This item alone represents a very substantial gain, the value of each immigrant in money and property brought into the country has been variously estimated, and in the aggregate we know it must be very great; but still more to be valued is the advantage of the advent of so many additional lands, mostly farm laborers, who repair at once to the lands which lie open to their enterprise.

The increasing immigration, the consequent development of new acreage, and the various climatic conditions, make it difficult to estimate the result of the harvest. For instance, the generally accepted figures for last year ranged from 80 to 95 millions of wheat, while the final outrun showed actually 118 millions in round figures. I have from a capable and well-informed source the following estimate for this year. He says with regard to the western crops:—

> Early estimates made by competent judges were in the neighborhood of 200 million bushels. However, since then these estimates have been reduced to about 180 millions, owing to subsequent unfavorable weather conditions. While the quality this year, as a whole, is not all that could be desired, the average prices being paid for the lower grades are even better than the prices obtainable in many previous years for the higher grades, and consequently the net cash returns will be the largest ever obtained from our Northwest.

When considering the effect of the wheat crop in relation to its influence on the prosperity of our Dominion, the value of the other cereals produced in our Northwest must not be overlooked. If we accept the present estimates of the various important grains, which are as follows:—

Wheat	180,000,000 bushels
Oats	200,000,000 bushels
Barley	35,000,000 bushels
Flax	7,000,000 bushels

the cash value to the farmer, at the average prices prevailing today, would be approximately over $235,000,000, no inconsiderable sum, considering that this is exclusive of the farmers' receipts from various other sources, such as live stock, hay, root crops and dairy products.

Railway construction, especially in the Northwest, continues to manifest great activity; and while in its immediate effect it benefits the country by the expenditure of money and the employment of labor, where the lines are judiciously chosen, it prepares the way for settlement and affords facilities for intercourse and ready access to markets.

Most worthy of note are the extensive irrigation works in the Northwest, by which the arid lands are converted into fruitful fields destined to become the homes of a large farming population. As to the ready-made farms, they cannot be supplied fast enough to meet the wants of would-be settlers. While the railway took the initiative in this enterprise, it is being followed by large landholders and capitalists of Great Britain, who, from patriotic motives in some instances, are making such investments with the view of supplying homes and giving a fresh start in life to the surplus population of the Mother Country. Experimental farms for the instruction and convenience of settlers are also of immense advantage and are gradually being extended to every Province of the Dominion.

A review of the various branches of trade and industry throughout the Dominion is beyond my province, although the Bank in its widespread operations is vitally interested in the commercial life of the country, and touches it at every point. I, therefore, attempt but a brief summary.

The dry goods trade of 1911 has been somewhat unsatisfactory. In the spring stocks were heavy and the demand light, this being to some extent a legacy of the previous year. But a decided improvement has set in with much better prospects.

In Canadian cottons a largely increased trade has been experienced with firm prices, and imports are gradually decreasing.

Early in the year also our woolen and worsted manufacturers suffered from the competition of foreign imports. Goods intended for the United States, where the markets were overstocked, were, according to Bradford reports, sold in Canada at a sacrifice, but that condition of things has been overcome and the mills are now well employed in goods for next season.

Indeed, competent authorities report the wholesale trade to be at present in a comparatively flourishing condition and increasing in volume.

The iron and hardware trade and groceries are said to be decidedly good, although profits are somewhat curtailed by excessive competition.

In boots and shoes a large and apparently profitable business has been transacted, notwithstanding the high price of leather. A most remarkable change has taken place in the values of butter and cheese, as compared with those of a year ago. Farmers have been receiving 3c more per lb. for cheese and 5c to 6c more for butter. The advance has been realized on a considerable portion of the season's make—indicating that the farmers have received at least $3,000,000 more for their exports of dairy products than for the corresponding period of last year. The hay crop of the Dominion for 1911 was less than the previous year, but the farmers have realized from it a larger return by $2 to $3 per ton, and a good demand exists both in the United States and Great Britain.

The export of cattle continues to grow less each succeeding year, this being due in a great measure to the larger consumption of the home market and the increasing population both in the East and West.

The fisheries on our Atlantic Coast have been exceedingly prosperous and last year everyone who handled fish made money through the transaction. The fishermen had the biggest catch and obtained the highest prices recorded. This is true generally both in regard to our Maritime Provinces and Newfoundland.

With regard to the Pacific Coast, the salmon pack is reported to have been an average one. The market is active and prices good. Other fishery conditions are generally satisfactory.

Recent changes in the tariff of the United States and the comparative failure of the water powers in that country, have brought the pulp and paper making in Canada into prominence. Several of our mills have been successful in their operations; and with our extensive spruce forests and unsurpassed hydraulic powers, this industry is sure to find a natural development in this country.

The lumber trade has been poor throughout the year, especially in British Columbia, which has had to face the keen competition of the Western States, whose lumber has been forced upon the Canadian markets in consequence of the almost complete paralysis of business in their own neighborhood. In the East and especially of late, there has been experienced a marked improvement, both in export and local account. In the latter there has been an unprecedentedly brisk and profitable demand in consequence of the activity of building operations.

This leads me to remark upon the real estate transactions which in some districts savor too much of speculation. In Montreal and other large eastern cities, prices have long been in a measure dormant, until recently, when the public suddenly realized the necessity of providing homes and commercial buildings for the vastly increased population. Hence the rise in values which is not without justification.

The business of the port of Montreal shows a healthy increase. The total quantity of grain exported during the season of navigation is about 29,388,359, as compared with 26,349,514 bushels last season, while the exports of flour have almost doubled.

With the high prices of agricultural produce prevailing, the farmers of Canada have had a profitable year, which is reflected in the satisfactory condition of the general business in all portions of the Dominion.

There can be no more certain indication of the business activity and general prosperity of the country than the railway earnings, which are phenomenally large.

I regret to announce the retirement of Sir Edward S. Clouston, Baronet, from the General Managership of the Bank. After 47 years of service, 20 of which have been passed in the chief executive office, it is natural that he should seek some relief from the arduous duties of that position. I am happy to say, however, that his mature judgment and great experience will still be available to the administration, when required, in the less strenuous office of Vice-President.

He will be succeeded by Mr. H. V. Meredith, an able and well-qualified officer, who will surround himself with such capable assistants as are always to be found on the staff of the Bank.

SIR EDWARD CLOUSTON.

In seconding the adoption of the report, Sir Edward Clouston said:—

As the President has dealt with the general business of the country, I will confine the few remarks I make to the Statement, a copy of which you have in your hands.

To meet the wishes of the Shareholders, expressed at several of our meetings, and to conform to the custom of the other Banks in Canada, we have shown the amount expended on new Bank Premises during the past year. 2) We have ~~also~~ obtained valuations of all our lands and buildings, and I do not think we can be accused of over-valuation when we place the value in our Statement at $4,000,000, somewhat less than the value of the land alone. In fact, to the amount of $9,000,000 should be added the cost of uncompleted buildings, making it $700,000 more. The increase of $3,400,000 over former Statements has been employed partly to increase our Rest to an amount equal to our paid-up capital, and the surplus has been carried to our Profit and Loss Account. Speaking as an individual, and in no way as a mouthpiece of the Board, I would not advocate increasing, in future, our Rest beyond the paid-up capital. (3) I should always like to keep the Profit and Loss Account at its present amount, as a reserve, to be used when the Directors might see fit to do so in the interests of the Bank, and any surplus profits, after full appropriations have been made, I would suggest distributing among the Shareholders.

The shrinkage in deposits, as compared with last year, is accounted for by the fact that at that time we had very large special deposits, which were shortly after distributed. The regular deposit business of the Bank has been satisfactory. The increase in our loans is an evidence that our Canadian business is steadily increasing. I think you will agree with me that the Statement is a strong and satisfactory Statement.

The President has mentioned that I have decided to retire from active executive work. I have held the stage for a long time, for I find my service in the General Manager's position is more than double that of any of my predecessors. I have kept in mind, however, that while corporations may go on forever, the men who manage them come and go, and with that in view I have always tried to arrange that the exit of any one man should not in any way interfere with the business of the Bank. In passing over the reins of office to my successor, I feel I am doing a good thing for the Bank and its Shareholders. Mr. Meredith has spent all his active business life in the service of the Bank, is familiar with its policy, is trained in its traditions, and has been uniformly successful in his previous appointments. I have no doubt he will be equally successful in the high office to which he is called and I am quite satisfied your property will be handled conservatively.

Rev. G. H. Parker then made a brief address, enquiring whether there was a prospect of increased dividends to the Shareholders with the increased earning capacity of the Bank.

Mr. R. B. Angus:—"This question has already been dealt with by the retiring General Manager. He was, of course, only speaking for himself and without any knowledge of what the year might bring forth, when we shall be in better position to ascertain what the profits are. There is no doubt whatever that if the profits are adequate an additional dividend will be paid, but this depends so much on the outcome of the year's business that nothing definite can be said in anticipation."

The annual report was then unanimously adopted.

It was moved by Mr. Hugh Paton, seconded by Mr. George Hooper, that the thanks of the meeting be presented to the President, the Vice-President, and Directors, for their attention to the interests of the Bank.

Mr. Hugh Paton—"I am informed that it is not usual to speak to this motion. I will therefore content myself by remarking that it is peculiarly applicable to the present occasion, judging by the events of the year, and the work of the Bank as shown by the report just presented.

The motion was then unanimously adopted.

The President:—"Gentlemen, on behalf of the President, the Vice-President and Directors, I wish to thank you for this mark of your renewed confidence. We have been able to carry on the affairs of the Bank during the year with the loyal support of the staff, all of whom have been anxious to work for the furtherance of the interests of this institution. I feel that all the officials and staff have done their duty, and on behalf of them I wish to express our appreciation of the cordial support we have always received in our work." (Applause).

Moved by Sir Thomas G. Shaughnessy, seconded by Mr. C. R. Hosmer, that the thanks of the meeting be given to the General Manager, the Assistant General Manager, the Superintendents, the Inspectors, the Managers and other officers of the Bank, for their services during the past year.

This was unanimously adopted.

The General Manager (Sir Edward Clouston):—"On behalf of myself, the Assistant General Manager, and the other officers of the Bank, I wish to thank you for this kind motion. I have always realized that the success of anyone in the position I have held depends largely on the efficiency and loyalty of his staff. I feel that I have had that to a great extent in the past, and on behalf of the staff I have much pleasure in thanking you for your sign of continued confidence."

Mr. C. H. Cahan, K.C.:—"As a Shareholder, I think it would be an expression of the feeling of all the Shareholders of this Bank if we, as Shareholders, moved an expression of our regret at the announcement of the retirement of Sir Edward Clouston from the chief executive office of the bank, and an expression of our appreciation of the valuable services he has for so many years rendered to this Bank and its clients. Sir Edward Clouston has during many years held a very important and distinguished place in the banking affairs of Canada. Not only have his experience and services been of invaluable assistance to this Bank, but by his clear judgment, keen insight and extended knowledge of business affairs, his advice has been of invaluable assistance to the clients of this Bank, who have frequently used it in times of need.

"As a Shareholder, therefore, I beg to move a resolution expressing our appreciation of the services of Sir Edward Clouston and our regret that the circumstances of his health and long service have rendered it necessary in his opinion for him to sever his connection with the Bank as its chief executive officer." (Applause).

This resolution was seconded by Mr. James Skeoch, and unanimously adopted.

Sir Edward Clouston:—"I must thank the mover and seconder of this resolution, and the Shareholders sincerely, for all that has been said. I have always tried to do my best in the interests of the Bank during my long connection with it, and feel very keen regret that I am now compelled to sever my connection with it as General Manager."

The ballot for the election of Directors was then proceeded with, and without much delay the Scrutineers appointed for that purpose reported the following gentlemen duly elected, the old Board being re-elected:—

Messrs. R. B. Angus, A. Baumgarten, Sir Edward Clouston, Bart., E. B. Greenshields, C. R. Hosmer, Sir William C. Macdonald, Hon. Robert Mackay, H. V. Meredith, D. Morrice, James Ross, Sir Thomas Shaughnessy, K.C.V.O., Rt. Hon. Lord Strathcona and Mount Royal, G.C.M.G., G.C.V.O.

OFFICERS ELECTED.

At a meeting of the Directors held later, the Right Honorable Lord Strathcona and Mount Royal, G.C.M.G., G.C.V.O., was elected Honorary President of the Bank; Mr. R. B. Angus, President, and Sir Edward Clouston, Bart., Vice-President.

Subscription list will close on or before 3 p.m. on Tuesday, December 12th

GENERAL OFFICE AND WORKS: HAMILTON

SUBSCRIPTIONS

The Trusts and Guarantee Company of Toronto and the Mercantile Trust Company of Hamilton will receive subscriptions for the above offering. Payments to be made as follows:

$1.00 per share on application.
$3.00 per share on allotment.
$3.00 per share on January 15, 1912.
$3.00 per share on March 15, 1912.

Or payment may be made in full, and interest at the rate of 7 per cent. per annum from time of such payment will be allowed up to March 15th, 1912.

The following information is supplied by Mr. Gerard Muntz, the Managing Director.

COMPANY IN STRONG POSITION

The Schacht Motor Car Company of Canada, Limited, was incorporated for the purpose of manufacturing and selling in Canada, Newfoundland, and the United Kingdom, the pleasure and commercial cars and trucks of the design and under the patent rights of the well-known Schacht Motor Car Company of Cincinnati.

An operating agreement between the parent company and the new Canadian Company provides that the latter shall enjoy all the patents and receive the benefits of all experimental work, both now and in the future, of the Cincinnati Company. The latter company also agrees to supply the Canadian Company with any parts or accessories now or in the future manufactured by it, at prices satisfactory to the Company. The material advantages enjoyed by the Canadian Company by reason of this association are the most valuable enjoyed by any Canadian Company.

FUTURE OF INDUSTRY

The permanency and future of the commercial car industry, in which the Canadian Company will specialize, is assured. It is recognized that such enormous savings can be effected in all kinds of delivery, more especially in the larger centres, through the use of trucks and commercial cars, that it is only a question of time until every large store and shipping company will be using them. On this account it will be a great many years before the Canadian Companies will be able to meet the demands of this market. Filling, as it does, an urgent commercial demand, the industry will not be subject to fluctuations which might be possible where only pleasure cars are made.

COMPANY HAS ADVANTAGE OF LONG EXPERIENCE

The Schacht Motor Car Company, of Cincinnati, with which the Canadian Company is closely associated, is an example of sound and successful management. The shareholders have been paid regular annual cash dividends of 6 per cent. and, in addition, have received stock dividends of 200 per cent. during the past ten years.

The Company has established a substantial reputation for the reliability of its output.

The Company makes a specialty of large trucks and commercial cars, while the merits of its pleasure cars have been demonstrated by a splendid series of records throughout the United States.

The interests who have helped to make the American Company pre-eminently successful will be actively identified with the new Company, while Mr. Fred A. Charf, who for the past seven years has been superintendent of the Company's plants at Cincinnati, will occupy the position of superintendent of the new Canadian Company.

In placing before the public the above issue, we believe that we can safely confirm the foregoing statements and recommend the purchase of these shares as an attractive investment providing safety and a high interest return. In addition these Preferred Shares carry a bonus of 20 per cent. of Common Stock and thereby provide a ready means for the Preferred Shareholders to further participate in the profits of the Company over the 7 per cent.

Copies of the prospectus and application forms will be furnished on request.

Schacht Motor Car Stock Offering — Crop Figures Should Not Act as Bearish Influence on Railroad Stocks.

While no considerable block of the bonds of the Sherbrooke Railway & Power Company has been placed at any one time in Paris, orders have been received for some time past from France, and the French holdings are now fairly considerable.

The outstanding capitalization of the company is as follows: $1,000,000 of bonds, $1,000,000 of stock.

Before the close of the year probably, a further issue of $400,000 preferred stock will be made by Carriage Factories, Limited. The company has underwritten the 4,000 preference shares but the actual formalities have not yet been completed.

The capital of the company as it stands to-day is as follows:—

	Authorized.	Issued.
Preference shares	$2,000,000	$1,200,800
Ordinary shares	2,000,000	1,200,000
First mortgage 6% bonds ...	1,000,000	500,000

Crops and Railroad Stocks.

"An extraordinary view of the western situation is that some English investors have been selling Canadian Pacific Railway shares because of the poor crops," writes a correspondent to The Monetary Times. "Unfortunately for the grain-grower, the railway companies take the same freight for conveying inferior grain as they charge for No. 1 hard, and as the quantity of grain this year is the largest in the history of the country, one wonders where the speculator can see the bearish influence on railway stocks."

An offering of the preference shares of the Schacht Motor Car Company of Canada, Limited, is being made at par, $10 a share. The stock carries with it a bonus of 20 per cent. of ordinary stock. The subscription lists opened on Tuesday at the offices of the Trusts & Guarantee Company, Limited, of Toronto, and the Merchantile Trust Company of Hamilton. The company's factory at Hamilton has been in successful operation for some time past and the present issue will supply additional working capital which will enable the company to largely increase its output of commercial trucks and pleasure cars during the coming year.

The preference shares confer the right to a fixed cumulative preferential dividend at the rate of 75 per cent. per annum. They also confer the right to priority to return of capital. The subscriptions for the stock are payable $1 per share on application, $3 per share on allotment, $3 per share on January 15, 1912, and $3 per share on March 15, 1912, or payment may be made in full in which case interest at the rate of 7 per cent. per annum from time of such payment will be allowed up to March 15, 1912.

Canadian Issues in London.

The issue of Winnipeg Paint Glass Company in London is $400,000 7 per cent. cumulative participating preference shares at par; $100,000 will also be issued in Canada. A reference to this flotation appeared in these columns last week.

The Financial News says: "Winnipeg is working wonder in the way of progress, but it does not necessarily follow that an enterprise will pay because it comes from Winnipeg. A case in point may arise at any moment."

Application has been made to the London Stock Exchange to list "Soo" Railway $4,374,900 common and $2,187,500 preferred; Marconi Wireless Company 33,325 pound shares; North Vancouver City £130,500 4½'s, and Toronto City £243,000 4's.

May Establish Sinking Fund for Liquidating City Debt.

Mr. William Robb, city treasurer of Montreal, in speaking of a proposal to establish a sinking fund to liquidate the debt of the city when due, says that to work out this scheme it was proposed to keep investing the sinking fund of the city in its own bonds, so that the corporation would be carrying its own rates of interest.

"Why not float perpetual bonds like the British consols, and buy them back whenever there was a surplus in the way the British Government liquidates its national debt?" Mr. Robb was asked.

"We would have no guarantee of being able to buy them back," he answered. "We are purchasing in our old seven per cent. bonds issued in 1868, but we can secure only a few. We are paying $175 for them, but the holders do not care to part with a permanent security, although they increase their capital by doing so."

Mr. Robb said that half a million dollars of these bonds were still out, although the original issue, he thought, was only for $600,000.

Mr. Robb was then asked what he thought of a proposition to issue annuity bonds, say at four per cent., all payable at the end of forty years, so that the interest and principal might be both paid at the end of that time.

He replied that this method might be done with future debts to meet the requirements of the future. This style of loan would be more suitable for the money markets of France, for the French people were accustomed to buying annuities for their own investment, to last them for a whole or a part of their lifetime. On the contrary, the English-speaking investor generally desired a permanent investment.

Wingham, Ont.—The ratepayers have sanctioned a bylaw to grant a loan to the Western Foundry Company.

Maryfield, Sask.—Tenders are being called for $1,525 for permanent improvements debentures. J. B. Stallwood, secretary-treasurer.

Ayton, Ont.—Until December 9th for $6,000 4½ per cent. 20-year school debentures, guaranteed by the Township of Normanby. R. H. Fortune, secretary-treasurer, school board. (Official advertisement appears on another page).

Dauphin, Man.—On December 19th the ratepayers will vote on the following debenture by-laws:—$7,000 for permanent improvements; $3,000 for alterations on town hall; $2,000 for bridges. J. W. Johnson, secretary-treasurer.

Hamilton, Ont.—The following by-laws will be submitted to the ratepayers in January:—$650,000 waterworks extension, $40,000 for parks, etc., $70,000 for extending Birch Avenue, $65,000 for new fire station, $60,000 for park in eastern part of city.

Vancouver, B.C.—The list of money by-laws to come before the council is as follows:—To buy lot 9, block 59, D. L. 264A and lots 16-21, block 68, D. L. 264A to widen First avenue from Clark Drive to False Creek, $20,500; to buy part of lot 12, block 23, D. L. 264A, being a triangular piece at the southwest corner of Park Drive and Venables street, $4,100; sanitary arrangements in the city, no sum specified as yet; fireboat, no sum mentioned; buying site and building firehall in Hastings Townsite, $17,000; buying site and building firehall in D. L. 301. $14,500; erecting new firehall in West Kitsilano, $10,000; opening and rough grading streets in Hastings Townsite, $75,000; purchasing and erecting rock crushing plant and bunkers, $40,000; for extinguishment of riparian rights to lot 1, block 3, D. L. 200A, $6,100; purchasing lot A, block 28, D. L. 264A, $3,950; establishment, equipment and maintenance of free dispensary, $7,500; establishment, equipment and maintenance of a creche, $7,500; laying out and improvement of present cemetery, $20,000; purchase of land for new cemetery, no sum mentioned; addition to juvenile detention home, $6,000; waterworks extension on Seymour Creek and buying land for storage basin, $400,000; for exhibition purposes, $125,000; for park sites purchase, $1,250,000; for erection of four East End bridges, $556,855 (this will probably be reduced to approximately $300,000 as the sum given represents the entire cost of the work and the Great Northern will be asked to pay part, while the paving will be assessed against the property owners); sewers, $1,000,000; rocking and planking roads, $375,000; grading, bulkheading and culverts, $325,000; clearing and rough grading streets, $167,000; clearing and rough grading lanes, $58,000; for board of works plant, $100,000; Harris-Georgia street bridge, $550,000; school purposes, $861,500; D. L. 301, permanent improvements, $50,000; construction of new police headquarters, $150,000; waterworks extensions, $300,000; old folks' home, $60,000; to purchase part of south-east corner of Granville street and Fourth avenue, $20,000; to purchase site for morgue, free dispensary and emergency hospital, $50,000; market spur, $9,000; market cold storage and addition, $12,000; improvements to city parks, $100,000. Total, $6,751,605.

◆

The Board of Trade, Moose Jaw, Sask., have issued an attractive booklet giving much information regarding the city. Moose Jaw is the wholesale and distributing centre of the province, the site of the largest factories, and the most important commercial centre in Western Canada between Winnipeg and Calgary.

A new canning company is being formed, headed by Mr. C. H. Cahan, with the probable title, British-Canadian Canners' Company, Limited. The paid-up capital will be $500,000, 6 per cent bonds, and $750,000 of common stock, which may be offered to the public as a bonus, with the bonds. The capitalists already identified with the company are Messrs. C. H. Cahan, H. A. Lovett, John Black, of the Montreal Cotton Company, and Sir Henry Bate, of Ottawa. The company will erect five canning factories in Ontario.

British Columbia Mortgages

In placing any surplus funds your first thought should be—security. The careful investor is wary of mining and oil shares, because no security is usually given.

No safer form of investment exists to-day than first mortgages. Ours are placed on improved city properties in Vancouver and farms in Saskatchewan and Alberta. Our valuations are made by experts and are very conservative.

No loan is placed for more than 50% of appraised value. All loans are approved by board of directors. The company insists on the payment of a portion of principal at end of third year, interest payable half-yearly. Titles are searched and certified by our solicitors.

We guarantee to net you SIX PER CENT., making all collections and attending to minor details without charge. Let us tell you more about our Guaranteed First Mortgages.

ALLAN HAYNES, OPTIMISTIC PROMOTER

And Stock Salesman of the Edmonton Portland Cement Company—A Few Reflections Upon His Six "Articles."

Mr. Allan Haynes, Limited, of Edmonton, Alberta, has told the investing public of Canada that he has a good thing in the shape of a proposed cement company. Unlike the average man who has a good thing, says little, raises money and gets down to business, Mr. Haynes has spread his optimistic oratory over six large advertisements, in order to state that he is selling stock of the Edmonton Portland Cement Company at $110 per share, that the shares "will go to $200 within the next year," and that they "should pay a dividend of more than 25 per cent. as soon as the plant is in operation." Before arriving at those facts, Mr. Haynes thought it necessary to prattle about the altar of the Goddess of Fortune, the Empire of Individualism, the mystic charm of the Peace River Valley, and a hundred other things that have as much relation to the selling of cement stock as a school boy has to the conduct of a bank.

Here is the thrilling story of organization as told in "Article No. 2," published broadcast in Canada. "Starting on the 20th day of last March with a little table and a typewriting machine in one corner of its organizer's room in an Edmonton Hotel, this Organization Institution has grown in less than eight months to a great business, occupying five rooms in a large office building, and employing more than fifty men and women, most of whom are experts in their lines. And with the beginning of the new year, this Institution will occupy the entire top floor of the largest office building in Edmonton, and will be employing more than one hundred men and women." We wonder what proportion of the organization institution is engaged in sending out circulars to the investing public.

Another Thrilling Story.

Still more romantic and stirring is the story told in "Article No. 1," of the discovery of cement ingredients. But we can afford to skip the picturesque language of Mr. Haynes, who apparently thought such an outpouring of eloquence at so much per line would be well repaid in stock subscriptions.

As to the Modest Dividend.

Nor is he modest in dividend anticipations estimating as he does an annual profit of 25 per cent. This is how he figures it:—

Gross sales 312,000 barrels at $3.05		$951,600
Cost of production at $0.78	$243,360	
Freight $0.25	78,000	
		$321,360
Net profits on year's operations		$630,240

In "Article No. 1," Mr. Allan Haynes predicts that the shares will advance to $150 within a year. By the time "Article No. 4" is reached, "the shares will go to $125 within a very short time, and to $150 by July 1st, next." In the same article, a statement of assets and liabilities "should make the shares worth $220." In "Article No. 5," we are told that "the price will be advanced to $120" from $110. Mr. Haynes overlooks that it is the easiest operation for promoters to advance the price of shares, but sometimes the most difficult thing for shareholders to sell at the selling price named by the stock salesman. However, Mr. Haynes has elastic notions regarding the future value of shares, varying from $100 to $220.

"This should mean an annual dividend on the capital stock of the company, which is $1,500,000, of much more than 25 per cent."

Mr. Haynes Says He Can Beat Price.

Mr. Haynes thinks he can rely on a selling price of $3.05 per barrel. Can he do so in view of the average prices ruling at the works in Canada during the past few years, and the facts that there are competing plants nearby, and that there was a reduction of 7 cents made in the price at Winnipeg last week, and that the public is demanding cheaper cement. Here are the average prices per barrel, government figures, since 1906:—

Year.	Price per barrel.
1906	$1.70
1907	$1.60
1908	$1.39
1909	$1.31
1910	$1.34

Mr. Haynes says he can beat these average prices per barrel at the works and manufacture cement at 78 cents. He tells us, too, that there has been a cement famine since the day of its discovery. That will be news to practical cement men in Canada.

Some Interesting Figures.

Here are further interesting figures of Mr. Haynes:—

"When the plant is in operation the shares will have a book value of about $200, as will be shown by the following, which is approximately the figures of the company's statement when the plant is in operation:—

Assets.		
Cash for working capital .. $	170,000	
Plant at cost	630,000	
Materials sufficient for the manufacture of 12,500,000 barrels of Portland Cement at 20 cents per barrel	2,500,000	$3,300,000
Liabilities.		
Capital Stock	$1,500,000	
Surplus to Shareholders	1,800,000	$3,300,000

"This statement should make the shares worth $220."

Who estimated the manufacturing materials in sight? The surplus to shareholders is necessarily in the dim future.

Indeed, the entire statement savors of optimism inconsistent with business conservatism.

Finally, we should like to know, and every investor has a right to know, something of the history and past enterprises of Mr. Allan Haynes, the active spirit guiding the destinies of the sale of stock of the Edmonton Portland Cement Company, Limited. Mr. Haynes is too modest to tell us in his six "articles" whether he has any knowledge whatever of the practical side of the cement business, or whether his chief interest is in the sale of the stock. He does not enlighten us as to what work he has been undertaking during the past few years, and where. He simply bobs up with a volcano of oratory, commercial optimism and big figures, apparently expecting the Canadian investor to digest what he says, and invest in his shares, without knowing anything of the man who is running things.

ONTARIO'S LUMBER CUT LAST YEAR.

Ontario still produces a little over one-third of the quantity of the lumber cut annually in Canada, but its annual cut, while increasing, is increasing more slowly each year. Ontario's 1909 cut was 17 per cent. greater than in 1908; its 1910 cut was only 7.5 per cent. more than in 1909. The Forestry Branch of the Department of the Interior has compiled statistics showing that 1,642,191,000 feet of lumber, worth $30,011,000, was cut in Ontario during 1910, but that British Columbia will be Canada's premier lumber province in a short time. The diversified forests of Ontario have enabled this province to hold its supremacy up to the present, as illustrated in 1910, when the chief cut of seventeen species came from Ontario. White Pine to the value of $17,743,074 came from Ontario forests and formed 85 per cent. of Canada's white pine cut. Nearly half of the hemlock cut in Canada in 1910 was cut in Ontario as was over 90 per cent. of the red pine. Ontario contributed over 70 per cent. of the hardwoods. Of the total made up by 23 species cut in Ontario, over one-half was white pine. Red pine contributed 10 per cent., hemlock 12 per cent., leaving 25 per cent. to be equally divided among the hardwoods and less important conifers. To arrive at the correct amount cut by lumber mills of Ontario in 1910, there must be added to the above lumber cut, 1,976,000,000 shingles, worth $3,557,211, and 851,953,000 lath worth $1,943,544.

* * *

Mr. Harry Malcolm Graham, an electric railway promoter, has been sentenced at Lindsay to three years in Kingston penitentiary on a charge of false pretences.

SPECIES USED FOR PULPWOOD LAST YEAR.

Four species of wood were used to make up the six hundred thousand cords, worth three million, five hundred and eighty-five thousand dollars, that were used by the pulp mills in Canada in 1910. These woods were spruce, balsam, hemlock and poplar, as ascertained by the Dominion Forestry Branch in a report soon to be published on the pulpwood consumption. The percentage of spruce, which has always been the chief wood used is gradually becoming less, although still forming over three-quarters of the total pulpwood consumption. In 1908, spruce contributed 87 per cent. of the total; in 1909, 83 per cent.; and in 1910, 78 per cent. The importance of balsam, the second species as a pulpwood, is increasing. In 1908, it formed 12 per cent. of the total; in 1909, 16 per cent.; and in 1910, 20 per cent. Another species which is rapidly becoming more important is hemlock, over five times as much being used in 1910 as in the year previous. The use of poplar fell off over one-quarter, a consumption of only three thousand, six hundred cords being reported for 1910. Spruce was the most expensive species at $6.05 per cord, or 64 cents more than in 1909. During 1910 balsam became reduced 55 cents to $5.71. Hemlock remained at about the same price for the two years and is still the cheapest species. In 1909 it was $4.51 per cord and in 1910, $4.43. Poplar has increased eleven cents during the year, the price being $5.92 in 1910. The prices of pulpwood are affected not only by the properties of different species, but also by the conditions under which bought (whether in open market or on limits), and by the distance of the wood from the point of consumption.

5% allowed on debentures of $100 or over, issued for terms of from 3 to ten years

CAPITAL STOCK 7% INVESTMENT

The Company, having disposed of its Capital Stock some years ago, has, therefore, none for sale, but the stock may be purchased through the Toronto, Winnipeg and Vancouver Stock Exchanges, at prices ranging from $122 to $125 per share.

The last seven half-yearly dividends have been at the rate of **9 per cent. per annum**, so that, at the current prices, the **Investment** will **net 7 per cent.**

The Company will be pleased to furnish prospective purchasers with its Financial Statement or other information bearing on the Company, and, if so desired, the Company will purchase the Stock for the investor through the Stock Exchange, or privately, at the current prices.

Since its inception the Company has enjoyed uninterrupted prosperity, and has taken a very active part in the development of the West. With the rapid growth of Western Canada, the demand for money is so great that the present profitable rates of interest will be maintained for years to come; and with such a desirable field for loaning operations, combined with a progressive management, the price of the Company's Stock should continue to advance, and with the prevailing high dividends, the Stock of this Company will undoubtedly be in great demand by those who desire a safe and profitable investment.

BOARD OF DIRECTORS: W. T. Alexander, Esq., Managing Director The Canada National Fire Insurance Company, President and Manager; E. S. Popham, Esq., M.D., Director Standard Trusts Company, Vice-President; Nicholas Bawlf, Esq., President Bawlf Grain Company, Director Bank of Toronto, Director Standard Trusts Company, Second Vice-President; Sir Gilbert Parker, M.P., London, England; E. Consulting Mining Engineer
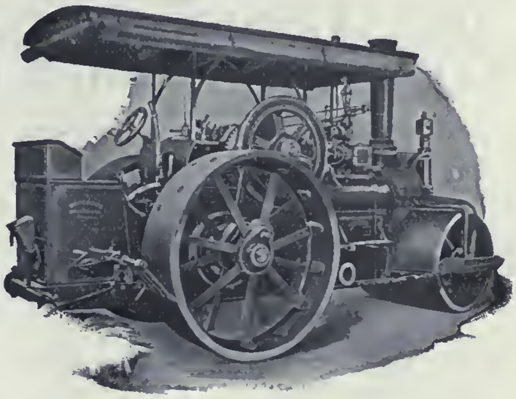
41 National Trust Bldg.
20 King Street E., Toronto.

The Waterous
Double Cylinder
Steam Roller



Why we have sold more than thirty of these machines since January 1st.

The Waterous Roller is a road builder in every sense of the word. It can be used in every operation from driving the rock crusher, hauling road material, picking and plowing the old road, to the light, fast, finishing roll.

The twin-cylinder engine, with cranks set on the quarter, runs like a watch. No dead centres, no hanging up in a soft spot, no bucking on the reverse.

It is backed by a steady-steaming boiler, locomotive type, that produces more than enough steam for every working test. Throw off the governor and set it at a hill, and watch it take a 30% grade like an automobile.

Two speeds are supplied, which means fast and slow work under full steam pressure.

Outfit includes:—Rear draw bar, front clevis, driving pulley for rock crusher, full set of road picks, cylinder oil pump, and engine and boiler fittings second to none.

Ask the man on the machine.

LEGAL NOTICE

PUBLIC Notice is hereby given that under the First Part of Chapter 79 of the Revised Statutes of Canada, 1906, known as "The Companies Act," letters patent have been issued under the Seal of the Secretary of State of Canada, bearing date the 27th day of October, 1911, incorporating James Steller Lovell, accountant, William Bain, bookkeeper, Robert Gowans, Robert Musgrave Coates and William George Flood, solicitors' clerks, all of the City of Toronto, in the Province of Ontario, for the following purposes, viz:—(a) To carry on the business of general contractors and engineers; to construct, erect, execute, equip, improve, make, repair, raise or develop public works or conveniences of all kinds, including railways, tramways, roads, tunnels, harbors, docks, slips, shipping places, piers, jetties, wharves, quays, canals, reservoirs and embankments, and including the erection, repair or improvement of sewage, drainage, sanitary, water, gas, electric light, telephonic, telegraphic and power supply, plants, works, houses and stations; and to construct offices, warehouses and other buildings, public and private, and all other works or conveniences of public utility; (b) to manufacture, buy, sell and deal in iron and iron ore and steel and other ores and metals; to chase, lease or otherwise acquire any mines, mining rights and lands, and any interest therein, and to explore, work and develop the same; and to quarry, smelt, refine, dress, amalgamate and prepare for market ores, minerals and metals of all kinds; (c) To construct tunnels under contract with any railroad, corporation or corporations possessing the right to construct such tunnels, and to maintain and operate the tracks, sidings and switches therein, and to construct any works in connection with any such tunnels or with the railroads authorized to be constructed, maintained or operated through such tunnel or tunnels; (d) To acquire by purchase or otherwise and hold lands, timber limits or licenses, water lots, waterfalls, water privileges and concessions and powers and rights, and interests therein, and to build upon, develop, irrigate, cultivate, settle and otherwise improve and utilize the same, and to lease, sell and otherwise deal with, or dispose of the same; (e) To sink wells and shafts, and to make, build, construct, erect, lay down and maintain reservoirs, water works, cisterns, dams, culverts, main and other pipes and appliances, and to execute and do all other works and things necessary or convenient for obtaining, storing, selling, delivering, measuring and distributing water for the purposes of irrigation, and for the creation, maintenance and development of hydraulic, electrical or other mechanical power, or for any other purposes of the company; (f) To purchase, lease or acquire water powers and water privileges, and to develop therefrom any power, electrical or other energy, and to use the same in connection with the business of the company, and to transmit the same, and sell, lease or dispose of water powers and water privileges or power, and to enter into working arrangements with any other companies, persons, firms or corporations for the use thereof, and to establish, operate and maintain any lighting, heating or power plants, and to sell and dispose of light, heat and power, provided always that the rights and privileges hereby conferred upon the company to generate, sell and dispose of electric energy for light, heat and power when exercised outside of the property of the company shall be subject to all provincial and municipal laws and regulations in that behalf; (g) To manufacture and deal in logs, lumber, timber, wood, metal, and all articles into the manufacture of which wood or metal enters, and all kinds of natural products and by-products thereof, and goods, wares and merchandise; (h) To build, buy, sell, equip, operate and own steamships, steamboats, sailing vessels, barges and lighters, not as a common carrier, but as an incident to its business; to buy and sell, hold and operate wharves, water rights, powers, bulkheads and appurtenant property in such places as the business of the company may seem to require, or as may be necessary or convenient in connection therewith; (i) To manufacture or produce, purchase, take upon lease, or in exchange, or otherwise acquire, whether for any of the hereinfore mentioned purposes or not, machinery and plant of all kinds, and any other articles, products or things used in connection with any of the company's business, and to buy, sell, supply and deal in the same; (j) To apply for, purchase or otherwise acquire or obtain any contracts, decrees or concessions for or in relation to the construction, execution, carrying out, equipment, improvement, management, administration or control of public works and conveniences or otherwise incident to any of the objects herein specified, and to undertake, execute, carry out, dispose of, or otherwise turn to account, or sell or dispose of the same; (k) To sell, exchange or lease any real or personal property of the company, or any rights, easements, privileges or interest in, to, over, under or concerning the same; (l) To purchase or otherwise acquire any patents or patent rights, licenses, concessions and the like, conveying any exclusive or non-exclusive or limited right to use any invention which may seem capable of being used for any of the purposes of the company, or the acquisition of which may seem calculated directly or indirectly to benefit the company, and to use, exercise, develop or grant licenses in respect of, or otherwise turn to account the property and rights so acquired; (m) To purchase and otherwise acquire and undertake and assume all or any part of the assets, business, property, privileges, contracts, rights, obligations and liabilities of any person, firm or company carrying on any business which this company is authorized to carry on, or any business similar thereto, or possessed of property suitable for the purposes of this company's business, and to issue in payment or part payment for any property, rights, or privileges secured by the company, or for any guarantees of the company's bonds, or for services rendered, shares of the capital stock of the company, whether subscribed for or not, as fully paid and non-assessable, or bonds, debentures or other securities of the company; (n) From time to time to apply for, purchase or acquire by assignment, transfer or otherwise, and to exercise, carry out and enjoy any statute, ordinance, order, license, power, authority, franchise, concession, right or privilege which any government or authority supreme, municipal or

LONDON, ONTARIO

1910

The past year showed progress in every Department.
We wrote more business than we ever did.
Our Assets amount to nearly a million and a half.
Our Reserves for the Security of Policyholders are nearing the million mark.
Our Death rate was small, showing careful selection, and was paid for twice over by our Interest income.

W. M. GOVENLOCK, Secretary. JOHN MILNE, Managing Director.

CANADIAN CASUALTY
A BOILER INSURANCE COMPANY

A great American Banker, when speaking of Public Utility or Public Service Corporation Securities as an investment, said:—

"Business depressions and panics have no terrors for the holders of public utility securities. The necessities supplied by these corporations are of such a nature that the public cannot do without them, no matter what may be the financial stress."

Telephone and telegraph companies come under the heading of Public Utility Corporations.

We offer for sale, in lots to suit purchasers, a block of Maritime Telegraph and Telephone Preferred Stock. Par value of the shares is $10. Price and full particulars upon application.

CANADIAN NORTHERN LOAN.

In the midst of a procession of comparatively small Canadian issues in the London market, there appeared last week one of £7,000,000 of the Canadian Northern Railway Company in the shape of 3½ per cent. debenture stock terminable in fifty years, and issued at 93. The stock is guaranteed by the Dominion Government. Lazards, the London banking firm, made the offering as underwriters, and cable advices stated that the loan has all been underwritten, the underwriters having to take 90 per cent. This is the largest Canadian issue made in the London market since 1905 at least, if not the largest on record. The following table gives our biggest flotations overseas during the past seven years:—

1905	Company	Amount	Security	Issued at
Feb.	Gr. Tr. Pac. Ry.	£3,004,000	4% ster. bonds	99½
Mar.	Gr. Tr. Pac. Ry.	3,200,000	3% 1st mort. bonds	95
1908				
Feb.	Dom. of Canada	3,000,000	3½% redeem. stock	par
June	Dom. of Canada	5,000,000	3¾% stock	par
Oct.	Dom. of Canada	5,000,000	3½% redeem. stock	par
1909				
Jan.	Dom. of Canada	6,000,000	3¾% bonds	99¼
July	Dom. of Canada	6,500,000	3½% stock	98½
1910				
Jan.	Dom. of Canada	4,000,000	3½% stock	99
May	Dom. of Canada	5,000,000	3½% stock	99½

The Canadian Pacific Railway in November, 1909, placed £6,000,000 of its ordinary shares with existing shareholders. Since 1905, to date the Canadian Northern Railway has obtained in the London market, including last week's large loan, the sum of £22,774,709, or over $110,000,000. That company has applied this year for four loans as follows:—

1911	Amount	Security	Issued at
March	£ 358,888	3½% guar. 1st mort. deb. stock	94½
April	1,543,209	5% convertible deb. stock	98
Nov.	1,438,356	4% guaranteed debenture stock	99
Dec.	7,000,000	3½% guaranteed deb. stock	93

This is a strenuous borrowing record. There is a somewhat apathetic feeling towards Canadian issues in London just now, and the reception accorded the Canadian Northern's large loan was no exception. There is a disposition in some quarters to regard the marketing of such an immense loan as a blow to Canadian credit. While this may be an extreme view, undoubtedly it will weaken the chances for complete success of future Canadian issues during the next few months. Those responsible for the arrangements may have figured that it was better to make a bold gallop into the market, obtaining sufficient funds to cover construction and other costs for a fairly long period in advance. On the other hand, some will be inclined to think that the issue of two loans of £3,500,000 at intervals would have been less strain on the Canadian market overseas.

The Canadian Northern Railway, which as a transcontinental road, is still in the course of construction, is attaining a heavy bonded indebtedness. On June 30th, 1911, it had capital stock outstanding to the amount of $70,000,000, an increase of $15,000,000 over the year before, and $39,250,000 over five years ago. In 1911 the funded debt totalled $122,047,419, and shows an increase of $26,635,216 over the preceding year and

$82,380,034 over five years before. These changes are indicated in the following table:—

Year.	Stock.	Bond debt.	Fixed chgs.
1911	$70,000,000	$122,047,419	$3,136,042
Per mile	20,692	36,077	927
1910	55,000,000	95,412,203	2,535,529
Per mile	17,301	30,013	797
1909	55,000,000	67,363,479	2,214,930
Per mile	18,251	22,357	702
1905	30,750,000	23,995,580	709,468
Per mile	19,874	15,130	447
1903	25,750,000	13,971,482	637,364
Per mile	20,180	10,956	499

During the past fiscal year, 400 miles of new track were added to the system and contracts let for the gaps in the transcontinental line. The average mileage operated in 1911 was 3,383. When the road is complete from coast to coast, the mileage will be considerably lengthened and very remunerative traffic should result.

OPPOSITION TO TORONTO TUBE RAILWAY

Opposition to the proposed tube railways in Toronto is apparently growing. The proposal is to expend $5,000,000 on three miles of tubes, which will take five years to build, and will, therefore, give no relief to the present street railway congestion until 1916. Again, it is but a small part of a larger scheme to expend $23,000,000 on a network of tube railways to be completed in 1921. At that time, the city will have the opportunity of acquiring the street railway company's franchise.

The Monetary Times regards the tube project as an expensive and unsatisfactory effort to solve the Queen City's transportation problem. If the municipal authorities desire to spend $5,000,000 in relieving the traffic congestion, it would be far better expended on 100 miles of civic car lines. The present company could operate these until it was decided now, or at any time in the future, in 1921 maybe, when the company's franchise expires, to take over the present railway system. Toronto cannot afford to dabble in such an extravagant fad as underground railways.

GEORGIAN BAY CANAL.

Mr. Hopewell, mayor of Ottawa, thinks that Canada is big enough and sufficiently wealthy to begin immediately the construction of the Georgian Bay Canal. Such a waterway, linking the Great Lakes with the Atlantic ocean, would, he says, be not only a national but an Imperial advantage, for great ocean-going vessels could be taken into the lakes at any time without resulting in any complications, for the canal would be entirely in Canadian territory, and consequently not subject to the international waterways agreement.

He also advocates the route on the grounds that it would give a stimulus to the coal mining industry of Nova Scotia, as the vessels using the canal could bring Nova Scotia coal up and return with corn, as a result of which Canadian coal could be laid down at Fort William fifty cents a ton cheaper than from the United States. In his estimation the canal would result in a large proportion of United States trade for Europe coming through Canada, as the route would be shorter than any now existing and more economic for shippers.

The Georgian Bay Canal project is not having unanimous support, because, unfortunately, certain sections of the country have schemes which are dearer to their hearts. A larger portion of Ontario, for instance, is advocating the enlargement of the present Welland Canal, while many in Western Canada concentrate their desires upon the building of the Hudson Bay Railway. In Ontario, opinions are divided respecting the Georgian Bay and the Welland enterprises, respectively, simply because, we believe, it is thought that the Dominion government will proceed with only one and not both projects. If it were thought that an appropriation would be placed in the estimates for the deepening of the Welland Canal and the necessary improvements following that, and for the building of the Georgian Bay Canal also, we would probably witness a unanimous Ontario.

Mr. Hopewell quoted figures showing that the trade which comes through the Welland Canal at present is small, but he did not give the reason, which is that the big lake boats are now barred from the canal. He also spoke of the report of an engineer employed by New York State, which said that, as the Canadians were about to deepen the Welland Canal, there was a great chance for New York State to derive the greatest advantage therefrom and eliminate the St. Lawrence route by building a ship canal from Oswego to Syracuse and connecting with the Erie Canal, which, in turn, joined the Hudson River at Albany. Thus vessels from the head of the lakes could pass through the Welland Canal and then proceed directly to New York via Oswego, which, being in United States territory, would not be affected by any international agreement.

There is little danger of this, as even if such a canal were built, which is unlikely, no sane shipper would take such a route, when he can ship now from Fort William direct to Buffalo and thence to New York.

Before proceeding with the construction of the Georgian Bay Canal, every engineering and commercial phase of the project should be thoroughly investigated. An expenditure of $200,000,000 or more should not be made by a country such as Canada, which is yearly adding to its debt, unless there is ample justification. The Monetary Times supports the immediate enlargement of the Welland Canal, and will support the Georgian Bay project if it can be proved that such a costly undertaking can be well borne, and that its probable results will justify the expenditure.

SMALL CHANGE.

The books of the Calgary Exhibition Company, who receive annually a grant from the city, were submitted to the civic auditor for examination and report. While no serious mistakes were discovered in the company's accounts, it appears that several persons connected with the exhibition considered that the auditor exceeded his duties in making certain comments and criticisms. This is an incorrect view. When an auditor or accountant is called in, he is not expected to whitewash even the smallest black spot. The chartered accountant is a necessity wherever accounts are kept. We hope to see all charitable institutions, which handle large sums of money, periodically submit their accounts for proper examination at the hands of experts.

* * * *

The last echoes of Malcolm's Western Canneries, or the Central Packing Company, are being heard. Two accountants have examined the books of these companies, and, having compared the items charged to Mr. F. H. Malcolm, the promoter, with the cheques and vouchers authenticating the charges, they found that the amount standing to the debit of Mr. Malcolm's account should be reduced by items aggregating $2,816. This reduced the amount standing at Mr. Malcolm's debit to $1,734, which the auditors say is represented by a mortgage for $2,400. At the conclusion of the auditors' statement it is noted that the amount of $1,734 was subsequently duly paid. This is well, as far as it goes, but the fact remains that $72,000 were spent in organizing a company which never got out of the promotion stage. In view of that we do not quite understand the object of securing the accountants' report noted above.

WORLD'S GREATEST BANKS.

Comparison of the Leading Monetary Institutions in Various Countries—The Function of Banks.

BY H. M. P. ECKARDT.

It is a matter of common knowledge throughout Canada that the leading banks of the Dominion have grown very rapidly in size and power during the past ten years. The rapidity of their development naturally suggests comparisons with the leading banks of other countries. There is always a number of people who wish to know what places are occupied by the Bank of Montreal and the Bank of Commerce (Canada's biggest banks) among the great banks of the world. Apparently the disposition in the Dominion is to rate the home banks higher than the facts warrant. Many suppose that the Bank of Montreal stands third or fourth and that the Bank of Commerce is eighth or ninth in the class of big banks.

As a matter of fact it is somewhat difficult to make a fair comparison of the various large banks operating in the important countries. At the outset the question arises, what constitutes bigness? Is it ascertained through comparing the paid up capitals, or the total of stockholders' funds as represented by capital and reserve funds, or the total of assets or resources, or the volume of business transacted? Here are four different ways of classifying the banks. A different order would result from each method.

Functions of the Banks are Different.

Another thing to be considered is that in the various countries the functions of the banks are different. In Canada they confine themselves exclusively to banking, but in some other countries they engage in other businesses. Also to be remembered is the fact that there is no country in which the details of the banking position are published so fully, so frequently, and so regularly as in Canada. All banks in the Dominion must publish a detailed statement of their position once a month. In Europe only a few of the banks publish statements oftener than once a year, and the statements published are usually sketchy affairs which do not go into particulars very deeply.

Remembering these considerations we may proceed to investigate the standing of the large banks in a few of the principal countries. Before doing so we may note that according to the last return—that for September 30th, 1911—the Bank of Montreal had a paid capital of $14,400,000, a capital and rest amounting to $26,400,000, deposits of $179,903,995, and total assets of $223,106,408. The Canadian Bank of Commerce at the same date had paid capital of $11,411,850, capital and rest, $20,541,330; deposits, $140,836,057; and total assets, $173,782,096.

Some Large European Banks.

On the continent of Europe there are perhaps ten or a dozen banks outranking the largest Canadian bank in point of total assets. Among them are the great state banks: Bank of France, Imperial Bank of Germany, Imperial Bank of Russia, Bank of Italy, Bank of Spain, National Bank of Belgium. In the case of most of these banks their predominance arises largely from their note issues. They provide a large part of the currency used, and the item of the note circulation swells the figures of the balance sheets to large proportions. Then some of them take into the balance sheet the total of securities held for safe-keeping, and other items which do not appear at all in a Canadian balance sheet.

To give an idea of the immense size of some of the banks in Europe the following extracts are reproduced:

The Imperial Bank of Germany had total assets, December 31st, 1910, of $1,620,635,100; and capital, $45,000,000. Among the assets, however, is an item—$853,652,225—representing its own notes held by itself. The Bank of France, at the same date, had assets $1,240,636,085. Of this $822,595,725 represented coin and bullion held principally against the note circulation of $1,036,711,775.

Then there are three German great banks, as they are called. The Deutsche Bank had capital of $50,000,000; and reserves, $26,945,315 as at December 31st, 1910. The net profits of this bank in 1910 amounted to $8.000,000. The Dresdner Bank, the institution which invested in the shares of the Sovereign Bank of Canada, also had capital of $50,000,000 on December 31st last. Its total assets were $344,839,415 and its net profits in 1910 exceeded $6,000,000. The Disconts Gesellschaft is another big German bank with capital of $42,500,000 and reserves of over $15,000,000. Its total assets are well above $200,000.000. These German banks are active in organizing industrial companies and they operate a number of large manufacturing enterprises. Outside of them are some large mortgage banks with assets in excess of $200,000,000. In France the Credit Lyonnais has deposits of $375,000,000. The Comptoir D'Escompte at the end of 1907 had $236,000,000 of assets; the Credit Foncier de France had $879,900,830 of assets, of which $768,115,211 represented mortgages.

Big Monetary Institutions of Great Britain.

Coming to England there are nine banks holding more deposits than the Bank of Montreal and ten holding more than the Canadian Bank of Commerce. Converting the pound sterling at $5, the deposits and note circulation of the Bank of England amounted to $422,989,615. Three other banks—Lloyds Bank, London County and Westminster, and London City and Midland—have deposits not much less than the Bank of England's aggregate of note circulation and deposits. Lloyds Bank had on December 31st, 1910, $390,582,340 in deposits; London County and Westminster had $390,442,630; and London City and Midland had $367,072,550. The National Provincial Bank of England had deposits of $325,713,910; Barclay & Company, $244,409,225; Union of London and Smith's Bank, $201,079,860; Parr's Bank, $193,318,525; Capital and Counties, $188,373,000; London Joint Stock, $167,940,400.

Australia has a bank—The Bank of New South Wales—with assets of $229,544,195. It therefore surpasses both of Canada's big banks in this respect.

Finally there are four big national banks in the United States. One of them surpasses the Bank of Montreal in point of capital and assets; and three of them surpass the Canadian Bank of Commerce as regards total assets.

The National City Bank of New York has capital $25,000,000; capital and surplus, $45,000,000; assets, $311,931,594. The Continental and Commercial National of Chicago has capital $21,500,000; capital and surplus, $29,500,000; and assets, $212,709,748. This bank owes its prominent place to an amalgamation occurring a year ago. The National Bank of Commerce of New York has capital $25,000,000; capital and surplus, $35,000,000; and assets, $207,129,590. And the First National, New York, has capital $10,000,000; capital and surplus, $25,000,000; and assets, $160,090,280.

◆

SHUTTING OUT LIGHT AND FRESH AIR.

By Henry Lye.

About eleven hundred years ago a poor widow accused Petronius, the Emperor Theophilus' brother-in-law, an officer of talents and courage, of having, in violation of law, raised house so high as to render hers almost uninhabitable for want of air and light. The laws concerning the disposition of private buildings in Constantinople were always regarded as an important object of imperial legislation.

Theophilus ordered the grievance to be redressed, but the complaint was subsequently reiterated and the Emperor discovered that his brother-in-law had disobeyed his decision. He now gave orders that the newly-built house should be levelled with the ground and condemned Petronius to be scourged in the public highway.

This shows that the world has degenerated, for now license can be readily obtained for the erection of buildings which not only shut out light and air but expose private dwellings to danger of loss by fire, and stench to innumerable flies from horse stables, to a continuous shower of soot from the soft coal used for heating; adjoining properties are depreciated in value and the owners have no recourse, except by expensive and uncertain law suits against the officials who issue licenses, in the City of Vancouver especially.

◆

The American Smelting and Refining Company, a Guggenheim corporation, has purchased controlling interest of the Indian Mining Company, owning silver-lead propositions in the Portland Canal district.

The Dominion financial statement gives indication of prosperity. During November the consolidated revenue was $11,595,670, as against $10,061,060 in November, 1910. In the eight months of the fiscal year the aggregate revenue was $87,886,848, compared with $75,875,446 in the corresponding period, an increase of over twelve millions. The expenditure during the month on consolidated account was $7,485,650, and for the eight months, $47,784,009, a very slight increase over the same periods of last year. On capital account $15,835,194 has been spent in the eight months, almost exclusively on railways and public works. The total net debt at the end of the month was $315,436,632, a decrease since October of $535,356, and during the eight months of $3,157,291.

WESTERN CANADA.

Conditions Are Favorable—In the Wheat Markets—Winnipeg Market in Good Condition.

Monetary Times Office,
Winnipeg, December 12th.

Weather in the West continues to be mild, and favorable for all kinds of work, and the Western farmer is in luck by having good weather for threshing that was delayed in the fall by rain. Under this natural impetus, trade and business of all sorts holds good. The favorable weather has caused a heavy increase in the movement of wheat, but the car shortage is still felt in many sections of the country.

Reports regarding collections are confusing and differ in many respects, some wholesale merchants appear to be fairly satisfied with the situation, while many others are complaining. A large amount of money has already come in from this year's crop, but there would have been a much better circulation had threshing been earlier and traffic conditions more satisfactory.

Some wholesalers say that as far as they are concerned, more money has come in from the country than in the corresponding period of last year, but owing to the large increase in business, the proportion of payments is not so good. The November payments of interest due the loan companies have been only fair, but some of the largest companies tell The Monetary Times that a better showing will be made by the farmers in December. There is a steady demand for new loans, the number of applications being reported considerably larger than a year ago.

British North Western Fire Insurance Company.

Sir William Whyte has joined the board of the British North Western Fire Insurance Company. This company is of Winnipeg origin, and has subscribed capital of $500,000, an increase of $200,000 within the course of the year. Paid-up capital has increased in the same period from $50,000 to $100,000. It has a Dominion charter, and will proceed to extend its business in the West. Between Winnipeg and the Pacific Coast it has 200 agents. It is said that when the annual balance sheet is issued a substantial increase in surplus will be shown. Sir William Whyte has associated with him on the directorate of this company: The Hon. D. C. Cameron, Lieutenant-Governor; Messrs. O. H. Robertson, St. Paul; Edward Brown, C. W. N. Kennedy, A. C. Flumerfelt, Victoria; F. P. Davis, Vancouver; D. E. Williams, Winnipeg; T. J. S. Skinner, Calgary; James Balfour, Regina.

In The Wheat Markets.

The wheat markets during the past week have had a firm and advancing tendency; the chief cause of this had been a predominance of bearish feeling in the United States speculative markets. This again has been caused by the continued steady increase in the United States visible supply and the unexpectedly large receipts at Minneapolis.

The visible supply increased last week 1,059,000 bushels against an increase of 504,000 bushels a year ago, and the aggregate is now 69,948,000 bushels, the largest quantity in many a long year. This visible, however, contains grain in store at some additional points which were taken in on July 1st last year, and also it contains all Canadian wheat in store at United States ports, in transit for export, which at the end of last week amounted to about 4,000,000 bushels. The high prices at Minneapolis continue to draw wheat to that market from districts not naturally tributary to it, and as the weather has been very favorable during the last two weeks for railway work all over western America, the large movement has been constant. The bearishness in the speculative markets has in the last day or two been intensified by the free selling on the part of professional operators, who do not look upon the grain situation as weak when the whole crop year is taken into account, but who see an opportunity in the present heavy state of the market to make profit by selling largely of December and May wheat, thus depressing prices and causing the large number of weak loans to let go their holdings, which these professional operators pick up to cover their short sales at a profit, or to add to the lines they already hold.

Winnipeg Market in Good Condition.

Our Winnipeg market keeps in a healthy condition. There has been fine weather over the west the past two weeks. While it is winter and the thermometer only gets a little above the freezing point during the middle of the day, the days are bright and calm, and pleasant, favorable to progress in such outdoor work as can be engaged in, and quite favorable for railway work, a great contrast to the 20 below zero weather of three and four weeks ago. Thus the movement of grain to the lake front has been on a large scale, and the shipments eastward by the lake from Fort William and Port Arthur aggregate over 20,000,000 bushels of wheat in the last four weeks. The demand for export has been excellent, large quantities of our low grade wheat going to Western Europe. Although the movement is millions of bushels in excess of last year, the stocks in store at Fort William and Port Arthur at end of last week are 4,876,623 bushels all grades included, against 5,296,855 bushels at same date last year. There is no improvement in quality, the percentage of 1 and 2 Northern in the total receipts being very small.

PERSONAL.

Mr. Gordon Bennett has been transferred from the branch of the Bank of Montreal at Port Hope to Vancouver.

Mr. John Boyd, the financial editor of the Montreal Gazette, has resigned. Mr. Boyd will devote his time to literature and travel.

Mr. A. E. Chivers, city clerk for Regina, Sask., has resigned. He will assume the position of financial agent in Great Britain.

Mr. George Haardt, member of the banking firm of that name, will establish a financial house at Montreal in connection with his brother's firm in Belgium.

Mr. C. C. McRae, formerly manager of the Royal Bank of Canada's branch at Vernon, has gone to Nanaimo to take charge of the branch there.

Mr. Fred. H. Heath, district manager of the Confederation Life Insurance Company at London, Ont., has been promoted to the provincial managership of Alberta, with headquarters at Calgary.

Mr. N. G. Neill, industrial commissioner at Port Arthur, was a visitor to The Monetary Times office this week, and reports considerable activity in that city. More than half a million dollars of English capital has been invested in Port Arthur in the past twelve months. The general outlook is splendid.

Messrs. R. B. Williamson & Company have opened an office at 86 Notre Dame Street West, Montreal, for the purpose of dealing in stocks and options on the London market. The new Montreal firm have established a connection with Messrs. Alec. Roller & Company, London stock brokers, and members of the London Stock Exchange.

Mr. Edward Rawlings, manager of the Guarantee Company of North America, Montreal, is dead. Born in London, England, in 1839, he entered the insurance business in 1853 with the European Life & Guarantee Company, of London, in England and France. In 1863 he opened a branch for the company in Montreal. In 1872 he brought about a merger and became manager of the company with which he had been associated until his death.

NOVEMBER'S COBALT ORE SHIPMENTS.

The following are the shipments of ore from Cobalt Station during November:—

Mine.	Tons.
Buffalo	87.73
Casey, Cobalt	70.
Chambers-Ferland	32.
Cobalt Lake	162.51
Cobalt Provincial	25.05
Cobalt Townsite	23.58
Colonial	22.25
Coniagas	149.89
Crown Reserve	48.92
Drummond	90.00
Hudson Bay	97.31
Kerr Lake	111.47
La Rose	252.36
McKinley-Darragh	258.45
Miller	21.00
Nipissing	358.02
O'Brien	32.01
Powerful	1.
Right of Way	41.11
Temiskaming	67.77
Tretheway	29.88
	1,982.31

The shipments during October totalled 2,202.8 tons.

Ten Toronto bond firms bid for the $20,000 public school debentures of Weston, Ont. The award was made to Messrs. Brent, Noxon & Company.

SARDINE INDUSTRY FOR MARITIME PROVINCES.

Swift & Company Will Locate in Montreal—Some Street Car Problems.

Monetary Times Office,
Montreal, December 12th.

A new industry is about to be added to the Maritime Provinces through the activities of Mr. George F. Johnston, of the financial firm of Johnston, McConnell & Allison, of Montreal. The concern will be capitalized at $1,000,000, and its purpose will be to pack sardines, with headquarters at Chamcook, about three miles from St. Andrews, N.B. A new factory will be erected in time for next season's catch, and only the very latest plant and devices will be installed. Large piers, as well as a number of workmen's cottages, will be built of concrete and all the buildings will be of a permanent character.

About 85 per cent. of the sardine catch along the Atlantic Coast is taken in Canadian waters. The bulk of this is shipped to the United States and there packed for home consumption and for export to Australia, South Africa, and elsewhere. The quality of the Canadian sardine is equal to the Norwegian, and but little inferior to the French, although the latter is acknowledged to be the best in the world. The choicest French sardines bring double the price of Norwegians. Architects are now working on the can factory, which will contain the best machinery for the handling of the fish in such a manner that their flavor will not be impaired, and that they may be kept for years without deteriorating.

While catering particularly to the sardine trade, the factory will also be equipped for handling larger fish. Some 600 men and women will be employed by this company. Mr. Chas. Haycock, formerly of the Sea Coast Packing Company, East Port, Maine, is secretary-treasurer, and Mr. F. P. McColl, of the East Port Company, may become general manager. Mr. Johnston will be president, and on the board will also be Sir. Wm. Van Horne and Messrs. G. M. Bosworth, W. R. Macinnes, R. B. Van Horne, and W. J. Shaughnessy.

Messrs. Swift & Company to locate in Montreal.

The announcement that Messrs. Swift & Company, meat packers, of Chicago, are to locate in Montreal and erect a big storage plant here, for the care and distribution of their products, is interesting. A merger of local packing plants is anticipated.

The representative of the Swift Company dwells considerably upon the refrigeration or ice-manufacturing service which can be performed by the plant which will be erected here. He says the company is doing a business of $225,000 in Canada, distributed over considerable territory. It expects to sell ice here in Montreal at probably $2 a ton. He declares that the ice the company produces will be of a better quality than that taken from the St. Lawrence River, inasmuch as the water is first distilled and then frozen. He declares that householders will be able to obtain from them a good big chunk of ice for a few cents. A local paper has been devoting considerable space to what it terms the "Ice Trust" in Montreal, and to the lack of competition between the different companies and the high prices being charged for ice, nowithstanding the huge quantities which can be cut from the river here each season.

Street Car Problems of Montreal.

President Robert, of the Montreal Tramways Company, recently issued a statement in which he outlined the requirements of a proper street railway service for Montreal. He dealt especially with the congestion of the traffic at certain hours of the day, which is the problem which particularly confronts Montreal. He pointed out that only a certain number of cars could be run on a line, and that it was necessary to have an increased number of lines. For this purpose the company had made application for different streets such, for instance, as Sherbrooke and Dorchester Streets, but without success. These streets, together with St. Catherine, form the three through east and west streets in the up-town district. As it appeared impossible to get permission to put tracks on these streets, he suggested another plan which has been before the council. This plan embraces a new east and west route in the lower part of the city, and another in the upper part. In each case, it will be necessary for the city to do considerable expropriation in order that existing or broken streets may be connected up together in such a manner as to give a through route. He stated that all cars were compelled to stop at each corner if signalled. In the down-town districts, where most of the congestion existed, these streets sometimes occurred twice as frequently as in other portions of the city, and the cars no sooner got moving properly before they had to stop again. All these interruptions mean delay, and delay means congestion.

His statement amounted to a plea for the granting of more streets to the railway whereupon to build lines, and also for less frequent stops. The inference from the statement was that the city was very largely to blame for conditions of which many were complaining, as it had not come to terms with the railway.

The aldermen and comptrollers make the claim that they had been trying to induce the street railway to offer some plan, so that steps can be taken to remedy the conditions. Letters have been sent to the company asking when a conference could be had, and replies have been received stating that as soon as the financial reorganization was completed, the matter would be taken up. The legislature at the last session, in reply to a request of the railway, had instructed it to go before the city council once more but, despite this, the company had submitted no definite proposals. Comptroller Wanklyn said that if it would come forward with a list of streets that could be used for new car lines, everything would be done to help matters forward. In fact, the comptrollers were having the city surveyor report on the feasibility of underground tubes for the relief of congestion.

The present delay may be for the purpose of awaiting the decision of the Privy Council regarding the rights of the Railway Commissioners to issue orders to the Tramways Company, the old Montreal Street Railway having appealed to the Privy Council from an order of the Railway Commission, on the grounds of jurisdiction.

SCHOOL DISTRICTS EMPOWERED TO BORROW MONEY.

The following school districts have been authorized to borrow money. The particulars are given in order, name and number of school district, amount required and name of secretary-treasurer:—

Alberta.

Skowiatyn, No. 2483, $1,000; R. Fletcher, Lamont.
Danada, No. 2505, $800; J. R. H. Myrther, Gleichen.
Remainder, No. 2542, $1,600; T. H. Walker, Burdett.
Winning Way, No. 2545, $1,200; A. G. Adshead, Big Valley
Coalfields, No. 1275, $600; G. Ballantyne, Mountain Hill.

Saskatchewan.

Dixie, No. 293, $1,700; T. Boyd, Stellena.
Mozart, No. 2781, $1,400; F. Hoey, Mozart.
Neifield, No. 144, $1,200; A. Kelm, Fox Valley.
Exeter, No. 298, $1,500; E. B. Coderre, Coderre.
Tennyson, No. 362, $950; H. F. Boyd, Harwell.
Loraine, No. 222, $1,300; D. L. Melby, Ratcliffe.
Eltham, No. 2823, $1,900; A. Langston, Plunkett.
Auto Road, No. 329, $800; E. L. Amos, Autoroad.
Nipawin, No. 2827, $1,000; L. McFadyen, Nipawin.
Lethburn, No. 280, $1,200; T. G. Corneil, Leeville.
Halcry, No. 2835, $1,000; R. Mitchell, Mitchellview.
Habsburg, No. 2582, $1,700; I. Flegel, New Warren.
Grassdale, No. 219, $1,500; F. H. Williams, Landis.
High Wood, No. 299, $1,500; D. V. Thomson, Watrous.
Rose Lynn, No. 350, $1,800; J. H. Schlosser, Kerrobert.
Lake Coteau, No. 407, $1,200; J. Seaman, Lake Coteau.
Ridgedale, No. 2523, $400; R. B. S. Stewart, Ridgedale.
Fox Hills, No. 190, $1,500; R. H. Jessup, McDonald Hills.
Fischman, No. 2829, $1,500; G. E. Williams, St. Boswell.

◆

WHOLESALE PRICES ARE FIRM.

The Department of Labor index number of wholesale prices for November shows that about the same level was maintained during the past month as in October, though prices are considerably higher than at the same time in 1910. The number is 130.8 for November, compared with 130.5 for the preceding month, and 122.0 in November, 1910. Over two hundred and fifteen articles, carefully selected to represent the entire field of Canadian production and consumption, are included in these calculations. The numbers represent in each case percentages of the average price level prevailing during the decade 1890-1899, the period selected as the standard of comparison. The detailed figures show that the chief features of the price movement during November was a continuance of the upward trend of grains and dairy products, with a drop in animals and meats. Miscellaneous foods, especially canned goods, flour and sugar, were higher, but textiles were slightly lower owing to a fall in cotton. Under paints and oils, turpentine dropped but linseed oil advanced. Pulp and rubber were lower.

INVESTMENT IN CANADIAN PROVINCIAL SECURITIES.

Some Obstacles Which Need Obliteration—Notes of an Interesting Case.

The Monetary Times has frequently appealed for the inclusion of Canadian provincial securities in the British Trustee List, the merits of which proposal we feel sure will in due time achieve the desired result. In the Canadian Gazette of November 30th, Mr. J. G. Colmer, who has frequently contributed to The Monetary Times, reviews an interesting case bearing on that subject. We reprint in full the article in the columns of our interesting contemporary:

Mr. Justice Eve, in May last, had a case before him in which a decision was asked upon the question whether trustees, who were authorized to invest in the stocks of any British Colony or Dependency, were justified in investing in stock issued by the Provinces of the Dominion of Canada.

The decision was to the effect that trustees had no power to invest in such stocks in the circumstances; although it was admitted by the judge that the Canadian Provinces, under the Colonial Stock Acts, were included in the interpretation of the term "Colony." It was maintained, however, that the true interpretation of the word "Colony" is to be found in the Interpretation Act, 1889, section 18, sub-section 3, which states that all parts of the Dominion under a central legislature shall be deemed to be one Colony.

As to the Word "Colony."

On appeal before the Master of the Rolls, Lord Justice Fletcher Moulton, and Lord Justice Farwell, this decision has now been confirmed, and is based largely, as in the case of the decision of Mr. Justice Eve, on the terms of the Interpretation Act of 1889.

The inscribed stocks of the Provinces of Canada are eligible for registration under the Colonial Stock Act of 1877, and amending Acts; and the word "Colony" is defined in the Colonial Stock Act of 1877, as follows:—

Clause 26.—In this Act, unless the context otherwise requires, the expression "colony" means any dominion, colony, island, territory, province or settlement situate within Her Majesty's dominions, but not within the United Kingdom, the Channel Islands, or Isle of Man, and not forming part of India as defined for the purposes of the Acts for the time being in force relating to the Government of India; and for the purposes of this Act the whole of the dominion, colonies, islands, territories, provinces and settlements under one central legislature, and also such part of the said dominion and such of the said colonies, islands, territories, provinces and settlements as is under a local legislature is deemed to be a colony.

To the Ordinary Mind.

It would seem to the ordinary mind that if the stocks of any of the provinces of Canada are brought within the terms of the Colonial Stock Acts (and this has been done in the case of British Columbia, Manitoba, New Brunswick, Nova Scotia, Ontario and Saskatchewan) a trustee would be justified in investing any funds in those stocks, when authorized to make investments in the stocks of any British Colony or Dependency. And it hardly seems reasonable to suppose that the special interpretation clause in the Colonial Stock Act is rendered invalid by the terms of the general Interpretation Act of 1889, which are as follows:—

Section 18.—In this Act, and in every Act passed after the commencement of this Act, the following expressions shall, unless the contrary intention appears, have the meanings hereby respectively assigned to them, namely:—

Sub-section 3.—The expression "colony" shall mean any part of Her Majesty's dominions, exclusive of the British Islands and of British India, and where parts of such dominions are under both a central and a local legislature, all parts under the central legislature shall, for the purposes of this definition, be deemed to be one Colony.

Serious Effect was Argued.

The Master of the Rolls stated, in the course of his judgment, that "it was argued that Mr. Justice Eve's decision would have a serious effect upon the financial position of the provinces. The answer is simple. If they elect to take advantage of the Colonial Stock Act, 1900, no difficulty will arise. They are colonies within the definition of that Act. Their securities will at once become authorized securities." But his lordship is apparently not aware that the Provinces of Canada are not permitted to take advantage of the Act of 1900.

The Australian States and many of the Crown Colonies and Dependencies have been brought within the Act of 1900. But the privilege is withheld from the Canadian Provinces, some of which have populations of over two millions, while in the aggregate their populations number over seven millions. The Colonial Stock Act of 1900 extended the powers of trustees under the Trustee Act of 1893, to enable them to invest trust funds in Colonial securities under regulations to be made by the Lords Commissioners of the Treasury. The following are the regulations promulgated by the Treasury under the Act in question:—

Three Clauses of Act.

1. The Colony shall provide by legislation for the payment out of the revenues of the Colony of any sums which may become payable to stockholders under any judgment, decree, rule, or order of a Court in the United Kingdom.
2. The Colony shall satisfy the Treasury that adequate funds (as and when required) will be made available in the United Kingdom to meet any such judgment, decree, rule, or order.
3. The Colonial Government shall place on record a formal expression of their opinion, that any Colonial Legislation which appears to the Imperial Government to alter any of the provisions affecting the stock to the injury of the stockholder, or to involve a departure from the original contract in regard to the stock, would properly be disallowed.

The Canadian Provinces could readily comply with the first two of the regulations, and the only difficulty in the way of extending the benefits of the Act of 1900 to them, under the regulations in question, is found in the third regulation. It is held by the Imperial authorities that they have no direct right of disallowance as far as the legislation of the provinces of Canada is concerned, and that the position in that respect is different to the position obtaining in the case of Colonies to which the provisions of the Act of 1900 have been applied. Under the British North America Act, the power of disallowance in relation to the legislation of the provinces is, it is true, reserved to the Governor-General in Council, and the contention is therefore correct so far as it goes; but the provinces have placed on record, through resolutions passed, in every case, by the Provincial Legislatures, that any provincial legislation which appears to the Dominion or Imperial Governments to alter any of the provisions affecting the stock to the injury of the stockholders, or to involve a departure from the original contract, would properly be disallowed by the Governor-General. And further, if that assurance is not deemed to be sufficient, the provinces have expressed their willingness to give favorable consideration to any suggestions that may be made by His Majesty's Government to enable the Stock Act of 1900 to be extended to the stock already issued, or to stock which may be issued in the future by the Governments of the Provinces of Canada.

Provinces Have Been Unsuccessful.

These provinces have, however, so far been unsuccessful in their endeavors to obtain for their stocks the privileges conferred by the Act of 1900, although they are prepared to give effect to the provisions of the regulations of the Treasury under the Act in question; and they alone among the constituent parts of the Empire, are in consequence prejudiced and their financial interests and credit adversely and seriously affected.

The Canadian Provinces seem indeed to be in an unfortunate position. They are not regarded in law as Colonies or Dependencies, and executors or trustees cannot invest in their stocks when specifically authorized to invest in the stocks of any British Colony or Dependency. Surely this discrimination ought to be remedied; and if the decisions referred to are right in law, and the Interpretation Act of 1889 over-rides the special interpretation clause in the Act of 1877, the former ought to be amended so as to include the provinces.

And again, some means ought to be found to give the provinces of Canada the benefit of the Act of 1900, and to make their inscribed and registered stocks rank with other Colonial Trustee stocks, such as those of the Dominion of Canada, South Africa, Newfoundland, New South Wales, New Zealand, Queensland, South Australia, Tasmania, Victoria, Western Australia, Barbados, British Guiana, Ceylon, Gold Coast, Grenada, Hong Kong, Jamaica, Lagos, Mauritius, St. Lucia, Sierra Leone, and Trinidad. Surely the great Provinces of Ontario, Quebec, Nova Scotia, New Brunswick, Manitoba, Saskatchewan, Alberta, and British Columbia are equal in importance to the States and Colonies that are mentioned above? The loans they issue are all sanctioned by Parliament, and the Act authorizing them are assented to in the name of His Majesty. They ought not to be penalized because their position in the Confederation of Canada is not so loosely determined as that of the States of Australia in the constitution of the Commonwealth. If, instead of joining together and making one great Union, the Canadian provinces had retained the status of separate Colonies, they would have been eligible to receive the benefits of the Act of 1900, which are now denied to them.

CANADA'S TRADE RELATIONS.

Mr. Borden, in New York, Says He is Against Tariff Making by Diplomacy.

That the government does not believe in framing tariffs by diplomatic methods, was the statement made by Mr. R. L. Borden, premier of Canada, at the annual dinner of the Canadian Society of New York. The result of the recent campaign in Canada, he added, was not due in any sense or in any respect to a spirit of unfriendliness to the United States. Admitted facts demonstrate with certainty that no such spirit exists. From 1878 to 1897 Canada had placed and kept upon her statute book a standing offer to the United States of reciprocity in natural products.

In the Early Days.

"During all that period you declined to entertain the offer and no Canadian could deny your perfect and absolute right to take that course, believing as you did that it was in the interest of your people. In the early days of our development and progress we imagined that we were almost completely dependent upon your markets; and when the reciprocity treaty of 1854 was denounced in 1866 a feeling of despair prevailed in some parts of our country. That feeling has long since passed away and never will return. For thirty years and more we have followed certain national ideals and policies which we firmly intend to pursue and continue in the future. We reached the conclusion that the recent proposals were inconsistent with those ideals and policies.

Tariffs and Diplomacy.

"Moreover, we entirely disbelieve in the framing of tariffs by diplomatic methods. That system has been tested between different States under the British flag, notably in South Africa, and the results have been far from satisfactory. May I be permitted to express my personal conviction that in the interests of good relations between our countries it is better that each should maintain and preserve unhampered to the fullest extent the control of its fiscal policy? And assuredly good relations between the two countries do not depend upon the existence of any particular form of reciprocal trade relations. No press, however jaundiced, can lead me to accept any such conclusion. I ask you to believe that the recent decision did not proceed from any desire to refuse your trade."

Mr. Borden declared that during the past ten years Canada had bought $1,784,000,000 of United States products and sold only $869,000,000 worth of its products to the United States. "Our producers," he said, "are met at your customs house with an average tariff of about 43 per cent. We meet you with an average tariff of less than 26 per cent. Our average duties against imports from the United States are less than our average duties on imports from Great Britain. I trust that this brief summary will convince you that Canada has not discriminated against her neighbor."

Mr. Bryce on Canada.

Ambassador Bryce also spoke and stated that as one who had sat for twenty-seven years in the British Parliament and had been a member of four British administrations, Mr. Bryce might claim, he said, to have a pretty good knowledge of British sentiment, and he was able to assure those whom he met in Canada of the deep affection of the British people at home for the people of Canada. Differences of opinion on matters of commercial policy, which was a purely business affair, ought not to affect it and did not affect it—they belonged to another sphere. The real good will and the wish to settle all questions in an amicable way had been amply evidenced by the ten treaties that had been made within the last four years for preventing any cause of dispute from arising.

The seventh International Congress of Actuaries is to be held in Amsterdam from the 2nd to the 7th September next. The following members of the British Institute of Actuaries will submit papers: Mr. A. R. Barrand, "The Incontestability of Life Assurance Policies." Mr. J. Burn and W. C. Sharman, "The course since 1800, of the Mortality of Assured Persons—distinguishing the sexes, professions, types of assurance, etc." Mr. H. W. Andras, "The question of the Loading of Ordinary Life Assurance Premiums, and the Calculation of Office Premiums." Mr. S. J. H. W. Allin, "On Tables of Mortality for the assurance of Infantile Lives." Mr. A. W. Tarn, "The Course of Legislation, of the teaching of assurance, and of the development of the Contract of Assurance since the Congress at Vienna."

SOME THINGS INVESTORS SHOULD KNOW.

Here is some advice from James B. Clews, of Henry Clews & Company:—

The first thing to be considered is safeguarding one's principal.

Remember that principal comes first and that everything else is of a secondary nature.

It is said that when nothing is risked nothing is gained; nevertheless.

A doubtful bond for investment is a source of worry and annoyance and often begets loss.

Never leave a bad bond to your heirs lest they question your judgment.

Do not expect to find an absolute safe bond paying an excessive rate of interest, for the two do not go hand in hand.

In making investments high grade means low rate, and low grade means high rate, but the terms are not synonymous.

It is better to be satisfied with a moderate income than to jeopardize your principal.

A company is only as strong as its weakest mortgage.

A junior mortgage of a strong company is often better than a first mortgage of a weak company.

It is a bad proposition to be tied up with a security which cannot be readily marketed: therefore

A bond that is listed on a representative exchange possesses market advantages over one that is not listed; besides

A listed bond is a ready collateral in making loans; whereas

An unlisted security is not always accepted by banks.

Attempting to average on a bad bond is usually throwing good money after bad.

On the principle that putting all one's eggs in one basket is considered risky.

It is a good rule for an investor to scatter his risks.

Four per cent. is the recognized ideal standard of income the world over.

Remember that the further one gets away from 4 per cent. the greater the proportionate risk.

A good railroad bond is more desirable than a real estate mortgage, owing to its marketability and its ready use as a collateral.

The market offers as good opportunities for the small investor as for the large one.

A company that earns double its fixed charges is a strong company.

WATER POWER DEVELOPED IN CANADA.

That Canada is becoming more and more a user of white coal is shown by a volume recently issued by the Commission on Conservation. According to the volume it is estimated that the water power developed in Canada to-day amounts to 1,016,500 horse-power of which 743,000 is turned into electric energy, 158,000 horse-power is used in connection with pulp and paper manufacturing and 115,500 in connection with various other industries.

The following table shows the amount developed by provinces:—

	Electric	Total
Ontario	400,683	532,266
Quebec	191,252	300,153
British Columbia	88,145	100,920
Manitoba	48,250	48,300
Nova Scotia	1,875	15,272
New Brunswick	3,400	9,765
Alberta	7,300	7,300
Yukon	2,000	2,000
Prince Edward Island	50	500
Saskatchewan	.....	45

A contract for the construction of the St. John Valley Railway has been signed by the Provincial Government and the Quebec and St. John Railway. The road will run between Grand Falls and St. John. When completed it will be operated by the Intercolonial Railway, which will pay 40 per cent. of the earnings to the company as a rental.

The Ministers of Public Works and of Marine and Fisheries, Honorable F. D. Monk and Honorable J. D. Hazen, visited Toronto this week to investigate the harbor conditions. As a result, Toronto expects to receive from the Dominion Government a substantial grant to supplement what will be spent by the new Harbor Commission to make Toronto an important port. Mr. Monk emphasized the necessity of improving inland ports, harbors and waterways.

FIRE INSURANCE IN CANADA.

Cash Income and Expenditure During Past Thirty-six Years—Canadian Companies Abroad.

Including the whole business of the mixed insurance companies, outside as well as within the Dominion, it appears that the Canadian companies received during 1910 a total cash income of $8,985,568.90, which is made up as follows:—

	1910. $	1909. $	1908. $
Interest and dividends	369,724.69	323,309.70	301,209.15
Premiums	8,538,778.04	7,751,727.44	7,506,568.66
Sundry	77,066.17	60,092.07	77,726.33
Total	8,985,568.90	8,135,129.21	7,885,504.14

In the same way the cash expenditure during 1910 was $8,569,179.18, distributed into:—

	1910. $	1909. $	1908. $
Losses paid	4,974,826.76	4,412,541.61	5,471,015.65
General expenses	3,231,393.38	2,941,149.99	2,785,940.01
Dividends to stockholders	362,959.04	339,000.65	119,337.41
Total	8,569,179.18	7,692,692.25	8,376,293.07

Income Losses and Expenses.

Thus it appears that for every $100 of income there was spent $95.36, namely: for losses, $55.36; for general expenses, $35,96; and for dividends to stockholders, $4.04. Hence, also, for every $100 of premiums received there was paid out $58.26 for losses, $37.84 for expenses, and $4.25 for dividends to stockholders.

The total cash income received by the Canadian companies during the thirty-six years from 1875 to 1910 inclusive, was $179,663,289.14.

The expenditure of the same companies during the same period of thirty-six years amounted in the aggregate to the sum of $181,125,027.17, thus showing an excess of expenditure over income to the amount of $1,461,738.03.

Canadian Fire Companies Abroad.

The undermentioned Canadian fire insurance companies carried on business outside Canada in the several countries, states, &c., following their respective names, viz.:—

Acadia Fire Insurance Company, Newfoundland and United States; Anglo-American Fire Insurance Company, Great Britain, Newfoundland, United States and Jamaica; British America Assurance Company, United States, Mexico, Porto Rico, Honolulu, Continent of Europe, Batavia, Japan, Macassar, Philippines, Java, Egypt, India, Burmah, Ceylon, China, Hong Kong, Antigua and Bermuda; Canadian Fire Insurance Company, Newfoundland; Factories Insurance Company, United States; London Mutual, Great Britain, Newfoundland and United States; Mercantile Fire Insurance Company, India; Montreal-Canada Fire Insurance Company, Great Britain, Newfoundland, United States and Jamaica; Nova Scotia Fire Insurance Company, Newfoundland; Occidental Fire Insurance Company, Newfoundland; Ontario Fire Insurance Company, Newfoundland, United States, Panama and Jamaica; Ottawa Assurance Company, United States; Pacific Coast Fire Insurance Company, United States and reinsurance business in Great Britain; La Compagnie d'assurance contre l'incendie de Rimouski, United States; Sovereign Fire Assurance Company of Canada, United States and Britain; Western Assurance Company, Newfoundland, the West Indies and the United States. The company also has a branch office in London, England, through which business is transacted in Great Britain and the continent of Europe, as well as in Egypt, India, Burmah, China, Straits Settlements, Dutch East Indies and Australasia.

Companies That Retired or Amalgamated.

During 1910 the Phenix Insurance Company of Brooklyn was amalgamated with the Fidelity Fire Insurance Company of New York to form the Fidelity-Phenix Fire Insurance Company to which a license for business in Canada was issued on April 11, 1910. The deposit of the Phenix in the hands of the Receiver General was transferred to the new company.

The license of the Richmond and Drummond Fire Insurance Company expired on August 1, 1910, and was not renewed. All its outstanding policies were reinsured with the Union Assurance Society merged in the Commercial Union Assurance Company, Limited, and the securities forming its deposit, with the exception of $5,000 held to cover outstanding claims, have been released.

The Eastern Canada Manufacturers Mutual Fire Insurance Company, by a reinsurance agreement dated December 2, 1910, reinsured all its outstanding policies with the Central Canada Manufacturers Mutual Fire Insurance Company and has given the necessary notice for the release of its deposit.

The Ottawa Assurance Company reinsured its business with the Factories Insurance Company, and is giving the necessary notice of its application for the release of its deposit.

The German American Insurance Company and the Rochester German Insurance Company were amalgamated to form a new company of the same name as the former, and the deposits formerly held by the two companies were merged and placed to the credit of the new company.

◆

MORE STRIKES IN NOVEMBER BUT SITUATION IMPROVING.

According to the Labor Department's strike record, there were thirteen trade disputes in existence during November, being three more than in October and six more than in November, 1910. Forty-one firms and nearly twelve thousand employees were involved and the loss in working days amounted to approximately one hundred and forty thousand. The termination, however, of the coal miners' strike in Alberta and Eastern British Columbia and the speedy settlement of the longshoremen's strike at Montreal enables it to be said that the situation has improved somewhat since October. The only important strike which began during the month was one of cotton mill operatives at Magog, Que. There were only six strikes unsettled at the close of the month.

◆

CANADA'S LIVE STOCK TRADE IS IN DANGER.

A note of warning as to the future of the live stock industry of Canada is contained in the annual report of Dr. J. G. Rutherford, veterinary director general and live stock commissioner.

Dr. Rutherford says that the production of meat in this country is not keeping up with demand, that the country's meat export trade is diminishing and bids fair to disappear altogether, and that imports of meats from the United States, the Antipodes and the Argentine are becoming a bigger factor every day.

"The continued augmentation of our urban population," says the report, "due to the extraordinary commercial and industrial activity, has also largely increased the consuming as compared with the producing public. Further, the habits and tastes of the people have altered with the times, and the general prosperity has brought about a higher standard of living, resulting in a greater per capita consumption of meat. It is certainly somewhat remarkable that, in view of these conditions, the general production of live stock throughout the country, as a whole, instead of showing the distinct advance which might reasonably have been expected, appears to have scarcely maintained a normal rate of increase. As a consequence, the Canadian export trade in live stock and in meats is rapidly decreasing in volume and bids fair to shortly altogether disappear. Not only is this the case, but imports of meat are increasing from day to day, from the United States, from the Argentine, and from far away Australia and New Zealand.

"Canned meats, principally beef, from the Argentine are also being imported, and although the quantities hitherto brought in are small, the trade is said to be profitable and to show promise of rapid extension, shipments having been made from Buffalo and Chicago to Toronto and Hamilton.

"These somewhat remarkable trade features have been made the subject of careful study, and I have deemed it my duty to lay the situation as above set forth before you, as I feel that it is of great importance to the general welfare of the country, and one in which the public of Canada will very naturally expect your department to take an intelligent interest and if possible devise ways and means likely to be effective in bringing about a satisfactory state of affairs."

For the Hardisty, Alta., $3,000 6 per cent. 7-year debentures four offers were received, one from Regina and three from Toronto bond firms. Messrs. Brent, Noxon & Company, Toronto, were awarded this issue.

BANK BURGLARIES AND FORGERIES.

Banks Should Have Night Officials—Canadian Pacific Railway Clerks Arrested.

The better protection for banks against forgers and burglars is a subject of interest to all the members of the Canadian Bankers' Association, says a writer in its journal. It has frequently been suggested that the expense of prosecutions for forgery, the tracing and detection of burglars, and the cost of all work requiring the special skill of detectives in connection with crimes against the banks, should be borne in equal proportion by the banks.

The American Bankers' Association claim in their annual report that in each succeeding year the operations of professional forgers against the members of the said Association are diminishing, and it is claimed that this is due to the prompt and active methods taken by the Association, and to relentless prosecution. The banks cannot expect to enjoy the protection aimed at unless they comply with certain conditions involving the adoption of all possible precautions for the protection of cash and securities. While the modern steel vaults and electric alarms almost defy the attacks of the most skilful burglar, there are among our bank managers several who still pin their faith to the protection of their treasures by one or two officials on guard duty at the bank.

Should Have Night Officials in Banks.

A few years ago, an instance of the protection derived from having an official quartered on the bank premises at night time was published in the annual report of the American Bankers' Association. A bank in Indiana was attacked by burglars. A seventeen year old clerk was employed in the bank during the day and slept in a room above the banking office at night. He was killed while heroically defending the bank to the last extremity. More than thirty shots were exchanged before the lad received a fatal wound. Meanwhile he had seriously wounded two of his assailants, and the burglars did not remain to attempt operations on the safe. Any scheme of mutual protection against those who prey upon our banks is deserving of serious consideration.

Canadian Pacific Railway Clerks Arrested.

Three Canadian Pacific Railway officials, a stenographer and two clerks, have been arrested on charges of forgery, the amount involved being about $2,000. According to the police, the accused would send the portions of unused tickets to the head office in Montreal with the application for refund, and when the voucher was returned they would present it to the cashier and get the amount it called for. The attached receipts would be signed by the people who had applied for the refund, but in many cases it is alleged that the money would not be given the applicants.

Charged with being implicated in the robbery of the Canadian Express Company, Hamilton, on September 28th, Messrs. James D. Chilman, 140 Bold Street, proprietor of the Regal Candy Store, King Street West, and Joseph Acheson, 124 Duke Street, proprietor of the Hamilton Electrical Equipment Company, have been arrested. Both young men are well known in Hamilton. The police have recovered about $5,000 of the money stolen.

At Yorkton, Sask., Judge Johnston sentenced ex-Constable Walter T. Ross, R.N.W.M.P., to ten years in the penitentiary on three charges, one for forgery and two of theft, terms to run concurrently.

At Winnipeg, Man., Mr. Adam Miller, formerly employed at the Thistle poolrooms, and Mr. Edward Blythe, whose home is at Lloyd, Sask., 19 and 18 years of age, respectively, were arrested at the store of Mr. H. Gordon, gents' furnishings, while endeavoring to pass cheques alleged to be bogus.

Mr. Guy Cross of Heward, Sask., has been arrested on a charge of forgery. It is alleged he signed the name of a farmer to a cheque for $10. Also with attempting to discount a note for $50 with the Bank of Hamilton bearing the name of Cross and W. L. Russell.

The store of Mr. Samuel J. Charlton at Lakefield, Ont., was recently robbed. The safe was wrecked and over $200 taken. A couple of cheques for small amounts were also taken.

The Dominion Bridge Company may locate in Calgary, Alta.

Application will be made to the Saskatchewan Legislature to incorporate a company to be known as Executors and Administrators Trust Company. J. E. Caldwell, Moose Jaw, Sask., is solicitor for the applicants.

WORLD'S WHEAT FORECAST.

Broomhall's Estimate for All Countries—Europe, With Certain Exceptions, in Better Position.

Conditions affecting the supply and demand of wheat as far ahead as the end of July, the end of the internationa year, can now be fairly well forecasted with the crops of Argentina and Australia within reasonable distance of ascertainment. It is also known what the importing countries will need to supply their wants. Broomhall's estimate of prospective requirements for these latter countries is placed at 526,000,000 bushels between August 1, 1911, and July 31, 1912. Actual imports for the preceding year were 630,000,000 bushels, so that on this reckoning importing countries will need 104,000,000 bushels less than they did in 1910-11.

Fortunate for Importing Countries.

This is a rather fortunate position for the importing countries. They include practically all of Western Europe. Most of them, however, will need a good deal less than they did last year. Below are the totals converted into bushels from quarters of eight bushels each on Broomhall's estimate of requirements:—

Importing countries:	Requirements 1911-12 Bushels	Actual imports 1910-11 Bushels
United Kingdom	208,000,000	208,000,000
France	24,000,000	88.000 000
Belgium	48,000,000	56,000,000
Holland	16,000,000	20,000,000
Germany	72,000,000	69,600,000
Italy	32,000.000	59,200,000
Spain	2,000,000	6,800.000
Portugal	400,000	400,000
Greece	7,200,000	10,000,000
Denmark	4,400,000	4,560,000
Sweden	7,200,000	6,840.000
Norway	3,200,000	3,200,000
Switzerland	17,600,000	17,600,000
Austria-Hungary	4,000,000	2,400,000
Total continent	238,000,000	344,800,000
Total Europe	446,000,000	553,600,000
Ex-Europe	80,000,000	76,800,000
Total all countries....	526,000,000	630,600,000

Needs of Europe.

Most of the reduction in requirements is found in the quantity which Europe is estimated as needing. A reduction of nearly 20 per cent. is foretold in these figures. The better position of France is noteworthy, as is also that of Italy and Spain. The first mentioned country is regarded by other authorities as requiring 20,000,000 bushels of imported wheat by July 1, 1912.

◆

Fifty years ago John Ruskin prophesied that the profession of commerce was a profession to which gentlemen would become increasingly proud to belong; that the soldier's profession, to defend his country; the pastor's, to teach it; the physician's, to keep it in health; the lawyer's, to enforce justice—and all on due occasion to die for it—was not necessarily more honorable than that of the merchant, whose duty it was to provide for his country; that all had a work to do irrespective of fee. That was a great thing to say 50 years ago. Degrees of Commerce are now conferred by the universities, and it has come to pass that what John Ruskin said of the profession of the soldier, lawyer, physician, or merchant, or of any of the intellectual professions, may be said with equal justice of shipping, banking or insurance, which together constitute the front rank of the great callings which have evolved with the profession of commerce.—A. H. Heal, of Liverpool Insurance Institute.

The fire which destroyed the restaurant and ice cream parlor of Mr. E. Abousamara, a Syrian, has been investigated by Fire Commissioner Latulippe, of Montreal, who expressed his dissatisfaction with the explanations given. It was shown that the fire had originated in a barber's shop, which was rented to a tenant, while the latter told the court that he believed the fire was set maliciously. Mr. Abousamara questioned about the management of the business, stated that it was conducted in the name of a cousin. Also that it was insured for $1,000 on the store and $1,000 on the barber shop. The stock of the latter was only valued at $600, and the owner explained that his agent had made a mistake and insured the stock too high. A clerk also made a statement about trying to get into the burning place, which he was prevented from doing by Abousamara, but the latter denied this. Commissioner Latulippe told the owner that he was not satisfied so far and would have further investigations made.

CRITICS AT HOME AND ABROAD.

Quantity and Quality of Canadian Securities—Shareholder of Amalgamated Asbestos Company is Disgusted With Matters as They Are.

Editor, The Monetary Times,

"Sir,—There have been some Canadian flotations launched within the past few years on the British and Canadian financial market which, at this early stage, have turned out bad for the investor. Most of these had at the time of floating the earmarks of a stock-jobbing proposition which reflected little credit on the promoters and those concerned, but the point I would like to see you discuss is, how are legitimate proposals to be protected or emphasized as compared with those of the type above referred to?

"We hear much of the persistence of the British investor in having details of proposals, and I know of several cases where legitimate care has been exercised in verifying data furnished from this side, but there appears to have been a deplorable lack of care or judgment in some of the recent flotations. Where is the fault?

Investors are Much the Same.

"From observations extending over quite a period I have come to the conclusion that investors the world over are very much the same. Some are careful, others slack, and the great bulk rely on the recommendation of their brokers. I have further concluded that the question of brokerage affects some of the London brokers as it does some Canadian brokers in blinding them to their sense of duty to their clients and the public generally.

"I have been told on excellent authority that Canadian industrial proposals at the present time are practically impossible in London. Your valuable paper points out the heavy borrowing done in in that market during recent years as, in part, accounting for such a state. But, to be perfectly candid, is it not your opinion that it is the quality, not the quantity, that is the true reason?

Right and Wrong.

"If so, what can be done about it? It is pretty hard to get at the people concerned owing to the individual differences of opinion as to what constitutes the dividing line between right and wrong in these matters, but the results, affecting as they do so many, not only the British investor, but also, the legitimate industries of this country which in turn directly affects the many people dependent thereon for support.

"It is with considerable reluctance that I would suggest some action on the part of the Dominion Department of Trade and Commerce at Ottawa. The great danger of any such official act is that it might, under certain circumstances, be carried too far and the cure worse than the ill. I shall be glad to hear your views on this subject. Yours etc.,

J. J. HUNTER."

Vancouver, B.C., December 4, 1911.

Need for Financial Housecleaning.

We do not see how the Dominion Department of Trade and Commerce could properly regulate the matters mentioned by our correspondent. It is impossible to legislate commonsense into the investor. He should be protected by the best possible laws respecting company incorporation, the filing of annual statements and other information, the use of names of well-known citizens as directors, over capitalization, etc. Analyzing the results of Canadian flotations in London during the past few months, it would seem that the British investor, to a large extent, had treated most of the issues for what they were worth. There is less disposition on the part of the investor to depend solely upon the advice of brokers. We believe that any sound, well-backed industrial proposal would meet with success in the London market at the present time. There is need, as our correspondent suggests, for a little financial housecleaning in Canada, a matter which was treated in the editorial columns of last week's issue.—Editor, Monetary Times.

Amalgamated Asbestos Bonds.

Another correspondent, a reader of The Monetary Times since 1872 and a shareholder of the Amalgamated Asbestos Corporation, writes from London, England, complaining of the state of affairs in connection with that company. "You say," he says, "it is purposed to reduce the amount of bonds to $2,000,000 which would reduce the interest charge to 1½ per cent. (1¼), a great injustice to the bondholders. A few facts about the company may refresh your memory and perhaps induce you, as a matter of justice to the only victimized class in the company, to say a few words on their behalf—I mean the bondholders.

"The company was formed in 1909 and had a very glowing prospectus, upon which were the names as directors of some of the most prominent business men in Canada. It had capital stock of $1,875,125 preferred and $8,124,725 common—both being 'water' entirely. A bonded debt of $7,500,000 secured by mortgage on the property having 5 per cent. was created to pay for the various mines and supply working capital. The mines had been worked for years—at a profit—and were inexhaustible. The company had a cash capital of $900,000 and orders on their books for $2,700,000 of their product. Quebec supplied 80 per cent. of the world's supply of asbestos and this company controlled 90 per cent. of it. The bonds sold in 1909 at 80 and were quoted over that figure. They were offered in London less than two years ago at 92½ and interest and sold at that.

Should Not Have Paid It.

"A year ago some prominent bond houses in Montreal and Toronto offered them to their clients at 90 and strongly recommended their purchase. The company paid interest on the bonds for two years and half year's interest on the preferred stock which they should not have done—I mean on preferred stock. Now, all this being considered, the bonds must be worth more than 25 per cent., or the whole affair, backed by Canada's prominent business men, is——. Have Canadians got the craze for wealth so badly?"

[The Monetary Times has already expressed its opinion of the Amalgamated Asbestos fiasco more than once in these columns and kept its readers well posted as to the manner in which matters were drifting. The bondholders obviously have a grievance and it behoves the reorganization committee to bear this in mind.—Editor, Monetary Times.]

◆

NOVEMBER FIRE LOSS.

The fire losses of the United States and Canada during the month of November, as compiled from the carefully kept records of The Journal of Commerce, show an aggregate of $18,680,600, as compared with $16,407,000 for the same month last year. The following table gives a comparison by months of the fire losses for this and the two preceding years.—

	1909	1910	1911
January	$22,735,000	$15,175,400	$21,922,450
February	16,131,000	15,489,350	16,415,000
March	13,795,400	18,465,550	31,569,800
April	19,345,300	18,091,800	17,670,550
May	17,360,400	18,823,200	21,422,000
June	14,435,900	13,183,600	20,691,950
July	15,830,900	26,847,900	25,301,150
August	16,423,000	21,570,550	12,662,650
September	15,043,000	11,700,000	11,333,250
October	17,765,200	37,183,300	13,945,000
November	14,808,550	16,407,000	18,680,600
Total, 11 months	$183,673.650	$212,942,650	$211,614,400
December	19,975,500	21,528,000	....
Total for year..	$203,649,150	$234,470,650	....

The fire losses of Canada during November were $1,506,500, and for the eleven months $18,592,625.

◆

COBALT ORE SHIPMENTS.

The following are the shipments of Cobalt ore, in pounds, for the week ended December 8th:—Nipissing, 182,919; McKinley-Darragh, 192,500; Coniagas, 55,700; Hudson Bay, 61,700; O'Brien, 66,800; Buffalo, 60,982; La Rose, 64,165; Right-of-Way, 61,998; Chambers-Ferland, 86,000; Drummond, 60,000; total, 982,764 pounds or 491 tons. The total shipments since January 1st are now 48,233,134 pounds or 24,116 tons.

In 1904 the camp produced 158 tons, valued at $316,217; in 1905, 2,144 tons, valued at $1,437,196; in 1906, 5,129 tons, valued at $3,900,000; in 1907, 14,040 tons; in 1908, 25,700 tons; in 1909, 29,751 tons; in 1910, 34,041 tons.

◆

The Grand Trunk Pacific Railway will apply to parliament for an Act confirming the agreement made on December 1st between the Temiskaming and Northern Ontario Railway Commission and the Grand Trunk Pacific, providing for joint use of the Temiskaming and Northern Ontario between North Bay and Cochrane, and authorizing the Grand Trunk Pacific to run its trains over that portion of the Temiskaming and Northern Ontario Railway from Nipissing Junction to North Bay.

PANAMA CANAL.

Its Probable Early Completion Awakens Further Interest—History of the Enterprise.

Canadians, as well as our neighbors in the United States, are looking forward with interest to the completion of the Panama Canal. The Pacific coast of Canada anticipates obtaining considerable benefit as the result of the building of this canal. It is thought that the waterway will be open for traffic in the early part of 1914 and formally opened in January, 1915, although President Taft recently predicted that it would be open in July, 1913. The project has a long and interesting history.

In 1825 a Frenchman obtained a franchise from New Granada, but failed to raise the necessary capital. In 1835 the United States sent an engineer to report on a canal project, but this came to nothing. In 1838 a concession was granted to France, but this concession lapsed. In 1848 a party of Americans secured a concession for a railroad across the Isthmus, and this road was opened for traffic in 1855, from Colon to Panama. Under this concession the Panama Railroad Company held exclusive right to construct a railroad or canal through certain territory, which gave it complete control of the Panama route. First-class fare for many years after the road was open was $25.00 gold, or about 50 cents per mile.

President Grant Appointed Commission.

From 1853 to 1895, inclusive, this company paid dividends amounting to $37,800,000.00, or over 600 per cent. In 1869 the United States again took up the question of an Isthmian canal, and President Grant appointed a commission to investigate the matter. A treaty was entered into with the United States of Columbia in 1870, and as the Panama route was subject to the Panama Railroad Company's concession, the commission selected the Nicaragua route, and reported favorably upon it in 1876, but nothing was done, and France stepped in and remained in control until 1904.

Ferdinand de Lesseps formed a company in 1878, and secured a concession from the United States of Columbia. Surveys were made and the route from Colon to Panama was decided upon. The Panama Railroad was purchased for $18,000,000.00, and work was started on a sea-level canal; $240,000,000.00 was subscribed to the project and the time of completion was fixed as twelve years.

Stopped for Lack of Funds.

In 1887 it became impossible to secure more money and a lock canal was substituted for the sea level project, but at last the whole work stopped for lack of funds, $260,000,000.00 having been expended and 66,700,000 cubic yards of excavation having been removed.

In 1889 work was suspended and a receiver appointed. A new company was formed in 1894, and this company continued to do sufficient work to maintain its franchise, until in 1904 all of its rights were taken over by the United States. The total excavation by both French companies amounted to about 78,146,000 cubic yards.

The United States secured from the French company all of its franchise rights, the Panama Railroad, all the French surveys and maps, machinery, buildings, etc., etc., and paid therefor $40,000,000.00.

The United States has utilized 29,000,000 cubic yards of the French excavation in the present project, valued at $27,500,000.00. The Panama Railroad, for which the French paid $18,000,000.00, was valued at $7,000,000. A total of 76,000 acres of land was acquired. The French surveys, maps, and data were valued at $2,000,000.00. Up to the present, French machinery valued at $1,000,000.00, and French buildings, valued at about $2,000,000.00, are in use.

Treaty With Panama Republic.

The United States made a treaty with the Republic of Panama and paid $10,000,000.00 for all rights conveyed, and agreed to pay $250,000.00 per annum, after the expiration of nine years from the date of the signing of the treaty. Under this treaty the United States guarantees the independence of the Republic of Panama and secures absolute control of the canal zone, a strip of land ten miles wide, through the centre of which the canal passes. This zone has an area of about 448 square miles. It is a perpetual lease to the United States for this territory with all governmental rights and privileges, but strictly it is not United States soil, for residents therein acquire no rights of United States citizenship. The cities of Panama and Colon, while within the five-mile limit which bounds the canal zone, from the centre line of the canal, are not included in the zone, and are considered Panamanian territory, although the United States has the right to regulate sanitary matters within their borders and preserve order with armed forces if they consider it necessary.

From Atlantic to Pacific.

The canal will pass through the Isthmus from the south shore of Limon Bay, in a southeasterly direction, to Balboa near Panama, on the Pacific side. Its length from shore to shore will be 41½ miles, and from deep water in the Atlantic to deep water in the Pacific 50½ miles.

In entering the canal from the Atlantic, a ship will proceed from deep water in Limon Bay, a distance of seven miles, to the north end of Gatun Locks. It will be raised 85 feet through these locks, by three steps, and will then pass out of the locks into the Gatun Lake, which is formed by the Gatun Dam intercepting the Chagres River. The ship will pass through the lake and Culebra Cut to the Pedro Miguel Lock, on the Pacific side, a distance of about 32 miles, Culebra Cut itself being about nine (9) miles long. The ship will here be lowered 30 feet through Pedro Miguel Lock, by one step, and will then pass through Miraflores Lake, a distance of about two (2) miles, and enter Miraflores Locks, where it will be lowered 55 feet, at mean tide, by two steps, to the level of the Pacific Ocean. It will then proceed through the channel about eight (8) miles to deep water in the Pacific.

Depth of Channel.

The channel throughout its entire length will have a minimum depth of 41 feet. The tidal variation on the Atlantic side does not exceed 2½ feet, while on the Pacific side it is about 21 feet. The time of passage for a ship through the canal is estimated to be from nine to ten hours, three of which will be spent in the locks.

An excellent relief map of the Panama Canal, together with a descriptive pamphlet, has been received by The Monetary Times from Samuel M. Green Incorporated, engineers, 318 Main Street, Springfield, Mass. These will prove helpful to all who are interested in the subject of the Panama Canal.

◆

MINING ENGINEERS' PARTNERSHIP.

Mr. W. E. H. Carter and Mr. Smith have formed a partnership as consulting mining engineers with offices in Toronto and branch offices in the field at mining centres. Mr. Smith is now resident at South Porcupine. For a number of years both Mr. Smith and Mr. Carter have been separately carrying on a consulting mining practice throughout Canada, and chiefly in Ontario. Services will be placed at the disposal of investors in mining enterprises at the start of operations when they need technical advice probably more than at any other period. By having engineers resident in the field such work can be expeditiously and economically undertaken. The firm will continue to carry on the consulting practice of the examination and report on mining properties and also the operation of mining properties as consulting engineers. Assessment work on mining claims is being undertaken under the personal supervision of one of the members of the firm and done by its staff of miners, which means that this will actually be performed, the money spent to the best advantage and on completion an intelligent report rendered as to the prospects. Both Mr. Smith and Mr. Carter are Toronto University graduates, and both have held important positions from the Ontario Government at various periods of their careers, both having undertaken exploration work of the northern portions of that province in the early days before it became as accessible as it is today.

Mr. Smith after spending several years following his profession in Canada took charge of a large gold mine in Mexico, remaining there five or six years. Subsequently he has been operating mines in Ontario both at Cobalt and Porcupine and conducting in addition a consulting practice. Mr. Carter has been active in university and mining affairs for a good many years. He was president of the Engineering Society of the School of Practical Science in 1899, president of the Engineering Alumni Association of the University of Toronto last year. Recently he has been appointed secretary of the Toronto branch of the Canadian Mining Institute.

Mr. Smith is one of the best qualified engineers operating in the gold fields of Canada. As a recognition of his technical work in gold here and in Mexico he has been admitted to membership in the Institute of Mining and Metallurgy, London, England.

◆

The Canadian Northern Railway will transfer considerable land in Tisdale, Birge Hills, Melport and Kinistine districts, Saskatchewan, to the Northern Saskatchewan Land Company, Limited.

NEW INCORPORATIONS.

Sixty-two New Companies Have Been Granted Charters —Many Are Industrial Concerns.

The capitalization of the sixty-two companies incorporated last week amounts to $11,022,000.

The concerns granted charters which have capital of $1,000,000 and over are as follows:—Winyah Gold Mines, Toronto, $2,500,000; Porcupine Hecla Mining Company, Toronto, $1,500,000; Gasoletric Motors, St. Thomas, $1,000,000; Building and Loans, Calgary, $1,000,000. By provinces, Alberta has 25 of the new companies, Ontario 23, Quebec 6, Saskatoon 6, New Brunswick 2.

The following is a list of charters granted during the past week. The head office of each company is situate in the town, city or province mentioned at the beginning of each paragraph. The persons named are provisional directors:

Lacombe, Alta.—F. L. Smith, $25,000.

Cowley, Alta.—Cowley Land Company, $30,000.

Lethbridge, Alta.—Printers and Stationers, $50,000.

Bow Island, Alta.—Chin Coulee Coal Company, $10,000.

Herschel, Sask.—Herschel Skating Rink Company, $2,000.

Rosetown, Sask.—British-American Land Company, $50,000.

Regina, Sask.—Western . Steel & Supply Company, $20,000.

Strathcona, Alta.—Northern Wine & Spirit Company, $10,000.

Athabasca Landing, Alta.—Athabasca Hotel Company, $10,000.

Botha, Alta.—Botha Farmers' Elevator Company, $10,000.

Bassano, Alta.—Bassano Development & Improvement Company, $100,000.

Saskatoon, Sask.—C. L. Tanner Land Company, $30,000. Pacific Addition, $45,000.

Berlin, Ont.—Ontario Board of Menonite Finance; A. Groh, D. Shuh, W. Fretz.

East Florenceville, N.B.—McIntyre & Ross, $5,000; D. W. Ross, T. R. McIntyre.

Prince Albert, Sask.—Saskatchewan River Coal & Navigation Company, $100,000.

Stroud, Ont.—Stroud Telephone Company, $4,000; R. A. Sutherland, J. W. Black, R. A. Carr.

St. Thomas, Ont.—Gasoletric Motors, $1,000,000; W. J. Boland, J. F. Boland, J. C. German.

Windsor, Ont.—Canadian Sirocco Company, $100,000; J. Inglis, C. H. Gifford, F. R. Still, all of Detroit.

Moncton, N.B.—International Automobile Company, $50,000; R. C. Bacon, F. L. Crandall, J. S. Magee.

Haileybury, Ont.—Switzer Mining Company, $500,000; N. W. Switzer, Haileybury; J. E. Day, J. M. Ferguson, Toronto.

Ottawa, Ont.—Eastview Land Company, $40,000; G. Carss, W. G. Blyth, V. V. Rogers. Fairmont Property Company, $40,000; V. V. Rogers, W. G. Blyth, E. R. McNeill. Rockliffe Annex Land Company, $50,000; R. Chevrier, R. E. Valin, L. C. Morisset.

Calgary, Alta.—Berkeley Heights . Land Company, $200,000. Western Canada Engineering, Constructing & Paving Company, $250,000. Associated Workmen's Company, $300,000. Northern Securities Company, $20,000. P. D. McLaren, $25,000. Hammond Realty Company, $100,000. Building & Loans, $1,000,000.

Edmonton, Alta.—Calhoun Oil Company, $30,000. Twin City Plumbing & Heating Company, $10,000 Province Realty Company, $50,000. Metropolitan Realty Company, $10,000. Northern & Vermilion Development Company, $100,000. Northern Resources, $25,000. Western Coal Company, $10,000. Alberta Development Corporation, $100,000. Edmonton Real Estate Company, $100,000. S. E. Walker Company, $10,000.

Montreal, Que.—Dominion Optical Manufacturing Company, $50,000; F. J. Pelletier, A. Leblanc, J. Pelletier. J. A. Pitts Company, $50,000; M. Dugas, L. A. David, C. J. Charbonneau. Dominion Mahogany & Veneer Company, $500,000; C. G. Mackinnon, J. T. Hackett, T. B. Gould. Montreal (Lachine Canal) Land Syndicate, $400,000; G. W. MacDougall, L. Macfarlane, G. Barclay. Lorne Realties, $150,000; G. V. Cousins, E. G. T. Penny, P. F. Brown. Ayuda Cigar Company, $50,000; C. H. G. Short, W. H. McNally, L. F. Moore.

Toronto, Ont.—Grassick Brothers, $40,000; F. C. Grassick, N. G. Gassick, J. S. M. Grassick. Macey Sign Company, $40,000; R. J. Wray, T. J. Macey, W. J. Dixon, Bathurst Estates, $100,000; J. B. Moon, J. R. Corkery, E. G. McMillan. Porcupine-Hecla Mining Company, $1,500,000; J. Collins, J. G. Smith, N. Sinclair. Babcock Filter Company, $40,000; C. J. McLaughlin, W. J. McCallum. Manufacturers & Importers, $40,000; R. G. Agnew, O. H. King, A. J. Wise. McArthur-Richey-Trimble, $40,000; C. H. McArthur, H. B. Richey, R. H. Trimble. Toronto Hotel-Keepers' Association; W. Hassard, J. Seymour, T. Ryan. Winyah Gold Mines, $2,500,000; A. G. Ross, L. Davis, H. L. Slaght. Lourdes Co-Operative Hockey Club, $1,000; K. E. Morrow, A. G. McGraw, J. W. Price. Toronto Pressed Brick & Terra Cotta Company of Milton, $300,000; F. C. Gullen, Misses E. M. Carruthers, E. B. McKenzie. Independent Bread-Drivers' Union; E. Adler, J. Solway, B. Goldhar. Western Canada Properties, $500,000; R. B. Scott, G. B. Balfour, J. Parker. Congregation of Teferis Wisrual Beker Chilom Unshid of Ostrovtsa; A. Warshavsky, H. Borkovsky, L. Bloom. Independent Cigar Company, $100,000; C. W. Mitchell, W. Kelly, J. A. Hopeson.

◆

FROM COAST TO COAST.

The head office of the Porcupine Realty and Mines Company, Limited, has been changed from Porcupine to Welland, Ont.

The Hudson Bay Insurance Company is increasing its capital $500,000. This capital stock is being sold at a premium of $30 a share.

The Royal Securities Corporation, Limited, of Montreal, have opened a branch office at Ottawa under the management of Mr. W. R. Creighton.

Application will be made at the present session of the Dominion Parliament to incorporate the British Canadian Loan Company. L. L. Dawson, Regina, is solicitor for the applicant.

Application will be made to the Dominion Parliament to incorporate the shareholders of the Dominion Trust Company under the name of the British Trust Company. Chas. M. Holt, Montreal, is solicitor for the applicants.

For some months past a committee of the Vancouver Board of Trade has been making enquiries relative to government ownership of telephones, and at the last regular meeting reported that it would be advisable for the Provincial Government to take over and operate the telephone system of British Columbia. A motion will come before the next meeting to have a committee wait upon the government and bring this matter before them.

A meeting of the depositors and non-privileged creditors of La Banque de St. Hyacinthe, will be held on December 19th, at St. Hyacinthe, to consider the offer, as a final and amicable settlement, of a composition by the bank at 85 cents on the dollar of the entire claims, that is an additional dividend of 15 per cent., the depositors and creditors reserving their rights, should the clear assets, besides the double responsibility, bring more than 85 per cent.

At the annual meeting of the Rio de Janeiro Tramway, Light, Heat and Power Company, in Toronto last week, the shareholders authorized an increase of capital by $10,000,000. Half of the authorized new capital will be issued at 105 in the proportion of one share of new to eight of old. In explaining the new issue Sir William Mackenzie said that he estimated net earnings this year at between $6.500,000 and $7,000,000. These earnings were stated to be at the rate of between 9 and 10 per cent. on the common stock.

For the convenience of persons interested in Canadian securities, Messrs. Greenshields & Company, Montreal, have compiled a list of stocks traded in on the Montreal Stock Exchange, and have classified them according to their desirability from an investment point of view. The classification is in three divisions, as follows:—Investment Stocks—Those which, considering their underlying conditions, are, in our opinion, the most desirable stocks to purchase for investment holdings. Semi-Investment Stocks—Those dividend-paying stocks which we believe to have promise of growing value. Speculative Stocks—Those issues which have not as yet attained sufficient strength to warrant their being placed in either of the above classes. With each stock compiled is a statistical analysis from the latest statement obtainable of the company's operations for the fiscal year. In each case is given:. The amount of such stock outstanding the percentage paid in dividends during the year; the dividend rate now in effect; the surplus from the year's operation after the payment of all charges, dividends and appropriations; the percentage of such surplus to the outstanding stock; the approximate offered price at December 1, 1911; its income yield at that price; the date of the ending of the fiscal year for which the statistics are given. The analysis of Canadian stocks is a valuable compilation, and should prove of considerable assistance to the investor.

LATE MR. J. HERBERT MASON

Was a Man of Splendid Character and an Influential Citizen—Founder of the Canada Permanent Mortgage Corporation.

It is a far cry to 1855, when Canada did not extend westward of Lake Superior, and the province of Ontario was practically bounded on the north by Georgian Bay. There were serious limitations then to the country s progress: lack of railroads, sparse population, inadequate capital, unknown resources. But this was the time of founding of the Canada Permanent Building and Savings Society, as its name was at first, by Mr. J. Herbert Mason and eight Toronto co-adjutors, only one of whom survives in the person of Mr. Samuel Nordheimer.

The death of Mr. Mason on the 9th instant removes a man who was for more than half a century the mainspring of what has become known as the Canada Permanent Loan Corporation, one of the most important financial institutions of the Dominion. It would take long to trace this company through its gradual growth, its amalgamation of other companies, the enlargement of its powers, the extension of its field. Sufficient to say that it was the pattern upon which various other lending companies, great and small, were founded. And also that its manager was the exemplar and the adviser of many who strove, some successfully, others not so, to relieve the poverty of thousands of Canadian farmers in bygone days by borrowing money in the Old Country to lend it upon real estate here.

Another feature stands prominently out to the credit of Mr. Mason. It was he who devised, or at any rate promoted to successful issue, many measures designed to consolidate and simplify the laws relating to borrowers and lenders, and for this the land-loaning companies of Canada owed him a great debt. It was he, too, who organized in 1883 the Canada Land Law Amendment Association, of which he was the first and only president. This body was instrumental in having the Torrens system of land transfer introduced in the North-West Territories, Manitoba and New Ontario.

Was an Incessant Traveller.

All his life an energetic worker, whether in financial circles or in connection with philanthropy, education, music, religion, Imperialism, the first years, when he was getting his company on its feet, were perhaps his busiest. He travelled Ontario, from the River Tweed to Lake Huron with incessant activity; first, to see for himself the character of the farming land and to judge of the future of growing towns and villages; second, to select agents for the Canada Permanent at points which he decided on. Scores of times has the present writer welcomed his handsome face and confident air in remote country hotels in the Southwest Peninsula, in boats on the Great Lakes, on the old (and then irregular) Grand Trunk, by night and by day during the 'Sixties and 'Seventies. The worst weather could not deter him, warnings of discomforts ahead or the risk of accident were as nothing to his resolute nature. He was building for the future—a future he believed in, with splendid optimism, for his country and his company.

His labors and those of the able and faithful directors and workers surrounding him, had their fruition in the stately Canada Permanent of to-day, with branches in the Maritime and the Northwest Provinces, and agencies in Great Britain, with loans of twenty-seven millions and with assets of thirty millions. The amalgamation of the Canada Permanent Company with the Western Canada, the Freehold Loan, and the London and Ontario Investment companies produced, in 1900, the present corporation.

A Man of Splendid Character.

The late Mr. Mason was "A Man of Devon," and left that historic county of Great Britain when a lad. The men of Devon have always been proud of their native shire, whose golden age was that of Elizabeth, and it was so with Mr. Mason. Indeed, he exemplified in his indomitable character some of the best of the Devon man's traits: enterprise, assiduity, courage and honor.

He was in truth a veteran of finance; but he was, besides, a valuable citizen whose knowledge of the country, broad views and organizing ability were of use beyond the region of business proper. In the councils of the Board of Trade, the University, the St. George's Union of America, life insurance bodies, church synods and the British Empire League, his counsel was often sought and freely given. Not alone were his constructive powers valuable, but his bold and confident disposition served to help forward many a worthy cause.

RECENT FIRES.

Monetary Times' Weekly Register of Fire Losses and Insurance.

Barrie, Ont.—December 11th.—Market hotel, Collier Street, badly damaged. Loss and origin unknown.

North Toronto, Ont.—December 7th.—Stores at 2082, 2084 Yonge Street, destroyed. Loss about $3,000. Origin unknown.

Woodstock, N.B.—December 10th.—Barn of Mr. Chas. McDade, destroyed; one man burned to death. Loss and origin unknown.

Windsor, N.S.—December 7th.—Residence of Miss Daniels, Gerrish Street, destroyed. Loss about $3,000. Origin unknown.

Glenboro, Man.—December 8th.—Grist mill and elevator of Messrs. Adamson & Scott, destroyed. Loss about $45,000. Origin unknown.

Rosthern, Sask.—December 8th.—Flour mill of Union Supply Company, Limited, destroyed. Loss about $17,000. Origin unknown.

Brandon, Man.—December 7th.—Carpenter shop of Mr. Higgins, 21st Street, destroyed. Loss unknown. Origin, sparks from stove.

Paisley, Ont.—December 7th.—Store and stable occupied by Mr. W. T. Richardson, Underwood, destroyed. Loss about $10,000. Origin unknown.

Windsor, Ont.—December 10th.—Barn of Messrs. Fielding & Campeau, Arthur Street East, destroyed, also 3 horses. Loss about $2,000. Origin unknown.

Fredericton, N.B.—December 12th.—Barn of Messrs. Allan and Fred. Harrison, destroyed, also 34 cattle, 4 horses, and 75 tons hay. Loss and origin unknown.

Winnipeg, Man.—December 9th.—Residence of Mr. G. Patterson, 516 Gertrude Avenue, destroyed. Loss about $350. Origin, lamp explosion. Residence of Mr. H. Gill, Inglewood Street, destroyed. Loss and origin unknown.

Owen Sound, Ont.—December 11th.—Canadian Pacific Railway elevators, Harbor Street, engine-house, light-house, several smaller buildings, and number of railway cars, also 1,000,000 bushels of grain. Loss about $1,000,000. Origin unknown.

Quebec, P.Q.—December 8th.—Home of Mr. Thos. Jones, Champlain Street, destroyed, also Mrs. Champlain and three children. Loss and origin unknown. December 8th.—Garage of Mr. J. W. Landry, St. Paul Street, St. Rochs, destroyed, also 9 autos. Loss about $15,000. Origin, hot ashes from furnace.

Montreal, Que.—December 7th.—Factory of National Spinning Company, 33 Bleury Street, damaged. Loss about $5,000. Origin unknown. December 10th.—Cigar factory of Messrs. E. Youngheart & Company, St. Maurice Street, damaged. Loss about $5,000. Origin unknown. Sash and door factory of Messrs. Landreville & Huard, Dufresne Park, badly damaged. Loss and origin unknown. December 9th.—Power house of Saraguay Electric Company, Cartierville, destroyed. Loss and origin unknown. December 6th.—Rolling mill of Peck Rolling Mills, Limited, Mill Street, Point St. Charles, damaged. Loss and origin unknown. December 12th.—Willett's woolen factory at Chambly, badly damaged. Loss and origin unknown. December 13th.—Canada Cycle & Motor Car Company, University Street, badly damaged. Loss about $30,000. Origin, supposed gasoline explosion.

◆

ADDITIONAL INFORMATION CONCERNING FIRES ALREADY REPORTED.

Owen Sound, Ont.—Mr. A. Minard's loss was insured with the Merchant Fire Insurance Company.

Wilcox, Sask.—The loss sustained by Imperial Oil Company was $400 on stock, and $700 on buildings.

Diamond City, Alta.—Diamond City Coal Mine Company's premises were insured with Dominion Fire for $5,000.

Regina, Sask.—Warehouse of the American-Abell Thresher and Engine Company. Loss not adjusted. Cause, overheated furnace. Mr. James Hall, bicycles and automobiles. Loss on goods, $131.41; insurance, $1,000. Loss on building, $169.39; insurance, $1,500. Cause, gasoline. English Church mission house. Loss on furniture, $509.50; insurance, $800. Loss on building, $2,000; insurance, $3,500. Cause, overheated furnace. Canadian Northern Railway Company, heated car of merchandise. No damage to goods. slight damage to car. Cause, heating apparatus. Canadian Pacific Railway Company, heated car of merchandise. No damage to goods, slight damage to car. Cause, heating apparatus. Mr. P. C. Dunnet, house, slight damage. No damage to goods. Cause, defective chimney.

BRITISH COLUMBIA.

Railroad Construction Between Vancouver and Peace River Country to be Developed—Suggest Point Grey Should Change Name to West Vancouver.

(Staff Correspondence).

Vancouver, December 9th, 1911.

More is being heard of the Peace River country, the last great hinterland. Surveyors report that it is a good grazing country, the chances for raising grain crops being as good as in many parts of the Northwest already cultivated. Exploration parties who were in the district during the past summer report that pioneers have found their way and have established homesteads. The British Columbia government is laying out the land within the borders of its territory so that settlers may go on to land that is surveyed.

Vancouver business men are taking action toward the construction of a line of railway direct from this city to the district soon to be developed, and more than one company would profit by the activity that will soon manifest itself there. Application will be made to the Dominion early in the year to incorporate the Vancouver and Peace River Railway Company, with all the necessary subsidiary powers. Amendment will be asked to the British Columbia and Alaska Railway Act, 1910, whereby it may run a line into the Peace River country. The Canadian Northern also may operate a route to reach the district, with the intention of ultimately extending the line across Northern British Columbia. The great northern interior has waited long for transportation facilities, but it was not until the Grank Trunk Pacific started construction that life was given. It is as much to the credit of the Grand Trunk Pacific as any one else that British Columbia's great undeveloped north is at last to have transportation.

Fort George and Tete Jaune Cache Route.

The steamer is now being constructed at the mills of Canadian Western Lumber Company on the lower Fraser for the route between Fort George and Tete Jaune Cache. This will give Edmonton direct touch with the Fort George territory, for it will be an easy matter to transport goods by rail to the Cache and thence by steamer down the river. The present method by wagon from Ashcroft to Soda Creek is costly and slow.

The statement made by Mr. A. G. McCandless, president of the Vancouver Board of Trade, that the Vanderbilt interests have had representatives exploring the Peace River country, with the object of constructing a railway should conditions warrant, is interesting. The report, it is understood, is very satisfactory. Besides agricultural possibilities, great areas of coal, soft, bituminous and anthracite, were discovered. The rainfall is eighteen inches annually, copious at the season when it is most needed.

Point Grey Appoints Fiscal Agent.

The municipality of Point Grey appointed the Bank of Montreal as agent for the issue of certain consolidated bonds of the municipality. The council recently received a letter from Messrs. Wood, Gundy & Company, Toronto, congratulating it on the issue of $1,100,000 four and a half per cents. in London at 99½. The firm suggested that it would be a substantial advantage if the name of the municipality were changed to one which would connect it in the minds of the public with Vancouver. West Vancouver was suggested. Such a name would at once give the location of Point Grey. It is in reality Vancouver's western suburb with the prospect of being the most select. There the lots are highest in price, the view is unexcelled, the university is to be located there, and the government is spending much money to make the district attractive and beautiful. Other subdivision sellers have taken advantage of Vancouver diminutives. There is East Vancouver, East Vancouver Heights, West Vancouver (west of North Vancouver), with the standards South Vancouver and North Vancouver.

◆

According to Mr. C. C. Castle, Dominion Warehouse Commissioner, Winnipeg, there is from 30 to 40 per cent. of the Western Canada crop still unthreshed in the fields. Threshing still continues in many sections of the Prairie Provinces. If the spring opens favorably there is every chance of the unthreshed wheat being handled. A car shortage is proving serious in the handling of the crop, but despite this and other adverse circumstances, over 97,000,000 bushels have already been inspected and stored or transported.

NATURAL GAS IN ONTARIO.

According to the annual report of the Ontario Bureau of Mines, natural gas in Ontario is increasing, in production. In 1909 the output was valued at $1,108,179, while in 1910 it was $1,491,239, an increase of $303,060 or 25.5 per cent. The quantity of gas produced last year is given as 7,263,427 thousand cubic feet, so that the average price at which the yield is valued is 20.5 cents per thousand cubic feet.

The gas-producing territory of Ontario lies on the north and east shores of Lake Erie. The several fields have been steadily extending and appear likely to cover practically the whole of the Ontario side of the lake. At present, there are three separate fields, namely—Welland county, Haldimand and Norfolk counties, and Essex and Kent counties. The last-named was the largest producer in 1910, the Haldimand-Norfolk field next, and Welland county the smallest. Following are the figures pertaining to the natural gas business of 1910:—

Field.	Producing wells No.	Wells bored in year. Producing	 Nonproducing	Gas produced M cu. ft.	Value
Welland	337	33	8	1,047,463	$ 278,756
Haldimand-Norfolk	444	103	21	2,374,730	676,986
Essex-Kent ..	47	9	1	3,841,234	535,497
Total	828	145	30	7,263,427	$1,491,239

These figures show that the yield per well is much greater in the Essex-Kent fields than in any of the others, also that the price per thousand cubic feet obtained for the product in that field is considerably less than in either of the others, the average being Welland 26.6 cents, Haldimand-Norfolk 28.5 cents, Essex-Kent 13.9 cents. The consumption of gas in the Haldimand-Norfolk field is largely confined to domestic purposes, being piped to Hamilton, Dundas, Brantford, Galt and other places. The leading producer will sell only for household use.

Mr. Donald Sharpe, Welland, inspector of wells, whose sphere of operations lies principally in the gas fields of Welland and Haldimand-Norfolk, reports that the producing gas wells drilled in 1910 are distributed by counties as follows.—Haldimand 159, Welland 34, Brant 21, Norfolk 11, Wentworth 5 and Elgin 2. From new gas fields at Middleport a new 4-inch main line has been laid across the Indian Reserve to the City of Brantford by the Standard Natural Gas Company. Two first-class wells have been drilled at Vienna and the prospects for the development of a new field here are particularly good for 1911. Drilling for oil will be actively prosecuted in the new oil field in Onondaga township, where two fair oil wells were brought in in 1910, and a third since the new year. All the larger gas companies are active in keeping their wells free from water and in good condition, but a state of affairs requiring special attention arises in many cases where companies do not find gas in paying quantities and dispose of the wells to the owners of the premises on which they are situated, and who usually are without knowledge of the proper care of a well.

◆

PACIFIC COAST FIRE INSURANCE COMPANY.

The Pacific Coast Fire Insurance Company of Vancouver, B.C., was incorporated in 1890. In 1904 the subscribed capital increased from $75,200 to $100,000, in 1907 to $150,000, in 1909 to $310,000, and by December 1st, 1911, to $725,000. During the same period the paid-up capital increased from $36,040 to $470,000, and the security to policyholders from $56,554 to $900,000. At June 30th the assets totalled $907,916 and the liabilities $95,905, leaving a surplus to policyholders of $907,916.

The directors have decided to increase the subscribed and paid-up capital of the company to $1,000,000 and offer 25,000 shares of stock at $150 per share. There are no bonds or prepared stock.

The Pacific Coast Fire Insurance Company has been in business 22 years, and investors who purchase stock are doing so in a company which is not a new venture, but a Canadian concern with a clean record. Applications for stock must reach the head office Vancouver, B.C., not later than December 31st.

◆

The directors of the Murray-Kay Company, in order to make their dividend dates and the regular quarters of their fiscal year coincide, have decided to postpone the payment of the preferred dividend due on December 16, until January 31, paying at that time 4½ months' dividends.

MANY KINDS OF INSURANCE

Transacted in Canada Last Year, Including Weather, Title, Plate Glass and Burglary.

Accident insurance may be subdivided into two classes, viz.:—Employers' Liability and Personal Accident, both of which are covered by an accident license. The business of accident insurance was transacted in Canada last year by seventeen companies, viz.: nine Canadian, three American and five British. Of the seventeen accident companies, fifteen transacted employers' liability insurance, viz.:—Seven Canadian, five British and three American. The total premiums received for this class of risks was $1,644,252, and the losses paid amounted to $714,977, with unsettled claims outstanding to the amount of $432,086.

All the accident companies transacted personal accident business, the total premiums for which were $1,815,571, insuring an amount of $296,236,458. The claims paid amounted to the sum of $603,331, and there were outstanding at the close of the year unsettled claims amounting to $118,868.

Guarantee Insurance Last Year.

Guarantee business was transacted by eleven companies, of which four are Canadian, three British and four American. The total premiums received were $298,940, guaranteeing an amount of $90,780,163, and the net amount paid for claims was $46,709, with unsettled claims amounting to $40,140 outstanding at the end of the year. The Guarantee Company of North America transacted business outside of the Dominion, which is not included in the above.

Contract insurance was transacted by two companies, both American. This class of insurance is included in the definition of guarantee insurance in the Insurance Act, 1910. The premiums received in 1910 amounted to $72,939, and the losses paid to $7,347, with unsettled claims amounting to $1,500.

The business of sickness insurance was carried on by seventeen companies, viz.:—two American, five British and ten Canadian. It appears, however, that sickness insurance not in combination or in conjunction with accident risks has been carried on only to a very limited extent, and returns of the premiums received in respect thereof and losses paid, &c., have not been made to the Department of Insurance. In addition to the seventeen companies above referred to, five fraternal societies, licensed by the Department of Insurance, viz.: the Supreme Court of the Independent Order of Foresters, the subsidiary High Court of the Ancient Order of Foresters, the Canadian Order of the Woodmen of the World, the Catholic Mutual Benefit Association and the Royal Guardians, pay sick benefits to such of their members as stipulate therefor in the application for membership. In the case of the Ancient Order of Foresters, these benefits are paid partly through the lodges and partly by the Subsidiary High Court. The premiums received in Canada for sickness and funeral risks by these fraternal societies amounted to $375,312 and the claims paid amounted to $280,264.

Plate Glass Insurance in Canada.

The business of plate glass insurance was transacted by eleven companies, viz.: five Canadian, two British and four American. Since the close of 1910, the business of the Dominion Plate Glass Insurance Company has been reinsured with the Lloyds Plate Glass Insurance Company of New York, a company which has been transacting plate glass insurance in Canada for many years.

The companies having adopted the system of insurance by replacement, instead of paying the value of the glass broken, and their contracts not stating any amounts as insured thereby, their returns do not show the amount of insurance effected during the year, nor the amount in force at the end thereof. The premiums received during the year in Canada for plate glass insurance were $151,399, being greater than the amount received the previous year by $18,498, and the total losses incurred were $61,504, being $8,421 greater than the amount incurred in 1909.

Burglary, Steam Boiler and Automobile Insurance, 1910.

Burglary insurance, which is transacted to a considerable extent in Great Britain, was introduced into Canada eighteen years ago. It is carried on by five companies, three Canadian and two American. The total premiums received amounted to $55,934, and the losses paid to $14,265, with unsettled claims outstanding at the end of the year amounting to $3,780.

Steam boiler insurance was carried on by five companies, three Canadian and two American. The total premiums received amounted to $111,532, and the claims paid to $3,508, with no unsettled claims outstanding at the end of the year.

Automobile insurance was carried on by seven companies, three Canadian and four American. The premiums received amounted to $80,446, and the losses paid to $28,372, with $7,430 of losses outstanding.

Tornado insurance, to a very limited extent, was carried on by three American companies in Canada, the total premiums received being $588, with no losses incurred. Hail insurance was carried on by a Canadian company, the Hudson Bay Insurance Company, the premiums received being $226,881, and the losses paid $73,362. General weather insurance, including hail, was carried on by the Canada Weather Insurance Company, the premiums received amounting to $4,369, and the losses paid to $482.

Title and Live Stock Insurance.

The Title and Trust Company is licensed by the Ottawa Department of Insurance to transact the business of "Title insurance" as defined in the company's Act of incorporation, that is to say, "guarantee the title to, or the quiet enjoyment of, property, either absolute or subject to qualifications and conditions, and to guarantee any person interested in or about to become interested in, or owning, or about to purchase or acquire any real property, against any losses, actions, proceedings, claims or demands by reason of any insufficiency or imperfections or deficiency of title or in respect of encumbrances, burdens or outstanding rights; and to guarantee the due payment of the whole or part of any loan, advance, mortgage or claim, hypothecary or otherwise, or the interest thereon." The total premiums received during the year amounted to $2,898, and no claims were incurred.

A license was on May 18, 1908, issued to the Yorkshire Insurance Company for the transaction of the business of live stock insurance in addition to the business of fire insurance. On November 5, 1908, a license was issued to the General Animals Insurance Company of Canada for live stock insurance business. The premiums received during the year amounted to $86,645. The losses incurred were $51,025, and losses paid, $48,535, with unsettled claims at the end of the year amounting to $6,430.

Inland transportation insurance was carried on by eight companies, one Canadian, three British and four American. The premiums received amounted to $114,371 and the losses paid to $55,724, with $262 outstanding at the end of the year.

INFLOW OF FRENCH MONEY.

Financial organizations such as the Credit Foncier Franco-Canadien, La Caisse Hypothecaire Canadienne (Canadian Mortgage Association), have already directed a considerable amount of French capital towards Canada, writes a valued Parisian correspondent to The Monetary Times. These two corporations alone will succeed in causing, he thinks, the investment of a hundred million dollars of French money in Canada.

Canadian banking houses, especially the firms of Messrs. L. G. Beaubien and Company and Rodolphe Forget, also contribute in directing French capital towards Canada. La Banque Nationale of Quebec and the International Bank of Canada, of Montreal, have also established branches in Paris, receiving deposits which will reach several millions of dollars before long, he adds.

In short, the impulse has been given, and at the present moment, French capitalists, large and small, are keenly interested in Canadian affairs. Recent war threats have to a certain extent slackened this pronounced movement existing in France, to enter the field of business in Canada, but as soon as peaceful and permanent agreements shall have been concluded, a serious manifestation such as indicated can be expected.

A WESTERN COMMERCIAL CENTRE.

Yorkton, Sask., is one of the prosperous towns of the West. Incorporated in 1894 with a population of 215 it has steadily grown until in 1910 the population was 3,500 and assessments $2,400,000. It is a junction point on the G.T.P. line to Hudson's Bay, and has an eighteen-hour freight service from Winnipeg.

The town has a big tributary country to draw from, and is a natural distributing point for merchandise and collecting point for outgoing products. Last year the grain shipments totalled 2,600,000 bushels and 125,000 bushels remained in the hands of the farmer.

Although there are many industries located in Yorkton, there is still room for expansion, and the secretary of the Board of Trade will advise as to what opportunities are most readily available in Yorkton, the commercial centre of Eastern Saskatchewan.

"Capital Investments in Canada"

By FRED. W. FIELD

A New Volume just Published by

THE MONETARY TIMES

Price - - $2.50

THREE hundred and seventy-two million pounds sterling have been invested by Great Britain in Canada. American capital has helped the Dominion's industrial development to the extent of nearly $417,143,221, while foreign capital in excess of $139,589,650 has also been invested in the Dominion. Complete details of these borrowings appear in the above volume, which is now ready. In view of the general interest in the subject of investment in Canada and of the Dominion's trade relations, this new book, "Capital Investments in Canada," will prove of great value. It is the first contribution on the subject to the business man's library shelves and has received excellent press notices.

The Book Discusses The

Protection of Capital.
Savings of a Young Country.
Municipal bonusing of industries.
Montreal stock quotations in France
Payment of Canada's interest charges.
Canadian Banks at home and abroad.
Effect of Immigration on National Finances.
Merits of registered stock *versus* bearer securities.
Investments in Canadian farm, town and city property.
Attention paid to the intrinsic value of Provincial Government securities.
Likes and dislikes of the British, American and foreign investor in Canada.
Capital Liability of Railroads.
Possible dangers to Canadian credit.
Shipbuilding and dry-dock investments.
Dutch interest in Canadian mortgages.
Possibility of a German - Canadian bank.
Relations of purchasers of plant and borrowers.
Practice of selling municipal bonds privately.
Scotch capital in Canada's Loan and mortgage companies.
Trade Balances in Canada, Great Britain and the United States.
And a Thousand other Topics of Great Value to all interested in Canadian Investments and Development.

The following are the chapters of the volume—

1. British investments in Canada.
2. American investments in Canada.
3. Foreign investments in Canada.
4. French investments in Canada.
5. German investments in Canada.
6. Other Countries' investments in Canada.
7. Canadian Government borrowings in London.
8. Municipal borrowings in London.
9. The financing of Canadian railroads.
10. Industrial investments in Canada.
11. Investments in Canadian land and lumber.
12. Investments in Canadian mines.
13. Canadian banks, British and foreign capital.
14. Registered stock or bearer securities?
15. Canada's credit abroad.
16. Canadian securities & the British Trustee List.
17. New capital from immigration.
18. The relation of trade to borrowed money.

APPENDICES

1. Canada's share of British capital.
2. Is Canada over-borrowing?
3. Canada and International finance.
4. Editorial comment respecting British, American and foreign capital investments in Canada.
5. List of Canadian flotations in London, January 1905 to August 1911.

THREE INDEXES

The volume is very completely indexed, one index being devoted to personal names, another to companies and institutions, and a third to subjects.

Nearly three hundred companies, Canadian, British and foreign, are referred to, while numerous authorities on the subject of investment are quoted.

Russell Motor Cars

THERE is no discounting the value of actual experience. This letter is typical of many constantly received from satisfied owners of the Russell Car.

Respectfully submitted:

Russell Motor Car Co., Limited
Montreal Branch

Dear Sirs,—
I have great pleasure in certifying that the "38" Russell Motor touring car bought from you in June last has given full satisfaction in every respect. The car has already, up to this date, travelled over nine thousand miles, and except for minor details there has been no necessity for repairs on it.

My experience in Motor Cars for the last few years teaches me that we cannot choose a better car than the Russell Knight.

I take occasion also to remark that the treatment received at your hands and staff has always been of the very best. You are always ready to give the best service, and your cordiality is beyond reproach. I can testify to your straight and strict business principles.

Yours very truly,
(Signed) **J. G. Avard,**
J. G. AVARD & CO,
Real Estate Brokers,

IN INVESTMENT SPHERES.

Canadian Pacific Railway Issues Eighteen Millions of New Stock—Alberta Will Raise Big Loan.

As the market anticipated, the directors of the Canadian Pacific Railway announced this week the issue of $18,000,000 new stock at $150 per share. The stock is selling around $240, so holders will be given some rights. The new issue will be at the rate of one new share for every ten old shares.

The par value of the shares, as is known, is $100 and the company's authorized capital $200,000,000, having been increased by the authority of the shareholders on October 7th, 1908, from $150,000,000, such increase to be issued from time to time.

The ordinary capital stock now stands as follows:—

Authorized capital stock		$200,000,000
Issued previous to 1902	$65,000,000	
Issued March 27th, 1902	19,500,000	
Issued October 27th, 1904	16,900,000	
Issued April 21st, 1906	20,280,000	
Issued January 13th, 1908	24,336,000	
Sold during 1908 and 1909	3,984,000	
*Issued November 16th, 1909	30,000,000	
Issued December 11th, 1911	18,000,000	$198,000,000
Total outstanding		$2,000,000

*Paid in full, October 31st, 1910.

On November 16th, 1909, $30,000,000 new ordinary capital stock was offered to shareholders of record November 15th, 1909, at 125, on the basis of one share to five.

The underwriting of the P. Lyall & Sons Construction Company, which was placed this week by the Quebec Trust & Savings Company is stated to have been a success, the whole issue being placed in less than twenty-four hours. The new company is to have a bond issue of $1,150,000, a preferred issue of $2,000,000 and a common issue of $1,750,000.

A block of $1,200,000 first mortgage 6 per cent. bonds of the Matthews Laing, Limited, is being offered this week at par and accrued interest, by Messrs. C. Meredith & Company, Limited, Montreal. This company is an amalgamation of George Matthews Company, Limited, Park Blackwell Company, Limited, and the Laing Packing and Provision Company, Limited. Chartered accountants' report shows that the total assets of the company, exclusive of good will, amount to $3,277,250 and the combined earnings of the companies for the last three complete fiscal years, after providing for depreciation of plant but before charging interest on borrowed money averaged $286,491 per annum. Deducting average interest charges, after taking into consideration estimated economies, the net average earnings available for bond interest would be $250,259.

According to the notice sent out by the Royal Trust Company, the Asbestos bondholders are called on January 25th for the following reasons:—

1. To determine what action, if any, the bondholders should take with reference to the default in the payment of the coupon accruing December 1st, 1911, and any succeeding coupon.

2. To consider any plan of reorganization that may be submitted or recommended by any bondholder or any committee representing bondholders;

3. To determine generally what action, if any, either the corporation, or the bondholders thereof, should take in order to re-adjust the business of the Amalgamated Asbestos Corporation and place it upon a sound and efficient basis, by readjustment of capitalization and of bonded indebtedness, foreclosure or otherwise;

4. Generally to consider the present condition of the company's affairs and its future policy.

Subscriptions amounting to $700,000 have been received in connection with the million dollar loan of the Province of Ontario.

The council of High River, Alta., may ask the Provincial Government to guarantee the bonds of the High River and Hudson Bay Railway to the extent of $13,000 a mile. The route for which the promoters have obtained a provincial charter is from a point on the British Columbia boundary in High River pass, through the town of High River, through or near Bassano and easterly to the eastern boundary of the province, from where it is proposed to build to connect with the government road to Hudson Bay. The council were assured that were the bonds guaranteed by the government, construction would commence in a reasonable time.

Premier Sifton of Alberta recently submitted a bill to raise a loan of five million dollars on the general revenue of the province. Of this money one million will be used for roads and bridges, and the other four million for extensions of the government railway system.

Offers 2500 Shares of Stock at $150 per Share; No Bonds; No Preferred Stock; All Shareholders Share Alike

This company was incorporated by the Legislature of the Province of British Columbia in the year 1890 and has for twenty-two years played an important part in the development of Western Canada. During these years steady progress has been made in laying the foundations for a large and successful fire insurance company. As an evidence of the recent remarkable growth of the company, the following figures will be of interest:

The subscribed capital increased in 1904 from $75,200 to $100,000; in 1907 to $150,000; in 1909 to $310,000, and by December 1, 1911, to $725,000. During the same period the paid-up capital has increased from $36,040 to $470,000, and the security to policyholders from $56,554.04 to $900,000.

In 1908, the Directors, in order to further extend the scope of the company, made the necessary deposit of over $50,000 in approved securities with the Federal Government, and secured a Dominion License. This has enabled the management to establish the company throughout the Dominion, and strong connections have also been made in Great Britain, from which a profitable business is being received.

The Board of Directors, which is one of the strongest in the Dominion, is composed of eighteen of the leading business and professional men of the West. Each of these gentlemen has made a remarkable success in his own business, and the ability, integrity and experience of these members is in itself a guarantee that the affairs of the company will be administered in the best manner possible.

The Directors of the Pacific Coast Fire Insurance Company, having demonstrated that there is money to be made in the fire insurance business, properly handled, and realizing that this is the day of big things—that a company with a large capital not only earns a great deal of profits on its investments, but that the strength of the company attracts the best class of agents and risks—recently decided to increase the subscribed and paid-up capital of the company to $1,000,000.

The par value of the stock is $100 per share, and the premium at this date (December 1, 1911), is $50 per share. The purchase price of each share is therefore $150, and this may be paid up cash or may be paid in instalments of $15 per share cash, and $15 per share every six months until fully paid up.

In making an investment in the stock of the Pacific Coast Fire Insurance Company you are not placing your money in a new venture, but in a tried and proven strong Canadian company which for over twenty years in an honest and honorable manner has met every obligation, both legal and moral, and which, year by year, pays regular substantial dividends to its stockholders.

THE COMPANY'S FUTURE ASSURED.

With the unsullied reputation which the company enjoys, the splendid agency organization, the profitable income built up, the experienced directors and head office staff, the loyal shareholders, the high earning power of Western investments, and the million-dollar capital with the large addition to surplus which this increase of capital will bring, the Pacific Coast Fire Insurance Company will be in the very vanguard of Canadian fire insurance companies, and will take a prominent place among the leading companies of the continent.

Regularly 10 per cent. cash dividends have been declared yearly since 1904, and in addition valuable bonuses, which have made a handsome return to shareholders, together with increased value of the shares.

Applications for stock must reach the head office not later than December 31, 1911, as the books will close on that date. With $1,000,000 subscribed capital the Pacific Coast Fire Insurance Company will be the largest and strongest Fire Insurance company incorporated in Canada with head offices west of Winnipeg. In buying shares of the company the purchaser buys into a demonstrated successful management. The price of the stock is well warranted by the large surplus and reserves carried by the company which belong to the shareholders.

The President of the People's National Insurance Company of Philadelphia, in subscribing for stock recently, said: "I enclose my cheque and application for fifty (50) shares. Ordinarily I would not invest money three thousand miles from home, but this opportunity is too good to pass by. I trust before long to have the opportunity of taking a much larger amount."

Present shareholders have requested options on over one-half of the balance of stock now for sale, therefore intending purchasers should make immediate application for shares, as the stock will most probably be heavily oversubscribed.

The company reserves the right to reject in part or the whole of any application for stock.

FINANCIAL REPORT, JUNE 30th, 1911

TRUSTEES ....THE ROYAL TRUST COMPANY.

BANKERS .... BANK OF MONTREAL.
DOMINION BANK.

Security.

These bonds are secured by a trust deed held by The Royal Trust Company, upon all of the Company's properties, comprising modern packing plants, and stock yards, at Montreal, Toronto, Hull, Peterborough and Brantford, valuable city properties used for retail markets in Montreal, Ottawa and Peterborough, together with branch distributing houses at Montreal, Ottawa, Sydney, Halifax, and other points.

Purpose of Issue and Description of Bonds.

These bonds are issued for the purpose of furnishing additional working capital to extend the Company's operations.

Under the trust deed the issue represents a closed mortgage on all the fixed assets of the Company. The proportion is therefore only 60%. The remaining $800,000 can be issued subject to the mortgage, upon new property only, and to the extent of 66⅔% of the actual outlay. Furthermore, no additional bonds may be issued unless the net earnings for the year previous to such date of issue shall have amounted to three times the amount necessary for interest on the existing bonds.

The Trustee for the bondholders is The Royal Trust Company. The trust deed provides for a sinking fund of 2% per annum commencing 1914. The bonds redeemed by means of the sinking fund are to be kept as cancelled by the Trustees, but the interest coupons thereon are to continue payable. All or any part of the issue of bonds may be redeemed after December 1st, 1915, at 105 and accrued interest.

Sinking Fund.

On or before Dec. 1st, 1914, and annually thereafter, a cash sinking fund of 2% of all bonds outstanding, plus an amount equal to the annual interest on all bonds redeemed through the sinking fund is to be paid to the Trustees and shall be invested by the Trustees in the purchase of the bonds of this issue in the open market at a price not exceeding 105 and accrued interest. If bonds are not obtainable in the open market, the Trustees may retire bonds by means of drawings at 105 and accrued interest.

PAST EARNINGS.

The affairs of Geo. Matthews Company, Limited, Park, Blackwell Company, Limited, and the Laing Packing & Provision Company, Limited, for the years 1909-10-11 have been thoroughly inspected by Messrs. Price, Waterhouse & Company, whose certificate is shown below:—

Montreal, Dec. 6th, 1911.

Messrs. C. Meredith & Company, Limited,
Montreal.

We have examined the books and accounts of the George Matthews Company, Limited, Matthews Limited, The Laing Packing & Provision Company, Limited, and The Park, Blackwell Company, Limited, and certify that the following is a correct statement of the Assets (exclusive of Goodwill) at Nov. 1, 1911, acquired by Matthews-Laing, Limited, after including Cash to be received by the Company out of the proceeds of the Bonds now issued:—

PROPERTIES

Real Estate, Plants and Equipment, etc.. depreciated values, as valued by the Canadian Appraisal Company, Limited	*$2,019,056.95*

WATER RIGHTS AND PRIVILEGES	
As arrived at by the Canadian Appraisal Company, Limited, on the basis of the savings effected under the Rights and Leases held by the Companies......................................	*89,980.00*
NET CURRENT ASSETS	
Inventories, Accounts Receivable, Cash and other Assets, after deduction of Liabilities to be assumed by the new Company	*1.168,213.05*
Total Assets exclusive of Goodwill	*$3,277,250.00*

The combined Earnings of the above mentioned Companies for the last three complete fiscal years after providing for Depreciation of Plant and equipment, but before charging Interest on Borrowed Money, were as follows:—

1909	*$280,104.75*	
1910	*290,350.94*	
1911	*289,018.83*	
An average per annum of......................		*$286,491.50*
Deduct : *Average Interest charges after taking into consideration the saving which will be effected by the additional Working Capital provided out of the present Bond Issue ....*		*36,231.59*
Net Average Earnings available for Bond Interest		*$250,259.91*

(Signed) PRICE, WATERHOUSE & CO.

Copy of Certificate of appraisals and inspections by the Canadian-American Appraisal Company, Limited, may be seen at our office.

Prospectus giving full information will be mailed on request.

We recommend these Bonds as a thoroughly sound investment.

Interim Certificates will be given pending delivery of bonds.

Allotments will be made pro-rata in the event of over-subscription.

Tyvan, Sask.—Tenders are being called for $1,000 permanent improvement debentures. J. B. L. Brown, secretary-treasurer.

Wallaceburg, Ont.—On January 1st the ratepayers will vote on a by-law to loan $20,000 to the Wallaceburg Glass Company.

Killarney, Man.—On December 19th the ratepayers will vote on a by-law to purchase the Collison Electric Light plant at $14,000.

St. Mary's, Ont.—On January 1st the ratepayers will vote on a by-law to bonus the North Midland Electric Railway Company $5,000.

Vibank, Sask.—The village has been authorized to borrow $400 for permanent improvements. J. J. McCarthy, secretary-treasurer.

Montreal, Que.—The Protestant board of school commissioners will apply for authority to issue $1,000,000 for educational purposes.

Selkirk, Man.—On December 19th a by-law to issue $25,000 electric light debentures, will be voted on. T. Partington, secretary-treasurer.

Brooklands S.D. No. 1440, Man.—On January 6th a by-law to raise $20,000 will be voted on. J. Turner, secretary-treasurer, Dickens P.O., Man.

Grandview, Man.—On December 19th the ratepayers will vote on the following by-laws:—$45,000 for fire fighting apparatus, $7,500 for electric light purposes.

St. Boniface S.D., No. 1188, Man.—On December 19th the ratepayers will vote on a by-law to issue $220,000 debentures. J. B. Cote, city clerk, St. Boniface.

Granby, Que.—The by-law to grant a loan of $5,000 to the Granby Hardware Company for ten years without interest, has been sanctioned by the ratepayers.

Kingston, Ont.—On January 15th the ratepayers will vote on a by-law to fix the assessment of the Canadian Locomotive Company at $100,000 for the next 10 years.

Souris, Man.—On December 19th the ratepayers will vote on a by-law to issue $28,000 5 per cent. 30-year debentures for sewers. J. W. Breakey, secretary-treasurer.

Grandview, Man.—On December 19th the ratepayers will vote on a by-law to issue $4,500 5 per cent. 20-year debentures for fire apparatus. W. Dickie, town clerk.

Tilbury, Ont.—The ratepayers will vote on a by-law to grant a loan of $3,000 to Messrs. Hallett Brothers, to be repaid in six annual instalments, with 5 per cent. interest.

Archie Rural Municipality, Man.—The ratepayers will vote on December 19th on a by-law to raise $1,500 for a municipal building. H. Chipperfield, McAuley, secretary-treasurer.

Rural Municipality of Dauphin, Man.—On December 19th the ratepayers will vote on by-laws to issue $20,000 5 per cent. 20-year bridge debentures. J. A. Gorby, secretary-treasurer.

Killarney, Man.—A by-law to raise $14,000 for the purpose of taking over the Collison Electric Light Plant, will be voted on by the ratepayers on December 19th. G. B. Monteith, secretary-treasurer.

Melita, Man.—On December 19th the ratepayers will vote on two by-laws to issue $4,000 20-year 6 per cent. fire appliances debentures, and $8,000 20-year 6 per cent. sidewalks debentures, respectively. J. Robertson, clerk.

Dauphin, Man.—On December 19th the ratepayers will vote on the following debenture by-laws:—$7,000 for permanent improvements; $3,000 for alterations on town hall; $2,000 for bridges. J. W. Johnson, secretary-treasurer.

Macleod, Alta.—The town will apply to the provincial parliament for an act to confirm by-laws which provide for the raising of $46,000 for waterworks, and $23,000 for sewers. Messrs. Macleod and Gray are the town solicitors.

Hamilton, Ont.—The following by-laws will be submitted to the ratepayers in January:—$650,000 waterworks extension; $40,000 for parks, etc.; $70,000 for extending Birch Avenue; $65,000 for new fire station; $60,000 for park in eastern part of city.

VICTORIA APPOINTS FISCAL AGENTS.

Dominion Securities Corporation Are the Representatives—Method of Handling Debenture Issues.

The city council of Victoria, B.C., by adopting the accompanying report from the finance committee, affected a revolution in the method of handling the sale of debenture issues. The report was as follows:

"Your finance committee have had under consideration for some time the appointment of a fiscal agent in London who would also have connections in Canada to attend to the sale of the city securities and by this means obtain the best prices for them possible.

"By the appointment of such an agent the sale of debentures by public tender will cease, and sales would only be on the advice of the fiscal agent at a price mutually agreed upon by the city and agent. The latter being in close touch with the money market, the city by selling at the time advised by him will obtain a better price than under the tender system.

Dominion Securities Corporation Appointed.

"These results will be more felt now that the city will issue the bulk, if not all, of these long term loans as stock instead of in the form of debentures.

"Intimately connected with the fiscal agency is the issuing of treasury bills to raise money to carry on local improvement work preparatory to the completion and assessment; also the advance money for works authorized by money bylaws, the debentures from which cannot be sold advantageously at the time.

"Negotiations were opened with various bond firms and as a result we would recommend that the Dominion Securities Corporation, Limited, of Toronto and London, be appointed fiscal agents to the city of Victoria on the terms of their letter of 24th ultimo. These terms are that they are to attend to all loan issues and keep the city fully informed on the conditions of the money market, the remuneration to be quarter of one per cent. of the par value of all securities sold.

"We would also recommend that authority be given to issue treasury bills through the Dominion Securities Corporation, Limited, as required, the interest to be based on the London discount rate for the day plus one-quarter of one per cent. to cover expenses; and that the mayor be authorized to execute the agreement with the Dominion Securities Corporation, Limited, on the above terms, and the seal of the corporation be attached, the agreement to be one year only and subject to cancellation by either party, giving one month's notice.

Bank of British North America as Transfer Agent.

"We would further recommend that the mayor be authorized to execute an agreement with the Bank of British North America to act as registrar and transfer agent for all stock that may be issued, the bank to be paid one-half of one per cent. on all interest on stock payable by them."

The comptroller, asked for further particulars, explained that the demand for municipal improvements had created a call on the market which the Canadian interests could not supply, and municipalities had been obliged to go to the London market for money. The firm engaged must also have Canadian offices in order to handle the short loans which the city floated from time to time, and which were taken up in Canada. The larger issues were best sold as stock, like the last $1,500,000 issue, which was taken up by the Dominion Securities Corporation, Limited, as trustees could take stock, and not debentures. The city would effect a saving of one per cent. by the proposal, or from $20,000 to $30,000 a year in interests.

DEBENTURES AWARDED.

Melfort, Sask.—$3,000 6 per cent. 20 instalments, to Messrs. G. A. Stimson & Co., Toronto.

Cornwall, Ont.—$9,101, 5 per cent. 20 instalments to Messrs. Wood, Gundy & Co., Toronto.

Raymond, Alta.—$18,525 6 per cent. 20 instalments, to Messrs. Wood, Gundy & Company, Toronto.

Ladysmith, B.C.—$3,727.25 6 per cent. 15 years for local improvements to Messrs. Brent, Noxon & Co., Toronto.

St. Vincent Township, Ont.—$6,500 5 per cent. 20 instalments, to Messrs. G. A. Stimson & Company, Toronto.

Belleville, Ont.—$35,000 4½ per cent. 30 years for schools, to Messrs. Ontario Securities Company, Limited, Toronto. The finances of Belleville are as follows:—The assessed valuation for taxation is $5,000,000, and the net debenture debt about $407,000. They have a sinking fund on hand or invested of $231,672. The annual revenue for water works, after paying all operating expenses, shows a net profit of $6,605, and the annual revenue from gas works, after paying all expenses, is $2,082.

CLEARING HOUSE RETURNS.

RELATIVELY HIGH RETURN

The real estate mortgage is the oldest form of security known to man. And not only that—it was the safest for centuries. With the possible exception of government bonds, it is still the most conservative.

During the past year loan company funds increased over $15,000,000 on the prairies alone. There is an immense field in British Columbia.

Our loans are placed on improved revenue-producing property in Vancouver and New Westminster. Valuations are made by experienced men and are very conservative, being finally passed on by our board of directors.

No loan is made for more than 50% of appraised value. All titles are searched and certified to by our solicitors. We attend to the many small details which are so often a cause of annoyance to the purchaser.

If you have any funds available, we will guarantee a net return of SIX PER CENT. Our entire assets is your security. We collect both principal and interest and remit yearly or half yearly as desired. Advise us how much you would like to invest just now. We will submit a list suitaeble to your requirements.

Eastern Townships Bank

Proceedings of the Fifty-Second Annual Gene Meeting of the Shareholders

Held at Its Banking House in Sherbrooke, Wednesday, 6th December, 1911.

The Fifty-Second Annual General Meeting of the Shareholders of the Eastern Townships Bank was held at 2 o'clock on Wednesday, December 6th, in the Board Room of the Head Office at Sherbrooke. There were present among others: Judge Alfred, Newport, Vt.; A. C. Flummerfelt, Victoria, B.C.; G. Stevens, Waterloo; D. Williams, St. Johnsbury, Vt.; B. C. Howard, Sherbrooke, Que.; G. H. Kathan, Rock Island, Que.; F. D. Spaulding, Burlington, Vt.; Geo. G. F. Foster, K.C., Montreal; Chas. W. Colby, Ph.D., Montreal; H. J. Fuller, Montreal; Wm. Farwell, Sherbrooke; F. N. McCrea, M.P., Sherbrooke; J. S. Mitchell, Sherbrooke, and Marcus G. Crombie, Kingsbury, Que.

The President, Mr. William Farwell, occupied the chair.

The General Manager, Mr. J. Mackinnon, acted as Secretary, and Messrs. Crombie and Spaulding as Scrutineers.

THE ANNUAL REPORT.

The Annual Report to the Shareholders was read, as follows:

Your Directors submit herewith the Balance Sheet and Profit and Loss Statement for the past year.

Since the last Annual Meeting, the Board and the Bank have sustained a most serious loss through the death of your Vice-President, the late Mr. S. H. C. Miner. His association with the Bank extended over a period of more than forty years. Your institution has never had a more loyal supporter, a truer friend or wiser counsellor. The Shareholders, no less than the members of the Board, must deplore his loss.

The business for the year has been highly satisfactory. The net profits were $459,570.19, being nearly $50,000 in excess of those for last year and over 15 per cent. of the Bank's capital. The statement shows the disposition of the same.

The demand for money has been active, the funds of the Bank being fully employed at remunerative rates. Business generally has been very satisfactory, our manufacturing industries working full time. Lumber and Pulpwood have been fairly active. The wise action of the Provincial Government in increasing the stumpage dues on wood cut on Government land, together with the prohibition of the export of pulpwood and unmanufactured lumber from Crown lands has had a tendency, temporarily, to check that branch of business, but has resulted in the establishment of pulp mills, which will undoubtedly be followed, in time, by that of new paper mills and the enlargement of those already operating thereby giving increased employment to our own people and converting our forests into their most valuable product.

The coal strike in Alberta and British Columbia, after continuing for about eight months, has finally been settled, the men returning to work. This will enable the mines and other industries which were affected to resume operations and increased activities will prevail throughout these sections.

In view of the importance which our Western Branches have assumed and of the continual demands that have been made upon us in that part of Canada, it was thought advisable that a committee of the Board with the General Manager, should inspect the Branches already established and visit other points which gave promise of profitable business. The month of October was devoted to this work, and as a result of the trip much information of great value has been gained. It being the harvest season your Directors were not only enabled to estimate the present development of the country, but also to form a first-hand opinion regarding future possibilities.

During the past year branch offices have been opened at the City of Quebec, City of Victoria, B.C., Summerland, B.C., and Cutknife, Sask. New bank buildings are being erected at Cookshire and Danville.

In conclusion your Directors desire to record their appreciation of the efforts put forth by the General Manager and other officers of the Bank, whose devotion to its interests is reflected in the fine result shown by the year's statement.

All of which is respectfully submitted,

WM. FARWELL,
President.

Sherbrooke, Que., 6th December, 1911.

The statement of Profit and Loss Account for the year ended 15th November, 1911, showed:

Balance at credit of Profit and Loss brought forward from November 15th, 1910	$145,038.33	
Profit of Head Office and Branches, after deducting charges of Management, Interest due Depositors, and provision for Losses	459,570.19	
		$604,608.52

Appropriated as Follows:

Dividend of 2¼ per cent., paid April 1st, 1911	$ 67,500.00	
Dividend of 2¼ per cent., paid July 3rd, 1911	67,500.00	
Dividend of 2¼ per cent., paid October 2nd, 1911	67,500.00	
Dividend of 2¼ per cent., payable 2nd January, 1912	67,500.00	
Transferred to Reserve Fund.......	150,000.00

Other Assets	36,262.52	
		21,047,195.92
		$28,471,056.66

THE DISCUSSION.

In moving that the annual report be adopted, seconded by Mr. Stevens, the President, Mr. William Farwell, said:

"You have heard what the Directors had to say regarding the business of the past year. I am sorry there is not a larger number of the shareholders present, but I trust those with us and all the shareholders will be satisfied with what the Directors have done and will be in hearty accord with the report. Reference is made therein to a visit by a few of the Directors, accompanied by the General Manager, to a portion of Western Canada. We were profoundly impressed with the country, its growth and possibilities. Our branches are doing a prosperous business." The General Manager briefly dealt with the statement and the year's business generally.

The motion for the adoption of the report was carried.

It was then moved by Judge Alfred, and seconded by M. J. Crombie, that the shareholders desired to place on record their deep sense of the loss sustained by the Bank in the death of the late Mr. S. H. C. Miner, the Vice-President of the Bank.—Carried.

A vote of thanks was tendered to the President and the Directors for the attention they had given the business of the Bank, also to the General Manager and Officers of the Bank for their faithful and painstaking service during the past year.

The election of the new Board of Directors then took place, the scrutineers reporting the appointment of the following gentlemen:—Wm. Farwell, G. Stevens, C. H. Kathan, J. S. Mitchell, A. C. Flummerfelt, O. A. Robertson, George G. Foster, K.C., F. M. McCrea, M.P., B. C. Howard, Chas. W. Colby, Ph.D., and H. J. Fuller.

At a meeting of the Directors held immediately, Mr. William Farwell was elected President, and Mr. Gardner Stevens, of Waterloo, Vice-President.

We have prepared a comprehensive booklet entitled
Standard Canadian Securities
which contains full particulars in regard to twenty-nine leading companies, whose securities are listed on the Montreal and Toronto Stock Exchanges. Among the companies dealt with are the following:
Monterey Railway — Northern Ohio Traction
Montreal Cotton — Porto Rico Railways
Twin City
This booklet should be of great service to anyone interested in stock exchange securities. Copy mailed free on request.

The Annual Financial Survey
OF
The Globe
WILL APPEAR JANUARY 1, 1912
Introductory Article by Lord Strathcona, High Commissioner for Canada
In announcing his intention to again prepare the leading article for the Survey of 1912, His Lordship writes the Financial Editor:—
"I have considered it a privilege, and have certainly looked upon it as a pleasure, to send you a few words on such occasions, and I shall endeavor to do so again in good time for the publication of your Survey at the close of the year.
"As you observe, the year has produced many changes, but fortunately Canada continues to progress, and is in the happy position of being one of the most prosperous countries of the world."
Strathcona
Other contributors will as usual be men in the very front rank in financial, railway, insurance and business circles of Canada, Great Britain and the U.S.
This Survey goes to the public on the very day when business men are most interested in a review of the year that has closed, and in an outlook upon the new year. The Annual Financial Survey of The Globe has made for itself an authoritative position. No Canadian business man should be without a copy.
The Globe - - Toronto

Mr. R. S. Barrow, manager of the Union Bank of Canada, Winnipeg, Man., is dead. He was born in Quebec in 1865, and was one of the most experienced bankers in Canada.

For the Woodbridge, Ont., $3,358 5 per cent. 20-year bridge debentures five bids were received, four from Toronto bonds firms, and one from Mr. George Elliott, Woodbridge, whose offer was accepted.

BANK OF TORONTO'S GOOD SHOWING.

The past year has been a profitable one for most banks, and the annual statement of the Bank of Toronto shows that institution has enjoyed a fair share of the prosperity which has been in evidence throughout the Dominion.

The net profits for the year amounted to $677,964, which with $608,050, the premium received on new stock, and $194,777 carried forward from last year, makes a total of $1,480,791 at the credit of profit and loss account. This was distributed as follows: Dividends $455,721, officers' pension fund $15,000, written off bank premises $100,000, transferred to reserve fund $858,050, and balance carried forward $52,019. The net earnings on the capital were 14.71 per cent. compared with 14.74 per cent. last year and 14.48 per cent. in 1909. Although the profits are $88,000 in excess of last year the rate earned does not show fairly the per cent. rate earned. For instance, last year the bank wrote off bank premises $48,751, while this year the amount written off is $100,000. The reserve fund is now $1,000,000 in excess of the paid-up capital.

Deposits total $41,126,663, and discounts $40,034,758, while the assets aggregate $57,067,664.

The statement is an excellent one, and the management is to be congratulated on the splendid showing.

BANK OF COMMERCE STATEMENT.

The annual statement of the Canadian Bank of Commerce for the fiscal year ended November 30th shows earnings of $2,305,409 as compared with $1,838,065 earned in 1910, the best record in the history of the bank. Earnings on the paid-up capital at the close of the year were 19.70 per cent. compared with 18.38 per cent. last year, 15.10 per cent. in 1909, 16.27 per cent. in 1908, and 17.52 per cent. in 1907. The bank has taken into its assets $250,000 from over-appropriations in connection with assets since realized, which is in addition to a sum of $350,000 from the same source appearing in the statement of May 31 last. The bank within the last year has thus been able to add to its resources a sum of half a million recovered from its reserve for bad or doubtful accounts.

5% allowed on debentures of $100 or over, issued for terms of from 3 to ten years

CAPITAL STOCK 7% INVESTMENT

The Company, having disposed of its Capital Stock some years ago, has, therefore, none for sale, but the stock may be purchased through the Toronto, Winnipeg and Vancouver Stock Exchanges, at prices ranging from $124 to $127 per share.

The last seven half-yearly dividends have been at the rate of **9 per cent. per annum**, so that, at the current prices, the **investment** will **net 7 per cent.**

The Company will be pleased to furnish prospective purchasers with its Financial Statement or other information bearing on the Company, and, if so desired, the Company will purchase the Stock for the investor through the Stock Exchange, or privately, at the current prices.

Since its inception the Company has enjoyed uninterrupted prosperity, and has taken a very active part in the development of the West. With the rapid growth of Western Canada, the demand for money is so great that the present profitable rates of interest will be maintained for years to come; and with such a desirable field for loaning operations, combined with a progressive management, the price of the Company's Stock should continue to advance, and with the prevailing high dividends, the Stock of this Company will undoubtedly be in great demand by those who desire a safe and profitable investment.

BOARD OF DIRECTORS: W. T. Alexander, Esq., Managing Director The Canada National Fire Insurance Company, President and Manager; E. S. The Waterous
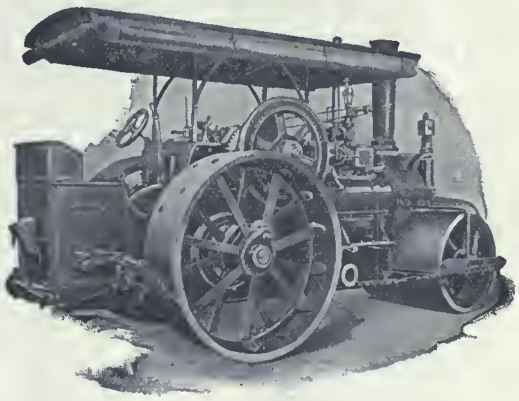
Double Cylinder
Steam Roller



Why we have sold more than thirty of these machines since January 1st.

The Waterous Roller is a road builder in every sense of the word. It can be used in every operation from driving the rock crusher, hauling road material, picking and plowing the old road, to the light, fast, finishing roll.

The twin-cylinder engine, with cranks set on the quarter, runs like a watch. No dead centres, no hanging up in a soft spot, no bucking on the reverse.

It is backed by a steady-steaming boiler, locomotive type, that produces more than enough steam for every working test. Throw off the governor and set it at a hill, and watch it take a 30% grade like an automobile.

Two speeds are supplied, which means fast and slow work under full steam pressure.

Outfit includes:—Rear draw bar, front clevis, driving pulley for rock crusher, full set of road picks, cylinder oil pump, and engine and boiler fittings second to nune.

Ask the man on the machine.

HAVE HAD A SUCCESSFUL YEAR.

The profits of the Eastern Townships Bank for the year ended November 15th were $459,570, which with $145,038 carried forward from last year showed $604,608 at the credit of profit and loss account. The amount was distributed as follows: Dividends $270,000, reserve fund $150,000, strengthening assets $100,000, bonus to officers $17,000, officers guaranteed fund $2,000, leaving a balance carried forward of $65,608.

The net profits were nearly $50,000 in excess of those for the last year, and over 15 per cent. of the bank's capital. The assets amount to $28,471,056, while current loans and discounts totalled $19,385,447. The bearing interest deposits totalled $14,553,536, and the non-bearing interest deposits $4,956,461. The paid-up capital is $3,000,000, and the reserve fund $2,400,000.

Commenting on the pulpwood and lumber industry the report says that the wise action of the provincial government in increasing the stumpage dues on wood cut on government land, together with the prohibition of the export of pulpwood and manufactured lumber from Crown lands has had a tendency, temporarily, to check that branch of business, but has resulted in the establishment of pulp mills, which will undoubtedly be followed, in time, by that of new paper mills and the enlargement of those already operating, thereby giving increased employment to our own people and converting our forests into their most valuable product.

The annual statement indicates that very satisfactory progress has been made by the Eastern Townships Bank, and reflects credit upon the management.

◆

Messrs. Marwick, Mitchell, Peat and Company, Chartered Accountants, have opened an office at 739 Hastings Street West, Vancouver, B.C., under the management of Mr. Andrew A. Stewart, C.A., M.A., B.L. Besides doing a general accounting business, the firm has a special Bank Audit department, equipped with a corps of trained examiners of wide practical experience in banking.

LEGAL NOTICE

PUBLIC Notice is hereby given that under the First Part of Chapter 79 of the Revised Statutes of Canada, 1906, known as "The Companies Act," letters patent have been issued under the Seal of the Secretary of State of Canada, bearing date the 27th day of October, 1911, incorporating James Steller Lovell, accountant, William Bain, bookkeeper, Robert Gowans, Robert Musgrave Coates and William George Flood, solicitors' clerks, all of the City of Toronto, in the Province of Ontario, for the following purposes, viz:—(a) To carry on the business of general contractors and engineers; to construct, erect, execute, equip, improve, make, repair, raise or develop public works or conveniences of all kinds, including railways, tramways, roads, tunnels, harbors, docks, slips, shipping places, piers, jetties, wharves, quays, canals, reservoirs and embankments, and including the erection, repair or improvement of sewage, drainage, sanitary, water, gas, electric light, telephonic, telegraphic and power supply, plants, works, houses and stations; and to construct offices, warehouses and other buildings, public and private, and all other works or conveniences of public utility; (b) to manufacture, buy, sell and deal in iron and iron ore and steel and other ores and metals; to chase, lease or otherwise acquire any mines, mining rights and lands, and any interest therein, and to explore, work and develop the same; and to quarry, smelt, refine, dress, amalgamate and prepare for market ores, minerals and metals of all kinds; (c) To construct tunnels under contract with any railroad, corporation or corporations possessing the right to construct such tunnels, and to maintain and operate the tracks, sidings and switches therein, and to construct any works in connection with any such tunnels or with the railroads authorized to be constructed, maintained or operated through such tunnel or tunnels; (d) To acquire by purchase or otherwise and hold lands, timber limits or licenses, water lots, waterfalls, water privileges and concessions and powers and rights, and interests therein, and to build upon, develop, irrigate, cultivate, settle and otherwise improve and utilize the same, and to lease, sell and otherwise deal with, or dispose of the same; (e) To sink wells and shafts, and to make, build, construct, erect, lay down and maintain reservoirs, water works, cisterns, dams, culverts, main and other pipes and appliances, and to execute and do all other works and things necessary or convenient for obtaining, storing, selling, delivering, measuring and distributing water for the purposes of irrigation, and for the creation, maintenance and development of hydraulic, electrical or other mechanical power, or for any other purposes of the company; (f) To purchase, lease or acquire water powers and water privileges, and to develop therefrom any power, electrical or other energy, and to use the same in connection with the business of the company, and to transmit the same, and sell, lease or dispose of water powers and water privileges or power, and to enter into working arrangements with any other companies, persons, firms or corporations for the use thereof, and to establish, operate and maintain any lighting, heating or power plants, and to sell and dispose of light, heat and power, provided always that the rights and privileges hereby conferred upon the company to generate, sell and dispose of electric energy for light, heat and power when exercised outside of the property of the company shall be subject to all provincial and municipal laws and regulations in that behalf; (g) To manufacture and deal in logs, lumber, timber, wood, metal, and all articles into the manufacture of which wood or metal enters, and all kinds of natural products and by-products thereof, and goods, wares and merchandise; (h) To build, buy, sell, equip, operate and own steamships, steamboats, sailing vessels, barges and lighters, not as a common carrier, but as an incident to its business; to buy and sell, hold and operate wharves, water rights, powers, bulkheads and appurtenant property in such places as the business of the company may seem to require, or as may be necessary or convenient in connection therewith; (i) To manufacture or produce, purchase, take upon lease, or in exchange, or otherwise acquire, whether for any of the hereinfore mentioned purposes or not, machinery and plant of all kinds, and any other articles, products or things used in connection with any of the company's business, and to buy, sell, supply and deal in the same; (j) To apply for, purchase or otherwise acquire or obtain any contracts, decrees or concessions for or in relation to the construction, execution, carrying out, equipment, improvement, management, administration or control of public works and conveniences or otherwise incident to any of the objects herein specified, and to undertake, execute, carry out, dispose of, or otherwise turn to account, or sell or dispose of the same; (k) To sell, exchange or lease any real or personal property of the company, or any rights, easements, privileges or interest in, to, over, under or concerning the same; (l) To purchase or otherwise acquire any patents or patent rights, licenses, concessions and the like, conveying any exclusive or non-exclusive or limited right to use any invention which may seem capable of being used for any of the purposes of the company, or the acquisition of which may seem calculated directly or indirectly to benefit the company, and to use, exercise, develop or grant licenses in respect of, or otherwise turn to account the property and rights so acquired; (m) To purchase and otherwise acquire and undertake and assume all or any part of the assets, business, property, privileges, contracts, rights, obligations and liabilities of any person, firm or company carrying on any business which this company is authorized to carry on, or any business similar thereto, or possessed of property suitable for the purposes of this company's business, and to issue in payment or part payment for any property, rights, or privileges secured by the company, or for any guarantees of the company's bonds, or for services rendered, shares of the capital stock of the company, whether subscribed for or not, as fully paid and non-assessable, or bonds, debentures or other securities of the company; (n) From time to time to apply for, purchase or acquire by assignment, transfer or otherwise, and to exercise, carry out and enjoy any statute, ordinance, order, license, power, authority, franchise, concession, right or privilege which any government or authority supreme, municipal or

SIX PER CENT. BONDS

REAL ESTATE SECURITY

CANADIAN REAL ESTATE BOND CORPORATION
SIX PER CENT BONDS

The Canadian Real Estate Bond Corporation offers for sale its ten-year six per cent. bonds. The bonds are offered and issued at par in denominations of $100, $500, and $1,000
They are a first lien upon all real estate and all other assets of the corporation.
The bonds, as well as all other assets of the corporation are secured by the absolute ownership in fee of approved real estate in the city of Winnipeg and other Western Canadian cities, or by first mortgage upon such real estate.
The bonds mature in ten years. They have interest coupons attached payable semi-annually.

Send for prospectus and other information.

British Columbia Timber

The difficulty of obtaining impartial, reliable information regarding any special section of timber in British Columbia has led this company to install a department under the supervision of Mr. G. F. Gibson, devoted exclusively to timber.

The company acts solely as agent, and will neither purchase nor sell for itself, consequently its recommendations are impartial.

Special reports by most reliable cruisers, noting accessibility for logging, will be furnished with as little delay as careful examination will permit.

Correspondence solicited.

THE BIGGEST COMBINE IN THE WORLD.

THE formation of the first industrial combine has been traced to one, John, of ancient days. He "cornered" olive oil. A more extensive trust was inaugurated about 300 A.D. It happened in this way: A poor Russian nobleman was without the wherewithal for dowries for his three daughters. Unable to sell his name for use on the directorate list of salt, oil or barbed wire companies of that period, he proposed to leave his daughters to fight alone the battle of life. A Mr. Nicholas, postal address, Myra, Lycia, Asia Minor, heard of the incident and threw into the nobleman's open window three purses o gold, which solved the problem of the three daughters.

While history is not clear on the point, it is understood that the Emperor touched, with the royal sword, the shoulder of Mr Nicholas, exclaiming "Arise, Sir Nicola Nicholas." The nobleman and his friend in need, then applied for a charter with powers as extensive as a Mexican company, and formed the Universal Yearend Beneficent Corporation, with capital of one digit and countless cyphers, preceded by the sign of American devotion—$. The head office was in Skye, with branches throughout the world, and voluntary agents wherever men do congregate. Sir Nicola Nicholas was appointed president, and it must be confessed, proved himself an autocrat in his high position. The poor nobleman drew a few annual dividends from the Company's earnings, as one of the promoters, but history tells us no more of him. His name even remains unknown. Such is the fame of directors who do not direct.

There was little difficulty in selling stock of the new corporation. The prospectus issued by the Russian knight was, unlike the average Canadian prospectus of to-day, simple and convincing. The profits were estimated at 2,240 per cent., which will appear trifling to some modern promoters. The president found it necessary to make frequent trips to Labrador in order to secure motive power for his company's operations. All preparations completed, there came into being the greatest trust ever consummated and of which happily no complaint has been filed with the International Combines Investigation Bureau. In course of time, the president's innumerable friends have come to call Sir Nicola Nicholas, Santa Claus. Some North American children of tender years, with that wonderful national spirit of respect, have even dubbed him "Sant."

On Monday, the corporation holds its annual meeting over which the president, as hale and hearty as ever, will preside. Maybe his beard will be more grey and his step more faulty, but that must be expected. President he has been of the same concern for 1,611 years, making a yearly trip around the globe to every land, no matter whether money is tight or prosperity cheers the nation. The Company's directors, we learn from a reliable source, will not, as usual, ask for fees, although they have heartily co-operated with Santa in efforts to please his large clientele. The Shareholders will receive the same dividend as heretofore together with a bonus. This disbursement cannot be jingled in the pocket, but it vibrates the heart strings. We can confidently recommend our readers to invest in the stock.

BOTH APPEAR IN SEASON.

In one way at least the Christmas festival and The Monetary Times have relationship. Whatever betides, both appear in season. In one way, too, they differ widely. During the week which embraces the twenty-fifth of December, Christmas has undivided audience, and we are content to date a new issue merely to preserve an unbroken record of forty-four years. This is the apology for forcing into an already over-crowded corner of the year pages of stock and bond quotations, market reports, bank statistics, investment warnings, clearing house figures, and all the features which make The Monetary Times.

CANADIAN PROVINCIAL SECURITIES.

Canadian provincial securities should be included in the British Trustee List. This matter has been advocated by The Monetary Times for a considerable time. We have the assurance of eight of the nine provincial treasurers of Canada that they will co-operate to attain the desired end. The borrowing operations of the ninth, Prince Edward Island, have been comparatively small, and no occasion has arisen to seek loans in London. A cable message to the Montreal Star last week stated that $70,000,000 of British money is invested in the securities of the provincial governments of Canada. Twenty provincial government issues are quoted on the London Stock Exchange, viz.: Province of Quebec, five; Ontario two; Manitoba, five; Nova Scotia, three; British Columbia, two; Saskatchewan, two; Alberta, one. Under the decision delivered the other day by the Court of Appeal in London, referred to in these columns last week, those securities are not available to trustees for their investments, and the prejudicial position in which they thus stand in the eyes of the British investor is felt to be an injustice.

Hence the movement initiated by The Monetary Times for the extension of the Trustees' Act. The law as expressed in the Colonial Stock Act of 1900 clearly limits investments to the security of a "British colony or dependency," and the judges have held that this term means "the aggregation of the provinces and settlements of the making-up of the Dominion."

Thus, although an ordinary observer regards the obligations of Ontario, British Columbia, Manitoba and Quebec as at least as sound as those of Newfoundland and the Straits Settlement these Canadian provinces are excluded, while much smaller British communities are given the full benefit of the enlarged area of investment. The Australian States have been admitted to the trustees' list, and if the provinces of Canada had not federated in 1867, they would also have come within the circle.

The fact that the securities of the various Canadian provinces are not included in the list of British trustee stocks is an anomaly which has been obvious not only to Canadians, but also to Anglo-Canadian financiers for some time past, says "Canada," which adds: "The question, as we have already stated, has been frequently raised in 'Canada,' and also in the columns of our contemporary, The Monetary Times, and other Canadian journals. Let us state the position quite frankly. If inclusion of provincial issues in the trustee list were a matter of intrinsic merit only their exclusion could not possibly be defended, as it must be apparent to the most casual observer, or even the prejudiced, that the obligations of Ontario, British Columbia, or Quebec, are as sound as those of Newfoundland or the Straits Settlements—two of the colonies whose securities are included in the list. We are afraid, however, that there is little chance of provincial government securities being added to the trustee list, for one simple reason, viz., because one of the most important factors in the deposition of Consols from their position of pre-eminence was the extension of the trustee list a few years ago and the inclusion of oversea government securities. However powerful may be the arguments in favor of the inclusion of provincial government securities in the trustee list, it is highly improbable that the Imperial Government will lend a kindly ear to a proposal which would still further increase the already inflated aggregate of competitive securities. Persistent agitation, however, will break down opposition, and, as we are strongly of the opinion that provincial government securities deserve on their merits to be accorded the hall mark of the financial world, we would suggest that representations should be addressed to Ottawa by the various provincial authorities in order that the new Minister of Finance may approach the Imperial Government upon the subject. At the same time we repeat that Mr. Lloyd George and his colleagues are hardly likely to be in a complacent mood with the British premier security but little above the lowest price on record."

The Monetary Times, as stated, has asked and secured a promise of co-operation in this matter from the Canadian provincial authorities. The subject has been placed by us before the Dominion Minister of Finance, Honorable W. T. White, who has also promised to give it early consideration.

It is scarcely fair to attribute the decline of Consols solely to the recent enlargement of the British Trustee List. As financial students know, there are several other factors helping to account for the downward tendency of consols. These include the permanent desire of the conservative investor for a higher interest yield on securities.

TORONTO TUBES AND BORROWING POWER.

There is little doubt that business men on New Year's Day will vote against the proposal to build tube railways in Toronto. The reasons have been fully discussed by The Monetary Times in previous issues. The proposed three miles of tube railway for a city of less than 400,000 and of extensive area is not a solution of the Queen City's transportation problem. It is an ambitious fad. We think the Toronto ratepayers will record that opinion on their ballot papers on January 1st, 1912. Toronto's borrowing powers would be exceeded by expending $5,000,000 on tubes, but it is proposed to seek special legislation if the ratepayers will agree. In other words it is suggested that Toronto should over-borrow.

REAL ESTATE SPECULATION.

On another page appears a letter from a correspondent with reference to gambling in real estate, which is proceeding, to a certain degree, in every part of the country. The Edmonton board of trade has decided to make an effort to stop wilful misrepresentation in this connection. Many so-called plans and blue prints are published which are misleading as to the true location of the property offered. Here is the resolution, which has been passed unanimously by the Edmonton board of trade:—

"That the real estate section of this board be asked to appoint a committee to interview the provincial government for the purpose of asking that legislation be enacted that will protect the legitimate investor, and will prohibit the publishing of any plan intended to promote the sale of property that fails to show the scale of such plan, and which does not show the whole of the town or city in which such property is situated."

The real estate section of the board are arranging to handle the matter energetically. It is doubtful if the government can be persuaded to enact the legislation requested, but it is believed that the fact that such a body has considered it necessary to take action will have a value in warning the unwary, and will serve as a disclaimer on the part of legitimate business interests in Edmonton of responsibility for the practices condemned.

It is to be understood that the action of the board is in no sense a reflection on the merits of legitimate western investments. No one realizes more clearly than their members the many factors tending to a steady and constant increase of value of well-situated Edmonton and other western property or of mortgage investments. There is every need in Canada just now for conservatism and caution. We are enjoying prosperous times, and have the full confidence of the British and foreign investor. We do not want to compel outside influences to regulate our economic conditions, but this will undoubtedly be the case unless the conservative men of the Dominion themselves regulate the matter by action such as taken by the Edmonton board of trade, and similar movements.

GIVING MONEY AND GIVING NAMES.

Cornelius Vanderbilt and Robert Goelet were induced by "a man named 'Elliott' " (Vanderbilt himself so describes him), to invest in the shares of an English rubber company, the United Malaysian Rubber Company, Limited. The clever promoter induced these gentlemen also to become directors in the same. The names of these American millionaires served his purpose well. The shares sold like hot cakes. Now the rubber company has failed, and Vanderbilt and Goelet find themselves in a rather disagreeable position. Neither ever attended a directors' meeting of this corporation. Vanderbilt himself says so in sorrow. He also takes pains to say that he never took a dollar out of the concern. His part in the enterprise was to put dollars into it. The same with Goelet. The promoter saw to that. The gentlemen are not alone in their indifference to directors' responsibilities. So says a writer in the Boston News Bureau, who also knows of a most august financial personage, a member of many boards, who not only attends few directors' meetings, but actually could not tell off hand where are the offices of half the corporations of which he is himself a director.

The reponsibilities which go with honors of this sort in the United States are likely to be made more onerous before very long by the passage of new laws holding directors to stricter accountability. But rich men are curtailing these relations, and are being represented more and more in the boards of corporations in which they are interested by proxies in the shape of clerks and secretaries.

The evil of giving good names to enterprising company promoters is not confined to the United States. Too often the Canadian public man gives his name to a scheme about which he knows nothing and takes no trouble to learn, and about the promoter of which he knows and cares little. Names have been used in this manner to the monetary loss of many a trusting investor. The time must come when the public man's association with a directorate is a guarantee of his personal interest in the conduct of the company's affairs. If a promoter went to a man well in the public eye and casually asked for half a million dollars, full investigation would be instituted before the loan was made. Such should be the procedure when a promoter asks for the loan of a name. The name of repute is worth far more than half a million dollars. If it is prostituted, as is largely the case to-day, the factor of repute will disappear. The name will not be worth ten cents.

SMALL CHANGE.

The United States are looking back upon a poor year and forward to one of activity. Canada is reflecting on one and anticipating another year of progress and prosperity.

* * * *

Bret Harte has a keen thrust at early piety in the youth of the American nation. He makes an old banker remark: "Theology may be all right for grown people, but it is apt to make children artificial; and Tuffington was pious before he was fairly good. He draws on a religious credit before he has a moral capital behind it."

* * * *

"Pretty near is not near enough. It is the 'pretty near' that builds Austen (Pennsylvania) dams and similar engineering failures. It is 'near enough' that is killing and maiming Canadians every day. The engineer must be accurate." So said the Honorable Mr. Justice Riddell at the Engineers' Club, Toronto. Forty-four dollars per minute represents the fire waste in Canada this year; 36,710 persons were killed and injured in railway and industrial accidents in four years in Canada, an average of 25 persons a day. That is what we pay for inaccuracy, carelessness and lack of respect for life and property.

* * * *

Mr. H. G. Coleman, the energetic board of trade secretary of Moose Jaw, has struck a new idea to counteract Western enthusiasm as applied to figures. He thinks that building, population, and other statistics of many towns are apt to become unduly inflated, and suggests sworn declarations as the way to truth in city advertising. Not content with merely the suggestion, Mr. Coleman sends The Monetary Times copies of sworn statements, showing that Moose Jaw has a population of 20,623, and that its building operations for the eleven months ended November, 1911, were valued at $2,425,736 as compared with $430,925 for the twelve months of 1908. It is not a case of doubting a man's word, but of strengthening it.

* * * *

During 1910, 16,348 persons were granted certificates of naturalization in Canada, which, with those previously recorded, makes a total of 146,833. Those who sought the charmed circle of British nationality included Algerians, Argentines, Armenians, Austrians, Bavarians, Belgians, Bohemians, Brazilians, Bucowinians. Bulgarians, Chinese, Cubans, Danes, Dutch, Egyptians, Finns, French, Galicians, Germans, Greeks, Hebrews, Hungarians, Icelanders, Italians, Japanese, Macedonians, Mennonites, Mexicans, Montenegrins, Norwegians, Persians, Poles, Portuguese, Prussians, Roumanians, Russians, Servians, Sicilians, South Africans, Spanish, Swedes, Swiss, Syrians, Turks, and 5,854 United States citizens. This is another proof of the magnetism of a great land and all that a world-famous flag implies.

See Page 2633

ANCIENT ORDER UNITED WORKMEN.

Important Change of Age Rating—Canadian Executive Committee's Report to Next Grand Lodge.

The last number of the "Canadian Workman" devotes nearly a page to setting forth the manner in which the monthly collections and payments have been acting during eleven months of 1911, showing that in this brief time a shortage has developed amounting to $100,099.43.

At the beginning of the year there was a sum of $100,457.46 in the "beneficiary fund" and on October 1st there was only $358.03 of it left. This fund is only what was derived from the monthly surpluses during several previous months and kept "on deck," as it were, for current use.

The Order has a well-invested reserve fund of $1,476,844.61, to which the beneficiary fund was a sort of buffer, or protection against depletion of that reserve fund, and it was hoped that since the increase of the rates, in 1905, a good addition could be made from this source at the close of each year. And as a matter of fact this has been done, though mostly in decreasing amounts yearly. For instance, in 1906 there was added to the reserve $290,088. In 1907 the addition was $126,168. In 1908 a sum of $297,839. In 1909 a saving of $113,407. And finally, in 1910, only $83,627.

Persistent Monthly Deficiency.

What has happened during the subsequent months, in the shape of a persistent monthly deficiency, is stated by the executive as follows:—

Months.	Collections.	Contracts Matured.	Monthly Deficiency.
January	$84,638.61	$102,004.36	$17,365.75
February	84,956.45	90,649.45	5,693.00
March	84,212.81	100,348.77	16,134.96
April..........	84,189.05	93,562.44	9,373.59
May	87,023.89	101,500.00	14,476.11
June..........	83,598.80	99,900.85	16,302.05
July..........	83,373.45	90,426.40	7,052.95
August	83,005.11	88,000.00	4,994.89
September	84,000.00 Esd	92,706.13	8,706.13
Totals..........	$758,998.17	$859,097.60	$100,099.43

This certainly presents a most alarming state of things. Something had to be done. Not a single member of the executive was so blind that he could not now see that some check must be devised, to stem this rapid depletion of the funds, or the reserve fund would be encroached upon, or else the widows and orphans would have to wait a while for their money. In either case confidence would disappear, and the fate that has befallen nearly one-half of all the state lodges of the A. O. U. W. in the United States, notably in Michigan, Illinois, Ohio, New York and Massachusetts, would soon be that of the Order in Ontario.

Will Only Delay the Inevitable.

The Executive Committee, as authorized at last session of the Grand Lodge held in this city, has devised a plan which they fondly hope will at least delay the inevitable a while longer. That it can do more than that we feel sure no intelligent member of the committee can believe. It is a step in the direction, but a tardy one, of what this journal pointed out as one which should have been taken when the new scales of rates were adopted in 1903, and again in 1905.

We pointed out the inadequacy and unfairness of changing the rates without also changing the age of the member up to date. For instance, in 1905, take age 30, per $1,000. Before 1903 it was 75 cents per month, in 1903 a slight rise was made to 84 cents, but that was found almost useless towards any perceptible increase in the reserve funds. And so in 1905 a greater hitch was made, raising the 84 cents to $1.16 per month per $1,000. At age 40 the figures for the three periods were 90 cents, $1.26 and $1.72.

This shows a present assessment, upon that and older ages, of about double what it was previously to 1903. Though there was a loss of membership, this change produced a real increase in the income. Hence the "reserve fund" began to look more encouraging. The latter grew from $683,981 in 1905 to $1,595,110 in 1910. But there it halted. The income for 1910 fell short of 1909 by $8,960.00, and then for the eleven succeeding months by the large sum of $100,099.43 as per above alarming table.

Question of Entry Age.

What The Monetary Times pointed out, on both occasions, was that with the increase of the rate there ought also to have been an increase of the age from the entry age to the attained age. For instance, if a party who entered at age 30 and for ten years was contributing less than it had cost the society to carry his insurance, then why should he be allowed to pay, under the increased scale, just the same as if he was still only 30, whereas he was now 40. Every new member coming in at age 40 would pay $1.72, while the old member was permitted to pay on age 30, or $1.16. This was most inequitable upon the two men. Upon a $2,000 certificate the one has had to pay $41.28 per year and the other only $27.84. Difference $13.44, and both men the same age! But that is not all. The new man has just come from the medical examiner's hands and is pronounced sound and suitable. The other is practically an impaired life, because out of every thousand persons who were insured ten, twenty or thirty years ago, a large number could not now pass a successful examination.

Ages to Be Advanced.

What the Executive Committee have now decided upon is to recommend that on May 1st, 1912, all the old members shall have their ages advanced for future assessments, to the ages they had attained on May 1st, 1905. But in no case will any member be rated upon a higher assessment than that due to age 49, which is $2.69 per $1,000.

This means that a member who joined at age 42 in 1905 and has ever since been paying $1.93 per $1,000 per month, will continue to be rated as 42 years old, and pay $1.93 as before. But if he had joined in 1900, at age 42, and in 1905 continued to be rated, as they all were, at the age of joining, he must hereafter have his age advanced, for rating, by five years, just as if what we recommended had been done at that time. Instead of $1.93 per $1,000 he will now pay $2.42, because he was actually 47 in 1905. However, he should be well pleased that it is no worse, for he should have been paying the $2.42 every year since 1905. Therefore, upon $2,000 he has saved $11.76 per year for seven years past, or $82.32 without adding interest upon that sum.

Will Increase Monthly Income.

The Executive Committee's estimate is that if the Grand Lodge adopted this change of age base, it will increase the monthly income of the society to about $123,935.71, whereas it has been standing nearly stationary at about $84,000. On the other hand, it will undoubtedly cause quite an increasing number of the members of age 70 or over, to take advantage of one or other of the three options recently adopted by the Grand Lodge, of ceasing to be a contributing member, and taking a paid-up certificate for half the original amount. Or, in lieu thereof, taking half the amount in cash of what he has contributed in assessments. We should suppose the latter would prove the more popular method of dropping out.

It remains to be seen, therefore, whether this increase of the age at this late date, thus losing all the difference that would have, and should have, been contributed during the seven years from 1905 to 1912, will really improve the solvency of the society by adding any material sum to its present very inadequate reserve fund.

Condition of the Order.

The following table shows the condition of the society, from year to year, for the eight years of 1903 to 1910, inclusive:—

Year.	New Issue.	Terminated.	Income.	Assets.
1903.......	$3,715,000	$3,527,000	$878,578	$447,377
1904.......	1,852,000	4,769,000	1,040,480	539,742
1905.......	497,500	7,440,000	1,070,765	683,981
1906.......	866,000	3,508,900	1,184,717	974,069
1907.......	1,345,000	2,167,700	1,161,443	1,100,237
1908.......	1,947,000	2,343,500	1,176,822	1,398,076
1909.......	2,524,000	2,718,100	1,189,101	1,511,483
1910.......	2,283,500	2,703,500	1,180,141	1,595,110
Totals..	$15,430,000	$29,178,700		

The total amount of insurance carried December 31st, 1903, was $72,388,500. Since then it has steadily decreased, year by year, and on December 31st last was only $58,052,800. It will, no doubt, be considerably less at the close of this year.

The membership in 1903 was 46,125, and in 1910 had fallen to 38,799. And notwithstanding a whirlwind effort for new members during this year, the total number has continued to drop, month by month, and on November 1st only 36,867 responded with their contributions, yielding $82,162.99, to which is to be added $1,378.60 received for arrears, making a total of $83,541.59. Multiply by twelve, and it produces only $1,002,499 as the income for 1912. Compared with the above $1,180,141 for 1910, this shows a shortage for the current year of $177,642.

Effect of New Rating.

As above stated, the estimate of the Executive Committee is, that the rating up of the ages of the older members, to the actual ages attained in 1905, will produce a monthly income of $123,935. If it does, then it is easy to see that the difference above the present $83,541 will be about $40,000, or fifty per cent. as an average over the whole membership. But as the new members, since 1905 are not to contribute anything more than heretofore, and the members who had attained to age 49 or more, in 1905 are not to be affected by the new rating-up, it follows that those whose age-rates are affected, will have to more than double up their monthly contributions, or drop out. In taking the latter course they will only be "following the crowd." During the past eight years, as the table shows, the lapses and deaths put together terminated $29,178,700 of this temporary sort of life insurance. Of course those who accept the inevitable and continue to pay, will preserve their title to a share in the "gilt-edged bonds and debentures" which the "Canadian Workman" informs the members was, with the cash in banks on November 30th, 1911, a total of $1,476,844.61. But that sum is not equal to the amount at which it stood eleven months previously, on December 31st last. At that time the total funds, as above shown, were $1,595,110.

Action of Grand Lodge.

It yet remains to be seen what action the Grand Lodge will take upon the report. But, we cannot see how it is possible to devise a more equitable temporary method of adjustment as between the old and the new members, no matter what the final outcome may be. The basis of all the trouble was the foolishness of admitting father and son, irrespective of age, from 16 to 50, at an assessment of $1.00 per call. This continued from 1878 until 1898, when a five-year step-rate was adopted, and this continued until 1903, when each age was rated separately.

◆

PERSONAL NOTES.

Colonel Frank S. Meighen has been elected a director of the Crown Trust Company.

Mr. Russell Cowans has made application for membership on the Montreal Stock Exchange.

Mr. H. W. Chamberlain has retired from the management of the Royal Trust Company at Ottawa.

Mr. James R. Gardner, vice-president and manager of the F. J. Castle Company, Ottawa, has retired.

Dr. James F. W. Ross, first vice-president and chief medical referee of the Manufacturers' Life Insurance Company, is dead.

Mr. J. McMillan, superintendent of Telegraphs, Calgary, Alta., has been appointed superintendent of Canadian Pacific Railway Telegraphs at Winnipeg, Man.

Mr. Anderson, actuary of the Insurance Department of Wisconsin, was a visitor to The Monetary Times office this week, and also Dr. Sunder Singh, of Victoria, B.C.

Mr. Gordon Leith, of Messrs. Speyer & Company, the London and New York bankers, was in Montreal recently, and intends going to Sydney to inspect the Dominion Steel plant.

Messrs. Bongard, Ryerson & Company, of Toronto, will deal in stocks and bonds. Mr. Bongard was for several years manager of Messrs. Chas. Head & Company in Canada.

Mr. J. Drummond, president of the Lake Superior Corporation, is on a visit to the Soo. It is the intention of Mr. Drummond to make a thorough inspection of Soo Steel plant and the different enterprises associated with this concern.

Mr. Cameron Bartlett, for many years manager of the Winnipeg branch of the Bank of Hamilton, has been appointed to succeed Mr. W. P. Sloane, as manager of the Winnipeg branch of the Northern Crown Bank.

Mr. K. N. MacFee, son-in-law of the Hon. W. S. Fielding, died recently. Mr. MacFee was a stock broker and financial agent, doing business under the name of Messrs. K. N. MacFee and Company, in London, Eng. He negotiated a number of important loans for the Canadian Government under the late administration.

Sir Lomer Gouin and Dr. Donald Hingston have been elected directors of the City and District Savings Bank of Montreal.

◆

The Brockville, Westport & North-western Railway, running from Brockville to Westport, a distance of forty-five miles, was recently purchased by Mr. R. P. Ormsby, secretary of Messrs. Mackenzie & Mann, at a mortgage sale in Osgoode Hall, Toronto, for $250,000. There are fourteen stations on the road, which runs in a northwesterly direction from Brockville to Westport, through a rich dairying country. By the terms of the purchase the purchaser must, besides paying the purchase price, pay all municipal taxes, rates and assessments attaching in respect of the current year, and also all parliamentary or other taxes chargeable against the railway up to the time of sale.

The largest recent single real estate transaction in Toronto was consummated this week when Mr. Garnet P. Grant, president of the Dominion Bond Company, of Toronto and Montreal, purchased the building of the Manufacturers' Life Insurance Co., corner of King and Yonge streets, for $800,000. The Monetary Times understands that the various companies with the financing of which the Dominion Bond Company has been concerned, may in the future all be housed in this building. These concerns include the Dominion Canners' Limited, the Canada Bolt & Nut Co., the Spanish River Pulp and Paper Co., the Toronto office of Belding, Paul Corticelli, Limited, and Tooke Bros., Canada Machinery Corporation, etc.

CANADIAN RAILWAYS AND THE LUMBER INDUSTRY.

(Staff Correspondence.)

Vancouver, December 19th.

Action of railway companies in sending their lumber business to the United States was brought to the attention of the city council in a letter by the British Columbia Lumber & Shingle Manufacturers, Limited. The instance was when the Great Northern Railway applied for the city's influence to get the Dominion dredge, which was here to do work in the harbor, to clear out the bottom in front of the company's new wharf. It was pointed out that the mills had not been asked for a quotation for any of the work of the Great Northern Railway, although much and heavy timber is used in wharf construction, and that contractors brought in everything they could from the United States.

The Grand Trunk Pacific also came in for criticism, though the policies of the Canadian Pacific and the Canadian Northern were favorably commented on. The lumber manufacturers must have forgotten that Canadian Northern contracts have been let, almost without exception, to American contractors, who bring in men and supplies from the United States, despite the fact that the province has guaranteed the bonds of the railway company. The result has been that many local contractors, who did considerable Canadian Pacific Railway construction work, have assigned.

Even the Canadian Pacific Railway buys its supplies in Seattle for its steamers. This railway company places nearly all its business in Canada, though it is the only line in Canada of which this can be said. That is, as far as British Columbia is concerned. The Great Northern might not be expected to, considering it is an American road, but since they give no favors they should not ask any. The Grand Trunk Pacific's delinquency of giving eight and ten million feet contracts for lumber to Washington State mills, with the exception of one large contract to the mill at Chemainus, an American-owned plant, has been previously noted.

The Dominion has been asked to appoint a commission to enquire into the method best suited to encourage and protect the zinc mining industry of southeastern British Columbia, and to consider the question of a bonus or award to anyone carrying to commercial success, works for the reduction and refining of the low grade zinc-lead ores of this province not at present amenable to the present methods of zinc reduction. The government is also to be asked to appoint a minister of mines to devote his time entirely to the industry. This question of zinc ore treatment has frequently been discussed. It is not allowed to rest, for if a method can be found to commercially treat the ores of this province, it will mean a great deal. Valuable mining properties are inactive for the reason that the zinc-lead ores cannot be handled, and once a commercial process has been perfected the southeastern portion of British Columbia would be a scene of great activity. Mining men in the interior are bringing these matters before the new administration at Ottawa, and will also investigate the situation to see if a petition should be presented for protection either by bonus or duty on lead and zinc.

◆

UNION BANK OF CANADA.

During the year the Union Bank of Canada earned profits of $662,437, being 14 per cent. on the average paid up capital. This amount, together with $80,486, carried forward from last year, and $457,060, premium in new stock, showed a total of $1,199,983 at the credit of profit and loss account, which was distributed as follows:—Dividends, $360,947; transferred to rest account, $657,060; written off bank premises, $100,000; officers' pension fund, $10,000; balance carried forward, $71,975.

The total assets are $58,434,822, and total liabilities to the public $50,152,802. Total deposits amounted to $45,232,460, while current loans and discounts show $38,010,497.

The Union Bank of Canada absorbed the United Empire Bank on April 1st, and thus added 20 branches in Ontario where the bank had hitherto been unrepresented. The headquarters of the bank will be moved from Quebec to Winnipeg at an early date, this removal being necessitated by the large West business which the bank controls. Another important event had been the opening of a branch in London, England, which was undertaken after the personal visit to London by the general manager and the assistant general manager. Mr. F. W. Ashe, formerly Eastern superintendent, was appointed manager of this branch, and the results to date have exceeded expectations. The shareholders are to be congratulated on the splendid progress which is being made and which is evinced in the forty-seventh annual statement.

MINOR MINERALS OF ONTARIO

Give Employment to Much Capital and Labor—Non-Metalliferous Products.

Numerous mineral substances were produced in Ontario during 1910 and gave rise to many industries of local importance, employing in the aggregate much labor and capital. Most of them are non-metalliferous in character.

Calcium carbide, used in producing acetylene gas for lighting purposes, and made by the fusion of carbon and lime in the electric furnace, is turned out by two companies, the Willson Carbide Company at Merritton, and the Ottawa Carbide Company at Ottawa. Together, these companies produced and shipped 3,072 tons, valued at $184,323. They employed 56 men and paid out $37,630 in wages. The production in 1909 was 2,349 tons.

For a number of years the production of corundum has been carried on by the Manufacturers Corundum Company, formerly the Canada Corundum Company, at Craigmont, and the Ashland Emery and Corundum Company at Burgess Mines. The Ashland Company's mines and works were leased by the Manufacturers Company, 1st August, 1910, and consequently passed into the hands of that company, which is at the present time the sole producer of corundum. The quantity taken out and shipped from both mines in 1910 was 1,870 tons of grain corundum, valued at $171,944, or about 4.59 cents per pound. There were 201 men employed at the mines and works, receiving in wages the sum of $100,945.

Feldspar Production Increased.

The production of feldspar went up from 11,001 tons in 1909 to 16,374 tons in 1910, the latter quantity having a value of $47,518. The labor of 107 employees was required, the amount of wages paid being $32,901. The Kingston Feldspar and Mining Company, of Kingston, and the McDonald Feldspar Company, of Toronto, were the chief producers. The quarries worked by the former company are situated on lot 1 in the second concession of Bedford township, and on the southeast quarter of lot 16 in the eleventh concession of Portland township, The latter company operates a deposit near Verona. All are near the line of the Kingston and Pembroke Railway, in Frontenac county. Besides feldspar, these deposits yield quartz or silica, practically pure, occurring in the form of dikes traversing the beds of feldspar. The quartz is used for such purposes as the manufacture of ferro-silicon, while the feldspar is shipped to pottery trade centres in Ohio and New Jersey. As already mentioned, experiments are now being made at the Ontario Agricultural College, Guelph, with the view of determining the value of finely ground feldspar as a fertilizer. Containing, as they do up to 14 per cent. of potash, these Frontenac county deposits might prove very valuable in increasing the fertility of the farming lands of Ontario, should it be found that the soil has the property of dissolving the potash from the pulverized rock. It can scarcely be doubted that from feldspathic ingredients such as are contained in granite and gneiss, a large proportion of the potash now present in the soil was originally derived. The process of soil formation has, however, been age-long in its duration, and it is to be hoped that the assimilation of the potash in the pulverized feldspar, with its fertilizing virtues, will not be found in the Guelph experiments to demand so generous an expenditure of time, otherwise the benefit to the present and many succeeding generations will be but small.

Graphite and Gypsum.

Refined graphite to the extent of 992 tons was produced last year from the mines and works of the Black Donald Graphite Company, Limited, at Whitefish Lake, near Calabogie, in the County of Renfrew, and the Globe Refining Company, Limited, at Port Elmsley, in the County of Lanark. The value of the product was $55,637, the number of employees 70, and the amount paid out in wages $40,687. The Virginia Graphite Company are developing a graphite prospect on the south half of lot 35 in the fifteenth concession of the township of Monmouth. and propose to construct a mill having a capacity to treat 200 tons of ore per day. The graphite occurs in a disseminated condition in limestone.

For many years gypsum has been raised in small quantities in the valley of the Grand River, but the industry has never attained large proportions. The mineral has hitherto been employed mainly in the manufacture of wall plaster, kalsomining preparations, wood fibre, bug poison, as a fertilizer for land, etc., but the development of the Portland cement industry has opened up a considerable outlet and has stimulated production. The admixture of a small proportion of gypsum has the effect of retarding the setting of the cement and so facilitating the manipulation of large quantities at a time. Recent explorations near Caledonia have revealed extensive gypsum deposits, and a new plant for hoisting, crushing and grinding the rock has been installed by The Alabastine Company of Paris. The Caledonia Gypsum Company has also erected a mill for grinding gypsum. This increased activity is not, however, shown in the statistics for 1910, since production on the larger scale did not begin until 1911. There were raised last year 10,043 tons of gypsum, having a value in the crude condition of $17,825. The number of employees was 52, and the payments in wages amounted to $5,062.

The hoisting of quartz or silica for a variety of uses is rapidly increasing. Last year there were raised 90,685 tons, valued at $87,424 as against 63,172 tons, worth $75,329 in 1909. The number of men employed was 92 and wages were paid to the extent of $49,382. The nickel mining companies of Sudbury require a large part of the production for the lining of their furnaces. More or less quartz is obtained from the feldspar quarries along the line of the Kingston and Pembroke Railway. A new deposit in the township of Conger, near Parry Sound, also shipped a considerable quantity to Welland for use in the electric smelting works at that place producing ferro-silicon.

Mr. George Gillespie, of Madoc, has established a good business at that place in the grinding of talc, which is raised from a deposit near by. A variety of grades are produced, and a ready market is found for them, not only in Canada, but also in the United States and Europe, where the material is used in the manufacture of paper, soap, cosmetics, etc. The machinery used in reducing the talc and preparing it for market resembles that employed for the making of flour from wheat. The output in 1910 was 5,824 tons of prepared talc, valued at $46,592. In mining and milling 37 workmen were employed, to whom $15,352 was paid in wages.

Miscellaneous Mineral Productions.

The manufacture of peat fuel was carried on in 1910 at two places, one at the bog in Alfred township where the Mines Department of the Dominion Government has installed a plant on the Anrep system for making machine peat. The product was sold in Ottawa for domestic consumption, and was in good demand at $3.00 per ton. The other factory was in the township of Dorchester, where a small quantity of pressed fuel was prepared. A little phosphate of lime was mined in 1910, but none was marketed.

Mr. Thomas Orgill, of Glen Orchard, has discovered diatomaceous earth, otherwise known as tripoli, in the district of Muskoka, in deposits believed to be of workable size and quality. This substance is useful for polishing purposes, and also in the manufacture of nitro-glycerine compounds.

The raising of actinolite was resumed in 1910, after an interruption lasting several years, but only a few tons were produced. Actinolite makes excellent roofing material. A little fluor-spar was extracted from a deposit near Madoc, and a small quantity was shipped. It is largely used as a flux, and for the extraction of fluoric acid. Tin was reported from a shaft sunk on indications of lead and zinc in the township of Fitzroy, but the genuineness of the discovery was not sustained by an examination made by the Bureau of Mines.

◆

CANADA'S TRADE WITH THE WORLD.

The section of the annual report of the Department of Trade and Commerce dealing with trade between Canada, Great Britain, France and Germany has been issued. The report shows that during the fiscal year which closed on March 31 last, Canada's total trade with Great Britain amounted to $247,551,912, as against $245,313,984 for 1910. A considerable increase in imports of British goods and a decrease in exports to Great Britain are shown. The total imports amount to $110,586,801, as compared with $95,679,877 in 1910. Exports last year amounted to $136,065,111, as against $149,634,107.

Canada's total trade with the United States for the same twelve months reached a total of $413,813,003, as compared with $352,221,327 in the previous year.

Both imports and exports increased, the former from $230,070,540 in 1910, to $294,415,202 in 1911, and the latter from $113,150,778 in 1910, to $119,396,801 in 1911.

The duty collected on imports from Great Britain amounted to $24,756,811, and on exports from the United States $37,854,728.

The figures of trade with Germany show a slight increase, the total for the year being $12,750,216, as compared with $10,459,455 for 1910. The import of German goods amounted to $10,687,199, as compared with $7,958,264 for 1910. The figures show that while Canada bought more largely from Germany, the increase in exports from Canada to Germany was very slight, the figures being $2,501,191 for 1910 and $2,663,017 for 1911.

Trade with France increased both ways. The imports amounted to $11,755,493 in 1911, as compared with $10,170,903 in 1910, and the exports $2,782,092 in 1911, as against $2,640,648 in 1910. Canada's total trade in 1911 amounted to $769,443,905, as compared with $693,211,221 in the previous pear, and the duty collected increased from $60,709,707 in 1910, to $72,935,639 in 1911.

The exports as well as imports of coin and bullion show very large increases, the imports being $6,017,589 in 1910, and $10,206,210 in 1911, and the exports $2,594,536 in 1910, and $7,196,155 in 1911. Some interesting figures respecting Canada's trade will appear in the annual number of The Monetary Times.

◆

Five Toronto, one Montreal and two Regina bond firms bid for the $100,000 5 per cent. 30-year electric light and gas plant debentures of Portage la Prairie, Man. The tender of the Ontario Securities Company, Toronto, was accepted.

SUGAR INDUSTRY IN THE BRITISH WEST INDIES.

Outlook for the Various Islands—Inadequate Expansion of the Industry.

The trade commissioner of the British West Indies, Mr. E. H. S. Flood, in an interesting and instructive report, says that in favorable years the stock of sugar available for export from the British West Indies may be placed at 240,000 tons. This figure would hardly have been reached last year had it not been for the unexpected increase in production in Jamaica. The following statement shows the exports from each colony, the returns from St. Vincent being for 1909:—

	Tons.
Barbados	39.899
Jamaica	19,960
Trinidad	46,247
British Guiana	100,954
St. Lucia	5,275
St. Vincent (1909)	288
Leeward Islands	26,110
	238 733

The export of sugar next year will show a decline. Advices from the various islands indicate that weather conditions have been on the whole unfavorable to cane cultivation, and that the crops will be short in all the colonies except Barbados. Should these conditions continue during the remainder of the season, there might be a falling off of about 10 per cent. The present position, however, justifies the following estimate:—

	Tons.
Barbados	40,000
British Guiana	100,000
Trinidad	36,000
St. Lucia	4,800
Jamaica	15,000
Leeward Islands	25,000
	229,800

Outlook for British Guiana.

For the past two years the export of sugar has been falling off, and there is no indication that the present year's crop will show an increase. In 1908 the quantity shipped amounted to 115,215 tons, and in the following year 108,533 tons. Last year it had fallen to 100,954. From January 1 to October 9 of the present year the shipment is about the same in quantity as for a corresponding period of last year. There has been an increase in the amount of molasses exported. The weather throughout the year has been wet, and the quality of the cane is not as high as it would have been under more favorable conditions. The outlook is for a crop not exceeding 100,000 tons.

The area under sugar cultivation in Trinidad is about 62,000 acres, divided into 59 estates. These estates are being amalgamated and the cane grown is being manufactured into sugar at the central usines. The quantity exported last year was 46,248 tons, which was slightly above the average. The estimate current in commercial circles for the crop to be reaped in the spring of 1912 is that it will fall below that of recent years. In view of the favored market for sugar in Canada, and the present high prices, this is very disappointing to planters. The shortage in the crop is attributed to unevenly distributed rainfalls, periods of excessive moisture alternating with lengthy droughts. In addition to an unfavorable season, the cane on some of the estates has been attacked by fungus and other destructive pests. In these countries there will be a lowering of yield about 50 per cent., so probably not more than 36,000 tons of sugar can be looked for, which is about equal to the crop of 1905—the lowest in the decade.

Sugar Crop of St. Lucia.

The crop last year was the lightest for some years past, as will be seen by the return given below. An estimate for the coming crop of 1912 is about 10 per cent. better, and is given at 4,500 tons of usine and 3,000 tons of muscovado. The weather during the growing season was better than last year, though not up to the average.

1909	tons.	5,519
1910	"	5,275
1911	"	4,427
1912 (estimate)	"	4,800

The sugar crop of Antigua for 1910 was approximately 13,600, and that of St. Kitts-Nevis 12,500, making a total of 26,100 tons. These two presidencies, one year with another, produce about 25,000 tons of sugar, so that the crop of 1910 was a little above the average. This year there has been a falling off, Antigua exporting only 11,000 tons, of which 6,400 were crystals, manufactured in the central factories, and 4,600 muscovado, produced by the old method.

The most important development in the sugar industry in these islands lies in the considerable extension of the central factory system. The old muscovado works are being replaced by modern machinery. During the past year extensions have been added to the present sugar factory at Antigua, while in St. Kitts the central factory now in course of erection will, it is expected be ready for operation at the beginning of the reaping season.

Promising Crop in Barbados.

The quantity of sugar exported up to the middle of October this year, at which time all available sugar had been shipped, amounted to 32,514 tons, which was about 10 per cent. below the export for the same period of 1910. On the whole favorable weather conditions have been experienced during the season, and should such conditions continue up to the beginning of the new year, a considerably larger crop will be reaped next year, estimated at 40,000 tons. If the market holds in regard to price, the returns from colonial produce of this island should be very satisfactory.

The export of molasses up to the middle of October of the years 1910 and 1911 averaged 77,000 puncheons for each year. Of this total quantity amounting to 154,000 puncheons, Canada received 105,000. The estimate for the coming year places the production at 75,000 puncheons.

The area devoted to the cultivation of sugar cane in Jamaica is roundly 30,000 acres, which produced in 1909, 9,894 hogsheads of sugar for export, and about one and a quarter million gallons of rum. The sugar houses and mills on the estates are as yet generally of the small and older type, though the establishment of central factories on modern lines is now being seriously undertaken. One modern mill is being erected near Montego Bay, and another in St. Thomas. Two sugar factories are also to be erected on one of the rubber companies' estates. There is a good prospect in the near future of a much larger output, which may eventually equal the production of former years, Jamaica having been at one time one of the largest sugar producers in the West Indies.

Inadequate Expansion of Sugar Industry.

In the year 1880 the value of sugar exported from Jamaica was in the neighborhood of £500,000. This was 34 per cent. of the value of the total exports. Ten years later it had dropped to 16 per cent. In 1900 a further decline to 10 per cent. had taken place, and in 1909 it fell to 4 per cent. Last year a substantial advance was made in sugar production, and the value of the export of this article increased to 10 per cent. of the total exports, which had since 1880 expanded £1,000,000. As shown by the table given at the beginning of this report, the export for 1910 was 19,960 tons, which was an increase over the previous year of 10,066 tons. Since the 1st of last January the rate of increase has slackened, due to unfavorable weather conditions, so that the sugar exports for this year will be practically the same as in 1910.

The favorable market offered by Canada to West Indian sugar and molasses, and the absence of destructive competition from beet-growing countries in Europe have not apparently been sufficient to increase the production of sugar in these colonies. The speculative character of the industry, which seems to attract capital elsewhere, repels it apparently so far as these colonies are concerned. This cause, together with the attention given to the cultivation of other remunerative crops such as cotton and fruit, has prevented any further areas being placed under sugar cane. There is in Jamaica the appearance of an awakening, and with the improved machinery which is being introduced throughout the colonies, a larger output of sugar may be looked forward to in the near future. No expansion adequate to the improved market conditions and the absence of competition is apparent. Entirely new conditions will be required before the West Indies produce the quantity of sugar which, owing to their fertility of soil and suitable climate, might be expected from them.

NEW POWER MERGER.

A merger has been completed between the company that controls the water power on the Mersey River, Nova Scotia, estimated to be 25,000 for a 24-hour day, and the company on the Gaspereau River with 5,000, also a 24-hour day. Both companies have charters from the Nova Scotia Government with authorized capital of $5,000,000 each. The capital under the merger will be $6,000,000. The people directly interested in the merger are Sir Frederick Borden; R. A. Robert and J. W. McConnell, Montreal; Hon. B. F. Pearson, F. B. McCurdy, M.P.; John R. MacLeod, Halifax, and Frank Stanfield, M.L.A., Truro. The merger includes the taking of the Halifax Electric Tramway and the MacLeod Pulp and Paper Mills on the Mersey river. The company proposes to transmit power for lighting and power purposes in Halifax and the western half of this province. Before the merger was complete there had been a race for Halifax Tramway stock, which carried it up to high figures. The street railway in this city would constitute one of the largest consumers of the power to be furnished, and it is claimed that the revenue from going concerns included in the merger will pay the interest on the $6,000,000 bonds to be issued. The name of the new company will probably be the Nova Scotia Hydraulic Power Company. It is expected that it will take more than a year to advance the installation sufficiently to introduce power to Halifax and other centres to be supplied.

BRITAIN IS A GOOD MARKET

For United States Products—Growth Has Been Steady —Sources of Imports.

Over a billion dollars' worth of merchandise passed between the United States and British territory in the ten months ending with October for which statistics have been compiled. The bureau of statistics of the Department of Commerce and Labor at Washington reports that exports from the United States to British territory in the period named aggregated 759 million and imports therefrom 383 million dollars, thus indicating that for every dollars' worth of merchandise imported from the territory in question, two dollars' worth of American products are exported thereto.

The growth of American commerce with countries and colonies under the British flag has been steady and in the case of certain countries, notably Canada, very rapid. In 1905 the ten months' record of imports from British territory was 289 million, and in 1911, 383 million dollars, an increase of 94 million dollars. The 1911 figures are, however, slightly less than the total for 1910, when the ten months' imports aggregated 405 million dollars. Exports to British territory for corresponding periods of the years named meantime grew from 583 million dollars in 1905 to 759 million in 1911, an increase of 176 million dollars. The share of the imports into the United States brought from British territory is about 30 per cent., while about 45½ per cent. of the exports goes thereto; and of the total foreign trade, approximately 40 per cent. is with British territory. The term British territory includes England, Scotland, Ireland, Canada, Australia, New Zealand, India and other British East Indies, British Honduras, British Guiana, Aden, Gibraltar, the Falkland Islands, Hongkong, British Africa, Newfoundland and Labrador, the British West Indies, and other British islands. To all these, with unimportant exceptions, the exports from the United States are larger in 1911 than in 1910 or earlier years.

Britain a Good Market for American Products.

To the United Kingdom, the largest British market for American products, ten months' exports increased from 393 million dollars in 1910 to 419 million in 1911; those to Canada, next in rank, the exports in the ten months periods advanced from 201 million dollars in 1910 to 249 million in 1911, a figure more than double the total for the corresponding period of 1905. Australia and New Zealand rank third among the British dominions as a market for American goods with a ten months' total of 40 million compared with 30 million and 21 million in 1905 for like periods. To British Africa the ten months' exports increased from 11 million in 1905 to 12 million in 1910 and 13 million in 1911; those to the British West Indies, from 8 million in 1905 to 9 million in 1910 and 10 million in 1911; and those to India 4¾ million dollars in 1905 to 6½ million in 1910 and 9 million in 1911.

The remaining British communities which show in each case a total in excess of one million dollars in the ten months include Hongkong, to which American exports in ten months were valued at 7 million dollars; Newfoundland and Labrador, 4 million; the Straits Settlements, 1¾ million; British Guiana, 1½ million; British Honduras, 1¾ million; and Aden and Bermuda, each about 1 million dollars. To Gibraltar the total was about $400,000; to Malta, Goza, etc., about $200,000; and to British China, the Falkland Islands, and miscellaneous other British possessions as a whole, about $300,000.

Sources of Imports to the United States.

As sources of imports into the United States, Great Britain is again first among the British communities, with a ten months' record of 208 million dollars in 1911, compared with 225 million in 1910 and 158 million in 1905; Canada is second, 76 million dollars in 1911, against 83 million in the like period of 1910; India, 41 million, comparing with 38 million in the preceding year; the Straits Settlements, 20 million; other British East Indies, 7½ million; British West Indies, 11½ million; Australia, New Zealand, etc., 10 million; British Africa, 3 million; Hongkong, 2 million; Aden, 1½ million; and British Honduras and Newfoundland, each 1 million dollars.

Raw cotton, meats, and breadstuffs form the bulk of the exports from the United States to the United Kingdom, though certain manufactures, such as agricultural implements, leather, machinery and pig copper are important items in the yearly sales to that country. American exports to Canada cover a very wide variety, including manufactures of iron and steel, automobiles, illuminating oil, corn, cotton, coal, tobacco and practically every article enumerated in the export schedule. Australia and the various colonies of the United Kingdom offer large and increasing markets for United States manufactures. On the other hand, British territory supplies a large proportion of import requirements—manufactures of various kinds from the United Kingdom, and foodstuffs and raw materials, such as cocoa, tea, tropical fruits, india rubber, clothing wool, and fibres from the British colonies.

◆

The Dominion Guarantee Company, Limited, of Montreal, will apply at the present session of the Dominion Parliament, for an act to amend the charter of the company, with power to carry on guarantee, sickness, accident and automobile insurance, and for other purposes.

BANK FORGERIES AND ROBBERIES.

Mr. Charles Lutz, who represented himself as a railway brakesman, was arrested at the Hudson's Bay stores, Winnipeg, while endeavoring to pass what is alleged to have been a bogus cheque for $50. The day previous Lutz was at the store and after making a purchase presented a cheque for $25 which was accepted. Both cheques were on the National Commercial Bank of Washington, D.C., and purported to have been received from the prisoner's father.

Mr. Duncan McLean, of Strathcona, was arrested in Edmonton recently. He was employed in the Dominion Bank at Calgary and it is understood a definite charge has been laid against him by the bank officials.

Mr. B. B. Clarke, former manager of a branch of the Bank of New Brunswick, at St. John, N.B., who was arrested in New York in connection with certain bank transactions, was committed for trial at the County Court next month. Bail of $20,000 was accepted.

Mr. Thomas C. Chatterson, who lives at Mimico, has been arrested on a charge of stealing $122 from the National Fruit & Packing Company, of Toronto. According to the police, Chatterson was given the money to pay the wages of several fruitpackers who were working in a suburban district of Toronto.

Mr. Leonard Ennis, of Haileybury, has been arrested on a charge of forgery and uttering two forged demand drafts purporting to be signed by the manager of the Gordon Davies Company, of Cobalt.

As the result of information received, Mr. Eugen Bourdon, of Regina, Sask., has been arrested on a charge of being concerned in the robbery of the Canadian Northern Express Company's offices when nearly $40,000 was stolen.

Mr. W. C. Wood, formerly manager of the Gurney Stove Company in London, Ont., has been arrested in Moose Jaw, Sask., on charges of embezzlement. He will be brought back to London.

While Mr. Miles Owens, of Winnipeg, Man., was on the way with his fiancee to the minister he was arrested on three charges of forgery. It is alleged that he forged three cheques for $22, $23 and $2 during November. He is held without bail.

Mr. Arthur W. Greene, former reeve of Zone Township, Ont., has been arrested upon four charges of embezzlement of funds alleged to have been committed while he was a member of Zone County Council. He was remanded till Jan. 10.

NEWS AND NOTES.

The Manitoba Government telephones has agreed to allow Winnipeg to place the fire alarm poles on their telephone poles. There were fifty-three alarms during the past month, twenty-one for actual fires and thirty-two for other causes.

The salvage of the Canadian Pacific Railway Company's two elevators, which were recently burned at Owen Sound, has been sold to Messrs. James Richardson & Sons, grain dealers of Kingston, Toronto and Winnipeg, for the sum of $80,000. The amount will be distributed among the several insurance companies, in which the elevators and their contents were insured.

At a meeting of the Real Estate Owners' Association recently held in London, Ont., Mr. John M. Parsons, secretary of the committee having in hand the organization of a mutual fire insurance company to take risks in the residential sections of London, reported that $150,000 had been promised and that there was a good prospect of being able to get the necessary $200,000 insurance in a short time.

A Dominion license for fire insurance has been granted the German-American Insurance Company, which was formed by the amalgamation of the German-American Insurance Company and the Rochester German Insurance Company, of Rochester, New York. The chief agency in Canada of the new company is in Montreal, and Messrs. J. H. Esinhart and T. A. Evans, of that city, have been appointed chief agents.

An increase in the sale of Canadian wheat and flour to Great Britain is reported in a report by Trade Commissioner Ray, of Birmingham, who says that last year was excellent. A special demand is reported for Canadian cereal products. Oatmeal imports totalled $923,610, of which $734,435 came from Canada. Rolled oats were imported to the value of $1,971,130, of which Canada sent $1,176,130.

A decrease is reported in the imports of Canadian peas and beans, though the total imports from British possessions increased in five years by half a million, Canada being beaten by Australia, New Zealand and British India. No Canadian rye was sold last year to England. There is a good demand for Canadian barley.

Mr. Alfred W. Carpenter, proprietor and manager of the Charing Cross Bank, London, who was arrested on April 25th last on a charge of obtaining money through fraud and false pretences, was found guilty at the London Sessions at the Old Bailey, and sentenced to a term of two years' imprisonment. The Charing Cross Bank, a private institution, failed on October 17, 1910. Its headquarters were in London, but it had forty country branches. The deposits amounted to about $5,000,000, and the entire liabilities were estimated to reach a total of $12,500,000. It was interested in the proposed Atlantic, Quebec & Western Railway, and much of the bank's money was sunk in that enterprise.

WESTERN CANADA.

Increase in Manitoba Telephone Rates Causes Opposition—In the Wheat Markets.

Monetary Times Office,
Winnipeg, Dec. 19, 1911.

The general outlook in the west at present is somewhat more favorable than a few weeks ago. The weather has been such as to enable the farmers to continue threshing; undoubtedly the process with snow on the ground is slow, but despite the recent unfavorable weather a large amount of grain is being threshed and saved.

More danger seems to exist from exposure to threshed grain than to that in the stook. The trouble is not as to the weather, but as to getting the grain out of the country or into shelter. Notwithstanding these difficulties far more grain has gone out of the country at the present time than in any previous year for the corresponding period, and never has there been so much grain waiting for the railways to move. Under the circumstances, and remembering that all this grain will sooner or later be turned into cash, there is no reason to worry as to the outlook for the country during the next few months.

The crop movement continues to be very heavy, and the weather is unusually mild for this time of year. Navigation is now closed, but the movement by all rail route will go right ahead.

The grain on the whole is grading poorly, the majority of it being No. 3 Northern and lower, out of six hundred cars (an average day's receipts) only a dozen will go No. 1 Northern, and sixty No. 2 Northern.

Manitoba Telephone Rates Increase.

The most important announcement in Winnipeg last week was that the telephone rates were to be practically doubled. The Manitoba Government Telephone Commission have issued a new schedule of rates, and they are meeting with the utmost opposition and criticism by business men and householders all over the city.

The new rates will affect all classes of phones; the charge for house phones previous to this announcement has been twenty-five dollars a year, and the new price giving the same service as at present will be forty-eight dollars a year.

The rates for business phones will be greatly increased, some large business firms placing their telephone bills, taking them at the new rates, at from $1,200 to $2,000 a year, and several over that figure. The new rates are to go into effect April 1, 1912.

December Payments Not Satisfactory.

December payments are not as satisfactory as they might be, and in many instances there seems to be scarcely any legitimate excuse for poor payments on paper coming due this month, a great deal of which has been extended from last month.

From reports collections are not as good as they ought to be in view of the amount of money passing into the hands of producers for actual sales of produce. One cause of this state of affairs from the bankers' standpoint is that other debts than those owing to the storekeepers are being paid. Of course, the bankers like to have paper from storekeepers met to reduce the long lines of credit which are carried for the many wholesale houses. But if they suffer in this respect they will profit in others. Payments going into the hands of loan companies will be used to decrease their lines of credit which were very considerable at the beginning of the crop moving season.

In the Wheat Market.

There was a strong wheat market last week, but any tendency to advance prices was curbed by the influence of the continued increase in the United States visible supply, and the exceedingly large receipts at Minneapolis and Winnipeg.

In Western Canada the weather for some time has been mild and calm, and this has allowed of more threshing being done than was expected, and especially has enabled the railways to do immense work in the way of hauling grain eastward. This accounts for the large receipts at Winnipeg. Lake navigation is now closed at Fort William and Port Arthur, after the greatest shipping season on record.

The visible supply for all Canada notwithstanding the large crop and the large movement shows very little difference from a year ago, the total at end of last week being 10,832,000 bushels against 10,352,000 bushels a year ago. Although the weather in Western Canada has been such as to enable a certain amount of threshing to be done, the work is slow and unsatisfactory, and the quality and condition of the grain threshed poor, for, of course, it is the late, badly frosted and weather damaged grain that composes most of what was unthreshed at the end of November. Notwithstanding storms and wet weather in the Argentine the surplus for export is still being put at about 124,000,000 bushels. The Argentine exports for the present year will reach about 88,000,000 bushels. There has been a slight improvement in the Australian crop, and exports for coming season are expected to be 20,000,000 bushels under the present year. The reports regarding prospects for the new crop in India are favorable and the growing winter wheat crops in Europe are also in generally favorable condition.

Winnipeg Market Has Been Good.

In our Winnipeg market trade has been wonderfully good considering the comparative quietness of the world's markets, the large supplies we have to dispose of and the shockingly inferior grade of the bulk of our wheat. Demand for cash wheat of all grades has been steady and continuous, and everything bought has been shipped eastward from Fort William on the way for export to Europe. There is bound to be a quietness around the present time in our market, owing to the close of lake navigation and the cleaning up of the fall's business, but the prospects for future trade are excellent and any noticeable slackening in demand will be temporary. The small percentage of the 1 and 2 Northern wheat is bound to enhance the value of these grades as the season advances, for our home millers can use all that has been produced, and there is good seed to be provided for tens of thousands of western farmers who have nothing of their own fit for seed. The low grades are in good demand for Europe, much of them going for cattle feed at comparatively low prices.

GENERAL NOTES.

The Great West Saddlery Company, Limited, has increased its capital stock from $250,000 to $2,000,000.

A branch of the Bank of British North America has been opened at Lytton, B.C., under the temporary management of Mr. J. J. Irwin.

The contract for the C. P. R. shops at Calgary has been let by Vice-President Bury to the Westinghouse, Church, Kerr Company, New York.

As a result of the fire engine going out of commission at the fire at Perrin's factory at London, Ont., the Council discussed the city system of fire protection, and decided to ask the makers of the engine why the tubes blew out.

Since the beginning of the year the fire department of Winnipeg, Man., has received 1,125 calls for assistance and as these figures are only calculated to December 11, indications are that the total for the year will reach the 1,200 mark, a new record for the city.

The Dominion Trust Company will apply to the Dominion Parliament for an act to incorporate its shareholders under the name of the British Trust Company, the new company to take over the rights, power and liabilities of the Dominion Trust Company and to exercise its powers throughout Canada.

The offices of the Prudential Trust Company, in the Home Bank building, Toronto, have been opened for business, in charge of Mr. John L. Thorne, the local manager. Through its close business relationships with several banks, an exceedingly active future has been predicted for the new financial institution.

The following officers have been elected by the Northumberland Co-operative Fruit Growers' Association: President, Mr. W. J. Farley; Vice-President, Mr. C. E. Post; Secretary-Treasurer, Mr. E. C. Brown; Executive, Messrs. Robert Wade, Dr. C. M. Sanford, S. J. Tinson. Mr. R. B. Scripture, who was instrumental in organizing, was appointed manager.

That the majority of public halls and moving picture theatres of Montreal are not wired in a manner which adequately protects the lives of people visiting these places is the gist of a communication which Mr. James Bennett, chief inspector of electrical services for the Canadian Fire Underwriters' Association, has sent to Controller Wanklyn, of that city.

Charged with incendiarism, Messrs. James Bovair and Hugh Eames were sent to the Toronto sessions after a preliminary hearing. The accused were charged with setting fire to the house of Mr. Leonard Welsh in Sutton West, on Nov. 7. Eames made a confession to his uncle to the effect that Bovair had poured oil on a mattress in the house and had then touched a match to it.

The Porcupine Quill is a quarterly review of the gold fields of Northern Ontario and is published by Messrs. Scott, Dawson and Patterson, of Toronto. The object of the publication is not for the exploiting or promoting of any company or companies, but to give in concrete form authentic information regarding the financial and physical condition of the individual companies operating in the camp.

The North Atlantic Collieries Company properties sold recently for $70,500. The sale took place at Sydney, N.S. Messrs. J. T. Burchell and H. C. Foss were the only bidders on the property, the first figure offered being $60,000. Mr. Foss offered $70,500, the highest bid, and this was accepted. It is understood that Mr. Foss has purchased the property as the agent of a trust company.

WARNINGS FROM WITHOUT.

New York and London Criticisms of Canada's Company Promoting Activity and Borrowing.

"One factor which above all others has favored the industrial development of the Dominion of Canada within the past decade," says the New York Financier, "has been the willingness and even the enthusiasm of outside capital to lend assistance to schemes for local development. Canada's credit in the marts of the world, and particularly in England and the United States has been, and still is, above suspicion. Money has flowed like water into every channel of investment of legitimate character opened by the Dominion. There is no good reason why this powerful assistance should not be continued, except that Canadian enthusiasm or optimism bids fair to pass the boundary of conservatism, with the inevitable result of an unhappy awakening some time in the future to the fact that not every financial scheme propounded is necessarily good and sound, simply because it is Canadian in character.

Promotion Business Overdone.

"Signs are not lacking that the promotion business in Canada has been overdone. Several industrial combinations of large size which were hastily put on the market a year or more ago are already in the rapids of financial distress, and others are revealing plainly the fact not only that they are over capitalized, but that in other essential particulars they are weak and destined for eventual receivership. We do not wish to convey the idea that our good neighbors are at the end of their prosperity, for young countries have a way of recuperating financially when their critics are predicting universal disaster. At the same time the overdone trust movement in Canada will in a measure react against the splendid credit which the Dominion has always enjoyed and to that extent will retard prosperity.

In the Throes of a Land Boom.

"There are signs also that Canada is in the throes of a land boom something akin to those which at one time did so much to unsettle business in the United States. Altogether the Dominion, unless steadier counsels prevail, will do herself irretrievable injury in permitting to continue unchecked what is rapidly developing into an orgy of speculation, based on overcapitalization and uncertain prospects, rather than on solid foundation."

The London Observer referring to what is described as the Canadian Northern loan fiasco, says Canada as a whole and not merely the government has been over-borrowing. The values of land and most other things have been inflated, but we are glad to see there is a growing spirit of caution, though some municipalities have shown something akin to bolting beyond all bounds of caution.

◆

BANKING AND CURRENCY REFORM IN UNITED STATES.

Appeals for the immediate reform of the country's banking and currency system and scientific tariff legislation, based upon entirely new reasons—the practical experiences of the Customs service—stand out prominently in the annual report of United States Secretary of the Treasurer MacVeagh, submitted to Congress this week.

The Secretary of the Treasury foresees, according to the estimate of experts, a surplus in the Treasury at the end of the fiscal year 1913 of about $29,000,000, exclusive of expenditures on the **Panama Canal.**

Including the estimated canal disbursements, however, the Treasury will face a deficit of approximately $18,000,000. The total estimates of expenditures for next year, exclusive of the Panama Canal and the postal service, payable from postal revenue, are $635,920,803. The estimate of receipts available for the general fund are $667,000,000. The estimates for the construction of the Panama Canal during the next year are $47,263,760, making a grand total of estimated expenditures of $685,184,563.

With all the preliminaries for revising the financial system accomplished, Mr. MacVeagh declares there is no reason to postpone action.

The tentative plan of the National Monetary Commission, outlined by its Chairman, former Senator Aldrich, he says satisfies in its essentials the larger part of the expert opinion of the nation and is supported by the business men. The Secretary pledges the administration to do its part in keeping this financial issue wholly non-partisan, believing that the result should be the product of both parties.

◆

The directors of the Spanish River Pulp & Paper Mills, Limited, have declared a dividend of 3½ per cent. for the half year ending on December 31st, 1911, on the preferred stock of the company. The dividend will be payable on January 15th, 1912, to shareholders on record December 20th. The transfer books will be closed from the 20th to the 31st of December inclusive.

RAILWAYS AND THE WESTERN CROP.

Good Milling Wheat Must Be Handled Now—Farmers and the Market.

The Manitoba Grain-growers' Association sends the following statement from its Winnipeg office:

The inadequacy of transportation facilities furnished for the moving of the crop of the Western Provinces is creating a situation that is alarming and one in which the whole of the Canadian people are interested. The abnormally unfavorable conditions for thrashing the crop this year have left a great deal of grain not thrashed. Yet, in the face of that fact there is supposed to be millions of bushels of grain lying in the fields with nothing to protect it but a little straw thrown over it. In addition to that there are millions of bushels of grain in granaries that have been thrashed since the snow fell which have in it a mixture of snow and ice.

May Be Total Loss.

Much of this is wheat of good milling quality, and if it could be placed where mills could use it for milling purposes and where it could be conditioned at terminal elevators before the warm weather sets in, the grower would be subjected to a comparatively small loss. If, however, as seems probable now, large quantities of grain will not be handled before the warm weather comes, it will be a total loss.

All the elevators in the west are filled to their utmost capacity. In some of the newer districts farmers cannot realize sufficient out of their crop to buy necessary fuel and groceries.

Warehouse Commissioners' Orders.

Loan companies, business men, and implement manufacturers are pressing for payment of their accounts. It is now currently reported that orders have gone forth prohibiting western banks from loaning any money to farmers after the new year.

The Warehouse Commissioner is giving orders for cars to be placed out of their turn at some points so as to enable elevators to take in grain hauled by farmers from forty to sixty miles (not more than two loads for each farmer), so as to secure fuel and groceries for their families. The only outlet for the grain product for winter shipment is over the C. P. R. to the seaboard. It will only take a comparatively short time for the terminal elevators at Fort William and Port Arthur to be filled to their utmost capacity.

Farmer and the Market.

What then is to be done with this large amount of grain that is on the western farms out of condition and will not stand the warm weather?

This is a case where it seems absolutely necessary for the Dominion and Provincial Governments to take a hand. The Canadian railroads have demonstrated that they are not able to take care of the traffic. Cannot our authorities now step in and compel our railroads to make special rates to reach markets over the American railways? Is it not a colossal folly to prevent the Canadian farmer from taking advantage of a market at his door for his products and force him to seek markets thousands of miles away over a transportation system that, admittedly, is not keeping pace with the development of the country?

◆

ASSESSMENT LIFE INSURANCE.

The business of insurance on the assessment plan was carried on in Canada last year by four Canadian associations reporting to the Dominion Department of Insurance, three of them being fraternal societies, and the other the Commercial Travellers' Mutual Benefit Society.

The total amount of policies taken in Canada during 1910 by the four Canadian associations above referred to was $13,693,424, which is greater than the amount of assessment policies of these associations taken in 1909 by $6,015,674, and the net amount in force at the end of the year was $136,682,194, which is greater than the amount in force at the ond of the year 1909 by $5,827,384. The amount of the insurance terminated by death was $1,350,175, and by surrender and lapse, $8,778,509. Tho total terminations amount to 73.97 per cent. of the amount of new policies. The total amount paid by members in Canada for membership fees, annual dues, assessments, etc., was $2,249,703, and the amount paid for death claims was $1,574,840.

◆

The past few months has seen the first large investment of German capital in British Columbia timber in the purchase of the holdings of the Red Cliff Lumber Company in the Alberni district of Vancouver Island. The amount was over $2,000,000. Another large timber investment is that of British capitalists, headed by Mr. Archibald D. Tennant, a brother-in-law of Premier Asquith. They have bought 32 limits on the Skeena River close to Prince Rupert. Further expansion in the north will be awaited before plans for development of the timber are definitely arranged.

BRITISH COMPANY INTERESTED

In Fishing Industry of British Columbia—Sixty-nine New Companies Have Been Incorporated.

Sixty-nine companies were incorporated last week with a total capitalization of $15,704,000. The largest concerns chartered are the P. Lyall & Son Construction Co. with head office in Montreal and capital of $3,250,000, and the Dominion Porcupine Mines, Toronto, with capital of $3,000,000. Other large companies are Porcupine Gold Peak, Toronto, $1,500,000, and British Canadian Canners, Montreal, $1,000,000.

Twenty-five of the new companies were incorporated in British Columbia, 18 in Ontario, 16 in Quebec, and 10 in Manitoba.

Incorporated under the aegis of Sir George Doughty, head of the great herring fisheries, which have their headquarters at Grimsby, a company known as the B. C. Fisheries, Limited, with a capital of $1,250,000, has just been floated to operate on the Pacific coast of Canada. Two steam trawlers, the first of a large fleet, which will probably include twenty or more vessels, will be dispatched from Grimsby, and a cold storage plant, fishing depots, canneries, salteries, etc., will be erected at Porcher Island and at Skidegate Inlet, at a cost of $250,000. Mr. Wilfred Vere Doughty, son of Sir George Doughty, will act as general manager of the company. Arrangements have been made with the Grand Trunk Pacific to provide trackage at the site of the cold storage depot on Porcher Island, and the railway company has consented to provide the freehold of a site with ample water frontage and to put in all the tracks that will be required.

The new fishing enterprise is the result of a visit made to British Columbia two years ago by Sir George Doughty, when at the instance of Earl Grey, he investigated the fisheries of the province. The enterprise will be the first step towards the establishment of a race of white fishermen on the Pacific Coast, as those who will participate will be brought from England.

The Dominion Guarantee Company will seek a revision of its charter and widening of its powers.

The British Columbia and Dawson Railway Company ask for authority for a line from Fort George to Telegraph Creek, and from the Fraser River at Big Creek to Vancouver.

The following is a list of the charters granted during the past week. The head office of each company is situated in the town or city mentioned at the beginning of each paragraph. The persons named are provisional directors:—

Nanaimo, B.C.—A. R. Johnston Co., $50,000.

Kerrisdale, B.C.—John M. Chappell, $50,000.

Rossland, B.C.—Rosalia Mining Co., $600,000.

Hosmer, B.C.—Hosmer Industrial Association, $10,000.

Van Anda, Texada Island, B.C.—Van Anda Water Co., $25,000.

Barkerville, B.C.—Antler Goldfields & Development Co., $500,000.

Sarnia, Ont.—Sarnia Fence Co., $500,000, J. R. Pierdon, C. Bolton, W. Galloway.

Ottawa, Ont.—Hugh Carson Co., $500,000, H. Carson, F. W. Howe, E. W. Borbridge.

St. Thomas, Ont.—Jackson's, $40,000, W. R. Jackson, J. Woodhouse, Miss M. Ronan.

Brandon, Man.—Evans-Coleman, $10,000, A. A. Evans, G. B. Coleman, R. M. Coleman.

Bracebridge, Ont.—Mahaffy Brothers, $100,000, V. Bays, A. C. Salmon, R. C. Armstrong.

Port Arthur, Ont.—Kyro-Hellberg Co., $60,000, W. A. Kyro, F. E. Hellberg, J. W. Kotka.

Sperling, Man.—Sperling Rink Co., $5,000, W. Millichamp, A. H. Waddell, F. McMicken.

Grand'Mere, Que.—Laurentide Amusement Co., $20,000, C. Levack, O. Gendron, L. A. Paradis.

St. Catharines, Ont.—Canada Hair Cloth Co., $50,000, J. A. McSloy, H. E. McSloy, J. I. McSloy.

Quebec, Que.—D'Auteuil Lumber Co., $50,000, C. E. D'Auteuil, C. E. Taschereau, J. P. Cantin.

Walkerville, Ont.—Flanders Electric Vehicles of Canada, $40,000, A. D. Green, J. R. Coate, A. Leslie.

Hamilton, Ont.—Ambitious City Realty Co., $50,000, Misses L. Goduph and A. Thompson; H. E. Snider.

Wiarton, Ont.—Canadian Echo Co., $10,000, A. McNeill, Annabel Tp.; J. Symon, T. C. Allan, Wiarton.

Dunnville, Ont.—Sew-Sure Manufacturing Co., $40,000, C. M. Armstrong, R. M. Jackson, W. R. Jackson.

Three Rivers, Que.—Three Rivers Athletic Association, $20,000, R. F. Grant, L. G. Craig, C. R. Whitehead.

Petrolia, Ont.—A. W. Parks & Son Co., $20,000, A. W. Parks, A. E. Dodds, Oil Springs, Ont.; F. C. Parks, Washington.

Victoria, B.C.—Belmont Buildings, $300,000. British Columbia Gas Machine Co., $15,000. Trust Company of Victoria, $500,000. Western Dominion Land & Investment Co., $500,000. Bowman Investment Co., $25,000. St. James, $250,000.

Vancouver, B.C.—Diamond Crown Cigar Manufacturing Co., $15,000. Tisdalls, $125,000. Canada Funeral Directors, $200,000. Industrial Lands, $60,000. Boothby & Forshaw Motor Car Co., $50,000. Commonwealth Investment & Collection Co., $100,000. Ashawota Power Co., $10,000. Occidental Homes, $50,000. Lytton Hotel Co., $50,000. Kydd Brothers, $100,000. Coquitlam Townsite Co., $50,000. Higgins, Fisher & Co., $100,000. E. T. Kingsley, $50,000.

Toronto.—Graydon McCulloch Co., $40,000, T. B. Malone, R. R. Evans, W. A. Henderson. Porcupine Gold Peak, $1,500,000, G. Grant, M. MacDonald, B. Williams. Dominion Porcupine Mines, $3,000,000, R. McKay, G. Grant, M. MacDonald. Hugh C. MacLean, $500,000, O. H. King, G. M. Willoughby, A. J. Wise. Slocum Company, $100,000, W. J. Boland, J. F. Boland, J. C. German. Langmuir Nighthawk Lake Gold Mines, $50,000, D. F. Yost, Hammonton, N.J.; G. Lindsay, J. McNicoll, Porcupine. T. H. Best Printing Co., $40,000, T. H. Best, D. M. Best, Toronto; T. Mulvey, Ottawa.

Winnipeg, Man.—Algoma Steel Products Co., $50,000, E. L. Taylor, C. D. H. MacAlpine, A. B. Elliott. Triple Tread Manufacturing Co., $50,000, T. H. Johnston, H. A. Bergman, G. E. Winkler. Leadlay Manufacturing Co., $40,000, H. Leadlay, M. Steinberg, L. J. Carey. Realty Investments, $40,000, A. J. Nelson, B. C. Parker, R. H. Cottingham. Bowsman Farmers Co., $20,000, G. P. Renouf, F. E. Renouf, G. Scott. Spanish Fuel & Construction Co., $5,000, G. de la Riva, J. Parcual, A. Miguez. Mothers Association of Winnipeg, E. M. Ferguson, L. D. Deacon, W. McLeod. Grain Growers Export Co., $250,000, W. G. Hall, J. Wright, W. H. Trueman.

Montreal, Que.—Lachine Canal Lands, $500,000, J. H. Dillon, P. A. De Groseilliers, T. Alexandre. Rockwood, $49,000, J. A. Laurin, C. E. Laurin, G. Audet. Legare Gadbois Automobile, $100,000, P. T. Legare, Quebec; A. E. Gadbois, J. Gadbois, Montreal. Saguenay Mills, $20,000, J. S. P. Morgan, W. G. M. Morgan, Sorel; E. A. D. Morgan, Montreal. Regal Automobile Corporation of Montreal, $50,000, Z. Corbeau, C. A. Pariseault, O. Lapierre. Roper, Clarke & Co., $40,000, R. O. McMurtry, F. G. Bush, G. R. Drennan. P. Lyall & Sons Construction Co., $3,250,000, E. Languedoc, E. R. Parkins, A. C. Calder. British Canadian Canners, $1,000,000, G. V. Cousins, E. G. T. Penny, P. F. Brown. Meadow-Sweet Cheese Manufacturing Co., $75,000, G. I. Tarte, A. J. Monat, G. Dutaud. Canadian Equipment Co., $50,000, L. deK. Stephens, J. W. Weldon, W. S. Johnson. Dorval Island Park Co., $200,000, M. Goldstein, Westmount; P. Beaullac, A. Lalonde, Montreal. Canuck Supply Company, $20,000, W. H. Robb, J. D. Robb, Westmount; E. E. Howard, Montreal. Concord Realty Co., $100,000, F. G. Bush, G. R. Drennan, M. J. O'Brien.

◆

NEWS ITEMS.

For the $4,500 5 per cent. 20-year rink debentures of Sintaluta, Sask., three offers were received. The award was made to Messrs. C. H. Burgess and Company, Toronto.

The capital stock of the Rio de Janeiro Tramway, Light and Power Company, Limited, has been increased from $40,000,000 to $50,000,000, the increase consisting of 100,000 shares of $100 each.

"Facts About Busy Amherst" is the title of a handsome booklet just issued by the publicity committee of the Amherst Board of Trade, and it gives a trite and comprehensive review of the industrial growth of Amherst, N.B., and furnishes a list of the many products turned out from the different workshops of the town.

Bredenbury, Sask., has issued an attractive booklet giving some interesting facts about the town. It emphasizes two points. (1) To the man who wishes to secure a profitable and permanent business location, (2) To the man who wishes to secure a fertile farm close to a good market, on exceptionally favorable terms and prices. The secretary Board of Trade, Bredenbury, Sask., will be pleased to answer any enquiries.

The life underwriters of Regina, Sask., recently held a successful meeting at which Mr. G. H. Barr delivered an address illustrating the principles underlying life insurance. He treated at some length and in a most interesting manner the agreement and contract represented by a policy, and explained some of the most vital clauses of the new Insurance Act. The great underlying principle of life insurance was not so much a business principle as an ethical one, and the laws and the judges must be depended upon to see that the underlying principle of trusteeship is accepted by the public.

Immigrant settlers to the number of 281,898 arrived in Canada during the first eight months of the current fiscal year, April 1 to Dec. 1. Of the number, 180,206 arrived at ocean ports, and 101,692 from the United States. These figures show an increase of 16 per cent. as compared with those for the corresponding months of the last fiscal year, which were 150,618 at ocean ports and 92,453 from the United States, making a total for the eight months, April 1 to Dec. 1, 1910, of 243,071 persons. During November, this year, there were 16,065 arrivals, 7,946 of them having been at ocean ports, and 8,119 from the States, as against 15,296 for November last year, 8,089 of whom were at ocean ports, and 7,207 from the United States.

RECENT FIRES.

Monetary Times' Weekly Register of Fire Losses and Insurance.

Arcola, Sask.—December 10th.—Court house damaged. Loss about $1,000. Origin unknown.

Port Hope, Ont.—December 17th.—Town hall damaged. Loss about $150. Origin, careless with matches.

Ninga, Man.—December 11th.—Union Bank building badly damaged. Loss about $2,000. Origin unknown.

Aylmer, Ont. — December 18th.—Cold storage plant of Messrs. Shody damaged. Loss about $400. Origin unknown.

Fort William, Ont.—December 15th.—Swift Canadian Company badly damaged. Loss about $25,000. Origin unknown.

Brandon, Man.—December 12th.—McFarlane's store, Rosser Avenue, destroyed. Loss about $2,500. Origin unknown.

Milburn, Sask.—December 12th.—Business section on Gladstone Street, destroyed. Loss about $50,000. Origin unknown.

St. John, N.B.—December 17th.—McLaughlin Building, Germaine Street, badly damaged. Loss about $20,000. Origin unknown.

Yarmouth, N.S.—December 20th.—Dry goods store of Messrs. M. P. Cook & Company, badly damaged. Loss unknown. Origin, decorations caught fire.

Moose Jaw, Sask.—December 17th.—Robin Hood Mills destroyed, also 100,000 bushels of grain, one man burned to death. Loss about $500,000. Origin unknown.

London, Ont.—December 17th.—Plant of Messrs. D. S. Perrin & Company, destroyed. Loss about $200,000. The insurance on the plant and stock amounts to $240,000, thirty-six Canadian, British and American companies being involved. Origin, supposed overheated oven.

Montreal, Que.—December 13th.—St. James' motor service garage destroyed, also 11 automobiles. Loss about $75,000. Origin unknown. December 16th.—Cigar factory of Messrs. Harris, Harkness & Company, 29 St. Peter Street, destroyed. Loss about $15,000. Origin, defective furnace.

Winnipeg, Man.—December 13th.—Penny Arcade, Main Street, damaged. Loss about $200. Origin, careless with matches. December 17th.—311-317 Donald Street, comprising four stores, destroyed. Origin unknown. Loss about $4,000. Old Baptist church, Manitoba Avenue, badly damaged. Loss about $1,000. Origin, overheated stove.

ADDITIONAL INFORMATION CONCERNING FIRES ALREADY REPORTED.

Montreal, Que.—The National Spinning Company sustained loss of $334 on stock and $172 on buildings. Insurance for $3,500, with Hartford, and London and Lancashire.

Fergus, Ont.—The loss sustained by the Canadian Cereal & Milling Company, Limited, was $25,000 on buildings and plant, and $5,000 on stock.

Halifax, N.S.—Mr. Festus Marriott sustained loss of $1,800 on stock and $600 on buildings. Buildings insured with Eastern Trust Company. The total losses by the fire were as follows:— Mr. F. Marriott, $1,800; Dr. MacDonald, $1,000; Dr. Finn, $475; Dr. Farrell, $700; Dr. Ross, $400; Dr. MacKay, $400; Dr. Almon, $300; J. A. Hart, $300; F. W. Fraser, $55; Canadian General Electric Company, $300; Banks and Williams, $450. Eastern Coach Company, $250; R. E. Finn, $450.

Owen Sound, Ont.—November 26th.—Residence of Mr. Arch. Minard. Loss on building $100, on contents $125. Insurance on building, none. Insurance on contents, $350, in Merchants. Cause of fire, lamp exploded. This loss was reported at $1,800, which is wrong, as it was a frame house, 40 years old, and the whole contents were not worth $150, although the adjuster allowed $124 for loss. December 1st.—Dry kilns (4) of the Keenan Woodenware Company. Loss on buildings and contents estimated at $15,000. Loss fully covered by insurance in several companies, which covers the whole plant. Origin, supposed to be incendiarism, but it may have originated from steam pipes. The losses through the burning of the Canadian Pacific Railway elevators are as follows:—British-American, $5,000; Employers' Liability, $5,000; German-American, $5,000; Hartford, $3,000; London & Lancashire, $6,500, National of Pittsburgh, $5,000; New York Underwriter's Agency, $10,000; Royal Exchange, $5,000; Springfield, $5,000 Western, $5,000. Against the grain loss the insurance is distributed as follows:—Employers' Liability, $5,000; Royal Exchange, $5,000; Hartford, $10,000; German-American, $5,000 Springfield, $5,000. Messrs. Keenan Woodenware Company's loss was $3,725 on stock and $9,184 on buildings, etc. Blanket policy with the following companies:—Brandon, blanket policy, loss payable, $653.68; Continental, two policies, $163.42, $245.13; Crown, $817.10; Dominion, $817.10; Drapers, $817.10; Equity, $1,225.65; Independent, $326.84; London Mutual, $980.52; Lumber Underwriters, $817.10; Monarch, $245.20; Omnium, $2,451.20; Rimouski, $2,451.20; Western Canada, $81.70; York, $817.10; total, $12,910.04.

THE BANK OF OTTAWA

THIRTY-SEVENTH ANNUAL MEETING

The thirty-seventh Annual Meeting of the Shareholders of the Bank of Ottawa was held on Wednesday, the 20th day of December, 1911, the Vice-President, the Hon. George Bryson, in the chair.

Report of the Directors.

The directors beg to present the Thirty-seventh Annual Report, showing the result of the Bank's business for the year ended 30th ultimo.

Balance at credit of Profit and Loss Account on 30th November, 1910, was	$117,938.85	
Net profits for the year ended 30th November, 1911, after deducting expenses of management, and making necessary provision for interest due to depositors, unearned interest on current loans and for all bad and doubtful debts and contingencies	595,228.59	
		$713,167.44
Appropriated as follows:—		
Dividend No. 78, Two and three-quarters per cent., paid 1st March, 1911	$ 96,250.00	
Dividend No. 79, Two and three-quarters per cent., paid 1st June, 1911	96,250.00	
Dividend No. 80, Two and three-quarters per cent., paid 1st Sept., 1911	96,250.00	
Dividend No. 81, Two and three-quarters per cent., payable 1st Dec., 1911	96,250.00	
Applied in reduction of Bank Premises and Furniture	100,000.00	
Transferred to Officers' Pension Fund	10,000.00	
Carried to Rest Account	100,000.00	
		$595,000.00
Balance carried forward at credit of Profit and Loss Account		$118,167.44
The Rest Account on 30th November, 1910, was		$3,900,000.00
Transferred from Profit and Loss Account		100,000.00
		$4,000,000.00

Your Directors have pleasure in reporting that, as will be seen from the increased figures in the Balance Sheet, and in the Profit and Loss Statement, the Bank has shared substantially in the growth which has characterized the business of the country during the past year.

Branches have been opened since the last Annual Meeting at Eastview, Ottawa South, Ottawa East, Avonlea, Sask., Star City, Sask., Grenville, Que., Sudbury, Ont., Timmins, Ont., and St. James, Winnipeg, and it is the intention of the Directors to open additional offices in the near future in the Westerly and South-westerly parts of the City of Ottawa, and in Westboro.

Premises for the use of the Bank have been secured at Fourth Avenue, Ottawa, Fairmount Avenue, Montreal, Virden, Man., and Kinistino, Sask. Your Directors have also purchased the premises on Sparks Street immediately behind the present Head Office Building—for the purpose of enlarging the present Head Office Building.

The usual inspections have been made of the Head Office and Branches, and your Directors have thought it advisable to anticipate the requirements of the proposed amendments to the Bank Act (a draft revision of which was made public some months ago), by having an independent audit made prior to this meeting, by a well-known and highly regarded firm of Chartered Accountants, whose certificate will be found appended to the General Statement of Assets and Liabilities.

The Directors desire to express their appreciation of the manner in which the Officers of the Bank have devoted themselves to the various duties assigned to them during the year.

GEORGE BRYSON,
Vice-President.

General Statement of Liabilities and Assets

AS ON 30th NOVEMBER

LIABILITIES

GEO. BUkN, General Manager.

We have examined the Books and Accounts of the Bank of Ottawa, at its Head Office and its four principal Branches, and have been duly furnished with certified returns from the remaining Branches, and with all information and explanations required by us. The Bank's Investments and the Securities and Cash on hand at the Branches visited were verified by us as at the close of business, November 30, 1911, and were found to be in accordance with the Books. And we certify that the foregoing General Statement of Assets and Liabilities as at November 30, 1911, is in agreement with the Books, and is in our opinion properly drawn up so as to exhibit a true and correct view of the state of the Bank's affairs according to the best of our information and the explanations given to us.

PRICE, WATERHOUSE & Co.,
Chartered Accountants.

REAL ESTATE SPECULATION.

Correspondent Protests Against Its Activity and Refers to Deliberate Misrepresentation of Facts.

Editor, Monetary Times:

Sir,—I am aware that a considerable proportion of the business carried on in so-called town and city subdivisions in the west is but little if any removed from common swindling. "Wildcat" real estate propositions are being offered by parties with a desire to get rich quick by means of glowing advertising which in many cases is gross and deliberate misrepresentation of the facts. This does not apply to any one city particularly.

Generally speaking this advertising is not done in local publications, but is intended to appeal to people too far away to know the facts, and only occasionally comes to the attention of the people on the spot. The promoters realize that it would be waste of money advertising to people familiar with the situation.

Building Lots and Cabbages.

It is a difficult matter to do anything to check the wild orgy of speculation in so-called city lots. If a man choses to buy a farm three or four miles from the nearest point at which there is any demand for lots for actual building purposes, have it laid out in squares 33 x 120 feet, and offer these little squares to the public as building lots, each at the price he paid per acre a few weeks ago, nothing can be done to stop the practice so long as the public are prepared to hand out money for them. But thinking men realize that this mad energy expended in putting on the market subdivision after subdivision, long after all possible demand for legitimate purposes for years to come has been amply provided for, must eventually result in disaster to the whole country. The "ultimate holder" must eventually be reached.

Not much sympathy will be wasted on the ultimate holder. But this country is in need of vast amounts of outside capital. The richness of our resources demands that money must be poured into the country for many years to come. Money must be borrowed by the farmer to improve his farm or to buy cattle to stock it; it must be borrowed by owners of vacant city property to erect much needed houses and places of business; it is needed to promote various industrial enterprises designed to utilize our rich natural resources. We cannot stand still. We must retain the confidence of the conservative investor in Great Britain and Europe. If he loses confidence nothing can save us from a financial panic and period of business depression compared with which the slight check experienced in 1907 would be dimmed into insignificance. Development of the west would be retarded for years.

Position of Conservative Investor.

It has been said that the conservative investor referred to is not interested in and is not affected by the subdivisions; perhaps not. But suppose there are a hundred thousand confiding investors, largely servant girls, school teachers, widows and family men of small means, scattered over Eastern Canada, the United States and Great Britain who find that they have been swindled, and that their valuable building lots are unsaleable, and have an intrinsic value based on their ability to grow cabbages and potatoes. Will not these people decry everything connected with Western Canada, tell everybody that they have been swindled, write letters to the papers, and do many things to destroy confidence in the wonderful resources of the West? How long will it take this want of confidence to communicate itself to the conservative investor, whose money we must have to develop our resources?

[This letter is commented upon in the editorial columns.—Editor, Monetary Times.]

◆

Three Toronto bond firms bid for the Claresholm, Alta., $8,500 5 per cent. 20-year waterworks debentures, which were awarded to the Dominion Securities Corporation, as previously noted.

A license for the business of life insurance, has been granted to the Gresham Life Assurance Society, Limited. The chief agency of the company in Canada is at Montreal, and Arch. R. Howell has been appointed chief agent.

When Messrs. Joseph Wilgar, J. K. Brodie, E. M. Carroll, Charles E. Ring and Orson A. Miller, representatives of the Crown Fire Insurance Company, and the Insurance Brokerage and Contracting Company, of Toronto, in the Police Court charged with conspiracy and theft, Crown Attorney Corley announced that the charge against Messrs. Wilgar, Brodie and Carroll of conspiring to obtain a charter from the Superintendent of Insurance was withdrawn, the Crown Attorney explaining that after investigating the charge he could not find that there had been any attempt made to deceive. The case against Messrs. Ring, Carroll and Miller of the Insurance Brokerage and Contractors' Company, charged with conspiring to obtain $500 from Phippen Bros., lumber merchants, and others, was then called. The charge against Miller was withdrawn, because he was merely an agent. The case against the other men was adjourned.

For the Wilkie, Sask., $27,500 5 per cent. 15 and 30 year debentures none of the bids was accepted, the Council deciding to wait until a more favorable time.

CANADIAN PACIFIC RIGHTS.

They Have Played an Important Part in Fixing the Market Value of the Railroad's Stock.

Subscription rights to the $18,000,000 Canadian Pacific new common stock possess an arithmetic value of $8.332. They are quoted at a little less, around 8, on the Exchange. These new subscription rights add one more item to the list of subscription privileges accorded stockholders during the past twelve years.

During a period of ten years, from 1902 to the present time, the Wall Street Journal reminds us that Canadian Pacific stockholders have been offered subscription privileges on which the average market value in each respective year was as follows:

Year	Rights	Dividends	Rights & Dividends	Yield on Av. Price
1911	8.33	10.0%	18.33	7.57%
1910	....	9.5%	9.50	4.29%
1909	9.56	7.0%	16.56	9.36%
1908	7.69	7.0%	14.69	9.17%
1907	....	7.0%	7.00	4.21%
1906	11.69	6.0%	17.68	9.94%
1905	....	6.0%	6.00	3.89%
1904	5.62	6.0%	11,62	9.45%
1903	....	5.5%	5.50	4.33%
1902	4.75	5.0%	9.75	7.46%
Av. 10 years	4.76	6.9%	11.66	6.96%

Some Interesting Deductions.

On the basis of the average prices of these rights and the dividends paid over the indicated period, Canadian Pacific has been an 11.66% stock. In cash dividends above, the stock shows an average yield of 4.31% on an average price of 160, a figure which compares with the yield on average price, for the same period, of two other stocks at present on a 10% dividend basis, viz., Union Pacific, 5.44%, and Lehigh Valley, 6.50%. As was to have been expected, the figures show that rights have played a much more important part in fixing the market valuation of Canadian Pacific than of the other two. On the average price of 160 cash dividends and rights together have yielded approximately 7.28%.

Comparisons With Other Roads.

Assuming that Canadian Pacific will do as well in the next ten years in the matter of rights as in the past ten years, and in addition will continue to pay 10% regularly in cash dividends, on par, the stock will return 6.30% on the present market price, ex rights. This return would compare with the present yield on such representative stocks as Union Pacific, 5.74%; Southern Pacific, 5.33%; Atchison, 5.63%; Northern Pacific, 5.89%; Great Northern, 5.42%. These figures, however, take no account of the probability that on some of the stocks mentioned subscription rights will be given. On the other hand they do reflect the more settled conditions, particularly as to rate regulation and similar questions, into which the American roads have passed.

◆

MERCHANTS' BANK OF CANADA.

A gratifying statement has been issued by The Merchants Bank of Canada, showing that the profits for the year are equal to 16.66 per cent. on the capital. The net profits amounted to $1,179,581, which with $99,297 carried forward from last year, totals $1,278,878 at the credit of profit and loss account. This was disposed of as follows: Dividends, $570,000; transferred to reserve fund, $500,000; written off bank premises, $100,000; officers' pension fund, $50,000; balance carried forward, $58,878.18. The assets amount to $81,928,961, while the liabilities to the public are $70,470,083, and to the stockholders, $11,458,878. Deposits aggregate $63,494,580, and current loans and discounts $47,411,049. Bank premises and furniture are valued at $1,917,359.

The following figures are taken from the bank annual statements of 1910 and 1911:

	1910.	1911.
Rest	4,900,000	5,400,000
Circulation	5,183,580	6,351,230
Deposits at call	21,457,952	25.897,925
Deposits subject to notice	32,638,323	36,239,679
Total liabilities to public	60,600,761	70,470,083
Specie and legals	5,299,137	7,808,107
Call loans in Canada	4,745,473	3,854,845
Call loans abroad	8,135,770	9,091,613
Total quick assets	28,214,039	31,863,472
Current loans and discounts	41,196,937	47,411,049
Total assets	71,600,059	81,928,961

The statement for the past year is again a strong one and reflects the further satisfactory progress made by this strong institution.

◆

Bank Internationale du Canada has opened a branch at 2145 Ontario St. E., Montreal, to be known as "Hochelaga Branch."

NEW BRUNSWICK.

Steamship Service Between St. John and the West Indies Will Be Inaugurated—Trade With Cuba.

(Staff Correspondence.)

St. John, New Brunswick,
19th December.

The early part of the winter in Southern New Brunswick has been marked by mild weather, with little or no sleighing. In the interior or northern portions there has been good sleighing for some weeks. The general condition of trade, apart from the lumber industry is good and there is every indication of a large Christmas business. The lumber cut is being greatly reduced all over the province this winter. If, as is expected, the British market is fairly well cleared in the spring there will be a large enough cut with what was held over this year to make a brisk season's trade.

The St. John Board of Trade at its annual meeting passed resolutions urging the provincial government to adopt a more comprehensive and aggressive immigration policy, and urging that the Federal Government be asked to give aid and to co-operate, and that the great transportation companies be asked to co-operate, in order that New Brunswick may receive a share of the immigration that is now coming to Canada.

Steamship Service to West Indies.

The Canada West India Company, Limited, with an authorized capital stock of one million dollars and headquarters at St. John, has received its charter. The company was organized by Dr. Kirkpatrick, late Canadian Trade Commissioner to Cuba, and it purposes to develop trade between Canada and Cuba, the Bahamas and British West Indies. The company is now negotiating for two fast steamers, equipped with cold storage, to provide a service between maritime province ports and ports on the islands.

An American company is erecting at St. Stephen a branch fertilizer factory with a capacity of ten thousand tons, which can be increased to twenty thousand tons. The company will have its own cooperage factory. It will have both railway and water communication for receiving raw material and distributing products.

The St. John Railway Company is now fitting up a two story brick building on Wentworth Street, where it will hereafter build its own street cars. This is a new industry for St. John.

The fact that an English gentleman has purchased 100 acres of land in a suburb of West St. John and proposes to divide it up into building lots is an illustration of the more general interest in St. John real estate, which is steadily increasing in value.

Trade With Cuba Increasing.

A Cuban merchant, who was recently in St. John, stated that while trade between New Brunswick and Cuba had been growing during the last few years it should grow more rapidly, as there were new avenues of entirely new trade which could be opened.

The Pejepscot Lumber Co., an American concern which owns valuable lumber property in St. John County, and has a mill at Salmon River, will erect a mill next spring at Martin Head. The trees that are too small to be converted into sawn lumber will be made into pulp wood and towed in barges to the company's pulp mills at Pejepscot, Me.

Sir William MacKenzie has made a large investment in the oil shale deposits in Albert County, and great developments are being predicted.—W. E. A.

◆

BANK OF CALGARY SCHEME DROPPED.

Although the project to form a Bank of Calgary is still being considered by some business men in that city, it is stated that for the most part, those originally interested have come to the conclusion that the time is not yet ripe to launch such an institution, and it is probable that the formation of the bank will be postponed for a considerable time.

◆

COBALT ORE SHIPMENTS.

The following are the ore shipments, in pounds from Cobalt Station for the week ended December 15th: Cobalt Townsite, 128,835; La Rose, 128,437; Coniagas, 63,254; Hargraves, 43,780; Hudson Bay, 64,120; Buffalo, 58,961; Cobalt Lake, 64,800; McKinley-Darragh, 65,372; Drummond, 60,000; Beaver, 65,080; total, 742,639 pounds, or 371 tons. The total shipments since January 1st are now 48,975,773 pounds, or 24,487 tons.

In 1904 the camp produced 158 tons, valued at $316,217; in 1905, 2,144 tons, valued at $1,437,196; in 1906, 5,129 tons, valued at $3,900,000; in 1907, 14,040 tons; in 1908, 25,700 tons; in 1909, 29,751 tons; in 1910, 34,041 tons.

LLOYDS BANK OF CANADA.

Some misapprehension has apparently arisen with regard to the connection of Lloyds Bank, Limited, with Canadian matters. At an extraordinary general meeting of the bank held in Birmingham in June, Mr. R. B. Vassar-Smith, chairman of the directors, stated that during the last two years proposals had been made that the bank should open branches, or auxiliary institutions, in various parts of the world—Canada, New York, Paris, Hamburg—or acquire interests in companies operating in those places. The restrictions of the bank's memorandum of association prevented this course, and the meeting considered a new memorandum which will allow the institution to open branches as desired.

The chairman noted that some papers had expressed the opinion that money deposited with English banks should not be used for out-of-England business but that capital should be specially raised for the purpose. If it became necessary in the extension of business, said the chairman, to raise fresh capital, the shareholders would be asked for it, but at the moment it was not necessary. The bank had an opportunity of acquiring a business on the Continent and that was the only thing at the moment in the minds of the directors. He alluded to the matter because of erroneous statements which had appeared in the press to the effect that the bank was about to open branches all over the world.

The memorandum of association as altered has been approved by the court. Under the powers contained therein a company entitled Lloyds Bank (France), Limited, will be formed for the purpose of taking over the business of Messrs. Armstrong & Company of Paris and Havre.

◆

NEW COMPANIES.

The number of charters, including supplementary charters, issued under the Dominion Companies Act during the fiscal year 1910-11 was 544 as compared with 493 in the last previous year. The total capitalization of new companies was $458,415,800, and the capitalization of existing companies was increased by $24,715,600, the whole amounting to $483,131,400, as compared with $348,377,800 in 1909-10.

The following table gives the figures for several years:—

Year.	No. of New Companies.	Total Capitalization of New Companies.	Increased Capital of Existing Companies.	Grand Total.
1900	53	$ 9,558,900	$ 3,351,000	$ 12,909,900
1901	55	7,662,552	3,420,000	11,082,552
1902	126	51,182,850	5,055,000	56,237,850
1903	187	83,405,340	5,854,520	89,259,860
1904	206	80,597,752	3,366,000	83,963,752
1905	293	99,910,900	9,685,000	109,595,900
1906	374	180,173,075	32,403,000	212,576,075
1907	378	132,686,300	19,091,900	151,778,200

◆

The Amalgamated Asbestos Corporation have sent a circular letter to bondholders asking them to deposit their bonds with the National Trust Company. The circular informs bondholders that when the reorganization plan is completed, it will be submitted to the bondholders and nothing will be done until approved of by a majority of holders. It is promised that no scheme of reorganization will be put through unless three-quarters of the outstanding bondholders assent to the plan.

The Canadian Cereal & Milling Company is a subsidiary company of the International Milling Company of Canada, the latter holding over 85 per cent. of its shares. It is said that after paying the fixed charges for the fifteen months ended August 31st, 1911, of $151,000, the deficit was $168,000, but negotiations are now in progress with a view to putting the company in a stronger position. The International Milling Company's net profits for 1910 were over $300,000, and for last year, after making allowances, were over $130,000. They also had a reserve at August 31st last of $175,000.

LIFE INSURANCE IN FORCE.

Forty-Three Active Companies Did Business Last Year —Death Rate Figures.

The business of life insurance in Canada in 1910, the latest year for which official statistics are available, was transacted by forty-three active companies, of which 25 are Canadian, 7 British and 11 American. The total amount of policies in Canada during that year was $152,762,520, which is greater than the amount taken in 1909 by $21,023,442. The Canadian companies show an increase in 1910 of $11,240,701, whilst in 1909 they had an increase of $10,092,394; the British companies have an increase of $240,332, whilst in 1909 they had an increase of $540,473; and the American companies have an increase of $9,542,409, whilst in 1909 they had an increase of $21,210,005, the total increase in 1910 being $21,023,442, as above stated. The respective amounts effected are:—

Canadian Companies	$90,362,678
British companies	4,170,562
American companies	58,229,280

So that the amount taken by native companies exceeds that taken by British and American together by about $28,000,000.

Life Insurance in Force.

The total amount of insurance in force in Canada at the date of the statements was $856,113,059, which shows the large increase of $75,756,079 over that of the previous year, being distributed as follows:—

	Amount in force.	Increase.
Canadian companies	$565,669,110	$50,251,673
British companies	47,816,775	831,583
American companies	242,629,174	24,672,823
Total	$856,115,059	$75,756,079

	Number of Lives exposed to Risk.	Number of Deaths.	1910. Death rate.	1909. Death rate.	1908. Death rate.	1907. Death rate.	1906. Death rate.	1905. Death rate.
Active companies, ordinary	470,129	3,681	7.830	8.231	8.375	8.617	8.232	8.568
Active companies, industrial	633,536	7,958	12.561	12.086	11.935	12.054	12.044	12.406
Assessment and fraternal societies	131,507	1,171	8.904	9.089	8.683	8.946	8.557	7.321
Non-active and retired companies	2,091	82	39.216	36.766	52.643	46.440	43.884	39.128
Total	1,237,263	12,892	10.419	10.260	10.154	10.239	9.985	9.863

Figures of Total Business.

The following figures give an idea of the progress of the total business during the past thirty-six years as regards the amount of insurance effected.

Year	Canadian Companies	British Companies	American Companies	Total
1875	$ 5,077,601	$1,689,833	$ 8,306,824	$ 15,074,258
1895	27,909,672	3,337,638	13,093,888	44,341,198
1910	90,362,678	4,170,562	58,229,280	152,762,520

The following table shows the net amount of life insurance in Canada in the same three years:

Year	Canadian Companies	British Companies	American Companies	Total
1875	$21,957,296	$19,455,607	$43,596,361	$ 85,009,264
1895	188,326,057	34,341,172	96,590,352	319,257,581
1910	565,667,110	47,816,775	242,629,174	856,113,059

Amount of Insurance Terminated.

The amount of insurance terminated in natural course, namely, by death, maturity or expiry in 1910, was $13,570,019, which is greater by $2,134,958 than the corresponding amount in the previous year; and the amount terminated by surrender and lapse was $72,700,096, being greater than in the previous year by $9,919,490.

Relatively to the amounts at risk the amounts so terminated are somewhat in excess of those of the previous year, giving for every $1,000 of current risk $15.85 terminated in natural course and $84.92 by surrender and lapse, making a total of $100.77. In the year 1909 these rates were $14.56 and $79.94, respectively, making a total of $94.50, thus giving a difference of $6.27 for each $1,000 at risk.

The following table exhibits tho rates for the last six years:—

Terminated Out of Each $1,000 Current Risk.

	Naturally						Surrender and Lapse					
	1905.	1906.	1907.	1908.	1909.	1910.	1905.	1906.	1907.	1908.	1909.	1910.
Canadian companies	$14.20	$12.49	$12.60	$12.23	$12.40.	$13.22	$66.96	$75.70	$72.36	$75.42	$72.98	$72.44
British companies	28.08	28.42	19.57	29.26	27.98	27.83	33.25	37.05	43.61	53.85	45.20	44.71
American companies	18.10	17.42	20.67	18.31	17.56	19.62	114.16	111.47	89.42	97.66	109.29	121.94

The total termination amounts to about 56.47 per cent. of the amount of new policies. The actual amounts of termination were distributed as follows:—

	Naturally.	By Surrender and Lapse.
Canadian companies	$7,479,800	$40,975,534
British companies	1,330,696	2,138,124
American companies	4,759,523	29,586,438
Total	$13,570,019	$72,700,096

Omitting the industrial policies of the London Life, the Union Life, the Metropolitan and the Prudential, the thrift policies of the Sun Life and the monthly policies of the Excelsior, the following table gives the number and amounts of policies in Canada and the average amount of a policy in force at the date of the statements:—

	Number.	Amount.	Average amount of a Policy.
Canadian companies	345,107	$541,070,548	$1,568
British companies	23,318	47,816,775	2,051
American companies	117,241	185,041,995	1,578
Total	485,666	$773,929,318	$1,594

The average amount of new policies is: for Canadian companies, $1,740; for British companies, $2,347; and for American companies, $1,440. The corresponding amounts last year were $1,656, $2,092 and $1,467.

As to Death Rates.

In the calculation of the death rate in 1910, as in previous years, the mean number of policies in force and the number of policies terminated by death during the year have been admitted as approximations to the mean number of lives exposed to risk and the number of deaths during the year, respectively. It is believed that the results arrived at represent the actual mortality per 1000 among insured lives in Canada as accurately as can be gathered from the returns of the companies.

◆

PROMOTION OF LIFE INSURANCE COMPANIES.

In the annual report of the Dominion Superintendent of Insurance, Mr. W. Fitzgerald, attention is drawn to an important change in the law regarding the promotion and organization of insurance companies is contained in Section 184 of the Insurance Act, 1910, which is as follows:—

"The entire cost of procuring the incorporation and subscriptions for stock shall be charged directly to the account of the shareholders, and the amount thereof fixed by percentage on the capital stock or fixed in bulk and shown on the face of the form of the stock subscription contract, and shall not form a charge upon or be paid out of the paid-up capital, nor from the insurance funds, nor be in any way chargeable, directly or indirectly, against the policy-holders."

The effect of this section is to render it necessary to sell the stock at a premium sufficient at least to cover the commission on the sale thereof and the cost of procuring the incorporation, so that the company can commence business without an impairment of capital. The total premium moreover ought not to be expended in procuring subscription, but a portion kept in reserve for purposes of organization.

In the past it has been too frequently the custom of promoters to attempt to make a harvest for themselves or their friends from the extravagant commissions allowed to those who procure the subscriptions. The Dominion Superintendent of Insurance submits that the habit of peddling shares in small lots at what under such conditions can scarcely be otherwise than extravagant commissions, is not in the interest of either shareholders or policy-holders of the company.

◆

Three Toronto bond houses bid for the Norwich, Ont., $22,400 5 per cent. 20 and 30-year debentures, which were awarded to Messrs. C. H. Burgess & Company.

THE MERCHANTS BANK OF CANADA

PROCEEDINGS AT THE FORTY-EIGHTH ANNUAL MEETING OF SHAREHOLDERS

The forty-eighth annual meeting of the Shareholders of the Merchants Bank of Canada was held on Wednesday, December 20th, 1911, at the head offices of the Bank. Among those present were the following Shareholders:—Sir H. Montagu Allan, and Messrs. Jonathan Hodgson, Thomas Long, Charles M. Hays, Alex. Barnet, K. W. Blackwell, Andrew A. Allan, C. C. Ballantyne, E. F. Hebden, E. Fiske, John Patterson, William Agnew, D. Kinghorn, A. Piddington, M. S. Foley, A. D. Fraser, C. J. Fleet, C. R. Black, H. B. Loucks, H. B. Yates, T. E. Merrett, A. Dingwall, W. Stanway, James Alexander, A. Haig Sims, and J. M. Kilbourn.

The President of the Bank, Sir Montagu Allan, was asked to take the chair, and appointed Mr. J. M. Kilbourn, the Secretary of the Bank, as Secretary. The Notice calling the meeting was read.

The minutes of the last annual meeting were presented and taken as read.

The President then read the annual report of the Directors, as follows:—

The Directors' Report.

The Report of the Directors was read as follows:—

It is with much pleasure the Board once more meet the Shareholders in Annual Meeting assembled. We have another favorable year to report. Our profits, after making full provision for all doubtful debts due to us, amount to the sum of $1,179,581.03. Notwithstanding the increase of the dividend to 10%, making the second increase in two years, we have again written $100,000 off the Bank Premises Account, added $50,000 to the Officers' Pension Fund, and placed $500,000 to our Reserve Fund, which now represents the important sum of 90% of the paid up capital, and carried forward $58,878.18 to next year's Profit and Loss Account. We trust our Shareholders will find this showing satisfactory.

All the branches of the Bank have been inspected during the year.

We have opened the following offices during the past twelve months:—Vancouver, B.C. (Cor. Granville and Hastings Streets); Coronation, Calgary (2nd Street East); Chauvin, Pincher Station and Edgerton, Alta.; Frobisher, Regina, and Moose Jaw, Sask.; Hartney, Winnipeg, Man. (Bannerman Avenue); and Wallaceburg, Ont. We have to report no offices closed during that period.

We have lost two Directors during the year—namely, Mr. Hugh A. Allan, who retired by reason of his now residing in Great Britain, and Mr. Charles F. Smith, who died in October last. Mr. Smith was a very regular attendant at meetings of the Board, where he aided deliberations by his wise counsels and sound judgment, and his demise is much regretted. The two vacancies on the Board were filled by the appointment of Mr. Andrew A. Allan and Mr. C. C. Ballantyne.

The Directors have much pleasure in testifying to the good work performed by the staff during the past twelve months.

All of which is respectfully submitted.

H. MONTAGU ALLAN, President.

The statement of the result of the business of the Bank for the year ending 30th November, 1911, showed:—

The net profits of the year, after payment of charges, rebate on discounts, interest on deposits, and making full provision for bad and doubtful debts, have amounted to ...		$1,179,581.03
The balance brought forward from 30th November, 1910, was		99,297.15
Making a total of		$1,278,878.18
This has been disposed of as follows:		
Dividend No. 94, at the rate of 9 per cent. per annum	$135,000.00	
Dividend No. 95, at the rate of 9 per cent. per annum	135,000.00	
Dividend No. 96, at the rate of 10 per cent. per annum	150,000.00

		$81,928,961.49

In moving the adoption of the Report, the President referred to the intention of the Directors to issue $1,000,000 new stock.

The General Manager spoke briefly regarding the business of the Bank, particularly in the Western Provinces, and paid a tribute to the devotion of the staff.

The following directors were elected.—Sir H. Montagu Allan, Mr. Jonathan Hodgson, Mr. Thomas Long, Mr. C. M. Hays, Mr. Alex. Barnet, Mr. F. Orr Lewis, Mr. K. W. Blackwell, Mr. Andrew A. Allan, Mr. C. C. Ballantyne.

Resolutions were passed expressing appreciation of the services of the Board of Directors, the General Manager and the staff, which were acknowledged by the President and the General Manager, and the meeting adjourned.

At a subsequent meeting of the Board of Directors, Sir H. Montagu Allan was re-elected President and Mr. Jonathan Hodgson Vice-President.

UNION BANK OF CANADA

Annual General Meeting

The Forty-Seventh Annual General Meeting of Shareholders of the Union Bank of Canada was held at the Banking House in Quebec, on Monday, December 18th, 1911.

There were present:—Hon. John Sharples, Wm. Price, R. T. Riley, E. J. Hale, W. Shaw, S. Barker, M.P.; E. E. A. DuVernet, K.C.; G. P. Reid, M. Bull, G. H. Thomson, Right Revd. John Grisdale, Stephen Haas, A. E. Scott, H. Veasey, Col. J. F. Turnbull, F. M. Duggan, John Shaw, A. Veasey, E. E. Code, H. E. Price, A. J. Price, Capt. W. H. Carter, T. C. Aylwin, John Hamilton, A. S. Jarvis, G. H. Balfour, H. B. Shaw, Lt.-Col. G. E. Allen Jones, R. Harcourt Smith, Achille Dussault, H. E. Dupre, N. G. Kirouac.

The President, the Hon. John Sharples, having taken the chair, Mr. H. Veasey was appointed to act as Secretary to the Meeting, and Messrs. John Shaw and A. E. Scott were appointed Scrutineers.

The Chairman read the Annual Report of the Directors as follows:—

The Directors beg to present to the Shareholders the following Statement of the result of business for the year ending November 30th, 1911, together with a Statement of the Assets and Liabilities of the Bank.

		$58,434,822.32

G. H. BALFOUR,
General Manager.

During the past year twenty-four branches and agencies of the bank have been opened in the following provinces: New Brunswick, 1; Quebec, 2; Ontario, 9; Saskatchewan, 5; Alberta, 2; British Columbia, 4; England, 1.

Two branches in Alberta and one branch in Ontario, which proved unproductive, have been closed. The total number of branches is now 242.

During the year the capital of the bank has been increased from $4,000,000 to $4,914,120. The premium arising from the disposal of new stock has been credited to the Rest Account.

The customary inspections of the head office and of all branches and agencies of the bank have been made.

JOHN SHARPLES,
President.

Quebec, December 18th, 1911.

Before moving the adoption of the report, the President addressed the meeting, giving the Shareholders further particulars as to the increase of paid-up capital by $914,120. Increase in number of Shareholders by 415, making a total of over 2,675. Mentioning specially the absorption of the United Empire Bank of Canada on April 1st, which added twenty branches in the richest portion of Ontario, where this Bank was previously unrepresented. He also spoke in regard to the proposed removal of the head office from Quebec to Winnipeg, as recommended by the Directors, after considering the matter for two years, and which was to be voted on by the Shareholders later. Mr. Sharples, commenting on the hearty support which he had at all times received from the Board of Directors and the Executive Officers of the Bank, stated that the condition of his health would not permit of his continuing to discharge the important duties of President of the Bank after its removal to Winnipeg.

Another important event had been the opening of a branch in London, England, which was undertaken after the most careful consideration of the Board, and the personal visit to London by the General Manager and the Assistant General Manager. Mr. F. W. Ashe, formerly Eastern Superintendent, was appointed Manager of this branch, and the results to date have exceeded expectations.

It was then moved by the Hon. John Sharples, and seconded by Mr. William Price, M.P., that the report of the Directors, now read, be adopted and printed for distribution amongst the Shareholders. Carried.

The General Manager addressed the meeting, referring particularly to the figures as shown by the balance sheet, and giving additional details as to the policy of the Bank in various matters of interest to the Shareholders, mentioning in particular the opening of twenty-four additional branches during the year, making a total of 242, as follows:—Nova Scotia, 1; New Brunswick, 1; Ontario, 76; Quebec, 7; Manitoba, 39; Saskatchewan, 67; Alberta, 39; British Columbia, 11; London, England, 1.

Mr. Balfour expressed his regret at the decision of the Hon. John Sharples to retire from his duties as President at a future date, and said that he was voicing the feeling of the Directors, Officials and Shareholders in expressing the hope that he would long be spared to exert that keen interest in the Institution which he has displayed during the past seventeen years as Director, Vice-president and President of the Bank.

After the adoption of the Report, Mr. R. T. Riley in a short address, stated that it was the wish of the Directors that when Mr. Sharples finds it necessary to retire from the Presidency of the Bank that he be tendered the position of Honorary President. He also spoke specially in reference to the Western Division in which there are now 155 Branches with a staff of 755.

Mr. Samuel Barker, of Hamilton, also addressed the meeting, congratulating the Shareholders on the Report presented to the meeting, thanking the President and Directors, the General Manager and other officers of the Bank for their efforts on its behalf, and expressing his approval of the proposed removal of the Head Office to Winnipeg.

At the request of the President, the Secretary then read the draft bill, now before the House of Commons for the purpose of amending the Bank's charter, and moving the Head Office of the Bank from Quebec to Winnipeg.

It was then moved by Mr. William Price, M.P., seconded by Lieut.-Col. J. F. Turnbull, and unanimously resolved that the action of the Directors in applying for the foregoing amendment to the Bank's charter be and hereby is approved.

Moved by Mr. R. T. Riley, seconded by Mr. E. E. A. Du-Vernet: "That the Meeting now proceed to the election of Directors for the ensuing year, and that the ballot box for the receipt of votes be kept open until a quarter past four o'clock, or until five minutes have elapsed without a vote being offered, during which time proceedings be suspended. Carried.

The Scrutineers appointed at the Meeting reported the following gentlemen duly elected as Directors for the ensuing year: Hon. John Sharples, Messrs. Wm. Price, E. J. Hale, Wm. Shaw, George H. Thomson, R. T. Riley, E. L. Drewry, F. E. Konaston, John Galt, W. R. Allen, M. Bull, Samuel Barker, M.P.; E. E. A. DuVernet, K.C.; George P. Reid and Stephen Haas.

At a subsequent meeting of the newly-elected Board, the Hon. John Sharples was elected President, and Mr. Wm. Price, Vice-President.

RAILROAD AND COMPANY EARNINGS.

The following are the railroad earnings for week ended December 7th:—

	1910	1911	Increase or decrease
C. P. R.	$1,973,000	$2,478,000	+ $505,000
G. T. R.	838,345	892,957	+ 54,612
C. N. R.	339,200	461,600	+ 122,400
T. & N. O.	28,520	35,639	+ 7,172
Halifax Electric	3,598	3,891	+ 292

The following are the railroad earnings for week ended December 7th:—

	1910	1911	Increase or decrease
C. P. R.	$1,899,000	$2,522,000	+ $623,000
G. T. R.	825,943	929,821	+ 103,878
C. N. R.	281,900	423,800	+ 141,900
T. & N. O.	28,512	39,681	+ 11,168
Halifax Electric	3,577	4,142	+ 564

La Rose in November yielded 337,500 ounces of silver of a market value of $190,000. The net profit for the month is placed at $122,000, which means that after providing for its dividend requirements for November the company has $72,000 to add to its surplus.

The annual meeting of the Coniagas Mines and the Coniagas Reduction Company were held at St. Catharines, Ont., recently, Major R. W. Leonard, Chairman of the National Transcontinental Commission, being re-elected president of both concerns. Mr. Alex. Longwell is vice-president of the mine company, and Mr. Welland D. Woodruff occupies a similar position in the reduction company. Other directors of the former are: Messrs. R. P. Rogers, Cobalt; F. J. Bishop, Brantford; Welland D. Woodruff, while those elected for the smelter company are Messrs. Alex. Longwell, F. J. Bishop, and R. L. Peak, of Thorold. The mine company's statement shows total assets in ore and money as $920,002. During the year 169 tons of ore were crushed daily, and 3,789,274 ounces were shipped, at the remarkably low cost of 8.8 cents per ounce, as against 13.3 cents in the previous years. The underground workings of the company now cover twenty-five of the forty acres owned, and the engineers' report, which is based on careful surveys and sampling, shows ore in sight containing 12,516,000 ounces of silver; enough to keep the mine working at the present rate of production for over three years. The smelter at Thorold treated 2.869 tons of ore, and shipped 5,642,803 troy ounces of fine silver during the year. Each of the 120 employes was given a cheque for four per cent. of his wages earned during the previous year, amounting in all to $2,028.

EASTERN TOWNSHIPS BANK ABSORBED.

The directors of the Eastern Townships Bank, with head office at Sherbrooke, Que., have entered into an agreement with the Canadian Bank of Commerce for the sale of the business and assets of the Eastern Townships Bank to the Canadian Bank of Commerce. Each $100 share of Eastern Townships Bank stock will be exchanged for two shares (par value $50 each) of stock of the Canadian Bank of Commerce.

The Eastern Townships Bank commenced business on September 20th, 1859. Its authorized capital is $5,000,000, of which $3,000,000 is subscribed and $3,000,000 paid up. The authorized capital of the Bank of Commerce is $15,000,000, of which $11,683,600 is subscribed and $11,486,920 is paid up. The former bank has 101 branches and the latter 243.

The negotiations leading to the amalgamation were well guarded, with the result that the announcement of the agreement came as a surprise. In 1860 the deposits of the Eastern Townships Bank were $6,548; now they exceed fifteen millions. The paid up capital was then $101,400; it is now three millions. The Eastern Townships Bank was the pioneer financial institution of the Eastern Townships. The first officers of the bank were: B. Pomeroy, president; Chas. Brooks, vice-president; Wm. S. Foster, cashier; directors: B. Pomeroy, Compton; R. W. Hencker, Sherbrooke; Chas. Brooks, Lennoxville; G. K. Foster, Richmond; H. L. Robinson Waterloo; A. A. Adams, Coaticook; John Henry Pope, Cookshire.

THE BANK OF OTTAWA REPORT.

A very satisfactory annual statement has been issued by the Bank of Ottawa, and it is an evidence of the prosperity through which many of the chartered banks of Canada have just passed. The profits for the year amounted to $595,228, which with $117,938, carried forward from last year, showed a balance at the credit of profit and loss account of $713,167. This amount was distributed as follows:—Dividends, $385,000; written off bank premises, $100,000; officers' pension fund, $10,000; transferred to rest account, $100,000, leaving a balance carried forward of $118,167.

Deposits total $34,864,146, an increase of $2,445,701 over the corresponding period last year. Domestic current loans amount to $31,582,328 and call loans are $1,068,340. The value of bank premises is placed at $1,247.786. The assets aggregate $46,458,537, and liabilities to the public, $38,640,306. The reserve fund is now $500,000 in excess of the paid up capital of the bank, which is gratifying.

BANK STOCK ISSUES.

Several Institutions Likely to Market New Stock—Bond and Investment Notes.

Several bank stock issues are being or are about to be made. The Atlantic Bond Company is offering for public subscription $100,000 of the Bank of New Brunswick stock. The authorized capital of the bank is $1,000,000, of which $907,900 is subscribed and $907,900 paid up.

The Bank of Hochelaga may increase its capital shortly, issuing $1,000,000 of new stock around 125 in proportions of 1 to 4. The authorized capital of the bank is $4,000,000, of which $2,500,000 is subscribed and $2,500,000 paid up.

The Merchants Bank will issue $1,000,000 of new stock. This was authorized some months ago. The stock will be offered at 175 or 180 in proportion of 1 to 6. The authorized capital of the bank is $10,000,000, of which $6,000,000 is subscribed and $6,000,000 paid up.

Increase of Bank Capital.

The Monetary Times has gathered statistics showing the actual increase of bank capital during the past ten years. The following is a summary:—

Bank.	Capital issued since 1900.
Commerce	$4,000,000
Dominion	2,500,000
Eastern Townships	1,500,000
Home	1,500,000
The Molsons	1,500,000
Montreal	2,400,000
Nova Scotia	2,140,000
Ottawa	1,500,000
Royal	4,700,000
Standard	1,000,000
Toronto	3,000,000
Traders	4,000,000
Union	3,600,000
Hamilton	1,000,000
Northern Crown	2,207,500
Imperial	3,500,000
New Brunswick	726,700
Nationale	800,000
Hochelaga	1,250,000
Provinciale	1,000,000
Total	$43,824,200

Absorption of Bond Issues.

Most of the underwritings which have taken place in Canada during the past few years seem to have been pretty well cleared up, say Messrs. Thornton, Davidson & Co. Promotors now arrange to have the different issues underwritten in such a manner that even though the public should not come forward when a public issue is being made, the flotation will be in no particular danger. Until the securities are absorbed by the public, however, they are very apt to be found in the strong boxes of the trust companies, so that the situation depends very largely upon how the institutions which advanced the money feel about the matter. As one after another of the flotations of a few years ago experience the benefits of superior organization and of the different economics, and these are reflected in their earnings, the public takes cognizance of the situation and relieves the financial interests of their burden, thus permitting them to grapple with the new flotations.

Mr. R. C. Matthews, of Messrs. R. C. Matthews & Company, states that the Matthews-Laing issue was in every respect a success, the purchasing by large financial institutions being the feature.

Municipal Financing Notes.

The finances of Berlin, Ont., for the year show a surplus of $506. Receipts from taxes amounted to $193,930, and arrears of collectable taxes amount to only $3,336. The amount paid in taxes for public schools was $41,208, separate schools, $8,069, and Collegiate Institutes, $9.831. The sum of $915 was paid for charity during the year. The town erected an isolation hospital, costing $7,500, and a sewage pumping station at a cost of $8,300. The volume of business transacted by the town was shown by the sum of $1,015,225 passing through the treasurer's books.

The advance report of the revenue and expenditure of Brantford, Ont., for 1911, as prepared by Mr. A. K. Bunnell, treasurer shows that the revenue amounts to $395,770, and the expenditure $394,601, leaving a balance to apply on outstandings $1,169.

In the expenditure, provision has been made for all sinkings funds, interest on debt, appropriations for the various public boards and institutions, salaries, and all other ascertained sums, but outstanding bills and the Board of Works pay roll since December 2nd remains to be provided for.

◆

Rates for business telephones in Vancouver and Victoria are to be increased on March 1st from $4 net to $5. The gross amount is $1 more. There will be no change in the charge for residence telephones. The increase follows an award by an arbitration board of twenty-five cents per day in the wages of the linemen of the company, to go in force on January 1st all over British Columbia.

BOND TENDERS INVITED.

Monetary Times' Weekly Register of Information for Bond Dealers and Municipal Officials.

◆

The Bank of St Hyacinthe depositors and shareholders are dissatisfied. The depositors want to have the bank liquidated and the double-liability call made while the shareholders want the depositors to accept 85 per cent. of their deposits as a final settlement. The depositors have voted down the proposals of the shareholders.

An order-in-council has been passed at Ottawa appointing Hon. A. B. Morine, K.C., of Toronto, Mr. G. H. Becharme, Provincial Agent, of Montreal, and Mr. R. S. Lake, ex-M.P. of Qu'Appelle, a Royal Commission to continue the work of the Royal Commission of 1907, which investigated the working of the civil service, particularly with regard to administrative methods, expenditures of public money and general conditions of efficiency and economy. Mr. Morine will be the chairman.

British Columbia Mortgages

In placing any surplus funds your first thought should be—security. The careful investor is wary of mining and oil shares, because no security is usually given.

No safer form of investment exists to-day than first mortgages. Ours are placed on improved city properties in Vancouver and farms in Saskatchewan and Alberta. Our valuations are made by experts and are very conservative.

No loan is placed for more than 50% of appraised value. All loans are approved by board of directors. The company insists on the payment of a portion of principal at end of third year, interest payable half-yearly. Titles are searched and certified by our solicitors.

We guarantee to net you SIX PER CENT., making all collections and attending to minor details without charge. Let us tell you more about our Guaranteed First Mortgages.

Carriage Factories, Limited

An interesting feature regarding the First Mortgage 6% Gold Bonds of this consolidation of four old-established carriage factories is that while they are not due until April, 1940, they are subject to redemption at 110 and accrued interest after April, 1920. The coupons are payable 1st April and October at Royal Bank of Canada, Montreal.

Each Company carries on its business separately, but under the direction of the Executive of Carriage Factories, Limited. The economies in purchasing, manufacturing and selling have been very marked.

PRICE: 100 and interest.

Descriptive circular, containing full particulars about the Company, will be mailed on request.

1911 REVIEW and OUTLOOK 1912

"TO have given in this issue a condensed review of commercial operations during the past year" was the aim of John Malcolm Trout, then editor of The Monetary Times, as expressed in his leading editorial for the week of January 12th, 1872.

The Monetary Times was started as a national weekly paper in August, 1867, just six weeks after Confederation. For five years previous to 1872, The Monetary Times had printed in the first or second weekly issue of each year a review of trade and financial matters for the twelve months just ended. Such statistics as the monthly prices of bank stocks, weekly prices of all other securities dealt with in the Canadian market, fluctuations in the gold premium, real estate transactions, insurance summaries, prices of commodities, bond reports, railway figures and other interesting annual review tables and articles were presented.

But in 1872 the "year-beginning" issue was first recognized as a good advertising medium. Several pages were added to accommodate a number of special advertisements, which included four double-page inserts, four full-page displays, three half-page advertisements and a number of smaller ones. And a few hundred extra copies of the issue were printed to supply an expected demand.

During the forty years elapsing since the 1872 Annual Review Number, The Monetary Times has devoted ever-increasing space to the presentation of a quick balance sheet of the country's prosperity as soon after the close of the year as presses, type and human effort can print the pages. The Annual Review Number has become more and more popular as an advertising medium for those desiring to reach the business men and investors in Canada and those in other countries who are interested in Canada. The orders for space and the demands for copies of the issue have grown so greatly in the past forty years that it is planned hereafter to separate the Annual Review Number completely from the regular issue of The Monetary Times.

It will be printed simultaneously with the regular weekly issue for January 6th, 1912, and will contain between 180 and 190 pages. It will be divided into eight sections, and will be thoroughly indexed with eleven index tables. It will prove a most entertaining, instructive and valuable issue, and will undoubtedly be kept for reference throughout the year 1912 by every business man who gets a copy. That is why every firm supplying securities, real estate, insurance, safes and other needs of men who have money should advertise in this number.

WANTED

Advertisements under this heading will be accepted hereafter at the following rates: "Position Wanted" advs., one cent per word each insertion; "Men or Agents Wanted" advs., two cents per word each insertion; "Agencies Wanted" advs., two cents per word each insertion. A minimum charge of fifty cents per insertion will be made in every case. This rate will not apply to advs. which are displayed, nor to any advertisements excepting those coming under the above three classifications.

POSITION WANTED.—Young man, chartered accountant, and with law training, seeks secretaryship or accountant's position in trust or financial company, or large industrial concern, British Columbia preferred. Character and qualifications will stand closest scrutiny. Box 1065, The Monetary Times, Winnipeg.

A GENERAL FIRE AGENCY FOR TORONTO, or Ontario Managership for a strong Tariff Company by two Brokers controlling excellent line of business—and good connection with insurance and Real Estate Agents. Parties would merge interests. Both competent fire insurance men with office and field experience. Box 465, Monetary Times.

WANTED.—For the City of Regina, the agency for Fire Insurance Company (Tariff); a good volume of business guaranteed. Address, Compton & MacNeill, Box, 546, Regina, Sask.

A young man to take charge of the policy department of a young Western Life Company, preferably one who has passed his first actuarial examination. Reply stating salary expected. to P.O. Box 2156, Winnipeg, Man.

A first-class fire insurance salesman would like to communicate with a strong board company. Will accept a position as a travelling inspector, or any other vacancy. Five years' experience and good connection in Manitoba and Saskatchewan provinces. Box No. 467, Monetary Times.

Young man, assistant district manager and inspector of agencies of life insurance company, is desirous of a change the first of the year. Box 471, Monetary Times.

UNDERWRITERS WANTED.

For an issue of $100,000 7 per cent. preferred stock, with a bonus of common, in a Canadian company taking over the business of a United States corporation, which has a successful business record and is in a strong position financially. Principals only will be dealt with. Apply in first instance to Box 469, Monetary Times, Toronto.

WANTED

Accident Insurance Inspector for Ontario, old-established Company. Applications treated strictly confidential. Box 461, Monetary Times.

NOVEMBER BANK STATEMENT.

The November bank statement shows that the Dominion still continues to enjoy much prosperity. Last month there was no contraction in commercial loans, which amounted to $770,356,419. Call loans show a slight decrease.

Some of the figures were: Total deposits in Canada, $930,654,407; deposits elsewhere, $73,264,439; circulation, $101,943,056.

An analyses of the November bank statement will appear in next week's Monetary Times.

◆

Winnipeg capitalists have paid $125,000 for an east end location in Vancouver and will erect a ten-story business and office block.

CANADIAN PACIFIC RAILWAY COMPANY

Issue of New Ordinary Capital Stock

NOTICE is hereby given that, pursuant to Resolution passed at the Special General Meeting of Shareholders on 7th October, 1908, an issue of $18,000,000 additional Ordinary Capital Stock of the Company, or 180 Shares of $100 each, has been ordered by the Board of Directors.

The said Stock will be offered to the Shareholders of record at 3 p.m. on Tuesday, the 2nd day of January, 1912, at the price of One Hundred and Fifty Dollars per share, being at a premium of Fifty per cent. over and above the par value thereof, on the basis of 10 per cent., or one share in ten of their respective holdings.

The right to subscribe will expire at 3 p.m. on Tuesday, 13th February, 1912.

Payments will be received at the Bank of Montreal, London, New York or Montreal, as follows:—

20% or $30 per share on subscription on or before 13th February, 1912
20% or $30 per share on 12th April, 1912
20% or $30 per share on 14th June, 1912
20% or $20 per share on 16th August, 1912
20% or $30 per share on 18th October, 1912

Interest at the rate of 7% per annum will be paid in October, 1912, from the due date of each instalment to September 30th, 1912, on instalments up to and including that of 16th August, 1912, which have been paid on or before due dates.

All shares of the Issue on which instalments have been paid in full on the due dates will rank with the existing stock for the full dividend accruing for the quarter ending 31st December, 1912.

A circular containing the terms of subscription and payment, and enclosing warrants of subscription, will be mailed to the Shareholders on or about the 15th day of January, 1912.

By order of the Board.
W. R. BAKER,
Secretary.

NEWS AND NOTES.

The revised Dominion census gives Canada a population of 7,192,338, of which 3,805,350 are males and 3,376,937 are females.

The Canadian Bank of Commerce has opened a branch at 1869 Powell Street, Vancouver. Mr. H. B. Gordon, late of the Montreal branch, is in charge.

Fire insurance rates in north Vancouver on residences have been reduced from a basic figure of 75 cents to 60 cents. It is expected that this reduction will encourage building.

The estimated cost of the bridge across the Second Narrows between Vancouver and North Vancouver, at first placed at $1,250,000, has advanced to $2,125,000. Various neighboring municipalities are supporting the proposition.

The Toronto Stock Exchange have listed £4,000,000 sterling 5 per cent. 50 years 1st mortgage bonds of the Barcelona Traction, Light, and Power Company. This company was granted a Dominion charter in September, giving it power to develop and sell electrical energy. The head office is in Toronto, Ont., and the capital $40,000,000.

A Mother's Pride, reproduced by photo color process from an original painting by Mr. Fred. Morgan, is the title of a handsome calendar which is being distributed by The Standard Loan Company of Toronto. The picture illustrates a double story—that of a mother-love of man's race, and the other of the love of dumb animals for their brood.

Justice Riddell at Toronto, decided that the Anglo-American Fire Insurance Company, of Toronto, must pay $2,000, the amount of the policy upon the buildings at Westport, owned by J. M. Stonness, who sued the company for that amount. The plea of the company was that the policy was issued by its local agent, Mr. A. B. Cunningham, a former stockholder, without authority. Justice Riddell found that Mr. Cunningham should not be held liable for any part of the policy, but he reserved judgment with regard to the amount of costs Mr. Cunningham, as third party, should pay.

At the regular meeting of the Guelph Radial Railwa directors a dividend of 4½ per cent. was declared on th city's stock in the company, of $126,000. The amount of th dividend is $7,400. A check for this amount will be hande over to the Guelph city treasurer.

Mr. J. A. Vaillancourt has been elected vice-presider of the Hochelaga Bank to succeed Mr. R. Bickerdike, M.F At the annual meeting it was announced that the bank woul issue $500,000 new stock at 145. The new stock will b issued in the ratio of one new for five shares now held.

CHRISTMAS HOLIDAY HAZARDS.

Fires due to carelessness in connection with the decoration of stores, churches, schools, and homes for the Christmas season are more numerous than is generally imagined, writes Mr. E. F. Gunther, Superintendent of Insurance, British Columbia. Complete statistics are not available, but information collected shows that such fires are numerous, costly from a money standpoint, and attended with much suffering and deplorable loss of life. It is estimated that last year there were 500 such fires in the United States. It cannot be too often insisted that the majority of fires is preventable. Decorations are dangerous. There should be no carelessness.

It is careless to tamper with electric wiring to produce or facilitate displays; to use cotton batting in a show-window and on or under a Christmas tree to represent snow; to allow the inexperienced and thoughtless to do the decorating; to hang inflammable material where it touches or may be pushed or blown against stove-pipes, steam-pipes, lamps, gas, or electric lights; to use celluloid ornaments in decorating; to allow children to light candles on a tree; to leave matches where children can get them for the purpose; to allow children to touch an illuminated tree; to leave an illuminated tree unwatched, and to allow paper and rubbish to accumulate in the premises and about the furnace, owing to pressure of business.

Among the Christmas fires last year were: Boy's costume, trimmed with cotton batting, caught fire from candle. Boy and a visitor slightly burned; a scholar was fatally burned, due to her clothes catching fire from candle on school Christmas tree. Another scholar fatally burned from same cause at another school; fire was caused by a toy motion-picture machine. The film, while being exhibited, flapped over on to top of lamp and ignited; children ignited cotton decorations used to represent snow around Christmas tree. Fire spread throughout first floor. Members of family seriously burned; children in lighting candles on Christmas tree set fire to decorations; cat upset Christmas tree. Damage $100; gas-jet set fire to Christmas decorations; mercantile—a lighted candle ignited decorations in show-windows of hardware store; fire spread rapidly, due to holly, mistletoe, and smilax decorations; store profusely decorated with evergreen boughs and festoons ignited from defective electric wiring. Fire spread rapidly and burned fiercely. Loss $212,154.

The instances quoted all suggest what should be avoided. If read with the word "Don't" before them, they become rules. "Don't tamper with electric wiring." Smoking should not be allowed where there are inflammable decorations. Inflammable means "apt to take fire." Asbestos fibre will represent snow. Metallic tinsel is better than paper.

◆

AMALGAMATED ASBESTOS BONDHOLDERS.

A circular has been sent out to the Amalgamated Asbestos bondholders officially notifying them of the fact that the bondholders have obtained the consent of Sir Hugh Graham, Mr. W. G. Ross and Mr. Henry J. Fuller, to act as a protective committee to protect the interests of the Canadian bondholders and more especially to obtain representation of the depositing bondholders on any reorganization of the central advisory committee that may be appointed.

Similar protective committees have already been formed in England and the United States, and these will co-operate with the Canadian committee.

The circular is signed by the following large bondholders: Hon. Robert Mackay, William MacMaster, Rodolphe Forget, M.P.; Burnett & Co., C. Meredith & Co., Thornton Davidson & Co., McDougall & Cowans, F. Orr-Lewis, Estate John MacIntosh, Preble MacIntosh, George Hyde and William Frew Robertson.

No scheme of reorganization of the company can be voted upon by the Canadian Protective Committee until it has been submitted to and approved of in writing by the depositors of a clear majority in value of all bonds deposited with the committee, and as soon as a scheme of reorganization has been agreed upon by the Central Advisory Committee, such scheme will be submitted to the bondholders for approval.

Bondholders are requested to deposit their bonds with the National Trust Company, Montreal or Toronto, and in exchange they will receive a receipt.

◆

Eight Toronto bond firms tendered for the $115,781 4½ and 5 per cent. 10 and 20-year waterworks and local improvement debentures of Windsor, Ont. The bid of Messrs. Wood, Gundy & Company was accepted.

CAPITAL STOCK 7% INVESTMENT

The Company, having disposed of its Capital Stock some years ago, has, therefore, none for sale, but the stock may be purchased through the Toronto, Winnipeg and Vancouver Stock Exchanges, at prices ranging from $124 to $127 per share.

The last seven half-yearly dividends have been at the rate of **9 per cent. per annum,** so that, at the current prices, the **Investment will net 7 per cent.**

The Company will be pleased to furnish prospective purchasers with its Financial Statement or other information bearing on the Company, and, if so desired, the Company will purchase the Stock for the investor through the Stock Exchange, or privately, at the current prices.

Since its inception the Company has enjoyed uninterrupted prosperity, and has taken a very active part in the development of the West. With the rapid growth of Western Canada, the demand for money is so great that the present profitable rates of interest will be maintained for years to come; and with such a desirable field for loaning operations, combined with a progressive management, the price of the Company's Stock should continue to advance, and with the prevailing high dividends, the Stock of this Company will undoubtedly be in great demand by those who desire a safe and profitable investment.

BOARD OF DIRECTORS: W. T. Alexander, Esq., Managing Director The Canada National Fire Insurance Company, President and Manager; E. S. Popham, Esq., M.D., Director Standard Trusts Company, Vice-President; Nicholas Bawlf, Esq., President Bawlf Grain Company, Director Bank of Toronto, Director Standard Trusts Company, Second Vice-President; Sir Gilbert Parker, M.P., London, England; E. LIFE ASSURANCE COMPANIES

YOU are in the insurance business to make money; but if you are doing a GENERAL insurance business are you earning as much as you might if you devoted your entire time to Life underwriting? Many representatives of the Equitable who formerly transacted a "fire" or "miscellaneous" insurance business have tripled their incomes by devoting their entire time to life insurance work. In the life insurance field, every man and woman is a possible customer and if you become identified with the Equitable you can offer the most truly liberal policies coupled with the utmost security.

For agency positions, address

G. T. WILSON,
2nd Vice-President,
120 Broadway, New York.

CROWN LIFE POLICIES

Most Liberal Available to Canadian Insurers.

Total Disability,
Automatic Non-forfeiture,
Extended Insurance
No Restrictions,
Large Loan, Cash Surrender, and Paid-up Guarantees,
Low Premium Rates.

Agents wanted, who can write acceptable and paid-for life insurance. Lucrative contracts available for producers—none others need apply.

WINNIPEG

The Supply City of Western Canada

Offers greater combined advantages to manufacturers and capitalists than any city in Canada. The remarkable development of this great central market is creating an unprecedented demand for home industries.

Winnipeg Wants these Manufacturers

and offers cheap power, cheap sites, low taxation, varied raw materials, the best of labor conditions, unexcelled railway facilities, and the earnest support of a community that recognizes the importance of its industries Over a billion dollars produced by the farms of Western Canada in the past five years, and this with only eight per cent. of the available land under cultivation. Consider what this development makes possible for the Western manufacturer.

YOUR OPPORTUNITY.

Get Close to this Market.

Special openings for manufacturing farm and agricultural implements, including gas and steam tractors; paper and strawboard mills, men's clothing, ladies' ready-to-wear goods, food stuffs, starch factory, boots and shoes, felt wear, metal goods, wire nail factory, hardware specialties, flax and jute works, beet sugar factory, elevator machinery, electrical fixtures and appliances of all kinds; automobiles and commercial motor carriages, home and office furniture, leather goods, cereal foods, dairy supplies, building materials, stoves, ranges, furnaces and heating plants, and twenty-five other smaller lines.

Special reports prepared and mailed free of charge on the manufacturing possibilities of any of these lines of industries, by addressing

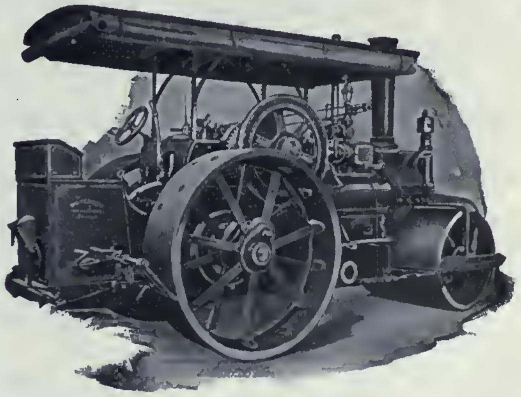
The Waterous
Double Cylinder
Steam Roller



Why we have sold more than thirty of these machines since January 1st.

The Waterous Roller is a road builder in every sense of the word. It can be used in every operation from driving the rock crusher, hauling road material, picking and plowing the old road, to the light, fast, finishing roll.

The twin-cylinder engine, with cranks set on the quarter, runs like a watch. No dead centres, no hanging up in a soft spot, no bucking on the reverse.

It is backed by a steady-steaming boiler, locomotive type, that produces more than enough steam for every working test. Throw off the governor and set it at a hill, and watch it take a 30% grade like an automobile.

Two speeds are supplied, which means fast and slow work under full steam pressure.

Outfit includes:—Rear draw bar, front clevis, driving pulley for rock crusher, full set of road picks, cylinder oil pump, and engine and boiler fittings second to none.

Ask the man on the machine.

The Waterous Engine Works Co., Ltd.
BRANTFORD, CANADA

LEGAL NOTICE

PUBLIC Notice is hereby given that under the First Part of Chapter 79 of the Revised Statutes of Canada, 1906, known as "The Companies Act," letters patent have been issued under the Seal of the Secretary of State of Canada, bearing date the 27th day of October, 1911, incorporating James Steller Lovell, accountant, William Bain, bookkeeper, Robert Gowans, Robert Musgrave Coates and William George Flood, solicitors' clerks, all of the City of Toronto, in the Province of Ontario, for the following purposes, viz:—(a) To carry on the business of general contractors and engineers; to construct, erect, execute, equip, improve, make, repair, raise or develop public works or conveniences of all kinds, including railways, tramways, roads, tunnels, harbors, docks, slips, shipping places, piers, jetties, wharves, quays, canals, reservoirs and embankments, and including the erection, repair or improvement of sewage, drainage, sanitary, water, gas, electric light, telephonic, telegraphic and power supply, plants, works, houses and stations; and to construct offices, warehouses and other buildings, public and private, and all other works or conveniences of public utility; (b) to manufacture, buy, sell and deal in iron and iron ore and steel and other ores and metals; to chase, lease or otherwise acquire any mines, mining rights and lands, and any interest therein, and to explore, work and develop the same; and to quarry, smelt, refine, dress, amalgamate and prepare for market ores, minerals and metals of all kinds; (c) To construct tunnels under contract with any railroad, corporation or corporations possessing the right to construct such tunnels, and to maintain and operate the tracks, sidings and switches therein, and to construct any works in connection with any such tunnels or with the railroads authorized to be constructed, maintained or operated through such tunnel or tunnels; (d) To acquire by purchase or otherwise and hold lands, timber limits or licenses, water lots, waterfalls, water privileges and concessions and powers and rights, and interests therein, and to build upon, develop, irrigate, cultivate, settle and otherwise improve and utilize the same, and to lease, sell and otherwise deal with, or dispose of the same; (e) To sink wells and shafts, and to make, build, construct, erect, lay down and maintain reservoirs, water works, cisterns, dams, culverts, main and other pipes and appliances, and to execute and do all other works and things necessary or convenient for obtaining, storing, selling, delivering, measuring and distributing water for the purposes of irrigation, and for the creation, maintenance and development of hydraulic, electrical or other mechanical power, or for any other purposes of the company; (f) To purchase, lease or acquire water powers and water privileges, and to develop therefrom any power, electrical or other energy, and to use the same in connection with the business of the company, and to transmit the same, and sell, lease or dispose of water powers and water privileges or power, and to enter into working arrangements with any other companies, persons, firms or corporations for the use thereof, and to establish, operate and maintain any lighting, heating or power plants, and to sell and dispose of light, heat and power, provided always that the rights and privileges hereby conferred upon the company to generate, sell and dispose of electric energy for light, heat and power when exercised outside of the property of the company shall be subject to all provincial and municipal laws and regulations in that behalf; (g) To manufacture and deal in logs, lumber, timber, wood, metal, and all articles into the manufacture of which wood or metal enters, and all kinds of natural products and by-products thereof, and goods, wares and merchandise; (h) To build, buy, sell, equip, operate and own steamships, steamboats, sailing vessels, barges and lighters, not as a common carrier, but as an incident to its business; to buy and sell, hold and operate wharves, water rights, powers, bulkheads and appurtenant property in such places as the business of the company may seem to require, or as may be necessary or convenient in connection therewith; (i) To manufacture or produce, purchase, take upon lease, or in exchange, or otherwise acquire, whether for any of the hereinfore mentioned purposes or not, machinery and plant of all kinds, and any other articles, products or things used in connection with any of the company's business, and to buy, sell, supply and deal in the same; (j) To apply for, purchase or otherwise acquire or obtain any contracts, decrees or concessions for or in relation to the construction, execution, carrying out, equipment, improvement, management, administration or control of public works and conveniences or otherwise incident to any of the objects herein specified, and to undertake, execute, carry out, dispose of, or otherwise turn to account, or sell or dispose of the same; (k) To sell, exchange or lease any real or personal property of the company, or any rights, easements, privileges or interest in, to, over, under or concerning the same; (l) To purchase or otherwise acquire any patents or patent rights, licenses, concessions and the like, conveying any exclusive or non-exclusive or limited right to use any invention which may seem capable of being used for any of the purposes of the company, or the acquisition of which may seem calculated directly or indirectly to benefit the company, and to use, exercise, develop or grant licenses in respect of, or otherwise turn to account the property and rights so acquired; (m) To purchase and otherwise acquire and undertake and assume all or any part of the assets, business, property, privileges, contracts, rights, obligations and liabilities of any person, firm or company carrying on any business which this company is authorized to carry on, or any business similar thereto, or possessed of property suitable for the purposes of this company's business, and to issue in payment or part payment for any property, rights, or privileges secured by the company, or for any guarantees of the company's bonds, or for services rendered, shares of the capital stock of the company, whether subscribed for or not, as fully paid and non-assessable, or bonds, debentures or other securities of the company; (n) From time to time to apply for, purchase or acquire by assignment, transfer or otherwise, and to exercise, carry out and enjoy any statute, ordinance, order, license, power, authority, franchise, concession, right or privilege which any government or authority supreme, municipal or

SIX PER CENT. BONDS

CANADIAN
REAL ESTATE BOND
CORPORATION
SIX PER CENT
BONDS

REAL ESTATE SECURITY

The Canadian Real Estate Bond Corporation offers for sale its ten-year six per cent. bonds.
The bonds are offered and issued at par in denominations of $100, $500, and $1,000.
They are a first lien upon all real estate and all other assets of the corporation.
The bonds, as well as all other assets of the corporation, are secured by the absolute ownership in fee of approved real estate in the city of Winnipeg and other Western Canadian cities, or by first mortgage upon such real estate.
The bonds mature in ten years. They have interest coupons attached payable semi-annually.

Send for prospectus and other information.

British Columbia
—— Timber ——

The difficulty of obtaining impartial, reliable information regarding any special section of timber in British Columbia has led this company to install a department under the supervision of Mr. G. F. Gibson, devoted exclusively to timber.

The company acts solely as agent, and will neither purchase nor sell for itself, consequently its recommendations are impartial.

Special reports by most reliable cruisers, noting accessibility for logging, will be furnished with as little delay as careful examination will permit.

Correspondence solicited.

AUSTRALIA'S COMMONWEALTH BANK.

Some interesting experiments along various lines are being made in Australia with more or less success. The latest proposal is the establishment of a Commonwealth bank. The bill in connection therewith has had its first reading, and information to The Monetary Times from a correspondent at Melbourne says that the legislation, with possibly some amendments, will be carried, as the government has a majority in both Houses. For more than twenty years, the establishment of a State bank has been before the people of Australia, and has had the approval of at least one great party in each State. The Australian Prime Minister considers that those who have been contending for such a bank have proved their case. It is proposed that the bank shall carry on ordinary banking business, such as making advances, discounting bills, receiving money on deposit and borrowing money, but it will not have power to issue bills payable to bearer on demand. That has been purposely forbidden, because it is the policy of the government to continue the present Australian note issue. The bank will get notes on the same terms as other banks. The capital of the bank is to be £1,000,000, and it will be raised by the issue of debentures. The Auditor-General will make periodical audits of the bank's books and statements to the treasurer regarding the condition of the account. Quarterly, half-yearly and annual statements will be published.

If the bank makes profits, and the Prime Minister says it will, one-half of the net profits will be placed at the credit of the bank reserve fund and the other half to a redemption fund. The former fund is to be available for the payment of any liabilities, and the latter will be used in payment of "any money advanced to the bank by the Treasurer or in the redemption of the debentures or stock issued by the bank, but if the fund exceeds the amount of debentures and stock in circulation the excess may be used for the purpose of the redemption of any Commonwealth debts or State debts taken over by the Commonwealth."

Answering his own question, "Is there any necessity for this bank?" the Prime Minister thought there was. The banking returns were growing rapidly, and the population of the country was also increasing. He would take the returns of four banks—the Australasia, New South Wases, Commercial Banking Company of Sydney, and the Union. In 1910 their paid-up capital amounted to £7,100,000, and their reserve £6,130,000, making a total of £13,230,000. The dividends amounted to £850,000, and the amount paid to reserves to £1,170,000, or over 16 per cent. on the capital paid up, and nearly 9 per cent. on the combined capital and reserve. These banks had fixed deposits in Australia amounting last year to £40,000,000. It had been pointed out that if they paid ½ per cent. on all deposits they would still have 13½ per cent. left on the paid-up capital, or 7¼ per cent. on the combined capital and reserve. In these circumstances there was certainly room for a Commonwealth State bank.

The bill also provides for the establishment of a savings bank system in connection with the scheme. The bank has power to establish saving banks wherever it thinks fit, and this part of the bill, although following the general lines of the various savings banks already in operation throughout the various States, has some novel features. Clause 46 provides that, where a person being illegitimate dies intestate leaving a deposit in the savings bank, the bank may pay the money to such natural relative of the deceased as in the opinion of the governor has the best claim thereto. Another clause provides that when a savings bank depositor dies with not more than £100 to his credit and no probate or letters of administration or notice thereof is produced to the bank within two months of the death, the money may be applied (a) in payment of the funeral expenses of the deceased, and (b) in paying the balance to the widow or some relation of the deceased, and it is stipulated that no person shall have any claim against the bank by reason of its doing any of these things.

In the discussion of the bill in the Australian House of Representatives, some interesting points were made. The proposed bank will be under the management of one person, who will be called the Governor. This is a recognition of the principle that one must trust the general manager. The Prime Minister did not think there would be any danger in placing the management in the hands of one man. On the contrary, he thought it would make the poition of the institution stronger and safer. An important decision is the fact that the Australian Parliament will itself remedy any wrong that may arise from incompetence on the part of the management of the Commonwealth bank or from other causes. Other countries will watch with interest the result of this financial experiment, especially as it is far easier to operate a bank in theory than in practice.

PROBLEM OF WINTER EMPLOYMENT.

A correspondent truly suggests that one of the greatest drawbacks to the prosperity of Canada, especially in the what we may term the thoroughly cleared parts of Ontario, is the want of profitable employment of farm laborers during the winter season, which makes it impracticable for the employers to keep the proper number of laborers to do the work which accumulates and become emergent during the other three seasons of the year, and makes this labor very expensive, thus deterring enterprise. What appears to be lacking is a new and distinct industry. The discovery and propagation of such an industry would be of wonderful value. More intensive cultivation of the land would do this by increasing the acreage yield, by conservation in silos and cold storage warehouses, by keeping more live stock, requiring more attention in buildings instead of roaming on scanty pastures.

This means the use of more capital than is ordinarily possessed by the farmers and more enterprise than now exists amongst them. Capital would be rebuired for cottages on farms, because the only way to keep a good man is to let him have a home and permanent employment. But under proper supervision as to outlays, it should not be difficult for the provincial or Dominion government to arrange a system of credits. If one township were taken as a test locality, our correspondent believes the demonstrated benefit would induce the extension of the plan, and the wealth of the province would be quadrupled in ten years, whilst we would have a population of sturdy, healthy, happy and prosperous people, who would not be tempted to any other promising part of the world.

The problem of winter employment undoubtedly will become more marked in years to come. If we can solve that problem intelligently, the Dominion should be able to escape many undesirable social compications. The Monetary Times would be pleased to hear from its readers who are thinking along these lines.

AN EXISTING DANGER.

Fire Commissioner Latulippe and Fire Chief Tremblay, of Montreal, have expressed definite opinions repecting fire precautions and regulations in that city. These, they say, are extremely lax, and will bring home the responsibility for fires in cases where buildings are used for purposes for which they are not designed. The fire commissioner says that if the city were more watchful the number of fires in Montreal could be halved. The fire chief describes the present by-laws as farcical. These points were brought out at the investigation into the fire which occurred at the premises of a garage.

Chief Tremblay stated that the building was in no way adapted for a garage, and was not intended when erected to be put to that use. If such a fire had occurred in any of the great cities of Europe under circumstances of this kind, the parties connected with it would have been amenable before the law. The chief also expressed the opinion that the city by-laws in regard to motor garages were useless, and further, that the system of enforcement of the existing by-laws was not sufficient.

At the conclusion of the taking of evidence, Fire Commissioner Latulippe expressed the opinion that a fire of this kind made it clear that if the city authorities were a little more strict in regard to fire rules and regulations, one-half the fires that occurred might be eliminated. He was in favor of a by-law being passed which would render it a penal offence to provide a building that might prove a fire-trap, or to use a building in such a way as was obviously dangerous in view of the fact that it was put to a use for which it was not intended when built. Such a by-law, suggested Mr. Latulippe, should be made to hold liable all concerned in its construction and use, the architect, contractor and the owner, a provision which would result in enhanced care and greater scruples on the part of all concerned, and would thereby materially diminish the heavy fire bill of the city.

These are matters which cannot be left for innumerable adjourned discussions. It is the duty of the Montreal civic authorities to deal immediately with such a serious phase of the fire waste.

SMALL CHANGE.

Canada is singularly free from labor troubles. This is a pleasing sign of the times, especially in view of the socialistic tendencies of the age.

* * * *

Sir William Meredith is to be congratulated on the thoroughness with which he is conducting the Ontario inquiry into the question of workmen's compensation. We trust he will be able to recommend in his report the advisability of a conference of the various provincial authorities on the matter or the desirability of a Dominion Act.

* * * *

On Monday, the ratepayers of Toronto will be asked whether or not they are in favor of the expenditure of $5,000,000 on three miles of tube railways. There is every sound reason for voting against the proposal. The tubes would not be completed for five years, thus giving no immediate relief to the traffic problem in Toronto. The proposal is but the thin end of the wedge for a tube railway scheme to cost $23,000,000, and to be completed in 1921. The city has a population of less than 400,000, and its area is greatly extended. Conditions generally are not favorable to the successful and remunerative operation of underground railways. For the $5,000,000 which Toronto citizens are asked to expend on tube railways, the city authorities could build 100 miles of civic car lines, which would give almost immediate relief to the traffic congestion, and at the same time prove an asset when the Toronto Street Railway Company's system is expropriated.

WESTERN MILEAGE OF THE CANADIAN PACIFIC RAILWAY.

Development and Increase Have Been Steady—All Departments Are Extended.

By H. M. P. Eckardt.

Canadian Pacific's recent announcement of a new stock issue of $18,000,000, which will bring $27,000,000 into the company's treasury, draws attention to the yearly additions to Canadian Pacific Railway mileage in western Canada. The immigration movement, which assumed its especial importance five or six years ago, is the principal factor in causing western prosperity. This immigration movement has, incidentally, been instrumental in inducing the railways to increase their western mileage. Then, in turn, the policy of active construction of new branch and main line of railroad, has induced more immigration and more prosperity. By means thus of action and reaction, western progress has been steady and rapid. It will be interesting to study the extent of the Canadian Pacific Railway's yearly construction work west of Lake Superior during the period 1905 to 1911.

Development of the Mileage.

Before detailing the additions made to the western portion of the system, it will be well to trace the development of the mileage of the whole system. In the following table the summary for the six years'is given:

Year.	Mileage in C.P.R. Traffic Returns.	Mileage Other Lines Worked.	Mileage Under Construction.	Total.
1905	8,568.0	438.0	481.4	9,487.4
1906	8,776.9	438.0	923.7	10,138.6
1907	9,153.9	262.4	823.0	10,239.3
1908	9,426.4	261.7	708.4	10,396.5
1909	9,878.5	261.7	403.2	10,543.4
1910	10,270.6	261.7	471.4	11,003.7
1911	10,480.9	291.9	983.3	11,756.1

In the six years the total mileage of the company, exclusive of that pertaining to the Minneapolis, St. Paul and Sault Ste. Marie Railway, and the Duluth, South Shore and Atlantic Railway, increased 2,268.7 miles, or an average of 378.1 miles per year.

How Capitalization Has Increased.

In connection with this increase of mileage it is interesting to review the increase of capitalization concurrently taking place.

(Thousands omitted).

Year.	Common Stock.	4% Pref. Stock.	4% Cons. Deb. Stock.	Mortgage. Bonds.	Total.
1905	$98,738	$37,853	$89,200	$55,238	$281,029
1906	105,995	42,719	101,519	41,738	291,971
1907	121,680	43,936	106,045	40,238	311,899
1908	141,534	48,803	115,657	39,621	345,615
1909	150,000	52,696	128,930	39,621	371,247
1910	173,530	55,616	136,711	39,621	405,478
1911	180,000	57,076	142,861	38,648	418,585

Incidentally this table shows one respect in which the Canadian Pacific Railway finances are exceedingly strong. The portion of the capitalization represented by mortgage bonds is relatively insignificant; and it grows smaller every year. In the Canadian Pacific Railway's case there is no danger of decreasing prosperity resulting in the property passing into the hands of the holders of mortgage bonds. More than nine-tenths of the whole capitalization consists of stock in three classes.

Western Canada's Steady Increase.

Proceeding now to the matter of additions to the mileage in western Canada, we get the follofing table:

Year.	Central Div.	Western Div.	Pacific Div.	Total.
1905	3,129.2	1,270.7	951.7	5,351.6
1906	3,526.4	1,369.3	953.9	5,849.6
1907	*3,438.1	1,364.9	1,093.6	5,896.6
1908	2,938.5	1,983.4	1,077.9	5,999.8
1909	2,905.9	2,146.4	1,077.9	6,130.2
1910	2,934.2	2,509.1	1,070.4	6,513.7

---

*Decrease due to tbe disappearance from the table of mileage of Qu'Appelle, Long Lake and Saskatchewan Railway, 253.6 miles, formerly worked by the Canadian Pacific Railway for account of owners.

In the annual report for June 30th, 1911, the mileage is grouped under the new style—according to provinces. It appears as follows: Manitoba Division, 2,353.7 miles; Saskatchewan Division, 1,878.8 miles; Alberta Division, 1,677.9 miles; British Columbia Division, 1,170.4 miles; Total, four western divisions, 7,080.8 miles. Thus the additions to the western portion of the system in the six years amount to 1,729.2 miles. The extensions in the West, constitute more than 76 per cent. of the extensions effected for the whole system.

It should be remembered that the Canadian Pacific Railway expends a portion of its newly raised capital and its accumulated earnings in other things than construction and purchase of new mileage. The steady additions to the steamship fleet absorb a considerable amount of funds; the extensions and improvement of stations and terminal property—notably the enlargement of the Windsor Street Station in Montreal—have required much funds. The building of new hotels, and the extensive irrigation works in the neighborhood of Calgary, should also be mentioned, and the constant increase in number and capacity of the locomotives, cars, and other equipment.

The balance sheet as at June 30th, 1911, showed the company's treasury to be in good condition. There was cash on hand, $34,371,550; temporary investments in government securities, $10,088,734, and current assets (consisting of agents' and conductors' balances, net traffic balances, and miscellaneous accounts receivable) amounting to $8,049,899. These items of the quick assets made up a total of $52,510,183. On the other side of the balance sheet were: Current liabilities (consisting of audited vouchers, pay rolls, and miscellaneous accounts payable), $17,203,651; coupons due 1st July and accrued fixed charges, $1,392,316. The surplus of available assets as at 30th June last therefore amounted to $33,914,216. This, however, represents a fall of about $16,000,000 as compared with the surplus of such assets shown on June 30th, 1910. That perhaps explains the new issue of common stock. The payments on the new stock are to pass gradually into the treasury. Judging from the record of extensions above given, western Canada will have the benefit of a considerable part of the expenditures based upon the increase of capital.

◆

DOMINION SAWMILLS AND LUMBER COMPANY, LIMITED.

Advices from the Old Country are to the effect that there may be an investigation into alleged over-valuations in connection with the flotation of the bonds of the Dominion Sawmills & Lumber, Limited, which were placed on the London market in the summer of 1910. This concern was organized by Mr. Cecil Ward, who some years ago started a company on Trout Lake, but which has been discontinued for some time. The capitalization of the latest flotation was $5,000,000, $4,000,000 of which was issued at six per cent, repayable in 25 years. Timber limits and mills in the vicinity of Revelstoke were absorbed. In placing the debentures before the British public it was pointed out that on the 90,000 acres held by the company there were two and a half billion feet of timber, valued at $3 per thousand. Among the directors named at that time were Lord Desborough, F. C. Selous, London; Elihu Stewart, formerly Dominion government superintendent of forestry; Alex. McRae, Revelstoke; W. E Hodges, Vancouver, and S. A. Mundy, Three Valley.

Criticism has been made by London publications of lumber and timber flotations in the Old Country, in respect to the feature of over-valuation. Suggestion has been made from more than one quarter that instead of a value per acre being put on timber, that the estimate should be so much per thousand on a stumpage basis. When E. H. Heaps & Co., and the Canadian Pacific Lumber Company successfully sought the London market, some of the criticism was given in these columns for the guidance of future promoters. In The Monetary Times of December 9th, it was discussed generally in relation to statements made in connection with Canadian flotations in London.

Old Country financial papers have written the Dominion Sawmills & Lumber, Limited, lately, one stating that it had certain information which might result in an investigation.

A timberman, with an experience of many years in British Columbia and Ontario, states that an estimate of two billion and a half for 90,000 acres is foolishly large for the Interior. That would mean almost 28,000 feet to the acre. On the coast where the timber is thicker and larger, a fair average estimate is 20,000 feet an acre, though there are cases where it is higher; but not for a large area. Moreover, $3 a thousand valuation for timber anywhere in British Columbia is beyond anything paid. The average run of sales in interior timber has been 25 to 50 cents a thousand feet, and $1 would be the highest. On the coast, it never goes to $3, and $2 is the limit. The average is much lower. Over-valuation of this kind will spoil lumber and timber flotations in the London market.

The matter has come before Vancouver timbermen by the offers of a New York syndicate to sell their Interior timber at $1. Considering the price they paid, they figured a profit at only $1, one-third of the valuation of the holdings referred to. In this case it was pointed out that $1 was too high, and the retort was that $1 was a reasonable quotation since the Dominion Sawmills & Lumber, Limited, valued theirs at $3 per thousand.

◆

The Ogilvie Flour Mills Company, Limited, have decided to construct a large milling plant at some central point west of Winnipeg. The initial capacity of the new mill will be 2,000 barrels per day; elevator capacity, 300,000 bushels; the flour warehouse will allow the storage of 100,000 bags of flour.

NOVEMBER BANK STATEMENT

Indicates Substantial Business Growth—Current Loans Establish a New Record

	November, 1910.	October, 1911.	November, 1911.	Year's Inc. or Dec.	Month's Inc. or Dec.
Deposits on demand	$289,759,025	$331,953,562	$341,712,265	+ 17.9	+ 2.9
Deposits after notice	551,113,835	586,451,045	588,942,142	+ 6.4	+ 0.4
Current loans in Canada	677,617,478	768,492,008	770,356,419	+ 13.6	+ 0.2
Current loans elsewhere	42,396,585	36,962,543	38,991,698	— 8.03	+ 5.4
Call loans in Canada	62,866,513	69,088,467	72,033,493	+ 14.5	+ 4.2
Call loans elsewhere	96,404,136	88,722,640	87,489,665	— 9.3	— 1.3
Circulation	90,165,730	105,855,021	101,943,056	+ 13.06	— 3.7

Substantial growth of business upon a sound basis is the outstanding feature of the November bank statement. Nearly all the principal items exhibit gains, the largest being current loans elsewhere, which increased 5.4 per cent. Call loans in Canada appreciated 4.2 per cent., and demand deposits 2.9 per cent. Decreases are noted in circulation of 3.7 per cent., and foreign call loans 1.3 per cent.

The following table shows the course of the loan accounts during the past thirteen months:

Loans.	Current in Canada.	Call in Canada.
1910—November	$677,617,478	$62,866,513
December	677,064,829	63,983,912
1911—January	682,506,695	60,200,781
February	689,234,781	59,132,692
March	710,604,072	58,369,712
April	712,032,758	57,832,690
May	708,093,677	57,709,853
June	717,869,386	61,507,268
July	723,765,358	65,339,288
August	734,683,962	65,106,110
September	749,007,607	67,717,991
October	768,492,008	69,088,467
November	770,356,419	72,033,493

During the year domestic current loans show an increase of $92,738,941, or 13.6 per cent., and domestic call loans $7,471,852, or 4.2 per cent. It is interesting to note that during November domestic current loans reached a record figure, which reflects on the business prosperity of the Dominion. It also shows a gratifying interest by the banks in the development of the country.

The following table gives the position of the loan accounts during the past five years:

	Nov., 1907.	Nov., 1908.	Nov., 1909.	Nov., 1910.	Nov., 1911.
Current loans in Canada	$570,896,776	$515,695,476	$590,291,944	$677,617,478	$770,356,419
Current elsewhere	23,576,315	27,899,016	35,358,214	42,396,585	38,991,698
Call in Canada	45,733,765	42,730,261	57,875,677	62,866,513	72,033,493
Call elsewhere	41,198,293	85,220,634	134,836,591	96,404,136	87,489,665

Foreign current and call loans show decreases over November, 1910, of $3,404,887 and $8,914,471, respectively. In November, 1907, domestic current loans were approximately $571,000,000, and last month $770,000,000, an increase of $199,000,000. Domestic call loans have increased nearly $26,000,000 during the past five years.

The expansion of the deposit accounts during the past thirteen months is noted in the following table:

	On demand.	After notice.
1910—November	$289,759,025	$551,113,835
December	280,910,695	544,220,710
1911—January	270,178,480	549,774,479
February	268,360,503	551,424,373
March	278,171,792	553,032,466
April	281,964,369	555,822,930
May	298,784,206	562,209,148
June	309,804,854	564,867,554
July	316,973,780	570,789,435
August	311,111,668	575,740,956
September	313,584,893	577,591,045
October	331,953,562	586,451,045
November	341,712,265	588,942,142

Demand deposits increased approximately $10,000,000 during the month, while for the past thirteen months the increase is $62,000,000, which is extremely gratifying. Savings deposits increased fully $2,000,000 and $37,000,000 during the year.

The following table shows the steady increase of deposits during the past five years:

November.	On Demand.	After Notice.	Total.
1907	$160,529,719	$408,902,274	$569,431,993
1908	206,315,809	419,920,274	626,236,083
1909	264,285,803	493,253,823	757,539,626
1910	289,759,025	551,113,835	840,872,860
1911	341,712,265	588,942,142	930,654,407

The demand and after notice deposits during April totalled approximately $930,000,000, which gives the large increase of $361,000,000 during the past five years. For the same period the demand deposits appreciated $181,000,000 and after notice deposits $180,000,000.

As an evidence of the general prosperity of the whole Dominion, the November bank statement is an interesting document.

WILL STOP REAL ESTATE GAMBLING.

Following the commendable action of the Edmonton Board of Trade in deprecating officially the undesirable land gambling in Canada, the real estate section of the board passed the following resolution recently:—

"That in the opinion of this meeting, legislation should be enacted which will prevent:

"(1) Any person from offering for sale, property in a city or town in the province of Alberta in connection with which there is no registered plan, except however, legal subdivisions when sold as a whole.

"(2) The publishing of plans or offering for sale property of which plans have not been registered.

"(3) The publishing of plans of subdivisions in connection with which there is no key plan showing the distance from the recognized centre of the city or town, or from the central post office of such city or town; or which does not show the contour of such subdivision. This is not intended to prevent the publishing of a map of the whole of a city, or town.

"And further that the legislation make it a criminal offence to publish in any newspaper, pamphlet or poster, misleading statements or inferences, in connection with the offering for sale of an real estate. And that it be recommended that no plans of subdivisions within two miles of the present limits of any city or town be approved by the inspector of surveys until it has been approved of by the Commissioners or Council of the city or town near which is is situated.

"And that it be further recommended that these regulations be made applicable, as far as practicable, to property situated without the province of Alberta, but offered for sale within the province."

CANADIAN WOOD IN BRITAIN.

The November wood market at the West of England was fairly steady and values well maintained, with moderate stocks all through the month. Demand, however, not active, as a rule.

At Manchester there was a large import of first-class waney pine timber, mostly on contract; very little square pine, and no red. Oak and elm have come in small quantities on contract; prices of both are maintained. There has been a fair consumption of pine deals at current values. Stocks are ample at both Liverpool and Manchester; red pine deals in moderate stock. Of Nova Scotia and New Brunswick spruce and pine deals values are unchanged. A steady demand has existed for birch logs and planks at improved prices. British Columbia and Oregon pine dull, with small imports; values are firm. Good inroads have been made on the Mersey; large stocks of pitch pine, and values have improved as the stock on hand grew moderate.

◆

The financial statement of the electrical department of London, Ont., shows that buildings and land cost $21,000; plant equipment, $44,000; distribution system and municipal street lighting, $193,000, which, with other expenditures on capital account amounted to $350,000. The statement of revenue and expense is the most interesting, as there had been some doubt as to whether there might not be a deficit the first year. The total receipts were $78,892.16, including street lighting and other municipal business. The expense for power and operation was $55,692.07, leaving a gross revenue of $23,200.09. Out of this the sum of $16,807.93 has to be taken, this being the amount estimated by the City Council as necessary to cover interest and sinking fund charges on debentures for distribution system, leaving a net surplus of $6,392.16. Included in the expense account is an item of $7,477.98 for the promotion of business. While some municipalities are allowing five years to pay this, London decided upon four and $6,000 was to have been carried forward to be written off in the future, but on account of the excellent showing made already it was decided to write off the full amount this year. Had this $6,000 been added to the assets, the total surplus would have been $12,392.16.

LARGEST BANK MERGER IN CANADA.

Eastern Townships Bank Retains Part Autonomy—Terms of the Agreement.

As briefly noted in last week's Monetary Times, the largest bank amalgamation which has taken place in Canada will be consummated when the shareholders ratify the agreement entered into by the directors of the Eastern Townships Bank and the Canadian Bank of Commerce.

This union will result in the creation of a bank with a paid-up capital of $15,000,000, and a reserve of over $12,500,000. The aggregate assets will exceed $210,000,000, while the territory of the united banks will cover every portion of the Dominion, including the Yukon. The number of branches will be over 330, with representation in London, England, New York, San Francisco and Mexico City. This union has the merit of preventing duplication of branches, inasmuch as the Eastern Townships Bank is strongly entrenched in Quebec, whereas the Bank of Commerce thoroughly covers Ontario, the Maritime Provinces, the Northwest Provinces, British Columbia, and the Yukon. The branches of the Eastern Townships Bank throughout the Eastern Townships will be operated under the name of "The Canadian Bank of Commerce, with which is united the Eastern Townships Bank."

Terms of the Agreement.

The following letter, which explains the agreement, has been mailed to each shareholder of the Eastern Townships Bank:

"For some time it has been apparent to your directors that if the expansion of the Eastern Townships Bank were to keep pace with the increased development of Canada, a material enlargement of capital would be necessary, together with a marked addition to the present staff. These needs became even more apparent on the occasion of the visit which was made to the western provinces by a committee of your directors in October last. There we saw that while the growth of the country demands fresh banking facilities, the cost of establishing branches would render it impossible for our bank with its present capital to take any prominent part in the development of the West.

"Since our return a suggestion has been made to us for an amalgamation with the Canadian Bank of Commerce, whereby each shareholder of the Eastern Townships Bank is offered two shares of stock in that bank for each share held by him or her, their shares being $50, whereas the par value of ours is $100. This means that we are invited by the second largest bank in Canada to unite with it on equal terms, two shares of their stock having the same par value as one of ours; and there could be no better testimony to the high reputation which your institution enjoys. Throughout the Eastern Townships the name of the Eastern Townships Bank would everywhere be retained in conjunction with that of the Canadian Bank of Commerce.

"Under the proposed arrangement the shareholders of the Eastern Townships Bank would be represented upon the board of the Canadian Bank of Commerce by three or four of their present directors. The other members of the old board would be asked to act in an advisory capacity with reference to business transacted in the Eastern Townships. The whole conception is to combine two great advantages, namely, local sentiment and the great financial strength which a union with the Canadian Bank of Commerce would ensure.

"In recommending to the shareholders the acceptance of the offer above outlined, your directors would point out these facts: The capital and reserve of the Canadian Bank of Commerce are $21,455,095, while those of the Eastern Townships Bank are $5,400,000. The assets of the Canadian Bank of Commerce are $182,389,983.73; those of the Eastern Townships Bank being $28,471,056.66. The deposits of the Canadian Bank of Commerce are $145,965,734.76; those of the Eastern Townships Bank being $19,509,998.21. The earnings of the Canadian Bank of Commerce for 1911 were $2,305,409.42, while the corresponding earnings of the Eastern Townships Bank were $459,570.19. The dividend paid by the Canadian Bank of Commerce is 10 per cent., against 9 per cent. paid by the Eastern Townships Bank. On November 30, 1911, the market price of the Canadian Bank of Commerce stock was 207½ a share, and the market price of the Eastern Townships Bank stock 180 a share, both prices being given on the basis of a hundred-dollar share.

Will Save Administration Expenses.

"Your directors also have in mind that the tendency of banking development, both in Europe and America, is to combine capital in such a way as to save expense in administration, multiplicity of buildings and the various disadvantages which attend the operations of small banks. They have decided to accept for themselves the offer herewith submitted and to advise the shareholders also to accept it as being highly advantageous from the standpoint of sound business.

"In taking this position your directors have carefully considered the standing of the Canadian Bank of Commerce, as well as the character of its directors and officials, and they are of the opinion that the best interests of the Eastern Townships Bank will be served by this amalgamation."

It is understood that three at least of the directorate of the Eastern Townships Bank will be members of the new board of directors.

The shareholders of the Eastern Townships Bank will meet on February 14th, to consider the agreement.

FORTY-THREE NEW COMPANIES

Have Been Incorporated—Many are Small Concerns.

With an aggregate capitalization of $12,396,500, forty-three new companies have been incorporated. Five of the concerns chartered have capital of a million dollars and over, as follows: Acme Gold Mines, Toronto, $3,000,000; Tate-Sellen Motors, Toronto, $1,000,000; Southam Press, Hamilton, $1,000,000; Ford Motor Co., Sandwich East Township, $1,000,000; Prairie Coal Co., Regina, $1,000,000. The new companies by provinces are: Ontario, 16; Quebec, 10; Saskatchewan, 10; Manitoba, 7.

A license has been issued to the Wolseley Tool & Motor Car Company, a British firm, to start a branch industry in Ontario.

The capital stock of the Canadian Malleable & Steel Range Manufacturing Company, Limited, has been increased from $50,000 to $200,000. The Urban & Rural Telephone Company, Limited, has been authorized to increase its capital from $4,000 to $8,000. The corporate name of Messrs. J. M. Archibald Company, Limited, has been changed to that of the Archibald Cereal Company, Limited. The charters of the Fisher Company, Limited, and the Chatham Waggon Co., Limited, have been surrendered.

The following is a list of the charters granted during the past week. The head office of each company is situated in the town or city mentioned at the beginning of each paragraph. The persons named are provisional directors:

Anglia, Sask.—Anglia Hall Company, $1,500.

Weyburn, Sask.—W. H. McCallum & Company, $10,000.

Quill Lake, Sask.—Middle West Land Company, $25,000.

Saskatoon, Sask.—Great West Investment Company, $50,000.

Swift Current, Sask.—Saskatchewan Land & Investment Company, $100,000.

Wellington, Ont.—W. P. Niles, $100,000; W. P. Niles, J. E. Noxon, J. Macdonald.

Dorion, Ont.—Wiener Company, $25,000; J. Wiener, K. Wiener, J. McMillan.

Moose Jaw, Sask.—Western Investments, $20,000; Ottawa Real Estate Company, $10,000.

Morrisburg, Ont.—Kinnell Manufacturing Co., $50,000; A. Flynn, W. W. Flynn, H. Lamble.

Brandon, Man.—McDiarmid & Clark, $150,000; A. R. McDiarmid, J. Clark, J. McDiarmid.

Windsor, Ont.—Major Mining Company, $25,000; J. A. McAndrew, W. H. Irving, H. H. Davis.

Hamilton, Ont.—Southam Press, $1,000,000; H. Ford, J. Couzens, Detroit; W. R. Campbell, Windsor.

St. Jovite, Que.—St. Jovite Power & Electric Light Company, $20,000; C. E. Marchand, S. Magnant, J. Bessette.

Sandwich East Township, Ont.—Ford Motor Company, $1,000,000; H. Ford, J. Couzens, Detroit; W. R. Campbell, Windsor.

Regina, Sask.—Western Construction Company, $250,000; Modern Apartments Company, $40,000; Prairie Coal Company, $1,000,000.

Ottawa, Ont.—Halliday & Sproule, $40,000; W. Y. Denison, E. F. Holcomb, R. G. Code. Rosemont Realty, $250,000; C. J. Booth, G. P. Brophy, E. F. Fauquier.

Winnipeg, Man.—Matthews-Wrightson Loan & Investment Company, $500,000; F. D. Williams, Montreal; Hon. C. H. Campbell, W. J. Wilcox. Western Farmers' Lumber Company, $250,000; W. Tregillus, E. J. Fream, Calgary; R. Railton, Winnipeg. Waverly Investment Company, $500,000; F. W. Louthood, R. S. Jenkins, G. A. H. Dysart. Lloyd's Investment Company, $40,000; R. Purdon, P. Shearer, R. L. Purdon. Transcona & Winnipeg Realty Company, $100,000; B. C. Cockshott, W. A. Cockshott, C. Shenk. Flax Decorticating Company, $500,000; A. C. Miller, R. W. Wydeman, E. B. Wilkenson.

Toronto, Ont.—Canadian Mining & Finance Company, $500,000; J. B. Holden, G. A. Grover, D. W. O'Sullivan. Tate-Sellen Motors, $1,000,000; J. B. Holden, G. A. Grover, D. W. O'Sullivan. Anglo-Canadian Exploration & Development Company, $250,000; H. Riley, W. B. Stirrup, W. H. Walter. Wood Guthrie Company, $100,000; L. M. Wood, G. H. Gordon, T. C. Wood. Chantler-Moss, $40,000; L. R. Chantler, Mrs. E. Moss, J. A. Moss. Acme Gold Mines, $3,000,000; J. B. Holden, G. A. Grover, D. W. O'Sullivan. Marchment, $40,000; S. W. Marchment, Mrs. A. A. Marchment, W. Hurst. Land Owners, $40,000; F. J. Pickman, H. I. Easton, L. E. Edwards.

Montreal, Que.—Columbia Land Company, $50,000; J. A. Smart, Lachine; A. H. McEnroe, B. Lefebvre, Montreal; Augustin Comte & Cie, $50,000; A. Comte, L. P. Deslongchamps, P. M. Girard. Industrial & Manufacturing Company, $250,000; W. K. McKeown, L. Barry, E. A. Barnard. A-B Stove Company of Canada, $50,000; F. G. Bush, G. R. Drennan, M. J. O'Brien. North American Lock & Tool Company, $50,000; S. W. Jacobs, A. R. Hall, G. C. Papineau-Couture. Industrial and Explosives Company, $600,000; A. Girard, E. R. Dufresne, L. G. Balcer; de Desbarats Realty Company, $100,000; W. A. Desbarats, E. Desbarats, C. H. Desbarats. Canadian Steel Pipe Company, $200,000; J. H. Dillon, P. A. Degroseilliers, T. A. W. P. Mercier. Duchess Amusement Company, $20,000; S. W. Jacobs, A. R. Hall, G. C. P. Coutre.

MONTREAL TELEPHONE RATES.

Finances of Montreal Street Railway System.

Monetary Times Office,
Montreal, December 27th.

The situation with respect to complaints against the Bell Telephone Company seems to have altered altogether at the City Hall. When the city decided to bring the whole question of service given by the Bell Telephone Company and prices charged to the attention of the Railway Commission, the City Attorney requested the people to send in any complaints they wished to register against the company. Among the particular objections mentioned by the city was the charge of $35 per year for private 'phones and $55 per year for business 'phones, as against a charge of $30 and $50, respectively, in Toronto. Practically no complaints were registered, although there are 34,000 telephones in use in Montreal. This number compares with about 38,000 in Toronto, and one of the reasons for this anomalous state of affairs—Montreal being a much larger city than Toronto—was that telephones cost more per year in Montreal than in the Queen City. Many subscribers have registered their protests against the service on the local lines.

Subscribers Complain of Overcharge.

Some of the subscribers who are registering the complaint against the additional charge of $5, give a comparative schedule of prices prevailing in Montreal and other large Canadian and American centres. They complain not only of the overcharge, but of the service given by the company, while others find a grievance in the method followed by the company in dealing with calls entered at public telephones. It is the intention of the city to combine all complaints into a volume and submit them to the Commission when the case comes up for consideration.

The City Attorney's final statement may dampen the ardor of a number of those who have registered complaints against the company. He states that all will be notified, through the press, of the receipt of their complaint, and will be requested to put in an appearance before the Commission, when the complaint of the city against the company is taken up.

Montreal South has also joined in this matter of complaint against the telephone charges. At the last meeting of the Town Council a complaint was made that the cost of telephones in the town, being $26 per annum, was more than for neighboring municipalities. A committee was appointed to interview the Bell Telephone Company, with a view to adjusting the grievance.

Finances of Montreal.

A summary of the Montreal Budget has been issued from the office of the City Comptroller, showing a total revenue of the city, for the coming year, of $8,185,000, consisting as follows:

Assessments	$5,225,287
Water rates	935,873
Business taxes	699,394
Total	$6,860,554
Other revenue	1,424,446
Total	$8,285,000
Curtailment for possible reductions	100,000
Total Revenue	$8,185,000

Every item in the list of expenditure shows an increase, one of the largest of which is school taxes, being $1,250,000, or $215,000 more than a year ago. The police department also receives an increase of $150,000, bringing the amount up to $767,664. The roads' department, notwithstanding the constant objections of Montrealers, as well as of visitors, to the condition in which the roads are kept, receives an increase of about $50,000, bringing the total expenditure on roads in Montreal to $696,000. Interest and sinking fund receives $2,300,000, which is only about $140,000 more than a year ago. The total appropriations for the year amount to $8,185,000, being about $1,000,000 more than a year ago.

Montreal Street Railway.

It is generally allowed that the complaints which began to be heard some time ago against the Montreal Street Railway were probably the outcome of the change of ownership of the railway. There is no denying that the service is becoming gradually less effective, and that, at the present time, it is less satisfactory perhaps than ever before since its electrification. During the last fiscal year of the company, the number of tickets and transfers amounted to upwards of 150,000,000, this being an increase of some 15,000,000, or 10 per cent. on the number collected in 1910. During the same period it is hardly likely that the efficiency of the railway increased ten per cent., so that though the company operated fully as many cars and as good cars as during the last year of the old regime, and operated them as rapidly as the previous year, the congestion would still be approximately ten per cent. greater. It is not thought that the company added to its rolling stock and otherwise increased its efficiency proportionately with the increase in population. In reality, this question of increase in population in Montreal raises some very serious considerations. The price of real estate has advanced considerably during the past year, which one must attribute in large part to incoming population.

Tramway Work is Made Difficult.

In the vicinity of Montreal houses are being erected in all directions, extending for miles out into the country wherever any sort of tramway connection can be had. This makes the work of the tramway company much more difficult than it was a few years ago. The fear in Montreal seems to be that some considerable expenditure may be put out upon schemes for more rapid transit, which will become almost totally inadequate before they are finished. Meantime nothing is being done, and the car lines become more crowded daily and the citizens experience ever-increasing difficulty in getting accommodation.

A resolution was adopted by the special civic committee having charge of this street railway question during the past week, by which it is proposed to ascertain how many large cars the tramway company is employing on its routes, the total number of cars available, and the number of improved cars which have been added during the past five years. Certain questions concerning less frequent stops will be asked, and suggestions will be made as to new streets and new plans to facilitate the operation of cars. Among citizens, the inadequacy of most of these suggestions to meet the situation which is growing up, is keenly felt.

Quebec Electric Light Contract.

The announcement that the Dorchester Company had secured the electric lighting contract for Quebec did not create any considerable consternation among the shareholders of the Quebec Railway, Light, Heat and Power Company. It was felt that Mr. Rodolphe Forget, M.P., would not have allowed the Dorchester Company to obtain anything he really wanted. Subsequently it was announced that the Quebec Railway, Light, Heat and Power Company had secured the water powers on the River Saguenay, a short distance above Chicoutimi, and that work will be begun in the spring on the development of power and the construction of a power house with a capacity for 50,000 h.p. It is manifest that the Quebec Railway, Light, Heat and Power Company requires more power, and this may quite possibly furnish the explanation for its apathy concerning the contract for the city of Quebec. The company may be able to dispose of all the current available at better prices than the city was prepared to pay. The new development will be of very great importance in furnishing power for the operation of cars down to Ste. Irenee and Murray Bay.

Telephone Amalgamation is Announced.

It is announced from Sherbrooke, Quebec, that an amalgamation is about to take place between the People's Telephone Company and the Bell Telephone Company. The proposition apparently is not that the Bell is to take over the People's, but that the two systems in that vicinity will be merged into a new company, to be known as the Eastern Townships Telephone Company. It is argued that now that the Railway Commission is taking charge of the matter of rates to be charged for telephones, there is not the same occasion for opposition between different companies which previously existed. The opposition offered by the Peoples' Company to the Bell Telephone is that it has for years kept prices at a very reasonable level in the vicinity of Sherbrooke. The rates to be charged by the new company are those which hitherto have been charged by the Bell.

The large contracting firm of Messrs. Peter Lyall & Sons, which has had a greater success than any other firm of this character in Montreal, and perhaps even in Canada, during the past decade, has been turned into a joint stock company, to be known as Peter Lyall & Sons Construction Company, Limited. The bond issue on the new concern is $1,250,000, carrying interest at the rate of 6 per cent. The common stock issue amounts to $1,750,000, and the 7 per cent. preferred issue, which is being entirely taken by the former partners, amounts to $1,300,000. The entire issue was underwritten almost as soon as announced, and the public issue will be made some time before the end of January. The entire bond issue will be available as working capital, and it is the intention of the company to double its present capacity. The new company is capitalized at $400,000. Behind the bonds is said to be Winnipeg real estate with a value of $650,000, besides about $500,000 of stock in the new transportation building in Montreal, in addition to the company's equipment. The directors are Messrs. Peter, William and Trail Lyall, J. N. Greenshields and H. W. Beauclerk.

COBALT ORE SHIPMENTS.

The following are the shipments of Cobalt ore, in pounds, for the week ended December 23rd:—La Rose, 145,736; McKinley-Darragh, 109,254; Crown Reserve, 42,200; Trethewey, 52,733; Cobalt Townsite, 55,251; Coniagas, 63,743; Chambers-Ferland, 64,000; Drummond, 60,000; Temiskaming, 63,260; Kerr Lake, 63,580; total, 719,757 pounds, or 359 tons. The total shipments since January 1st are now 49,695,530 pounds, or 24,847 tons.

In 1904 the camp produced 158 tons, valued at $316,217; in 1905, 2,144 tons, valued at $1,437,196; in 1906, 5,129 tons, valued at $3,900,000; in 1907, 14,040 tons; in 1908, 25,700 tons; in 1909, 29,751 tons; in 1910, 34,041 tons.

AMERICAN PAPER INDUSTRY FACES SERIOUS COMPETITION FROM CANADA.

Newsprint Made in Canada From Freehold Wood Goes Into the United States Free of Duty and Canadian Production Will be Increased.

Quiet now prevails among the paper manufacturers of the United States in marked contrast to the excitement during the last session of Congress, says the Wall Street Journal. Although the reciprocity agreement died an ignominious death in Canada, the result of its passing by Congress is being felt by paper makers in this country. Paper made in Canada from timber grown on freehold land, and valued at less than four cents a pound, now enters this country free of duty. For section 2 of the reciprocity bill went into effect immediately the President's signature was affixed, and can be repealed only by act of Congress. To add to the troubles of the United States paper manufacturers, other nations claim that under the favored nation clause of the United States tariff law they are entitled to the same right of free import granted to Canada.

Paper Interests are Grinding Wood.

But despite their troubles, present and to come, paper interests are grinding wood and making little noise. Still waters run deep. Perhaps one reason for the lack of protest is that those interested feel that if Congress could pass a bill calculated to upset the paper industry of the United States in the face of the facts brought to its attention last spring, there is little hope of a readjustment—at present.

The case of paper makers is, briefly, as follows: There is invested in the paper industry in the United States about $250,000,000. In national timber resources Canada, to-day, has a decided advantage over the United States. In its report, submitted while Congress was in session this spring, the Tariff Board stated that it cost $5.35 a ton less to make newsprint in Canada than in this country. The average cost in Canada is $27.53 a ton, as compared with $32.88 here. Practically all this difference is in the cost of raw materials. The duty on newsprint, and other paper in this class, was formerly $3.75 a ton, leaving an advantage of $1.60 a ton to Canadians even before the duty was removed. Canada now exports all her surplus paper to the United States, about 60,000 tons being shipped in 1910. With a large market opened to her, it is only reasonable to suppose that Canada will rapidly increase her production of paper.

Want Fair Protection.

The paper makers further contend that the ultimate result of the present status is not difficult to imagine. Unless the American paper industry is granted fair protection, they say it will cease to exist, or, at any rate, to prosper. There was, in any case, a natural trend northward, but the free admission of Canadian newsprint would seem to hurry this move on the part of the American manufacturer and force him up into Canada where his raw material is $5.35 a ton cheaper and the cost of manufacture about the same as here. Canada provides against the export of her timber by provincial export taxes on all wood cut on Crown lands.

Most of the paper made in Canada is from timber grown on government lands. But there is no reason why the paper for domestic consumption cannot be made from this timber, and the surplus for export from freehold wood. If the American moves into Canada now he will start on an even basis with the Canadian, but it seems certain that within a few years the production of paper in Canada will show a large increase and the manufacturer in this country be called upon to meet dangerous competition.

What the American Thinks.

This is the condition that paper manufacturers now face. As was remarked before, they are not, at the present time, saying much. They undoubtedly have cause for thought. And one of the thoughts uppermost in the mind of the American paper maker is that he has been unfairly treated.

◆

CAPITAL APPLICATIONS IN LONDON.

The London Economist in its quarterly compilation of new capital applications in London, shows that during the three months ended September 30th, a marked decrease occurred in amount as compared with the previous quarter and with previous years. The figures compare as follows:—

Quarter.	1911	1910.	1909.
1st...............	£61,245,000	£99,355,600	£64,238,400
2nd...............	56,238,800	88,721,400	56,835,200
3rd...............	14,914,000	28,111,600	27,694,400
4th...............	....	51,250,500	33,588,800
Total........	132,397,800	267,439,100	182,356,800

SOMETHING WORTH WHILE.

It is something worth while, and deserves sincere compliment, when a commercial body commemorates a birthday by publishing so handsome a quarto as that which we receive from La Chambre de Commerce Francaise. This inviting volume bears the title "Le Canada et la France, 1886-1911." Its main purpose is to make Canada better known and appreciated in France, and to assist in drawing the two countries together in closer relations.

It is difficult to select from the facts, figures and illustrations with which 230 of its pages are filled, portions which may be termed most interesting. It is well to notice, however, that it is divided into two parts, and that one of these is very sensibly devoted to describing Old France, its production, its commerce, its financial power, its moneyed institutions, its colonies. Probably the portion of this part which will attract most attention is that devoted to the foreign possessions of France; Algeria, Madagascar, Guiana, Guadeloupe, French India, St. Pierre and Miquelon. These diverse and widely scattered countries deserve more attention than they usually receive.

In a chapter on the foreign trade of Canada, covering pages 133 to 1,400, appears a comparsion of our imports and exports from Germany and France respectively, for a series of years. A practical thing for readers in Bordeaux, Nantes, Marseilles, Paris, is the lengthy list of French products exported to Canada in 1910 and 1911. This list shows, that besides the great sum which we send to France for silk, cotton, woolen goods and laces, we buy great quantities of her drugs, chemicals, wines, precious stones, jewelry, gloves, conserves.

The Canadian railways and waterways receive much publicity in these pages. Her factories, too, receive mention. Her riches of pulp and paper, fur, fish, fruit, minerals, receive treatment after the lengthy discourses on grain and cattle production. A page is devoted to Canada's climate, which the editor ingeniously heads with an extract from Voltaire's Candide upon the quelques arpents de neige (a few acres of snow), upon which the French monarch of that day spent more than all Canada was worth. The illustrations are admirable. There are many outside the province of Quebec who will prize the portraits given of men prominent in the French Chamber of Commerce of Montreal, notably MM. Obalski, Galibert and Chouillon.

A word is due as to the editorial arrangement of the book. It is characterized to a larger degree than is common in such compilations by an occasional lightness of touch which saves it from appearing to the reader merely a catalogue or an itinerary. For instance, he has put at the head of some of the chapters little sparkling, unexpected bits like this from the Intendant Talon: "Canada is of vast extent; towards the north I do not know its bounds," a prediction on page 52 from Le Grand Monarque himself; and a rebuke by Chateaubriand at a later day of his country for ever letting go of Canada. M. Maurice Trembly, the chief editor, and his collaborators for so valuable an assemblage of statistical and other matter, so agreeably conveyed. The larger part of the book is in the French language (it is to circulate in France), but the interesting review of 25 years of the Chamber de Commerce, by M. Revol, the president, is in English and French.

◆

SCOTCH BANKER PLEASED WITH CANADA.

"When I left Toronto I visited the Gow Ganda camp under the kind auspices of the Canadian Northern Railway, afterwards Sudbury and Port Arthur. At the latter place I made an exhaustive enquiry into the wheat elevator business and am quite satisfied that given a well conducted elevator company—the grading and weight being certified without any doubt—advances against wheat are amongst the safest and most remunerative methods of lending money to be found in the country, and moreover at the same time the greatest service our country can render to the Canadian agriculturists." So writes Mr. John Ferguson, of the National Bank of Scotland, in a letter to The Monetary Times. "From Port Arthur," he continues, "I went to Winnipeg, and thereafter to Saskatoon, Edmonton, Calgary, Vancouver and Victoria. With many friends in these cities, I discussed various matters touching upon the financial requirements of Western Canada, more particularly, and I found that while there was a somewhat strong feeling of optimism prevailing in certain quarters regarding, for instance, real estate values, yet amongst those holding high official positions in the financial world and therefore entitled to express their opinions, no dubiety existed as to the future, and I left Canada with the firm conviction that the occasion having certainly found the men, the money for the country's development would easily be found too, and we sincerely hope that the greater part of it may come from the Old Country.

"I should like to add a personal note and say how much I appreciated the great courtesy and kindness shown to me by the bankers and men of affairs whom it was my privilege to meet during my tour. More frequent exchanges of visits between the business men of countries so closely allied would doubtless tend to strengthen the bonds of respect and esteem for each other which must always underlie the successful and progressive intercourse of nations as well as individuals."

ONE HUNDRED AND FORTY-EIGHT INSURANCE COMPANIES

Are Doing Business With a Dominion Charter—Large Amount is Held by the Receiver-General.

At present 148 insurance companies are doing business under the supervision of the Dominion Department of Insurance at Ottawa. The nature of the business transacted by them is as follows:

Insurance.	No. of Companies Doing Business.
Life	56
Life, assessment plan	4
Fire	59
Accident	22
Guarantee	14
Steam boiler	7
Plate glass	13
Burglary	9
Registered mail, etc	9
Sickness	23
Title	1
Tornado	6
Live stock	2
Weather and hail	2
Automobile	8
Sprinkler leakage	2

Amount Held by Receiver-General.

The deposits for the protection of policyholders, held by the Receiver-General in trust for these companies, at July 3, 1911, amounted to $57,243,741.61 in securities, as follows:

Canadian government securities	$2,174,424	50
Canadian provincial securities	6,802,172	18
British government securities	1,430,800	02
British colonial securities	1,308,646	68
United States bonds	250,000	00
New York State bonds	78,000	00
Massachusetts bonds	1,805,000	00
Japanese government bonds	84,631	33
Montreal harbor bonds	566,000	00
Municipal securities	33,425,542	99
Bank stock	20,000	00
Loan companies' debentures	422,599	99
Railway securities, guaranteed	8,678,023	92
District of Columbia bonds	140,000	00
French rentes	57,900	00
Total	$57,243,741	61

There was also deposited with Canadian trustees, in conformity with the Act, $21,284,787.77, making a total of $78,528,529.38 for the protection of policyholders, being an increase since last report of $4,650,271.20.

For Protection of Policyholders.

The distribution of the total sum of $78,528,529.38 held, as above mentioned, for the protection of policyholders among the different classes, is as follows:

Fire	$15,813,695	40
Life	59,087,640	44
Accident, guarantee, plate glass, etc	3,627,293	54
	$78,528,629	38

The total amount of premiums received in Canada in 1910 for all forms of insurance was $56,035,725, of which $29,087,391 was received by Canadian companies, and $26,948,334 by British and American. The following summary shows the distribution of the premiums to the various classes:

Fire	$18,725,531
Tornado	588
Automobile	80,446
Life	29,771,903
Life (assessment)	2,249,703
Personal accident	1,815,571
Guarantee	298,940
Plate glass	151,399
Steam boiler	111,532
Burglary	55,934
Sickness (so far as separate return made)	603,274
Inland transit	114,371
Contract	72,939
Employers' liability	1,644,252
Sprinkler leakage	18,548
Title insurance	2,898
Live stock	86,645
Hail and weather	231,250
Total	$56,035,724

Canadian, British and American Companies.

Or dividing them according to the nationalities of the companies:

	Canadian Companies.	British Companies.	American Companies.
Fire	$4,334,612	$10,243,235	$4,147,684
Tornado	....	....	588
Life	19,952,162	1,580,255	8,239,486
Life assessment	2,249,703	....	....
Accident	1,056,085	442,241	317,245
Guarantee	108,876	120,695	69,369
Plate glass	66,490	20,072	64,837
Steam boiler	101,884	....	9,648
Burglary	38,541	....	17,393
Sickness	486,219	79,826	37,230
Inland transit	4,208	62,897	47,266
Contract	....	....	72,939
Employers' liability	362,769	967,358	314,125
Title insurance	2,898	....	....
Live stock	40,071	46,574	....
Automobile	51,623	....	28,823
Sprinkler leakage	....	....	18,548
Hail and weather	231,250	....	....
Total	$29,087,391	$13,563,153	$13,385,181

TRAINING THE CANADIAN BANK CLERK.

Rapid Promotion Makes It Necessary — What An American Critic Says.

The training of the bank clerk, the manager-to-be, has been the subject of considerable discussion for many years, but without practical or extensive results. It is known that several of the general managers of the most prominent Canadian banks are in favor of the proper preparation of the junior for the higher positions. This is a day of rapid promotion, and the accountant in November becomes the branch manager in December.

Professor Johnson, of New York University, dealt with this question in his monogram on Canada's banking system, written for the National Monetary Commission of the United States. As a teacher he regretted the seeming indifference of Canadian bankers with regard to the education of their employees. "When a boy," he said, "at the age of 15 enters a Canadian bank, he leaves all hope of education behind. He will learn a great deal by doing and by contact with strong and successful men, but he will have little chance to improve his mind by systematic study or through attendance upon lectures. His hours will be long and, from the American point of view, his pay will be small. If he has an iron constitution, sound nerves, and an inconquerable stomach, together with a clear head, a steady will, and a good character, he will some day be manager of a branch and perhaps a general manager.

"But he will have to work out his own salvation without the aid or encouragement of the world's best thought and experience. It is to be hoped that the older bankers of Canada will get a conviction of sin on this subject and through their Bankers' Association make some provision for the intellectual growth of the young fellows in their employ. If they fail on this score, the time may come when the staffs of the Canadian banks, despite their prestige, may no longer contain men of the quality necessary to the making of a first-class general manager."

The course in modern banking given through the Shaw Correspondence School at Toronto is one of the first practical methods to attain the desired end. This course is divided into introductory and advance sections, the former embracing commercial arithmetic, penmanship, bank geography, English composition and bank correspondence, commercial law, bookkeeping, practical banking, economics, current financial events, and the latter including commercial arithmetic, rapid calculation, commercial law, bookkeeping and accounts, bank correspondence, practical banking, bank organization and management, economics, auditing, and current financial events. The Monetary Times is in favor of all good media having for their object the training of the young bank clerk, and therefore has no hesitation in recommending this or any similar course, properly conducted.

◆

Until further notice United States Collectors of Customs will continue to collect the former rate of duty upon wood pulp and print paper from foreign countries. President Taft and his advisers feel that there is some question whether Congress in enacting Canadian reciprocity law actually intended to make Section 2 of the Act operative independent of the fate of the measure.

Mr. Lee of Minneapolis, and Mr. Patterson and Mr. Walla of Winnipeg, are representing the entire insurance liability involved in the recent Moose Jaw, Sask., fire. Mr. Walla has said that he would like to go on record as saying that the fire system of Moose Jaw must be improved immediately; otherwise the thirty-five insurance companies whose interests he represented will see no other course than that of doubling every insurance rate in the city.

WESTERN CANADA.

Brisk Holiday Trade—Winnipeg Buys American Cement—In the Wheat Markets.

Monetary Times Office,
Winnipeg, December 26th.

At this late date farmers all over the West are still threshing, the weather for the past month being mild and favorable, enabling them to get much of their crop threshed that many people expected would be a total loss. The movement of grain continues to be heavy, and money is reaching the farmers' hands in larger amounts every day, and payments are being made somewhat better as the year closes.

Loan companies report that payments of interest have also been fair. There is a good demand for money on farm property, and a good many of the local companies have placed all the funds at their disposal, while several of the larger companies have ample money for all requirements. General business in Winnipeg and throughout the larger centres of the West has been good, the holiday trade being considerably better than many expected, and on the whole merchants seem to be well satisfied.

Winnipeg Buys American Cement.

Last week the Board of Control in Winnipeg accepted the tender of the Lehigh Portland Cement Company of Chicago for 25,000 barrels of cement to be delivered as required in 1912. The tender of the Lehigh Company, the lowest of five submitted, will give Winnipeg its cement supply for next year at a net price of 60 cents per 100 pounds net weight, laid down in Winnipeg, excluding sacks, which will be returned at the cost of the manufacturer. This means a saving of 14 cents per barrel of 350 pounds on the price paid during the present year.

The actual price which the city will pay the Lehigh Portland Cement Company of Chicago for its supply next year may be less than the price submitted, as the company has agreed that if there is any reduction in duty or any revision of freight rates, the city will be given the benefit of reduction. This, it is understood, will include the rebate of two cents per barrel on sacks returned to the United States, which it is expected can be collected, and if this is done will increase the saving over last year's prices to 16 cents per barrel.

The Hall of Industry.

The Winnipeg Development and Industrial Bureau have undertaken another commendable work, in planning and paving the way for a Hall of Industry to be built in the western metropolis. Last week work was commenced on this project, and the ruins of the old Manitoba Hotel, which have been an eyesore on Main Street, are being torn down, and will be the site of the new hall.

The building provides a long-felt want in adequate space for bureau offices, and a central, economical and effective means for publicity and business. A large number of local manufacturers and business firms have already taken up most of the available space in the building for exhibits, assuring the success of the project.

In the Wheat Market.

In our Winnipeg market prices finish the week practically unchanged, after advancing 1c. The United States visible supply made an increase last week of 1,350,000 bushels, and is now up to 71,738,000 bushels. The general opinion is that the large visible is at the expense of invisible reserves, which, it is believed, are very much less than usual. In the last few days the primary receipts of wheat in the United States have shown a considerable falling off compared with a year ago, and if this becomes permanent for the season it will not be long before the large visible will show liberal weekly decreases. World's shipments last week were moderate at 9,120,000 bushels, and the quantity on ocean passage is down to 29,096,000 bushels, against 33,088,000 bushels a year ago. Since July 1st to December 16th the aggregate exports of wheat and flour from exporting to importing countries have been equal to 247,030,000 bushels of wheat, against 308,588,000 bushels for the same period last year, or 61,558,000 bushels less this year than last. The European visible supply is 85,608,000 bushels, against 113,600,000 bushels last year, or 27,992,000 bushels less. All over Western America the weather continues to be unusually mild for December. In Western Canada it has permitted the threshing of grain to be done to a certain extent, although not in a very satisfactory fashion. And it has enabled the railways to keep up the largest movement of grain that has ever occurred at this time of year in Canada.

In our Winnipeg market trade continues good in face of very large receipts induced by the favorable weather, which is more like the approach of spring than the fourth week in December. There is still a large demand from Europe for all grades under No. 2 Northern, and a great amount of wheat has been sold for January, February and March shipment. Atlantic vessel space is so much in demand that it is stated vessel agents are asking 9c per bushel from the Atlantic seaboard to English ports. This rate being highly remunerative to vessels in these days, it will attract plenty of ocean space before long. Prices in our market for cash wheat are practically unchanged from a week ago, except on the lower grades, which are in such extraordinarily abundant supply.

◆

NEW BRUNSWICK.

Outlook is Bright—Oil Shale Areas Will be Developed—More Industries for St. John.

(Staff Correspondence).
Saint John, New Brunswick, December 26th.

The close of 1911 finds the people of St. John and of New Brunswick animated by a greater spirit of hopefulness and confidence than at any former period in the history of the province. There have never been at any one time before as many large projects under way, nor as bright an outlook for the development of the resources of the province. Premier Flemming stated recently that $20,000,000 would be spent in the province within the next five years. If we include the expenditure for harbor development at St. John, the Premier's estimate is too small. The St. John Valley Railway will cost $9,000,000. The harbor works at East St. John will cost nearly $8,000,000. There will be another $1,000,000 or more spent at West St. John. The railway from Fredericton to the Queen's County coal fields will cost $1,000,000. The Grand Trunk Pacific will expend considerable money, and there will also be the development of the oil shales of Albert County, the iron mines of Gloucester, and other enterprises of importance.

In view of the brighter outlook, the province will make a more determined and effective bid for immigrants than ever before. The St. John Board of Trade has agreed to subscribe $5,000 to establish a branch of the Imperial Home Re-union Association, which provides funds to enable immigrants already in the province to bring out their families. Branches will be formed in other centres, and the Provincial Immigration Department will co-operate in the work. In addition an agreement has been reached by representatives of the Provincial and Federal governments, under which the Federal government will undertake to induce immigrants to come in larger numbers to New Brunswick, and the Provincial government will undertake to look after them when they arrive.

More Industries for St. John.

A Washington concern is willing to erect at St. John a branch factory for the manufacture of paper bottles, provided some local capital is invested in the industry. The Board of Trade has taken up the matter, and it is believed satisfactory negotiations will be concluded.

The government of New Brunswick is negotiating with the Canadian Pacific Railway to have agricultural trains tour the province next spring and summer, giving demonstrations at various points on the modern science of farming, as is already done in the west and in the United States. Such matters as dairy and fruit farming, stock raising and seed selecting, will be given special attention.

Development of East St. John.

While the contract for extensive developments at East St. John has not been signed, the government press publishes semi-official statements to the effect that the contract will be awarded to Norton Griffiths & Company, and that in the spring they will begin work on the breakwater, dredging, wharves, and drydock, which together will cost about $8,000,000. The work will cover a period of about five years.

While frozen halibut from British Columbia is being sold on the St. John market, very large quantities of frozen smelts are being shipped from New Brunswick to the American market.

The American lumber market has improved considerably, and orders are being received by local shippers.

The St. John City Council has adopted resolutions providing for a reduction of the assessment on improvements by 50 per cent., and an increase in the assessment on land, especially on vacant lots.

Purchase of Oil Shale Areas.

Sir William Mackenzie has purchased one hundred and ninety-two square miles of property in the oil shale areas of Albert County, and he intends to erect there a retorting and distilling plant, such as is used in the shale areas of Scotland. This great project, if carried out, will give employment to thousands of men, and with the natural gas and oil wells and the plaster quarries, will prove a source of enormous wealth in Albert County. The fact that the Canadian Northern Railway interests are investing in the province is in itself regarded as a very significant fact.

The exports by the winter steamships from St. John thus far this season are larger than those for the like period last year, and as usual a considerable portion of the exports are American goods brought to the Canadian port for shipment. The Canadian-Australian line will make five voyages from St. John this winter.

The Kent Northern Railway, which runs twenty-seven miles from Richibucto to Kent Junction, on the Intercolonial Railway, has been purchased by a Toronto syndicate. A local paper says the price was about $100,000. The line is one of the profitable short branches of the Intercolonial.—W. E. A.

Chartered Banks' Statement to the

NOTE:—Cents have been omitted from the above table, but their aggregate in even dollars has been included in the totals.

NEWS AND NOTES.

The Chilliwack Canning Company, putting up small fruits, reports a prosperous season in 1911.

Mr. S. Palco, an Italian from Shanghai, has arrived in Vancouver to start the manufacturing of spices.

The towns of Dundas and Arnprior, Ontario, will apply for legislation consolidating their respective floating debts.

Local men are behind a scheme in Vancouver to erect a modern hotel at a cost of half a million dollars. There will be 505 rooms and 250 bathrooms.

There is more talk of a steel plant for Burrard Inlet, but the only definite statement being that the Columbia Trust Company is the fiscal agent of the new corporation, whatever its name is.

The Canadian Pacific Railway is planning extensive expenditures on the Pacific coast during the coming year. A new depot is to be erected in Vancouver, with an addition to the Empress Hotel at Victoria.

Victoria, B.C., has in hand the construction of a large waterworks system that will ensure a sufficient supply for half a century. A pipe line 22 miles long will be built to Sooke Lake, and a reservoir to hold 130,000,000 gallons constructed.

Shawinigan shareholders have authorized the new $500,000 issue of debentures, bringing the issue up to $4,000,000. Mr. J. E. Aldred was in the chair and explained the reasons for the new issue, which was all sold in London at par and interest.

On a charge of arson, Mr. James Bovain was found not guilty at Toronto. The charge was made by another man, who claimed to be an eye-witness, and stated that Bovain had threatened to shoot him if he told. Malice, because of a refusal to loan money, is said to be the cause of the action.

Mr. Reginald C. Brown, of Vancouver, sued Doctors Brydone-Jack, Munro and Cummings for half interest in what they made out of the sale of the Dunsmuir Collieries to Mackenzie & Mann. The plaintiff alleged that owing to the dilatoriness of the doctors he lost the sale. The case was tried in Victoria, but dismissed.

FOREST FIRE WASTE.

Half of the Original Timber Supply Has Been Destroyed by Fire.

An important phase of Canada's fire waste was discussed by Mr. Percy Robertson, insurance broker and fire prevention engineer, at a recent meeting of the Toronto Insurance Institute. His address was illustrated with stereopticon views.

As an illustration of the extent of past losses by fire in our forests, he referred to estimates made by the Dominion Forestry officials in their last report, who state that more than one-half of the original timber supply has already been destroyed by fire; that government stumpage dues at the moderate rate of 50c per 1,000 feet on the timber destroyed would have yielded a revenue of $1,000,000,000; and that for every foot of timber ever cut in Canada, seven have been destroyed by fire. Serious forest fires continue to occur, and such a state of affairs demands the adoption of vigorous and intelligent preventive measures.

Question of Reforestration.

Reforestration cannot be of much use in a district which is still subject to disastrous forest fires, and unfortunately its need is not generally felt at present, as Canada has the distinction of being the only remaining large exporter of lumber which does not cut in excess of its annual growth.

Neither is the amount now being cut a serious factor, although the manner of conducting our lumbering operations is an important matter, since on this largely depends the future fire hazard of the district cut over.

In Canada, lumbering operations have been carried on with regard only to economy in getting the timber to the mill, and no attempt has been made to safely dispose of the slash or debris, so when fire occurs in limits which have been cut over, the ground condition facilitates the spread of the fire as well as increases the damage.

The causes to which most forest fires are attributed are sparks from locomotives and logging engines, camp fires left smouldering, fires set by settlers to clear land and getting beyond control, lightning and general carelessness of prospectors, campers and settlers.

Land is Rendered Barren.

Fire waste is a direct loss of wealth to the community, and in the case of forest fire waste the loss does not stop at the actual loss of timber and of the advantages of finally manufacturing and disposing of the products; there are serious indirect damages. For instance, where fire has passed the subsequent growth is of an inferior character and in some cases the land is rendered barren. This summer fires in the Porcupine district seemed to consume the entire soil in some places, leaving the rock bare. Moreover, there are hundreds of thousands of acres in northern Ontario in this condition.

Again, the forest floor when burnt over loses much of its ability to retain moisture, and when the rain and melted snow run off, they carry away a larger percentage of soil. The failure to retain moisture affects the storage of water and tends to produce freshet or flood conditions, and the soil which is carried away is deposited in our water sheds and navigable streams.

Surface Fires Feed on Shrubs.

Damage to water flow and by erosion is much less where the timber is merely cut than where the ground is burned over, the trees themselves being a comparatively unimportant factor in retaining the moisture. Forest fires are divided into three main classes. Ground fires burn in the forest floor, which is often of a peaty nature. These fires burn slowly, and while very persistent, do not travel rapidly.

Surface fires feed on the shrubs and surface debris and not only cause numerous crown fires, but do great damage to the forest floor and young growth.

Crown fires burn in the tops or crowns of the trees, but seldom reach large proportions, except in high winds, when they travel rapidly and are the greatest factor in the spreading of fires, owing to the burning debris from them being carried with the wind and starting surface fires.

Need of Effective Organization.

The Dominion and some of the Provinces have made efforts to improve conditions; but there is urgent need of an effective organization, provided with sufficient funds, and above all, free from the political interference which so hampers the effectiveness of government departments. Moreover, the occupation of protecting forests against fire should be placed on the plane of a profession instead of being considered, as at present, a temporary employment to be abandoned at will by the employee, and not requiring any special knowledge or application.

Fortunately for Canada, the forestry course at the University of Toronto, under the able and enthusiastic direction of Dean Fernow, is turning out a body of men whose training makes them both able and anxious to assist in solving this question. Other institutions have already followed suit, and when the influence of this educated body is felt we may look for intelligent handling of this important problem.

Germany and other continental countries appear to have eliminated already the risk of serious fires in their forests. Some effective work has been done in the United States, both by the government and by owners of timber limits; several public bodies on this continent, including conservation commissions and the National Fire Protective Association, have interested themselves in the problem and the publicity given to their reports will, without doubt, be beneficial.

◆

WESTERN CANNERIES COMPANY STILL LIVES.

The following note appeared in The Monetary Times of December 16th:

"The last echoes of Malcolm's Western Canneries, or the Central Packing Company, are being heard. Two accountants have examined the books of these companies, and, having compared the items charged to Mr. F. H. Malcolm, the promoter, with the cheques and vouchers authenticating the charges, they found that the amount standing to the debit of Mr. Malcolm's account should be reduced by items aggregating $2,816. This reduced the amount standing at Mr. Malcolm's debit to $1,734, which the auditors say is represented by a mortgage for $2,400. At the conclusion of the auditors' statement it is noted that the amount of $1,734 was subsequently duly paid. This is well, as far as it goes, but the fact remains that $72,000 were spent in organizing a company which never got out of the promotion stage. In view of that, we do not quite understand the object of securing the accountants' report noted above."

The following letter has been received from J. H. Menzies, of Messrs. Clarkson, Cross & Menzies, chartered accountants, Winnipeg:

"As one of the auditors referred to in your issue of 16th inst. as having examined Mr. Malcolm's account in the company's books, please allow me to explain that this was done nearly three years ago, the award being dated May 7th, 1909. Mr. D. A. Pender, the other auditor concerned, had been auditor for the company, but this was my first appearance; and my examination was undertaken at the urgency of Mr. Malcolm (whom I had never seen before), who complained to me that his personal account with the company had been improperly charged with items he could not understand. I therefore looked into the account for him, limiting my view, of course, to that, without any reference to the organization expense account, to which you also refer. In result, with the concurrence of Mr. Pender, the debit balance against him was reduced by $2,816, as you state, but you have been misled by an ambiguous sentence in the authority from which you quote as to its being 'noted at the conclusion of the auditors' report that the balance of $1,734 had been subsequently duly paid.' The auditors did not add that note. I have to this day no knowledge of any such payment having been made.

"Equally with you I do not understand the object of publishing the auditors' report now, which is an impudent thing to do without my consent, seeing that for what I did for Mr. Malcolm, he has never had the grace to see me since or try to pay me a single penny piece. But an object, no doubt, there is, and I hope you will kindly afford me in this way, in precaution, a means of dissociating myself entirely from Mr. Malcolm and any project of his. Yours, etc., J. H. Menzies."

The Western Canneries Company is famous for what it has failed to do since 1906, and it is to be revived again. The shareholders have lost money. A sum of more than $72,000 was wasted in organization, and the company should have been wound up long ago. New managers and new interests have from time to time become identified with the company, and twice have securities of the company been hawked in England. We advise shareholders to sever their connection with one of the most badly conducted and irrepressible promotions ever started in Canada.

◆

CANADIAN LOCOMOTIVE COMPANY.

The shareholders of the Canadian Locomotive Company will meet at Kingston on January 3 to vote on a proposal to remove Wm. Harty, of Kingston, from office as a director of the company, and to appoint or elect another person in his stead. This is a special meeting called by order of the board and so involves a majority of the directorate. A separate letter signed by a majority of the directors has also been sent to shareholders, explaining the situation, and asking for their proxies in support of the change. The Canadian Locomotive Company in June this year increased its capital by the issue of $1,500,000 of preference stock, carrying bonus of 25 per cent. common stock, the promotion being managed by Mr. Aemilius Jarvis, of Toronto, who is now one of the directors. At the time of reorganization Mr. A. W. Wheatley, of Dunkirk, New York, was engaged as general manager, and it is understood that present plans include promotion of Mr. Wheatley to the directorate. The proposed changes are apparently due to differences of opinion, including probably the question of removing the company's plant from Kingston.

FIRE INSURANCE RESULTS.

Review of the Past Twelve Months' Operations in Canada—Meagre Profit and in Some Cases, a Deficit.

By W. B. Meikle.

[The following article, reviewing fire insurance conditions in Canada during 1911, is from the pen of Mr. W. B. Meikle, general manager of the Western Assurance Company, Toronto, and appears also in the New York Journal of Commerce.—Editor Monetary Times].

The fire insurance business can only shew a year of meagre profit and to a number of companies an actual deficit, and it would be difficult to find reasons for forecasting any improvement in the new year. The year 1910, by the returns of the companies reporting to the Dominion Government, gave a loss ratio of 58 per cent., this embracing paid and outstanding losses occurring in the year, and the year 1911 will be no better. Owing, however, to the difference in underwriting methods, the experience will be diverse. The companies having the bulk of their business in the western provinces will show a better record than those whose premium income is drawn mainly from the east.

We have had our usual conflagrations in the large cities and towns, our ever recurring forest fires in the new sections of the country, and our many individual losses which might have been small if properly handled.

Many Big Fires.

There has been a large number of fires during the year, in which heavy losses have been experienced, and the following is a list of these amounting to $100,000 or over:

January.	
Quebec, P.Q.—Dry goods stores	$110,000
Winnipeg, Man.—Wholesale stores	300,000
Middletown, N.S.—Business section	115,000
February.	
Montreal, P.Q.—Bedstead factory	100,000
April.	
Vancouver, B.C.—Shingle mill	130,000
May.	
Quebec, P.Q.—Roller rink, carriage and corset factories	170,000
June.	
Winnipeg, Man.—Garage	125,000
Montreal, P.Q.—Church	150,000
July.	
Sarnia, Ont.—Lumber yard	200,000
Eganville, Ont.—Business section	225,000
Porcupine, Ont.—Mining towns and standing timber.	2,500,000
Calumet, P.Q.—Pulp and saw mills	600,000
Farnham, P.Q.—Business section	150,000
Sellwood, Ont.—Lumber mill and yard	135,000
Aylmer, P.Q.—Lumber yards	400,000
September.	
Nelson, B.C.—Brewery and smelter plant	500,000
November.	
London, Ont.—Business section	500,000
Regina, Sask.—Implement warehouse	125,000
Arrow Lake, B.C.—Lumber mill and yard	100,000
December.	
Owen Sound, Ont.—Grain elevators	750,000
London, Ont., confectionery works	175,000
Moose Jaw, Sask.—Flour mill and elevators	400,000

For an exceptionally favorable year in Canada the insurance interests would have to look for a year in which the seasons were abnormal by the climate being mild in winter and wet in summer, in which the public authorities were alive to their duties in preventing fire waste, and in which fires were confined to the buildings where they originated.

Increased Expenses and Falling Rates.

As if it were not bad enough to have an unduly high loss experience, the year has been burdened by increased expenses on the one hand and falling rates on the other. The increased expense is mainly due to the American companies, who have influenced the introduction of the graded scale of agency commissions into the Province of Ontario. But the restrictions placed upon the agents before they can receive the increased commissions have been objected to by about half of their number, and further, have given cause for irritation to the provincial mutual companies. These mutual companies have permitted their agents to represent Association companies, and it is to be regretted that such agents are now to be penalized, since the mutual companies have always had their own method of compensation, and this is not recognized by the new graded scale, even though it is in most cases no higher. In addition the companies are facing discontent from the agents in the other provinces, who also naturally desire to obtain increased commissions. Hitherto Canada has followed the good, old British policy to ''live and let live,'' but the monopolistic ideas of our Southern friends will in time bring to us the same unpleasant legislation they now bemoan.

The reduction in rate is largely due to improvements made to escape additional charges in the rating schedules. But the weakness of the system of schedule rating is in that it presumes that fires will all be unit losses, whereas in a country like Canada we experience an abnormal number of fires which extend over many buildings. It is interesting to compare the average rate of premium and the average percentage of loss during each of the past ten years with that of the United States, and the following table gives this:

Rate of Premium.

	1901	1902	1903	1904	1905	1906	1907	1908	1909	1910	Average for the 10 years
Canada	1.42	1.47	1.50	1.60	1.60	1.53	1.50	1.50	1.41	1.36	1.48
U. S........	1.06	1.15	1.18	1.16	1.16	1 14	1.16	1.14	1.12	1.08	1 13

Loss Ratio.

	1901	1902	1903	1904	1905	1906	1907	1908	1909	1910	Average for the 10 years
Canada....	70.29	40.55	50.94	107.76	43.30	46.73	54.02	60.77	50.46	58.40	56.87
U. S.	59.10	52.48	48.61	61,78	47.89	96.80	46.42	54.84	48.12	49.74	56.62

Average Rate of Premium.

The average rate of premiums is higher in Canada than in the United States, but notwithstanding this, the average rate of fire loss to premium is and has always been higher in Canada. It is clear, therefore, that the value of insurable property destroyed by fire in Canada is proportionately much greater than in the United States. It is also evident that the insurance companies in the Dominion give rates closer to actual cost than are given in the United States. And even more strikingly apparent do these points become when it is borne in mind that the normal loss average of the United States during the past decade has been greatly increased by many serious conflagrations, including the unparallelled disaster at San Francisco in 1906.

The question of the expense of the business is one to which the companies in Canada should give serious attention. Nothing has been done to meet the public demand for economy in this direction; but, on the contrary, the cost of the business has recently been increased by the higher commissions paid to the agents in the country towns of Ontario. True, the companies in the United States have also increased the agents' commissions in their country towns, but, on the other hand, they have offset this increase by reducing the brokerage and agents' commissions in the large cities. May we hope that we may soon be able to extend congratulations to the American companies for showing us as a result of their experience in their larger field how economies instead of increased expense can be brought into our business.

Unlicensed Insurance.

The Canadian Manufacturers' Association fought the insurance companies two years ago when the proposed bill to regulate and tax unlicensed insurance was before Parliament, and they have since found it difficult to square the views then expressed with the protection they demand for the capital invested in their own trades. The insurance interests have an equal right to demand protection for their capital and for just the same reasons. There is, however, some truth in one of the statements which have been made from time to time—that the commissions paid for the business in large cities are unduly high, and it is necessary that the insurance companies should bring this item of expense to a more reasonable figure.

There has been no insurance legislation by the Dominion Parliament during the past year, but three provincial Legislatures—British Columbia, Manitoba and New Brunswick—have passed Acts with the object of better regulating fire insurance in their provinces, and on lines which commend themselves to both companies and policyholders.

The Province of Ontario is now making a revision of its Insurance Act, and has given all interested parties every opportunity of pressing their views, and the result will doubtless be to improve the Act to the general satisfaction for another decade. If the New York Standard policy form could be adopted in Ontario instead of the present one, in which the obligatory conditions may be altered or added to by variations, and if the insurance companies, both tariff and non-tariff, could get together and organize a bureau for the adjustment of losses, as is now done in most of the large cities in the United States, whereby a corps of capable and disinterested adjusters attend to the settlement of claims to the satisfaction of both the policyholders and the companies, we would have copied from the States two features at least of improvement to our business.

It is important and interesting to review the work done in other countries on the subject of fire waste prevention and to compare this with the present condition in Canada.

In the United States some measure of enlightenment is now noticeable in the efforts of the Legislatures and public bodies to reduce the terrible fire waste in that country. Improved building laws are being offered in very many cities. In many States one day a year, known as Fire Prevention Day, has been appointed, when an attempt is made to clean up the basements and back yards of all the business places. The children in many schools are given instruction in regard to the excessive fire waste of their country and how it may be lessened. Fire marshals to investigate suspicious fires and to inspect and carry out improvements in dangerous buildings, are now added to the public service in most of the States.

Reduction of Fire Waste.

After two important legislative commissions which were appointed by the States of Illinois and New York to investigate the question of fire waste prevention and fire insurance, had reported, the result showed that the fire companies had at their own expense done more than Legislatures or any other public bodies towards the reduction of fire waste by means of their laboratories and inspection bureaux. And the New York report singles out for commendation the rate-making body known as the New York Board of Fire Underwriters and the inspection body known as the National Board of Fire Underwriters, by the remark: "The committee commends them to the Legislature for the useful work they have already done along this line."

Reports by the British Fire Prevention Committee (a body composed of architects, city and other engineers, surveyors and fire brigade chiefs), state that after a visit to Germany they summarize their impressions as follows:

"That the public authorities, as headed by the German Emperor and the Empress, take a very great interest in questions appertaining to fire prevention and the fire service, and certainly realize the necessity of systematic fire protective measures.

"That the substantial character of the construction of domestic and business premises, the interior of which is subject to detailed control, accounts for the comparatively limited extent of fires in the central area of the cities visited.

"That questions of fire protection on the structural side are dealt with to a considerable extent by the superior officers of the various professional fire brigades.

"That much is being done in Prussia to instil into the minds of children at an early age the necessity of exercising great care in the use of fire and artificial light. The general result of this is that children at an early age are taught by lesson, by fable, or by suitable pictures, the necessity of being careful when using matches and open lights, when approaching fires, carrying lamps, etc. They are especially warned as to the dangers of petrol and also of such materials as celluloid, etc.

"That where there has been loss of life at fires, where a fire may be either of technical interest or of interest as an example for the prevention of similar fires, or where there is suspicion of arson, short informal inquiries are held by a superior fire brigade officer, a superior officer of the police, and a representative of the municipal buildings control department, and where serious neglect is ascertained or possible arson suspected, the facts are laid by these officials before the public prosecutor, to take what action he deems advisable."

National Fire Service.

Following a visit to Austria, Hungary and Bavaria, the committee remark:

"The general national fire service appeared to be of a very high standard, far in advance of what we are at present used to. Architects, engineers and public officials were found generally to take a greater interest in questions of fire prevention than is the rule at home. The codes of general building regulations and special fire preventive regulations were everywhere found to be of a very comprehensive character. In Bavaria and in the Rhenish cities visited the control of minute details appeared remarkable."

In a report on Italy they state:

"The King of Italy evinced his great interest in fire preventive matters generally and showed a remarkably detailed knowledge of the fire protection questions of Italy, as also of other countries. The superior officers of the various professional fire brigades were without exception either military officers (generally Royal Engineers and Artillery) or civil engineers or architects by training."

As regards Switzerland, the statement is made:

"The various public services established for the public welfare, such as the general control of building operations, the protection of buildings, etc., the establishment of fire and salvage services, etc., afforded a remarkable lesson as to what could be attained in the public weal, the community being willing."

In Great Britain the wooden building and the shingle roof are unknown and the skyscraper is not permitted. Fires of heavy loss are so infrequent that the insurance rates are about one-fourth of those in Canada, and those who have fires, which cannot be clearly traced to accident, are looked upon with suspicion. Even there the British Fire Prevention Committee widely circulated in the schools a little book entitled "Fables for Children," and these tales have since been embodied in the school reading books issued by the Governments in several of the Australian States.

Fire Waste in Canada.

The insurance companies in Canada, through their associations, have done all within their power to reduce the fire waste, but in nearly every case they could only obtain results by bartering with the authorities for improvements in water supply or brigade equipment in return for a reduction in insurance rates. But the finest system of water supply, the most complete installation of hydrants in the streets, and the most up-to-date fire brigade, will never give the public any relief from the constant menace of conflagrations. Before such relief can be secured, better building laws must be enforced by legislation in all the cities, towns and even villages throughout the Dominion. Recently the city authorities in London, Ontario, demanded a reduction in insurance rates owing to improvements in water supply, but within a fortnight after the insurance companies had given a reduction that city had the most serious conflagration in its history. A fire broke out in a leading retail emporium and extended over seven large retail stores, causing an insurance loss of about $500,000. It was found that the party walls between the buildings were of such indifferent construction and so thin that the falling of the burning roofs led to parts giving away and the flames spreading.

A deputation of business men in the Toronto Board of Trade visited the Porcupine district in New Ontario last summer and were about to agitate for a reduction in the insurance rates in the new mining towns in that district, but the terrible conflagration which occurred shortly after their visit revealed the fact that the buildings were little better than rows of packing cases in which stoves were used for heating for over half the year. Indeed they were even worse than the buildings in some semi-civilized countries, in which flattened-out oil tins are used by the natives in their construction. This Porcupine conflagration has also directed attention to the fact that a number of towns might be affected by one forest or bush fire, as this one extended over an area of ten miles long by eight miles wide, and wholly or partially destroyed the mining towns of Cochrane, South Porcupine, Kelso, Pottsville and Golden. Nothing had been done to protect these towns from the great peril of fire from the surrounding woods or from fires occurring in the buildings themselves. The insurances were largely placed with unlicensed companies, and it is reported that a large amount of the insurance loss cannot be recovered.

Loss of City Property.

How serious the loss of property in our large cities is may be illustrated by comparing the city of Toronto, which has a population of about 380,000 and has varied industries, with metal working predominating, with an English city of like industries—Birmingham is about the most appropriate—and whilst its population is 580,000, the average yearly value of property destroyed by fire in Birmingham during the past ten years was only $237,000, and it has never had a conflagration to treat as an exceptional experience. But the yearly value of property destroyed by fire in Toronto averages $534,000 a year during that period, and this excludes the $10,000,000 conflagration which it had in 1904.

To show that civic authorities are to be blamed for the negligence of fire which exists in many cities, it is only necessary to take as an illustration the following extracts from the last report of the Montreal Fire Brigade:

"In many factories, schools, etc., the lives of hundreds of employees, students, and the public in general, are daily jeopardized by the carelessness of employers and others. Our by-laws respecting fire escapes and public safety are overlooked by a large number of property owners. Fire escapes are often inadequate, whether not extending to either roof or ground or of difficult access; windows leading to them are sometimes barred or blocked with goods, etc., or too high up. In factories, doors are locked during working hours. Waste paper and refuse chutes, dumb waiters, etc., are very dangerous for the rapid spreading of flames throughout buildings. Open elevators are often surrounded by winding stairways, thus in case of fire people coming down the staircase are exposed to the heavy draught coming up the elevator shaft and run great risks.

"Garages are established in buildings which are anything else than fit for that purpose, although the dangers attending the storage and handling of large quantities of gasoline and other highly combustible materials have often been emphasized. Several of them have been established without any permit and are situated in thickly populated places and liable to start very bad fires at any moment. Another evil rests with that class of buildings advertised as of fireproof construction, and which burn like tinder at the first outbreak of fire, as was the case with the Bishop Street Apartments, etc. We have too many of those "fireproof" buildings; whenever a building is intended to be fireproof, let it be strictly so. Tenants or occupants should not be made to believe they are perfectly safe in such places when they are so far from such immunity.

"Conditions in Montreal's moving picture theatres have not improved, and they remain, at least for several of them, real fire traps. The aisles are narrow and allowed to get overcrowded; exits are inadequate or blocked. Most of them are operated under dwellings, stores or boarding houses, while they should occupy separate buildings altogether."

Indifference and Selfishness.

Must we wait for some dreadful holocaust to force the authorities and the public to recognize the fact that conditions in many parts of our large cities are just as bad as they were found to be in New York after the terrible shirt-waist factory fire in March last?

It cannot be stated that any Governor-General, any Premier, be he Dominion or Provincial, or any leading statesman, has evinced any particular interest in awakening public bodies and the people to their obligations in making their towns safer against the great danger of destruction of property and human lives by fire, and to reduce the enormous waste of $20,000,000 of property annually. We can only hope that the Legislatures will awaken to their duty and place a check upon the indifference and selfishness of those who profit by the rapid filling up of our cities and towns. And that the public will realize the truth of the economic law that the monetary value of all property destroyed by fire is lost forever to the community. Further, that the insurance companies do not re-incarnate destroyed property, but merely act as distributors of the loss amongst their policyholders.

[A number of articles of interest to fire underwriters will appear in next week's Annual Review of The Monetary Times.—Ed. M. T.]

◆

PERSONAL.

Mr. J. W. Miller, of Winnipeg, has been appointed City Clerk of Calgary.

Mr. John C. Kerr, for many years City Clerk of Brandon, Man., died at Los Angeles, Cal.

Dr. J. A. Macdonald will address the Life Underwriters' Association of Toronto at their meeting on Friday.

Mr. H. C. Wright, formerly of a Toronto branch of the Sterling Bank of Canada, has been appointed manager of the Jordan Station branch, Ont.

Mr. Andrew A. Allan has been elected a director of the Merchants Bank of Canada, in place of Mr. Hugh A. Allan, who is now residing in Great Britain.

Mr. E. A. Hope, F.S.I., has been appointed manager for Regina of the National Finance Company, Limited. Mr. Hope is a chartered surveyor of Great Britain and a man of considerable and varied experience.

Mr. P. M. Block, of Portland, Maine, announces that early in the spring he will erect at St. John a branch factory for the manufacture of blockite, an explosive for which there is already a considerable market in the Maritime Provinces.

Mr. George L. Cains, of Greenshields, Limited, has been elected a director of the Prudential Trust Company, and also a member of the executive. Mr. Gilbert W. Ganong, manufacturer, of St. Stephen, New Brunswick, has also been elected a director.

Mr. Wm. M. MacPherson, of Quebec, president of the Molsons Bank, has been elected a director of the Grand Trunk Pacific Railway Company. Mr. MacPherson is also the Quebec representative of the White Star-Dominion Line, one of the important steamship connections of the Grand Trunk.

Mr. W. B. Tennant has secured a controlling interest in the stock of the St. John cotton mills. It is not known who are his principals, and there is a rumor that they are closely identified with Canadian Cottons, Limited. Mr. Tennant declines to make a statement other than that the mills will continue to be operated under the present management, and that next year considerable money will be spent in improving the equipment.

CANADA'S BALANCE SHEET.

Year Ending December 31, 1911.

Assets.

- Bank deposits growing.
- Bank clearings larger.
- Investment market active.
- Railroad earnings bigger.
- Industrial conditions excellent.
- Trade increasing.
- Crop area expanding.
- Western crop a new record.
- Immigration volume good.
- Inflow of capital continuing.
- Railroad and other construction active.
- Mineral production increasing.
- Mergers eliminating unnecessary competition.
- Labor troubles lacking.
- Commercial failures fewer.
- Money market favorable.
- Stock exchanges active.
- Bankers' conservatism.
- Cheap mining shares market dull.
- Wealth per capita increasing.

Liabilities.

- Real estate gambling.
- Watered stock issues.
- Insufficient discretion in merger promoting.
- Stock selling of worthless companies.
- Indiscriminate use of well-known names.
- Lack of proper selection of London issues.

PUBLIC UTILITY COMPANIES IN BRITISH COLUMBIA.

Street Railway and Telephone Company are Being Criticized—Grand Trunk Pacific Agreement Rescinded.

(Staff Correspondence).

Vancouver, December 23rd.

The British Columbia Electric Railway Company operates in Vancouver and New Westminster, with suburban and interurban lines on the lower mainland. It owns the light and gas franchises in Vancouver and the lighting franchise in New Westminster, also in Victoria, where it has the lighting franchise. It has a power plant on the mainland, another near Victoria, on Vancouver Island, and is the biggest company in the West.

The British Columbia Telephone Company's charter enables it to have systems throughout the province, but its main operations are in Vancouver, Victoria, New Westminster and between these points.

The telephone company has had its own troubles to give an adequate service in Vancouver, which has grown so rapidly. There have been complaints regarding service, and suburban districts have complained also of the rates. There is a suggestion to have the provincial government take over the telephone system. The latest public body to recommend this is the combined board of trade of Richmond and Point Grey. The statement was made at the meeting that while the rates might be about the same, the service would be better. The telephone company has had to increase its rates for business telephones in Vancouver and Victoria, and this will bring further criticism.

Vancouver Complains of Street Railway Service.

The difficulties that beset the telephone company are infinitesimal compared with those of the British Columbia Electric Railway Company. The Point Grey by-law, giving the company power to operate in Point Grey, has been dismissed in the courts, and all construction and service has been discontinued in that suburb of Vancouver. The company has stood strictly upon its rights, and naturally will have nothing to do with any compromise proposals.

The City Council unanimously agreed to see if the company's franchise in Nanaimo cannot be cancelled, because of the persistent ignoring of requests for a better service. Certain it is that in many points which tend to the comfort and convenience of the people, the company has been deficient. In some cases passengers have to wait fifteen minutes for connecting cars. After the action of the city this week, to seek annulment of the franchise, the company, which by the use of passes keeps criticism out of the papers, gave figures to show that the number of cars used were as large in proportion as on street railway systems in other cities. It based its calculations on the population of Vancouver proper, allowing so many cars to these people. The real facts are that 30,000 to 40,000 more people are served, and Vancouver proper cannot be considered by itself, for all the people in the districts immediately adjoining work in the city and come and go morning and evening.

It is reasonable to suppose that because conditions are such that the company cannot adequately cope at present with the situation, the government will not allow cancellation of the franchise. The company has at least been sincere in its general attempts, and if it has been overwhelmed by circumstances, the fault is not altogether its own. All these inconveniences are incidents of sudden and enormous growth in the city.

Grand Trunk Pacific Agreement Rescinded.

On Monday night the Council dismissed the proposed agreement recommended by the Board of Works to give the Grand Trunk Pacific berthing rights for five years covering a large portion of the street end of Gore avenue, and almost rescinded a former resolution approving of the transfer of the existing lease at the street end from the Sechelt Steamship Company to the Grand Trunk Pacific. The Council resolved that at the end of two years, when the lease expired, no extension would be considered. General sentiment is against allowing large corporations to monopolize the street ends on the waterfront, as all the wharfage room is now so held that the water cannot be reached except large tolls are paid.

An event of importance to Vancouver Island was the inauguration of a regular service over the new line of the Canadian Pacific Railway from Nanaimo, on the east coast, to Alberni, on the west coast. This is the first line to cross the island, the trip hitherto being made by stage.

Swift & Company at the Coast.

The Swift Company is gradually establishing itself throughout western Canada. Two or three years ago it erected a large plant at Edmonton, and now, after acquiring a controlling interest in the British Columbia Market Company, the contract has been let for the construction of a warehouse in Vancouver. This will in all respects be a Swift branch house, with sausage manufacturing and meat curing departments.

Acting on the suggestion of Mr. T. T. Langlois, the Vancouver City Council has approved the suggestion to allow joint stock companies to have a vote at municipal elections.

Russell Motor Cars

THE following letter is typical of many constantly being received from satisfied owners of the Russell Car:

Respectfully submitted:

Russell Motor Car Company,
Hamilton Branch.

Dear Sirs:—

I had delivery of your Model R, five passenger car, a short time ago, and I have given it a fairly good trial, and I wish to say that I am delighted with it in every way.

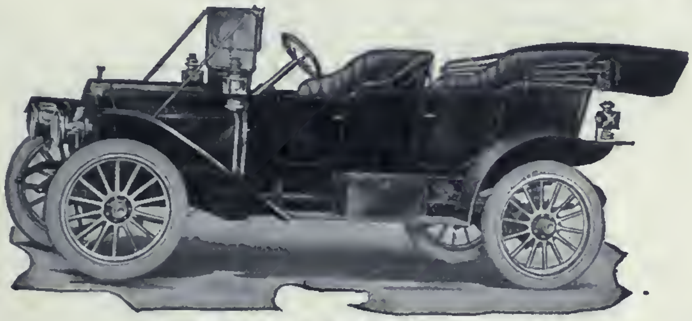
You know I had a 1909 model of the same car in use until now, and it gave me very good satisfaction. Your 1911 Model is improved in many ways, running more smoothly, more noiselessly, and easier of operation.

You know I have had considerable experience with several makes of cars, and I believe your 1911 Model is the best car to-day for the money.

You are quite at liberty to make whatever use you desire of this letter.

Yours very truly,
(Signed) **S. D. BIGGAR,**

BIGGAR & TRELEAVEN,
Barristers,
Hamilton, Ont.



Russell Model R, $2,350, equipped

Russell Motor Car Co., Limited
Makers of High Grade Automobiles
Factory: West Toronto. Branches: Toronto, Montreal, Hamilton, Winnipeg, Calgary, Vancouver, Melbourne, Aust.

RECENT FIRES.

Monetary Times' Weekly Register of Fire Losses and Insurance.

Clinton, Ont.—December 26th.—Business section destroyed. Loss and origin unknown.

High River, Alta.—December 23rd.—Prairie fire does considerable damage in Mosquito Creek Valley.

Moncton, N.B.—December 20th.—Business section destroyed. Loss about $30,000. Origin unknown.

Oakburn, Man.—December 24th.—General store of Mr. W. A. Finlay destroyed. Loss about $6,000. Origin unknown.

Magrath, Alta.—December 22nd.—Latter Day Saints' Church destroyed. Loss about $5,000. Origin, gasoline explosion.

Trenton, Ont.—December 26th.—House of Mr. Geo. Robinson, a few miles west of Marmora, destroyed. Loss and origin unknown.

Golden City, Ont.—December 28th.—Town fire swept, 20 business places destroyed. Loss about $100,000. Origin overheated stove.

Belleville, Ont.—December 27th.—Summer resort near the town destroyed. Loss about $3,000. Origin, supposed incendiarism.

Frankford, Ont.—December 27th.—Village fire swept and 2 hotels, 8 stores, and 6 dwellings were destroyed. Loss and origin unknown.

Canora, Sask.—December 24th.—Store of Mr. R. J. Fawcett and adjoining stores destroyed. Loss about $15,000. Origin unknown.

Brockville, Ont.—December 27th.—Business section destroyed, including Strathcona Hotel. Loss about $85,000. Origin unknown.

Windsor, Ont.—December 27th.—Grocery store of Messrs. John Scott & Company, destroyed. Loss about $2,000. Origin, rats nibbling at matches.

Brighton, Ont.—December 25th.—Barns of Mr. Samuel Humphrey, Stony Point, destroyed, also 200 bushels of oats, 20 tons hay, farm implements, etc. Loss and origin unknown.

Windsor, Ont.—December 21st.—Barn owned by Mr. John Smith destroyed, also 9 horses, 12 cows, several hogs, and season's crops. Loss estimated at $10,000. Origin, supposed incendiarism.

Hastings, Ont.—December 22nd.—Clarendon Hotel block damaged. Loss about $12,000. Origin unknown. The following companies are said to be interested: Caledonian, Hartford, Commercial Union, Manitoba, Phoenix of London, Atlas, Union, and Northern.

◆

ADDITIONAL INFORMATION CONCERNING FIRES ALREADY REPORTED.

Owen Sound, Ont.—The companies interested in the recent elevator fire are as follows:—Acadia, $3,000; American Mutuals, $30,000; British American, $5,000; Connecticut, $3,000; Employers' Liability, $6,000; German-American, $5,000; Hartford, $25,000; Home, $8,000; Lloyds of London, $240,000; Liverpool & London & Globe, $24,000; London & Lancashire, $10,000 National of Pittsburg, $5,000; New York Underwriters, $25,000; Northern, $10,000; Phoenix of London, $24,000; Protector Underwriters, $4,000; Queen, $8,000; Royal, $16,000; Royal Exchange, $5,000; Scottish Union and National, $7,500; Springfield, $5,000; Union of Paris, $7,500; Western, $45,000; total, $521,000; loss, total.

London, Ont.—The D. S. Perrin Company sustained loss of about $200,000. Insurance as follows:—Acadia, $7,000; Aetna, $7,500; Alliance, $7,500; British America, $5,000; British Crown, $5,000; Caledonian, $3,000; Central Canada Manufacturers, $10,000; Canadian, $2,500; Continental, $10,000; Economical, $2,500; Employers' Liability, $7,500; Fidelity Underwriters, $10,000; General of Perth, $2,500; German-American, $5,000; Gore, $6,000; Guardian, $10,000; Hand-in-Hand, $5,000; Hartford, $7,500; Home, $7,500; London Mutual, $5,500; Manitoba, $1,500; New York Underwriters, $20,000; North British, $10,000; Northern, $15,000; Pacific Coast, $2,000; Perth Mutual, $2,500; Phenix of Brooklyn, $7,500; Phoenix of London, $10,000; Rimouski, $5,000; Rochester-German, $5,000; Royal Exchange, $22,500; Sovereign, $5,000; Springfield, $2,500; Sun of London, $5,000; Union of London, $10,000; Waterloo Mutual, $2,500; Yorkshire, $7,500; total, $260,000; loss, 66 per cent.

LIFE INSURANCE FROM AN ACTUARY'S STANDPOINT

By A. F. Hall

The following table shows the net amount of insurance in force, i.e., the gross amount less the amount of re-assurances in force in the Canadian, British, and American companies and the percentages of the total held by each group. Both ordinary and industrial policies and also bonus additions are included but not the foreign business of Canadian companies.

Net amounts of life insurance in force in Canada:—

Year	Canadian Companies. $	British Companies. $	American Companies. $	Total. $
1900 ..	267,151,086	39,485,344	124,433,416	431,069,846
	62.0%	9.2%	28.8%	
1905 ..	397,946,902	43,809,211	188,578,127	630,334,240
	63.1%	7.0%	29.9%	
1910 ..	565,669,110	47,801,798	242,629,174	856,100,082
	66.1%	5.6%	28.3%	

How well the insurance agent has done his work, notwithstanding the disturbing influence of the investigation, is realized when we consider the amount in force per capita. Taking 5,350,000 as the population on December 31st, 1900, the life insurance in force at that time averaged $80 for every man, woman and child of the population. At the end of 1910 the average amount was $122 for a population of 7,000,000. Without the complete census figures it is impossible to make such a comparison considering only persons of insurable age, but it is unlikely that the proportion of such persons changed to any extent during the ten years.

Increase Small But Steady.

There has been a small but steady increase in the proportion carried with the Canadian companies, and a corresponding decrease in that held by the British, while the proportion with the American companies remains just slightly less at the end of 1910 than at the end of 1900. During the first five year period under consideration, the total amount in force increased over 45%, but during the second only about 35%. For the Canadian companies only, the corresponding increases were 49% and 42% respectively. We may compare these figures with the growth of the foreign business of the Canadian companies. In 1900 there were six companies doing business in foreign fields, and at the close of that year they had $35,859,762 in force. At the end of 1905 the amount had increased to $89,677,177 in force, with seven companies, and at the end of 1910, to $141,831,115, in force with ten companies. There was thus an increase of over 150% during the first quinquennial, and of 58% during the second.

It will be remembered that the investigation of the life insurance companies by the Royal Commission took place in 1906, and the disturbing influence of that investigation may best be shown by its effect on the amount of new policies written before and after it took place.

In 1900 there were 17 Canadian Life Insurance Companies actively engaged in writing new business, 9 British and 10 American, or 36 altogether. In 1905 there were 41, of which 21 were Canadian, 8 were British and 12 American. In 1910 the number had increased to 44, with 23 Canadian, 9 British and 12 American.

Industrial and Monthly Policies in Canada.

The following table gives the amount of new policies including industrial and monthly policies written in Canada and reported as taken by each group of companies.

Amount of insurance effected in Canada:—

Year.	Canadian Companies.	British Companies.	United States Companies.	Total
1900 ..	$38,545,949	$3,717,997	$26,632,146	$68,896,092
	55.9%	5.4%	38.7%	
1901 ..	38,298,747	3,059,043	32,541,438	73,899,228
	51.8%	4.1%	44.1%	
1902 ..	45,882,167	3,324,317	31,346,482	80,552,966
	57.0%	4.1%	38.9%	
1903 ..	55,169,104	3,132,904	33,265,797	91,567,805
	60.2%	3.4%	36.4%	
1904 ..	59,051,113	3,109,778	36,145,211	98,306,102
	60.0%	3.2%	36.8%	
1905 ..	67,539,141	3,881,980	34,486,215	105,907,336
	63.8%	3.7%	32.5%	
1906 ..	62,450,253	4,472,426	28,090,526	95,013,205
	65.7%	4.7%	29.6%	
1907 ..	61,838,766	3,501,743	25,042,423	90,382,932
	68.4%	3.9%	27.7%	
1908 ..	69,029,583	3,389,757	27,476,866	99,896,206
	69.1%	3.4%	27.5%	
1909 ..	79,121,977	3,930,230	48,686,871	131,739,078
	60.0%	3.0%	37.0%	
1910 ..	90,777,566	4,170,562	58,229,280	153,177,408
	59.3%	2.7%	38.0%	

The amount issued increased fairly uniformly from 1900 to 1905 inclusive. In 1905 the investigation across the line seems to have had little effect on the amount of policies issued in Canada, but the same thing cannot be said about the investigation here. In 1906 the amount issued was nearly $11,000,000 less than in 1905, and there was a further decrease of about $5,000,000 in 1907 owing largely, no doubt, to the monetary stringency of that year. Although the business of the American companies suffered in 1905, the business of the Canadian companies improved. In 1906 both the Canadian and American companies showed a decrease, while the British companies showed an increase. The rapid increase during the past two years is partly owing to the activities of a large United States Company which commenced operations in Canada in 1909, and also explains the decrease in the proportion of policies issued by the Canadian companies. Commencing from 1901, the proportion of policies issued in Canada by the Canadian companies steadily increased from 51.8% in that year to 69.1% in 1908, increasing rapidly during the year immediately following the investigation. If we omit the business of the American company referred to above, the Canadian companies wrote 66.3% of the balance in 1909 and 67% in 1910.

Percentage of Policies Issued in Canada.

Industrial policies form a large part of those issued in Canada by the American companies. In 1900 over one-quarter of the amount issued by the American companies consisted of industrial policies. This increased to one-third in 1905 and in 1910 very nearly one-half the policies issued in Canada, by these companies, were industrial.

In the exhibit of policies those issued are divided into the three groups—Life, Endowment, and Other policies. This exhibit was not included in the company reports for 1900, but the percentage in each class is given for the years 1905 to 1910 and the effect of the investigation, on the class of policies issued, is most strikingly shown. It will be understood that re-insurance policies are included.

Percentage of policies issued in Canada by the Canadian, British and American companies in different classes of insurance.

	Life. per cent.	Endowment. per cent.	All Other. per cent.	B.A. per cent.
1905	59.3	34.3	5.6	.8
1906	60.4	33.0	6.4	.2
1907	69.1	23.0	7.3	.6
1908	68.5	23.8	7.0	.7
1909	68.8	23.0	8.0	.2
1910	66.3	21.8	11.1	.8

Compared with the endowment policies, the less expensive forms of insurance, i.e., the life, limited payment life, and even the term policies are now more popular than they were five years ago. Whether this is a permanent change or only temporary, it would be difficult to say, but the same condition is shown by each group of companies. The change is more marked with both the British and American companies than with the Canadian. During the five years the proportion of endowment policies written by Canadian companies has decreased from 25.9% to 21.4%, while the British and American companies showed decreases from 47.8% to 23.1% and from 49.7% to 22.5% respectively. In 1906 the American companies issued 54.9% of their policies in Canada on endowment plans.

Average Amount of Each Policy.

Omitting industrial and monthly policies, the average amount of each policy issued by the British companies is larger than is the case with either the Canadian or American companies. The average amount for each policy issued by the American companies has declined and is now less than that of the Canadian companies, which have been issuing policies of an increasing average amount. Excluding industrial policies, with each group of companies, policies of largest amount are issued on the cheapest plans, i.e., term and all other. The life, and limited payment life policies come next, with the endowment policies of the smallest average amount.

Turning now to those factors which govern the premiums which the policyholder must pay for his insurance, and also the surplus of dividends which he will receive, we shall endeavor to ascertain if any improvement has been shown in this respect during the period under review. These factors are the rate of mortality, the rate of interest and the rate of expense.

Only the Canadian companies have been considered. The British and American companies operate under entirely different conditions, and the volume of business in force with

INVESTMENTS FOR JANUARY DIVIDENDS

We have just issued a new Debenture List containing full particulars of high-grade Canadian Debentures. A number of the Securities offered therein will be particularly interesting to Insurance Companies who require

Wood, Gundy & Company

14 Cornhill
London, England

6 King Street West
Toronto, Canada

these companies compared with the amount of new policies issued is greater than is the case with the Canadian companies. Naturally this would result in a higher death rate and would also reduce the rate of expense compared with the premium income.

Comparisons of Actual Mortality.

The ratios employed are not suitable for comparing one company with another. The object in the present instance is to obtain ratios which will form a fairly satisfactory basis for comparing one year with another.

In his annual report the Superintendent of Insurance gives a table which represents the actual mortality among insured lives in Canada as accurately as can be gathered from the returns of the companies, but they are hardly permissible for definite conclusions as to the trend of the rate of mortality. To arrive at the saving from this source, recourse must be made to a comparison of the actual mortality on net amount at risk with the expected mortality on net amount at risk.

As these figures are not available for the Canadian companies, we cannot do better than make use of those given in the Superintendent's report. They are shown in four groups, viz., those for active companies writing ordinary policies, for active companies writing Industrial policies, for non-active and retired companies as well as for assessment and fraternal societies.

Death Rate.

		Active Companies.	Non-active and Retired Companies.
1900		11.226	40.182
1901		11.213	40.544
1902		10.301	39.221
1903		10.998	34.269
	Ordinary.	Industrial.	
1904	9.506	12.850	46.930
1905	8.568	12.406	39.128
1906	8.232	12.044	43.884
1907	8.617	12.054	46.440
1908	8.375	11.935	52.643
1909	8.231	12.086	36.766
1910	7.830	12.561	30.216

Calculating the Rates.

It is explained that in calculating these rates, the mean number of policies in force and the number of policies terminated by death during the year have been admitted as approximations to the mean number of lives exposed to risk and the number of deaths during the year, respectively.

For the years 1900-1903 inclusive, the industrial policies have been grouped with the ordinary, which explains the decrease during 1904. As showing the effect on the rate of mortality of the inclusion of a body of lives recently examined for insurance, the table is most useful. It shows that in the absence of a comparison of actual with expected mortality on net amount at risk, no attempt should be made to compare the rate of mortality experienced by two companies, as the proportion of recently selected lives may vary considerably.

DUTY OF FIRE UNDERWRITERS

Towards Hostile Legislation — State Rate-making an Interesting Question.

In the main, the purpose of hostile legislation concerning fire insurance companies is openly declared to be, or, in the final analysis, results in, a reduction in the rates of fire insurance. Therefore, I venture to submit the results of the transactions of thirty-eight leading agency companies, from 1866 to 1910, inclusive—a period of forty-five years—which demonstrates conclusively, it seems to me, that this ground of complaint and alleged cause and justification for so much legislation has no foundation in fact.

The above statement was made by Mr. J. D. Browne, president of the Connecticut Fire Insurance Company at the recent meeting of the Fire Underwriters of the North West held at Chicago.

Continuing, Mr. Browne said: These figures show that from 1866 to 1870—five years—on a premium income of $114,000,000, the margin of profit was 7⅓ per cent.: from 1866 to 1875 (ten years) on a premium income of $289,000,000, the profit was 3 7-10 per cent. For fifteen years, ending 1880, on a premium income of $450,000,000, the profit was 6¼ per cent. For the twenty years, ending 1885, on a premium income amounting to $676,000,000, the profit was 6⅓ per cent. For the twenty-five years ending 1890, with a $953,000,000 premium, the profit was 6.35 per cent. For thirty years ending 1895, with a premium income of $1,318,000,000, the profit was 5¾ per cent. For the thirty-five years ending 1900, on a premium income of $1,690,000,000, the percentage of profit was 5 4-10 per cent. For the forty years ending 1905, on a premium income of $2,218,000,000, the profit was 6½ per cent.

Aggregate Losses and Expenses are Heavy.

For the entire period of forty-five years, ending and including 1910, the premium income was $2,906,154,162. The losses paid were $1,709,122,537, or 58 4-5 per cent.; the expenses were $1,024,462,515, or 35¼ per cent. The aggregate losses and expenses were $2,733,585,052, or 94.06 per cent.; the trade profit, $172,569,110, or 5.94 per cent.

If this data is substantially correct, it appears to me to take from under the complainants and the law-makers the chief ground upon which their action rests; and the conclusion reached is that the only way to relieve the public of this burdensome tax must be in providing some way to reduce the fire loss, or the cost of transacting the business—or both.

Unreasonable and unjust laws for the supervision and control of railroad companies, which are now in force and being enacted with ruthless hand, cause a direct loss and damage to insurance companies. The twenty-eight companies which I have cited have assets amounting in round numbers to $295,000,000. Of this, $154,000,000, or more than 50 per cent., are invested in railroad stocks and bonds.

State Rate Making an Interesting Question.

Arbitrary direction and control by incompetent officials, and criminal prosecutions under the Sherman law by the Federal government, must of necessity seriously impair the market value of such securities and correspondingly affect the financial interests of the corporations investing in the same. There is no doubt that many investors of corporation funds, and individuals as well, are to-day anxiously inquiring how long this fitful fever will run, and whether or not it will end in government ownership, or a return to sense and sanity.

The burning question of the present time is State rate making, which involves the right of an insurance company to make a contract of indemnity against loss and damage by fire, and whether or not the State shall determine the obligations of a contract and prescribe the consideration for assuming such obligation. It is revolutionary and destructive. It is the duty of underwriters to resist such an attempt. If we do our duty it seems to me the attempt must fail.

Check Progress and Prevent Further Legislation.

It is no time to "Lie supinely upon our backs and hug the delusive phantom of hope." The attempt is an indictment of the companies for incompetency or dishonesty, or both. That any agent, local or special, or general, should aid and abet, or acquiesce, in such an undertaking on the part of the State, is new and strange and discouraging. To the stockholder it means in its logical result the withdrawal of capital from the business.

The most important duty we have to perform at this time is to check the progress and prevent further legislation of such a drastic and destructive character. The members of this association, particularly the special agents, coming in contact as they do with agents everywhere, and with the public in the adjustment of losses, and in various other ways, can exert a far-reaching and powerful influence in that direction.

BOND TENDERS INVITED.

Monetary Times' Weekly Register of Information for Bond Dealers and Municipal Officials.

Tillsonburg, Ont.—On January 1st the ratepayers will vote on a by-law to raise $9,000.

Waseca, Sask.—In January tenders will be asked for $800 7 per cent. 10-year sidewalk debentures.

Sault Ste. Marie, Ont.—On January 1st by-laws aggregating $202,000 will be submitted to the ratepayers.

Carleton Place, Ont.—On January 1st a by-law will be voted on to raise $200,000 for waterworks system.

Brantford, Ont.—On January 1st the ratepayers will vote on a by-law to raise $85,000 for hospital purposes.

Imperial, Sask.—The village will borrow $2,500 for permanent improvements. J. G. Hobman, secretary-treasurer.

Niagara Falls, Ont.—On January 1st the ratepayers will vote on a by-law to raise $2,500 for new fire apparatus, etc.

Port Credit, Ont.—On January 1st the ratepayers will vote on a by-law to raise $7,500 for Hydro-Electric purposes.

St. Boniface, Man.—The following by-laws have been passed:—$220,000 and $333,500 for school and general purposes.

BOND DEALERS

Increased Income
By Re-investment

We offer several issues of industrial bonds—denominations $100, $500 and $1,000—at 100 and interest, to yield 6%, and will accept in exchange the undernoted bonds, which now show appreciation over issue prices:—

P. Burns & Company, Limited, First Mortgage 6's, due 1924.

Western Canada Flour Mills Company, Limited, First Mortgage 6's, due 1928.

Wm. Davies Company, Limited, First Mortgage 6's, due 1926.

Or we are willing to take other standard securities satisfactory to us, for which current market prices will be paid.

If you are interested, permit us to submit a proposal of exchange.

RELATIVELY HIGH RETURN

The real estate mortgage is the oldest form of security known to man. And not only that—it was the safest for centuries. With the possible exception of government bonds, still the most conservative.

During the past year loan company funds increased over $15,000,000 on the prairies alone. There is an immense field in British Columbia.

Our loans are placed on improved revenue-producing property in Vancouver and New Westminster. Valuations are made by experienced men and are very conservative, being finally passed on by our board of directors.

No loan is made for more than 50% of appraised value. All titles are searched and certified to by our solicitors. We attend to the many small details which are so often a cause of annoyance to the purchaser.

If you have any funds available, we will guarantee a net return of SIX PER CENT. Our entire assets is your security. We collect both principal and interest and remit yearly or half yearly as desired. Advise us how much you would like to invest just now. We will submit a list suitaeble to your requirements.

Carriage Factories, Limited

An interesting feature regarding the First Mortgage 6% Gold Bonds of this consolidation of four old-established carriage factories is that while they are not due until April, 1940, they are subject to redemption at 110 and accrued interest after April, 1920. The coupons are payable 1st April and October at Royal Bank of Canada, Montreal.

Each Company carries on its business separately, but under the direction of the Executive of Carriage Factories, Limited. The economies in purchasing, manufacturing and selling have been very marked.

PRICE: 100 and interest.

Descriptive circular, containing full particulars about the Company, will be mailed on request.

1911 REVIEW and OUTLOOK 1912

"TO have given in this issue a condensed review of commercial operations during the past year" was the aim of John Malcolm Trout, then editor of The Monetary Times, as expressed in his leading editorial for the week of January 12th, 1872.

The Monetary Times was started as a national weekly paper in August, 1867, just six weeks after Confederation. For five years previous to 1872, The Monetary Times had printed in the first or second weekly issue of each year a review of trade and financial matters for the twelve months just ended. Such statistics as the monthly prices of bank stocks, weekly prices of all other securities dealt with in the Canadian market, fluctuations in the gold premium, real estate transactions, insurance summaries, prices of commodities, bond reports, railway figures and other interesting annual review tables and articles were presented.

But in 1872 the "year-beginning" issue was first recognized as a good advertising medium. Several pages were added to accommodate a number of special advertisements, which included four double-page inserts, four full-page displays, three half-page advertisements and a number of smaller ones. And a few hundred extra copies of the issue were printed to supply an expected demand.

During the forty years elapsing since the 1872 Annual Review Number, The Monetary Times has devoted ever-increasing space to the presentation of a quick balance sheet of the country's prosperity as soon after the close of the year as presses, type and human effort can print the pages. The Annual Review Number has become more and more popular as an advertising medium for those desiring to reach the business men and investors in Canada and those in other countries who are interested in Canada. The orders for space and the demands for copies of the issue have grown so greatly in the past forty years that it is planned hereafter to separate the Annual Review Number completely from the regular issue of The Monetary Times.

It will be printed simultaneously with the regular weekly issue for January 6th, 1912, and will contain between 180 and 190 pages. It will be divided into eight sections, and will be thoroughly indexed with eleven index tables. It will prove a most entertaining, instructive and valuable issue, and will undoubtedly be kept for reference throughout the year 1912 by every business man who gets a copy. That is why every firm supplying securities, real estate, insurance, safes and other needs of men who have money should advertise in this number.

DEBENTURES FOR SALE

TOWN OF YORKTON.

DEBENTURES FOR SALE.

Sealed tenders addressed to the undersigned and marked "Tenders for debentures," will be received up to 8.00 p.m. Thursday, February 1st, 1912, for the purchase of the following debentures of the town of Yorkton:—

Concrete walks	$13,500.00
Sewer Extensions	$ 8,500.00
Gravel Pit	$38,000.00
Reimbursing General Account monies overpaid on waterworks, sidewalks, and sewage system	$22,900.00
Reimbursing General Account loss on debentures.	$ 4,850.00
Reimbursing General Account paid for real property	$ 4,750.00
Town's share of concrete walks	$ 1,200.00
Completing Electric Light System	$ 5,100.00
Waterworks extensions	$ 9,500.00
Total	$108,300.00

All the above bear 5 per cent. interest, and all except concrete walks mature in 30 years. The concrete walks debentures mature in 20 years. Full information will be furnished on application to the undersigned.

T. F. ACHESON,
Secretary-Treasurer.

It is understood that Mr. Fred. Murray Smith, accountant in the Board of Trade branch of the Bank of Toronto, Montreal, has been offered the position of manager of the Investment Trust Company, Montreal. Mr. Smith has been in the employ of the bank for fifteen years. His father, the late Mr. Murray Smith, was in its employ for forty years, and was one of the best known bankers in Montreal. He succeeded Mr. Duncan Coulson as manager of the Bank of Toronto, in Montreal, when Mr. Coulson became general manager, and removed to Toronto. Upon his death he was in turn succeeded by Mr. Thomas How, who, in turn also, became general manager, and removed to Toronto. Mr. Fred. Murray Smith is a young man, and has made a great many friends in the Montreal financial world during his service with the bank. His banking experience should be of great service to him in his new capacity.

*Five days only—Christmas Day.

DEBENTURES AWARDED.

Waldron, Sask.—$5,000 6 per cent. 15 years, to Messrs. Ontario Securities Company, Limited, Toronto.

Hardisty, Alta.—$3,000 6 per cent. 7 years, to Messrs. Ontario Securities Company, Limited, Toronto.

Kinistino, Sask.—$2,700 6 per cent. skating rink debentures, maturing 1927, awarded to Messrs. W. L. McKinnon & Company, Toronto.

◆

NOTES OF BIDDING.

Nine Toronto bond firms bid for the $45,000 4½ per cent. 20-year street debentures of North Toronto. As previously noted, the award was made to Messrs. Goldman and Company.

Six bids were received from Toronto bond houses for the $6.600 5 per cent. 20 year local improvement debentures of Lanark, Ont. The offer of Messrs. Brent, Noxon & Company, was accepted.

For the Sheffield Township, Ont., $3,500 5 per cent. 20-year school debentures, eight bids were received, seven from Toronto bond firms and one from the Sterling Bank of Canada. As previously noted, the award was made to Messrs. Brent, Noxon & Company.

◆

ROYAL BANK WILL ABSORB COLONIAL BANK.

Negotiations for the absorption of the Colonial Bank of London, England, by the Royal Bank of Canada have been in progress for some time. The directors of both banks have reached an agreement, and all that is required to complete the matter is ratification by the shareholders of the Colonial Bank. The agreement will shortly be submitted to them, and if approved, the transfer will probably take place about April 1st.

◆

The Toronto City Council have transferred to the Board of Harbor Commissioners the lands owned by the city along the waterfront.

Mr. Ford A. Mansell, promoter of the defunct Canadian Wire Screen Manufacturing Company, was found guilty of false pretences in connection with the flotation of stock.

West Zorra Township will apply to the Ontario Legislature for permission to raise $30,000 to cover, among other things, the loss sustained by the township through the failure of the Farmers Bank. The township lost $23,043, the taxes for 1910, which were on deposit with the defunct bank.

The annual banquet of the Life Underwriters' Association of Kingston and district was held recently. This being the annual visit of the Dominion Association's president, Mr. Vipond was the principal speaker, and his address was an inspiration to all that heard him. Short speeches were delivered by several of the local members, testifying to the value of the association's work.

Messrs. R. C. Matthews & Company, bond dealers, have moved from the Royal Bank building to larger offices in the new Standard Bank building, King Street West, corner of Jordan Street, Toronto.

Accidents vs. Fires

It is said that 20,000,000 Accidents and Illnesses occur each year, but only 80,000 fires.

A business man protects his property against the loss that rarely happens—fire. He can replace his property, but he can never replace his time or his damaged arm.

The most liberal accident and sickness policies are issued by

The Employers' Liability Assurance Corporation, Limited

THE GREAT WEST PERMANENT LOAN COMPANY

Head Office - WINNIPEG, Man.

Branches: Vancouver, Victoria, Calgary, Edmonton, Regina, Fort William

Paid-up Capital	$2,000,000
Assets	4,000,000
Reserve	520,000

MONEY TO LOAN ON IMPROVED CITY AND TOWN PROPERTY

4% allowed on deposits of $1 and upwards

5% allowed on debentures of $100 or over, issued for terms of from 3 to ten years

CAPITAL STOCK 7% INVESTMENT

The Company, having disposed of its Capital Stock some years ago, has. therefore, none for sale, but the stock may be purchased through the Toronto, Winnipeg and Vancouver Stock Exchanges, at prices ranging from $124 to $127 per share.

The last seven half-yearly dividends have been at the rate of **9 per cent. per annum**, so that, at the current prices, the **investment** will **net 7 per cent.**

The Company will be pleased to furnish prospective purchasers with its Financial Statement or other information bearing on the Company, and, if so desired, the Company will purchase the Stock for the investor through the Stock Exchange, or privately, at the current prices.

Since its inception the Company has enjoyed uninterrupted prosperity, and has taken a very active part in the development of the West. With the rapid growth of Western Canada, the demand for money is so great that the present profitable rates of interest will be maintained for years to come; and with such a desirable field for loaning operations, combined with a progressive management, the price of the Company's Stock should continue to advance, and with the prevailing high dividends, the Stock of this Company will undoubtedly be in great demand by those who desire a safe and profitable investment.

BOARD OF DIRECTORS: W. T. Alexander, Esq., Managing Director The Canada National Fire Insurance Company, President and Manager; E. S. Popham, Esq., M.D., Director Standard Trusts Company, Vice-President; Nicholas Bawlf, Esq., President Bawlf Grain Company, Director Bank of Toronto, Director Standard Trusts Company, Second Vice-President; Sir Gilbert Parker, M.P., London, England; E. LIFE ASSURANCE COMPANIES

YOU are in the insurance business to make money; but if you are doing a GENERAL insurance business are you earning as much as you might if you devoted your entire time to Life underwriting? Many representatives of the Equitable who formerly transacted a "fire" or "miscellaneous" insurance business have tripled their incomes by devoting their entire time to life insurance work. In the life insurance field, every man and woman is a possible customer and if you become identified with the Equitable you can offer the most truly liberal policies coupled with the utmost security.

For agency positions, address

G. T. WILSON,
2nd Vice-President,
120 Broadway, New York.

CROWN LIFE POLICIES

Most Liberal Available to Canadian Insurers.

Total Disability,
Automatic Non-forfeiture,
Extended Insurance
No Restrictions,
Large Loan, Cash Surrender, and Paid-up Guarantees,
Low Premium Rates.

Agents wanted, who can write acceptable and paid-for life insurance. Lucrative contracts available for producers—none others need apply.

Head Office Crown Life Building, TORONTO.

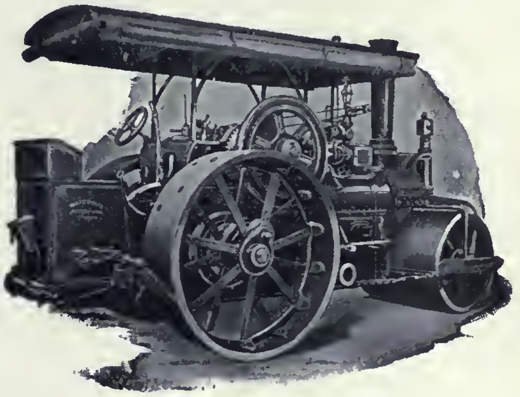
The Waterous
Double Cylinder
Steam Roller



Why we have sold more than thirty of these machines since January 1st.

The Waterous Roller is a road builder in every sense of the word. It can be used in every operation from driving the rock crusher, hauling road material, picking and plowing the old road, to the light, fast, finishing roll.

The twin-cylinder engine, with cranks set on the quarter, runs like a watch. No dead centres, no hanging up in a soft spot, no bucking on the reverse.

It is backed by a steady-steaming boiler, locomotive type, that produces more than enough steam for every working test. Throw off the governor and set it at a hill, and watch it take a 30% grade like an automobile.

Two speeds are supplied, which means fast and slow work under full steam pressure.

Outfit includes:—Rear draw bar, front clevis, driving pulley for rock crusher, full set of road picks, cylinder oil pump, and engine and boiler fittings second to none.

Ask the man on the machine.

JOHN R. LITTLE, Managing Director

BANK BURGLARIES AND FORGERIES.

Mr. Jacques J. Lauzon, claiming to be the son of J. B. Lauzon, ex-member of Parliament for La Verendrye, Manitoba, was arrested at Montreal recently on a charge of obtaining money from the Dominion Bank on false pretences. $1,550.50 is the amount he is said to have secured. The strange feature of the case was that twenty carloads of cattle for which the supposed Lauzon represented himself as agent acting for his father, were actually in Montreal, his father being one of the millionaire cattle dealers of the West. With this knowledge, and on these representations, he went to the bank and presented a supposed buyer, on which transaction he received first $210.50, and then $1,350 on a second visit. The bank knew his father's standing, and had verified the fact that the shipment were in existence, and so they advanced the money for certain expenses.

The pluck of Mr. Arthur Bibbs, junior clerk in the Northern Crown Bank at Central Park, a suburb of Vancouver, British Columbia, saved the institution from robbery recently. Mr. Bibbs sleeps in the bank, and was preparing for bed when he heard someone trying the rear door. With a revolver in his hand he opened the door and commenced firing at two masked robbers. They fired several shots, one of which went through Mr. Bibbs' hand. In a few moments the robbers ran away down an alley and disappeared.

Six months' imprisonment was the sentence given Mr. Herbert Ingelfield at Regina, Sask., who was charged with obtaining money under false pretences. About a month ago Ingelfield was married, and he gave the reverend gentleman a cheque for $30, which subsequently proved to be worthless. He persuaded the hotel clerk to cash a cheque for $40, which proved to be worthless, as well as the one given for his board.

On a charge of forgery Mr. Norman Page was arrested at St. Catharines. It is said that he cashed a cheque on the Bank of Nova Scotia, Woodstock, at Smithville, also that he had been arrested at Woodstock for false pretences, but escaped.

Mr. Wm. Stephenson, of Glencoe, Ontario, has been arrested on a charge of forging the name of Mr. Alex. Dunkinson to a cheque for $23. About two years ago Stephenson served a term in the Central Prison, Toronto, for a similar offence.

For some time the Montreal Canada Assurance Company have been at a loss to account for certain risks that have been turned in to them without any cash return. The matter was placed in the hands of the Thiel Detective Service and following an investigation Mr. George Beaupre, special agent, has been arrested.

Charged with forgery involving an amount of $312, Mr. Charles Fronas, of Fort William, was arrested recently.

Mr. Walter Cobbe has been arrested on a warrant charging with misappropriating $843 from the Canadian Northern Railway office at Sifton, Man., of which he was in temporary charge.

While on a visit to Winnipeg Mr. James Cunningham, of Wilkie, Sask., was arrested on a charge of forgery.

◆

Hon. L. P. Pelletier, Postmaster-General, and Hon. George E. Foster, Minister of Trade and Commerce, have completed arrangements for the transfer of the annuity branch to the Post Office Department from Trade and Commerce.

At the annual meeting of the Ottawa Fire Insurance Agents' Association, recently held, the following officers were elected for the ensuing year: Honorary Presidents, Messrs. H. K. Egan, Robert Stewart, Charles King, Edward King and C. H. Carriere; President, Mr. Cecil Bethune (re-elected); First Vice-President, Mr. C. A. Douglas (re-elected); Second Vice-President, Mr. C. H. Scott; Executive—Messrs. J. E. Fraas, A. D. Stewart, Charles Stewart, C. S. Shaw, H. Richard, and Colonel Courtney; Secretary-Treasurer, Mr. W. Y. Denison. The secretary reported that there were thirty-eight regular members of the association and twenty-seven sub-agents registered. There were ten general meetings of the association during the year and twelve meetings of the executive. The treasurer's statement showed a balance on hand of over $200, and there is every indication of the coming year being even more prosperous than the past year.

◆

The Bank of Ottawa has moved into new quarters at the corner of Seymour and Hastings streets, Vancouver. The block is one of the most handsome in town, the entrance being the finest. The interior finishings are very ornate and were supplied by Canadian firms.

Mr. N. Curry, president of the Canadian Car & Foundry Company, Limited, may take the presidency of the new Canadian Metal Products Company, Limited, which will be established as a result of the visit which several Montreal gentlemen made to College Point, about twelve miles from the city of New York, whre they inspected the plant of the United States Metal Products Company, which has a capital of $8,000,000, with 2,000 men on the payroll. There may be an issue of accumulative seven per cent. preferred stock by the Canadian company, amounting to $500,000, with $1,000,000 of common, and the preferred stock will be taken by the United States Metal Products Company, which will have a representative on the board of the home company. The machinery to be installed is worth about $150,000, and employment will be given at once to several hundred skilled hands. The company will manufacture all kinds of metal window frames, doors, etc., and in fact everything connected with the interior fittings of buildings, both large and small.

WESTERN REAL ESTATE INVESTMENTS.

A block of $80,000 of stock in 800 shares of $100 each of the Canada West Securities Corporation, Limited, is being issued at 105. The primary object of the company is to take advantage of the opportunities for the profitable investment of capital in western Canadian real estate. The company's charter confers wide powers, including the purchase of land, the construction of buildings, the selling and leasing of lands and houses, and the directors think that the company eventually will be able to engage profitably in such business. The immediate object, however, is the purchase of vendors' equities in agreements for sale of real estate. Farm lands and city properties are sold in the majority of cases under agreements for sale, providing for moderate cash payments with the balance of the price payable in instalments spread over several years and carrying interest at 7 or 8 per cent. until settlement. The vendor in this way often obtains a better price than by selling for cash, or on short term payments, and is generally ready to dispose of his title to the property and his interest in the deferred payments at a substantial discount for cash. A company carrying on such a business on a large scale should be able to secure the full benefit of such investments. The success of the Canada West Securities Corporation, Limited, and of other such companies, depends entirely upon strictly honest and businesslike management. The managing director is Mr. H. Melvin; the president, Mr. E. H. Nichols, and the other directors, J. H. Alexander, A. Auriol, E. D. Benson, D. S. McCutcheon, and H. P. O. Savary, all of Calgary.

◆

While boring for water at Castor, Alta., a strong flow of natural gas was struck at a depth of 280 feet.

The Western Assurance Company and the British America Assurance Company will apply to the Dominion Parliament for acts amending their acts of incorporation by extending and defining their powers and authorizing them to carry on the following classes of business throughout Canada and elsewhere: Fire, lightning, explosion, cyclone and tornado, ocean and inland marine, inland transportation, plate glass, sprinkler leakage, automobile, insurance of rent, use and occupancy, express power to accept and give off re-insurance, power to enter into profit-sharing arrangements, partnerships and the like with other companies or underwriters, and for other purposes.

SIX PER CENT. BONDS

REAL ESTATE SECURITY

CANADIAN REAL ESTATE BOND CORPORATION SIX PER CENT BONDS

The Canadian Real Estate Bond Corporation offers for sale its ten-year six per cent. bonds. The bonds are offered and issued at par in denominations of $100. $500. and $1,000

They are a first lien upon all real estate and all other assets of the corporation.

The bonds, as well as all other assets of the corporation, are secured by the absolute ownership in fee of approved real estate in the city of Winnipeg and other Western Canadian cities, or by first mortgage upon such real estate.

The bonds mature in ten years. They have interest coupons attached payable semi-annually.

Send for prospectus and other information.

British Columbia — Timber —

The difficulty of obtaining impartial, reliable information regarding any special section of timber in British Columbia has led this company to install a department under the supervision of Mr. G. F. Gibson, devoted exclusively to timber.

The company acts solely as agent, and will neither purchase nor sell for itself, consequently its recommendations are impartial.

Special reports by most reliable cruisers, noting accessibility for logging, will be furnished with as little delay as careful examination will permit.

Correspondence solicited.
